1. Evolution of financial resources, by object of expenditure	40
2. Evolution of posts, by category, grade and budget section	41
3. Rates of exchange of various currencies relative to the United States dollar, and annual rates of inflation, post adjustment multiplier and cost-of-living adjustment by location, for 2023 and 2024	47
4. Expected increases in 2025 arising from new established posts in 2024, by budget section	47
5. Estimated financial and post resources, by source of funding and budget section.	48
6. Proposed training requirements, by budget section	52
7. Evolution of resources for travel of staff, by budget section	53
8. Consolidated information and communications technology expenditure incurred in 2022, by budget section	55

Foreword

At the halfway point to the deadline for the 2030 Agenda on Sustainable Development, our world is in trouble. The global efforts to combat poverty, hunger, inequality, the climate crisis and misinformation and disinformation is facing challenges on every front. We have the moral duty and obligation to build a more inclusive, prosperous and peaceful future that fully respects human rights and international law.

The proposed programme budget for 2024 is guided by that imperative. It consists of the programme plans for the year and the post and non-post resources required to implement the programmatic activities and legislative mandates. Overall – excluding recosting, construction projects and new mandates – my proposed programme budget remains broadly at the 2023 level.

The document includes proposals to further strengthen delivery in development, maintain international peace and security and improve humanitarian assistance and human rights protection. Resource increases are proposed in five specific areas: advancing sustainable development with increases for the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States and the regular programme of technical cooperation; boosting support to Member States to counter terrorism; bolstering efforts on human rights and humanitarian assistance with additional funding for the Office of the United Nations High Commissioner for Human Rights and the United Nations Relief and Works Agency for Palestine Refugees in the Near East; mainstreaming multilingualism; and strengthening internal efforts to address racial discrimination in the workplace.

The structural changes introduced with management reforms continue to yield results through more ambitious and results-oriented programme plans. We are constantly drawing on lessons learned, including from evaluations, and refining and improving our approaches to increase effectiveness. Our commitment to continuous improvement is also evident in the increased engagement of programme managers in the resource segment of the budget, with the first spending review undertaken in the Economic and Social Commission for Western Asia.

My proposals reflect a continued commitment to investing in the Organization's people to create a more efficient, agile and dynamic human resources system that can better support Member States. We are moving towards a rejuvenated workforce with an increasing proportion of junior posts. With the General Assembly decision to widen the posts subject to the desirable ranges system to all posts funded by the regular budget at the Professional and higher categories, including in special political missions and peacekeeping operations, we are expanding the opportunities for more equitable geographical distribution. Gender parity has been achieved in most entities. In addition, we continue to recalibrate our workforce towards data management and analysis to ensure that our work is supported by current data and clear trends and that it keeps pace with ever-evolving needs.

At this pivotal time for people and planet, I trust that Member States will provide the guidance and adequate and sustainable resources needed to accelerate transitions and achieve the transformations that our world so desperately needs.

(Signed) António **Guterres**

Executive summary

Financial and post resources

(Thousands of United States dollars/number of posts)

	<i>Financial</i>	<i>Regular budget posts, except special political missions</i>	<i>Regular budget posts, special political missions</i>
Appropriation for 2023	3 396 308.3	10 135	4 346
Technical adjustments	(127 211.6)	–	–
New and expanded mandates	51 973.3	121	16
Other changes	19 436.5	78	9
Total changes	(55 801.8)	199	25
Proposed programme budget for 2024 (before recosting)	3 340 506.5	10 334	4 371
Recosting	64 163.4	–	–
Proposed programme budget for 2024 (after recosting)	3 404 669.9	10 334	4 371

The proposed programme budget for 2024 amounts to \$3,340.5 million before recosting, representing a decrease of \$55.8 million, or 1.6 per cent, compared with the appropriation for 2023. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Under technical adjustments, a net decrease of \$127.2 million reflects mainly the discontinuation of non-recurrent provisions included in the appropriation for 2023 for multi-year construction projects and for mandates of the Human Rights Council.

An increase of \$52.0 million is proposed for the implementation of new and expanded mandates, comprising mainly:

- \$14.6 million in additional regular budget resources under section 26, to support expenses for operational costs related to executive and management functions of the United Nations Relief and Works Agency for Palestine Refugees in the Near East in line with General Assembly resolution [77/122](#).
- \$10.8 million in additional resources under section 24, to implement mandates emanating from resolutions and decisions of the Human Rights Council and the General Assembly.
- \$6.9 million in additional resources under section 28, to strengthen multilingualism, including the establishment of 54 posts, for the production of press releases simultaneously across the six official United Nations languages as mandated by the General Assembly.
- \$5.8 million in additional resources under section 2, to implement various mandates of the General Assembly and the Human Rights Council.
- \$4.3 million in additional regular budget funding for the Office of Counter-Terrorism, under section 3, including 24 posts proposed to be converted from extrabudgetary funding to the regular budget, in line with General Assembly resolution [75/291](#).
- \$3.6 million in additional resources under section 36 associated with the additional posts and positions required to implement the new and expanded mandates.

An increase of \$19.4 million is proposed under other changes, comprising mainly:

- \$6.1 million for special political missions, under section 3, reflecting the net effect of a \$13 million increase due to the application of updated salary scales, post adjustment multipliers, and common staff costs and vacancy rates for civilian personnel based on recent expenditure experience, offset in part by a reduction of \$7 million across all missions.

- \$5.4 million in additional resources under section 24, to strengthen the support to intergovernmental mechanism and evaluation processes as well as to clear the backlog of reports of the treaty bodies system to be processed (\$5.9 million), offset in part by efficiencies reflecting mainly the optimized use of premises, travel, software licences, and supplies and materials.
- \$2.5 million to strengthen development, comprising additional resources under sections 10 and 23.
- \$1.4 million under section 1, mainly to provide resources for the establishment of a new data protection office.
- \$1.3 million under section 33, for information and communications technology projects, offset in part by lower provisions in alteration, upgrades and major maintenance programmes and standardized access control project and other related security system upgrades.
- \$3.6 million in additional resources under section 36 associated with the proposed additional posts and positions.

The above increases are offset in part by decreases of approximately \$12 million, including the reductions of \$7.5 million already indicated above (\$7 million under special political missions and \$0.5 million under human rights), enabled by resource decreases identified across the Organization, mainly in its support functions.

Introduction

1. The General Assembly, in its resolution [77/267](#), recalled paragraphs 6 and 7 of its resolution [72/266 A](#), in which it approved the change from a biennial to an annual budget period on a trial basis and decided to lift the trial period effective from 2023. It also requested the Secretary-General to continue with the submission of the programme budget according to an annual cycle. Accordingly, the proposed programme budget document continues to consist of three parts:
 - (a) Part I: the plan outline, which endorses the long-term priorities and the objectives of the Organization;
 - (b) Part II: the programme plan for programmes and subprogrammes and programme performance information;
 - (c) Part III: the post and non-post resource requirements for the programmes and subprogrammes.
2. The General Assembly reaffirmed that parts I and II of the proposed programme budget should be submitted through the Committee for Programme and Coordination and part III through the Advisory Committee on Administrative and Budgetary Questions for the consideration of the Assembly.
3. The General Assembly noted with appreciation the cumulative improvements to the presentation format of the proposed programme budget resulting from the implementation of the guidance from the Assembly during the annual budget trial period and welcomed the submission of the proposed programme plan and programme performance alongside the proposed post and non-post resource requirements in a single document.
4. The proposed programme budget for 2024 has been prepared in keeping with the guidance of the General Assembly and is structured accordingly. In line with paragraph 8 of resolution [72/266 A](#), the plan outline is submitted once every three years, with the next plan outline to be submitted in 2025.
5. In its resolutions [77/254](#), [77/262](#), [77/267](#) and [77/264 A–C](#), the General Assembly decided on the programme plans and budget appropriations for 2023 and provided guidance to the Secretary-General for future proposed programme budgets. The present report outlines specific action taken to operationalize that guidance. In accordance with financial regulation 2.3, the proposed programme budget for 2024 is compared against the appropriation for 2023 approved by the Assembly in its resolutions [77/264 A–C](#).
6. The overall resource requirements for special political missions continue to be presented under section 3, Political affairs, of the proposed programme budget, whereas resource requirements for individual missions are presented as addenda to section 3.

Liquidity has improved but continues to constitute a risk

7. The Secretary-General began his appeals to Member States in January 2018 by writing to them regarding the troubling financial situation of the United Nations. That year began with arrears of \$531 million, \$122 million higher than at the start of 2017. The Secretariat took extraordinary measures to mitigate the liquidity problems, including by delaying some budgeted expenditure from the start of 2018. Without those measures, the regular budget would have showed a negative cash balance of well over \$400 million at year end of 2018. More importantly, in October, the regular budget cash would not have been sufficient to cover monthly operating costs even if the Secretariat had borrowed the full amount available in the accounts of closed peacekeeping operations.
8. In 2019, the Organization started the year with arrears of \$529 million. In March of that year, the Secretary-General briefed the General Assembly on the deteriorating financial health of the Organization. He highlighted the deepening liquidity problems in the regular budget and subsequently issued a report on improving the financial situation of the United Nations ([A/73/809](#)), in which he detailed a set of measures to address the liquidity problems, as well as broader structural issues that constrained budget management. During the year, the deterioration in liquidity brought the Organization alarmingly close to exhausting not only the regular budget liquidity reserves, but

also the surplus cash in closed peacekeeping operations, exposing it to serious risk of defaulting on payments to its personnel and vendors. Therefore, the initial spending restrictions introduced in 2018 had to be significantly expanded in 2019 in order to align cash outflows with the anticipated cash inflows. Unavoidably, such spending restrictions resulted in mandated activities not being fully implemented. The year ended with an unpaid assessment amounting to \$711 million, further exacerbating an already precarious situation.

9. In 2020, the liquidity situation remained dire throughout the year and was improved only marginally in the last 10 days of the year by the receipt of more than \$300 million in collections. However, programme managers did not have enough time to commit funds for activities whose implementation had been delayed. To mitigate the impact of the spending restrictions on programme delivery, special commitments were introduced to give programme managers additional time for implementing mandates and delay the return of unspent funds, which would have deepened the liquidity crisis even further. The year ended with another record for outstanding regular budget contributions in the amount of \$808 million, surpassing the previous record of \$711 million set in 2019.
10. In 2021, extraordinarily large collections in April allowed a partial relaxation of the cash conservation measures. Although the year ended with a cash surplus, the restrictions that remained in place until May 2021 came at a price for the Organization, in the form of the lowest rate of budget implementation since 2010. The year 2021 also saw an improvement in year-end outstanding contributions, at \$434 million.
11. In 2022, the fluctuating payment patterns of Member States continued. Relative to collection estimates, a \$21 million surplus at the end of the first quarter morphed into a \$279 million deficit by the end of the second quarter. Collections briefly made up lost ground, and the third quarter ended with a surplus of \$62 million. However, by the end of November, collections trailed estimates by as much as \$424 million. Large contributions during December resulted in collections exceeding estimates by \$71 million for the year, which ended with unpaid assessments of \$330 million, the lowest level since 2016. Notwithstanding collections trailing estimates for most of the year, no spending restrictions were implemented owing to a healthy cash balance at the beginning of 2023 and concern that spending restrictions could trigger poor budget implementation, which would compound the liquidity crisis when unspent funds are subsequently returned.
12. In 2023, collections at the end of April were trailing projections by \$370 million. A healthy cash balance of \$340 million at the beginning of the year and General Assembly resolution [76/272](#), of June 2022, increasing the working capital fund by \$100 million from 2023 using a portion of the credits returnable in 2023 have, to date, allowed the Organization to avoid spending restrictions and make it possible for programme delivery to be guided by the programme of work rather than liquidity constraints. However, even in the best-case scenario, 2023 will end with a cash balance of \$129 million, which is smaller than at the start of the year, given that Member States were assessed less than the budget for 2023 owing to the return of credits for prior years.
13. In 2024, with a smaller opening cash balance, the pressure on liquidity will increase, rendering the Organization more vulnerable to the volatility of payments by Member States during 2024. The liquidity pressure will be further aggravated by any increase in the level of arrears at the end of 2023. Notifications by Member States of the timing of their payments will enable the Organization to better plan its budget spending in anticipation of contributions; such planning is necessary for mitigating the risk of failing to meet legal obligations and for reducing the rush of commitments towards the end of the year. Even if contributions are collected in full, with full budget implementation, the cash balance at the end of 2024 is anticipated to fall to as low as \$20 million owing to the return of savings from prior periods.
14. In June 2022, the General Assembly, in its resolution [76/272](#), also approved the use of the surplus cash in closed tribunals for regular budget liquidity, as an alternative to using the cash in closed peacekeeping missions, which they decided to return. This liquidity buffer is likely to be critical for the budget in 2025 as the impact of the return of savings from prior periods continues to erode the cash balances.

15. In short, starting the year with less cash leaves the Organization more vulnerable to disruptions from fluctuating payment patterns of Member States. In addition, any increase in the level of arrears will further erode the liquidity reserves and reduce the opening cash balance.
16. Had Member States not approved the increase of the working capital fund from 2023 using credits, the financial situation in 2024 and beyond would have been as dire or even worse than in the recent past. Full and timely payments by Member States will remain critical to providing a more predictable and stable financial environment for supporting programme delivery.

Continued progress towards equitable geographical distribution and gender parity

17. The goals for equitable geographical distribution and gender parity remain part of the overall strategy to make the Organization a diverse workplace that reflects the geographical and gender diversity of the peoples it serves and in which differences in background, perspectives and abilities are valued. In order to achieve those goals, the Organization continues to make progress towards attaining the objective of equitable geographical distribution and gender parity, as well as working towards ensuring that the staff selected for non-geographical posts are recruited from as wide a geographical basis as possible. Over the five-year period between December 2017 and December 2022, the number of unrepresented and underrepresented countries was reduced by approximately 8 per cent, from 63 to 58. Gender parity has been achieved in most entities but not within all levels and entities. Goals for equitable geographical distribution and gender parity are pursued first and foremost through human resources management policies, practices and processes. Accordingly, progress in those areas continues to be described in the relevant reports of the Secretary-General relating to human resources management, in particular the report on the composition of the Secretariat and the report on the overview of human resources management reform for the period 2021–2022 (the most recent of which are [A/77/580](#) and [A/77/590/Add.1](#), respectively).

Acquiring future workforce capabilities

18. To support the delivery of mandates in changing operational environments, including technological transformations, in a way that is aligned with the long-term priorities and objectives set by Member States for the Organization, strategic workforce planning has served to identify a set of workforce capabilities for the Secretariat that need to be reinforced in the coming years. Among those capabilities, data analytics, digital transformation, innovation, strategic foresight and behavioural science capabilities have been prioritized.¹ The Organization is strengthening its capabilities in those areas through a range of talent management actions, as reflected in the report of the Secretary-General on ways forward in the implementation of human resources management reforms for the period 2023–2026 ([A/77/590](#)). The reclassification and reassignment of existing functions across programme budget sections may address needs in those areas, especially in data analytics and management, and create opportunities for rejuvenating the workforce. Given that strengthening workforce capabilities is a long-term endeavour, post and non-post resource proposals will continue to be included in future budgets as entities assess their specific needs for workforce capabilities and present resource proposals tailored to their operational contexts. Such proposals are vital elements in advancing workforce transformation that provides for the skills, knowledge and abilities needed to effectively and efficiently deliver mandates today and in the foreseeable future.

¹ The “quintet of change” described in the report of the Secretary-General entitled “Our Common Agenda” ([A/75/982](#)), welcomed in General Assembly resolution [76/6](#).

A. Methodology and format

1. Programme budget methodology

19. The preparation of the programme budget is guided by the programme budget methodology, as approved by the General Assembly over the years. The main elements of the methodology are outlined in table 1.

Table 1
Elements of the programme budget methodology

<i>Year</i>	<i>Document reference</i>	<i>Main elements, stipulations and areas covered</i>
1969	Resolution 2617 (XXIV)	Introduced the recosting concept
1986	Resolution 41/213	Introduced aspects of the budget process, including the contingency fund
1987	Resolution 42/211	Approved the guidelines for the implementation and use of the contingency fund
1993	Resolution 47/212 A	Reaffirmed that the search for efficiency should be a continuous process and requested the development of workload standards and the improved presentation of extrabudgetary resources and changes in the staffing table
1999	Resolution 54/15	Established modalities for operations of the Development Account
2000	Resolution 55/231	Introduced results-based budgeting frameworks as part of the medium-term plan for the period 2002–2005
2004	Resolution 59/275	Replaced the medium-term plan with the strategic framework, beginning with the period 2006–2007
2004	Resolution 59/264 A	Approved the report of the Board of Auditors on the recosting methodology
2007	Resolution 62/236	Requested the inclusion of resources from other funding sources
2008	A/63/620 and resolution 63/263	Detailed the recosting methodology included in the report of the Advisory Committee on Administrative and Budgetary Questions endorsed by the General Assembly
2013	Latest version of the Financial Regulations and Rules of the United Nations (ST/SGB/2013/4 and ST/SGB/2013/4/Amend.1), as approved by the General Assembly	Covered: <ul style="list-style-type: none"> • Presentation, content and methodology of the programme budget • Review and approval of the programme budget • Revised programme budget requirements • Programme budget implications • Unforeseen and extraordinary expenses • Working Capital Fund • Adoption of the International Public Sector Accounting Standards
2014	Resolution 69/274 A	Approved the use of forward exchange rates in the recosting methodology Requested the use of more detailed and richer information available from Umoja to refine recosting estimates

<i>Year</i>	<i>Document reference</i>	<i>Main elements, stipulations and areas covered</i>
2017	Resolution 72/266 A	Approved the annual programme budget on a trial basis; decided that the proposed programme budget should consist of three parts, and that parts I and II should be submitted to the Committee for Programme and Coordination and part III to the Advisory Committee on Administrative and Budgetary Questions for the consideration of the General Assembly
2018	Latest version of the Regulations and Rules Governing Programme Planning, the Programme Aspects of the Budget, the Monitoring of Implementation and the Methods of Evaluation (ST/SGB/2018/3), as approved by the General Assembly	Covered: <ul style="list-style-type: none"> • Planning, programming and budgeting process • Strategic framework • Programme aspects of the budget • Monitoring of programme implementation • Evaluation
2019	Resolution 73/279	Endorsed recosting arrangements for the International Trade Centre
2022	Resolution 77/262	Requested that each programme undergo a spending review at least once every five years Requested calculations of both gross and net requirements for the proposed programme budget Decided that all reclassifications, reassignments, conversions and redeployments, as well as the establishment of temporary positions, should apply continuing vacancy rates
2022	Resolution 77/263	Decided to merge the reports of the Secretary-General on the transfers between sections and the financial performance report on the programme budget, and requested the finalization of the merged report by the end of May following the submission of the financial statements as at 31 March.
2022	Resolution 77/267	Decided to lift the trial period effective from 2023, and requested the Secretary-General to continue with the submission of the programme budget according to an annual cycle; and welcomed the submission of the proposed programme plan and programme performance alongside the proposed post and non-post resource requirements in a single document

2. Operationalization of guidance in resolutions [77/254](#), [77/262](#) and [77/267](#) on the budget presentation format and methodology

20. In the context of the review of the proposed programme budget for 2023, the General Assembly adopted resolutions [77/254](#), [77/262](#) and [77/267](#) and provided the following guidance:
- (a) In paragraph 7 of its resolution [77/254](#), on programme planning, the Assembly noted the increased size and volume of budgetary documentation and noted with appreciation the continued efforts of the Secretary-General to enhance the quality, clarity and usability of the proposed programme budget while maintaining the level of information provided to Member States. The proposed programme budget for 2024 reflects continued efforts in this regard, in particular by further improving the structure and consistency of subprogramme strategies;

- (b) In paragraph 20 of its resolution [77/262](#), the Assembly requested that each programme of the regular budget undergo a spending review at least once every five years. The proposed programme budget for 2024 includes the outcome of the spending review for programme 19, Economic and social development in Western Asia. The spending review leverages the existing presentation format and serves as the basis for proposed changes in resource allocations. The Secretariat plans to include spending reviews as part of future budget proposals for approximately six programmes each year;
- (c) In paragraph 21 of the same resolution, the Assembly also requested the presentation of calculations of both gross and net resource requirements. Such information is provided under section 36 of the proposed programme budget for 2024;
- (d) In paragraph 25 of the same resolution, the Assembly requested the review of posts vacant for 24 months or longer. Information on such posts, including action taken to fill such posts, will be provided during the consideration of the proposed programme budget;
- (e) In paragraph 8 of its resolution [77/262](#), the Assembly endorsed the recommendations of the Advisory Committee on Administrative and Budgetary Questions contained in its first report on the proposed programme budget for 2023 ([A/77/7](#)), subject to the provisions in that resolution. The recommendations of the Committee that were endorsed by the Assembly and the action taken to implement them are provided in annex I;
- (f) In paragraph 18 of its resolution [77/267](#), the Assembly requested to assess a procedure to inform the Advisory Committee of resource implications that might result from recommendations of the Committee for Programme and Coordination, for the consideration of the Assembly, to address the sequential nature of the review process. As noted in paragraph 43 of the report of the Secretary-General entitled “Shifting the management paradigm in the United Nations: budgetary procedures and practices” ([A/74/852](#)), the establishment of a standard procedure for communication to the Advisory Committee of possible, albeit rare, budgetary implications arising from the conclusions and recommendations of the Committee for Programme and Coordination would ensure that the Advisory Committee was properly informed. Such a procedure would be similar to the precedent provided in paragraph 40 (a) of the same report. Specifically, in June 2004, in the 2006–2007 biennial programme plan for programme 24, Management and support services, the Committee for Programme and Coordination recommended adding some activities. The Secretariat submitted a statement of programme budget implications to the Committee for Programme and Coordination ([E/AC.51/2004/7](#)) in accordance with rule 31 of the rules of procedure of the Economic and Social Council in which the Secretariat indicated that, should the Committee decide to adopt the recommendations, the Secretary-General would report the programme budget implications to the Council and the Assembly. The report was adopted and led to a separate statement of programme budget implications to the Assembly in November 2004 ([A/C.5/59/13](#)), in which it was indicated that, should the Assembly endorse the recommendations contained in the report of the Committee for Programme and Coordination, there would be budgetary implications. On that basis and prior to the adoption of General Assembly resolution [59/275](#), the Advisory Committee issued a report on the programme budget implications of recommendations contained in the report of the Committee for Programme and Coordination ([A/59/567](#)), recommending that the Assembly be informed that an additional amount would be required. The related resources were approved by the Assembly in its decision 59/549. In response to paragraph 18 of Assembly resolution [77/267](#), the Secretary-General would apply the already established standard procedure described for the above precedent but would submit the statement of budgetary implications to the Advisory Committee in July, to enable the Committee to comprehensively review the statement together with the relevant proposed programme budget;
- (g) In paragraph 30 of the same resolution, the Assembly requested the Secretary-General to ensure effective and efficient utilization of available resources and programme delivery by programme managers, including through clearly defined results-based performance indicators and

benchmarks. The proposed programme budget for 2024 includes clearly defined results-based performance indicators and benchmarks for the year, such as a higher percentage of shelters in Palestine refugee camps connected to adequate water supply; shorter time for military contingents to reach full operational capability; a higher number of countries that establish early warning systems to increase preparedness and response to disasters; and a higher number of micro-, small and medium-sized enterprises connected and enabled to compete digitally.

21. Before finalizing the proposed programme budget for 2024, the Secretariat, in February 2023, facilitated the early engagement of Member States in the budget preparation process, pursuant to paragraph 5 of General Assembly resolution [77/254](#). Informal consultations with Member State groups were held to validate the interpretation by the Secretariat of the guidance received from the Assembly and its impact on the proposed programme budget for 2024. The final presentation format of the proposed programme budget for 2024 incorporates the additional guidance received from Member States during those consultations.

B. Post and non-post resource requirements

1. Overview of resources for the regular budget

22. The proposed programme budget for 2024 amounts to \$3,340.5 million before recosting, representing a decrease of 1.6 per cent, or \$55.8 million, compared with the appropriation for 2023, as shown in table 2. Additional proposals will be submitted later in the year, mainly for major construction projects and for revised estimates resulting from resolutions of the Human Rights Council. Reports with potential budgetary implications are presented in paragraph 47 below. The proposed level of resources provides for the full, efficient and effective implementation of mandates.
23. The overall resource requirements for special political missions for 2024 amount to \$775.3 million, compared with an appropriation of \$768.3 million for 2023, and are included under section 3, Political affairs.

Table 2
Evolution of financial resources, by factor and budget part and section

(Thousands of United States dollars)

Part/section	2022 expenditure	2023 appropriation	Changes				2024 estimate (before recosting)	Recosting	2024 estimate (after recosting)	
			Technical adjustments	New/ expanded mandates	Other	Total				Percentage

^a Administration, Nairobi changes from section 29G in 2023 to section 29D in 2024.

24. A total of 10,334 posts is proposed under the expenditure sections for 2024 compared with 10,135 posts approved in 2023, as reflected in table 3.

Table 3
Evolution of posts, by factor

(Number of posts)

Approved 2023	Changes				Total	Percentage	Proposed 2024
	Technical adjustments	New/expanded mandates	Other				
10 135	–	121	78	199	2.0	10 334	

2. Explanation of variances, by factor and budget section or entity

Technical adjustments

25. The net reduction of \$127.2 million reflects mainly the removal of non-recurrent provisions in the amount of \$135.9 million, offset in part by additional resources relating to the higher provisions for 108 new and reassigned posts and general temporary assistance positions approved for 2023 that were subject to a vacancy rate of 50 per cent, in line with the established practice (\$8.3 million). In addition, other adjustments of a technical nature resulted in an increase of \$0.4 million.

Removal of one-time provisions

26. The proposed programme budget for 2024 includes a decrease of \$135.9 million due to the discontinuation of non-recurrent provisions that were included in the appropriation for 2023. Table 4 provides additional details.

Table 4
Technical adjustments for 2024 resulting from the discontinuation of non-recurrent provisions approved for 2023, by budget section

(Thousands of United States dollars)

Section	Amount	Discontinuation of non-recurrent provisions approved for 2023 associated with the following items

Total	(135 937.7)	

^a Administration, Nairobi changes from section 29G in 2023 to section 29D in 2024.

Provisions at continuing rates for posts and general temporary assistance positions established and subject to a vacancy rate of 50 per cent in 2023

27. In accordance with the established practice, a vacancy rate of 50 per cent was used as the basis for the calculation of provisions for the establishment and reassignment of posts and general temporary assistance positions included in the programme budget for 2023. Table 5 provides the additional provisions in 2024 for 98 posts and 10 general temporary assistance positions approved pursuant to General Assembly resolutions [77/262](#) and [77/263](#), which were subject to a 50 per cent vacancy rate in 2023 and are now budgeted at continuing vacancy rates. Table 6 provides other technical adjustments.

^b The United Nations share of a new post for the United Nations System Chief Executives Board for Coordination.

Table 6
Other technical adjustments for 2024, by budget section

(Thousands of United States dollars)

<i>Section</i>	<i>Amount</i>	<i>Description of proposed change</i>
31. Jointly financed administrative activities	(3.5)	Changes in the United Nations share of the budget for jointly financed activities for: (a) International Civil Service Commission, from 37.5 per cent to 38.3 per cent; (b) Joint Inspection Unit, from 28.4 per cent to 27.5 per cent; (c) United Nations System Chief Executives Board for Coordination, from 30.7 per cent to 30.4 per cent
34. Safety and security	389.8	Changes in the United Nations share of the budget for jointly financed activities for: (a) Security and safety services, from 23.0 per cent to 23.2 per cent; (b) Regional field operations, from 16.8 per cent to 17.0 per cent; (c) Partnerships and specialized support, from 16.8 per cent to 17.0 per cent
Total	386.3	

New and expanded mandates

28. The proposal includes resources for new and expanded mandates in the amount of \$52.0 million emanating from resolutions and decisions of competent intergovernmental bodies, as reflected in table 7.

Table 7
New and expanded mandates for 2024, by budget section

(Thousands of United States dollars)

<i>Section</i>	<i>Amount</i>	<i>Description of mandate</i>
1. Overall policymaking, direction and coordination	94.2	(a) Investigation into the conditions and circumstances resulting in the tragic death of Dag Hammarskjöld and of the members of the party accompanying him (General Assembly resolution 77/252); (b) Committee on Contributions
2. General Assembly and Economic and Social Council affairs and conference management	5 807.6	Various mandates emanating from resolutions of the General Assembly and the Human Rights Council

<i>Section</i>	<i>Amount</i>	<i>Description of mandate</i>
3. Political affairs (special political missions)	928.8	(a) United Nations Verification Mission in Colombia (Security Council resolution 2673 (2023)); (b) Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction (Security Council resolution 2663 (2022))
3. Political affairs (other)	4 504.3	(a) The United Nations Global Counter-Terrorism Strategy: seventh review (General Assembly resolution 75/291); (b) Independent strategic and civilian staffing review of the United Nations Office to the African Union (General Assembly resolution 77/262)
4. Disarmament	1 837.2	(a) Transparency in armaments (General Assembly resolution 77/69); (b) Developments in the field of information and telecommunications in the context of international security (General Assembly resolution 75/240); (c) The illicit trade in small arms and light weapons in all its aspects (General Assembly resolution 77/71); (d) Further practical measures for the prevention of an arms race in outer space (General Assembly resolution 77/250)
7. International Court of Justice	236.0	Request for an advisory opinion of the International Court of Justice on the obligations of States in respect of climate change (General Assembly resolution 77/276)
8. Legal affairs	32.0	Oceans and the law of the sea (General Assembly resolution 75/239)
9. Economic and social affairs	702.0	Enhancing global geospatial information management arrangements (Economic and Social Council resolution 2022/24)
10. Least developed countries, landlocked developing countries and small island developing States	40.0	(a) Follow-up to the second United Nations Conference on the Landlocked Developing Countries (General Assembly resolution 77/246); (b) Follow-up to and implementation of the SIDS Accelerated Modalities of Action (SAMOA) Pathway and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States (General Assembly resolution 77/245)
14. Environment	628.7	(a) Effects of atomic radiation (General Assembly resolution 77/119); (b) Report of the United Nations Environment Assembly of the United Nations Environment Programme (General Assembly resolution 73/260) and provisional agenda, date and venue of the sixth session of the United Nations Environment Assembly (UNEA decision 5/4)
15. Human settlements	153.8	Implementation of the outcome of the United Nations Conference on Housing and Sustainable Urban Development (Habitat III) and strengthening of the United Nations Human Settlements Programme (UN-Habitat) (General Assembly resolution 71/235)
20. Economic development in Europe	20.4	Workplan on reform of the Economic Commission for Europe and revised terms of reference of the Commission (Economic and Social Council resolution 2006/38)
24. Human rights	10 810.4	Various mandates from the Human Rights Council and the General Assembly
26. Palestine refugees	14 594.0	Operations of the United Nations Relief and Works Agency for Palestine Refugees in the Near East (General Assembly resolution 77/122)
28. Global communications	6 938.6	(a) Multilingualism (General Assembly resolution 77/262); (b) Strengthening and enhancing the effective functioning of the human rights treaty body system (General Assembly resolution 68/268)
29B. Department of Operational Support	866.2	Non-posts requirements (office space alterations) associated with the establishment of 61 posts in the Department of Global Communications and the Department of Economic and Social Affairs
29C. Office of Information and Communications Technology	49.8	(a) Transparency in armaments (General Assembly resolution 77/69); (b) Crimes against humanity (General Assembly resolution 77/249); (c) Further practical measures for the prevention of an arms race in outer space (General Assembly resolution 77/250);

A/78/6 (Introduction)

<i>Section</i>	<i>Amount</i>	<i>Description of mandate</i>
		(d) Modalities for the Summit of the Future (General Assembly resolution 76/307)
29E. Administration, Geneva	111.1	Various mandates from resolutions of the Human Rights Council and the General Assembly
34. Safety and security	37.3	Modalities for the Summit of the Future (General Assembly resolution 76/307)
36. Staff assessment	3 580.9	Staff assessment associated with the additional posts and general temporary assistance positions proposed in support of the aforementioned mandates
Total	51 973.3	

Other changes

29. Resource changes not grouped under technical adjustments and new and expanded mandates amount to \$19.4 million, as described in table 8.

Table 8
Other changes for 2024, by budget section

(Thousands of United States dollars)

<i>Section</i>	<i>Amount</i>	<i>Description of proposed change</i>
1. Overall policymaking, direction and coordination	1 367.6	Reflects the net effect of the following: <ul style="list-style-type: none"> (a) Conversion from extrabudgetary to regular budget funding of 1 post in the Office of the Special Representative of the Secretary-General for Children and Armed Conflict and related non-post resources; (b) Establishment of 4 posts in the new office of data protection and privacy and related non-post resources; (c) Establishment of 1 post in the Director-General Office's in Nairobi; (d) Higher provisions under travel of staff in the Office of the Victims' Rights Advocate; (e) Higher provisions under consultants and travel of staff in the Office of the Special Representative of the Secretary-General on Violence against Children; (f) Lower provisions under contractual services in the Board of Auditors and travel of staff in the United Nations Joint Staff Pension Board
2. General Assembly and Economic and Social Council affairs and conference management	(195.0)	Reflects the redeployment to section 3, Political affairs, of resources to support the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples
3. Political affairs (special political missions)	6 062.4	Reflects the application of updated salaries, post-adjustment multipliers, common staff costs and vacancy rates
3. Political affairs (other)	513.0	Reflects the following: <ul style="list-style-type: none"> (a) Upward reclassification of 1 post in the Office of the Special Coordinator for the Middle East Peace Process and Personal Representative of the Secretary-General to the Palestine Liberation Organization and the Palestinian Authority; (b) Establishment of 2 posts and related non-post resources in the Office of the Special Coordinator for the Middle East Peace Process and Personal Representative of the Secretary-General to the Palestine Liberation Organization and the Palestinian Authority; (c) Redeployment from section 2 of resources to support the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and other non-post resources in the Department of Political and Peacebuilding Affairs; (d) Redeployment of 2 posts from Nairobi to Arusha
4. Disarmament	(109.1)	Reflects lower provisions under experts

<i>Section</i>	<i>Amount</i>	<i>Description of proposed change</i>
5. Peacekeeping operations	248.2	Reflects the net effect of the following: (a) Redeployment of 1 post from Damascus to Jerusalem in the United Nations Truce Supervision Organization; (b) Higher provisions under other staff costs and furniture and equipment in the United Nations Truce Supervision Organization; (c) Lower provisions under general operating expenses and improvement of premises in the United Nations Truce Supervision Organization
7. International Court of Justice	537.4	Reflects the net effect of the following: (a) Establishment of 3 new posts (b) Higher provisions under non-staff compensation (c) Lower provisions under contractual services
8. Legal affairs	492.8	Reflects the following: (a) Establishment of 3 general temporary positions and related non-post resources in the Independent Investigative Mechanism for Myanmar; (b) Higher provisions under travel of staff in the Independent Investigative Mechanism for Myanmar
9. Economic and social affairs	132.3	Reflects the net effect of the following: (a) Establishment of 1 post; (b) Inward redeployment and conversion to a post of 1 general temporary assistance from section 35; (c) Higher provisions under travel of representatives; (d) Abolishment of 2 posts
10. Least developed countries, landlocked developing countries and small island developing States	1 036.3	Reflects the establishment of 8 posts and related non-post resources
18. Economic and social development in Africa	120.0	Reflects mainly higher provisions under general operating expenses
20. Economic development in Europe	(145.4)	Reflects the net effect of the following: (a) Abolishment of 2 posts; (b) Establishment of 2 posts
23. Regular programme of technical cooperation	1 500.0	Reflects mainly higher provisions under consultants, travel of staff, contractual services, and grants and contributions
24. Human rights	5	Reflects the net effect of the following: (a) Establishment of 6 temporary posts; (b) Conversion of 33 posts from extrabudgetary to regular budget funding; (c) Conversion of 5 general temporary positions to posts; (d) Lower provisions under general operating expenses, other staff costs and contractual services
26. Palestine refugees	(11.4)	Reflects the net effect of the following: (a) Redeployment (geographical) of 3 posts; (b) Upward reclassification of 1 post
28. Global communications	25.9	Reflects mainly higher provisions under contractual services
29A. Department of Management Strategy, Policy and Compliance	653.0	Reflects the net effect of the following: (a) Establishment of 2 general temporary positions; (b) Conversion from extrabudgetary to regular budget funding of 1 post; (c) Higher provisions under contractual services; (d) Lower provisions under other staff costs and grants and contributions; (e) Redeployment of 1 post from New York to Nairobi

A/78/6 (Introduction)

Section	Amount	Description of proposed change
29B. Department of Operational Support	(1 479.5)	Reflects the net effect of the following: (a) Abolishment of 4 posts; (b) Lower provisions under general operating expenses; (c) Establishment of 2 posts; (d) Higher provisions under contractual services
29C. Office of Information and Communications Technology	590.9	Reflects the net effect of the following: (a) Establishment of 6 general temporary assistance positions; (b) Lower provisions under general operating expenses and contractual services.
29D. Administration, Nairobi ^a	(222.1)	Reflects lower provisions under general operating expenses
29E. Administration, Geneva	(390.0)	Reflects lower provisions under general operating expenses
29F. Administration, Vienna	(100.0)	Reflects lower provisions under general operating expenses
31. Jointly financed administrative activities	(279.5)	Reflects changes in the regular budget share of the overall budget of the jointly financed activities
32. Special expenses	(1 028.4)	Lower provisions under other staff costs in after-service health insurance and compensatory payments
33. Construction, alteration, improvement and major maintenance	1 272.8	Reflects the net effect of the following: Higher provisions for information and communications technology projects, offset in part by lower provisions in alteration, upgrades and major maintenance programmes and standardized access control project and other related security system upgrades
34. Safety and security	50.3	Reflects the change in the regular budget provisions due to the increased overall budget of the jointly financed activities
35. Development account	(204.6)	Reflects the outward redeployment of 1 general temporary assistance position from section 35 to section 9
36. Staff assessment	3 574.9	Reflects the staff assessment impact of post and general temporary assistance changes and post changes proposed for 2024
Total	19 436.5	

^a Administration, Nairobi changes from section 29G in 2023 to section 29D in 2024.

3. Proposed post resources

30. A total of 10,334 posts is proposed under the expenditure sections for 2024, as summarized in table 9 (a).
31. In addition, in accordance with General Assembly resolution [77/278](#), a total of 4,371 posts, including an additional 25 posts, is proposed for special political missions, as presented in table 9 (b).

^a Civilian staff in special political missions are presented as posts, in line with the General Assembly resolution [77/278](#), by which the Assembly decided to widen the posts, subject to the desirable ranges system.

32. The proposal for regular budget entities (excluding special political missions) represents a net increase of 199 posts, comprising the following:
- The establishment of 118 new posts (54 in the Department of Global Communications, 26 in the Office of the United Nations High Commissioner for Human Rights, 8 in the Department of Economic and Social Affairs, 8 in the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States, 5 in the Office for Disarmament Affairs, 4 in the office of data protection and privacy, 3 in the International Court of Justice, 2 in the Office of the United Nations Special Coordinator for the Middle East Peace Process, 2 in the United Nations Environment Programme, 2 in the Economic Commission for Europe, 2 in the Department of Operational Support, 1 in the Office of the Director-General of the United Nations Office at Nairobi and 1 in the Economic and Social Commission for Asia and the Pacific);
 - The conversion from extrabudgetary to regular budget funding of 59 posts (33 in the Office of the United Nations High Commissioner for Human Rights, 24 in the Office of Counter-Terrorism, 1 in the Department of Management Strategy, Policy and Compliance and 1 in the Office of the Special Representative of the Secretary-General for Children and Armed Conflict) and the conversion of 33 general temporary assistant positions to established posts (14 in the Office of the United Nations High Commissioner for Human Rights, 12 in the Department of Safety and Security, 2 in the United Nations Office at Geneva, 2 in the United Nations Office at Nairobi, 2 in the Economic and Social Commission for Western Asia and 1 in the Department of Economic and Social Affairs);
 - The abolishment of 11 posts (4 in the Department of Operational Support, 2 in the Department of Economic and Social Affairs, 2 in the Economic Commission for Europe, 2 in the

Department for General Assembly and Conference Management and 1 in the Economic and Social Commission for Asia and the Pacific).

Shift towards a more rejuvenated staffing structure

33. The proposed increase in the number of posts is concentrated mainly in entry levels of the Professional and higher categories, which would contribute to the rejuvenation of the Secretariat. The rate of increase in the number of posts at the P-2 and P-3 levels is 10 times higher than the rate of increase at the D-1 and above levels, demonstrating continuous efforts towards achieving a less top-heavy structure. Of the 10,334 posts proposed in the 2024 budget, fewer than 5 per cent are proposed at the D-1 and above levels.
34. This trend will also enable improved alignment between the membership of the United Nations and the composition of its staff. Furthermore, in the light of the General Assembly's decision to widen the posts, subject to the desirable ranges system, to all posts funded under the regular budget at the Professional and higher categories, including in special political missions and peacekeeping operations, the opportunities for more equitable geographical representation will be expanded.
35. Figure I illustrates the distribution of posts, by grade, in the programme budget for 2023 and in the proposed programme budget for 2024.

Figure I
Distribution of posts in the Professional and higher categories, by grade

Abbreviation: GS, General Service.

36. The proportion of posts in the Professional and higher categories, compared with the total number of posts, would increase in 2024 to 50.5 per cent, as reflected in table 10, which provides an overview of the distribution of posts, by category, since the biennium 2018–2019.

Table 10
Distribution of posts by category of staff

^a In accordance with the final appropriation for 2018–2019.

^b In accordance with the staffing tables for 2020, 2021, 2022 and 2023 approved by the General Assembly in its resolutions 74/262, 75/252, 76/245 and 77/262.

^c As proposed by the Secretary-General.

4. Recosting

37. Recosting is the process through which adjustments in the level of appropriations are made to preserve the purchasing power of the Organization. Adjustments to the appropriation result from variations in four parameters: (a) currency exchange rates; (b) inflation rates; (c) standard staff costs, including net base salary, the post adjustment multiplier and common staff costs; and (d) vacancy rates. The proposed programme budget for 2024 is presented at the same price levels and rates of exchange as the programme budget for 2023 for comparability. The proposed amount for 2024 is also presented after preliminary recosting. In late 2023, the budget proposals will be subject to a second instance of recosting, in which adjustments will be made on the basis of updates to all four recosting parameters.
38. In line with the established practice, the first instance of preliminary recosting is calculated and presented in the context of the proposed programme budget to account for projected inflation in 2024, while the other three parameters (vacancy rates, standard staff costs and rates of exchange) would remain as decided by the General Assembly for the preceding budget period. However, owing to a continuing decrease in vacancy rates resulting from the relaxation of the hiring freeze and to improve the accuracy of the projected requirements, the preliminary recosting for 2024 includes adjustments to the vacancy rates (as also proposed in the context of the proposed programme budget for 2023).
39. The proposed programme budget for 2024 continues to calculate the effects of the preliminary recosting at the latest possible moment to allow for the use of the most up-to-date inflation projections and reduce variances between the preliminary recosting and the revised estimates later in 2023. The projected inflation in the proposed programme budget for 2024, covering projections of post adjustment multipliers, cost-of-living adjustments and consumer price indices, is based on information available in May 2023.
40. Post resources are adjusted for inflation by estimating projected post adjustment multipliers and cost-of-living adjustments for 2024, for posts in the Professional and higher and the General Service and related categories, respectively. The projected post adjustment multiplier takes into consideration the most recent post adjustment multiplier promulgated by the International Civil Service Commission and is further adjusted on the basis of projected inflation. The cost-of-living adjustment is adjusted on the basis of projected inflation and applied to the salary scales of staff in the General Service category approved for 2023. The difference between the budgeted post adjustment multiplier for 2023 and the projected post adjustment multiplier for 2024, as well as the difference between the General Service salaries in the appropriation for 2023 and the updated General Service salaries adjusted for projected inflation, are reflected in the recosting column under posts in table 2 above.

41. Non-post resources are adjusted for inflation using the most recent consumer price indices projection as obtained from *The Economist*. According to the established practice, the inflation rates used to adjust the non-post provisions consider the currencies used by the various entities and their relative weight, as obtained from Umoja, and reflected in the appropriations of the preceding budget period.
42. However, recosting adjustments for travel are not influenced by the currency use, and the recosting for grants and contributions reflects different approaches. The resources for air travel are recosted using the inflation projections associated with the United States dollar, given that industry pricing is denominated in dollars. The provisions for grants and contributions for section 13 (International Trade Centre), section 31 (Jointly financed administrative activities) and section 35 (Development Account) are recosted differently. For section 13, there is no difference in the recosting methodology in this preliminary recosting instance, but in December the grant will be adjusted to account for fluctuations in exchange rates only and will not be subject to further adjustments owing to changes in the projected inflation. The proposed programme budget for 2024 includes a dollar-based recosting adjustment for section 35, as recommended by the Advisory Committee on Administrative and Budgetary Questions in paragraphs XIII.13 of its report A/76/7 and XIII.15 of its report A/77/7, endorsed by the General Assembly in its resolutions 76/245 and 77/262, respectively. The programme budget resources for section 31 are not recosted in order to preserve the amounts agreed upon by the participating United Nations system entities. In addition, the grant for the resident coordinator system is not subject to recosting. All other proposed requirements under grants and contributions have been subject to the standard recosting methodology, based on the currency-use and related consumer price indices.
43. In December 2022, owing to significant variances between changes in overall price levels as measured by the consumer price indices (used to adjust non-post resources) and the actual change in energy and travel costs, the Secretariat proposed tailored recosting for such resources on the basis of actual changes in ticket prices for travel and on a global energy index published by the World Bank. The General Assembly took note of the proposal, and the recosting adjustments were implemented as proposed. In line with paragraph 8 of Assembly resolution 77/262, in which the Assembly endorsed the recommendation of the Advisory Committee on Administrative and Budgetary Questions in paragraph 25 of its report A/77/7, the Secretariat will review the actual impact of recosting in 2023, compared with the recosting estimates as approved by the Assembly, the outcome of which will be included in the report on revised estimates presenting the second instance of recosting that will be submitted by the end of 2023.
44. The preliminary recosting estimate for 2024 amounts to \$64.2 million, representing 1.9 per cent of the regular budget proposal, or 2.5 per cent when excluding special political missions. Further details are presented in table 11.

5. Proposals in budget sections regarding the presentation of resources and funding modalities

Fragmentation of the presentation of resources under section 24

45. In paragraph VI.16 of its report [A/77/7](#), the Advisory Committee on Administrative and Budgetary Questions considered that there was a need to address the challenges related to the fragmentation of the presentation of resources under section 24, but was of the view that a further assessment was necessary, based on clearly defined criteria and robust data analysis, including the duration and cycle of the human rights mandates, for consideration by the General Assembly in advance of any inclusion of anticipated proposed resource requirements in a future programme budget proposal. The Committee recommended that the Assembly request the Secretary-General to provide an update thereon in the next submission of the proposed programme budget for section 24. The Assembly endorsed the recommendation. Accordingly, annex IV of the budget fascicle of section 24 ([A/78/6 \(Sect. 24\)](#)) contains the outcome of such further assessment and an updated proposal to address the fragmentation by consolidating the presentation of resources under section 24 and related budget sections, starting with the proposed programme budget for 2025, for consideration and approval by the Assembly.

Funding modalities for the Development Account (section 35)

46. In paragraph XIII.12 of its report [A/77/7](#), the Advisory Committee on Administrative and Budgetary Questions recommended that the General Assembly request the Secretary-General to present in the next budget submission options for the funding modalities for the Development Account for future budget submissions, aiming to reach a resource level not less than 0.5 per cent of the overall budget proposal, taking into account the evolution of the resources of the Account since its inception, and to ensure that the Account meets its purpose and objectives, as well as the needs of the Member States. The Assembly endorsed this recommendation. Accordingly, annex IV of the budget fascicle for section 35 ([A/78/6 \(Sect. 35\)](#)) contains the outcome of the assessment of various options and a proposal for a funding modality that reaches a resource level not less than 0.5 per cent of the overall budget, starting with the proposed programme budget for 2025, for consideration and approval by the Assembly.

6. Potential resource proposals for 2024, to be submitted after the proposed programme budget

47. The following proposals for the seventy-eighth session of the General Assembly, if confirmed, would have an impact on the proposed programme budget for 2024:
- (a) Revised estimates relating to new and expanded mandates, should resolutions and decisions of the Human Rights Council and the Economic and Social Council so warrant;
 - (b) Revised estimates relating to new and expanded mandates, should resolutions by the Security Council with regard to special political missions so warrant;
 - (c) Revised estimates relating to the funding of the resident coordinator system;
 - (d) Progress reports on ongoing construction projects in Addis Ababa, Bangkok, Nairobi and Santiago;
 - (e) Report on an improved service delivery concept;
 - (f) Revised estimates for addressing racism and promoting dignity for all in the United Nations Secretariat;
 - (g) Programme budget implications arising from the recommendations contained in the report of the International Civil Service Commission for 2024;

- (h) Programme budget implications arising from recommendations and decisions contained in the report of the United Nations Joint Staff Pension Board;
 - (i) Statements of programme budget implications or revised estimates, should any draft resolutions yet to be considered by the General Assembly so warrant;
 - (j) Any other supplementary budgets proposed by the Secretary-General in line with the Financial Regulations and Rules.
48. The proposals listed in the preceding paragraph could continue to have an impact for 2025, to the extent that the requirements are of a recurring nature. In addition, proposals during the seventy-ninth session of the General Assembly that would or could further affect resource requirements for 2025 include the following:
- (a) Revised estimates relating to new and expanded mandates, should resolutions and decisions of the Human Rights Council and the Economic and Social Council so warrant;
 - (b) Revised estimates relating to new and expanded mandates, should resolutions by the Security Council with regard to special political missions so warrant;
 - (c) Statements of programme budget implications or revised estimates, should any draft resolutions yet to be considered by the General Assembly so warrant;
 - (d) Any other supplementary budgets proposed by the Secretary-General in line with the Financial Regulations and Rules.

7. Contingency fund for 2025

49. The Secretary-General, in his report entitled “Shifting the management paradigm in the United Nations: improving and streamlining the programme planning and budget process” ([A/72/492/Add.1](#)), considered that an annual budget cycle would eliminate the need for a separate report on the budget outline. Given that the contingency fund was expressed as a percentage of the programme budget outline level approved by the General Assembly, the Secretary-General further proposed submitting an indication of the size of the contingency fund as a percentage of the preceding approved annual programme budget.
50. This proposal would ensure that the level of the contingency fund would continue to be determined in advance of the budget period that it covers. Other provisions governing the use of the contingency fund contained in General Assembly resolutions [41/213](#) and [42/211](#) would remain unchanged. In its resolution [72/266](#) A, the Assembly approved the Secretary-General’s proposal.
51. In line with the above, it is proposed that the level of the contingency fund for 2025 be set at 0.75 per cent of the approved programme budget for 2024.

8. Income estimates for 2024

52. Estimates of income for 2024 amount to \$317.9 million (before recosting), compared with approved estimates of \$321.9 million for 2023, reflecting a decrease of \$4.0 million, or 1.3 per cent.

Table 12
Estimates of income for 2024, by section

(Thousands of United States dollars)

<i>Income section</i>	<i>2022 revenue</i>	<i>2023 approved</i>	<i>2024 estimates (before recosting)</i>	<i>Increase/(decrease)</i>		<i>Recosting</i>	<i>2024 estimates (after recosting)</i>
				<i>Amount</i>	<i>Percentage</i>		
Income section 1, Income from staff assessment	286 820.3	291 354.8	292 033.1	678.3	0.2	2 298.8	294 331.9
Income section 2, General income	39 947.2	30 197.0	26 675.2	(3 521.8)	(11.7)	-	26 675.2
Income section 3, Services to the public	(4 598.5)	397.7	(807.2)	(1 204.9)	(303.0)	(342.6)	(1 149.8)
Total	322 169.0	321 949.5	317 901.1	(4 048.4)	(1.3)	1 956.2	319 857.3

53. The projected decrease of \$4.0 million is attributable primarily to income section 2, General income, due to expected lower cash pool balances and anticipated lower interest rates in 2024 compared with 2023, and to income section 3, Services to the public, due to lower estimated revenue for catering services at United Nations Headquarters in New York, owing to the continuation of the subsidy model to mitigate the vendor's losses. The projected decreases are offset in part by a projected increase under Income section 1, Income from staff assessment, related to the proposed changes to posts and positions.

9. Other assessed and extrabudgetary resources

Other assessed

54. The total estimates for other assessed resources amount to \$395.1 million, reflecting an increase of \$19.2 million (or 5.1 per cent) compared with the estimates for 2023. The increase is reflected mainly under section 5, Peacekeeping operations and section 29B, Department of Operational Support.
55. The increase is attributable mainly to the updated and higher post costs commensurate with inflation pressure. Further details are reflected in the budget for the support account for peacekeeping operations for the period from 1 July 2023 to 30 June 2024 ([A/77/771](#)).

Extrabudgetary

56. The total 2024 estimates for extrabudgetary resources amount to \$14.6 billion, reflecting a slight decrease of \$24.2 million (0.2 per cent) compared with the estimates for 2023.
57. The decrease of \$24.2 million is attributable primarily to the discontinuation of donor funding in the Office of Counter-Terrorism under section 3, Political affairs. The decrease is offset in part by increases in additional demands and/or related requirements to implement projects and activities in 2024, mainly under section 16, International drug control, crime and terrorism prevention and criminal justice.

Annex I

Summary of follow-up action taken to implement relevant recommendations of the advisory and oversight bodies

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions

[A/77/7](#)

The Advisory Committee recommends that the General Assembly request the Secretary-General to include in the next programme budget submission a comparison, by object of expenditure, of the proposed resources for 2023 with actual expenditures in both 2021 and 2022 (para. 25).

The Advisory Committee notes the lack of a consistent, consolidated reporting mechanism and proper oversight on the use of grants and reiterates its recommendation that the General Assembly request the Secretary-General to include a comprehensive list, along with a detailed analysis and breakdown of the grants and contributions category in future budget proposals, including indicative requirements for proposals to be considered and approved at a later stage ([A/76/7](#) and [A/76/7/Corr.1](#), para. 79; see also section 1, para. I.33, below) (para. 22).

The Advisory Committee recommends that the General Assembly request the Secretary-General to develop criteria and modalities for future reviews, including for the involvement of independent entities, with a view to avoiding conflict of interest and ensuring the impartiality and the credibility of such reviews and assessments (see, for example section 1, Overall policymaking, direction and coordination; section 23, Regular programme of technical cooperation; section 29A, Department of Management Strategy, Policy and Compliance; section 29B, Department of Operational Support; and section 34, Safety and security) (para. 41).

While noting the delegated authority to heads of entities, the Advisory Committee sees merit in enhancing workforce planning management at the Headquarters level to better identify opportunities for streamlining the functions, especially in situations of relative stability and absence of substantial changes in the operational environment. The Committee is of the view that proposals for posts should be supported by systematic workload analysis based on workload indicators and the appropriate identification of work streams, while ensuring that all structural changes and proposed reclassifications and reassignments of functions reflect the consistent application of policies and standards governing organizational structures and

Expanded tables with one additional year of actual expenditure will be provided for each budget section during the consideration of the proposed programme budget.

A comprehensive list with detailed analysis and breakdowns will be provided during the consideration of the proposed programme budget.

Within existing capacity, the Department of Management Strategy, Policy and Compliance will prepare and disseminate guiding principles to encourage good practice from management. Managers would decide on the scope and modalities of reviews and would be responsible for the conduct of such reviews.

The Department of Management Strategy, Policy and Compliance provided the guiding principles to be observed when proposing structural changes in staffing complements, as part of the budget proposals for staffing. Entities have at their disposal workforce planning tools to review workforce capabilities and eventually propose post changes in accordance with their diverse operational realities, to enable the more effective and efficient implementation of mandates.

job classification in accordance with relevant [International Civil Service Commission] standards of common classification of occupational groups. The Committee recommends that the General Assembly request the Secretary-General to develop the relevant criteria (para. 44).

The Advisory Committee reiterates its concern that the proposed staffing profile for the Secretariat again shows a high number and proportion of senior posts at the level of D-1 and above, and that reductions in the junior Professional-level grades could have a negative impact on efforts to rejuvenate the workforce of the Secretariat. The Committee reiterates its recommendation that the General Assembly request the Secretary-General to take measures to increase entry-level posts and decrease high-level posts across all sections. The Committee also recommends that the Assembly request the Secretary-General to improve the rejuvenation of the Secretariat through strategic workforce and succession planning, including related to retirement planning, in future budget submissions. The Committee expects that further details on the rejuvenation strategy and upcoming retirements will be provided in the context of the next human resources report and future budget submissions (see also [A/76/7](#) and [A/76/7/Corr.1](#), para. 52, and [A/75/7](#) and [A/75/7/Corr.1](#), para. 49) (para. 45).

The Advisory Committee notes the refined approach in the calculation of the common staff costs and trusts that detailed information with justifications of variances across the sections will be included in future budget submissions (para. 48).

The Advisory Committee considers that budgeted vacancy rates should be realistic and based on the actual vacancy rates experienced during the previous periods. The Committee notes the lack of clarity and consistency in the application of vacancy rates in the respective budget sections and trusts that detailed explanations will be provided to the General Assembly during its consideration of the present report and included in future budget submissions, along with updated information on budgeted and actual vacancy rates by section, along with justifications of the variances over the current year and the previous five years, for the Professional and higher categories and the General Service and related categories (para. 51).

The Advisory Committee reiterates its concern regarding cases of “temporary” assignments of staff members to higher-level positions for lengthy periods and recalls that the granting of special post allowance should be restricted to exceptional cases only and stresses the need

Information on the proportion of high-level posts and entry-level posts is provided in the present report, while the relevant reports on human resources will continue to include information regarding upcoming retirements and the rejuvenation strategy.

The report of the Secretary-General on revised estimates ([A/77/632](#)) included information on common staff costs by budget section and type of common staff cost. Future recosting reports will continue to include such information.

Vacancy rates are a budgetary tool that is applied consistently across all budget sections. The General Assembly, in paragraph 26 of its resolution [77/262](#), recalled paragraph 51 of the report of the Advisory Committee ([A/77/7](#)) and decided on the application of continuing vacancy rates.

Tables with the posts exceptionally encumbered by staff receiving a special post allowance for more than one year will be provided during the consideration of the proposed programme budget. These arrangements

*Brief description of the recommendation**Action taken to implement the recommendation*

to comply with the rules governing special post allowance (A/76/7 and A/76/7/Corr.1, para. 48, and A/75/7 and A/75/7/Corr.1, para. 57). The Committee trusts that detailed information on the posts in receipt of special post allowances, including on the levels of the posts, the duration of the special post allowance and the related justifications, will be systematically provided in future budget submissions (para. 53).

The Advisory Committee reiterates the importance of equitable geographical representation as a human resource target and trusts that the Secretary-General will redouble efforts to achieve equitable geographical representation, with special focus on unrepresented or underrepresented Member States among the staff, in line with Article 101, paragraph 3, of the Charter of the United Nations. The Committee recommends that the General Assembly request the Secretary-General to include detailed information on equitable geographical representation in the posts in the Professional and higher categories in future proposed programme budgets, both in the context of the introduction and under the individual budget sections (see also A/76/7 and A/76/7/Corr.1, para. 58; A/75/7 and A/75/7/Corr.1, para. 52; and A/74/7, para. 87) (para. 55).

While acknowledging the overall percentage of female staff across budget sections is 50.3 per cent, the Advisory Committee notes the higher female staff representation in the P-1, P-2, G-6 and G-7 grades and is of the view that greater efforts need to be made on recruitment of female staff at higher Professional levels. The Committee further trusts that detailed information on gender representation by section/entity will be included in future budget submissions (see also A/76/7 and A/76/7/Corr.1, para. 61, and A/75/7 and A/75/7/Corr.1, para. 55) (para. 56).

The Advisory Committee acknowledges the consolidation of information on information and communications technology and trusts that this information, along with the justification of variances, will be systematically included in future budget submissions (para. 64).

The Advisory Committee trusts that similar detailed information will be systematically provided in future budget submissions (para. 69).

The Advisory Committee trusts that the Secretary-General will increase oversight of the application of his policy and ensure that internal conferences of job/functional networks will be properly treated as learning and development opportunities, with the appropriate staff

are in place for approximately 1 per cent of the total number of posts.

A table with the nationality of the incumbents of posts in the Professional and higher categories under the system of desirable ranges will be provided for each budget section during the consideration of the proposed programme budget. Further information is available in the United Nations Secretariat workforce portal for Member States, available at <https://mobile.umoja.un.org>.

A table with the percentage of women encumbering regular budget posts by grade and entity will be provided during the consideration of the proposed programme budget.

Information on information and communications technology expenditure in 2022 is provided in schedule 8 of the present report (see annex III). Justification of variances between approved resources and expenditure will continue to be provided in the financial performance report.

A table with the breakdown of contractual services by budget section will be provided during the consideration of the proposed programme budget.

The Office of Human Resources and the Department of Operational Support provided guidance on what constitutes learning opportunities in the context of the budget preparation process.

A/78/6 (Introduction)

Brief description of the recommendation

travel entitlement, and report on the budgetary impact in the next budget submission (para. 73).

The Advisory Committee notes that despite the promulgation of a new cost recovery policy in December 2021, different approaches to cost recovery remain prevalent. The Committee trusts that the Secretary-General will ensure the deployment of a standardized approach to cost recovery across relevant budget sections, as appropriate, based on realistic cost rates, performance and workload indicators and best practices. The Committee recommends that the General Assembly request the Secretary-General to include detailed information on the amounts recovered, separately from voluntary contributions, including by type and service under the relevant budget section, along with consolidated overall figures, in the introduction of future budget submissions (para. 76).

The Advisory Committee encourages the Department of Political and Peacebuilding Affairs to assess if the capacity to provide mediation expertise on short notice could be developed internally and trusts that consolidated information on the services provided by [the United Nations Office for Project Services] to the entities of the Secretariat in all the budget sections will be provided in the next programme budget submission (para. II.21).

Action taken to implement the recommendation

The financial performance report for 2022 includes information on the amounts recovered, by budget section and type of service.

A table with consolidation information on the services provided by the United Nations Office for Project Services to the Secretariat will be provided during the consideration of the proposed programme budget.

Annex II

Definitions

A. Types of position

<i>Type of position</i>	<i>Definition</i>
Established posts	To perform functions required for more than one year, but without a specific end date. The establishment and subsequent changes require approval by the General Assembly. Established posts are controlled in line with a staffing table that is approved annually by the Assembly (found in the annex to the budget resolution).
Temporary posts	To perform functions required for more than one year, but for a limited period as specified in the relevant mandate (e.g., posts associated with the International Decade for People of African Descent). The establishment and subsequent changes require approval by the General Assembly. Temporary posts are controlled in line with a staffing table that is approved annually by the Assembly (found in the annex to the budget resolution).
General temporary assistance positions of a continuing nature	To perform functions for up to one year. May be extended for additional periods of up to one year. The establishment and subsequent changes require approval by the General Assembly. General temporary assistance positions are not controlled through a staffing table.
General temporary assistance replacement and surge capacity	To perform functions temporarily for up to one year. The General Assembly approves an amount that enables the creation of general temporary assistance positions, which are used as needed. There are no restrictions in terms of grade, location or number of positions, as long as the amount is sufficient to accommodate the cost of the positions encumbered. On the basis of the amount, entities may create one or more temporary positions in line with their needs and the amount available.
Temporary assistance for meetings	

B. Position changes

The following terms have been applied with respect to proposed changes in positions:

<i>Position change</i>	<i>Type of change</i>
Establishment	Proposed when additional capacity is required to implement mandated activities in full. In line with General Assembly resolution 77/262 , each post establishment is subject to a 50 per cent vacancy rate in the year of establishment, except for general temporary assistance positions, which are subject to continuing vacancy rates.
Reassignment	Proposed when the functions necessary for the implementation of the mandated activities have changed significantly and are no longer comparable to the originally approved functions (i.e., no longer part of the same job network). Other attributes of the post or position such as grade would remain unchanged. In line with General Assembly resolution 77/262 , reassignments are subject to continuing vacancy rates.

<i>Position change</i>	<i>Type of change</i>
Redeployment	Proposed to change the location, organizational unit, section, entity, component or subprogramme of an existing post or position, while preserving in large part the same functions (i.e., staying within the same job network). Other attributes of the post or position such as grade would remain unchanged. In line with General Assembly resolution 77/262 , redeployments are subject to continuing vacancy rates.
Reclassification	Proposed change in the grade of an existing post (one level higher or lower) within the same post or position category due to a significant change in the scope and/or responsibilities (level of complexity). The line of work nevertheless remains unchanged (i.e., functions remain within the same job network). Other attributes of the post or position such as the programmatic component would remain unchanged. In line with General Assembly resolution 77/262 , reclassifications are subject to continuing vacancy rates.
Abolishment	Proposed when capacity to implement mandated activities can be reduced. For budget calculation purposes, abolishments are subject to continuing vacancy rates.
Conversion	Proposed to change the approved source of funding or the approved position type of an existing position or post (e.g., extrabudgetary to regular budget, general temporary assistance position to post, or international to national). Other attributes of the post or position would remain unchanged. In line with General Assembly resolution 77/262 , conversions are subject to continuing vacancy rates.

C. Objects of expenditure

<i>Object of expenditure</i>	<i>Description</i>
Post	Positions grouped under the Professional and higher or the General Service and related categories that are approved by the General Assembly and controlled in line with a staffing table.
Other staff costs	General temporary assistance positions, including language positions and temporary assistance for meetings intended to provide additional capacity for a finite duration; overtime and night differential; after-service health insurance; United Nations Volunteers; and expenses for military and policy personnel, including military observers.
Non-staff compensation	Honorariums, pensions and other forms of compensation to personnel on special contracts such as judges, former Secretaries-General and members of the Advisory Committee on Administrative and Budgetary Questions and the International Civil Service Commission.
Hospitality	Events and social activities in which a reception is extended to distinguished guests. Expenditure normally assumes the form of drinks, snacks and light meals.
Consultants	Fees for individuals and institutions with recognized expertise not available in-house; may include travel and costs related to daily subsistence allowance.
Experts	Transportation costs and daily subsistence allowance, including for the participation of experts in expert groups.

<i>Object of expenditure</i>	<i>Description</i>
Travel of representatives	Transportation costs and/or daily subsistence allowance of representatives of intergovernmental bodies and electoral observers.
Travel of staff	Transportation costs of staff members to carry out missions in support of the implementation of mandates.
Contractual services	Includes a wide range of services subject to contractual agreements, such as contractual translation, contractual engineering, data-processing services, external printing, language training for staff, public information production costs and staff training.
General operating expenses	Includes a wide range of services such as communications, office automation, maintenance of furniture and equipment, military/police contingent-owned equipment, major equipment, rental and maintenance of premises, rental of furniture and equipment, general transportation and utilities.
Supplies and materials	Library books and supplies, operational equipment supplies, public information supplies, medical supplies, stationery and office supplies, and other items of small value that are expected to be consumed during the year.
Furniture and equipment	Communication equipment, conference-servicing and reproduction equipment, office automation equipment, software licences, office furniture, public information equipment, transportation equipment and other equipment of higher value that is capitalized and subject to depreciation.
Improvement of premises	Investment in major maintenance of capital assets, and improvement and construction of premises, including additions.
Grants and contributions	Individual fellowships, participants in seminars or study tours, and contributions from the United Nations as grantor providing funds to a beneficiary (or grantee) or implementing partner. This also covers resource movements between internal United Nations funds, for example, the transfer from the regular budget to multi-year construction projects and to the Development Account.
Other	Other items not covered in the above objects of expenditure, including staff assessments, cost of goods and services sold under income sections, reimbursement of troop costs and adjustments arising from fluctuations of exchange rates due to the time lag between the creation and liquidation of commitments (excludes adjustments due to currency hedging gains or losses).

D. Factors causing changes in proposed resource requirements

- Technical adjustments include changes due to non-recurrent provisions approved for the 2023 budget period but discontinued in the proposed programme budget for 2024; increased provisions for posts approved for 2023 with a 50 per cent vacancy rate that are subject to the proposed vacancy rate for continuing posts in 2024; and other adjustments of a technical nature, such as the change in the United Nations percentage share for jointly financed activities.
- New and expanded mandates include resource changes that result from new and expanded mandates approved for 2024 or for periodically recurring mandated events (e.g., quadrennial conferences).
- Other changes are resource changes that do not fall under the above factors.

Overview of resources for the regular budget

- 1.1 The proposed regular budget resources for 2024 for all policymaking organs and entities under section 1, including the breakdown of resource changes, as applicable, are reflected in tables 1.1 to 1.3, and the summary of resources by component and funding source is contained in annex IV. Detailed information on the proposed programme budget for 2024 is provided under each policymaking organ and entity. The proposed resource level under section 1 provides for the full, efficient and effective implementation of mandates of all relevant entities and offices.

I. Policymaking organs

- 1.2 The resources proposed under this component would provide for requirements relating to the General Assembly, the Advisory Committee on Administrative and Budgetary Questions, the Committee on Contributions, the Board of Auditors, the United Nations Staff Pension Committee, the Committee for Programme and Coordination and the Independent Audit Advisory Committee. Table 1.4 provides information and related resource requirements under the regular budget.

Part I Overall policymaking, direction and coordination

**Table 1.4
Policymaking organs**

(Thousands of United States dollars)

<i>Policymaking organ</i>	<i>Description</i>	<i>Additional information</i>	<i>2023 appropriation</i>	<i>2024 estimate (before recosting)</i>
1. General Assembly				
(a) Travel of representatives of Member States that are least developed countries	Provides for the travel (excluding subsistence allowance) of up to 5 representatives of each of the Member States that are considered least developed countries when attending a regular session of the General Assembly and 1 representative or alternate representative to attend a special or emergency session of the Assembly	Mandate: General Assembly resolutions 1798 (XVII) and 41/213	1 510.3	1 510.3
(b) Presidents of the General Assembly	Supplements the level of support provided to the President of the General Assembly and ensures that the President shall have full authority to use funds provided in the budget for the office	Mandate: General Assembly resolutions 52/220 , 32/214 and 54/249 and the report of the Secretary-General (A/52/303 , para. IB.10) Seventy-eighth resumed and seventy-ninth main sessions	241.8	239.5
(c) Department for General Assembly and Conference Management backstopping of the Presidents of the General Assembly	Provides for general temporary assistance and overtime to cover additional direct support provided by the Department for General Assembly and Conference Management to the Presidents of the General Assembly. The resources would provide for the continuation of 5 positions (2 D-2, 1 D-1, 1 P-5 and 1 GS (OL)), as well as for an overlap period of 1 month for each of the 4 positions (2 D-2, 1 D-1 and 1 P-5) to maximize the use of the transition period for incoming Presidents. Three posts (1 P 4, 1 P-3 and 1 P-2) would be made available from within the existing resources of the Department in support of the Presidents	Mandate: General Assembly resolutions 58/126 , 59/313 , 68/246 and 72/261 Seventy-eighth resumed and seventy-ninth main sessions	1 332.5	1 334.8
2. Advisory Committee on Administrative and Budgetary Questions (including its secretariat)	Responsible for the examination of and reporting on the proposed budgets, performance reports and administrative issues submitted by the Secretary-General to the General Assembly. The activities of the secretariat of the Advisory Committee on Administrative and Budgetary Questions include the provision of substantive, technical and administrative advice and support to the Advisory Committee	Mandate: rules 155 to 157 of the rules of procedure of the General Assembly and Assembly resolutions 14 (I) and 74/267 (amending the rules of procedure of the Assembly) Membership: 21 experts Number of sessions in 2024: 3	7 325.0	7 325.0

Section 1 Overall policymaking, direction and coordination

<i>Policymaking organ</i>	<i>Description</i>	<i>Additional information</i>	<i>2023 appropriation</i>	<i>2024 estimate (before recosting)</i>
3. Committee on Contributions	Provides advice to the General Assembly on the apportionment of the expenses of the Organization among its members, in accordance with Article 17, paragraph 2, of the Charter of the United Nations	Mandate: General Assembly resolution 14 (I) and rules 158 to 160 of the rules of procedure of the Assembly Membership: 18 experts Number of sessions in 2024: 1	387.5	475.7
4. Board of Auditors (including its secretariat)	Performs the audit of the accounts of the United Nations and its funds and programmes, including all its trust funds and special accounts, and submits the related reports to the General Assembly for its consideration The secretariat of the Board of Auditors provides substantive, technical and administrative support to the Board, its Audit Operations Committee and the Panel of External Auditors and its Technical Group	Mandate: General Assembly resolution 74 (I) , as amended pursuant to resolution 55/248 Membership: 3 experts Number of sessions in 2024: 4	3 960.9	3 873.8
5. Secretariat of the United Nations Staff Pension Committee (including reimbursement from the United Nations for services provided by the United Nations Joint Staff Pension Fund)	The resources would provide for travel of representatives ^a of the United Nations to meetings of the United Nations Joint Staff Pension Board and the regular budget share of the cost of Pension Fund-related services provided by the Fund to the United Nations, in accordance with the cost-sharing arrangement as approved by the General Assembly in its resolution 74/263	Mandate: General Assembly resolution 248 (III) Membership: 33 experts Number of sessions in 2024: 1	5 465.1	5 449.6
6. Committee for Programme and Coordination	Payment of travel expenses (economy class airfare) and subsistence allowance (at the standard rate established for Secretariat officials plus 15 per cent) to the members of the Committee for Programme and Coordination as a special exception to the basic principles contained in paragraph 2 of General Assembly resolution 1798 (XVII)	Mandate: General Assembly decision 42/450 and resolutions 31/93 and 77/254 Membership: 34 Member States Number of sessions in 2024: 1	616.9	616.9
7. Independent Audit Advisory Committee (including its secretariat)	Responsible for advising the General Assembly on the scope, results and effectiveness of audit and other oversight functions and on measures to ensure the compliance of management with audit and other oversight recommendations	Mandate: General Assembly resolutions 60/248 and 61/275 and decision 62/413 Membership: 5 experts Number of sessions in 2024: 4	566.9	566.9

Part I Overall policymaking, direction and coordination

Total	186.6	241.8	–	–	(2.3)	(2.3)	(1.0)	239.5

1.6 The proposed regular budget resources for 2024 amount to \$239,500. As reflected in tables 1.7 and 1.8 (1), resource changes reflect a decrease of \$2,300 under the category “other” changes owing to the proposed redeployment of resources for overtime within General Assembly, from the Presidents of the General Assembly to the Department for General Assembly and Conference Management backstopping of the Presidents of the General Assembly, where the related expenditure is managed and reflected.

1.7 Additional details on the distribution of the proposed resources for 2024 are reflected in table 1.8 and figure 1.I.

**Table 1.8
Evolution of financial resources by source of funding and component**

Figure 1.1
Distribution of proposed resources for 2024 (before recosting)

(Thousands of United States dollars)

Extrabudgetary resources

- 1.8 As reflected in table 1.8 (2), extrabudgetary resources amount to \$2,989,600. The resources would complement regular budget resources and would be used mainly to complement the programme of work and facilitate funding for a broad range of projects and activities implemented by the office, at the discretion of the Presidents of the General Assembly.
- 1.9 The extrabudgetary resources under the present section are subject to the oversight of the Department for General Assembly and Conference Management, which has delegated authority from the Secretary-General.
- 1.10 Information on the advance booking for air travel is reflected in table 1.9. The office will continue its efforts to ensure the advance booking of tickets in line with the air travel policy and improve its compliance rate.

Impact of the pandemic

- 1.13 During 2022, the General Assembly was able to return to full in-person meetings and, in some instances, accommodated prerecorded videos for informal meetings. There was a significant increase in the number of meetings over 2020 and 2021, including mandated high-level meetings deferred from the seventy-fourth and seventy-fifth sessions owing to coronavirus disease (COVID-19) pandemic restrictions on travel. The general debate of the seventy-seventh session of the Assembly was held in person, with the General Assembly Hall at full capacity.

2. Advisory Committee on Administrative and Budgetary Questions (including its secretariat)

B. Proposed post and non-post resource requirements for 2024

Overview

- 1.14 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.12 to 1.14.

Table 1.12

Figure 1.II
Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed resources

- 1.17 As reflected in tables 1.15 (2) and 1.16 (2), other assessed resources amount to \$837,000 and would provide for three posts and non-post resources. The resources would be utilized to support the secretariat of the Advisory Committee on matters related to peacekeeping operations. The increase of \$35,800 compared with the estimate for 2023 reflects mainly updated salary costs, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2023 to 30 June 2024 ([A/77/771](#)).
- 1.18 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.18.
- 1.19 The compliance rate for travel of the members of the Advisory Committee to their countries of origin continued to be affected by the restrictions in travel resulting from the COVID-19 pandemic in 2022. Further adjustments to national policies and route changes affected the advance travel planning that the secretariat of the Committee usually undertakes to make travel arrangements within the specified notice period. Planning for the Committee's field trip in May 2022 and the onboarding of new members introduced new complexities in the timely processing of travel arrangements and issuance of visas, contributing further to a decrease in the compliance rate compared with 2021. The Secretariat continues to review and optimize its efforts to manage the multiplicity of factors affecting the work of the Committee and the resulting compliance rate, including COVID-19-related considerations.

Table 1.18
Compliance rate

(Percentage)

	Actual 2020	Actual 2021	Actual 2022	Planned 2023	Planned 2024
Timely submission of documentation	100	100	100	100	100
Air tickets purchased at least 2 weeks before the commencement of travel	59	59	47	100	100

Impact of the pandemic

1.20 The continuation of the COVID-19 pandemic into 2022 continued to have an impact on the implementation of mandates, in particular the conduct of in-person meetings by the Advisory Committee. In 2022, the Committee continued to use a combination of virtual and hybrid formats to conduct its meetings and ensure the timely delivery of planned activities. The secretariat of the Committee continued to provide an enhanced level of support, including by extending its operating hours, improving its data management and organization, and continuing to optimize its operating procedures and processes. In May 2022, notwithstanding COVID-19-related travel restrictions, the Committee undertook a field mission to several United Nations entities based in Africa and Geneva, which necessitated expanded planning and support from the secretariat of the Committee, in particular with regard to the processing of travel-related documentation, including adherence to the COVID-19 travel protocols and coordination with the United Nations offices concerned.

3. Committee on Contributions

B. Proposed post and non-post resource requirements for 2024

Overview

1.21 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in table 1.19.

Table 1.19
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2022 expenditure	2023 appropriation	Changes				Total	Percentage	2024 estimate (before recosting)
			Technical adjustments	New/ expanded mandates	Other				
Travel of representatives	292.6	387.5	–	88.2	–	88.2	22.8	475.7	
Total	292.6	387.5	–	88.2	–	88.2	22.8	475.7	

1.22 As reflected in table 1.19, the overall resources proposed for 2024 amount to \$475,700 before recosting, reflecting an increase of \$88,200 (or 22.8 per cent) compared with the appropriation for 2023. Resource changes result from new and expanded mandates.

Explanation of variances by factor

Overall resource changes

New and expanded mandates

- 1.23 As reflected in table 1.19, resource changes reflect an increase of \$88,200, which relates to the provision for the travel of representatives for the additional week of meetings scheduled for the eighty-fourth session of the Committee on Contributions, to be held in 2024. Pursuant to the working methods of the Committee, during its consideration of the scale of assessments, which takes place every three years, the Committee would meet for four weeks instead of three weeks.

Impact of the pandemic

- 1.24 Following the lessons learned from the COVID-19 pandemic, the Committee continues to structure its sessions on the basis of knowledge and experiences gained during the pandemic. During 2022, at its eighty-second session, the Committee met in person from 6 to 24 June in New York. In addition to reviewing the elements of the methodology of the scale of assessments, reviewing and making recommendations in relation to Article 19 of the Charter of the United Nations and discussing multi-year payment plans, the Committee held a session with experts from the World Bank and the International Monetary Fund.
- 1.25 Information on the advance booking for air travel is reflected in table 1.20. The secretariat of the Committee will continue to raise the awareness of travellers on the policy for the advance purchase of air tickets.

Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

- 1.29 As reflected in tables 1.24 (1) and 1.25 (1), resource changes reflect a net decrease of \$87,100, owing mainly to lower provisions for audit fees under contractual services, in line with recent expenditure patterns. The reduction is offset in part by increased requirements for the acquisition of information and communications technology equipment and supplies and materials to better support the number of visits by auditors to United Nations Headquarters.

Other assessed and extrabudgetary resources

- 1.30 As reflected in table 1.24 (2), other assessed resources amount to \$4,056,900 and would provide for the audits of active peacekeeping missions.
- 1.31 As reflected in tables 1.24 (3) and 1.25 (2), extrabudgetary resources amount to \$6,619,100 and would complement regular budget resources.
- 1.32 Extrabudgetary resources provide for the audit of technical cooperation projects undertaken by the Department of Economic and Social Affairs, the Economic Commission for Africa, the Economic Commission for Europe, the Economic Commission for Latin America and the Caribbean, the Economic and Social Commission for Asia and the Pacific, the Economic and Social Commission for Western Asia, the Office of the United Nations High Commissioner for Human Rights (OHCHR), trust fund-related audits included in United Nations entities and the full range of activities, entities and programmes falling under the auspices of the Secretariat (see [A/77/5 \(Vol. 1\)](#)), including the Office for the Coordination of Humanitarian Affairs, the United Nations Conference on Trade and Development, the United Nations Interregional Crime and Justice Research Institute, the United Nations System Staff College, the United Nations Research Institute for Social Development, the International Trade Centre, the United Nations University, the United Nations Development Programme (UNDP), the United Nations Capital Development Fund, the United Nations Children's Fund (UNICEF), the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA), the Provident Fund of UNRWA, the Microfinance and Microenterprise Programme of UNRWA, the United Nations Institute for Training and Research, the Office of the United Nations High Commissioner for Refugees, the United Nations Environment Programme (UNEP), the United Nations Population Fund, the United Nations Human Settlement Programme (UN-Habitat), the United Nations Office on Drugs and Crime (UNODC), the United Nations Office for Project Services, the International Residual Mechanism for Criminal Tribunals, the United Nations Framework Convention on Climate Change, the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa, the United Nations Joint Staff Pension Fund, the UNDP trust fund for the Global Environment Facility and the Global Environment Facility trust fund (UNEP) and the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women).
- 1.33 The extrabudgetary resources under the present section are subject to the oversight of the Board.
- 1.34 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.27. The Board of Auditors secretariat will continue its 100 per cent compliance with the advance booking of air travel policy.

Table 1.27
Compliance rate
 (Percentage)

	<i>Actual 2020^a</i>	<i>Actual 2021^a</i>	<i>Actual 2022</i>	<i>Planned 2023</i>	<i>Planned 2024</i>
Timely submission of documentation	100	100	100	100	100
Air tickets purchased at least 2 weeks before the commencement of travel	–	–	100	100	100

^a No travel was undertaken by the Board owing to COVID-19 travel restrictions.

Impact of the pandemic

- 1.35 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular the ability of the Board to conduct its audits fully on-site. The Board had to cancel on-site visits and conduct its audits through virtual platforms. The use of the remote audit methodology led to an increase in the utilization of auditor weeks. Auditor weeks utilized from 1 January to 31 December 2022 were 5,635.8 weeks, or 9.1 per cent higher than the 5,166.8 weeks utilized during the same period in 2021. Remote audits have been possible owing to the operation of the United Nations enterprise resource planning system. The pandemic notwithstanding, the Board and its audit teams, the Executive Secretary and the Audit Operations Committee were able to adapt and perform their duties remotely, to the full satisfaction of the Board and in accordance with auditing standards.

5. Secretariat of the United Nations Staff Pension Committee (including reimbursement from the United Nations for services provided by the United Nation Joint Staff Pension Fund)

B. Proposed post and non-post resource requirements for 2024

Overview

- 1.36 The United Nations Joint Staff Pension Fund was established by the General Assembly in 1949 to provide retirement, death, disability and related benefits to the staff of the United Nations and such other organizations as might be admitted to its membership. In accordance with the regulations adopted by the Assembly, the Pension Fund is administered by the United Nations Joint Staff Pension Board, a staff pension committee for each member organization and a secretariat of the Pension Board and each such committee.
- 1.37 The expenses incurred by the staff pension committee in the administration of the regulations of a member organization are met by the general budget of that organization. However, given that the central secretariat of the Pension Fund grew out of the secretariat of the United Nations Staff Pension Committee, it continued to handle pension administration for the United Nations by special arrangement with the Pension Board. For those services, the United Nations reimburses the Pension Fund in accordance with the cost-sharing arrangement, as approved by the General Assembly in its resolution [75/246](#).
- 1.38 At the time that the present report was being prepared, the proposed budget of the Pension Fund for 2024 had not been finalized. The estimates will be subject to further revision in accordance with the administrative budget of the Pension Fund for 2024 and action taken by the General Assembly at its seventy-eighth session on the basis of the recommendations the Pension Board may make in 2023 with respect to that budget. A statement of administrative and budgetary implications will be submitted to the Assembly at its seventy-eighth session should the Pension Board's recommendations involve resources different from those estimated in the present report.
- 1.39 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in table 1.28.

Section 1 Overall policymaking, direction and coordination

Table 1.28 Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Travel of staff	43	59.1	–	–	(15.5)	(15.5)	(6.1)	43.6
General operating expenses	0.1	–	–	–	–	–	–	–
Grants and contributions	5 075.5	5 337.5	–	–	–	–	–	5 337.5
Total	5 172.0	5 465.1	–	–	(15.5)	(15.5)	(0.3)	5 449.6

1.40 Additional details on the distribution of the proposed resources for 2024 are reflected in table 1.29 and figure 1.IV.

1.41 As reflected in table 1.29 (1), the overall resources proposed for 2024 amount to \$5,449,600 before recosting, reflecting a decrease of \$15,500 (or 0.3 per cent) compared with the appropriation for 2023. Resource changes result from other changes.

Table 1.29 Evolution of financial resources by source of funding and component

(Thousands of United States dollars)

Figure 1.IV
Distribution of proposed resources for 2024 (before recosting)

(Thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

- 1.42 As reflected in tables 1.28 and 1.29 (1), resource changes reflect a decrease of \$15,500 that takes into account expenditure experience, the expected travel to the in-person Pension Board meeting in 2024 and the composition of the United Nations Staff Pension Committee.

Extrabudgetary resources

- 1.43 As reflected in table 1.29 (2), extrabudgetary resources amount to \$3,369,600. The resources would complement regular budget resources and represent the funds and programmes’ share of the cost of the provision of services by the United Nations Joint Staff Pension Fund as secretariat of the United Nations Staff Pension Committee.
- 1.44 Information on the advance booking for air travel is reflected in table 1.30. The office will strive to maintain a 100 per cent compliance with the advance booking of air travel policy by continuing to improve the planning of travel arrangements.

Table 1.30

 (Percentage)

	<i>Actual 2020^a</i>	<i>Actual 2021^a</i>	<i>Planned 2022</i>	<i>Planned 2023</i>	<i>Planned 2024</i>
Air tickets purchased at least 2 weeks before the commencement of travel	–	–	100	100	100

^a No travel was undertaken owing to COVID-19 travel restrictions.

Impact of the pandemic

1.45 While the Pension Fund continued to operate under the economic uncertainties brought about by the COVID-19 pandemic, measures taken by the United Nations, in line with guidance of local authorities, to mitigate the spread and impact of the pandemic were relaxed in large part in 2022, as the spread of the pandemic slowed down. Travel restrictions that had been put in place since the outbreak of the pandemic were lifted in most jurisdictions around the world. As a result, the Pension Board was able to hold its annual meeting in person after a two-year hiatus. In addition, managers at the Pension Fund were also able to meet with the staff pension committees of member organizations, and in-person visitations by plan participants, which had been suspended since March 2020, resumed in the second half of 2022.

6. Committee for Programme and Coordination

B. Proposed post and non-post resource requirements for 2024

Overview

1.46 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in table 1.31.

Table 1.31
Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2022 expenditure	2023 appropriation	Changes				Total	Percentage	2024 estimate (before recosting)
			Technical adjustments	New/ expanded mandates	Other

(Number of posts/thousands of United States dollars)

1.52 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.37. The secretariat of the Committee will continue to implement measures to improve the rate of compliance regarding the advance purchase of air tickets by raising the awareness of travellers and requesting them to finalize travel arrangements as soon as possible.

Table 1.37
Compliance rate

(Percentage)

	Actual 2020	Actual 2021 ^a	Actual 2022	Planned 2023	Planned 2024

Air tickets purchased at least 2 weeks before the commencement of travel	67	–	33	100	100

^a No travel was undertaken owing to COVID-19 travel restrictions.

Impact of the pandemic

1.53 During 2021 and 2022, the COVID-19 pandemic had an impact on the planned activities of the Committee. While all its meetings were held virtually in 2021, the Committee managed to hold some meetings in hybrid mode in 2022. Those challenges continued to have an impact on the modus operandi of the Committee’s deliberations, including the much earlier start and end times of the sessions (8 a.m. to 12 p.m. Eastern Standard Time) and the absence of interpretation services. This meant that the number of topics covered at each session was lower than usual, leading to ad hoc meetings, whenever practical. Those challenges notwithstanding, the Committee was able to issue its reports in a timely manner.

II. Secretary-General

B. Proposed post and non-post resource requirements for 2024

Overview

- 1.54 In accordance with Article 97 of the Charter of the United Nations, the Secretary-General, who is appointed by the General Assembly on the recommendation of the Security Council and who, in turn, appoints the staff, is the Chief Administrative Officer of the Organization. The Secretary-General also has an important political function by virtue of Article 99 of the Charter and a role in all United Nations meetings and such other functions as are entrusted to him by other principal organs of the Organization, as provided for in Article 98.
- 1.55 As the Chief Administrative Officer of the Organization, the Secretary-General is entrusted with a broad range of responsibilities under the Charter. Within the sphere of competence of the office, the Secretary-General takes action, on his own initiative, on a wide range of political, economic, social and humanitarian questions, reporting to and requesting guidance from the General Assembly and the Security Council, as appropriate. He uses his best efforts to assist in settling disputes between States and may bring to the attention of the Council any matter that may threaten the maintenance of international peace and security. Moreover, the Secretary-General plays a key role in efforts to ensure the observance of human rights. He provides policy direction to the departments, offices and other organizational units of the Secretariat in the execution of their functions and guidance and coordination to the programmes and other elements of the Organization. In addition, as Chair of the United Nations System Chief Executives Board for Coordination (CEB), the Secretary-General has a coordinating function in relation to the entire United Nations system of organizations. The activities of the Secretary-General in 2024 will be directed towards the achievement of the priorities of the Organization.
- 1.56 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.38 to 1.40.

Table 1.38

(Thousands of United States dollars)

III. Executive direction and management

1.59 The proposed resources under executive direction and management would provide for the Executive Office of the Secretary-General and the offices of the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi. Those offices provide support to the Secretary-General in his capacity as Chief Administrative Officer of the United Nations under Article 97 of the Charter of the United Nations by assisting in: (a) the establishment of general policy and in the exercise of executive direction in relation to the work of the Secretariat, the United Nations funds and programmes and other entities within the Organization; (b) the supervision and coordination of the work of the Organization pursuant to the decisions of the Secretary-General and to the relevant directives of the intergovernmental bodies concerned; (c) relations with the press and the public; (d) inter-agency coordination functions in relation to the United Nations system of organizations, regional organizations and non-governmental organizations (NGOs); (e) relations with the principal organs of the United Nations and host Governments; and (f) contacts with Governments and delegations pursuant to Articles 98 and 99 of the Charter. Further details are provided under the relevant components.

1. Executive Office of the Secretary-General

B. Proposed post and non-post resource requirements for 2024

Overview

1.60 The Executive Office of the Secretary-General provides assistance to the Secretary-General in the establishment of general policy, in the executive direction, coordination and expeditious performance of the work of the Secretariat and of the programmes and other elements of the Organization, and in contacts with Governments, delegations, the press and the public. It provides further assistance to the Secretary-General in strategic planning, the preparation of the annual report of the Organization and the annual report on the rule of law, political, economic and inter-agency affairs, liaison and representation functions and the fulfilment of the priorities and mandates set out by the General Assembly. The resources of the Executive Office also provide for the post of Deputy

Secretary-General, whose functions and responsibilities are defined in paragraph 1 of Assembly resolution [52/12 B](#).

- 1.61 The Executive Office functions as an integrated office, with reporting lines through the Deputy Secretary-General, Chef de Cabinet and the Under-Secretary-General for Policy to the Secretary-General. The Assistant Secretary-General will undertake assignments and perform functions in support of the Secretary-General's mandate. During 2023, the Secretary-General has continued to improve the structure of his Office through internal redeployments, as reflected in the organization chart (see annex I), to ensure the maximum utilization of existing resources and to support the Secretary-General in the execution of his mandate. The units within the Executive Office work as a team to support the Secretary-General and the activities of the principals, regardless of their direct reporting lines. The resources for the Executive Office provide for post and non-post resources in support of the activities of the Secretary-General. The overall level and number of posts approved for 2024 remain unchanged.
- 1.62 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution [72/219](#), the Executive Office has continued to integrate environmental management practices into its operations to ensure resource efficiencies, waste reduction and system-wide behavioural changes across the United Nations. In 2022, the Executive Office leveraged the changes that it had initiated in 2020 with regard to lowering its carbon and resource footprint, streamlining correspondences and document processing workflows, resulting in the elimination of much printing that otherwise would have been required. With the recent adoption of Assembly resolution [77/161](#) on promoting zero-waste initiatives to advance the 2030 Agenda for Sustainable Development, the Executive Office has also begun to examine measures to implement waste reduction practices for system-wide applications.
- 1.63 The Executive Office strives to make the reports of the Secretary-General issued by the Office accessible to persons with disabilities. For example, the report of the Secretary-General on the work of the Organization included several accessibility formats, including ePub, eBook and Easy Read. In 2024, the Executive Office will continue its efforts to facilitate the issuance of reports of the Secretary-General in disability-inclusive formats, where feasible. In 2022 the Executive Office enhanced the accessibility of events, for example, during the high-level week through the provision of International Sign interpretation and captioning for some Executive Office-led side events. The Executive Office is also taking active steps to ensure the provision of reasonable accommodation to staff members with disabilities and will continue such efforts in 2024.

Deputy Secretary-General

- 1.64 The Deputy Secretary-General, whose functions and responsibilities are defined in paragraph 1 of General Assembly resolution [52/12 B](#), will place special focus on sustainable development, including the 2030 Agenda and the Sustainable Development Goals, the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, the Paris Agreement on climate change and other intergovernmentally agreed sustainable development commitments. In this regard, specific attention will be paid to financing for development, climate action and environmental protection, jobs and social protection, global health, education and the humanitarian-development nexus, as well as the links to peacebuilding, transitions from crisis and conflict to sustainable development, migration and development, and the charring of the United Nations Sustainable Development Group, including the oversight of the Development Coordination Office and the continued implementation of the repositioning of the United Nations development system. The Deputy Secretary-General oversees the work of the Executive Office on gender equality, climate action, development finance and the implementation of the disability strategy, and chairs the Rule of Law Coordination and Resource Group. The Deputy Secretary-General directly oversees the work of the Sustainable Development Unit.

Chef de Cabinet

- 1.65 The Chef de Cabinet supports the Secretary-General in the execution of his political role and engagements. The Chef de Cabinet acts as an interface with Member States and, on behalf of the Secretary-General, primarily with the General Assembly and the Security Council. In addition, the Chef de Cabinet oversees the administrative and management portfolio, senior leadership appointments and the implementation of the management reforms, peace and security reforms, and other reforms as requested by the Secretary-General, as well as the alignment of the various reform streams. The Chef de Cabinet also oversees the efforts of the Organization to advance equitable geographical distribution and gender parity, to prevent sexual exploitation and abuse and to address racism within the Organization. The Chef de Cabinet chairs the Management Committee, the Management Performance Board, the High-level Steering Group on preventing sexual exploitation and abuse and the Senior Emergency Policy Team. The Chef de Cabinet also oversees the work of, and substantive support provided to those bodies and the Standing Principals' Group. The Chef de Cabinet provides direction and oversees the overall management of the Executive Office and directly oversees the Political, Peacekeeping, Humanitarian and Human Rights Unit, the Strategic Communication and Speech Writing Unit, the Office of the Spokesperson and the Management and Administrative Unit.

Under-Secretary-General for Policy

- 1.66 The Under-Secretary-General for Policy supports the Secretary-General in maintaining a holistic overview and strategic oversight of policy matters across all pillars of the work of the United Nations, including leading and coordinating the follow-up to Our Common Agenda and the Secretary-General's Call to Action for Human Rights. The Under-Secretary-General initiates and leads horizontal and vertical integration for system-wide coherence on conflict prevention policies, tools and operations; monitors emerging global issues and brewing crises and advises the Secretary-General on appropriate options and responses; and ensures that fresh thinking and outside perspectives are introduced. The Under-Secretary-General oversees the follow-up to the High-level Panel on Internal Displacement. The Under-Secretary-General is the Secretary of the Senior Management Group and the Executive Committee, and chairs the Deputies Committee and coordinates closely on matters related to CEB. The Under-Secretary-General also directly oversees the Strategic Planning and Monitoring Unit, the Rule of Law Unit and the Our Common Agenda team (which has been placed in the Under-Secretary-General's office), and ensures strategic coordination and coherence in the work of the Strategic Planning and Monitoring Unit, the Rule of Law Unit, the Our Common Agenda team, the Political, Peacekeeping, Humanitarian and Human Rights Unit, which reports to the Chef de Cabinet, and the Sustainable Development Unit, which reports to the Deputy Secretary-General.

Office of the Secretary-General

- 1.67 The Office of the Secretary-General provides support and assistance to the Secretary-General. The Office liaises with the Deputy Secretary-General, Chef de Cabinet and the Under Secretary-General for Policy and conveys the Secretary-General's guidance. It reviews and clears documentation, correspondence, notes, letters, reports and statements. The Office oversees the scheduling of meetings and events, the preparation of scenarios and the travel of the Secretary-General, and is responsible for preparation for scheduled activities, including consolidating background notes, key messages, remarks and speeches, and liaising with permanent missions.

Management and Administrative Unit

- 1.68 The Management and Administrative Unit provides support to the Secretary-General and the Executive Office in the areas of human resources, financial and budgetary management and general administration. In addition, the Unit carries out advisory and liaison functions with regard to matters related to management, oversight, conference support, safety and security, legal affairs, ethics, and

conduct and discipline. The Unit, which includes the Central Records Unit, also ensures the effective management of correspondence for the Secretary-General and the Executive Office.

Office of the Spokesperson

- 1.69 The Office of the Spokesperson for the Secretary-General provides information to the media on the work of the Secretary-General and the United Nations system as a whole through daily briefings, direct responses to media enquiries, press conferences, background briefings and interviews with the Secretary-General, the Deputy Secretary-General and other senior officials. The Office provides advice on media relations to the Secretary-General, the Deputy Secretary-General and United Nations officials. Personnel of the Office travel with the Secretary-General, keep him abreast of breaking news, interact with media to ensure coverage of the activities of the Secretary-General, and ensure that all statements made are placed on record.

Political, Peacekeeping, Humanitarian and Human Rights Unit

- 1.70 The responsibilities of the Political, Peacekeeping, Humanitarian and Human Rights Unit include working closely with the relevant line departments to provide situational awareness, trend analysis and advice on emerging and ongoing issues of interest and concern across the political, peacekeeping, humanitarian and human rights portfolios; supporting senior management decision-making on country situations and relevant thematic files; ensuring effective and coordinated United Nations system analysis, reporting and response on situations of interest and concern; ensuring policy oversight and quality assurance of various communications and reports of the Secretary-General on political, peacekeeping, humanitarian or human rights issues; providing high-quality and well-coordinated input to public and private communications; and ensuring that human rights concerns are adequately reflected in the above-mentioned work.

Rule of Law Unit

- 1.71 The Rule of Law Unit catalyses the strengthening of United Nations activities to promote the rule of law. The Unit serves as the focal point in the Executive Office for legal questions, the rule of law, counter-terrorism and the prevention of violent extremism, international justice and accountability, organized crime and drugs, transitional justice and anti-corruption, and provides support for the system-wide coordination, coherence and quality of rule of law activities of the United Nations. It develops system-wide strategies, policy direction, best practice materials and guidance for the Organization in promoting the fundamental importance of the rule of law. Moreover, the Unit provides support to the Rule of Law Coordination and Resource Group in carrying out and implementing the tasks set out in the related report of the Secretary-General (A/61/636-S/2006/980) and leads the preparation of the annual report of the Secretary-General on the rule of law.

Scheduling and Travel Unit

- 1.72 The Scheduling and Travel Unit oversees the scheduling of meetings, events and travel of the Secretary-General, handling requests for invitations and individual meetings in consultation with departments, offices and units. The responsibilities of the Unit include preparation for scheduled activities (meetings, events and travel), including the consolidation of briefing materials, the preparation of scenarios and the organization of the travel of the Secretary-General.

Strategic Communication and Speech Writing Unit

- 1.73 The Strategic Communication and Speech Writing Unit provides communications advice and support to the Secretary-General. The Unit drafts speeches, video messages, op-ed articles and other materials for delivery by the Secretary-General. It also works with communications colleagues and others across the United Nations system on strategic planning and crisis communications, helps to formulate key messaging, ensures that the Secretary-General's speeches and messages are disseminated as widely as possible and provides speech support to the Deputy-Secretary General and other senior officials in the Executive Office.

Strategic Planning and Monitoring Unit

- 1.74 The Strategic Planning and Monitoring Unit provides support for strategic decision-making, priority-setting, forward planning, analysis, risk management, coordination and alignment, and ensuring strategic direction and coherence in planning frameworks, and supports analyses, reviews, assessments and plans for integrated United Nations response efforts, with a focus on crisis-affected and fragile settings, including the preparation of strategic considerations and options based on information from the United Nations system. The Unit translates the guidance of the Secretary-General into strategic directives that set out overall parameters for potential United Nations engagement, and supports the efforts of the Secretary-General to develop new capabilities that promote agility, integration and cohesion across the system and to offer relevant and system-wide solutions to the challenges of the twenty-first century.

Sustainable Development Unit

- 1.75 The Sustainable Development Unit supports the strategic engagement on sustainable development, guided by the 2030 Agenda and the Sustainable Development Goals, the Addis Ababa Action Agenda, the Paris Agreement on climate change and other intergovernmentally agreed sustainable development commitments, paying specific attention to issues relating to financing for development, climate action and environmental protection, jobs and social protection, global health, education, the humanitarian-development-peace nexus and transitions from crisis and conflict to sustainable development, migration and development, and the reform of the United Nations development system. In a context marked by the COVID-19 pandemic, the ongoing climate crisis and setbacks in the achievement of the Goals, the Unit supports the Secretary-General and the Deputy Secretary-General in mobilizing ambition and action and achieving policy breakthroughs, to reverse deteriorating trends related to the Goals and unlock transformative change through a repositioned United Nations development system and expanded multistakeholder engagement and partnerships. The Unit also provides substantive input to the Chef de Cabinet and the Under-Secretary-General for Policy for joint action on the Executive Office's priorities, and contributes to the preparations for and the integrated analysis of the material discussed during the meetings of the Executive Committee.

Impact of the pandemic

- 1.76 Learning lessons from the height of the COVID-19 pandemic, the Executive Office continues to adapt its work so that it can be performed effectively and efficiently in hybrid environments by leveraging modern information technology systems. Given the nature of the Executive Office, many functions are performed in person to ensure effective support for the work of the Secretary-General and other principals. Wherever possible and suitable, the hybrid model has been applied. To support hybrid work, the Executive Office has also made minor space adaptations, including by adding individual focus workspaces. Meetings of the Secretary-General with dignitaries and delegates have resumed in large part in person, resulting in an increased level of travel comparable to pre-pandemic levels.
- 1.77 The Executive Office continues to institute more digital correspondence and document processing workflows. These new best practices enabled remote operations and review and clearance processes within the units of the Executive Office.
- 1.78 Best practices and lessons learned from dealing with and addressing the COVID-19 pandemic will continue to be implemented across the Secretariat and the United Nations system. The Executive Office will continue to lead and support close and strong collaboration across all offices, departments and field entities within the Secretariat and in the United Nations system to ensure business continuity and support to Member States in their recovery efforts.
- 1.79 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.42 to 1.44.

Figure 1.VII
Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed and extrabudgetary resources

- 1.82 As reflected in tables 1.45 (2) and 1.46 (2), other assessed resources estimated at \$1,280,000 would provide for five posts and non-post resources under the support account for peacekeeping operations. The increase of \$41,600 reflects updated salary costs, compared with the estimate for 2023. Further details on the resource changes are reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2023 to 30 June 2024 (A/77/771).
- 1.83 As reflected in tables 1.45 (3) and 1.46 (3), extrabudgetary resources amount to \$38,598,000. The resources would complement regular budget resources and would support the delivery of its mandates, including supporting the Secretary-General in his responsibilities and the Executive Office’s activities in all regions of the world, providing support for the financing of activities related to the maintenance of international peace and security, and providing for special projects to be undertaken by the Executive Office.
- 1.84 The extrabudgetary resources under the present section are subject to the oversight of the Executive Office, which has delegated authority from the Secretary-General.
- 1.85 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.48. The vast majority of the travel undertaken in the Executive Office is in connection with the formal delegations of the Secretary-General and of the Deputy Secretary-General. The official visits of the Secretary-General and of the Deputy Secretary-General involve complex preparation and logistical arrangements with respect to the agenda and scheduling with numerous high-level government officials. Therefore, such preparations are, in many cases, finalized close to the departure date and are subject to last-minute changes. Furthermore, the official visits, in most cases, involve multiple consecutive meetings in different countries and regions in order to save financial resources that would have been otherwise incurred had the travel been to a single destination with a round trip to New York. Hence, the coordination of these multiple-leg trips with numerous high-level participants is more complex and involves additional extensive preparations with unforeseen circumstances. It should be noted that the Executive Office often works directly with the Travel Unit and reserves the tickets on the basis of a preliminary itinerary to secure the tickets at a low price, before the formal actions are recorded in Umoja, which are then completed at a later stage, once final information is confirmed. The Executive Office is mindful of and takes the utmost efforts to achieve improved compliance with the advance booking of air travel policy.

2. Office of the Director-General, United Nations Office at Geneva

Foreword

The world faces increasing economic, humanitarian and environmental challenges, an uneven recovery from the COVID-19 pandemic and a deep security crisis born of rising geopolitical tensions. In the face of these challenges, the United Nations Office at Geneva plays a leading role at the heart of “International Geneva” in bringing together Member States, organizations and many other actors to find solutions to these global challenges.

Through its unique convening capacity – whether physical or virtual – and by providing cutting-edge infrastructure, services and assistance, the United Nations Office at Geneva is a key hub for inclusive, multilateral diplomacy and action on the 2030 Agenda for Sustainable Development. It undertakes diplomatic outreach, liaison functions and communications initiatives and provides political, protocol and legal advice. As the designated United Nations official for security for Switzerland, the Director-General oversees the safety and security of United Nations staff and property.

The United Nations Office at Geneva will continue to be a service provider of excellence and an operational hub of the United Nations system, embracing innovation, collaboration and sustainability. The strategic heritage plan is an example of its modernization. The Office has also incorporated lessons learned from the COVID-19 pandemic to ensure flexibility, inclusivity and accessibility for all, while at the same time implementing measures to be more resilient and cost-effective.

The United Nations Office at Geneva stands firm as a centre for multilateralism and remains committed to helping to shape multilateralism for the future, in 2024 and beyond.

(Signed) Tatiana **Valovaya**
Director-General, United Nations Office at Geneva

B. Proposed post and non-post resource requirements for 2024

Overview

- 1.86 The Office of the Director-General of the United Nations Office at Geneva provides executive support to the Director-General in her functions as the representative of the Secretary-General in Switzerland, as executive head of the United Nations Office at Geneva and as the designated official for security for Switzerland, as mandated and described in the Secretary-General's bulletin on the organization of the United Nations Office at Geneva ([ST/SGB/2000/4](#)). The functions of the Office of the Director-General are to:
- (a) Provide executive support to the Director-General and assist the Director-General in the overall direction and management of the United Nations Office at Geneva and the coordination of the activities of its units;
 - (b) Liaise with the Executive Office of the Secretary-General and other Secretariat units at Headquarters and other duty stations;
 - (c) Maintain contact with permanent and observer missions, including coordinating information to them;
 - (d) Provide advice and support to the Director-General in relation to communications, public relations and outreach activities;
 - (e) Provide advice and support to the Director-General in the discharge of political and representational functions with Member States and regional and other intergovernmental organizations, and liaise with relevant Headquarters departments in this area;
 - (f) Organize the observance of mandated and selected international days;
 - (g) Maintain and develop cooperation with Geneva-based United Nations entities, including arranging consultations between the Director-General and the heads of the funds, programmes and specialized agencies in Geneva, and facilitating inter-agency cooperation;
 - (h) Support the Director-General in building partnerships in support of the work of the Organization, including with civil society, the academic and research community and the private sector; liaising with relevant Headquarters departments in this area; and liaising with NGOs, first and foremost with those in consultative status with the Economic and Social Council, and facilitating their participation in United Nations activities;
 - (i) Maintain and develop cooperation with research and academic institutions, civil society, think tanks and the private sector, including organizing joint events;
 - (j) Represent the United Nations Legal Counsel at Geneva, assist the Director-General in all legal matters, provide legal advice to substantive departments and services at the United Nations Office at Geneva and to funds and programmes at Geneva, and liaise with the host country and other authorities concerning privileges and immunities, the implementation of Headquarters agreements and other questions affecting United Nations agreements;
 - (k) Carry out protocol and diplomatic liaison functions with permanent and observer missions and authorities of the host country, provide protocol advice to United Nations entities at Geneva and advise the Geneva Diplomatic Committee in its work;
 - (l) Support the implementation of the 2030 Agenda through communication and outreach activities, capitalizing on the presence in Geneva of a diversity of stakeholders directly involved in the achievement of the Sustainable Development Goals, by acting as convenor, facilitator and connector among actors in Geneva and other duty stations;
 - (m) Lead the United Nations Office at Geneva as it adapts to new realities and challenges following the COVID-19 pandemic, such as hybrid conferencing, and maintain business continuity at the

Figure 1.VIII
Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 1.90 As reflected in tables 1.52 (2) and 1.53 (2), extrabudgetary resources amount to \$458,900. The resources would complement regular budget resources and would be used to support the Office’s work in the Legal Affairs Section and the Political Affairs and Partnerships Section.
- 1.91 The extrabudgetary resources under the present section are subject to the oversight of the Office of the Director-General, which has delegated authority from the Secretary-General.
- 1.92 Information on the advance booking for air travel is reflected in table 1.55. The lower rate of compliance during 2022 was due mainly to the continued impact of the COVID-19 pandemic in the earlier part of the year. The Office of the Director-General will continue to plan its travel in order to reach 100 per cent compliance with the advance booking of air travel policy.

3. Office of the Director-General, United Nations Office at Vienna

Foreword

The United Nations Office at Vienna is proud of its efforts to support the United Nations, its Member States and the larger international community in finding durable solutions to complex global challenges and implementing the 2030 Agenda for Sustainable Development. As one of the four global headquarters of the United Nations, the Office supports multilateral diplomacy through its convening capacity and by providing political, protocol and diplomatic liaison functions and advice.

A champion of innovation, collaboration and sustainability, the Office strives to provide efficient and effective administrative and support services to the Vienna-based United Nations entities, which collectively contribute to advancing United Nations goals and values in Austria, in the region and around the world. Thanks to its dedicated staff, the Office provides quality services in human resources, procurement, finance, information technology and communications, and other administrative areas. The Office supports the Secretary-General's reform agenda, seeks out and implements measures to be more resilient and cost-effective, and continues its efforts to reduce its carbon footprint and promote sustainability.

The Office is committed to fostering an enabling organizational culture that ensures a diverse, inclusive and equitable workplace for all. In line with the Secretary-General's goals for gender parity, the Office strives for gender balance among its staff and integrates a gender perspective into its operational activities, deliverables and results. Drawing on best practices from the COVID-19 pandemic and in line with the United Nations Disability Inclusion Strategy, the Office continues to improve the accessibility of its facilities and its online tools and resources for staff members and visitors with disabilities. The Office also supports the United Nations Youth Strategy to foster meaningful youth engagement in advancing the 2030 Agenda.

Through its work and its public outreach, the Office demonstrates and advocates for the importance of multilateralism and the principles for which the United Nations stands. In these endeavours, the Office is grateful for the long-standing support of the host country and host city, which are essential partners in the efforts of the Office to communicate the values of the United Nations in Vienna, in Austria and internationally.

The Office strives to be a service provider of excellence and will continue to ensure that the United Nations family in Vienna is well equipped to provide effective and efficient support for Member States in addressing global challenges and implementing the 2030 Agenda.

(Signed) Ghada **Waly**
Director-General, United Nations Office at Vienna

B. Proposed post and non-post resource requirements for 2024

Overview

- 1.93 The Office of the Director-General of the United Nations Office at Vienna provides executive support to the Director-General in her functions as the representative of the Secretary-General in Austria, as executive head of the United Nations Office at Vienna, including the United Nations Information Service, and as a designated official for security for Austria. The Office of the Director-General also maintains liaison with the host Government and other Governments and intergovernmental organizations and NGOs in Vienna. The responsibilities of the Director-General are combined with those of the Executive Director of UNODC. The Office of the Executive Director is integrated with that of the Director-General and is supported by UNODC resources. The functions of the Office of the Director-General, as outlined in the Secretary-General's bulletin on the organization of the United Nations Office at Vienna ([ST/SGB/2004/5](#)), are to:
- Provide assistance to the Director-General in the executive direction and management of the United Nations Office at Vienna and in the coordination of the activities of its units;
 - Cooperate with the host Government and provide protocol services to the United Nations offices in Vienna, including processing letters of credentials for the heads of permanent missions in Vienna and maintaining liaison with NGOs in consultative status with the Economic and Social Council;
 - Represent the United Nations Legal Counsel in Vienna and provide assistance to the Director-General on all legal matters and legal services for entities of the Secretariat in Vienna;
 - Arrange for representation of the United Nations at meetings and conferences held in Vienna;
 - Coordinate with the United Nations Industrial Development Organization, the International Atomic Energy Agency and the Preparatory Commission of the Comprehensive Nuclear-Test-Ban Treaty Organization on common policy matters affecting the entities based in Vienna;
 - Maintain liaison with the Executive Office of the Secretary-General and other Secretariat units at Headquarters.
- 1.94 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.56 to 1.58.

1.97 Information on the advance booking for air travel is reflected in table 1.60. The lower rate of compliance during 2022 was due mainly to the continued impact of the COVID-19 pandemic in the earlier part of the year. The Office of the Director-General will continue its efforts to improve travel planning to ensure compliance with the advance booking of air travel policy.

4. Office of the Director-General, United Nations Office at Nairobi

Foreword

The United Nations Office at Nairobi, established in 1996, is the youngest of the United Nations offices away from Headquarters. It remains the only United Nations headquarters in Africa and in the global South.

As the representative of the Secretary-General, the Director-General of the United Nations Office at Nairobi provides the Secretary-General with advice on and support for a broad range of political, diplomatic and cross-cutting issues in the region, and undertakes special political and representation assignments.

In 2024, the Director-General will continue to represent the Secretary-General on all representation matters and will liaise with permanent missions accredited to the United Nations in Nairobi. The Director-General will also continue to act as the main interlocutor with the host Government on all matters relating to the functioning of the offices of the United Nations and its separately administered organs and programmes in Kenya and as the designated official responsible for the safety and security of all United Nations staff in Kenya, their dependants and the assets of the Organization. The Office of the Director-General will continue, in 2024, to support the Director-General in all her functions, including her efforts to further raise the profile of the United Nations Office at Nairobi and upgrade its infrastructure and facilities, in the light of the duty station's increasing importance as a global and dynamic United Nations hub, including transiting administrative support functions for other United Nations entities to the United Nations Office at Nairobi.

Nairobi is one of the United Nations system's most unique duty stations, containing a mix of global headquarters, regional and country offices, special political missions and peace support operations. Collectively, the activities of these Nairobi-based United Nations entities make significant contributions to advancing United Nations goals and values in Kenya, in the region and around the world.

The United Nations Office at Nairobi provides quality administrative and support services to a wide range of United Nations programmes and intergovernmental processes and is undertaking critical activities in support of the United Nations Environment Programme, the United Nations Human Settlements Programme (UN-Habitat) and the resident coordinator offices globally. Throughout 2024, the Office will continue to strive to serve its clients, providing exceptional services in support of the delivery of their critical mandates and the advancement of the Sustainable Development Goals.

(Signed) Zainab Hawa **Bangura**
Director-General, United Nations Office at Nairobi

B. Proposed post and non-post resource requirements for 2024

Overview

- 1.98 The functions of the Office of the Director-General of the United Nations Office at Nairobi are outlined in the Secretary-General's bulletin on the organization of the United Nations Office at Nairobi ([ST/SGB/2009/3](#)). The Director-General is responsible for all activities of the Office, serves as the representative of the Secretary-General and performs representation and liaison functions with the host Government, permanent missions and intergovernmental organizations and NGOs based in Nairobi. The responsibilities also include the executive direction and management of the United Nations Office at Nairobi, including the programmes of administration and conference services, other support and common services and the United Nations Information Centre in Nairobi. The functions of the Office of the Director-General are to:
- (a) Provide assistance to the Director-General in all functions, including ad hoc responsibilities assigned by the Secretary-General;
 - (b) Cooperate with the host Government and provide protocol services for the United Nations Office at Nairobi, including processing letters of credentials for the heads of permanent missions in Nairobi;
 - (c) Provide legal advisory services for the United Nations Office at Nairobi, UNEP and UN-Habitat;
 - (d) Maintain liaison with the Executive Office of the Secretary-General and Headquarters-based Secretariat units.
- 1.99 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.61 to 1.63.

Explanation of variances by factor

Overall resource changes

Other changes

1.102 As reflected in tables 1.64 (1) and 1.65 (1), resource changes reflect an increase of \$122,100 under posts owing to the proposed establishment of one post of Senior Political Affairs Officer (P-5) (see annex III).

Extrabudgetary resources

1.103 As reflected in tables 1.64 (2) and 1.65 (2), extrabudgetary resources amount to \$282,900. The resources would complement regular budget resources to support the delivery of the Office of the Director-General’s mandates.

1.104 The extrabudgetary resources under the present section are subject to the oversight of the Office of the Director-General, which has delegated authority from the Secretary-General.

1.105 Information on the advance booking for air travel is reflected in table 1.67. The Office of the Director-General continues to work closely with the Travel, Shipping and Visa Unit to reserve tickets in advance, on the basis of the preliminary itinerary, in order to secure the tickets, before the formal actions are recorded in Umoja. The Office will endeavour to increase efforts to achieve 100 per cent compliance with the advance booking of air travel policy.

IV. Office of the Special Representative of the Secretary-General for Children and Armed Conflict

Foreword

Over the course of 2024, the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, together with partners in the field, will redouble its efforts to promote the signing of action plans and commitments with parties to conflict to combat and prevent grave violations against children, engage with affected Member States to put in place legislation to criminalize the six grave violations, and build capacity for the implementation of protection and prevention plans. Partnerships with regional and subregional bodies to develop prevention strategies will be reinforced. The Practical Guidance for Mediators to Protect Children in Situations of Armed Conflict will ensure the systematic inclusion of protection language in peace processes. Building the capacity of United Nations field partners and the development of guidelines for improved monitoring, reporting and engagement will be a priority. The Office will also continue to lead research initiatives to address areas of concern of the children and armed conflict mandate, as identified in the study on its evolution during the 1996-2021 period. Efforts led by the Office and the United Nations Children's Fund to collect best practices on reintegration of released children will continue to generate support for reintegration.

The Office will continue to advocate the full implementation of the Convention on the Rights of the Child and its Optional Protocols, and to call for all Member States to uphold their legal obligation to recognize all persons under 18 years of age as children. The Office will also continue to advocate the endorsement of political commitments such as the Paris Principles, the Vancouver Principles and the Safe Schools Declaration and strive to create platforms where the voices of children can be heard, in order to ensure their meaningful participation in decision-making processes.

(Signed) Virginia **Gamba**
Special Representative of the Secretary-General for Children and Armed Conflict

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 1.106 The Special Representative of the Secretary-General for Children and Armed Conflict is responsible for the protection of children affected by armed conflict and for advocating to prevent the six grave violations against children identified by the Security Council from occurring in the first place. These six grave violations are the denial of humanitarian access for children (resolution [1261 \(1999\)](#)); the recruitment and use of children (resolution [1379 \(2001\)](#)); the killing and maiming of children (resolution [1882 \(2009\)](#)); rape and other forms of sexual violence against children (*ibid.*); attacks on schools and hospitals (resolution [1998 \(2011\)](#)); and the abduction of children (resolution [2225 \(2015\)](#)). The Office works primarily in those situations of armed conflict or of concern identified in the annual report of the Secretary-General on children and armed conflict. The Office of the Special Representative covers 24 situations in 5 geographic regions and promotes enhanced monitoring and reporting at the subregional level in the Lake Chad basin and central Sahel regions, in accordance with the report of the Secretary-General on children and armed conflict in 2022 ([A/76/871-S/2022/493](#)).
- 1.107 The mandate derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolutions [51/77](#) and [58/245](#). The key elements of the mandate of the Special Representative are to: (a) provide political leadership and high-level advocacy for the improved protection of children affected by armed conflict; (b) lead the collection of information and reporting on the plight of these children; (c) advocate, build awareness of and give prominence to ending and preventing grave violations; (d) work with United Nations partners, Member States, civil society and pertinent intergovernmental bodies to propose ideas, undertake research and facilitate discussions on the best approaches to enhance the protection response for children in situations of armed conflict, including through improved accountability processes; (e) undertake diplomatic engagement with parties to armed conflict and affected Member States in order to secure commitments to end and prevent violations against children; and (f) facilitate the work of operational child protection actors on the ground through the development and promotion of best practices, such as ensuring that child protection issues are included in peace processes, appropriate release procedures are in place, reintegration programmes are strengthened to avoid re-recruitment opportunities, child protection expertise and capacity are reinforced, and regional and national prevention plans and policies against the six grave violations are promoted.
- 1.108 By its resolution [76/147](#), the General Assembly extended the mandate of the Special Representative for an additional period of four years, until 2025.

Programme of work

Objective

- 1.109 The objective, to which the Office contributes, is to eradicate the six grave violations committed against children in situations of armed conflict through strengthened mechanisms for the protection of children used and abused in, for and by armed conflict, prevent these violations from occurring in the first place and improve measures to better protect children in situations of armed conflict, including by ensuring that children are placed at the centre of peace negotiations and securing optimal conditions for the release and reintegration of children, thereby avoiding re-recruitment.

Strategy and external factors for 2024

- 1.110 To contribute to the objective, the Office will strengthen mechanisms for the protection of children used and abused in, for and by armed conflict, prevent these violations from occurring in the first place and improve measures to better protect conflict-affected children. Specifically, the Office will:
- (a) Monitor and report on violations against children in situations of armed conflict through the reinforcement of existing child protection capacities on the ground and facilitate information exchanges to identify and mitigate trends in the use and abuse of children in, for and by armed conflict;
 - (b) Enhance its diplomatic engagement, including through direct dialogue and/or country visits by the Special Representative, with parties to armed conflict to promote ending and preventing the use and abuse of children, and continue to advocate the protection of children affected by conflict and the prevention of grave violations against them through analysis, public outreach and targeted reintegration support, as well as the development of groups of friends of the mandate in affected States and regions;
 - (c) Develop community, national, subregional and regional prevention plans, as well as other preventive measures, guided by Security Council resolutions [2427 \(2018\)](#) and [2601 \(2021\)](#), while promoting the adoption of international norms and standards for the protection of children by Member States;
 - (d) Analyse the best practices emerging from ongoing activities to stop grave violations committed against children and promote the continued roll-out of specific public awareness campaigns in all countries and regions where there is active armed conflict and, whenever possible, in all official languages of the United Nations;
 - (e) Develop curricula with partners, conduct training for defence and security personnel and assist in capacity-building for governing structures, academics and civil society;
 - (f) Undertake research into the six grave violations, provide guidelines to assist in their monitoring, promote the comprehensive discussion of reintegration needs through the Global Coalition for Reintegration of Child Soldiers and promote the inclusion of child protection issues in peace processes and the use of the related Practical Guidance for Mediators to Protect Children in Situation of Armed Conflict to that end;
 - (g) Organize and participate in seminars, workshops, conferences and other relevant meetings to raise awareness of child protection and prevention best practices and proposed best international standards on the protection and release of children who are victims of the six grave violations;
 - (h) Enhance data analysis and information management capacity to better capture the differentiated protection needs of children, including on the basis of age, gender and disability, and whether they are on the move, internally displaced, refugees or victims of cross-border trafficking, and the factors that can exacerbate their vulnerability, such as climate change, poverty and inequality, the proliferation of and illicit trafficking in arms, the impact of landmines, explosive remnants of war and improvised explosive devices, and the impact of new technologies.
- 1.111 The planned deliverables and activities are expected to help Member States to make progress towards the achievement of the Sustainable Development Goals, including Goals 3, 4, 5 and 8, in particular target 8.7 on the eradication of child labour, including the recruitment and use of child soldiers, and Goal 16, in particular target 16.2 on ending abuse, exploitation, trafficking and all forms of violence against and torture of children.
- 1.112 The above-mentioned work is expected to result in:
- (a) A decrease in the number of violations committed against children in armed conflict and an increase in the number of children released by armed forces and groups and reintegrated, including through repatriation and removal from situations of armed conflict, in line with the

- commitments agreed to in action plans, handover and release protocols, other commitments and mutually agreed practices;
- (b) Stronger national and regional protection and prevention systems and accountability mechanisms through justice, remediation and reparation processes, involving Member States, to address gaps in knowledge, common standards and procedures for dealing with children under threat;
 - (c) The strengthening of efforts to protect children, including those threatened by intercommunal violence and the emergence of new parties to armed conflict, and specific groups of children at risk;
 - (d) An increased mitigation capacity of Governments to prevent violations and ensure equal access to and the continuation of education in conflict;
 - (e) An international political consensus that tailored, systematic and sustainable reintegration support should be provided to all released children, including those repatriated or removed from armed conflict zones, and that child protection issues should be included in all peace processes, in order to break the cycle of violence;
 - (f) Enhanced capacity of Member States and United Nations country task forces for monitoring and reporting, and their equivalents in countries where there is no monitoring and reporting mechanism in place, to support children and vulnerable communities on the ground;
 - (g) Increased participation of children in decision-making processes related to issues that have an impact on them, including their protection and reintegration needs, in accordance with the Convention on the Rights of the Child.
- 1.113 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) The political environment would continue to be supportive for the improved measures put in place to end and prevent violations committed against children in situations of armed conflict in all situations of the children and armed conflict agenda;
 - (b) The dynamics of contemporary armed conflict in which children are normally victimized allow for access to monitor and assist in the implementation of these measures;
 - (c) Negotiators and mediators in peace processes and national dialogues ensure the inclusion of provisions to protect children in situations of armed conflict and to place children at the heart of the peace processes.
- 1.114 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to garner support for the protection of children in armed conflict, including through engagement with Member States and groups of friends on children and armed conflict, to keep the plight of conflict-affected children high on the global political agenda and to advocate the ratification and implementation of the Convention on the Rights of the Child and its Optional Protocol on the involvement of children in armed conflict, and the endorsement of political commitments; the reinforcement of partnerships with regional and subregional actors for the adoption of measures to prevent grave violations before they occur, including with the African Union, the European Union, the League of Arab States, the Economic Community of West African States and the Economic Community of Central African States; and the engagement with mediation actors to encourage the inclusion of child protection issues in mediation and peace processes. In addition, the Office will also continue to work closely with civil society organizations, communities, academia and research institutes to build expertise and raise awareness of the protection of children in armed conflict.
- 1.115 With regard to inter-agency coordination and liaison, the Office will continue to support country task forces in monitoring and reporting on grave violations against children and in engaging with parties to conflict to advocate the adoption of measures to end and prevent these violations, including through advocacy and capacity-building initiatives; the development of guidelines within the Monitoring and Reporting Mechanism Technical Reference Group, an inter-agency group bringing

together the Office, UNICEF, the Department of Peace Operations and the Department of Political and Peacebuilding Affairs to provide guidance to United Nations partners implementing the mandate in the field; and the exchange of information within the Task Force on Children and Armed Conflict at United Nations Headquarters. In addition, the Office will continue to strengthen its cooperation with the Offices of the Special Representative of the Secretary-General on Violence against Children and the Special Representative of the Secretary-General on Sexual Violence in Conflict, through information exchange, common messaging and joint events and initiatives.

- 1.116 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. In 2024, the Office will continue to mainstream a gender perspective into the Monitoring and Reporting Mechanism to strengthen its gender-sensitive analyses of grave violations against children in armed conflict, including through enhanced data analysis and support for the capacity-building activities of its field partners. In this respect, the Office will continue the roll-out of dedicated gender analysis training for country task forces, developed in collaboration with UNICEF in 2023. In addition, the Special Representative will continue advocacy for the protection of girls' education from attacks, including within the framework of the endorsement and implementation of the Safe Schools Declaration. Furthermore, the Office will ensure that the platforms that it creates, alongside partners, for the voice of children to be heard in relevant forums will allow for the differentiated experience between girls and boys to be highlighted.
- 1.117 In line with the United Nations Disability Inclusion Strategy, the Office will continue to strengthen its efforts to address the specific protection needs of children with disabilities. Children with disabilities are disproportionately affected by armed conflict. Furthermore, injuries and other severely distressing experiences sustained by many children during armed conflict, including as a result of grave violations, can lead to long-term consequences and different forms of mental and physical disabilities, posing additional challenges to children's recovery and reintegration. In this context, the Office will publish a study in 2023 on the impact of the six grave violations on children with disabilities in armed conflict in order to better understand the impact of armed conflict on children with disabilities, taking into account their specific needs, and inform prevention measures, protection responses and reintegration services. In 2024, the Office will build on this study to disseminate its conclusions and advocate with its partners the implementation of its recommendations, including the identification of children with disabilities, the collection and verification of data on grave violations committed against children with disabilities, and the development of more inclusive prevention, response and reintegration measures. The Office will also continue its advocacy efforts to raise awareness of the plight of children with disabilities in armed conflict and the implementation of its disability inclusion strategy.

Impact of the pandemic and lessons learned

- 1.118 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular localized, yet sudden, spikes in the pandemic, which made engagement with parties to conflict on the ground more difficult. Some activities, such as events and meetings, had to be held virtually, including a virtual side event organized by the Office and the Committee on the Rights of the Child on the margins of the forty-sixth session of the Human Rights Council.
- 1.119 In addition, in order to support Member States on issues related to the COVID-19 pandemic, within the overall scope of the objectives, the Office provided data and policy guidance to inform field responses, including through the publication in 2022 of a follow-up study on the mid- and long-term impact of the pandemic on grave violations against children in situations of armed conflict.
- 1.120 The Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the provision of capacity-building initiatives undertaken remotely with United Nations partners on the ground and other actors, including Member States' government representatives and parties to conflict; remote engagement with parties to conflict to keep all action plans on track and to advocate the development and signing of new actions plans to end and/or prevent violations; and virtual participation in events

and meetings. The Office will continue to adopt virtual and remote modalities as an alternative to travel, whenever possible and as appropriate.

Evaluation activities

- 1.121 The thematic evaluation of United Nations Secretariat support for the Sustainable Development Goals, completed in 2022, has guided the proposed programme plan for 2024.
- 1.122 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2024. For example, on the basis of the conclusions of the evaluation highlighting Member States' needs in capacity-building support and similar feedback received by the Office from partners in the field, an emphasis has been placed on the development and provision of capacity-building initiatives in the proposed programme budget for 2024.
- 1.123 The following evaluations are planned for 2024:
- Office of Internal Oversight Services (OIOS) biennial report on strengthening the role of evaluation and application of evaluation findings on programme design, delivery and policy directives (evaluation period 2022–2023);
 - OIOS thematic evaluation of children and armed conflict in peacekeeping operations.

Programme performance in 2022

Sustained decrease in the number of verified cases of denial of humanitarian access to children

- 1.124 The number of verified cases of denial of humanitarian access to children, one of the six grave violations against children in armed conflict identified by the Security Council, continued to decline in 2022, notwithstanding deteriorating political, security and climate environments in several situations on the children and armed conflict agenda and the inclusion of three additional situations of concern monitored and reported on in 2022 compared with 2020 and 2021. This reflects the critical role that the children and armed conflict mandate has played in contributing to the protection of children from grave violations and the prevention of these violations before they occur. The sustained engagement of the Office with parties to conflict and advocacy at the international, regional and national levels led to the signature and implementation by armed forces and armed groups of action plans, prevention plans and other commitments to end and prevent the denial of humanitarian access to children, and therefore contributed to allowing the delivery of life-saving assistance to children and mitigating the impact of armed conflict on them.
- 1.125 Progress towards the objective is presented in the performance measure below (see figure 1.XI).

Figure 1.XI

Performance measure: number of verified cases of denial of humanitarian access to children (annual)

Planned results for 2024

Result 1: increase in the signature of new action plans and other commitments between the United Nations and parties to armed conflict to end and prevent violations against children, including new comprehensive action plans covering all six grave violations

Programme performance in 2022 and target for 2024

- 1.126 The work of the Office contributed to 41 joint action plans and other commitments, including comprehensive action plans, covering all 6 grave violations, which was 1 fewer than the planned target of 42. The target was not met owing to a deterioration in political and security situations in 2022, including the multiplication and intensification of armed conflict and the lasting impact of the COVID-19 pandemic. Safety concerns hampered access for child protection actors and curtailed engagement with parties to conflict. This environment had limited opportunities for the signature of new action plans and other commitments in 2022.
- 1.127 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 1.XII).

Figure 1.XII

Performance measure: number of joint action plans and other commitments, including comprehensive action plans, covering all six grave violations (cumulative)

Result 2: increase in the signature of prevention plans, including national, regional and subregional prevention plans, and other measures to prevent grave violations against children and ensure equal access to and the continuation of education in conflict

Programme performance in 2022 and target for 2024

- 1.128 The programme's work contributed to four prevention plans and other preventive measures to prevent grave violations against children in conflict and/or ensure equal access to and the continuation of education in conflict, which met the planned target.
- 1.129 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 1.XIII).

Figure 1.XIII

Performance measure: number of prevention plans and other preventive measures to prevent grave violations against children in conflict and/or ensure equal access to and the continuation of education in conflict (cumulative)

Result 3: more children released from armed forces and armed groups

Proposed programme plan for 2024

- 1.130 The recruitment and use of children in conflict is one of the six grave violations committed against children in armed conflict that the Office monitors and reports on while engaging with parties to conflict to end and prevent this grave violation and obtain the release of children through a handover process leading to reintegration opportunities. Given the prevalence of this violation and its devastating impact on the well-being and development of children, most action plans, prevention plans and other commitments signed by parties to conflict with the United Nations include the release of children from their ranks, the adoption of handover protocols for their swift and safe transfer to child protection services and the adoption of measures to prevent the recruitment and use of children in the future. Mediation efforts, peace processes and disarmament, demobilization and reintegration processes also provide an opportunity for the inclusion of commitments for the release of children by parties to conflict and their handover to reintegration services. In this context, the Office regularly advocates through direct engagement with parties to conflict to adopt action plans and other commitments to end and prevent the recruitment and use of children, including their release and handover, identifies obstacles to monitoring, verification and reporting, and supports United Nations partners on the ground in strengthening engagement with parties to conflict. The Office also developed the Practical Guidance for Mediators to Protect Children in Situation of Armed Conflict to provide tools to mediators so that they could more systematically include child protection issues in their negotiation efforts with parties to conflict in the context of mediation, peace processes or ceasefires. Lastly, the Office established with UNICEF the Global Coalition for Reintegration of Child Soldiers, which conducts research and provides evidence to advocate the delivery of sustainable and adapted reintegration services for children formerly associated with armed forces and armed groups.

Lessons learned and planned change

- 1.131 The lesson for the Office, based on years of experience of its partners delivering reintegration programming and the Office's research in the framework of the Global Coalition for Reintegration of Child Soldiers, was that the release of children, their handover to child protection services and the delivery of sustainable and adequate reintegration programmes that are sensitive to children's differentiated needs play a decisive role as a peacebuilding tool to prevent a relapse into conflict and lay the groundwork for post-conflict reconstruction, ultimately leading to lasting peace and sustainable development. In applying the lesson, the Office will enhance its efforts to engage directly with parties to conflict and/or support – including through capacity-building and advocacy for a

strengthened child protection presence – the United Nations on the ground to strengthen their engagement with those parties to secure the release and handover of children. The Office will provide training sessions, workshops and other capacity-building initiatives to parties to conflict for the adoption of standard procedures for the release and handover of children and measures to prevent the future recruitment and use of children, and roll out and operationalize its Practical Guidance for Mediators to Protect Children in Situations of Armed Conflict for its use by mediation actors, including through increased cooperation with regional and subregional organizations. Conducting research and collecting lessons learned and best practices will be used to help to secure sustainable funding for reintegration services and inform reintegration programming that is adapted to children’s age, gender and abilities.

1.132 Expected progress towards the objective is presented in the performance measure below (see figure 1.XIV).

Figure 1.XIV

Performance measure: number of released children from armed forces and armed groups since 2000 (cumulative)

Legislative mandates

1.133 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

51/77	The rights of the child	76/147	Rights of the child
58/245	Office of the Special Representative of the Secretary-General for Children and Armed Conflict		

Security Council resolutions

1261 (1999)	1998 (2011)
1314 (2000)	2068 (2012)
1379 (2001)	2143 (2014)
1460 (2003)	2225 (2015)
1539 (2004)	2427 (2018)
1612 (2005)	2467 (2019)
1882 (2009)	2601 (2021)

Deliverables

1.134 Table 1.68 lists all deliverables of the programme.

Table 1.68

Office of the Special Representative of the Secretary-General for Children and Armed Conflict: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	14	14	14	15
1. Annual report to the General Assembly	1	1	1	1
2. Annual report to the Security Council	1	1	1	1
3. Annual report to the Human Rights Council	1	1	1	1
4. Global horizontal notes to the Security Council Working Group on Children and Armed Conflict	4	4	4	4
5. Reports to the Security Council Working Group on Children and Armed Conflict in specific situations	7	7	7	8
Substantive services for meetings (number of three-hour meetings)	5	5	5	5
Meetings of:				
6. The Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
7. The Fifth Committee	1	1	1	1
8. The General Assembly	1	1	1	1
9. The Security Council	1	1	1	1
10. The Human Rights Council	1	1	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	10	10	10	12
11. Training for child protection actors and country task forces on monitoring and reporting mechanisms	10	10	10	12
Publications (number of publications)	2	2	2	2
12. Studies, reports and other publications related to children and armed conflict	2	2	2	2
Technical materials (number of materials)	1	1	1	1
13. Technical guidelines on the six grave violations against children	1	1	1	1
Fact-finding, monitoring and investigation missions (number of missions)	6	7	8	9
14. Field missions to situations on the children and armed conflict agenda	6	7	8	9
C. Substantive deliverables				
Consultation, advice and advocacy: briefings and consultations with Security Council Member States (15 Member States) and some 20 other Member States; briefings and consultations with some 4 regional and subregional organizations that play a role in the prevention of grave violations against children; expert advice on policy matters to national government and regional officials dealing with child protection issues; and advocacy field missions in 7 locations.				
D. Communication deliverables				
Outreach programmes, special events and information materials: keynote speaker or presenter at an annual average of 60 high-level events, NGO and civil society events, retreats, symposiums, round tables and forums on issues relating to children and armed conflict; and multimedia communications materials, including informational brochures, targeting national government and regional officials, as well as the general public, at the global, regional and national levels.				
External and media relations: press releases and press conferences; interviews; recorded statements.				
Digital platforms and multimedia content: content for websites and social media accounts.				

B. Proposed post and non-post resource requirements for 2024

Overview

1.135 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.69 to 1.71.

Table 1.69

Evolution of financial resources by object of expenditure

Explanation of variances by factor

Overall resource changes

Other changes

1.138 As reflected in tables 1.72 (1) and 1.73 (1), resource changes reflect an increase of \$270,500 owing to the proposed conversion of one post of Political Affairs Officer (P-5) that was previously funded from extrabudgetary resources and the reassignment of one post of Programme Management Officer (P-4) as a Political Affairs Officer (P-4) (see annex III).

Extrabudgetary resources

1.139 As reflected in tables 1.72 (2) and 1.73 (2), extrabudgetary resources amount to \$2,181,300. The resources would complement regular budget resources and would support the delivery of its mandates, including enhancing the capacity and expertise of the Office; support the country task forces in monitoring and reporting in the field to develop action plans, strengthen public outreach and launch advocacy campaigns; and enhance analysis, assessment and responses to new and emerging trends in violations against children in armed conflict. The estimated decrease of \$181,800 reflects mainly the discontinuation of donor funding.

1.140 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.

1.141 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.75. While the Office makes every effort to follow the advance booking of air travel policy, it is not always possible to comply owing to unforeseen circumstances, such as receiving invitations to high-level events hosted by Member States or regional organizations less than three weeks before the event. In addition, owing to the nature of the mandate, political opportunities and openings arise unexpectedly that require staff to travel at short notice in order to seize such opportunities and advance the implementation of the mandate. The Office will continue to strive to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

V. Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict

Foreword

Conflict-related sexual violence continues to be used as a tactic of war and terror to destroy lives and disrupt the fabric of families, communities and entire populations. It is this destruction of the individual and community that makes sexual violence so cheap and effective in situations affected by armed conflict. Since 2008, significant progress has been made in enhancing global recognition of conflict-related sexual violence as a self-standing threat to collective security and an impediment to the restoration of peace. This shift in paradigm and perspective is reflected in a series of robust resolutions, from Security Council resolution [1820 \(2008\)](#) to [2467 \(2019\)](#), which require conflict-related sexual violence to be treated as a security issue that demands an operational security, justice and service-delivery response.

Over the course of 2024, the Office will continue to engage with parties to the conflict for the adoption of time-bound commitments to address conflict-related sexual violence and will ensure a coherent and coordinated response through the integrated architecture conceptualized by the Security Council in its resolution [1888 \(2009\)](#). The Office will continue to enhance its efforts on justice and accountability for sexual violence crimes, in the implementation of structural and operational prevention measures to conflict-related sexual violence, and in advancing the engagement with the Council, including United Nations sanctions regimes.

(Signed) Pramila **Patten**

Under-Secretary-General and Special Representative of the Secretary-General

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 1.142 The Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict is responsible for providing coherent and strategic leadership on preventing and addressing sexual violence as a weapon of war and tactic of terrorism and for engaging with justice and security sectors, all parties to armed conflict, civil society and the survivors of such crimes.
- 1.143 The mandate derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolution [65/259](#), by which the Assembly established the Office, following the establishment of the mandate of the Special Representative pursuant to Security Council resolution [1888 \(2009\)](#). In accordance with resolution [1888 \(2009\)](#) and recognizing that conflict-related sexual violence remains underreported and insufficiently addressed, the role of the Special Representative and that of the Office is, among other things: (a) to give victims and affected communities a voice; (b) to mobilize the political will and action of the international community, in particular to address the impunity of perpetrators of violations; (c) to foster collaboration and partnerships and broaden the circle of stakeholders on the issue; (d) to coordinate advocacy and programmatic responses, in particular in the United Nations system; (e) to ensure more reliable and comprehensive data on sexual violence in conflict as a basis for action at all levels; and (f) to disseminate information/knowledge on approaches and best practices to address sexual violence in conflict.
- 1.144 The mandate derives from the priorities established in relevant Security Council resolutions, including [1820 \(2008\)](#), [1888 \(2009\)](#), [1960 \(2010\)](#), [2106 \(2013\)](#) and [2467 \(2019\)](#), as well as relevant country-specific and sanctions resolutions that make explicit reference to sexual violence in conflict and the mandate of the Special Representative. Furthermore, the adoption of Council resolutions [2331 \(2016\)](#) and [2388 \(2017\)](#) extends the scope of work of the Office to the areas of counter-terrorism, anti-trafficking efforts and related security and justice sector engagement.

Programme of work

Objective

- 1.145 The objective, to which the Office contributes, is to prevent and eradicate sexual violence as a tactic of war and terrorism and improve the provision of multisectoral services for survivors.

Strategy and external factors for 2024

- 1.146 To contribute to the objective, the Office will continue to:
- (a) Engage with parties to conflict and other relevant stakeholders on preventing conflict-related sexual violence, with a priority focus on justice and accountability for such crimes as a key element of deterrence and prevention, including through engagement with justice and security actors in countries of concern;
 - (b) Engage with Member States at the global level, including in the Security Council and the General Assembly, and foster national ownership, leadership and responsibility in addressing conflict-related sexual violence in situations of concern;
 - (c) Adopt a survivor-centred approach in the implementation of all aspects of the mandate, in line with Security Council resolution [2467 \(2019\)](#) and in coordination with survivors of sexual

violence, civil society, regional organizations and United Nations peace operations and other relevant United Nations entities, in particular at the country level;

- (d) Strive to expand the circle of stakeholders and encourage concerted and coordinated action among a broad range of actors at the international, regional and national levels, including through the United Nations Action against Sexual Violence in Conflict network consisting of 24 United Nations entities and the Team of Experts on the Rule of Law and Sexual Violence, which work under the strategic direction of the Special Representative;
- (e) Focus its advocacy efforts on advancing the achievement of Sustainable Development Goals 5 and 16 and on ensuring the adequate allocation of donor resources for the implementation of prevention strategies and multisectoral services for survivors.

1.147 The above-mentioned work is expected to result in:

- (a) Adoption of concrete and time-bound commitments to prevent and address incidents, patterns and trends of sexual violence in conflict to ensure an enhanced security and justice sector response;
- (b) Improved access to appropriate and good-quality services, including health care, psychosocial support, legal services, reparations and livelihood support for all survivors, as well as children born of conflict-related sexual violence.

1.148 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:

- (a) Continued high level of political will on the part of all stakeholders to work towards preventing sexual violence and ending the impunity of persistent perpetrators in situations of armed conflict and other situations of concern;
- (b) Member States and other key stakeholders see a convergence between their strategic interests and priorities and upholding the international protection framework that has been established to prevent conflict-related sexual violence.

1.149 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will deepen its engagement with regional and subregional actors and multilateral institutions, including the African Union, the League of Arab States, the European Union, the Economic Community of West African States, the International Conference on the Great Lakes Region, the International Organization of la Francophonie, the Inter-Parliamentary Union and the African Development Bank, including through formal frameworks of cooperation, to prevent and address sexual violence in conflict.

1.150 With regard to inter-agency coordination and liaison, the Office will continue to work through the United Nations Action against Sexual Violence in Conflict inter-agency network, which has a membership of 24 United Nations entities and is chaired by the Special Representative. The work of the network is aimed at improving monitoring, reporting and information-sharing and strengthening system-wide analysis to guide response programming. Coordination on justice and accountability dimensions of the mandate will be conducted through the Team of Experts on the Rule of Law and Sexual Violence in Conflict, which supports the strengthening of rule of law institutions in affected countries, under the strategic direction of the Special Representative, and comprises the Office, OHCHR, UNDP and the Department of Peace Operations as the co-lead entities.

1.151 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, political commitments negotiated with parties to conflict (e.g., joint communiqués, frameworks of cooperation and implementation plans) will continue to integrate the views of women's civil society organizations and will continue to promote the meaningful participation of women and girls in countries where they are often absent in political and decision-making processes, including peace processes. Prevention strategies and response programming will reflect a tailored approach to address sexual violence against all survivors. Information, including

on incidents of conflict-related sexual violence, continue to be systematically disaggregated by sex in order to offer a gender-sensitive analysis for the Security Council.

- 1.152 In line with the United Nations Disability Inclusion Strategy, the Office will incorporate issues related to disability inclusion into policy, advocacy and key substantive aspects of its work, including programming in priority situations. The NGO-civil society advisory group of the Office includes entities representing individuals with disabilities and, through this modality, the Office will continue to engage with individuals with disabilities and with relevant organizations during the course of field missions in priority countries. The Office, in its staffing, includes those with explicit human rights expertise related to the rights of persons with disabilities and their targeting with sexual violence in situations of armed conflict.

Impact of the pandemic and lessons learned

- 1.153 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular the postponement of five planned missions of the Special Representative and the operational arms of the mandate, namely, the Team of Experts on the Rule of Law and Sexual Violence and the United Nations Action against Sexual Violence in Conflict, to priority countries. This resulted in reduced high-level political engagement with affected countries and the reduced provision of technical support to national authorities and institutions in the prevention and response to conflict-related sexual violence. Nevertheless, the Special Representative continued to deliver on her advocacy mandate with Member States through remote high-level engagement and participation in virtual events and conferences, including briefings to the Security Council. In addition, the annual meeting of the women's protection advisers was organized through virtual means, which allowed the participation of field specialists deployed in priority countries, as well as representatives from United Nations organizations in New York and Geneva. The Office had to postpone an expert consultation on strengthening the engagement of non-State actors, which has delayed the development of a strategy in this regard. Direct engagement with front-line service providers and survivors of conflict-related sexual violence, which is a critical aspect of the implementation of the mandate, was also hampered owing to COVID-19-related restrictions.
- 1.154 In order to support Member States on issues related to the COVID-19 pandemic, within the overall scope of the objectives, the United Nations Action against Sexual Violence in Conflict provided funding for service providers working to address sexual and gender-based violence in Iraq, Jordan and Lebanon to address challenges related to the COVID-19 pandemic.
- 1.155 The Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the use of communications technologies to provide remote support to United Nations field teams in priority countries, where in-person engagement is not possible. In addition, the Office will ensure continued engagement with national authorities in the implementation of action plans to prevent and respond to conflict-related sexual violence through virtual means. Nevertheless, in-person engagement by the Special Representative and technical teams was found to be an essential aspect of the advocacy efforts, enabling progress in the implementation of commitments to address conflict-related sexual violence made by affected States. Moreover, it has allowed the Office to ensure dialogue with civil society representatives whose views are essential for the delivery of the advocacy aspect of the mandate at the global level.

Programme performance in 2022

Strengthened national ownership and action to prevent and respond to conflict-related sexual violence: the case of the Central African Republic

- 1.156 In the Central African Republic, conflict-related sexual violence remained a serious protection concern for women and girls, in a context of political instability and a protracted humanitarian crisis.

Internally displaced women and girls were at severe risk of sexual violence in the course of daily livelihood activities and were also subjected to different forms of conflict-related sexual violence by elements of armed groups in and around bases and checkpoints. Remote locations remained inaccessible to humanitarian actors in large part, while local service providers reported shortages of trained personnel and medical supplies, including post-rape kits. The United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic, the United Nations country team and the Office of the Special Representative provided a large majority of services, including through mobile teams, and continued to support the authorities in ensuring accountability for these crimes and justice and redress for survivors. For example, the United Nations continued to support the work of the Special Criminal Court, which opened one investigation specifically on sexual and gender-based violence crimes. Enhanced engagement by the Office of the Special Representative with the national authorities contributed to the nomination and appointment of a minister counsellor to serve as special adviser to the President on conflict-related sexual violence, to accelerate the implementation of the December 2019 joint communiqué to address conflict-related sexual violence.

1.157 Progress towards the objective is presented in the performance measure below (see table 1.76).

**Table 1.76
Performance measure**

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Adoption of the December 2019 joint communiqué between the Government of the Central African Republic and the United Nations on addressing conflict-related sexual violence	Adoption of targeted measures (S/2021/1054) by the Security Council committee established pursuant to resolution 2127 (2013) Concerning the Central African Republic	Appointment of a minister counsellor to serve as special adviser to the President on conflict-related sexual violence aimed at accelerating the implementation of the joint communiqué

Planned results for 2024

Result 1: strengthened accountability of parties to conflict as a key aspect of the prevention of sexual violence crimes

Programme performance in 2022 and target for 2024

- 1.158 The Office’s work contributed to enhance engagement by national authorities in five countries, including prosecutors, magistrates, judicial police officers and military and police forces, on strengthening the rule of law institutions, with the aim of ensuring criminal accountability for perpetrators of conflict-related sexual violence. The planned target of formal agreements and action plans to prevent and address conflict-related sexual violence with five countries was not met owing to the continuation of the COVID-19 pandemic and to a series of unconstitutional shifts of power in priority countries, which hindered engagement with institutional counterparts.
- 1.159 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.77).

Table 1.77
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Implementation plan to prevent and address conflict-related sexual violence with 1 country (South Sudan)	Engagement by national authorities on strengthening accountability for conflict-related sexual violence, including in Mali	Engagement by national authorities in 5 countries, including prosecutors, magistrates, judicial police officers and military and police forces, on strengthening the rule of law institutions	Increased engagement of United Nations sanctions regimes on conflict-related sexual violence, resulting in listings of perpetrators	Revitalization of formal agreement and action plan to prevent and address conflict-related sexual violence in 1 country

Result 2: enhanced prevention through the implementation of strategies by national security and justice sector institutions

Programme performance in 2022 and target for 2024

- 1.160 The Office’s work contributed to the launch of the framework for the prevention of conflict-related sexual violence, which was elaborated in conjunction with United Nations entities belonging to the United Nations Action against Sexual Violence in Conflict network, as a comprehensive and wide-reaching tool aimed at supporting Member States in the implementation of structural and operational prevention measures, which met the planned target.
- 1.161 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.78).

Table 1.78
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	Strengthened justice sector response in priority countries such as the Central African Republic and the Democratic Republic of the Congo, with accountability for sexual violence crimes as a central aspect of deterrence and prevention	Framework for the prevention of conflict-related sexual violence launched	Implementation plans and/or specific measures taken by Governments or non-State actors on the basis of the prevention strategy	Implementation of an action plan for the armed forces on addressing conflict-related sexual violence in 1 country

Result 3: enhanced compliance with international norms on preventing and addressing conflict-related sexual violence by parties to conflict

Proposed programme plan for 2024

- 1.162 The successive annual reports of the Secretary-General on conflict-related sexual violence, compiled by the Office, have listed numerous parties credibly suspected of committing or being responsible for patterns of sexual violence in situations on the agenda of the Security Council. More than 70 per cent are persistent perpetrators, having appeared in the list for five or more years without remedial or corrective action having been taken. Moreover, the use of targeted sanctions to address conflict-related sexual violence has been outlined by the Council since 2009 in its resolution 1888 (2009). The Office, through the Special Representative, has engaged with United Nations sanctions regimes, namely, the committees on the Central African Republic, the Democratic Republic of the Congo, Somalia, South Sudan and Yemen, through thematic briefings on the trends and patterns of conflict-related sexual violence in these countries, which have included recommendations on the adoption of targeted measures for conflict-related sexual violence crimes.

Lessons learned and planned change

- 1.163 The lesson for the Office was to enhance its advocacy efforts on the need to leverage the credible threat of sanctions to change the calculation of parties to conflict that operate on the assumption that rape is “cost-free” or even profitable in the political economy of war. Sanctions offer significant potential to advance protection and enforce compliance with international law and can curb and constrain the illicit exploitation of natural resources that fund the operation of armed groups and spoilers to the peace, which, in many contexts, are also perpetrators of conflict-related sexual violence. In applying the lesson, the Office will reinforce its political and technical engagement with United Nations sanctions committees to enhance the use of targeted and graduated measures against perpetrators of conflict-related sexual violence to improve compliance with international norms. The Office will also strengthen the monitoring and reporting of trends and patterns on conflict-related sexual violence in priority countries to guide prevention and response strategies at the operational and policy levels.
- 1.164 Expected progress towards the objective is presented in the performance measure below (see table 1.79).

Table 1.79

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	Increased engagement by United Nations sanctions regimes on trends and patterns of conflict-related sexual violence	Member States, United Nations entities, civil society and academia exchange lessons and best practices for strengthening engagement of non-State armed groups in addressing conflict-related sexual violence	Enhanced monitoring and reporting of patterns and trends of conflict-related sexual violence by United Nations Panels of Experts in priority countries and at regional level

Legislative mandates

1.165 The list below provides all mandates entrusted to the programme.

General Assembly resolution

65/259 Questions relating to the programme budget for the biennium 2010–2011 (sect. V)

Security Council resolutions

1820 (2008)	2331 (2016)
1888 (2009)	2388 (2017)
1960 (2010)	2467 (2019)
2106 (2013)	

Deliverables

1.166 Table 1.80 lists all deliverables of the programme.

Table 1.80

Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Report of the Secretary-General on conflict-related sexual violence to the Security Council, including listing of parties to the conflict	1	1	1	1
2. Country-specific and/or thematic report on conflict-related sexual violence	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	10	7	10	7
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
4. Meetings of the Fifth Committee	1	1	1	1
5. Briefings to the Security Council	5	3	5	2
6. Briefings to human rights treaty bodies	2	1	2	2
7. Briefings to the Special Committee on Peacekeeping Operations	1	1	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	39	18	32	31
8. Training of national police and/or military forces on prevention of and response to conflict-related sexual violence	20	4	15	15
9. Training of national justice sector (prosecutors and judges) on investigation into and prosecution of conflict-related sexual violence	15	13	15	15
10. Workshop with women's protection advisers on emerging threats and challenges of conflict-related sexual violence	4	1	2	1

C. Substantive deliverables

Good offices: engagement and dialogue with parties to conflict listed in the annex to the report of the Secretary-General, including as it relates to the adoption and implementation of prevention and response measures.

Consultation, advice and advocacy: consultations and reporting on conflict related sexual violence trends and patterns in 16 countries.

Databases and substantive digital materials: digital library serving as a knowledge hub of academic, think tank and civil society publications on sexual violence in conflict.

Section 1 Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

D. Communication deliverables

Outreach programmes, special events and information materials: 20 online and in-person events on conflict-related sexual violence that include survivors, Member States, activists, academia, experts and practitioners; and United Nations Action against Sexual Violence in Conflict “Stop Rape Now” campaign.

External and media relations: annual press statements, and news media content such as television and newspapers interviews.

Digital platforms and multimedia content: website and social media content to advocate and mobilize resources for the elimination of conflict-related sexual violence.

B. Proposed post and non-post resource requirements for 2024

Overview

1.167 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.81 to 1.83.

Table 1.81

(Number of posts/thousands of United States dollars)

Section 1 Overall policymaking, direction and coordination

Extrabudgetary resources

- 1.170 As reflected in tables 1.84 (2) and 1.85 (2), extrabudgetary resources amount to \$5,335,800. The resources would complement regular budget resources and would support the delivery of its mandates, including the engagement of the Team of Experts on the Rule of Law and Sexual Violence in Conflict, mandated pursuant to Security Council resolution [2467 \(2019\)](#), and support for the secretariat of the United Nations Action against Sexual Violence in Conflict network chaired by the Special Representative.
- 1.171 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.172 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.87. The majority of travel for the Office is related to the high-level engagements of the Special Representative with priority countries and technical missions to follow up on the formal agreements reached between the Special Representative and national authorities. While every effort is made to ensure advance planning for all official travel, the finalization of travel requests for such missions depends on visa approvals and confirmations of missions and meetings with government interlocutors by the national authorities.

VI. Office of the Special Representative of the Secretary-General on Violence against Children

Foreword

Children’s vulnerability to violence continues to be exacerbated worldwide by multiple and overlapping crises. These include increasing poverty, social and economic inequalities, unprecedented levels of displacement, conflict, community violence, political instability, climate change, environmental degradation, natural disasters and food insecurity. Many children’s lives are marked by a continuum of violence, encompassing different forms and settings.

The impact of violence is devastating, immediate and lifelong. Violence against children impairs their brain development, their physical and mental health and their ability to learn. The human cost of violence is enormous. Violence against children also inflicts a huge financial toll on both victims and societies. A seminal study suggests these costs could be as high as 8 per cent of global gross domestic product.^a

Violence is not inevitable, and it can be prevented. To do this, a paradigm shift is needed. Spending on cross-sectoral child- and gender-sensitive protection and violence prevention has a high return and must be seen as an investment. This has been a key factor in the discussions to optimize efforts aimed at accelerating implementation of the 2030 Agenda for Sustainable Development and the achievement of all Sustainable Development Goals, through the addressing of all drivers of violence.

It is essential to move from a siloed approach to a people-centred, life-cycle approach, in line with Our Common Agenda and the Secretary-General’s call to action for human rights. This will remain at the heart of the advocacy of the Office of the Special Representative of the Secretary-General on Violence against Children, in addition to promoting the empowerment of children as agents of positive change.

(Signed) Najat Maalla **M’jid**
Special Representative of the Secretary-General on Violence against Children

^a See United Nations Children’s Fund and others, “The violence-prevention dividend: why preventing violence against children makes economic sense” (July 2022).

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 1.173 The Special Representative of the Secretary-General on Violence against Children is responsible for mobilizing action and political support to prevent and eliminate all forms of violence against children. The mandate of the Office of the Special Representative derives from the priorities established in relevant General Assembly resolutions and decisions, including resolutions [62/141](#), [67/152](#), [73/155](#) and [76/147](#). While noting substantial progress achieved since establishing the mandate of the Special Representative, the Assembly has recognized the urgency of pursuing further action to ensure the protection of children from violence.

Programme of work

Objective

- 1.174 The objective, to which the Office contributes, is to accelerate action to end all forms of violence against children by 2030.

Strategy and external factors for 2024

- 1.175 To contribute to the objective, the Office will:
- (a) Promote the acceleration of efforts towards the achievement of the Sustainable Development Goals related to addressing all forms and drivers of violence against children and gender-based violence by undertaking high-level advocacy at the global, regional and national levels in collaboration with key stakeholders;
 - (b) Engage and support political, legislative, programmatic and monitoring processes at the global, regional, national and local levels to accelerate action to end violence; conduct country visits in close cooperation with United Nations resident coordinators and regional or country teams; provide technical cooperation and practical guidance to Member States; share context-specific promising practices; and use social media and other communications tools to support its advocacy;
 - (c) Increase the attention given to violence against children in the United Nations system, including through leading the Inter-Agency Working Group on Violence against Children and through advocacy for the system-wide mainstreaming of child rights, including the integration of child protection into United Nations programmatic tools, such as the United Nations Sustainable Development Cooperation Frameworks;
 - (d) Promote, as Chair of the United Nations task force on children deprived of liberty, the use of the detention of children only as a measure of last resort; work towards prevention, rehabilitation and community-based alternatives to deprivation of liberty; undertake joint advocacy with key partners; and gather and report on promising practices regarding alternatives to detention and institutionalization, to be shared with Member States;
 - (e) Promote the role of children as agents of change through inclusive child participation in decision-making processes and the documentation and dissemination of child-led and peer-to-peer initiatives;

- (f) Promote investment in integrated, cross-sectoral child- and gender-sensitive protection and violence prevention.
- 1.176 The above-mentioned work is expected to result in:
- (a) Action to prevent and respond to violence against children mainstreamed into law, policy and practice, as well as into duly resourced national development plans;
 - (b) Increased awareness of and action on key thematic and frontier issues requiring specific attention;
 - (c) Sustained investment in cross-sectoral services for children and their caregivers to prevent and respond to violence against children and gender-based violence;
 - (d) Adoption and effective implementation of prevention measures, rehabilitation and community-based alternatives to the deprivation of liberty of children;
 - (e) More effective and systematic involvement of children in decision-making processes, including through an increase in safe and empowering pathways provided by States.
- 1.177 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Governments have the political commitment and dedicate resources to accelerate action to prevent and end violence against children, in the framework of the Sustainable Development Goals;
 - (b) Civil society, faith-based organizations, local communities, the donor community and the private sector are committed to working together for and with children.
- 1.178 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to strengthen cooperation with intergovernmental regional and subregional bodies, in addition to increasing regular engagement with Geneva-based partners and structures. The Office will pursue strong collaboration with civil society and faith-based organizations and the private sector. Country visits will therefore remain a key element of the advocacy strategy of the Office. The visits will always be planned and implemented in close cooperation with Member States and United Nations country and regional teams, and a joint road map will be agreed upon and disseminated with all key stakeholders at the end of each visit to ensure effective follow-up.
- 1.179 With regard to inter-agency coordination and liaison, the Office continues to promote and strengthen collaboration within the United Nations system on ending violence against children, including with the members of the Inter-Agency Working Group on Violence against Children, the members of the United Nations task force on children deprived of liberty, the Special Representative of the Secretary-General for Children and Armed Conflict, the Special Representative of the Secretary-General on Sexual Violence in Conflict, the special procedures of the Human Rights Council, the human rights treaty bodies, the Special Adviser to the Secretary-General on the Prevention of Genocide, the Special Adviser to the Secretary-General on Africa, the Envoy of the Secretary-General on Youth, the Envoy of the Secretary-General on Technology, the Department of Economic and Social Affairs and United Nations regional commissions, the United Nations resident coordinators and regional or country team members, the United Nations Global Counter-Terrorism Coordination Compact, the Inter-Agency Coordination Group against Trafficking in Persons, the United Nations Network on Migration, the Working Group on Hate Speech and the United Nations Action Against Sexual Violence in Conflict network.
- 1.180 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate, including by employing a gender perspective in its advocacy to highlight how different forms of violence affect boys and girls differently and how this must inform and shape responses. Addressing gender discrimination and harmful social norms, as well as connections between violence against women and violence against children, is crucial to preventing and responding to violence against children and will continue to constitute an integral part of the Office's work.

- 1.181 In line with the United Nations Disability Inclusion Strategy and the principle of leaving no child behind, the Office places an emphasis on addressing some of the most vulnerable and neglected children, among whom are children with disabilities. Children with disabilities are often institutionalized, and this puts many of these children at a heightened risk of becoming victims of violence. Promoting policies and strategies for alternative means of care and inclusion will continue to be at the core of the Office's advocacy.

Impact of the pandemic and lessons learned

- 1.182 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular the postponement of planned in-person country visits and the continued use of remote connection and video statements from the Special Representative to support the Office's advocacy. The Office identified a number of methodologies to ensure engagement and the continued provision of support during the pandemic.
- 1.183 In order to support Member States on issues related to the COVID-19 pandemic, within the overall scope of the objectives, the Office highlighted and shared good practices by Member States in addressing violence against children during the pandemic but also beyond it owing to the long-lasting impacts, such as through the designation of child protection, mental health and other key services as essential and delivering child protection, justice and other services through online means and looking ahead to anticipate the continuity of risks.
- 1.184 The Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including through the expanded use of online means for engaging systematically with key stakeholders to complement in-person engagement, where appropriate, such as in the context of follow-up to country visits.

Evaluation activities

- 1.185 An evaluation of the Office's programmatic activities, conducted by the Office and completed in 2022, has guided the proposed programme plan for 2024.
- 1.186 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2024 and continue to inform the work of the Office. For example, the Office will continue to implement its updated communications strategy and further deepen its collaboration and coordination with other United Nations entities with mandates related to ending violence against children.

Programme performance in 2022

Strengthened commitment to ending the deprivation of liberty of children for migration-related reasons

- 1.187 As Chair of the United Nations task force on children deprived of liberty, the Special Representative fostered a common position on ending the migration-related detention of children and provided support to Member States in the implementation of alternatives to the detention of children for migration-related reasons through country missions, high-level advocacy and technical support. In 2022, the Office built on this by facilitating the launch of a joint pledge during the International Migration Review Forum to support the implementation of the Global Compact for Safe, Orderly and Regular Migration, in particular objective 13 on ending the migration-related detention of children.
- 1.188 Progress towards the objective is presented in the performance measure below (see table 1.88).

Table 1.88
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
–	–	The United Nations task force on children deprived of liberty launched a joint pledge during the International Migration Review Forum to support Member States and other key stakeholders in the implementation of the Global Compact for Safe, Orderly and Regular Migration, in particular objective 13 on ending the migration-related detention of children

Planned results for 2024

Result 1: children as part of the solution to achieve the Sustainable Development Goals

Programme performance in 2022 and target for 2024

- 1.189 The Office’s work contributed to 19 additional voluntary national reviews developed with the meaningful input of children and highlighting the active participation of children in achieving the Sustainable Development Goals, which met the cumulative planned target of 80.
- 1.190 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 1.XVII).

Figure 1.XVII
Performance measure: voluntary national reviews developed with meaningful input of children and that highlight active participation of children in achieving the Sustainable Development Goals (cumulative)

Result 2: sustained financing of cross-sectoral child protection and violence prevention services

Programme performance in 2022 and target for 2024

- 1.191 The Office’s work contributed to Member States having access to promising practices and practical guidance on assessing the high return on investment in cross-sectoral child- and gender-sensitive protection and violence prevention services through peer-learning exchanges between officials in

various States and through engagement in advocacy activities of the Special Representative, which met the planned target.

1.192 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.89).

**Table 1.89
Performance measure**

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
–	–	Member States have access to promising practices and practical guidance on assessing the high return on investing in cross-sectoral child- and gender-sensitive protection and violence prevention	10 countries have undertaken cost-benefit analyses of financing cross-sectoral child- and gender-sensitive protection and violence prevention services	10 countries use analysis of return on investing in violence prevention to initiate legal and policy reforms to build or strengthen integrated child- and gender-sensitive protection and prevention services

Result 3: national human rights institutions include child protection and well-being in their monitoring activities

Proposed programme plan for 2024

1.193 Stronger national child protection systems include important roles for national human rights institutions. Their engagement and support in the promotion and protection of children’s rights and standards at the national level, including in particular through their monitoring and capacity-building activities, is increasingly relevant. The Special Representative meets regularly with national human rights institutions during her country visits, where they exist, and engages on ways to support enhanced child protection frameworks. The Special Representative also engages with States that aim to establish such institutions with advice regarding ways to ensure that attention is given to children’s well-being and protection and the prevention of violence. The Office will continue to use the opportunities presented by the Special Representative’s country visits and her engagement with global, regional and subregional networks of national human rights institutions to raise awareness of the importance of this issue.

Lessons learned and planned change

1.194 The lesson for the Office was the value of engaging more systematically with a key stakeholder with the capacity to make a significant impact on the protection of children from violence at the national level. In applying the lesson, the Office will supplement its existing engagement with national human rights institutions in the context of country visits with a more systematic engagement with global, regional and subregional networks. Particularly relevant is their role in supporting national efforts in areas that could have a positive impact on accelerating the implementation of the 2030 Agenda and the promise to end violence.

1.195 Expected progress towards the objective is presented in the performance measure below (see figure 1.XVIII).

Figure 1.XVIII

Performance measure: number of national human rights institutions that have included child protection and well-being as a key dimension of their monitoring activities (cumulative)

Legislative mandates

1.196 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

62/141, 67/152, 69/157, 70/137, 72/245, 73/155, 76/147	Rights of the child	71/176, 75/166, 77/201	Protecting children from bullying
		75/185, 77/219	Human rights in the administration of justice

Deliverables

1.197 Table 1.90 lists all deliverables of the programme.

Table 1.90

Office of the Special Representative of the Secretary-General on Violence against Children: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Annual reports to the General Assembly	1	1	1	1
2. Annual reports to the Human Rights Council	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	4	4	4	4
Meetings of:				
3. The Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
4. The Fifth Committee	1	1	1	1
5. The Third Committee	1	1	1	1
6. The Human Rights Council	1	1	1	1

Part I Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
B. Generation and transfer of knowledge				
Publications (number of publications)	5	5	4	4
7. Voluntary national reviews: analytical review	1	1	1	1
8. Children as agents of positive change: a mapping of children’s initiatives	1	1	1	1
9. Practical guidance on justice for children	1	1	–	–
10. Publications on priority issues related to violence against children	2	2	2	2

C. Substantive deliverables

Consultation, advice and advocacy: high-level advocacy with Member States, regional organizations and other key stakeholders, including by undertaking country missions to at least 10 Member States across all regions; organization or co-organization of 10 high-level events to raise awareness, share promising practices and advocate for stronger action on ending violence against children; expert advice and tools on policy matters for Member States and other key stakeholders; and consultations with approximately 1,000 children.

Databases and substantive digital materials: global interactive database of child participation initiatives to map children’s initiatives across regions.

D. Communication deliverables

Outreach programmes, special events and information materials: communication products and information materials for targeted audiences and goals to raise awareness of the work of the mandate, provide updated information on trends and topical issues and highlight progress achieved.

External and media relations: at least 5 press conferences and 5 press releases, including opinion pieces and expert articles.

Digital platforms and multimedia content: social media campaign to raise awareness and mobilize action on the protection of children from violence; multimedia material produced and uploaded in the 6 official United Nations languages on the Office’s website; and communication material uploaded daily to the Office’s social media accounts.

B. Proposed post and non-post resource requirements for 2024

Overview

1.198 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.91 to 1.93.

Table 1.91
Evolution of financial resources by object of expenditure

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

- 1.201 As reflected in table 1.94 (1), resource changes reflect an increase of \$196,100 relating to:
- (a) An increase of \$111,400 under consultants that would provide additional expertise on the use and accessibility of online tools and information for the protection of children. The consultant would also support the Office in advancing implementation of the Protection through Online Participation initiative;
 - (b) An increase of \$84,700 under travel of staff to support requests from Member States for in-person visits by the Special Representative to engage on the critical importance of ending violence against children, and strengthen cooperation at the global, regional, national and local levels and with intergovernmental regional and subregional bodies to accelerate action to end violence against children, including through the conduct of country visits.

Extrabudgetary resources

- 1.202 As reflected in tables 1.94 (2) and 1.95 (2), extrabudgetary resources amount to \$476,900. The resources would complement regular budget resources and would support the delivery of the Office's mandates and be used to carry out various activities that would enhance its impact and outreach, strengthen the implementation of its programme of work and increase the provision of technical advice and support to Member States, regional organizations and other partners. The increase of \$207,500 reflects mainly provisions to strengthen the development of advocacy initiatives and legal and policy materials that would raise awareness of violence against children.
- 1.203 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.204 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.97. The Office is making the utmost efforts to achieve 100 per cent compliance with the advance purchasing of air tickets by reviewing upcoming planned trips in the weekly staff meeting and by strategically strengthening its work planning. However, owing to unforeseen circumstances such as receiving late invitations and the late receipt of meeting agendas, the Office would not always be able to comply with the advance booking of air travel policy.

VII. Office of the Victims' Rights Advocate

Foreword

Pursuant to the Secretary-General's strategy set out in his 2017 report entitled "Special measures on protection from sexual exploitation and abuse: a new approach" (A/71/818), the Victims' Rights Advocate will continue, over the course of 2024, to institutionalize and place the rights and dignity of victims at the forefront of United Nations system-wide efforts to prevent and respond to sexual exploitation and abuse by United Nations staff and related personnel. Supported by the Office, the Victims' Rights Advocate will intensify advocacy to introduce and implement policies and programmes to elevate the rights and dignity of victims, give them visibility, acknowledge the impact that sexual exploitation and abuse have on their lives and address the stigmatization and discrimination that they often face.

The Victims' Rights Advocate will continue to meet victims personally so that their views inform United Nations efforts; support them in gaining access to all possible assistance, including with respect to paternity claims, and rebuilding their lives; reiterate the importance of United Nations partnership with Member States, civil society and other stakeholders in entrenching a victims' rights approach to the prevention of and response to sexual exploitation and abuse; and ensure that they are respected, heard and listened to, that their cases are taken seriously and that the perpetrators are sanctioned.

The work of the Office is reflected on the ground in four countries by Senior Victims' Rights Officers who are the main contact for all victims and seek to integrate a victims' rights, gender- and child-sensitive and non-discriminatory approach into all activities to support and assist them. The Victims' Rights Advocate champions the designation of other advocates or focal points in all peacekeeping, humanitarian and development contexts.

(Signed) Jane **Connors**
Victims' Rights Advocate

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 1.205 The mandate of the Victims' Rights Advocate was created as part of the strategy set out in the 2017 report of the Secretary-General entitled "Special measures on protection from sexual exploitation and abuse: a new approach" (A/71/818). The mandate derives from the priorities established in General Assembly resolutions and/or decisions, including resolutions [62/214](#), [71/278](#), [71/297](#) and [75/321](#) and [76/274](#). The centrepiece of the strategy is to put the rights and dignity of victims at the centre of the work to prevent and respond to sexual exploitation and abuse across the United Nations system. The Victims' Rights Advocate has a system-wide role, with her advocacy and action extending to peacekeeping, humanitarian and development settings. At Headquarters, she is supported by the Office of the Victims' Rights Advocate. In the field, her mandate is operationalized through Senior Victims' Rights Officers in the Central African Republic, the Democratic Republic of the Congo, Haiti and South Sudan.

Programme of work

Objective

- 1.206 The objective, to which the Victims' Rights Advocate contributes, is to ensure that the rights and dignity of victims of sexual exploitation and abuse are prioritized in all efforts of the United Nations system to prevent and respond to sexual exploitation and abuse by its personnel, uniformed or civilian, in peacekeeping, humanitarian and development settings and by non-United Nations troops serving under a Security Council mandate.

Strategy and external factors for 2024

- 1.207 To contribute to the objective, the Victims' Rights Advocate will:
- (a) Engage in sustained advocacy with Member States, United Nations entities, agencies, funds and programmes, other intergovernmental bodies, national Governments and State structures, civil society and others to amplify awareness of the negative impact that sexual exploitation and abuse have on victims and the work of all parts of the United Nations system, and foster an integrated response with regard to the victims' rights to assistance, in line with the annex to General Assembly resolution [62/214](#);
 - (b) Operationalize the imperative of placing the rights and dignity of victims at the centre on the ground, through a network of Senior Victims' Rights Officers and focal points for victims' rights, including three additional focal points appointed in 2022, who serve as the main point of contact for all victims of sexual exploitation and abuse, and ensure that victims receive assistance and support, accompanying them through the investigation and consideration of their complaints and providing them with follow-up information, including on the progress of paternity/child support claims;
 - (c) Support Member States' implementation of the 2030 Agenda, in particular the achievement of Sustainable Development Goal 5 in the public and private spheres, including in relation to trafficking and sexual and other types of exploitation, and Goal 16, which is intended, among other things, to end the abuse and exploitation of, trafficking in, all forms of violence against and torture of children;

- (d) Engage with United Nations actors across the system to develop policy and offer practical advice, including to embed a victims' rights approach in the provision of assistance to victims, and provide guidance to the Senior Victims' Rights Officers, the victims' rights focal points and other actors in the field;
 - (e) Seek to strengthen complaints mechanisms and contribute to creating an environment that encourages victims to come forward, in order to counter constraints that have a negative effect on victims' capacity to report misconduct and gain access to assistance and services.
- 1.208 The above-mentioned work is expected to result in:
- (a) Victims assisted in accordance with their individual needs;
 - (b) A deepened understanding of how to prioritize the rights and dignity of victims across the United Nations system, implementing partners and beyond;
 - (c) Creation and maintenance of an environment of trust between victims and the United Nations on the ground, encouraging them to come forward with complaints of misconduct confident that they will be respected and receive support, assistance and protection;
 - (d) Stronger system-wide collaboration and cooperation between Member States and the United Nations on accountability processes, including the resolution of paternity/child support claims, and access to services for victims.
- 1.209 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) New cases of sexual abuse and exploitation perpetrated by United Nations and related personnel will become known to the Victims' Rights Advocate, the Office and the Senior Victims' Rights Officers;
 - (b) Cases reported earlier might not be resolved;
 - (c) Measures to prevent sexual exploitation and abuse integrate a system-wide victims' rights approach;
 - (d) Victims of sexual abuse and exploitation will require ongoing support and assistance to rebuild their lives;
 - (e) The urgency of establishing strong partnerships focusing on a victims' rights approach will be acknowledged more extensively outside the United Nations system.
- 1.210 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to work with the Development Assistance Committee of the Organisation for Economic Co-operation and Development. It will continue to support the Multilateral Organisation Performance Assessment Network in implementing its indicators that measure progress in the prevention of sexual exploitation, sexual abuse and sexual harassment in multilateral organizations. The Office will sustain its engagement with the Global Alliance of National Human Rights Institutions in advocacy, training and capacity for national actors and support for victims across States and national jurisdictions.
- 1.211 With regard to inter-agency coordination and liaison, the Office will continue to collaborate with the Inter-Agency Standing Committee and its Champion on protection from sexual exploitation and abuse and sexual harassment to integrate a strong victims' rights focus into the implementation of its plan to accelerate protection from sexual exploitation and abuse in the national humanitarian response. It will accelerate work on ways to facilitate legal aid and assistance to victims. The Victims' Rights Advocate will continue to collaborate with the CEB Task Force on Addressing Sexual Harassment within the Organizations of the United Nations System on the development and implementation of a victim-centred approach to this misconduct, so that this work is aligned with that on sexual exploitation and abuse.

- 1.212 The Office will continue its cooperation with the Office of the Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse. It will collaborate with the Department of Management Strategy, Policy and Compliance and the Office of Legal Affairs to facilitate the more timely and effective resolution of outstanding paternity/child support claims arising from sexual exploitation and abuse, including through the possible development of a harmonized procedure for handling such claims. The Office will also collaborate with the Department of Management Strategy, Policy and Compliance to facilitate the submission of project proposals to the trust fund in support of victims of sexual exploitation and abuse and coordinate with the Department of Political and Peacebuilding Affairs and the Department of Peace Operations to facilitate official visits of the Victims' Rights Advocate to peace operation settings. The Office will consolidate its collaboration with the Development Coordination Office and resident coordinators on their roles and responsibilities with respect to victims' rights and assistance in line with the management and accountability framework of the United Nations development and resident coordinator system. To enhance coordination and alignment efforts directed at protection and response regarding sexual exploitation and abuse, the Victims' Rights Advocate will continue to brief newly appointed resident coordinators and engage with Secretariat departments, including the Office of Administration of Justice, on her mandate and the importance of the victims' rights approach. The Victims' Rights Advocate will also collaborate with UNODC on the provision of assistance and support for victims of sexual exploitation and abuse and trafficking.
- 1.213 The Office integrates a gender perspective in its policy and operational activities, deliverables and results. The majority of victims of sexual exploitation and abuse is women and girls, and most perpetrators are men. The Victims' Rights Advocate acknowledges that entrenched discrimination against women and girls, manifested in laws and policies, power imbalance and gender inequality, lie at the heart of this misconduct. The Victims' Rights Advocate understands that men and boys, especially in vulnerable situations, may be victims of sexual exploitation and abuse and face barriers to reporting. The Victims' Rights Advocate emphasizes that victims may experience hurt, harm, fear, reprisals, abandonment, exclusion from their community and stigma. She urges that interventions and responses be conceptualized, designed and implemented to promote the empowerment of victims and their inclusion in all issues that concern them.
- 1.214 The Victims' Rights Advocate promotes tailored responses, given that each victim is different and may be affected by intersecting, interconnected and multiple forms of discrimination, including on the basis of race, sex, gender, sexual orientation, age, minority and/or migration status or disability, in line with the United Nations Disability Inclusion Strategy. The Senior Victims' Rights Officers will continue to serve as the main contact for all victims and take steps to ensure that a victims' rights, gender- and child-sensitive and non-discriminatory approach is integrated into all activities to support and assist victims.

Impact of the pandemic and lessons learned

- 1.215 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular the ability for in-person meetings to be conducted with victims on the ground and advocating for them. With the easing of COVID-19-related travel restrictions during the period, the Victims' Rights Advocate resumed her official visits to peacekeeping, humanitarian and development settings, while her Office continued to use virtual means to conduct meetings, as necessary,
- 1.216 The Office of the Victims' Rights Advocate continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the maintenance of COVID-19 pandemic-related protocols and requirements for all official visits and engagements carried out by the Victims' Rights Advocate and her Office.

Evaluation activities

- 1.217 An internal evaluation of the work and impact of the Office since its establishment in January 2019 commenced in 2022 and will be completed in 2023.

Programme performance in 2022

Strengthened victim-centred approach to sexual exploitation and abuse and sexual harassment by the United Nations system

- 1.218 The Office of the Victims’ Rights Advocate, in collaboration with the International Organization for Migration, OHCHR and the CEB Task Force on Addressing Sexual Harassment within the Organizations of the United Nations system, developed a training module to provide all United Nations staff and related personnel with a clear and practical understanding of the meaning of a victim-centred and victims’ rights approach. The training module was made available in January 2023 and is intended to equip all United Nations staff and related personnel with the skills and knowledge of what action to take when they become aware of sexual misconduct.
- 1.219 Progress towards the objective is presented in the performance measure below (see table 1.98).

Table 1.98
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
–	–	An online training module to provide all United Nations staff and related personnel with a clear and practical understanding of the meaning of a victim-centred and victims’ rights approach was finalized in 2022 and made available in January 2023

Planned results for 2024

Result 1: victims know their rights and how to claim them

Programme performance in 2022 and target for 2024

- 1.220 The Office’s work contributed to increased awareness of victims of their rights and how to claim them, including through regular training and liaison with victims conducted by the Senior Victims’ Rights Officers, which met the planned target. The Office’s work also contributed to United Nations system entities providing critical feedback for the development of revised guidance and tools to fully incorporate victims’ perspectives and priorities, which did not meet the planned target of adoption by the United Nations system of revised guidance and practices. The target could not be met owing to additional system-wide consultations carried out by the Office prior to the discussions and future endorsement by the High-level Steering Group on preventing sexual exploitation and abuse of the Victims’ Rights statement and the development of associated guidelines and tools for United Nations personnel.
- 1.221 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.99).

Table 1.99
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Consultations with nominated representatives of United Nations system-wide entities result in consensus on revised draft victims' rights statement Development of methodology to seek feedback from victims about their experiences receiving assistance and support initiated	Increased awareness of victims of their rights and how they can claim them	Increased awareness of victims of their rights and how to claim them United Nations system entities provided critical feedback for the development of revised guidance and tools to fully incorporate victims' perspectives and priorities	Adoption by United Nations system of revised guidance and practices on the provision of assistance that incorporate victims' perspectives and priorities	Victims of sexual exploitation and abuse by United Nations and related personnel are informed of their rights to support and assistance by the United Nations, as facilitated by the roll-out of the Victims' Rights statement to local communities affected by sexual exploitation and abuse

Result 2: realizing victims' rights to accountability and remedies

Programme performance in 2022 and target for 2024

- 1.222 The Office's work contributed to an agreement by a Member State to provide funding for the costs associated with the creation and maintenance of a roster of pro bono lawyers, which did not meet the planned target of the launch of the roster of pro bono lawyers and legal aid organizations to assist victims in countries where the United Nations operates. The target was not met because the agreement for the provision of funding was reached only towards the end of 2022.
- 1.223 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.100).

Table 1.100
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Technical consultation with UNICEF and OHCHR on legal aid for victims of sexual exploitation and abuse	Proposal of the Victims' Rights Advocate to create and maintain a roster of lawyers in consultation with the Office of Legal Affairs	Agreement by a Member State to provide funding for the costs associated with the creation and maintenance of a roster of pro bono lawyers	Victims in 2 countries with Senior Victims' Rights Officers benefit from legal support provided by lawyers and legal aid organizations included in the roster	Victims in 4 countries with Senior Victims' Rights Officers continue to benefit from legal support provided by lawyers and legal aid organizations included in the roster

Result 3: adoption of a victims' rights approach among all personnel assisting and investigating allegations of sexual exploitation and abuse

Proposed programme plan for 2024

- 1.224 Existing investigative and disciplinary processes often do not take into account the unique vulnerabilities of victims of sexual exploitation and abuse nor achieve a victims' rights approach. Within her mandate, the Victims' Rights Advocate intends to increase awareness and understanding of United Nations and Member State personnel assisting, investigating or acting on behalf of victims of sexual abuse and exploitation on how traumatic events may affect victims' ability to meaningfully participate in proceedings.

Lessons learned and planned change

- 1.225 The lesson for the Office was the need to strengthen understanding of those in charge of assisting, investigating or acting on behalf of victims of sexual exploitation and abuse by United Nations personnel on the needs and situations of vulnerability of victims. These conclusions were drawn following a review by the Office of the Victims' Rights Advocate of cases in the United Nations internal justice system and the identification by the Victims' Rights Advocate of good practices and gaps in dealing with victims of sexual abuse, exploitation and harassment. In applying the lesson, the Office will facilitate an increased number of briefings of the Victims' Rights Advocate for personnel assisting victims and investigating allegations of sexual exploitation and abuse. The briefings will focus on the victims' rights approach and issues related to treating victims with dignity and respect from the time of reporting through the consideration of their cases and claims. In addition, the Office will work to ensure that such briefings become mandatory in the induction training of all personnel assisting and investigating allegations of sexual exploitation and abuse.
- 1.226 Expected progress towards the objective is presented in the performance measure below (see table 1.101).

Table 1.101

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	United Nations internal justice system personnel handling allegations of sexual exploitation and abuse are briefed on the victims' rights approach	Increased number of personnel who assist victims or investigate allegations of sexual exploitation and abuse receive briefings on the victims' rights approach	All new personnel assisting and investigating allegations of sexual exploitation and abuse receive briefings on the victims' rights approach, as a mandatory component of their induction training

Legislative mandates

- 1.227 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

62/214	United Nations Comprehensive Strategy on Assistance and Support to Victims of Sexual Exploitation and Abuse by United Nations Staff and Related Personnel (annex)	71/297	Special measures for protection from sexual exploitation and abuse
		76/274	Cross-cutting issues
71/278; 75/321; 76/303	United Nations action on sexual exploitation and abuse		

Deliverables

1.228 Table 1.102 lists all deliverables of the programme.

C. Substantive deliverables				
Consultation, advice and advocacy: 5 briefings to Members States, 5 briefings to United Nations system-wide entities and 10 webinars with universities and academic institutions.				
Sustained advocacy by the Victims’ Rights Advocate, including through her (a) cooperation with the Inter-Agency Standing Committee; (b) briefings at the humanitarian coordinators’ annual retreat and induction of resident coordinators and other United Nations leaders; and (c) cooperation with humanitarian country teams.				
Regular engagement with Special Representatives of the Secretary-General, resident coordinators, and national and regional protection from sexual exploitation and abuse networks, including through the Victims’ Rights Advocate’s country visits.				
Databases and substantive digital materials: legal aid roster; and training module for United Nations staff, non-staff personnel and implementing partners.				
D. Communication deliverables				
Outreach programmes, special events and information materials: awareness-raising and educational materials on victims’ rights.				
External and media relations: media interviews, statements, opinion pieces, press releases and expert articles.				
Digital platforms and multimedia content: website and social media content on areas of work.				

B. Proposed post and non-post resource requirements for 2024

Overview

1.229 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.103 to 1.105.

Table 1.103

Explanation of variances by factor

Overall resource changes

Other changes

1.232 As reflected in tables 1.106 (1) and 1.107, resource changes reflect an increase of \$30,200 under travel of staff, which would support in-person visits of the Victims’ Rights Advocate to various locations where the Victims’ Rights Advocate meets victims and advocates the implementation of a victims’ rights approach.

Other assessed and extrabudgetary resources

- 1.233 As reflected in table 1.106 (2), other assessed resources amount to \$50,600 and would provide for non-post resources under the support account for peacekeeping operations. Further details on the resource changes are reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2023 to 30 June 2024 ([A/77/771](#)).
- 1.234 As reflected in table 1.106 (3), extrabudgetary resources amount to \$144,300. The resources would complement regular budget resources and support the delivery of its mandates, including carrying out various outreach activities, and increase the provision of technical advice and support to Member States, regional organizations and other partners. The decrease of \$498,400 reflects mainly the expected completion of some projects in 2023 and early in 2024.
- 1.235 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.236 Information on the advance booking for air travel is reflected in table 1.109. The Office will strive to continue to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

VIII. Office of the United Nations Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse

Foreword

The role of the Office of the Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse is to foster a coherent and coordinated approach to preventing and responding to sexual exploitation and abuse across the United Nations system. Although there has been notable progress, it is foreseeable that such misconduct will continue to occur, in part because of the close interaction during the implementation of organizational mandates between United Nations personnel and vulnerable populations. In this context, in 2024 the Office will continue to address the ongoing challenges across the United Nations system.

Effective leadership is a critical element in successfully addressing sexual misconduct within the United Nations. It is the Organization's leadership who must embody the organizational values and communicate these to personnel, along with the message that sexual exploitation and abuse has no place in the United Nations system, or indeed anywhere. Leaders must also stress that sexual exploitation and abuse will not be tolerated and that perpetrators will be held accountable. Initiatives and policies alone are not sufficient, and leaders must emphasize our common responsibility to report and act against sexual misconduct, including through embedded responsibility in performance assessments and programme evaluations.

The importance of the issue and the high turnover of United Nations personnel demands that awareness, guidance and support for preventing and responding to sexual misconduct be constantly reinforced. Over the course of 2024, the Office will continue to proactively support leaders and other personnel across the Organization. The Special Coordinator will undertake visits to United Nations operational settings to advocate and sustain awareness of protection from sexual exploitation and abuse and to promote its integration and institutionalization across all United Nations activities and programmes.

(Signed) Christian F. **Saunders**
Special Coordinator

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 1.237 The Office was established in February 2016, when the Secretary-General appointed the Special Coordinator with a reporting line through the Chef de Cabinet to the Secretary-General to work across the United Nations system's offices, departments and agencies to strengthen the United Nations response to sexual exploitation and abuse, wherever it might occur, from Headquarters locations to the most remote field bases. The General Assembly, in its resolution [70/286](#), and the Security Council, by its resolution [2272 \(2016\)](#), welcomed the appointment of the Special Coordinator and the Secretary-General's continued efforts to implement and reinforce the United Nations zero-tolerance policy on sexual exploitation and abuse, in particular to strengthen the Organization's prevention, reporting, enforcement and remedial action in order to promote greater accountability. In its resolution [71/278](#), the Assembly welcomed the continued efforts of the Secretary-General to combat sexual exploitation and abuse, including the appointment of a Special Coordinator on improving the United Nations response to sexual exploitation and abuse and the establishment of a high-level task force to develop, as a matter of urgency, a clear, game-changing strategy to achieve visible and measurable improvements in the Organization's approach to preventing and responding to sexual exploitation and abuse. The Assembly also expressed its support to the Secretary-General, the Office and all relevant departments in their efforts to implement the zero-tolerance policy and, in particular, to strengthen the Organization's prevention, reporting, enforcement and response mechanisms in order to promote greater accountability, and in that regard requested the Secretary-General to continue to work in close consultation with Member States for the effective implementation of the policy.
- 1.238 The Special Coordinator drives and oversees the United Nations protection and response to sexual exploitation and abuse efforts across the United Nations system, to align approaches and enhance coordination, cooperation and system-wide coherence, through the development of aligned mechanisms, procedures, protocols, standardized tools and support for United Nations entities and the field.

Programme of work

Objective

- 1.239 The objective, to which this programme contributes, is to advance the United Nations response to sexual exploitation and abuse and to ensure a continuous focus on and sustained high-level attention to the prevention, detection and response to sexual exploitation and abuse through a victim-centred lens.

Strategy and external factors for 2024

- 1.240 To contribute to the objective, the Office will:
- (a) Coordinate with United Nations entities, departments and offices to ensure the alignment and institutionalization of strategies to prevent and respond to sexual exploitation and abuse by developing initiatives to mitigate the risks of sexual exploitation and abuse across the United Nations system;
 - (b) Promote the implementation of the Secretary-General's strategy to combat sexual exploitation and abuse across the system's more than 30 affiliated funds, programmes and specialized agencies and act as the secretariat of the Secretary-General's institutionalized standing bodies

for protection against sexual exploitation and abuse, such as the High-level Steering Group on preventing sexual exploitation and abuse, convened by the Chef de Cabinet, which oversees the implementation of the Secretary-General's strategy;

- (c) Review and address the policy and operational gaps in the United Nations handling of sexual exploitation and abuse by all categories of United Nations personnel, both uniformed and civilian, and by non-United Nations actors;
- (d) Consult with international, regional and subregional organizations, Member States, United Nations independent human rights experts, civil society organizations, national human rights institutions, academic institutions and think tanks, as appropriate, to ensure that policies and operational efforts across the United Nations system reflect best practice;
- (e) Monitor the Secretary-General's public reporting mechanism for allegations of sexual exploitation and abuse;
- (f) Support an effective system-wide communications strategy to ensure a coordinated public message with respect to the United Nations response to sexual exploitation and abuse;
- (g) Work closely with leadership across the United Nations system to provide strategic support and guidance to assist in designing and developing comprehensive strategies, system-wide policies and initiatives to combat sexual exploitation and abuse and strengthen joint United Nations programming on prevention initiatives.

1.241 The above-mentioned work is expected to result in:

- (a) Strengthened prevention of and responses to sexual exploitation and abuse in a cohesive and coordinated manner, including improved data collection, monitoring and analysis of performance by the United Nations system;
- (b) Institutionalization of an organizational culture of zero tolerance for inaction for sexual exploitation and abuse, with a robust and consistent understanding among United Nations personnel of standards of conduct and the purpose of mission of the United Nations, to advance cultural change and address the underpinnings of sexual exploitation and abuse, including gender imbalances and the abuse of authority due to power differentials.

1.242 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:

- (a) Personnel at all levels prioritize the eradication of sexual exploitation and abuse within United Nations operations;
- (b) A collective independent investigation capacity is recognized, and appropriate organizational structures are put in place to respond;
- (c) The United Nations system supports the alignment and institutionalization of measures to prevent sexual exploitation and abuse.

1.243 With regard to inter-agency coordination and liaison, the Office will seek to obtain cooperation with agencies, funds and programmes, including the Inter-Agency Standing Committee and its Champion on protection from sexual exploitation and abuse and sexual harassment, to ensure alignment with relevant mandates and a coherent and consistent response. The Office will also continue to work with the Office of the Victims' Rights Advocate, the Department of Management Strategy, Policy and Compliance and other relevant entities within the United Nations system to align messages relating to the prevention of and response to sexual exploitation and abuse when communicating, both internally and externally. Furthermore, the Office will work closely with the Development Coordination Office and resident coordinators on their roles and responsibilities in line with the management and accountability framework of the United Nations development system and resident coordinator system. The Office continues to serve as the secretariat of the Secretary-General's circle of leadership on the prevention of and response to sexual exploitation and abuse in United Nations operations, which comprises global leaders who actively support combating sexual exploitation and abuse.

- 1.244 The Office integrates a gender perspective in its operational activities, deliverables and results, given that it acknowledges and takes into consideration the diverse identities of perpetrators, bystanders and victims. The Special Coordinator will continue to frame all activities of the Office through the lens that the majority of victims of sexual exploitation and abuse are women and girls and that most perpetrators are men. In this context, the Special Coordinator will continue to identify and advocate policy, cultural and systemic change to address the entrenched discrimination against women and girls and power imbalances and gender inequality that lie at the heart of this misconduct.

Impact of the pandemic and lessons learned

- 1.245 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, including the use of virtual technology to conduct some of the work activities that would ideally be done in person, including stakeholder engagement and capacity-building activities. As travel restrictions eased, the Office was able to recommence in-person arrangements.
- 1.246 The Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including adopting innovative approaches and online communications tools and campaigns to reach all personnel, including the conduct of virtual training sessions with personnel. These approaches will continue to be utilized and complemented by in-person visits, meetings and training, as appropriate.

Evaluation activities

- 1.247 An independent third-party in-depth review and evaluation of how the United Nations addresses the prevention of and response to sexual exploitation and abuse, including accountability to victims-survivors and recommendations on how the United Nations can more effectively address this critical issue moving forward, is planned for 2024. The review and evaluation will include an examination of structural issues, including funding and how safeguarding measures for the protection from sexual exploitation and abuse can be better institutionalized across the organization.

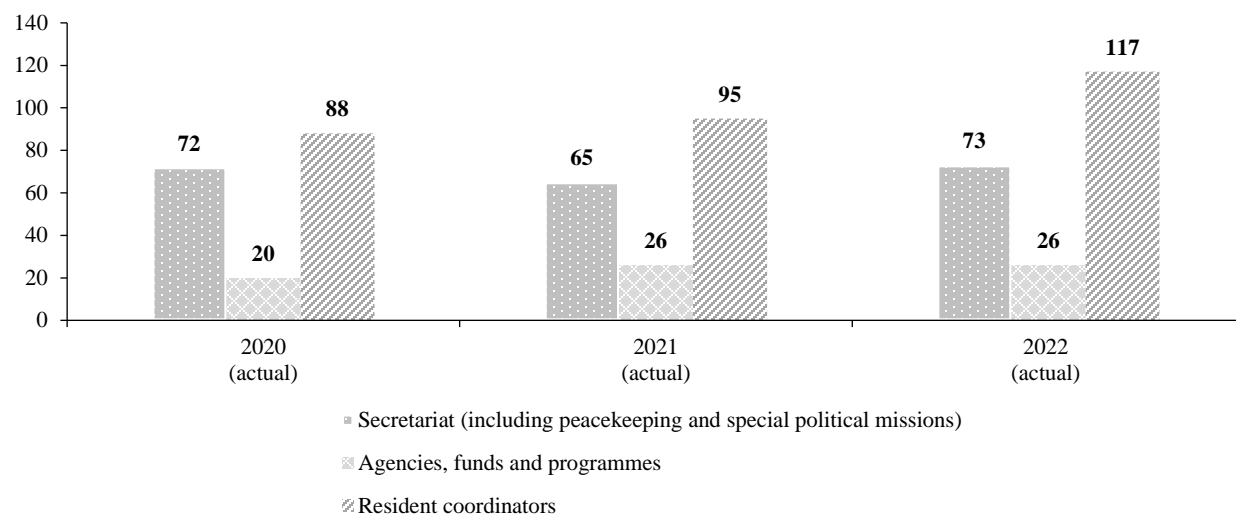

Programme performance in 2022

Strengthened system-wide approach to the prevention of and response to sexual exploitation and abuse at both the strategic and operational levels

- 1.248 The Office continued to drive a strengthened and cohesive system-wide approach to the prevention of and response to sexual exploitation and abuse at both the strategic and operational levels, ensuring awareness of the prohibitions of such behaviour and advocating constant vigilance among all United Nations personnel. The new Special Coordinator, who assumed office in September 2022, has worked to operationalize the United Nations framework for the prevention of and response to sexual exploitation and abuse across the United Nations system, including with relation to the provision of strategic and operational advice and support, strengthening monitoring and risk assessments, and a renewed focus on strengthening partnerships and communication.
- 1.249 Regular visits were conducted by the Special Coordinator and other staff in the Office to United Nations operational settings, including development and humanitarian operations, to help to focus and sustain awareness on the required standards of conduct and to identify how the United Nations system can bolster leadership and make available the appropriate expertise and resources. Furthermore, the Office regularly maintains dialogue globally both at the leadership and working levels to ensure that prevention of and response to sexual exploitation and abuse mechanisms are in place and to offer support and guidance, as appropriate.
- 1.250 Progress towards the objective is presented in the performance measure below (see figure 1.XXI).

Figure 1.XXI

Performance measure: number of heads of entities and resident coordinators with strategic and action plans on the prevention of and response to sexual exploitation and abuse (cumulative)

Planned results for 2024

Result 1: risks of sexual exploitation and abuse across the pillars of the United Nations system (peace, development and humanitarian) mitigated and managed

Programme performance in 2022 and target for 2024

- 1.251 The Office’s work contributed to the availability an impact statement on the prevention of sexual exploitation and abuse for use in all United Nations field-based activities to ensure that foreseeable risks are identified and planned for, which met the planned target.
- 1.252 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.110).

Table 1.110
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	An impact statement on the prevention of sexual exploitation and abuse is available for use in all United Nations field-based activities, to ensure that foreseeable risks are identified and planned for	Strengthened engagement of leadership and other personnel to manage risks related to sexual exploitation and abuse, foster correct standards of behaviour and the prevention, detection and response to misconduct	An increased number of entities identify and plan for foreseeable risks in the protection from sexual exploitation and abuse

Result 2: a reduction in operational and policy and procedural gaps in the United Nations handling of sexual exploitation and abuse perpetrated by all categories of United Nations personnel system-wide

Proposed programme plan for 2024

- 1.253 The United Nations system is composed of more than 30 affiliated programmes, funds and specialized agencies, each with their own membership, leadership and budget, and the system is not “self-coordinating”. The Special Coordinator and associated office were established to work with the United Nations system to improve collaboration and advocate the implementation of aligned and coordinated approaches to preventing, detecting and responding to sexual exploitation and abuse. The Office has been supporting the Secretary-General in guiding and assisting the integrated work of the High-level Steering Group on preventing sexual exploitation and abuse through the development and implementation of policies on integrated coordination, the prevention of sexual exploitation and abuse, the response to allegations, and timely and appropriate follow-up strategies, including support for victims.

Lessons learned and planned change

- 1.254 The lesson for the Office was that the high turnover of personnel, in particular in the field and including in leadership positions, requires constant and self-reinforcing engagement mechanisms to ensure continuity and consistent implementation. In applying the lesson, the Office will further explore how routine visits to duty stations can better help to highlight and sustain awareness of the required standards of conduct, support leadership and make available the appropriate expertise and resources. The Office will support the development of risk management frameworks tailored to specific contexts to strengthen the leadership capacity of United Nations officials and military and police personnel to manage and mitigate risks related to sexual exploitation and abuse, and provide guidance to institutionalize the process of identifying foreseeable risks. In conjunction with relevant entities, the Office will improve the analyses of available system-wide data to address the policy and operational gaps in the United Nations handling of sexual exploitation and abuse.
- 1.255 Expected progress towards the objective is presented in the performance measure below (see table 1.111).

Table 1.111

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	–	Entities address policy and operational gaps, including alignment of the minimum standards on protection from and the response to sexual exploitation and abuse, and entities improve data-sharing and reporting	An increased number of entities address policy and operational gaps, including alignment of the minimum standards on protection from and the response to sexual exploitation and abuse, and an increased number of entities systematically share data and fulfil reporting requirements

Legislative mandates

1.256 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

59/300; 61/267 B	Comprehensive review of a strategy to eliminate future sexual exploitation and abuse in United Nations peacekeeping operations	71/297 71/278; 72/312; 73/302; 75/321; 76/303	Special measures for protection from sexual exploitation and abuse United Nations action on sexual exploitation and abuse
62/63	Criminal accountability of United Nations officials and experts on mission		

Security Council resolutions

2272 (2016)	2436 (2018)

Other assessed and extrabudgetary resources

1.261 As reflected in table 1.116 (2), other assessed resources amount to \$56,000 and would provide for non-post resources under the support account for peacekeeping operations. Further details on the resource changes are reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2023 to 30 June 2024 (A/77/771).

1.262 As reflected in table 1.16 (3), extrabudgetary resources amount to \$334,200. The resources would complement the regular budget resources and would support the delivery of its mandates and be used to support the Office in carrying out various activities, including the development of a manual on protection against sexual exploitation and abuse, cover official travel of staff (i.e., to the field), and provide for contractual services and general operating costs for gratis personnel.

Part I Overall policymaking, direction and coordination

- 1.263 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.264 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.119. While the Office makes every effort to follow the advance booking of air travel policy, it is not always possible to comply owing to unforeseen circumstances, including the need to travel to the field on short notice. The Office will continue to strive to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

IX. Office of the United Nations Ombudsman and Mediation Services

Foreword

Over the course of 2024, the Office of the United Nations Ombudsman and Mediation Services will continue to provide informal conflict resolution services to all United Nations personnel on work-related concerns so that they can deliver according to the mandates entrusted to them. Experience and lessons learned have shown that interpersonal conflicts, miscommunication or negative behaviours that could include abuse of authority, allegations of discrimination and harassment at all levels can have an impact on the workplace.

When personnel experience conflict at work, it can be difficult for them to be productive and to focus on the larger objectives. They can become demotivated and may lose their enthusiasm and eagerness to deliver. This is where the Office steps in and helps not only to manage and resolve the workplace issues, but also to build the capacity of managers and staff to address workplace conflicts effectively and early, before they escalate. On the basis of the principles of independence, informality, neutrality and confidentiality, the Office will provide support for work-related conflict through a variety of methods such as discussion of options, shuttle diplomacy, facilitated dialogue and conflict coaching and mediation.

In addition, the Office will focus on outreach efforts to raise awareness of the role and mandate of the Office, the services that we provide and the possibilities that the informal channel offers to address work-related complaints, while leveraging the Office's unique role as a neutral convenor of conversations to promote dignity as a core workplace value.

The Office will continue to respond to all requests for informal conflict resolution in a timely manner through various avenues, maximizing the use of resources and finding innovative ways to serve United Nations personnel around the globe.

(Signed) Shireen L. **Dodson**
United Nations Ombudsman

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 1.265 The Office of the United Nations Ombudsman and Mediation Services is responsible for providing confidential, impartial and independent conflict resolution services to address work-related issues of staff members, upon request. In doing so, the United Nations Ombudsman makes an essential contribution to making the Organization a productive, healthy and enabling workplace.
- 1.266 The mandate of the Office derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolutions [55/258](#) and [56/253](#). The Office was further strengthened by the Assembly, pursuant to its resolutions [61/261](#) and [62/228](#), to create an integrated and geographically decentralized Office. In paragraph 16 of its resolution [73/276](#), the Assembly requested the Secretary-General to establish, within existing resources, a pilot project to offer access to informal dispute resolution services to non-staff personnel. In paragraph 19 of its resolution [75/248](#), the Assembly encouraged the Secretary-General to continue the pilot project whereby non-staff personnel are offered access to services provided by the Office within its existing resources.

Programme of work

Objective

- 1.267 The objective, to which this Office contributes, is to ensure the effective functioning of the Organization by enhancing harmony in the workplace through an efficient and effective option for staff to seek redress to grievances.

Strategy and external factors for 2024

- 1.268 To contribute to the objective, the Office will:
- (a) Provide conflict resolution services to United Nations personnel globally in three core areas: case intervention; systematic feedback; and conflict prevention through capacity-building aimed at managing conflict effectively;
 - (b) Provide greater access to conflict resolution services to personnel, irrespective of location, including through the provision of services in all six official languages of the United Nations, ensuring access for all staff members to the informal pillar of the administration of justice;
 - (c) Deliver Dignity through Civility workshops in support of the civility initiative of the Secretary-General;
 - (d) Promote and facilitate dialogue among staff, in support of the Secretary-General's initiative against racism in the workplace and the implementation of the strategic action plan of the Task Force on Addressing Racism and Promoting Dignity for All in the United Nations.
- 1.269 The above-mentioned work is expected to result in:
- (a) A more harmonious work environment for United Nations personnel;
 - (b) More productive and more effective functioning of the Organization;
 - (c) Improved understanding by staff and managers of the importance of resilience and flexibility in promoting a harmonious workplace.

- 1.270 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Staff members, including those in supervisory functions, avail themselves of opportunities to resolve workplace disputes through established informal mechanisms;
 - (b) Staff members observe applicable United Nations regulations and rules regarding the terms and conditions of employment and apply lessons learned from decisions of the United Nations Dispute Tribunal and the United Nations Appeals Tribunal;
 - (c) Caseload trends remain stable.
- 1.271 With regard to cooperation with other entities and inter-agency coordination and liaison, the Office will continue to cooperate with the ombudsmen and mediators of the United Nations system so as to contribute to improved system-wide cohesion and impact in the area of conflict resolution in the workplace. The Office will also focus on building stronger collaboration with the formal system of the administration of justice and to explore opportunities for more referrals from the formal to the informal pillar.
- 1.272 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, the Office will continue to integrate a gender perspective into the provision of conflict resolution services and the identification of systemic issues to provide feedback on gender inequities, as observed in cases brought forward. The Office also compiles gender-disaggregated data.
- 1.273 In line with the United Nations Disability Inclusion Strategy, the Office will work to ensure that it takes into account the needs of persons with disabilities, facilitating their full and effective participation in the activities of the Office, whenever applicable. The Office will work to increase the accessibility of its services, in particular ensuring that the relevant content, such as information conveyed through its online platforms, is available to persons with disabilities.

Impact of the pandemic and lessons learned

- 1.274 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular on the Office's ability to conduct on-site, in-person conflict resolution activities. Some in-person meetings had to be cancelled, and, as a result, the Office held such activities, including conversations with parties, mediation sessions and global visits, through virtual platforms, thereby ensuring continuation of the provision of conflict resolution services to personnel.
- 1.275 The Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the use of virtual platforms, where appropriate, to meet personnel to discuss their concerns. While virtual platforms and activities enabled the Office to continue to deliver its services, it was found to be an inadequate replacement for in-person interaction. Given the sensitive and confidential nature of conflict resolution, personnel are often reluctant to use virtual platforms to discuss their concerns. Moreover, technical difficulties, including bandwidth, network and connectivity issues, impeded access for many staff, in particular in remote duty stations, to the Office's support. The Office will use virtual modes as a complement to in-person interaction.

Evaluation activities

- 1.276 An evaluation of client satisfaction, conducted by the Office and completed in 2022, has guided the proposed programme plan for 2024.
- 1.277 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2024. For example, the Office will promote the early use of mediation, through targeted outreach and engagement with stakeholders, to identify opportunities for piloting early referrals. The Office will also offer further conflict competence skills-building workshops to United Nations personnel in order to equip them with new skills to help to prevent or to

constructively deal with conflict, including on giving and receiving feedback, fostering a harmonious environment, and boundaries and apologies.

- 1.278 An evaluation of client satisfaction, to be conducted by the Office, is planned for 2024.

Programme performance in 2022

United Nations personnel have access to information and advice on informal conflict resolution

- 1.279 The Office increased its outreach efforts to promote informal conflict resolutions services as a safe first step in addressing workplace concerns. The Office raised awareness of the informal conflict resolution of workplace issues that it offers. To this end, the Office conducted town hall meetings for United Nations personnel with a targeted audience or global reach, participated in induction programmes and distributed thematic content through broadcasts, publications and global digital platforms. The Office also focused its efforts on fostering conflict competence and prevention of conflict escalation by developing and conducting skills-building activities, including the Dignity through Civility campaign and the dialogues on racism in the United Nations workplace. In addition, the Office engaged with individual managers and management bodies at the senior levels of the Organization on a regular basis to promote and advise on the use of dispute resolution mechanisms. These efforts have enabled United Nations personnel to develop skills and strategies to address workplace concerns and resolve conflicts in the workplace.

- 1.280 Progress towards the objective is presented in the performance measure below (see figure 1.XXIII).

Figure 1.XXIII

Performance measure: number of visitors to the Office of the United Nations Ombudsman and Mediation Services who indicated that they had learned information and strategies that could help them to resolve conflict in the workplace

(Percentage)

Planned results for 2024

Result 1: increased access of services to field-based staff

Programme performance in 2022 and target for 2024

- 1.281 The programme's work contributed to 656 informal conflict resolution cases in field missions, which did not meet the planned target of 1,050 cases. The target was not met owing to the continued impact of the COVID-19 pandemic, as well as the security situation in some duty stations, which prevented the Office from carrying out in-person field visits, which limited the scope and nature of its support.
- 1.282 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 1.XXIV).

Figure 1.XXIV

Performance measure: number of informal conflict resolution cases in field missions

Result 2: increased reach to promote dignity through civility in the workplace

Programme performance in 2022 and target for 2024

- 1.283 The Office’s work contributed to the increased awareness of 4,861 personnel to uphold the principle of dignity, as outlined in the Charter of the United Nations, in their daily interaction and their performance output, which met the planned target.
- 1.284 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.120).

Table 1.120

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Increased awareness and skill sets to foster civility in the workplace	Roll-out of global team site (online collaboration tool) with toolkits and communication materials	Increased awareness of 4,861 United Nations personnel to promote the principle of dignity, as outlined in the Charter of the United Nations, in their daily interaction and their performance output	Expansion of dignity through civility initiatives, by continuing to raise awareness and build skills that promote dignity	Increased number of staff reached through the expansion of dignity through civility initiatives

Result 3: improved access to mediation services

Proposed programme plan for 2024

- 1.285 Through an increase in outreach activities such as virtual town hall meetings at the global and regional levels, the Office has been able to raise greater awareness among United Nations personnel of the conflict resolution services available and of the various means of access. This has contributed to an increase in the amount of mediation undertaken through a decentralized approach.

Lessons learned and planned change

- 1.286 The lesson for the Office was that a decentralized regional approach contributed significantly to the overall efficiency and effectiveness of the delivery of mediation services, in particular in the work of the regional branches at the same locations as the United Nations Dispute Tribunal. In applying

the lesson, the Office will focus on activities aimed at reducing the occurrence of unproductive and unhealthy workplace conflict and aim to reduce the exposure to unnecessary litigation and productivity risks. To do so, the Office plans to focus its work on greater collaboration with the Dispute Tribunal with a view to increasing the referrals from the formal to the informal pillar.

1.287 Expected progress towards the objective is presented in the performance measure below (see figure 1.XXV).

Figure 1.XXV

Performance measure: number of mediation services conducted through a decentralization of services (cumulative)^a

^a The Office reviewed its practice for the accounting of mediation cases to make it more reflective of the scope of work done (see [A/77/151](#)).

Legislative mandates

1.288 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

55/258	Human resources management	65/290	Strengthening the capacity of the United Nations to manage and sustain peacekeeping operations
56/253	Questions relating to the proposed programme budget for the biennium 2002–2003		
62/228 ; 76/242 ; 77/260	Administration of justice at the United Nations		

Deliverables

1.289 Table 1.121 lists all deliverables of the programme.

Section 1 Overall policymaking, direction and coordination

Figure 1.XXVI
Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed and extrabudgetary resources

- 1.293 As reflected in tables 1.125 (2) and 1.126 (2), other assessed resources amount to \$2,347,800 and would provide for nine posts and non-post resources. The resources would support the Office in providing conflict resolution services to peacekeeping personnel in the field and to carry out a broad review and analysis of systemic issues arising from the peacekeeping missions. The decrease of \$401,400 compared with the estimate for 2023 reflects mainly updated salary costs, in particular higher vacancy rates, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2023 to 30 June 2024 (A/77/771).
- 1.294 As reflected in table 1.125 (3), extrabudgetary resources amount to \$60,000. The resources would complement regular budget resources and support the delivery of its mandates, including the provision of conflict resolution services to the International Court of Justice and the World Meteorological Organization in accordance with the memorandum of understanding.
- 1.295 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.
- 1.296 Information on the timely submission of documentation and advance booking of air travel is reflected in table 1.128. Efforts undertaken by the Office to further enhance the rate of compliance with the advance booking of air travel policy are the preparation of travel plans on a semi-annual basis and closely monitoring advance booking for each instance of travel by air.

X. Office of Administration of Justice

Foreword

In a work environment such as the United Nations, which brings together diverse cultures, it is not unusual for workplace conflicts to arise. To address these grievances and affirm the United Nations as an exemplary employer, the Office of Administration of Justice will continue to coordinate the proper functioning of the administration of the system of justice and ensure that it operates in a fair, efficient and transparent manner, as guided by the General Assembly.

In this context, the Office will continue to support the United Nations Dispute Tribunal and the United Nations Appeals Tribunal in delivering on their mandate and make the rich body of jurisprudence of the Tribunals for interpreting the Organization's rules, regulations and policies more accessible. This promotes transparency, contributes to the body of law applicable to the international civil service and provides staff members and managers information to support reflective decision-making.

To this end, the Office will continue to leverage its investment in upgrading information and communication technology resources such as an updated version of the Court Case Management System, the new Office of Staff Legal Assistance database (OSLAW), the real-time case-tracking dashboards, a new website based on the most recent Unite web framework and the new case law portal. The new resources have added transparency and efficiency to the administration of justice system and will continue to be enhanced in 2024.

The Office will also continue to build on lessons learned to avoid the creation of a backlog of cases and enable the timely delivery of high-quality justice.

(Signed) Alayne **Frankson-Wallace**
Executive Director, Office of Administration of Justice

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 1.297 The Office of Administration of Justice is responsible for the overall coordination of the system of administration of justice and contributing to its functioning in a fair, transparent and efficient manner. The mandate of the Office derives from relevant General Assembly resolutions, including resolutions [61/261](#), [62/228](#) and [63/253](#), by which the Assembly established a new, independent, transparent, professionalized, adequately resourced and decentralized system of administration of justice and placed emphasis on the need to ensure the fair and just treatment of United Nations staff and the accountability of managers and staff alike.

Programme of work

Objective

- 1.298 The objective, to which the Office contributes, is to ensure access to justice, in particular to jurisprudence, and respect for the rights and obligations of staff members and the accountability of managers and staff members alike through the efficient and effective functioning of the system of administration of justice.

Strategy and external factors for 2024

- 1.299 To contribute to the objective, the Office will continue to:
- (a) Provide easy access to jurisprudence through the website of the United Nations system of administration of justice, the fully searchable jurisprudence database, the improved searchable digest of case law and outreach means;
 - (b) Provide legal advice and assistance and, where appropriate, legal representation to staff;
 - (c) Enhance the case management systems and provide substantive, technical and administrative support to the United Nations Dispute Tribunal and the United Nations Appeals Tribunal;
 - (d) Raise awareness of and increased access to workplace dispute resolution mechanisms, with a focus on field missions and offices, in furtherance of General Assembly resolutions [73/276](#), [74/258](#), [75/248](#) and [76/242](#).
- 1.300 The above-mentioned work is expected to result in:
- (a) Improved decision-making by managers;
 - (b) Increased access to information on when and how to pursue a claim before the Tribunals;
 - (c) Effective dispute resolution;
 - (d) More expedient processing of cases.
- 1.301 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Staff members avail themselves of opportunities to resolve workplace disputes through established informal mechanisms;

- (b) Staff members observe applicable United Nations regulations and rules regarding the terms and conditions of employment and apply lessons learned from decisions of the Tribunals prior to filing applications;
 - (c) Caseload remains stable;
 - (d) Staff members in remote locations have Internet connectivity to file electronically.
- 1.302 With regard to inter-agency coordination and liaison, the Office will continue to implement its comprehensive outreach strategy to provide staff with improved access to information and resources to resolve workplace grievances. To continue to implement this strategy and reach out to the largest number of staff members possible, in particular in locations away from Headquarters, the Office intends to work collaboratively with several entities and the separately administered funds and programmes. To increase the accessibility of other agencies to the jurisprudence of the Tribunals, the Office launched a fully searchable jurisprudence database and will invest in promoting outreach activities to raise awareness of the new resource. The Office will also continue to coordinate the preparation of the report of the Secretary-General on the functioning of the internal justice system and report on trends and observations.
- 1.303 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The Office will continue to identify any systemic issues concerning gender inequality in the access to the system of administration of justice and recommend remedial action. The Office's gender team will continue to support the implementation of the system-wide strategy on gender equality and the empowerment of women.
- 1.304 In line with the United Nations Disability Inclusion Strategy, the Office will work with the Office of Information and Communications Technology to ensure that the future iteration of the website of the administration of justice system includes accessibility features that benefit users with temporary or long-term disabilities.

Impact of the pandemic and lessons learned

- 1.305 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular on the ability to conduct in-person hearings and sessions of the Tribunals and outreach missions to duty stations away from Headquarters. With the relaxation of travel restrictions related to the pandemic, some of the activities relevant to mandate implementation could be conducted in-person in the second half of 2022. Nevertheless, the Office continued to implement business continuity measures, from in-person working methods to virtual ones, to ensure continuity of services. Staff continued to make themselves available outside regular hours to support judges, some of whom reside in time zones up to 18 hours ahead of Headquarters.
- 1.306 The Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the continuation of a high level of usage of virtual work methods, which affected hearings, sessions and plenaries of the Tribunals, as well as team meetings and town halls. The Office of Staff Legal Assistance will continue to meet clients remotely and assist them in all facets of their cases, including representing them virtually before the Tribunals, as appropriate. While these functions can be done virtually, that method is not suitable in all cases. There are instances in which access to justice may be more effectively fostered in an in-person context, which helps to build trust in the system of administration of justice and reach staff members working in remote duty stations.

Evaluation activities

- 1.307 The following evaluations completed in 2022 have guided the proposed programme plan for 2024:
- (a) Report of the Secretary-General on the administration of justice at the United Nations ([A/77/156](#));

- (b) Report of the Internal Justice Council on the administration of justice at the United Nations (A/77/130).
- 1.308 The results and lessons of the evaluations referenced above have been taken into account for the proposed programme plan for 2024. For example, the Office will strengthen the implementation of measures to avoid a backlog of cases, with priority given to cases pending for more than 400 days. The continuous monitoring of cases through the case disposal plan and the real-time case-tracking dashboard, as mandated by the Assembly in its resolution 77/260, will be further leveraged to support the planning of resources within the registries. In addition, the Office will strengthen the use of information and communications technology to improve the use of data in order to facilitate mandate delivery.
- 1.309 The following evaluations are planned for 2024:
 - (a) Report of the Secretary-General on the administration of justice at the United Nations;
 - (b) Report of the Internal Justice Council on the administration of justice at the United Nations.

Programme performance in 2022

Enhanced access to the jurisprudence of the United Nations Dispute Tribunal and the United Nations Appeals Tribunal through the new jurisprudence portal

- 1.310 In line with the General Assembly’s mandate in its resolution 75/248, the Office developed a fully searchable database, the case law portal, to disseminate the jurisprudence of the Tribunals. The Office engaged a project team, created a project plan and worked in partnership with the Office of Information and Communications Technology and integrated feedback from users to develop the portal. The portal was launched in October 2022 and displays more than 3,500 judgments accompanied by case law summaries for easy access. This new portal will contribute to a more accessible and transparent administration of justice, ensuring better access to the jurisprudence for all staff of the several entities served by the system. It is expected to be a key resource for staff members, managers, human resources practitioners, parties appearing before the Tribunals and stakeholders, in order to support access to justice and better inform decision-making.
- 1.311 Progress towards the objective is presented in the performance measure below (see table 1.129).

Table 1.129
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
–	–	User friendly, online access to the jurisprudence of the Tribunals and transparency in the operation of the system of administration of justice through the case law portal

Planned results for 2024

**Result 1: access to remote sessions of the United Nations Appeals Tribunal enabled for all judges
Programme performance in 2022 and target for 2024**

- 1.312 The programme’s work contributed to the United Nations Appeals Tribunal adjudicating 141 cases in 2022, which exceeded the planned target of 135.

1.313 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 1.XXVII).

Figure 1.XXVII

Performance measure: number of cases adjudicated by the United Nations Appeals Tribunal (annual)

Result 2: improved access to the system of administration of justice through enhanced information and communications technology initiatives

Programme performance in 2022 and target for 2024

1.314 The programme’s work contributed to improved user access through enhancements of the Court Case Management System to include the French official working language for the registry module, enabling the drafting and editing of case law summaries in English and French and the improved use of data with a new real-time case-tracking dashboard, which is updated three times a day, extracting data from the System and affording more transparency in the operation of the system of administration of justice, which met the planned target.

1.315 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.130).

Table 1.130

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Effective management of Office of Staff Legal Assistance cases through the deployment of the OSLAW database and increased confidence by staff that cases are being managed timely and effectively	Availability of the new court case management system for all staff and other stakeholders, and improved insights by staff into the functioning of the system of administration of justice	Improved user access through the enhanced Court Case Management System to include the French official working language for the registry module, enhancing the drafting and editing of case law summaries Improved use of data, including the new real-time case-tracking dashboard	Increased outreach through the availability of web content in all the official languages of the United Nations on the newly designed website, increasing usability and compliance with cybersecurity, design, accessibility and multilingualism guidelines	Improved access to the system of administration of justice with the availability of a chatbot integrated into the Office’s website

Result 3: reduction in the timelines for the resolution of cases before the United Nations Dispute Tribunal

Proposed programme plan for 2024

- 1.316 Raising awareness of the role and the functioning of the various parts of the system of administration of justice and the possibilities that it offers to address workplace disputes is essential to fulfilling the Office's mandate in enabling a system to ensure respect for the rights and obligations of staff members and the accountability of managers and staff members alike. To this end, the Office implemented several initiatives, such as in-person outreach activities to duty stations away from Headquarters, the launch of a case law portal of jurisprudence, and the publication of several articles on the system and the services provided and a compendium of seminal jurisprudence.

Lessons learned and planned change

- 1.317 The lesson for the Office was that, although the aforementioned initiatives had achieved great success in raising awareness of staff working in remote locations, a significant portion of the staff did not have sufficient knowledge of the system of administration of justice, in particular with respect to understanding the process and evidence required for filing an application. In applying the lesson, the Office will seek to foster more opportunities to engage with all staff, with a focus on the process for filing an application, including relevant timelines, and ways in which staff can gain access to jurisprudence and the information required to support a claim in order to reduce the submission of voluminous and superfluous information, in particular by staff who self-represent. By providing staff with practical resources on the system of administration of justice, it is expected to contribute to applications that are more streamlined and enable more timely processing and adjudication by the United Nations Dispute Tribunal. In this context, the Office will create a self-paced e-learning course in the two working languages of the United Nations on the functioning of the system of administration of justice and its main components to address questions such as how legal advice and representation can be sought or how to self-represent. The Office also plans to create training videos in all the United Nations official languages to integrate multilingualism requirements, as well as issue news articles on iSeek to publicize the material. Considering the total number of staff members to be reached through the advocacy and outreach products and activities, the Office will replicate and increase the number of engagements and activities in order to reach more staff members, including, resources permitting, using all official United Nations languages and other languages used at specific duty stations.
- 1.318 Expected progress towards the objective is presented in the performance measure below (see figure 1.XXVIII).

Figure 1.XXVIII

Performance measure: number of cases before the United Nations Dispute Tribunal that are not resolved within prescribed timelines

■ Number of cases before the United Nations Dispute Tribunal not resolved within 400 days.

Legislative mandates

1.319 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

59/283, 61/261, 62/228, 63/253, 73/276, 74/258, 75/248, 76/242, 77/260	Administration of justice at the United Nations	66/106	Code of conduct for the judges of the United Nations Dispute Tribunal and the United Nations Appeals Tribunal
--	---	--------	---

Deliverables

1.320 Table 1.131 lists all programme deliverables.

Table 1.131

Office of Administration of Justice: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	3	2	2
1. Report of the Secretary-General to the General Assembly	1	1	1	1
2. Report of the Internal Justice Council to the General Assembly	2	2	1	1
Substantive services for meetings (number of three-hour meetings)	34	38	24	24
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	4	4	4	4
4. Meetings of the Fifth Committee	7	4	7	7
5. Meetings of the Sixth Committee	3	6	3	3
6. Meetings of the Internal Justice Council	20	24	10	10
C. Substantive deliverables				
Databases and substantive digital materials: electronic court case management system, OSLAW database and the jurisprudential search engine.				
D. Communication deliverables				
Outreach programmes, special events and information materials: campaigns to raise awareness of the system of administration of justice and disseminate information about the system.				
Digital platforms and multimedia content: United Nations system of administration of justice website.				
E. Enabling deliverables				
Legal services: legal assistance and, in cases with reasonable chance of success, representation to staff members through the Office of Staff Legal Assistance.				
Internal justice and oversight: Applications and appeals, including motions, received by the United Nations Dispute Tribunal and the United Nations Appeals Tribunal for processing; substantive, technical and administrative support to the Tribunals in issuing decisions; and assistance to the Internal Justice Council.				

B. Proposed post and non-post resource requirements for 2024

Overview

1.321 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.132 to 1.134.

Table 1.132

Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2022 expenditure	2023 appropriation	Changes				2024 estimate (before recosting)

Figure 1.XXIX
Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Technical adjustments

1.324 As reflected in tables 1.135 (1) and 1.136 (1), resource changes reflect an increase of \$86,500, relating to the delayed impact of a new temporary position of Administration Officer (P-3) that was established in 2023 with a vacancy rate of 50 per cent.

Other assessed and extrabudgetary resources

1.325 As reflected in tables 1.135 (2) and 1.136 (2), other assessed resources amount to \$232,200 and would provide for one post and non-post resources. The resources would be utilized to provide legal assistance to staff in peacekeeping missions. The decrease of \$10,500 compared with the estimate for 2023 relates mainly to updated salary costs, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2023 to 30 June 2024 (A/77/771).

1.326 As reflected in table 1.135 (3), extrabudgetary resources amount to \$2,597,400. The resources would complement regular budget resources and would support the delivery of its mandates, as well as support the Office in the provision of legal assistance to staff.

1.327 The extrabudgetary resources under the present section are subject to the oversight of the Office, which has delegated authority from the Secretary-General.

1.328 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.138. The Office will strive to continue to improve the planning of its travel in order to improve its compliance with the advance booking of air travel policy.

XI. Ethics Office

Foreword

The post-COVID-19 pandemic transition for the United Nations has brought about various new ethical considerations in the workplace, such as an increase in authorization for outside activities and flexible work arrangements. In addition, calls by staff for greater engagement with outside interests and a greater focus on social justice need to be factored in the ongoing review of the standards of conduct for the international civil service. In 2024, the Ethics Office will continue to address existing challenges, enhance its work in the field and be on the lookout for new developments as it assists the Secretary-General in enhancing the Organization's culture of ethics, transparency and accountability.

A strong engagement with ethics functions in entities across the United Nations system will remain a focus in achieving the coherent application of ethical standards. Through its functional leadership of the Ethics Panel of the United Nations and the sharing of experience with the Ethics Network of Multilateral Organizations member entities affiliated with the United Nations System Chief Executives Board for Coordination, the Ethics Office will encourage more innovative collaboration on key challenges. Areas of priority in this inter-agency engagement for 2024 are outside activities and protection against retaliation for reporting misconduct and cooperating with audits and investigations.

The Ethics Office will continue to be at the service of United Nations staff in their efforts to successfully deliver the mandate of the Organization in a complex world. In doing so, staff must be reminded of their obligation to uphold the high ethical standards of the United Nations.

(Signed) **Elia Yi Armstrong**
Director, Ethics Office

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 1.329 The Ethics Office was established as an independent Secretariat office and is responsible for assisting the Secretary-General in ensuring that all staff members perform their functions consistent with the highest standards of integrity, as required under the Charter of the United Nations. The mandate of the Ethics Office derives from the priorities established in relevant General Assembly resolutions and/or decisions, including resolutions [60/1](#) and [60/248](#). The Ethics Office also assists the Secretary-General in reporting annually to the Assembly on the implementation of ethics policies in response to Assembly resolution [60/254](#) and on the activities of the Ethics Panel of the United Nations pursuant to Assembly resolution [63/250](#). Pursuant to Assembly resolution [77/278](#), the Ethics Office directly presents an annual report to the Assembly. Further to Assembly resolution [70/305](#), the Ethics Office has been mandated to participate in providing an induction briefing to all Presidents of the General Assembly and their offices, to review the financial disclosures of those Presidents and to vet all private contributions to the Office of the President of the General Assembly. As provided for in Assembly resolution [71/263](#), the Ethics Office aims to do its part in the swift and effective implementation of the revised policy on protection against retaliation and to cultivate an organizational culture in which staff feel free to speak up.

Programme of work

Objective

- 1.330 The objective, to which the Ethics Office contributes, is to achieve and sustain an organizational culture of integrity, accountability and transparency, wherein all staff members observe and perform their functions consistent with the highest standards of integrity required under the Charter of the United Nations.

Strategy and external factors for 2024

- 1.331 To contribute to the objective, the Ethics Office will:
- (a) Provide independent and preventive ethics advice, guidance and briefings to staff and management to ensure that ethical standards are well understood, support ethics standard-setting and promote policy coherence within the Secretariat and among the Organization's separately administered organs and programmes;
 - (b) Deliver its services in line with its terms of reference outlined in the relevant Secretary-General's bulletins ([ST/SGB/2005/22](#) and [ST/SGB/2007/11](#) and [ST/SGB/2007/11/Amend.1](#)), through the administration of the annual financial disclosure programme, the provision of guidance and confidential ethics advice (including pre-appointment disclosure reviews for senior appointments and through the ethics helpline), the conduct of ethics briefings and outreach, and the fulfilment of the Ethics Office's responsibilities regarding the protection against retaliation policy, and by ensuring policy support and coherence of ethical standards;
 - (c) Identify risks in staff engagement in outside activities, in particular in terms of potential conflicts of interest and their impact on the Organization;

- (d) Foster a shared understanding of the revised standards of conduct for the international civil service (expected to be completed by 2024) through the Ethics Network of Multilateral Organizations member entities affiliated with CEB;
 - (e) Support the Organization's overall strategy on risk management, including identifying and mitigating personal and organizational conflicts of interest through the financial disclosure programme and the provision of advice, and, upon request, work with the various owners of the risks identified in the enterprise risk registry in updating and implementing their response plans;
 - (f) Communicate and demonstrate the availability of measures for protection against retaliation, by continuously working within the Secretariat (with the Department of Global Communications, OIOS and the Department of Management Strategy, Policy and Compliance) and throughout the United Nations system through outreach activities.
- 1.332 The above-mentioned work is expected to result in:
- (a) Greater public trust in the integrity of the Organization through the financial disclosure exercise, retaining the foundational defence for the Organization from personal conflicts of interest and potential reputational damage;
 - (b) Awareness among a greater number of staff of ethical standards and practices and of provisions for protection against retaliation;
 - (c) Enhanced organizational culture of integrity, transparency and accountability.
- 1.333 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Staff continue to avail themselves of the services provided by the Ethics Office;
 - (b) Financial disclosure statements from staff are submitted to the Ethics Office in a timely manner;
 - (c) All necessary documentation is provided by staff when seeking protection against retaliation;
 - (d) The security and public health situations in duty stations will allow for in-person outreach missions, when required.
- 1.334 With regard to cooperation with other entities at the global, regional, national and local levels, the Ethics Office expects to participate in the 2024 annual meeting of the Ethics Network of Multilateral Organizations.
- 1.335 With regard to inter-agency coordination and liaison, the Director of the Ethics Office will continue to chair and provide functional leadership to the Ethics Panel of the United Nations to increase coherence in the work of member ethics offices, as reflected in Secretary-General's bulletins [ST/SGB/2007/11](#) and [ST/SGB/2007/11/Amend.1](#). The Office will continue to engage with the Ethics Network of Multilateral Organizations member entities affiliated with CEB in the interest of ethics policy coherence and to promote protection against retaliation in the United Nations system. It will also continue to administer the financial disclosure requirements of those system entities that have opted to outsource this requirement to the Secretariat's Ethics Office. It will further continue to review contested matters by the staff of the separately administered organs and programmes of the Ethics Panel.
- 1.336 The Ethics Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. It disaggregates its service data by gender, where possible. The Ethics Office has received more enquiries from women consistently over the years and has responded to them. As a practice, and when funds allow, outreach mission teams of the Ethics Office will continue to be in pairs and gender-balanced. Subject to demand from requesting entities, the Ethics Office will provide gender-disaggregated information.

Impact of the pandemic and lessons learned

- 1.337 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates. In particular, the Ethics Office continued to host some outreach sessions in a hybrid format to complement in-person visits to various duty stations, which were resumed in 2022.
- 1.338 The Ethics Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the digitization of existing paper-based programme records. The Ethics Office, with the support of the Office of Information and Communications Technology, developed an integrated case database for more efficient case-tracking and record management. Moreover, building on good practices established during the pandemic, the Office will continue to conduct tailored, hybrid interactive thematic workshops to respond to the distinctive needs of clients and duty stations. While virtual modes were useful in ensuring the continued provision of support during the pandemic, it was found to be less effective than in-person engagement, which prompts more active interaction and engagement by staff by providing a space wherein staff can safely address concerns and queries.

Programme performance in 2022

United Nations staff have access to interactive resources on ethics standards

- 1.339 The Ethics Office has devised various outreach communication tools to implement the Office's communication strategy since early in 2020, which coincided with the outbreak of the COVID-19 pandemic. The Ethics Office assessed needs and delivered tailored responses through various tools, including pre-mission surveys and interactive workshops on themes of interest identified through the surveys. Closer interaction with the field and other duty stations further informed the Ethics Office of the needs of staff members, including the need to gain more frequent and better targeted information on ethical standards and on available protections against retaliation for having reported misconduct or cooperated with a duly authorized audit or investigation. On these grounds, the Ethics Office launched in 2022 its own intranet page through iSeek, where the staff can find relevant information and interactive resources.
- 1.340 Progress towards the objective is presented in the performance measure below (see table 1.139).

Table 1.139

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
8 United Nations entities responded to pre-mission survey addressing entity-specific challenges and priority issues	United Nations staff engage in 66 sessions, including town hall meetings and thematic, interactive sessions focused on the specific needs of their entity	United Nations staff have access to relevant information and interactive resources through the iSeek page of the Ethics Office regarding ethical standards of the Organization and available protections against retaliation for having reported misconduct or cooperated with a duly authorized audit or investigation. Since its launch, staff have interacted through approximately 3,000 page views

Planned results for 2024

Result 1: strengthened ethical awareness in a complex and changing work environment

Programme performance in 2022 and target for 2024

- 1.341 The Ethics Office’s work contributed to strengthened ethical awareness among 37,402 United Nations personnel through the successful delivery of the 2022 Leadership Dialogue on “Living the United Nations Values: what this means in practice for each of us”, which met the planned target.
- 1.342 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.140).

Table 1.140
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
Access to ethics outreach sustained and enhanced during the COVID-19 pandemic through online remote sessions	Strengthened ethical awareness of staff through 191 outreach sessions (a 63 per cent increase compared with 2020), including issue-specific workshops and training based on specific identified needs, with a 100 per cent satisfaction rating of “excellent” or “good” by participating staff	Strengthened ethical awareness among 37,402 United Nations personnel through the 2022 Leadership Dialogue “Living the United Nations Values: what this means in practice for each of us”	Mitigated ethical risks of personal use of social media through increased awareness of staff	United Nations field personnel have access to increased number of tailored support sessions to improve their ethical awareness

Result 2: coherent ethical standards and their consistent application

Programme performance in 2022 and target for 2024

- 1.343 The Ethics Office’s work contributed to the creation of the Ethics Network of Multilateral Organizations member entities affiliated with CEB in order to foster a common understanding of ethical standards within the United Nations system and a common response to emerging ethical challenges. The work also contributed to the participation of the Secretariat and the Ethics Panel of the United Nations in the ongoing International Civil Service Commission (ICSC) review of the standards of conduct for the international civil service, which did not meet the planned target of enhanced consistency in ethics-related policies through a review of the standards of conduct and other relevant policies. The target could not be met because the review, which commenced in November 2022, is ongoing.
- 1.344 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.141).

Table 1.141
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Enhanced consistency in ethics-related provisions, through a review of the key relevant Secretary-General’s bulletins, such as ST/SGB/2017/2/Rev.1	Increased understanding of United Nations system entities on the application of ethical standards and practices	CEB Ethics Network of Multilateral Organizations member entities affiliated with CEB created Participation of the Secretariat and the Ethics Panel of the United Nations in the ICSC review of the standards of conduct for the international civil service	Strengthened coherence in the development and application of ethical standards in the Secretariat and other United Nations entities of the Ethics Panel of the United Nations	The Secretariat and other United Nations entities of the Ethics Panel of the United Nations conduct a systematic review and update of policies outlining ethical standards against the updated ICSC standards of conduct

Result 3: reduced ethical risks arising from the conduct of outside activities

Proposed programme plan for 2024

1.345 There has been an increasing volume of requests for advice on outside activities. While staff may choose to engage in social and charitable outside activities, those outside activities that involve leadership and policy-making roles for outside entities require expert conflict-of-interest advice and prior approval. Such advice ensures that the proposed activities are not in conflict with a staff member’s official duties, incompatible with his or her status of an international civil servant or against the interest of the United Nations, nor contravene local laws. The Ethics Office provides ethics advice on outside activities in line with its mandate.

Lessons learned and planned change

1.346 The lesson for the Ethics Office was the need to provide timely, comprehensive and consistent advice to staff, both individually and in groups, on outside activities in an increasingly complex, changing environment. The Ethics Office continues to receive a high number of advice requests on outside activities. In applying the lesson, the Ethics Office will develop and facilitate the delivery of the 2023 Leadership Dialogue to enhance understanding among personnel of ethical considerations surrounding the personal use of social media, with practical guidance on its appropriate use. The Ethics Office will also facilitate greater inter-agency collaboration and coordination to ensure that requests for advice on complex cases of outside activities are effectively addressed in a harmonized and timely manner.

Table 1.142
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
United Nations system-wide personnel have access to coherent advice on political activities during the COVID-19 pandemic	United Nations personnel engage in scenario-based exercises on actual and potential day-to-day ethical challenges, including conflicts of interest, through interactive workshops	United Nations personnel request and receive advice on outside activities (414 queries)	Engagement by United Nations leadership and personnel on the personal use of social media, through the 2023 Leadership Dialogue	Ethics Panel of the United Nations and the Ethics Network of Multilateral Organizations member entities affiliated with CEB develop common guidance on outside activities

Legislative mandates

1.347 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

60/1	2005 World Summit Outcome (para. 61 (d))	63/250; 71/263; 77/278	Human resources management
60/248	Special subjects relating to the proposed programme budget for the biennium 2006–2007	70/305	Revitalization of the work of the General Assembly
60/254	Review of the efficiency of the administrative and financial functioning of the United Nations		

Deliverables

1.348 Table 1.143 lists all deliverables of the Ethics Office.

Table 1.143
Ethics Office: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Report of the Secretary-General to the General Assembly on the activities of the Ethics Office	1	1	–	–
2. Report of the Ethics Office to the General Assembly on its activities of the Ethics Office	–	–	1	1
Substantive services for meetings (number of three-hour meetings)	6	6	6	6
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	3	3	3	3
4. Meetings of the Fifth Committee	3	3	3	3
C. Substantive deliverables				
Consultation, advice and advocacy: expert advice, guidance and technical assistance to staff on the United Nations standards of conduct and ethics issues.				

Part I Overall policymaking, direction and coordination

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

D. Communication deliverables

Outreach programmes, special events and information materials: outreach campaigns to raise awareness of the work of the Office and information on ethics-related matters, booklets and presentations.

Digital platforms and multimedia content: website and social media.

E. Enabling deliverables

Internal justice and oversight: management of financial disclosure and declaration of interest statements at a 100 per cent compliance rate and coordination for assessment under the financial disclosure programme; expert advice to staff on the United Nations standards of conduct and ethics issues; and protection of staff members against retaliation for reporting misconduct or cooperation in duly authorized audits or investigations.

B. Proposed post and non-post resource requirements for 2024

Overview

1.349 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.144 to 1.146.

Table 1.144

Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2022 expenditure	2023 appropriation	Changes				2024 estimate (before recosting)

Total		9	–	–	–	–	–	9	

Figure 1.XXX
Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed and extrabudgetary resources

- 1.352 As reflected in tables 1.147 (2) and 1.148 (2), other assessed resources amount to \$1,134,900 and would provide for three posts and be utilized to provide support to staff in the field to achieve full compliance with expected standards of conduct. The increase of \$71,200 compared with the estimate for 2023 reflects mainly provisions for the engagement of a consulting firm with expertise to continue the independent review of staff files in connection with the financial disclosure programme, as reflected in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2023 to 30 June 2024 ([A/77/771](#)).
- 1.353 As reflected in table 1.146 (3), extrabudgetary resources amount to \$1,172,100. The resources would complement regular budget resources and would support the delivery of its mandates. The resources would also cover the administration of the financial disclosure programme for staff funded from extrabudgetary resources.
- 1.354 The extrabudgetary resources under the present section are subject to the oversight of the Ethics Office, which has delegated authority from the Secretary-General.
- 1.355 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.150. The Ethics Office will continue its 100 per cent compliance with the advance booking of air travel policy.

Table 1.150
Compliance rate
 (Percentage)

	Actual 2020	Actual 2021	Actual 2022	Planned 2023	Planned 2024
Timely submission of documentation	100	100	100	100	100
Air tickets purchased at least 2 weeks before the commencement of travel	100	100	100	100	100

XII. Investigation into the conditions and circumstances resulting in the tragic death of Dag Hammarskjöld and of the members of the party accompanying him

B. Proposed post and non-post resource requirements for 2024

Overview

1.356 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in table 1.151.

Table 1.151
Evolution of financial resources by object of expenditure
 (Thousands of United States dollars)

<i>Object of expenditure</i>	<i>2022 expenditure</i>	<i>2023 appropriation</i>	<i>Changes</i>				<i>Total</i>	<i>Percentage</i>	<i>2024 estimate (before recosting)</i>
			<i>Technical adjustments</i>	<i>New/expanded mandates</i>	<i>Other</i>				
Consultants	113.5	112.6	–	4.4	–	4.4	3.9	117.0	
Contractual services	1.5	–	–	1.6	–	1.6	–	1.6	
Total	115.0	112.6	–	6.0	–	6.0	5.3	118.6	

Explanation of variances by factor

Overall resource changes

New and expanded mandates

1.357 As reflected in table 1.151, resource changes reflect an increase of \$6,000 under consultants and contractual services, and would provide for the continuation of the planned scope of any further inquiry or investigation, in accordance with General Assembly resolution [77/252](#).

XIII. Resident coordinator system

Foreword

Over the course of 2024, continued investment will remain vital to strengthening the pivotal role of the resident coordinator system in enabling an effective response from the United Nations system to the needs of countries, especially amid the lingering and disproportionate socioeconomic impacts of the COVID-19 pandemic in developing countries, the rising challenges of climate change and the cascading effects of various armed conflicts throughout the globe. Against a backdrop of pressing and overlapping development challenges, the resident coordinator system will continue to play an essential role in ensuring that the United Nations development system collaborates more effectively and delivers tailored solutions to the needs of various countries to accelerate action towards the achievement of the Sustainable Development Goals and leaving no one behind.

Investment in the reinvigorated resident coordinator system has enabled effective leadership for 130 United Nations country teams, supported by enhanced capacities in resident coordinator offices and by Development Coordination Office teams at the regional and global levels. This has led to more high-quality, integrated policy and programming, increasing the coherence and effectiveness of United Nations team responses to national priorities. In this context, the resident coordinator system will continue to convene, mobilize and support United Nations entities, Governments, donors and all stakeholders in building broad coalitions of partners for Sustainable Development Goal solutions and financing.

The difference that the resident coordinator system makes to catalyse development impact to improve the lives of people can be realized only to the extent that the system is enabled to do so. Accordingly, adequate, predictable and sustainable funding for the resident coordinator system is imperative for the consistent achievement and maintenance of tangible outcomes from investment. As we work to ensure a more suitable funding formula for the resident coordinator system, we continue to count on the support of all Member States.

(Signed) Oscar **Fernandez-Taranco**
Assistant Secretary-General for Development Coordination

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 1.358 General Assembly resolution [72/279](#) on the repositioning of the United Nations development system and the Economic and Social Council segment on operational activities for development guide the scope and implementation of the activities of the resident coordinator system. In line with resolutions [72/279](#) and [76/4](#), the substantive mandates of the resident coordinator system are derived from the 2030 Agenda for a more prosperous world for people and the planet. The management of the resident coordinator system rests with the Development Coordination Office, with resident coordinators reporting directly to the Secretary-General. Resident coordinators are the designated representatives of the Secretary-General for development operations at the country level. At the heart of the resident coordinator system are 130 resident coordinators leading 130 United Nations country teams operating in 162 countries and territories.

Programme of work

Objective

- 1.359 The objective, to which the resident coordinator system contributes, is to accelerate Member States' progress towards achieving the Sustainable Development Goals through strengthened United Nations development leadership, robust coordination mechanisms, tools and frameworks, the effective management of joint resources and improved transparency of results to improve the impact, efficiency and effectiveness of operational activities for development at the country, regional and global levels.

Strategy and external factors for 2024

- 1.360 To contribute to the objective, the resident coordinator system will scale up partnerships-driven development support to national Governments in order to implement the 2030 Agenda by strengthening the design and implementation of United Nations Sustainable Development Cooperation Frameworks. Specifically, the resident coordinator system will:
- (a) Build a cadre of resident coordinators whose skills are tailored to various development contexts and increase the diversity in the resident coordinator cohort, including geographical representation, professional background and language skills;
 - (b) Support United Nations country teams in delivering individual and collective results, supported by the Development Coordination Office at the global and regional levels, to equip them with the capacities and resources required;
 - (c) Develop, as requested, global policy and guidelines in support of the United Nations Sustainable Development Group and its subsidiary groups and task teams;
 - (d) Utilize online platforms, websites and reporting, including the annual United Nations country results reports, to increase the availability of information on and raise awareness of the resident coordinator system and United Nations development system efforts and activities to support the 2030 Agenda and the decade of action for the Sustainable Development Goals at the global, regional and national levels;
 - (e) Continue to roll out a revamped UN-Info, with improvements in data quantity, quality and applications, as the central platform for transparency and data relating to results achieved in

implementing United Nations Development Assistance Frameworks and United Nations Sustainable Development Cooperation Frameworks;

- (f) Accelerate the implementation of business operations strategies and the consolidation of local and global operational functions into common back offices and global shared services, and expand the number of common premises to ensure greater efficiencies at the national level;
- (g) Continue to leverage catalytic funding provided by the Joint Sustainable Development Goals Fund to expand opportunities under its two primary outcome areas of promoting integrated policy and leveraging financing ecosystems and catalytic investment for the Sustainable Development Goals. Aligned with these two outcomes, the Fund will launch dedicated financing vehicles regarding key thematic priorities with cross-organizational and cross-sectoral synergies for the 2030 Agenda, including food systems, climate action and energy, digital transformation, decent jobs and universal social protection, Goal localization, solutions to internal displacement and transforming education, under the leadership of the resident coordinators and based on the specific needs of the United Nations country teams and in coordination with thematic inter-agency coordination mechanisms;
- (h) In line with intergovernmental commitments, support Member States in addressing and proactively managing risks and in taking preventive action vis-à-vis increasing and compounding actual, anticipated and unforeseen crises, including health emergencies, cost-of-living pressures and the impact of other global crises. This approach will be anchored firmly within the United Nations Sustainable Development Cooperation Frameworks.

1.361 The above-mentioned work is expected to result in:

- (a) A stronger convening role for the broad system of development stakeholders, to offer countries interdisciplinary, coherent and future-informed policy solutions to advance the achievement of the Sustainable Development Goals;
- (b) A coherent and transparent approach to development operations at the national, regional and global levels, including consistent implementation of system-wide priorities, policies and approaches across United Nations Sustainable Development Group entities;
- (c) Strengthened partnerships to accelerate the progress made by Member States in the attainment of the Sustainable Development Goals, including by attracting and leveraging public and private financing for the Goals;
- (d) Increased financial resources and effectiveness for United Nations programme implementation through reduced costs and the increased agility of the United Nations development activities;
- (e) The safeguarding of lives and livelihoods by continuing to address the socioeconomic and long-term impacts of multiple and interlocking crises, with attention given to those hit hardest.

1.362 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:

- (a) Adequate donor funding for the resident coordinator system, as well as for the Joint Sustainable Development Goals Fund and other key pooled funds;
- (b) Continued engagement by Member States on the funding compact and the implementation of related commitments to ensure that the quality and quantity of funding allows the United Nations development system to maximize its comparative advantages and further incentivize United Nations coherence and unity of purpose;

1.363 With regard to inter-agency coordination and liaison, the resident coordinator system will continue to serve as the secretariat to the United Nations Sustainable Development Group and will continue to actively coordinate member United Nations entities at the principal, director and technical levels. The resident coordinators will continue to lead United Nations country teams in supporting national plans and priorities.

1.364 With regard to cooperation with other entities at the global, regional, national and local levels, the resident coordinator system will continue to work closely with Member States, United Nations

development entities, Secretariat entities, including peacekeeping and special political missions, international financial institutions and civil society partners, to advance the Sustainable Development Goals and the 2030 Agenda.

- 1.365 The resident coordinator system integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The resident coordinator system will continue to strengthen the dedicated outcome on gender equality and will help United Nations country teams to: (a) report on the gender equality marker to track planned or actual investment for gender equality and the empowerment of women; and (b) advance gender-responsive achievement of the Sustainable Development Goals.
- 1.366 In line with the United Nations Disability Inclusion Strategy, the resident coordinator system will focus on implementation of the Strategy across the resident coordinator system and support United Nations country teams in implementing and reporting on the Strategy, building on the 100 per cent reporting rate achieved in 2022.

Impact of the pandemic and lessons learned

- 1.367 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular the use of virtual technology to conduct some of the resident coordinator system's activities that would ideally be done in person, including stakeholder engagement and capacity-building activities.
- 1.368 The Development Coordination Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including adopting innovative approaches and online communication tools and building staff capacities to improve the quality of virtual engagements within the resident coordinator system and its collaboration with United Nations development system entities. The Office will continue to leverage these approaches in 2024, as appropriate.

Evaluation activities

- 1.369 The following evaluations completed in 2022 have guided the proposed programme plan for 2024:
- (a) An OIOS evaluation of the Development Coordination Office regional support;
 - (b) 12 evaluations under the United Nations Development Assistance Framework and United Nations Sustainable Development Cooperation Framework, including 8 in the Africa region, 3 in the Asia and the Pacific region and 4 in the Latin America and the Caribbean region. To date, a final report has been published on five of these.
- 1.370 The results and lessons of the evaluations referenced above have been taken into account for the proposed programme plan for 2024. For example, recent findings suggest that, robust evaluation guidelines notwithstanding, insufficient evaluation capacities at the global, regional and country level and the lack of a culture of evaluation continue to be a challenge. The direct support and engagement of the Development Coordination Office with individual United Nations Sustainable Development Cooperation Framework evaluations has increased the quality and relevance of the final evaluation reports. The Office will continue to advocate sufficient budgeting for planned Cooperation Framework evaluations and their use to inform the design of new planning instruments. The Office will also increase its in-country support through well-resourced and in-person training aimed at improving the evaluation processes and the quality of final evaluation reports.
- 1.371 A total of 33 United Nations Sustainable Development Cooperation Framework evaluations, namely, 10 in the Africa region, 2 in the Arab States region, 4 in the Asia and the Pacific region, 12 in the Europe and Central Asia region and 5 in the Latin America and the Caribbean region, are planned for 2024.

Programme performance in 2022

Improved aid effectiveness for Sustainable Development Goal advancement and alignment of United Nations system development activities to national priorities

- 1.372 Through the leadership of resident coordinators, the new generation of United Nations Sustainable Development Cooperation Frameworks were produced, and they ensure a greater alignment of the work of the United Nations with that of national development strategies to advance the achievement of the Sustainable Development Goals by countries, with the overarching objective of the eradication of poverty in all its forms and dimensions. The resident coordinators raised the ambition for United Nations support to address complex challenges, enabled access to United Nations expertise, including from specialized entities physically located outside the countries, and led increased collective work through joint programmes, supported by pooled funds. The focus on the systematized reporting of progress data through the common UN-Info platform has added greater transparency and accountability, contributing to improved programme country confidence.
- 1.373 Progress towards the objective is presented in the performance measure below (see figure 1.XXXI).

Figure 1.XXXI

Performance measure: percentage of programme country Governments that indicate that United Nations Sustainable Development Cooperation Frameworks enable United Nations responses to be better aligned to national priorities and Goal advancement

Planned results for 2024

Result 1: countries enabled to mitigate the effects of COVID-19

Programme performance in 2022 and target for 2024

- 1.374 The programme's work contributed to 115 joint workplans of existing and newly developed United Nations Sustainable Development Cooperation Frameworks (or existing United Nations Development Assistance Frameworks) – normally endorsed by the joint United Nations-Government steering committee – being updated to integrate COVID-19 socioeconomic recovery plans into longer-term United Nations programming frameworks. In Barbados, Indonesia, Rwanda, St. Lucia and Uzbekistan, the resident coordinators leveraged the Joint Sustainable Development Goals Fund to support adaptive and inclusive social protection programmes. In Rwanda, these programmes aligned with the national strategy for transformation, including the Rwandan economic recovery plan and the economic recovery fund, and helped to shape the national social protection response and recovery programme, which met the planned target.
- 1.375 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 1.152).

Table 1.152
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
The resident coordinator effectively leads the United Nations emergency development offer to Governments during the COVID-19 pandemic through United Nations socioeconomic response plans and analysis. These plans cover a short- to medium-term development response, paving the way for a more sustainable recovery towards achieving the Sustainable Development Goals	The resident coordinator and the United Nations country team implemented socioeconomic response plans, in alignment with the longer-term United Nations programming frameworks, adjusting programming across country contexts to ensure that COVID-19 recovery is an integral part of a country’s development and Sustainable Development Goal strategy and, by the end of 2021, the response is folded into the joint workplans of the Cooperation Framework (or United Nations Development Assistance Frameworks, where appropriate)	115 joint workplans of existing and newly developed Cooperation Framework (or existing United Nations Development Assistance Frameworks), normally endorsed by the joint United Nations-Government steering committee, were updated to integrate COVID-19 socioeconomic response plans into longer-term United Nations programming frameworks	The resident coordinator and the United Nations country team provide effective support to Governments on achievement of the Sustainable Development Goals by including COVID-19 recovery into newly developed or adjusted ongoing Cooperation Frameworks, with an increasing focus on foresight and proactive risk management and prevention, in line with intergovernmental commitments	Governments receive structured and systematic guidance and support from United Nations country teams, including ideas, trends and risks about the future to anticipate and better prepare for change Cooperation Frameworks incorporate a foresight and proactive risk management approach for design and implementation

Result 2: countries access integrated advice on most transformational policy levers for achievement of the Sustainable Development Goals from the United Nations and relevant partners

Programme performance in 2022 and target for 2024

- 1.376 The programme’s work contributed to 90 per cent of programme country Governments agreeing that the United Nations development system provides integrated policy advice tailored to national needs and priorities, which met the planned target.
- 1.377 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 1.XXXII).

Figure 1.XXXII

Performance measure: percentage of programme country Governments that “agree” that the United Nations development system provides integrated policy advice tailored to national needs and priorities

Result 3: improved transparency and accountability of United Nations country teams’ joint programmatic work on the ground

Proposed programme plan for 2024

- 1.378 Bolstering transparency and accountability has been a key initiative of the United Nations development system reform. The UN-Info digital coordination platform managed by the Development Coordination Office is an important tool for transparency and accountability efforts. It digitizes the operational activities of 130 United Nations country teams under the United Nations Sustainable Development Cooperation Framework and the business operations strategy, enabling United Nations country teams to have all their work done in country to implement the Cooperation Framework captured in one place and to jointly plan and identify synergies and efficiencies, as well as opportunities for joint programmes. Moreover, the UN-Info data feed 132 United Nations country team websites covering 33 languages, the global United Nations Sustainable Development Group website in all 6 official United Nations languages and the new Sustainable Development Group data portal, and the annual United Nations country results reports, including by making data visualization possible in a visually compelling way. Accordingly, it showcases how the United Nations supports Sustainable Development Goal achievement through the priorities agreed upon with the national Government. Going forward, covering all 130 United Nations country teams globally through UN-Info, improving the quality of data and further adding value to United Nations entities and external stakeholders is a priority. Similarly, country-level results will be increasingly aggregated at the global level through the reporting against a minimum set of global, quality-assured indicators to measure the United Nations system-wide contribution to the achievement of the Goals.

Lessons learned and planned change

- 1.379 The key lesson learned in the journey to bolster transparency and accountability is that buy-in from the United Nations country team leadership is necessary to bolster the quality of the country teams’ data available publicly on global and national platforms. In applying the lesson, the resident coordinator system will strengthen technical support to the 130 United Nations country teams to ensure that the United Nations development system entities prioritize UN-Info development data, including their quality assurance, as part of their regular planning. The aggregation of country-level results at the global level through a minimum set of indicators will help to improve the transparency and accountability of the United Nations system-wide contribution to the achievement of the Sustainable Development Goals to key stakeholders, in particular the people whom the United Nations serves.
- 1.380 Expected progress towards the objective is presented in the performance measure below (see figure 1.XXXIII).

Figure 1.XXXIII
Performance measure: number of United Nations country team joint workplans showcased through UN-Info

Legislative mandates

1.381 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

70/1	Transforming our world: the 2030 Agenda for Sustainable Development		of operational activities for development of the United Nations system
71/243 ; 75/233	Quadrennial comprehensive policy review of operational activities for development of the United Nations system	74/238 ; 77/184	Operational activities for development of the United Nations system
72/279	Repositioning of the United Nations development system in the context of the quadrennial comprehensive policy review	76/4	Review of the functioning of the reinvigorated resident coordinator system, including its funding arrangement

Economic and Social Council resolutions

2019/15 ; 2020/23 ; 2022/25	Progress in the implementation of General Assembly resolution 71/243 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system
---	--

Deliverables

1.382 Table 1.153 lists all deliverables of the programme.

Table 1.153

Resident coordinator system: deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Report of the Chair of the United Nations Sustainable Development Group on the Development Coordination Office, including on the contribution of the United Nations Sustainable Development Group to the Sustainable Development Goals	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
2. Meetings of the Fifth Committee	1	1	1	1
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
B. Generation and transfer of knowledge				
Technical materials (number of materials)	323	327	316	336
4. Common country analyses (new or annual update) to inform United Nations planning, programming and contribution to country-level implementation of the 2030 Agenda for Sustainable Development	131	104	131	132
5. United Nations country team reports to the universal periodic review	48	76	45	38
6. Evaluations of United Nations Sustainable Development Cooperation Frameworks	12	14	8	33
7. Annual reports on joint United Nations country team results	131	132	131	132
8. Annual consolidated progress report on the Joint Sustainable Development Goals Fund	1	1	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: consultation with Member States, regional organizations and the private sector on common action in support of development cooperation frameworks; and approximately 6 substantive briefings to Member States.				
D. Communication deliverables				
Digital platforms and multimedia content: UN-Info for use by partners as the central platform for transparency and data relating to the United Nations Sustainable Development Cooperation Framework results.				
Outreach programmes, special events and information materials: the Joint Sustainable Development Goals Fund will develop and launch at least 2 thematic windows to promote and finance thematic Sustainable Development Goal transformations.				
E. Enabling deliverables				
Administration: occupational health and safety for United Nations personnel and dependents; support for the design and implementation of the business operations strategies, common back offices, global shared services and common premises; timely issuance of Secretary-General’s delegation of authority to newly appointed resident coordinators and monitoring of accountability key performance indicators; and monitoring and effective implementation of the most recent management and accountability framework of the United Nations development and resident coordinator system.				
Legal services: negotiation on and conclusion of the legal framework to create an authorizing environment for the reinvigorated resident coordinator system with host countries.				

B. Proposed post and non-post resource requirements for 2024

Overview

- 1.383 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in table 1.154.

Table 1.154

Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2022 expenditure	2023 appropriation	Changes				Total	Percentage	2024 estimate (before recosting)
			Technical adjustments	New/expanded mandates	Other				
Grants and contributions ^a	13 442.5	13 442.5	–	–	–	–	–	13 442.5	
Total	13 442.5	13 442.5	–	–	–	–	–	13 442.5	

^a Represents the Secretariat share of the cost-sharing arrangement in the United Nations Sustainable Development Group, to be disbursed as a grant.

- 1.384 Pursuant to General Assembly resolution [72/279](#), the resident coordinator system is funded through a 1 per cent coordination levy on tightly earmarked non-core contributions to United Nations system development-related activities, a cost-sharing arrangement among the entities of the United Nations Sustainable Development Group and voluntary contributions. In 2024, the Secretariat share of the cost-sharing arrangement for entities of the Sustainable Development Group will remain at \$13,442,500, proposed to be funded from the regular budget. This amount represents no change compared with the appropriation for 2023.
- 1.385 The methodology for the calculation of the participating entity share and the amount for each participating entity is reflected in the report of the Secretary-General on revised estimates relating to the resident coordinator system under section I, Overall policymaking, direction and coordination ([A/73/424](#)). As requested by the General Assembly in its resolution [72/279](#), the cost-sharing methodology was reviewed in 2021 as part of a comprehensive review of the reinvigorated resident coordinator system, including its funding arrangements.
- 1.386 In line with the requests of the General Assembly, in its resolutions [72/279](#) and [77/262](#), to the Secretary-General to report annually to the Economic and Social Council at its operational activities for development segment on the implementation of the reinvigorated resident coordinator system, including its funding, to ensure accountability towards Member States, the Secretary-General has and continues to report annually to the Council on the implementation of the reinvigorated resident coordinator system, including its funding, to ensure accountability towards Member States. In April 2023, the Secretary-General submitted his report on the implementation of resolution [75/233](#) on the quadrennial comprehensive policy review of operational activities for development of the United Nations system ([A/78/72-E/2023/59](#)). In that report, the Secretary-General indicated his intention to request the Assembly, in a dedicated report in the second half of 2023, to reconsider the financing options put forward in the 2021 report entitled “Review of the functioning of the resident coordinator system: rising to the challenge and keeping the promise of the 2030 Agenda” ([A/75/905](#)).
- 1.387 For 2024, resources for the resident coordinator system include the special purpose trust fund and the locally mobilized resources. Under the special purpose trust fund, the resident coordinator system expects to generate a total of \$281.8 million of pooled funding, comprising \$155 million from voluntary contributions, \$77 million from the cost-sharing arrangement and \$50 million from the 1 per cent coordination levy. The distribution of the resources is reflected in tables 1.155 and 1.56. Under the locally mobilized resources, the resident coordinator system anticipates \$8.4 million of earmarked contributions to be received at the country level for activities financed by third parties

Section 1 Overall policymaking, direction and coordination

that are mobilized locally for functions that go beyond the core focus of the special purpose trust fund (reflected in table 1.155 under the country coordination component).

Total	225 634.8	281 826.4	–	–	281 826.4

- 1.388 The overall resource requirements for 2024 amount to \$281.8 million for the special purpose trust fund for the resident coordinator system.
- 1.389 Resource requirements of \$281.8 million under the special purpose trust fund for 2024 are estimated at the same level as 2023 and include cost-neutral redeployments among the objects of expenditure. The redeployments reflect mainly increases of \$9.1 million under general operating expenses to cover the increased costs of rental of premises, utilities and maintenance of facilities, \$2.5 million under consultants as a result of the planned development of resident coordinator leadership capacities and \$0.8 million under travel of staff in the light of the continued easing of global travel restrictions. The increases are offset by decreases in other objects of expenditure, primarily under posts (\$8.3 million), reflecting the application of updated standard costs for posts; other staff costs (\$1.6 million), resulting from the increased recruitment efforts and onboarding of staff; and furniture and equipment (\$1.5 million) and supplies and materials (\$0.6 million), owing mainly to the removal of non-recurrent costs relating to acquisitions made during 2023.
- 1.390 The locally mobilized resources in the amount of \$9.2 million are distributed across the following objects of expenditure: other staff costs (\$4.6 million); consultants (\$2.8 million); travel of staff (\$0.9 million); and general operating expenses (\$0.9 million).
- 1.391 The estimated number of posts for the special purpose trust fund in 2024 is reflected in table 1.157. The estimated number of posts reflects a net increase of 12 posts compared with the 2023 estimates.

Budget by component

Executive direction and management

1.392 The proposed resources under executive direction and management would provide for the Office of the Assistant Secretary-General for Development Coordination. This Office provides strategic planning for the resident coordinator system, supports the Chair, Vice-Chair, principals and working mechanisms of the United Nations Sustainable Development Group and monitors strategic aspects of quadrennial comprehensive policy review implementation and progress-tracking. In addition, it is responsible for managing strategic partner relations and coordinating the engagement of the United

Part I Overall policymaking, direction and coordination

Nations development system with the Executive Committee/Deputies Committee mechanism and for providing oversight and strategic leadership of the Office of the Sustainable Development Group. The Assistant Secretary-General is responsible for the oversight of the 132 resident coordinator offices and the work of 123 Development Coordination Office staff. Two new posts were added under this component (1 P-5 and 1 P-3) to optimize and strengthen leadership capacities and functions, in particular in the areas of resource mobilization, intergovernmental relations and advocacy, as well as to optimize data and analytics capacities in line with the Data Strategy of the Secretary-General for Action by Everyone, Everywhere. One P-4 post was also reclassified to a P-5 post to strengthen the efforts and meet the requirements of results-based management. The distribution of resources is reflected in tables 1.159 and 1.160.

- 1.393 The extrabudgetary resources under the present component are subject to the oversight of the Office, which has delegated authority from the Secretary-General.

Global coordination

1.395 Under global coordination, branches and sections of the Development Coordination Office at Headquarters work with entities and mechanisms of the United Nations Sustainable Development Group to improve the strategic and operational coherence of operational activities for development by fostering system-wide approaches and providing coordinated and, where relevant, integrated policy and strategic guidance to United Nations country teams. Responsibilities under global coordination are implemented by two branches and two sections: the Policy and Programming Branch, the Resident Coordinator System Leadership Branch, the Country Business Strategies Section and the Communications and Results Reporting Section. Seven posts were added under this component: four P-4 posts under the Communications and Results Reporting Section, in response to increasing demands for strategic communications and dynamic results reporting at the country, regional and global levels; and three P-4 posts under the Policy and Programming Branch to strengthen the Sustainable Development Goals transformation agenda and its key transitions and to further drive the implementation of the reform at the regional and country levels.

1.396 The distribution of resources for global coordination is reflected in tables 1.163 and 1.164.

Regional coordination

1.397 The regional coordination function of the resident coordinator system focuses on overseeing and supporting the coherent and effective delivery of operational activities for development by resident coordinators and United Nations country teams through integrated policy programming and operational support, together with the regional teams of the United Nations Sustainable Development Group and the United Nations regional economic and social commissions.

1.398 The distribution of resources for regional coordination is reflected in tables 1.165 and 1.166.

Country coordination

- 1.399 Country coordination consists of the work that resident coordinators undertake with the support of resident coordinator offices in leading United Nations development system support for the implementation of the 2030 Agenda at the country level. This is carried out in line with national priorities, needs and planning frameworks under the ownership and leadership of programme countries, in a coherent, coordinated and, where possible, integrated manner to maximize impact and sustainable development results.
- 1.400 The distribution of resources for country coordination is reflected in tables 1.167 and 1.168 (a) for resources under the special purpose trust fund and in table 1.168 (b) for resources under the locally mobilized resources.

Programme support

1.401 Programme support services are provided by the Resident Coordinator System Business Management Branch in the Development Coordination Office, with the overall objective of managing the operations of the resident coordinator system to ensure full accountability for and oversight of the system. The Branch serves as the Executive Office of the Development Coordination Office and provides daily business services and administrative support to the Office at the global level, including on human resources, information technology, finance, travel, procurement and systems platform management. It is responsible for the development and oversight of and reporting on the Office’s headquarters budget. The Branch manages the operational relationship with the service providers of the resident coordinator system. It advises and provides backstopping support on business services to the Office’s regional desks and resident coordinator offices. It coordinates and oversees resident coordinator system results-based budgeting and regular reporting, including to the Fifth Committee. It is responsible for financial management and financial reporting on all sources of funds for the resident coordinator system. The Branch is also responsible for policy guidance on management accountability and oversight support for the Office in coordination with other offices within the Secretariat. Three new P-4 posts were added to augment the management support function provided to the entire resident coordinator system, principally in the areas of

Section 1 Overall policymaking, direction and coordination

strengthening human resources capacities to effectively serve the resident coordinator system workforce and ensuring the mandated compliance and oversight functions.

1.402 The distribution of resources for programme support is reflected in tables 1.169 and 1.170.

XIV. United Nations Youth Office

Foreword

Today's generation of young people is among the largest, most interconnected and most educated in history, accounting for nearly 1.9 billion people, or 1 in every 4 people globally, with close to 90 per cent of them living in developing countries and nearly 20 per cent living in least developed countries.

At the same time, young people are growing up at a time marked by profound challenges, from conflicts and climate change to persistent inequalities, inadequate education, youth unemployment and the coronavirus disease (COVID-19) pandemic. For example, 244 million children and young people do not have access to education and, slight improvements notwithstanding, the total global number of unemployed young people is estimated to reach 73 million in 2022, 6 million above the pre-pandemic level. Moreover, while digital learning and remote working are now common, 2.2 billion children and young people worldwide do not have access to the Internet at home.

A total of 42 per cent of all forcibly displaced people are under the age of 18. Some 600 million people live in conflict-affected areas, and in many conflict-affected settings young people comprise 60 per cent of the population. Across all these areas, girls and young women are often disproportionately affected, with opportunities even harder to have access to.

However, young people are not passively accepting the world as it is. Instead, they are actively taking the lead in changing it, as innovators, activists and voices of progress. Online, in their communities and in the streets, they are championing the values of equity, justice and international cooperation and demanding that leaders act now to build a better world for all and to protect our planet.

Young people are a key demographic segment for advancing the principles and purposes of the Charter of the United Nations. They play an important role in the promotion of peace and security, sustainable development and human rights, and when meaningfully engaged as full-fledged partners they bring the innovative ideas, expertise and unwavering optimism needed to help us get the world back on track to secure a better future for all.

The establishment of the United Nations Youth Office through General Assembly resolution [76/306](#) will further elevate the global profile of the youth agenda and institutionalize efforts on young people in the United Nations system. The Youth Office will work to further strengthen the ability of the United Nations system to meaningfully engage young people in its work and to coordinate the United Nations system's overall work for and with young people.

(Signed) Jayathma **Wickramanayake**
Secretary-General's Envoy on Youth

A. Proposed programme plan for 2024

Overall orientation

Mandates and background

- 1.403 The United Nations has long recognized that the imagination, ideals and energy of young people are vital for the continuing development of the societies in which they live. In 1965, in its resolution [2037 \(XX\)](#), the General Assembly acknowledged the Declaration on the Promotion among Youth of the Ideals of Peace, Mutual Respect and Understanding between Peoples. In 1995, the Assembly adopted the World Programme of Action for Youth to the Year 2000 and Beyond in its resolution [50/81](#), which provided a policy framework and practical guidelines to improve the situation of young people. In 2007, the Assembly adopted the Supplement to the World Programme of Action for Youth to the Year 2000 and Beyond in its resolution [62/126](#), which provided further guidance on promoting the participation of young people in social and economic development. Since 2015, the Security Council, in its resolutions [2250 \(2015\)](#), [2419 \(2018\)](#) and [2535 \(2020\)](#), has called upon all relevant actors to increase the inclusive representation of young people in the prevention and resolution of conflict, including when negotiating and implementing peace agreements.
- 1.404 In 2013, the Secretary-General appointed the first Envoy on Youth. In 2018, to strengthen the coordination and accountability of the United Nations system with regard to its work on young people, the Secretary-General launched the United Nations Youth Strategy. The General Assembly, in its resolution [76/306](#), decided to establish the United Nations Youth Office as a dedicated office for youth affairs in the Secretariat, integrating the Office of the Secretary-General's Envoy on Youth. The Youth Office is responsible for leading engagement and advocacy for the effective advancement of youth issues across the work of the United Nations and for driving greater action, outreach, collaboration, coordination and accountability across the United Nations system's work on young people in the areas of peace and security, sustainable development and human rights, in all settings. The Youth Office plays a key role in bringing the United Nations closer to young people and young people closer to the United Nations by forging innovative partnerships and initiatives to enhance and systematize the engagement of young people in the work of the Organization, including through United Nations support to Member States in promoting effective youth engagement, participation and empowerment. The mandate derives from the priorities established in relevant resolutions and decisions of the Assembly and the Security Council, including Assembly resolutions [50/81](#), [62/126](#) and [76/306](#) and Council resolutions [2250 \(2015\)](#), [2419 \(2018\)](#) and [2535 \(2020\)](#).

Programme of work

Objective

- 1.405 The objective, to which this programme contributes, is to ensure meaningful engagement of young people in the work of the United Nations and accelerated action at the global, regional and country levels to empower young people around the world, to promote their rights and to address their needs.

Strategy and external factors for 2024

- 1.406 To contribute to the objective, the Youth Office will:
- (a) Lead engagement and advocacy for the advancement of youth issues across the United Nations in the areas of peace and security, sustainable development and human rights, through engagement with Member State representatives, principals of United Nations organs and senior management of United Nations entities and in close consultation with the young people of the world;

- (b) Promote meaningful, inclusive and effective engagement of young people and of youth-led and youth-focused organizations in the work of the United Nations, working in close collaboration across the United Nations system;
- (c) Encourage greater United Nations system-wide collaboration, coordination and accountability on the advancement of youth issues, including United Nations support to Member States, as appropriate and upon request, in promoting the effective and meaningful engagement, participation and empowerment of young people;
- (d) Provide regular updates and support to focal points on young people across the United Nations system and engage United Nations leadership to encourage the identification of additional youth focal points where they do not exist;
- (e) Engage with youth-focused envoys, representatives and offices of regional organizations on advancing youth issues;
- (f) Propose innovative approaches to advance multi-stakeholder initiatives on the engagement and empowerment of young people, for the consideration of Member States, including on quality and inclusive education, decent jobs, skills development, digital transformation and youth-led innovation and solutions;
- (g) Promote and facilitate intergenerational and intercultural dialogue, collaboration and solidarity by creating opportunities for young people to not only share and collaborate among one other, but also engage with Member States, the private sector, academia and the United Nations, including through intergovernmental policy forums;
- (h) Support efforts to enhance youth representation at the United Nations, including through increasing and improving the conditions of internships and employment opportunities for young people, especially for those from developing countries and with due regard to gender balance;
- (i) Support ongoing efforts towards the mobilization of financial and technical support and investment to promote and upscale quality and inclusive education and training, skills development, capacity-building and bridging the digital divide, in tandem with job creation, for young people and creating an enabling environment for harnessing their talents and abilities to contribute to their societies;
- (j) Conduct outreach to young people and to youth-led and youth-focused organizations, through innovative means, including the use of social media, narrative storytelling and audiovisual content, with an emphasis on the creation of multilingual assets and templates, where possible, for dissemination through United Nations country teams and United Nations information centres around the world.

1.407 The above-mentioned work is expected to result in:

- (a) Advancement of youth issues and youth engagement across the United Nations, in the areas of peace and security, sustainable development and human rights;
- (b) Action by Member States and regional organizations to ensure the effective and meaningful engagement, participation and empowerment of young people;
- (c) Amplified youth voices and increased opportunities for young people to contribute to the promotion of a peaceful, just and sustainable world;
- (d) Strengthened intergenerational and intercultural dialogue, collaboration and solidarity;
- (e) Multi-stakeholder initiatives on young people, including on promoting and scaling up quality and inclusive education and training, skills development, bridging the digital divide, job creation and the empowerment of young people;
- (f) Increased and improved youth representation at the United Nations.

- 1.408 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States continue to support the advancement of the situation of young people around the world, including in the implementation of the 2030 Agenda, the Addis Ababa Action Agenda, the Paris Agreement and the Sendai Framework for Disaster Risk Reduction 2015–2030, among other relevant international frameworks and agreements, and the attainment of the Universal Declaration of Human Rights;
 - (b) Sustained recognition by the global community of the important role that young people play in the promotion of peace and security, sustainable development and human rights;
 - (c) There is adequate extrabudgetary resources for action on young people and for ensuring meaningful youth engagement across the United Nations system, national, regional and global institutions and organizations, and initiatives.
- 1.409 With regard to cooperation with other entities at the global, regional, national and local levels, the Youth Office will continue the collaboration established by the Envoy on Youth and her Office with regional and national youth envoys and regional organizations such as the African Union, the Association of Southeast Asian Nations, the Caribbean Community, the European Union, the Organization for Security and Cooperation in Europe, the League of Arab States and the Pacific Island Forum. The Youth Office will also prioritize the forging of new relationships and the strengthening of existing ones with relevant youth organizations, civil society organizations, academia and the private sector.
- 1.410 With regard to inter-agency coordination and liaison, the Youth Office will continue to mobilize United Nations entities and United Nations country teams for improved coordination, collaboration and accountability on youth work across the United Nations system. The Youth Office will collaborate with the Department of Global Communications and other United Nations entities through the United Nations Youth Strategy communications group. The Youth Office will work with the Department of Management Strategy, Policy and Compliance, the Department of Operational Support and other members of the Strategy task team to improve internships and employment opportunities across the United Nations system. The Youth Office will partner with Office of the Envoy of the Secretary-General on Technology, UNICEF, the International Telecommunication Union, the Department of Global Communications, the Department of Economic and Social Affairs and the Office of Information and Communications Technology to address digital transformation challenges for young people and reduce the digital divide. The Youth Office will also contribute regularly to the work of various inter-agency working groups and will provide secretariat support to the inter-agency high-level steering committee and joint working group responsible for advancing coherent action by the United Nations system on youth-related matters.
- 1.411 The Youth Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate, by ensuring the meaningful participation of girls and young women in United Nations processes and intergovernmental decision-making, facilitating intergenerational discussions on women’s leadership within and outside the United Nations, promoting the integration of a gender perspective into youth inclusion and youth-led action by supporting platforms such as Young Leaders for the Sustainable Development Goals and the Youth Advisory Group on Climate Change and the principle of leaving no young person behind, and promoting discussions on sexual and reproductive health and rights as an integral part of the youth agenda.
- 1.412 In line with the United Nations Disability Inclusion Strategy, the Youth Office will advocate the meaningful participation of young persons with disabilities in the work of the United Nations. In consultation with young people with disabilities and their networks and organizations, the Youth Office will mainstream disability inclusion into all aspects of its work, with the aim of ensuring accessibility to opportunities, information and events, to the greatest extent possible. The Youth Office will co-chair the United Nations Youth Strategy disability task team within the overall system-wide coordination efforts on young people. As part of the task team’s work, the Youth Office will

disseminate the research findings on young people with disabilities conducted in 2023 and will advocate the implementation of the recommendations stemming from the research.

Planned results for 2024

Result 1: strengthened system-wide action for and with young people to address their needs, amplify their voices and advance their meaningful engagement

Proposed programme plan for 2024

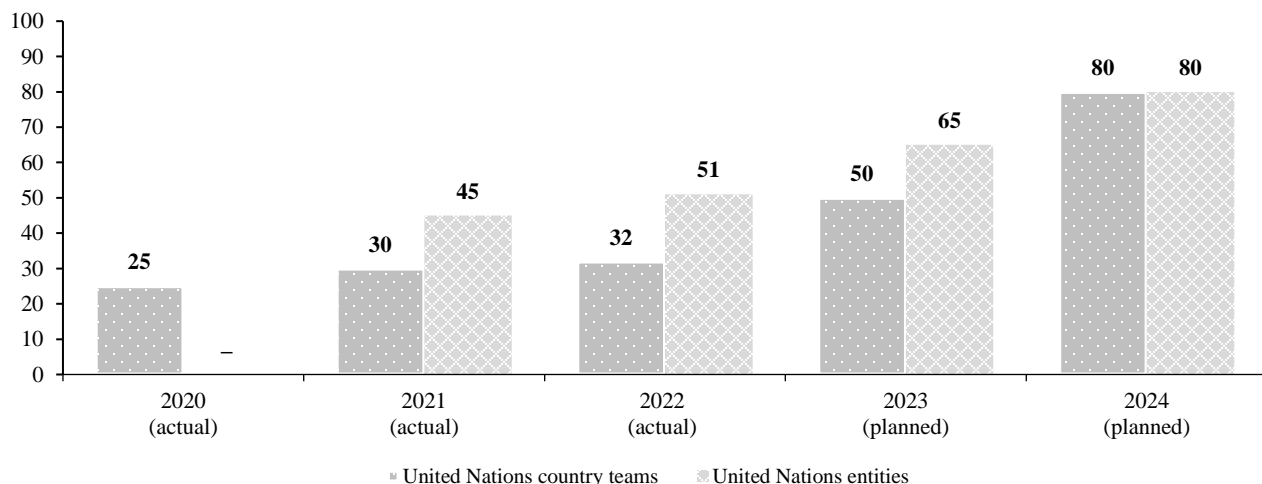

- 1.413 The United Nations Youth Strategy acts as an umbrella framework to guide the United Nations system in its work with and for young people and is intended to ensure that the United Nations work on youth issues is pursued in a coordinated, coherent and holistic manner. Under the overall framework of the Strategy, the Office of the Secretary-General's Envoy on Youth has worked closely with entities across the United Nations system to establish the foundations for system-wide implementation of the Strategy, including scorecards for performance measurement and accountability, mechanisms to institutionalize reporting on progress, and a range of knowledge products and toolkits. The United Nations Youth Office will continue this work by providing strategic guidance, capacity-building, knowledge management products and data analysis across the United Nations system to support the implementation of the Strategy.

Lessons learned and planned change

- 1.414 The lesson for the Youth Office was that engagement in inter-agency coordination mechanisms on young people was higher at the global and regional levels compared with the country level. In applying the lesson, the Youth Office will build on the work of the Office of the Secretary-General's Envoy on Youth and further engage with the Development Coordination Office, offices of the resident coordinator and members of the United Nations Sustainable Development Group to ensure implementation, coordination and joint programming at the country level for and with young people. The Youth Office will work to ensure that its support responds to the needs and gaps identified at the country level, including by providing an annual snapshot of progress made on young people by each United Nations country team and United Nations entity, undertaking country and regional visits, and documenting good practices and lessons learned from across the United Nations system. The Youth Office will also operate existing coordination mechanisms, comprising 130 United Nations country teams and 55 United Nations entities, to ensure coordinated United Nations support for young people at the country level that is aligned with the priorities set forth in the United Nations Sustainable Development Cooperation Frameworks.
- 1.415 Expected progress towards the objective is presented in the performance measure below (see figure 1.XXXIV).

Figure 1.XXXIV

Performance measure: percentage of United Nations country teams and United Nations entities that achieved a “green” performance rating for at least 80 per cent of all key performance indicators in the United Nations Youth Strategy scorecard^a

^a The scorecard covers 18 key performance indicators for United Nations entities and 19 for United Nations country teams related to United Nations Youth Strategy priority areas to assess progress made in the implementation of the Strategy. A “green” performance rating for a key performance indicator indicates achievement of the established milestone.

Legislative mandates

1.416 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

<p>50/81</p> <p>62/126</p>	<p>World Programme of Action for Youth to the Year 2000 and Beyond</p> <p>Policies and programmes involving youth: youth in the global economy – promoting youth participation in social and economic development</p>	<p>76/306</p>	<p>Establishment of the United Nations Youth Office</p>
--	---	-------------------------------	---

Security Council resolutions

<p>2250 (2015)</p> <p>2419 (2018)</p>	<p>2535 (2020)</p>
---	------------------------------------

Deliverables

1.417 Table 1.171 lists all deliverables of the programme.

Table 1.171

United Nations Youth Office: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	–	–	2	2
1. Report of the Secretary-General to the General Assembly on the activities of the United Nations Youth Office	–	–	1	1
2. Report of the Secretary-General to the Security Council on youth, peace and security	–	–	1	1
Substantive services for meetings (number of three-hour meetings)	–	–	10	10
3. Economic and Social Council youth forum	–	–	6	6
4. Meetings of the Security Council	–	–	1	1
5. Meetings of the Conference of State Parties to the Convention on the Rights of Persons with Disabilities	–	–	1	1
6. Meetings of the Advisory Committee on Administrative and Budgetary Questions	–	–	1	1
7. Meetings of the Fifth Committee	–	–	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	–	–	13	16
8. Training events for the Young Leaders for the Sustainable Development Goals	–	–	1	1
9. Training and workshops on the United Nations Youth Strategy	–	–	12	15
Publications (number of publications)			1	2
10. Progress report on the implementation of the United Nations Youth Strategy	–	–	1	1
11. Research report on young people with disabilities	–	–	–	1
Technical materials (number of materials)	–	–	2	4
12. Guidance on scorecards for United Nations country teams and United Nations entities on the United Nations Youth Strategy	–	–	1	1
13. Action guide for implementation of the United Nations Youth Strategy	–	–	1	1
14. Guidance for monitoring system-wide efforts on young people	–	–	–	1
15. Toolkit for young people briefers on engagement with United Nations bodies and mechanisms on peace and security	–	–	–	1
C. Substantive deliverables				
Consultation, advice and advocacy: 2 briefings for all Member States; 5 country visits and bilateral meetings with ministers responsible for young people and other high-level government officials; consultation with national and regional youth envoys; annual strategic meeting of the high-level steering committee of the United Nations Youth Strategy; and advocacy and policy round tables on enhancing youth representation at the United Nations.				
Databases and substantive digital materials: United Nations Youth Strategy scorecard reporting system and dashboard; and United Nations Youth Strategy online toolkit platform.				
D. Communication deliverables				
Outreach programmes, special events and information materials: “Youth 2030 Pulse” monthly newsletter; commemoration of International Youth Day, including partner advocacy campaigns, World Youth Skills Day and other relevant international days and observances; and launch events for new cohort of Young Leaders for the Sustainable Development Goals and for publications and reports of the United Nations Youth Office.				
Digital platforms and multimedia content: United Nations Youth Office website and social media accounts with regular updates on issues relevant to young people; and social media takeover campaigns with youth and youth-led networks.				

B. Proposed post and non-post resource requirements for 2024

Overview

1.418 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.172 to 1.174.

Table 1.172

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Technical adjustments

- 1.421 As reflected in tables 1.175 (1) and 1.176 (1), resource changes represent an increase of \$1,257,000, relating to the delayed impact of 16 new posts that were established in 2023 pursuant to General Assembly resolution 76/306, with a vacancy rate of 50 per cent.

Extrabudgetary resources

- 1.422 As reflected in tables 1.175 (2) and 1.176 (2), extrabudgetary resources amount to \$961,200. The resources would complement regular budget resources and support the delivery of its mandates. The resources would be used mainly to strengthen capacity and support in the areas of youth political participation and advancement of the youth, peace and security agenda, and enable the Office to continue to commission and support research in youth-related areas and to facilitate dialogue with and for young people in various thematic areas pertinent to them.
- 1.423 The extrabudgetary resources under the present section are subject to the oversight of the Youth Office, which has delegated authority from the Secretary-General.
- 1.424 Information on the timely submission of documentation and advance booking of air travel is reflected in table 1.178.

XV. Office of data protection and privacy

A. Proposed programme plan for 2024

Overall orientation

Mandates and background

- 1.425 It is proposed that an office of data protection and privacy be established as an independent office responsible for assisting the Secretariat in ensuring respect for data protection and privacy in the use and processing of personal data by Secretariat entities, consistent with United Nations mandates. The mandate of the office derives from the priorities established in relevant General Assembly resolutions and decisions. The first recognition of the right to privacy in contemporary international law was enshrined in article 12 of the Universal Declaration of Human Rights. Subsequently, article 17 of the International Covenant on Civil and Political Rights and article 16 of the Convention on the Rights of the Child provided for specific rights not to be “subjected to arbitrary or unlawful interference with [one’s] privacy, family, home or correspondence”. The relevance of these rights in the digital sphere was recognized by the Assembly in 1989 and in 1990, when it adopted, respectively, resolutions [44/132](#) on guidelines for the regulation of computerized personal data files and [45/95](#) on guidelines for the regulation of computerized personal data files, for both Member States and international organizations. The Assembly has since continued to consider this issue actively, including through its resolutions [68/167](#), [69/166](#), [71/199](#), [73/179](#) and [75/176](#), by which it reaffirmed the right to privacy in the digital age.
- 1.426 All Secretariat entities, both at Headquarters and away from Headquarters, handle some degree of personal data in carrying out their diverse activities, all of which arise from their relevant mandates. Thematic, operation-oriented approaches to data protection and privacy have emerged over time in the light of the mandated activity for which each set of data is held. Among others, the Organization has developed internal rules and policies that apply to the privacy and protection of data concerning, for example, the staff of the Organization and other personnel, vulnerable populations (e.g., refugees and migrants), vendors, delegates and conference attendees. More recently, in an effort to create a more harmonized approach to data protection and privacy within the United Nations system organizations and keep up to date with best practices, the High-level Committee on Management adopted the personal data protection and privacy principles in 2018, setting out a basic framework for the processing of personal data by or on behalf of the United Nations system organizations in carrying out their mandated activities. The principles are intended to harmonize standards for data protection and privacy across the United Nations system, facilitate the accountable processing of personal data and ensure respect for the human rights and fundamental freedoms of individuals, in particular the right to privacy.
- 1.427 The 2020 Data Strategy of the Secretary-General for Action by Everyone, Everywhere highlighted data protection and privacy as a priority for the Organization, which initiated a process aimed at comprehensively improving data protection and privacy policies in the Secretariat, consistent with best practices. As part of that effort, the issuance of a Secretary-General’s bulletin to establish an overarching data protection and privacy policy for the Secretariat is envisaged, which will be aimed at facilitating the further implementation of the personal data protection and privacy principles and ensuring that personal data are processed in a non-discriminatory, gender sensitive manner, for purposes consistent with United Nations mandates and in a manner that respects the rights of individuals and groups. The bulletin will foster a comprehensive, coherent and cross-cutting approach to data protection and privacy at the Secretariat with regard to all its activities, both at Headquarters and away from Headquarters. It is also intended to serve as a basis for the harmonization of data protection and privacy policies across United Nations system organizations and the creation of an environment that facilitates the responsible flow, use and sharing of data in support of United Nations mandates.

- 1.428 As part of this improvement, the creation of a centralized data protection and privacy governance model to provide effective oversight, coordination and guidance on data protection and privacy management has emerged as a crucial component of a data protection and privacy framework and includes the establishment of an office of data protection and privacy that would support and monitor compliance with relevant rules, regulation, processes and policies of the Secretariat.

B. Proposed post and non-post resource requirements for 2024

Overview

1.429 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 1.179 to 1.181.

Table 1.179

Evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2022 expenditure	2023 appropriation	Changes				2024 estimate (before recosting)

Total	–	–	–	4	4	4

1.430 Additional details on the distribution of the proposed resources for 2024 are reflected in tables 1.182 to 1.184 and figure 1.XXXVI.

1.431 As reflected in tables 1.182 and 1.183, the overall resources proposed for 2024 amount to \$851,300 before recosting and reflect an increase of \$851,300 compared with 2023. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Overall resource changes

Other changes

1.432 As reflected in table 1.182, resource changes reflect an increase of \$851,300 owing to the proposed establishment of an office of data protection and privacy as part of a process to comprehensively improve data protection and privacy practices at the Secretariat and facilitate the further implementation of the personal data protection and privacy principles. As part of the effort to enable centralized and effective oversight, governance, coordination and guidance on data protection and

privacy management at the Secretariat, it is proposed that the office be established under section 1, Overall policymaking, direction and coordination.

- 1.433 The functions of the Office would include the following:
- (a) Providing independent and impartial advice and support to the Secretary-General and entities on the measures to be taken to ensure compliance with the data protection and privacy rules, regulations, processes and policies of the Secretariat;
 - (b) Liaising with designated focal points in each entity, as required;
 - (c) Establishing and maintaining a reporting mechanism for receiving and disseminating requests made by individuals about their personal data;
 - (d) Chairing an internal data protection and privacy committee and supervising and managing the committee's secretariat;
 - (e) Developing training;
 - (f) Maintaining relevant documentation of information;
 - (g) Advising on measures to be taken to ensure compliance with data protection and privacy rules, regulations, processes and policies of the Secretariat in relation to Secretariat-wide systems and controls;
 - (h) Working with the Office of Information and Communications Technology, including in the development of data protection and privacy by design approaches;
 - (i) Reviewing the processing of data that fall within the scope of applicable data protection and privacy rules, regulations, processes and policies of the Secretariat;
 - (j) Monitoring and reporting to the Secretary-General on compliance with data protection and privacy rules, regulations, processes and policies of the Secretariat;
 - (j) Taking any other action necessary for compliance with and implementation of data protection and privacy rules, regulations, processes and policies of the Secretariat.
- 1.434 The increase of \$851,300 includes an increase of \$431,700 under posts, for the proposed establishment of four posts, comprising 1 D-2 (Chief Data Protection and Privacy Officer), 1 P-4 (Data Protection and Privacy Officer), 1 P-3 (Data Protection and Privacy Officer) and 1 General Service (Other level) (Administrative Assistant) (see annex III).
- 1.435 The increase of \$419,600 under non-posts reflects mainly provisions of \$147,600 under other staff costs for the proposed establishment of one temporary position of Associate Data Analyst (P-2) to support the implementation and management of compliance tools and solutions for data protection and privacy management and support the generation of strategic insights for the office during the initial phase of the establishment of the office; \$61,000 under consultants to provide expertise on data protection and privacy issues, \$157,400 under contractual services to cover the maintenance and hosting of compliance tools and solutions for data protection and privacy management, and related non-post resources to support the proposed establishment of four posts and one general temporary assistance position.
- 1.436 Information on the timely submission of documentation and advance booking for air travel is reflected in table 1.185.

Annex II

Summary of follow-up action taken to implement relevant recommendations of the advisory and oversight bodies

Resident coordinator system

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions (A/77/7)

The Advisory Committee trusts that the Secretary-General will provide an update regarding the status of expenditure to the General Assembly at the time of its consideration of the present report. The Committee also trusts that future budget submissions will include comprehensive data on the resources collected by the Development Coordination Office and the status of expenditure (para. I.19).

The Advisory Committee recalls that General Assembly resolution 72/279 provides for the three funding sources for the resident coordinator system and trusts that more information will be provided to the Assembly on locally mobilized resources, including the authority delegated to resident coordinators under the Secretary-General's bulletin (ST/SGB/2019/2) (see para. I.33 below). The Committee recommends that the Assembly request the resident coordinator system (Development Coordination Office) to consolidate and provide to Member States information on system-wide resources for the implementation of the 2030 Agenda for Sustainable Development at the country and global levels and an update in the next programme budget submission (para. I.23).

The Advisory Committee recalls that it has previously noted the increase in higher-level posts in headquarters locations (A/76/7 and A/76/7/Corr.1, para. I.28). The Committee recommends that the General Assembly request the Secretary-General to review the staffing distribution of the resident coordinator system at global, regional and country levels, in order to augment its field-based presence and reduce its presence at headquarters locations. The Committee further notes that such a redistribution would also have an impact on prioritizing programme delivery and reducing the need for travel resources (para. I.25).

Information on expenditure by object of expenditure is included in the present report under section XIII.

Information on locally mobilized resources, including by object of expenditure, is included in the present report under section XIII.

The estimated number of posts funded from the special purpose trust fund in 2024 is reflected in table 1.157 of the present report. The estimated number of posts for 2024 reflects a change in one higher-level post (from D-2 to Assistant Secretary-General), which will be presented to the Advisory Committee for its concurrence, in line with General Assembly resolution 35/217.

The Advisory Committee trusts that the recruitment policy of the resident coordinator system will ensure the equal treatment of internal and external candidates, in a transparent selection process. The Committee also trusts that an update on the differences between the recruitment policy and process of the resident coordinator system and the Staff Regulations and Rules of the United Nations will be provided in the next programme budget submission (para. I.26).

The Advisory Committee notes the continued increase in proposed staffing, including high-level posts, despite a significant number of high-level vacancies. With respect to higher-level posts, the Committee reiterates that it considers that the proposals are presented for information purposes only and, in accordance with General Assembly resolution [35/217](#), will be reviewed during the upcoming consideration of the report of the Secretary-General for the extension of the resident coordinator system extrabudgetary-funded posts at the D-1 and above level in its fall session ([A/76/7](#) and [A/76/7/Corr.1](#), para. I.28) (para. I.27).

The Advisory Committee trusts that an appropriate governance and accountability mechanism is in place to ensure the equitable recruitment of internal and external candidates (see para. I.33 below) (para. I.28).

The Advisory Committee encourages the continued cooperation between the resident coordinator system and peacekeeping and special political missions and trusts that more information will be provided in the next proposed programme budget (para. I.29).

For the resident coordinator selection process, the accountability mechanism is embedded in administrative instruction [ST/AI/2022/1](#) to ensure the equitable recruitment of internal and external candidates. It is specified in section 3.3 of the administrative instruction that “the resident coordinator pool application process is open to internal applicants from United Nations system organizations as well as external applicants”.

Any changes to posts at the D-1 level and above will be presented to the Advisory Committee for its concurrence, in line with General Assembly resolution [35/217](#).

Both the recruitment of resident coordinators and other non-resident coordinator staff is governed by administrative instruction [ST/AI/2010/3/Rev.1](#), which contains several provisions that ensure the equitable recruitment of internal and external candidates, including section 6.1 on eligibility to apply for job openings, section 7.1 on the basis of candidate screening and section 8.1 on the basis of the central review bodies’ review and compliance assurance of the recruitment process.

In addition to the substantive cooperation on planning, analysis and programming as noted in the report of the Advisory Committee ([A/77/7](#)), the resident coordinator system’s cooperation with peacekeeping and special political missions also exists in terms of budgetary, organizational and working arrangement perspectives.

In line with General Assembly resolution [59/296](#), the resident coordinator system special purpose trust fund funds 50 per cent of the cost-share of 12 triple-hatted resident coordinators who serve as Humanitarian Coordinators and Deputy Special Representatives of the Secretary-General.

Furthermore, there are integrated offices in Afghanistan, the Democratic Republic of the Congo, Somalia, South Sudan and the Sudan. It is foreseen that the integrated offices will be supported by the existing structures of the resident coordinator’s office, as well as working-level support in the integrated offices.

Section 1 Overall policymaking, direction and coordination

Brief description of the recommendation

The Advisory Committee trusts that an update on the design and use of local shared service centres will be included in the next proposed programme budget (para. I.31).

The Advisory Committee trusts that more information will be provided in the next budget submission on the achievement of cost avoidance and the use of resources thereby made available, as compared with the assessment of cost savings to achieve efficiency gains (para. I.32).

Taking these matters into consideration, the Advisory Committee recommends that the General Assembly request the Secretary-General to analyse the full budget of the resident coordinator system and present it for possible consideration through the established budgetary procedures in a unified mechanism for intergovernmental oversight, including the cost-sharing arrangement, bearing in mind the provisions of Assembly resolution [72/279](#). The Committee also reiterates that it sees merit in further strengthening the role of oversight and accountability mechanisms in view of the authority delegated to resident coordinators and the overall resident coordinator system at the national, regional and global levels (see [A/75/7](#) and [A/75/7/Corr.1](#), para. I.47) (para. I.33).

Action taken to implement the recommendation

The Business Innovations Strategic Results Group of the United Nations Sustainable Development Group has six common back offices under development, in Brazil, Kenya, Jordan, Senegal, the United Republic of Tanzania and Viet Nam. It is anticipated that the first common back offices will have their design completed and begin to make the transition to becoming operational in mid-2023.

The United Nations Sustainable Development Group approved a revised efficiency road map in August 2022 which outlines the immediate priorities for 2023–2024. In addition, the efficiency dashboard provides an overview of efficiency gains reported by all entities. The efficiencies for the 2022 period will be available in the dashboard once the 2023 report of the Secretary-General is published, prior to the 2023 Economic and Social Council operational activities for development segment. The efficiency dashboard is available at https://data.uninfo.org/home/_Effstatus.

The General Assembly, in its resolution [75/252](#), also recalled its resolution [72/279](#) and reaffirmed its request to the Secretary-General to report annually to the Economic and Social Council at its operational activities for development segment on the implementation of the reinvigorated resident coordinator system, including its funding, to ensure accountability towards Member States.

The Economic and Social Council operational activities for development segment is the body responsible for the oversight of and guidance on the reinvigorated resident coordinator system, in line with Council prerogatives in follow-up to quadrennial comprehensive policy review resolutions and as guided by General Assembly resolution [72/279](#) on repositioning the United Nations development system. In paragraph 17 of its resolution [72/279](#), the Assembly requested the Chair of the United Nations Sustainable Development Group to report to the Council at its operational activities for development segment. Further to the decision of Member States, the Council, on an annual basis, receives for its consideration, from the Chair of the Sustainable Development Group, a comprehensive report, including on the operational administrative and financing aspects of the activities related to the resident coordinator system, in fulfilment of the resident coordinator's accountability to Member States through the Council in its governance function.

Brief description of the recommendation

Action taken to implement the recommendation

Taking into account the system-wide coordination role of the resident coordinator system and its cost-shared funding mechanism, as well as the nature of other entities with jointly financed administrative activities, such as the Joint Inspection Unit and CEB, the Advisory Committee considers that there is merit in presenting the resident coordinator system under section 31, Jointly financed administrative activities, of the programme budget (para. I.34).

In addition to the oversight role of the Economic and Social Council, the Secretary-General endorses the full budget of the new resident coordinator system, including the level and number of posts, and any changes to the cost-sharing formula. The annual budget, including the Secretariat's share that is proposed to be charged under the regular budget, is presented to the General Assembly through the Advisory Committee. Furthermore, all posts proposed at the D-1 level and above are presented to the Committee for its concurrence. Lastly, the Secretariat is accountable to the contributors to the special purpose trust fund through the annual financial report.

With regard to oversight mechanisms within the Secretariat, the resident coordinators report directly to the Secretary-General, with day-to-day management by the Development Coordination Office. This represents a clear accountability line and is one of the main improvements brought about through the United Nations development system reforms. Before this, there was no clarity on reporting lines and accountabilities in the resident coordinator system.

With respect to double- or triple-hatted country contexts, the humanitarian coordinator functions continue to report to the Under-Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator in contexts in which international humanitarian assistance is required and no separate Humanitarian Coordinator or lead agency is designated. The Deputy Special Representative of the Secretary-General reports to the Special Representative of the Secretary-General in contexts in which peacekeeping or special political missions are deployed. This helps to ensure a clear separation of the functions and mandates between pillars, while ensuring coherence with double- and triple-hating arrangements.

In line with General Assembly resolution [72/279](#) and as reaffirmed by the Assembly in its resolution [73/279](#), "the focus of the resident coordinator system should remain sustainable development, with the eradication of poverty in all its forms and dimensions as its overarching objective, consistent with the integrated nature of the 2030 Agenda for Sustainable Development and in line with the United Nations Development Assistance Framework and national leadership and ownership". In the same resolution, the Assembly also decided to provide sufficient funding to the resident coordinator system through three funding streams, including a 1 per cent coordination levy, doubling the United Nations Development Group cost-sharing arrangement among United Nations development system entities, and voluntary, predictable and multi-year contributions to a dedicated trust fund.

Section 1 Overall policymaking, direction and coordination

Brief description of the recommendation

Action taken to implement the recommendation

Substantively, the mandate of the resident coordinator system, through the coordination of operational development activities in country, also provides direction and leadership to the United Nations development system, with the 130 resident coordinators being the designated representatives of the Secretary-General for development operations at the country level. The mandate of the resident coordinator system is distinctively different from the system-wide administrative role of the United Nations System Chief Executives Board for Coordination or the Joint Inspection Unit and is more in line with section 1 of the programme budget.

With regard to the funding model, the resident coordinator system is composed of three streams of funding, of which only one is a cost-sharing arrangement between the United Nations Sustainable Development Group entities, accounting for only 28 per cent of the overall \$281 million budgetary requirement of the resident coordinator system. The other two streams, namely, the 1 per cent coordination levy and voluntary contributions, account for the remaining 72 per cent of the budget requirement. Therefore, the funding model is also distinctively different from the jointly financed model of the United Nations System Chief Executives Board for Coordination or the Joint Inspection Unit.

United Nations Youth Office

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions (A/77/605)

The Advisory Committee trusts that the integration process will take place expeditiously to avoid duplication of efforts and resources and that information on the activities to be carried over by the United Nations Youth Office will be included in the next programme budget submission (para. 10).

As the administrative arrangements and staff recruitment process of the new United Nations Youth Office have been advancing, the Office of the Envoy of the Secretary-General on Youth has expeditiously advanced the core mandate of the Youth Office without any duplication of efforts or resources.

Following a mapping of the activities of the Office of the Envoy that align with the Youth Office's mandate in line with General Assembly resolution [76/306](#), implementation has been proceeding with regard to important initiatives and mandates. This includes work relating to system-wide collaboration, coordination and accountability; support provided to the President of the Economic and Social Council and the Department of Economic and Social Affairs in the organization and implementation of the Council's

The Advisory Committee trusts that the Head of the Youth Office will engage with the United Nations entities to enhance coordination and harmonize youth-related activities with a view to avoiding duplication of efforts and resources, and that the Secretary-General will provide an update on the Office's work in the next programme budget report (para. 12).

youth forum; preparation of the Secretary-General's policy brief on meaningful youth engagement in policymaking and decision-making processes; youth engagement in the Sustainable Development Goals Summit; disability inclusion research; and work related to enhancing opportunities for youth representation in the United Nations through internships and employment opportunities.

In 2023, during the transition phase, the Office of the Envoy of the Secretary-General on Youth has engaged with United Nations entities and United Nations country teams under the overall framework of the United Nations system-wide strategy on youth.

Enhanced coordination, coherence and harmonization of youth-related activities across the United Nations system continue to be the focus through:

- (a) Regular convening and chairing of:
 - (i) The high-level steering committee of the United Nations system-wide strategy on youth, consisting of 15 United Nations entities (including the Development Coordination Office) represented at the Assistant Secretary-General level;
 - (ii) The Joint working group comprising 41 focal points on young people, including from 18 United Nations entities;
 - (iii) Specific task teams on strategic and emerging areas, youth with disabilities and strengthening internships;
- (b) Coordination and engagement with 130 United Nations country teams at strategic moments of country-level work, including during:
 - (i) Common country analyses;
 - (ii) The design phase of United Nations Sustainable Development Cooperation Frameworks;
 - (iii) Annual joint workplan implementation.

Action in these areas is expected to be stepped up further in 2024, including through: (a) strengthened engagement in and coordination of the implementation of the United Nations system-wide strategy on youth; and (b) the launch of the third global progress report on the United Nations system-wide strategy on youth.

Section 1 Overall policymaking, direction and coordination

Brief description of the recommendation

The Advisory Committee encourages efforts to enhance youth representation at the United Nations, including through internships and employment opportunities, especially for youth from developing countries, as part of an effort to rejuvenate the Organization. The Committee trusts that updated information on the related activities will be provided in the next report (para. 17).

Action taken to implement the recommendation

In 2023, as part of the transition phase, the Office of the Envoy of the Secretary-General on Youth contributed to the Organization's rejuvenation efforts and to enhancing youth representation at the United Nations in the following areas:

- (a) Tracking progress made by United Nations country teams and United Nations entities against two key indicators, namely, expanding opportunities and improving fairness and quality of internships (especially for young people from developing countries), and increasing the proportion of young people (35 years of age and under) in their workforce. Data and insights on the above will be included in the third global progress report, which will be launched at a side event during the 2023 high-level political forum on sustainable development;
- (b) Accelerating the inter-agency work on internships through the task team on strengthening internships, together with the Office of Human Resources, the Department of Management Strategy, Policy and Compliance and the Department of Operational Support, and working towards the finalization of the report on the status of internships in select entities in the United Nations, in which strengths and gaps regarding internships across select United Nations entities are identified and the way forward is outlined in line with the benchmarks proposed in the Joint Inspection Unit review of internship programmes in the United Nations system ([JIU/REP/2018/1](#)).

Plans for the rest of 2023 and for 2024 are as follows:

- (a) Launch of the report on the status of internships in select entities in the United Nations in September 2023;
 - (b) Continued acceleration of the inter-agency work on internships under the United Nations system-wide strategy's task team on strengthening internships, and expanding the scope of the task team to include work on improving the proportion of young people in the United Nations workforce.
-

Annex III

Summary of proposed changes in established and temporary posts, by component

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
Office of the Director-General, United Nations Office at Nairobi	1	P-5	Establishment of 1 post of Senior Political Affairs Officer (P-5)	The proposed establishment would support the expanded role of the Director-General in political and preventive diplomacy in the context of the increasing importance of Kenya as the hub for various activities, including political, humanitarian and development activities, in the region and strengthen the capacity of the Office of the Director-General to deliver more effectively and comprehensively against its roles and responsibilities. The incumbent will, among others, advise the Director-General on political, socioeconomic and development issues in the region and provide support to the Director-General's regular political engagements with Member States, international and regional organizations, civil society, academia, the private sector and other stakeholders.
Office of the Special Representative of the Secretary-General for Children and Armed Conflict	1	P-5	Conversion of 1 post of Senior Political Affairs Officer (P-5)	The proposed conversion of the post of Senior Political Affairs Officer, previously funded from extrabudgetary resources, follows a notable increase in the work of the Office of the Special Representative of the Secretary-General for Children and Armed Conflict over the past two years. The number of country situations covered by the mandate of the Office has increased from 19 to 24 and the work implications of these 24 countries are and will remain particularly heavy and demanding for the foreseeable future, with, among others, numerous engagements with parties to the conflict and capacity-building of Member States, United Nations bodies and agencies and regional organizations. The added workload will continue to require elaborate and complex analysis and sensitive political engagements with a high level of confidentiality. A securely funded post of a Senior Political Affairs Officer in the front office of the Special Representative, dedicated to engagement with parties to the conflict, is essential for adequately pursuing the mandate of the Office.
	(1) 1	P-4 P-4	Reassignment of 1 post of Programme Management Officer as a Political Affairs Officer (P-4)	The proposed reassignment better reflects the functions of the post, which have evolved over time to better serve the needs of the Office of the Special Representative of the Secretary-General for Children and Armed Conflict. The functions of the post include research, analysis and monitoring of information gathered from diverse sources; maintaining up-to-date knowledge of events relating to regional issues; assisting in policy development, including the review and analysis of issues and trends; the preparation of evaluations or other research activities and studies; the preparation of various written outputs, including draft background papers, draft reports, analytical papers, input to speeches, briefing notes, thematic and country specific reports of the Secretary-General, and other documents, as required.

Section 1 Overall policymaking, direction and coordination

<i>Component</i>	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
Office of data protection and privacy	4	1 D-2, 1 P-4, 1 P-3 and 1 GS (OL)	Establishment of 1 Chief Data Protection and Privacy Officer (D-2), 1 Data Protection and Privacy Officer (P-4), 1 Data Protection and Privacy Officer (P-3) and 1 Administrative Assistant GS (OL)	<p>The office of data protection and privacy would be led by the Chief Data Protection and Privacy Officer (D-2), who would oversee the development and implementation of the data protection and privacy rules, regulations, processes and policies of the Secretariat and would report to the Secretary-General. The Chief Data Protection and Privacy Officer would be responsible for fulfilling the functions assigned to him or her and ensuring that the office is able to deliver on the functions listed in paragraph 1.433 of the present report. The related functions would include providing independent advice and support to Secretariat entities on data protection and privacy compliance, establishing and maintaining a mechanism for receiving and disseminating requests made by individuals about their personal data, chairing the data protection and privacy committee, developing training materials, maintaining records of information, monitoring and reporting on data protection and privacy compliance by Secretariat entities and issuing recommendations to strengthen data protection and privacy at the Secretariat. The Chief Data Protection and Privacy Officer would also be responsible for bringing to the attention of senior management issues of a general concern, including recommendations to strengthen data protection and privacy regulations, rules, procedures and policies of the Secretariat, and representing the Secretariat in the United Nations system on issues related to data protection and privacy to strengthen collaboration with United Nations counterparts to promote the coherence and harmonization of data protection and privacy across the United Nations system organizations, consistent with best practices.</p> <p>The Chief Data and Protection and Privacy Officer would be supported by two posts of Data Protection and Privacy Officer (1 P-4 and 1 P-3) to ensure delivery of the functions of the office specified in 1.433 of the present report and summarized above.</p> <p>The Administrative Assistant post (General Service (Other level)) would oversee and provide the administrative supporting requirements for the office in the areas of human resources (including recruitment of personnel), the preparation of, reporting on and monitoring of expenditure, financial reporting, the administration of contracts and management of consultancies, the development of internal administrative procedures and processes, scheduling/coordination of travel for the office's personnel, and other administrative duties, as required.</p>

Abbreviation: GS (OL), General Service (Other level).

Foreword

In 2024, the work of the Department for General Assembly and Conference Management will be guided by the mandates given to us by the Member States and by several key principles underpinning our resource requirements, including the present budget proposal.

In line with the expectations of Member States, and as part of our responsibility to provide high-quality and timely conference services as efficiently and cost-effectively as possible, the Department is committed to continuing to improve its services and meeting key performance indicators established by the General Assembly. In doing so the Department will continue to strive for modernization and enhancement in all areas of its work, including optimizing the utilization of internal and external language capacities as well as increasing the efficiency of its services through the deployment of modern technologies.

As part of our investment in the Department's current and future capacity needs to match emerging requirements, the Department will reinvigorate its focus on workforce and succession planning, as well as the targeted upgrading of its skill sets and capacity-building through outreach efforts, keeping in mind equal treatment of all official languages. We are also resolved to enhance accessibility for persons with disabilities.

The Department will continue to advance the integrated global management of its conference-servicing operations in New York, Geneva, Vienna and Nairobi and leverage opportunities for workload-sharing where they exist. In all of this we will continue to benefit from the lessons learned and skills developed during the coronavirus disease (COVID-19) pandemic.

(Signed) **Movses Abelian**
Under-Secretary-General for General Assembly and Conference Management

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 2.1 The mandates of the Department for General Assembly and Conference Management derive from the relevant rules of procedure and resolutions of the principal organs of the United Nations, including General Assembly resolutions [43/222 A–E](#), [50/11](#), [73/346](#), [74/303](#) and [77/255](#). The Department is responsible for:
- (a) The facilitation, through the provision of procedural and technical secretariat support and authoritative advice, of the orderly and effective conduct of the deliberations and follow-up actions of the General Assembly, its General, First, Special Political and Decolonization (Fourth), Second and Third Committees and various subsidiary organs, the Economic and Social Council and most of its subsidiary bodies, and special United Nations conferences;
 - (b) Assistance in the revitalization efforts of the Assembly and other United Nations bodies, including through the substantive servicing of meetings of the Ad Hoc Working Group on the Revitalization of the Work of the General Assembly and the intergovernmental negotiations on the question of equitable representation on and increase in the membership of the Security Council and other matters related to the Council;
 - (c) Substantive and technical secretariat support to the Committee on Conferences and high-quality conference-servicing support, including multilingual meeting and documentation services, to all intergovernmental and expert bodies meeting at Headquarters and at the United Nations Offices at Geneva, Vienna and Nairobi, and other conferences and meetings held under the auspices of the United Nations at other locations, under shared responsibility with the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi, taking into account the principle of equal treatment to be applied to all official languages in each organ of the Organization;
 - (d) Protocol services for the Secretary-General, the Deputy Secretary-General and visiting high-level dignitaries, as well as host country liaison services for Member States and Permanent Observers and the provision, upon request, of protocol services to the President of the General Assembly.
- 2.2 In addition, pursuant to General Assembly resolution [69/250](#), the Under-Secretary-General for General Assembly and Conference Management is responsible for Secretariat-wide coordination of multilingualism, a core value of the United Nations, and serves as system-wide lead entity on this matter in collaboration with the secretariat of the United Nations System Chief Executives Board for Coordination.
- 2.3 In accordance with General Assembly resolution [57/283 B](#), the Under-Secretary-General for General Assembly and Conference Management sets the policies, formulates standards and guidelines, manages resources under section 2 of the programme budget and oversees operations at Headquarters, while the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi are responsible for ensuring the implementation of those policies, standards and guidelines and for managing day-to-day operations at their respective duty stations. Furthermore, the Secretary-General has promulgated the establishment of a framework for delegation of authority (see [ST/SGB/2019/2](#)). The Secretary-General's bulletin on the organization of the Department ([ST/SGB/2021/3](#)) reflects the intergovernmental mandates confirming the division of responsibilities among the Under-Secretary-General and the Directors-General at Geneva, Vienna and Nairobi for delivering conference services in a standardized and integrated manner.

Strategy and external factors for 2024

- 2.4 The 2024 programme plan is guided by a strategy of continuous modernization and improvement in all areas. The Department will optimize the provision of high-quality services that are timely, cost-effective and sustainable, while minimizing environmental impact and enabling long-term business continuity, in support of multilingualism. The strategy will benefit from the lessons learned, skills developed and best practices established during the coronavirus disease (COVID-19) pandemic in 2020, 2021 and 2022.
- 2.5 The Department will contribute to the implementation of the Secretary-General's strategic priorities, specifically in such areas as achieving results through innovation; improving digital cooperation; continuing the digital transformation of the United Nations conference services and using technologies to create and support data assets and digital commons as a global public good; boosting partnerships; and maintaining business readiness through focused risk management. Specifically, the Protocol and Liaison Service will continue to improve the digital tools made available to permanent missions to enhance their user-friendliness and quality. By providing technical secretariat services to its intergovernmental clients, the e-deleGATE platform will remain a vital data management tool for both delegates and staff. Interlinked with other conference management systems, it will provide new functionalities that expedite access to information to all categories of clients. For example, its integration with gText will facilitate more expeditious and automated issuance of decisions of the General Assembly and the Economic and Social Council in the six official languages, as well as the generation of the multilingual meeting summaries published in the *Journal of the United Nations* year-round. The gText project, in particular its computer-assisted translation tool eLUNa, as well as the parliamentary documentation management system gDoc, will continue to support the implementation of the new workload standards for translation services approved by the Assembly in its resolution [75/252](#) by applying the new individual workload standards at the assignment level. Annual updates on the full implementation of the resolution, as well as subsequent resolutions [76/245](#) and [77/262](#), will be provided to the Assembly in the context of the reports of the Secretary-General on the pattern of conferences.
- 2.6 In the area of meetings management, the Department will continue to improve the gMeets system with the active involvement of all duty stations. At the enterprise system level, improvements will include the expanded data integration of gMeets, gDoc and the interpreters assignment programme (eAPG) with Umoja and Inspira to streamline processes and enhance data consistency, as well as ensure full adherence to harmonized methodologies and calculations for official reporting to Member States. An integrated ecosystem of secure conference management solutions will feed relevant data from the source to the gData management dashboard, facilitating timely decision-making and reporting on the basis of harmonized methodologies.
- 2.7 The vital statistics aggregated and analysed in the system, as well as the analysis of feedback from Member States, will continue to guide the Department's support of the intergovernmental and expert bodies.
- 2.8 All duty stations, as well as several other organizations of the United Nations system, will continue to maintain and enhance the multilingual UNTERM portal used by staff, language experts, Member States and the general public. Documentation services will scale up the machine-readability project by issuing additional categories of documents and publications for dissemination through the United Nations Digital Library in partnership with the Department of Global Communications.
- 2.9 In collaboration with the Office of Information and Communications Technology, the Department will continue to assess new and emerging technologies that enable the provision of interpretation services for virtual and hybrid meetings within the framework of business continuity requirements, should that be mandated by Member States. It will continue using contingency plans that integrate operational adjustments that were tested and mainstreamed during the pandemic. By adjusting and upgrading its technological tools, such as eAPG, and aligning human resources capacities, effective service delivery will be ensured and risks to business continuity mitigated. In terms of technology, and bearing in mind its limitations, the Department will maintain readiness for the quick deployment

of sustainable and accessible conference services that include the effective use of language technologies and participation tools and methods. To meet the evolving needs of human resources capacities, the Department will leverage temporary assistance to complement its in-house capacities of interpreters, translators, verbatim reporters, revisers and production editors and expand the respective competitive examinations for language positions and the global language rosters.

- 2.10 The proactive analysis of client needs and feedback will continue to guide the Department's activities in supporting the work of the intergovernmental and expert bodies. The Department will continue to use structured surveys to gain insights into its clients' business requirements.
- 2.11 The Department will coordinate measures to enhance multilingualism in the Organization in accordance with the terms of reference of the Coordinator for Multilingualism ([A/71/757](#), annex II).
- 2.12 With regard to cooperation with other entities at the global, regional, national and local levels, the Department will continue to engage with the network of universities that have concluded memorandums of understanding with the United Nations on the training of candidates for competitive examinations for language positions, associated membership agreements and remote practicum agreements.
- 2.13 With regard to inter-agency coordination and liaison, the Department will continue to provide substantive and technical secretariat support and serve as the permanent Chair of the International Annual Meeting on Language Arrangements, Documentation and Publications.
- 2.14 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
 - (a) Information on changes to the calendar of conferences and meetings, as well as to the programmes of work of intergovernmental and expert bodies, is made available in a timely manner and in conformity with the applicable rules of procedure;
 - (b) The number of non-calendar meetings does not exceed that of 2019, which was used as the basis for formulating the current budget assumptions and resource requirements;
 - (c) Extraordinary meetings, including special and emergency special sessions, will be scheduled with sufficient notice;
 - (d) Unforeseen high-priority documentation will be manageable;
 - (e) Stakeholders will fulfil their responsibilities and obligations in accordance with established rules for the submission of documentation and meeting requests in a predictable manner to allow for the planning and engagement of language capacity;
 - (f) Global supply chains, including contractual translation and information technology services, computer hardware and technological solutions, enable the international and timely sourcing of high-quality goods, capacity and services.
- 2.15 The programme integrates a gender perspective in its operational activities, deliverables and results, as appropriate.
- 2.16 In line with the United Nations Disability Inclusion Strategy, the Department will continue to adjust and refine its registration systems, conference management platforms, workflows, seating arrangements and requirements for conference services with a view to assisting delegates and participants with disabilities to contribute on equal terms to the work of the United Nations.

Impact of the pandemic and lessons learned

- 2.17 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular because meeting schedules did not fully return to the pre-pandemic pattern, and organizers modified the planned schedule of meetings. As a result, only 91 per cent of programmed meetings were delivered, affecting the outcomes of subprogrammes 1, 2 and 4. The changes in the meeting schedules in 2021 and 2022 resulted in the need to rapidly adjust the

Department's language capacities and workforce configuration to handle the incoming workload with a quicker turnaround. These changes were also compounded by the consequences of having to reschedule meetings and conferences in 2022 that were postponed during the pandemic. For instance, subprogramme 4 experienced challenges in accommodating the quickly increasing demand for meetings and documentation services compared with the previous two years. In New York, the increase in activities (primarily those of the Security Council and the General Assembly) and the related increase in workload were mainly concentrated in the interpretation and verbatim reporting services during the months after restrictions on in-person meetings were removed. In the case of verbatim reporting, the pressing need to focus on the issuance of Security Council verbatim records (PVs) left little capacity for records of other bodies and thus resulted in the accumulation of a backlog. The reduced availability of local freelance interpreters following the easing of pandemic-related restrictions further exacerbated the challenges of servicing meetings and conferences.

- 2.18 Measures to overcome these challenges included the establishment of global language rosters for both documentation and interpretation, which is being filled with qualified freelance resources. This was supplemented by the recruitment of eligible freelance capacity for 11-month contracts in interpretation, thus reducing the vacancy rate and providing new capacity. Because of these measures, it was possible to mitigate negative external factors such as the lower competitiveness of New York due to the pandemic compared with other duty stations and the resulting scarcity of language service-providers from the local freelance market. In addition, by creating a wider pool for recruitment, more opportunities became available to diversify the workforce by bringing in qualified language professionals from Latin America and the Caribbean and Africa.
- 2.19 The Department continues to mainstream lessons learned and best practices from the successful delivery of services during the COVID-19 pandemic. For example, delegates and the public have received access to intergovernmental data-driven reports built on a common data model of meeting proceedings. Before the pandemic, information was exclusively recorded in manually written documents. In 2021, subprogramme 1 developed a common data model of meeting proceedings, leveraging the e-deleGATE platform, and tested it for the support it provided to specific bodies. In 2022, the subprogramme rolled out the model to all the intergovernmental bodies it services. Information is now recorded only once and then used as the basis for reports, including summaries of the *Journal of the United Nations*, lists of resolutions and official records. This includes hundreds of *Journal* summaries, a public page with all adopted resolutions and officially issued documents. These data-driven reports enable the near instantaneous issuance of *Journal* summaries in all official languages, require less manual drafting and reviewing, and unlock the provision of new services which the subprogramme was not in a position to provide before.

Legislative mandates

- 2.20 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

43/222 A-E; 77/255	Pattern of conferences	76/245	Questions relating to the proposed programme budget for 2022
50/11; 76/268 74/303	Multilingualism Revitalization of the work of the General Assembly	77/262	Questions related to the proposed programme budget for 2023
75/252	Questions relating to the proposed programme budget for 2021		

Conference management, New York

General Assembly mandates

[A/520/Rev.20](#) Rules of procedure of the General Assembly (rule 56)

Economic and Social Council mandates

[E/5715/Rev.2](#) Rules of procedure of the Economic and Social Council (rule 32)

Security Council mandates

[96/Rev.7](#) Provisional rules of procedure of the Security Council (rule 41)

Conference management, Geneva

General Assembly resolutions

174 (II)	Establishment of an International Law Commission	62/193 ; 66/201	Implementation of the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa
1166 (XII)	International assistance to refugees within the mandate of the United Nations High Commissioner for Refugees	68/268	Strengthening and enhancing the effective functioning of the human rights treaty body system
48/189	United Nations Framework Convention on Climate Change		
60/184	International trade and development		
60/251 ; 63/160	Human Rights Council		

Conference on Disarmament mandates

--------	---	--------	---

Deliverables

2.21 Table 2.1 lists all cross-cutting deliverables of the programme.

Table 2.1

Cross-cutting deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	2
1. Report of the Secretary-General on the pattern of conferences	1	1	1	1
2. Report of the Secretary-General on multilingualism	–	–	–	1
Substantive services for meetings (number of three-hour meetings)	22	11	22	23
Meetings of:				
3. The General Assembly related to multilingualism	–	1	–	1
4. The Committee on Conferences, the Advisory Committee on Administrative and Budgetary Questions and the Fifth Committee on the item on the pattern of conferences	16	6	16	16
5. The Committee for Programme and Coordination, the Advisory Committee on Administrative and Budgetary Questions and the Fifth Committee related to programme planning and the budgetary process	6	4	6	6
C. Substantive deliverables				
Consultation, advice and advocacy: International Annual Meeting on Language Arrangements, Documentation and Publications with an estimated 60 entities.				
D. Communication deliverables				
Outreach programmes, special events and information materials: six language days, two internationally recognized language celebrations and other related observances on multilingualism in accordance with General Assembly guidance.				
External and media relations: meetings with language groupings or other relevant international organizations upon request and in line with the role of the Coordinator for Multilingualism.				
Digital platforms and multimedia content: multilingual content for websites and social media accounts of the Department for General Assembly and Conference Management, including on outreach to universities and on multilingualism.				
E. Enabling deliverables				
Correspondence and documentation services: documentation services (110 non-parliamentary documents); correspondence services, including notes verbales and official correspondence of the Secretary-General and departments with Member States.				

Evaluation activities

- 2.22 The global evaluation on workload-sharing, completed in 2022, guided the proposed programme plan for 2024.
- 2.23 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2024. For example, workload-sharing among the duty stations would be used to maximize the utilization of global capacity. A global dashboard will be developed in gDoc to further facilitate workload-sharing and enable more dynamic global documentation management and planning. A review of how workload-sharing is recorded in gDoc will be performed to ensure consistent recording and reporting.
- 2.24 An evaluation of publishing and distribution of documentation in the digital age is planned for 2024.

Programme of work

Subprogramme 1

General Assembly and Economic and Social Council affairs

Objective

- 2.25 The objective, to which this subprogramme contributes, is to ensure efficient and effective deliberation and decision-making processes of intergovernmental and relevant expert bodies and United Nations conferences.

Strategy

- 2.26 To contribute to the objective, the subprogramme will:
- (a) Provide technical secretariat services to and coordinate substantive support for intergovernmental bodies, including the General Assembly, its General, First, Special Political and Decolonization (Fourth), Second and Third Committees and its various subsidiary and ad hoc bodies; the Economic and Social Council and its forums and subsidiary and ad hoc bodies; the Trusteeship Council; and conferences and other ad hoc and extraordinary meetings held under the auspices of the United Nations;
 - (b) Provide procedural advice and substantive, analytical and historical information;
 - (c) Strengthen its core software tools in response to requests from Member States, including e-deleGATE, which will be available in the official languages of the United Nations and will be able to capture interactions among various intergovernmental bodies.
- 2.27 The above-mentioned work is expected to result in:
- (a) The smooth conduct of meetings of the intergovernmental bodies serviced;
 - (b) Expanded availability and accessibility of secretariat support to the delegations;
 - (c) Improved user experience for delegations on the e-deleGATE portal.

Programme performance in 2022

Delegates and the public have access to intergovernmental reports that are built on a common data model of meeting proceedings

- 2.28 The recording of intergovernmental data has been central to the work of the subprogramme since its establishment. Previously, information was exclusively recorded in manually written documents. In

2021, the subprogramme developed a common data model of meeting proceedings, leveraging the e-deleGATE platform, and tested it for the support that it provided to specific bodies. In 2022, the subprogramme rolled out the model to all intergovernmental bodies that it services. Information is now recorded only once and then used as the basis for reports, including summaries of the *Journal of the United Nations*, lists of resolutions and official records. This includes hundreds of *Journal* summaries, the public page with all adopted resolutions and officially issued documents. The data-driven reports enable near instantaneous issuance of *Journal* summaries in all official languages, require less manual drafting and reviewing, and unlock the provision of new services that the subprogramme was not in a position to provide before (see para. 2.34 below).

2.29 Progress towards the objective is presented in the performance measure below (see table 2.2).

Table 2.2
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
Delegates have access to reports when the reports are manually written	Delegates have access to a few data-driven reports as part of a pilot	Delegates and the public have access to data-driven reports for all bodies that the subprogramme services

Planned results for 2024

Result 1: enlarged procedural toolkit for intergovernmental meetings

Programme performance in 2022 and target for 2024

2.30 The subprogramme’s work contributed to the continuation of intergovernmental meetings through the addition of new tools and methods and the enhancement of existing tools, including for the submission of proposals and lists of resolutions, as well as to positive feedback from Member States on accessibility-related enhancements, which met the planned target.

2.31 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 2.3).

Table 2.3
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Emergence of new tools at the request of Member States	Member States use new tools, including for pre-recorded statements, electronic receipt of draft resolutions and virtual informal consultations on draft resolutions	Member States use new tools, including for the submission of proposals and lists of resolutions Positive feedback on accessibility-related enhancements	Increased adoption of new tools and positive feedback from Member States	Increased adoption of new tools and positive feedback from Member States

Result 2: increased meeting efficiency through concurrent use of time suspended for election ballot counting

Programme performance in 2022 and target for 2024

- 2.32 The subprogramme's work contributed to increased meeting efficiency, with time used for consideration of other matters while counting the ballots for the first round of balloting of the elections of non-permanent members of the Security Council (39 minutes), which did not meet the planned target of 45 minutes, and of 18 members of the Economic and Social Council (124 minutes), which exceeded the planned target of 60 minutes. The planned target of 45 minutes for the Security Council was not met, as the counting of the ballots took less time than in the previous year.
- 2.33 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.I).

Figure 2.I

Performance measure: time used for consideration of other matters while counting the ballots for the first round of balloting of the elections of non-permanent members of the Security Council and of 18 members of the Economic and Social Council, in minutes

Note: A secret ballot was held without a plenary meeting in 2020, pursuant to decision 74/557.

Result 3: delegates and the public have access to new services that are unlocked by the intergovernmental data model for meeting proceedings

Proposed programme plan for 2024

- 2.34 In 2022, the subprogramme started to use new technology across all intergovernmental bodies that it services. This enabled a paradigm shift in terms of how intergovernmental data are being recorded (see para. 2.28 above).

Lessons learned and planned change

- 2.35 The lesson for the subprogramme was that, with this paradigm shift, it was now possible to rethink how existing intergovernmental services are provided and how new services could be made available to delegates and the public that could not be provided before. In applying the lesson, the subprogramme will assess how it can leverage the new technology and further integrate it into aspects of its work.
- 2.36 Expected progress towards the objective is presented in the performance measure below (see table 2.4).

Table 2.4
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Delegates and the public have no access to services provided by a single data model	Delegates have access to certain reports that are provided through a single data model	Delegates and the public have access to data-driven reports for all bodies that the subprogramme services	Delegates and the public have access to new services that are unlocked by the intergovernmental data model	Delegates and the public have access to new services that are unlocked by the intergovernmental data model

Deliverables

2.37 Table 2.5 lists all deliverables of the subprogramme.

Table 2.5
Subprogramme 1: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	263	185	197	217
Documents of:				
1. The General Assembly and its subsidiary bodies	175	106	102	102
2. The Economic and Social Council and its subsidiary bodies	75	65	90	90
3. United Nations conferences	12	13	5	24
4. The Trusteeship Council	1	1	–	1
Conference and secretariat services for meetings (number of three-hour meetings)	905	865	811	929
5. Meetings of the plenary of the General Assembly, the General Committee and the Ad Hoc Working Group on the Revitalization of the Work of the General Assembly	300	309	363	363
6. United Nations conferences	33	25	–	70
7. Meetings of the First Committee	33	40	33	33
8. Meetings of the Special Political and Decolonization Committee (Fourth Committee)	30	30	30	30

C. Substantive deliverables				
Databases and substantive digital materials: online portals, including e-deleGATE, for approximately 35 intergovernmental bodies.				

Conference management, New York

Subprogramme 2

Planning and coordination of conference services

Objective

- 2.38 The objective, to which this subprogramme contributes, is to ensure efficient, effective, multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in New York.

Strategy

- 2.39 To contribute to the objective, the subprogramme will continue, in coordination with the other duty stations, to:
- (a) Plan and manage meetings and documentation services in a globally coordinated manner by leveraging technologies, including gMeets, gDoc and gData, and optimizing workflows;
 - (b) Lead global innovation projects in areas related to planning and coordination, including gMeets and the *Journal of the United Nations*;
 - (c) Centrally coordinate evaluation activities and risk management, including business continuity, and provide high-quality and reliable data to facilitate informed managerial decision-making and performance monitoring;
 - (d) Engage in regular consultations with Member States and substantive and technical secretariats to address conference-servicing needs;
 - (e) Provide technical and substantive support to the Committee on Conferences through expanded use of the e-deleGATE portal.
- 2.40 The above-mentioned work is expected to result in:
- (a) The addressing of Member States needs with more responsive, timely, efficient and user-friendly conference services;
 - (b) Smooth deliberations in the intergovernmental process;
 - (c) Well-established and mature standard operating procedures complemented by information technology systems applied to all services for Member States;
 - (d) The timely and simultaneous issuance of parliamentary documents in all six official languages.

Programme performance in 2022

Multilingual calendar of conferences and meetings website

- 2.41 In response to General Assembly resolution [67/292](#) on multilingualism, which called for full parity among the six official languages on the United Nations website, the subprogramme established a project team consisting of staff from the Meetings Management Section and the Business Analysis Section, as well as substantive focal points from Geneva, Vienna and Nairobi, supported by the Office of Information and Communications Technology, to transform the website of the United Nations calendar of conferences and meetings, which had previously been in English only, into a multilingual tool operating in the six official languages on a sustainable basis. By enhancing the reach and accessibility of the calendar website, improving user experience and strengthening its social media impact, the subprogramme made it possible for all Member States to access the information on official conferences and meetings of the United Nations in the six official languages.
- 2.42 Progress towards the objective is presented in the performance measure below (see table 2.6).

Table 2.6

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
–	Website is available in English only	Multilingual upgrade results in availability of the website in all six official languages

Planned results for 2024

Result 1: comprehensive, well-tested, fail-safe business continuity readiness in all areas of conference management

Programme performance in 2022 and target for 2024

- 2.43 The subprogramme's work contributed to the delivery of 90 per cent of programmed meetings, against the planned target of 100 per cent. The target was not met owing to the ongoing pandemic, as the meeting schedules did not fully return to the pre-pandemic pattern, and organizers modified the planned schedule of meetings.
- 2.44 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.II).

Figure 2.II

Performance measure: percentage of programmed meetings held

Result 2: efficiency gains and enhanced accountability for conference and event management services

Programme performance in 2022 and target for 2024

- 2.45 The subprogramme's work contributed to determining areas of interoperability among conference and event management systems by identifying master, transactional and reference data to support improved business processes and access to harmonized data structures within those systems, which met the planned target.
- 2.46 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 2.7).

Table 2.7

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	Analysis of existing supply chain and stakeholders	Areas of interoperability among conference and event management systems are determined by identifying master, transactional and reference data to support improved business processes and access to simplified and harmonized data structures within those systems and with Umoja and Inspira	Efficient and integrated issuance of a single bill, which reduces errors and manual processing, is available to all duty stations Increased oversight and transparency for Member States through enhanced traceability of financial transactions	Streamlined processes and enhanced data consistency through expanded data integration with Umoja and Inspira

Result 3: timely and reliable reporting of key performance indicators across duty stations made available to Member States

Proposed programme plan for 2024

- 2.47 The subprogramme regularly reports to Member States on key performance indicators. The subprogramme has been contributing to, and progressively relying on, new gData dashboards that provide reports covering the entire span of conference management activities to ensure monitoring and reporting in an integrated manner.

Lessons learned and planned change

- 2.48 The lesson for the subprogramme was that the performance indicators were in some cases reported in different systems reflecting local operations, which were not always harmonized across duty stations. In addition, changes in the operational systems feeding information into gData as well as in gData itself need to be implemented simultaneously to ensure consistency and accuracy of the indicators. In applying the lesson, the subprogramme will harmonize methodologies, practices and data sources for the recording and calculation of key performance indicators with the other duty stations to ensure reliable reporting and comparability of indicators. The subprogramme will also proactively monitor the data for the key performance indicators and will use the gData reports to

Section 2 **General Assembly and Economic and Social Council affairs and conference management**

inform Member States and other stakeholders on the quantitative parameters of the conference services operations in a timely manner.

2.49 Expected progress towards the objective is presented in the performance measure below (see table 2.8).

Table 2.8
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	Availability of some indicators and reports for mandated reporting to Member States	Improved harmonization of methodologies and calculation of mandated reporting of some indicators and reports to Member States	Mandated reporting of all indicators to Member States consistent with harmonized methodologies globally

Deliverables

2.50 Table 2.9 lists all deliverables of the subprogramme.

Table 2.9
New York, subprogramme 2: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	11	11	12	11
1. Report of the Committee on Conferences	1	1	1	1
2. Report of the Secretary-General on the pattern of conferences	1	1	1	1
3. Note by the Secretariat on the calendar of conferences and meetings	2	2	2	2
4. Documents for the Committee on Conferences	6	6	7	6
5. Revitalization of the work of the General Assembly: status of documentation for the General Assembly	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	11	3	11	11
6. Meetings of the Committee on Conferences	11	3	11	11
Conference and secretariat services for meetings (number of three-hour meetings)	12 700	6 930	12 700	12 700
7. Meetings of the Security Council and its sanctions committees and subsidiary working groups	750	702	750	750
8. Meetings of the General Assembly and its Main Committees and subsidiary bodies	3 200	3 179	3 200	3 200
9. Meetings of the Economic and Social Council and its subsidiary bodies and functional commissions	750	915	750	750
10. Meetings of the permanent and observer missions to the United Nations	3 130	652	3 130	3 130
11. Other meetings	4 870	1 482	4 870	4 870
B. Generation and transfer of knowledge				
Technical materials (number of materials)	251	251	251	252
12. <i>Journal of the United Nations</i>	251	251	251	252

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
--------------------------	-----------------	----------------	-----------------	-----------------

C. Substantive deliverables

Consultation, advice and advocacy: consultations with five Bureau members on issues related to the Committee on Conferences, including membership and the composition of the Bureau, the programme of the substantive session and requests for intersessional departures; Bureau meetings and briefing for the 18 members of the Committee on Conferences.

Databases and substantive digital materials: One-Stop Shop platform (as part of gMeets) for Member States to request meetings and conference services.

D. Communication deliverables

Digital platforms and multimedia content: website of the *Journal of the United Nations* (daily *Journal* provided for 251 working days) and calendar of conferences and meetings website, available in all six official languages and accessible from mobile devices.

Subprogramme 3 Documentation services

Objective

- 2.51 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in New York.

Strategy

- 2.52 To contribute to the objective, the subprogramme will continue, in coordination with the other duty stations, to:
- (a) Deliver multilingual documentation services, including translation, editing, précis-writing, desktop publishing and correspondence services, while improving quality and timeliness by leveraging technologies, optimizing workflows, matching capacity with workload and developing staff skills through training;
 - (b) Promote the versatility of language professionals with regard to processing highly complex legal and technical documents by providing continuous subject-matter training, including by leading projects on knowledge management and training tools and by organizing briefings with substantive secretariats;
 - (c) Implement new technological solutions and maintain existing systems to manage its workload and workforce and continue to review job profiles so that they better reflect technological developments;
 - (d) Strengthen performance management and quality assurance mechanisms and manage the quality of internally and externally processed documents by applying rigorous quality-control standards;
 - (e) Enhance outreach to universities;
 - (f) Improve recruitment methods, including through remote competitive examinations;
 - (g) Lead global innovation projects and programmes in areas related to documentation, including gText and gDoc, to improve the ability of the subprogramme to plan and process multilingual documentation within established time frames and to support the skills of linguists to satisfy the mandate on quality;
 - (h) Maintain and enhance the UNTERM portal, which contains official terminology and is publicly accessible online;

- (i) Convert categories of documents into machine-readable format to develop further information services that will leverage the wealth of the Organization’s knowledge.

2.53 The above-mentioned work is expected to result in:

- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
- (b) The consistent use of official terminology in the official languages;
- (c) Improved access to knowledge resources through the provision of machine-readable documents.

Programme performance in 2022

Multilingual UNTERM

- 2.54 The use of consistent official terminology in the six official languages is essential to ensure the efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations. This entails the harmonization of terminology records with other duty stations of the Department, as well as with United Nations agencies, funds and programmes. The subprogramme had previously enhanced UNTERM in several stages. For example, in 2021, a terminology course was created to support a common approach across all United Nations entities to submit terminology to UNTERM. In 2022, the subprogramme developed and deployed an interface in all six languages with improved accessibility features that allowed persons with disabilities to access UNTERM and create or manage terminology records to further strengthen multilingualism.
- 2.55 Progress towards the objective is presented in the performance measure below (see table 2.10).

Table 2.10
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
The World Meteorological Organization, the International Maritime Organization and the World Health Organization join UNTERM	The International Telecommunication Union joins UNTERM	UNTERM interface available in all six official languages with multilingual accessibility features

Planned results for 2024

Result 1: quality in motion

Programme performance in 2022 and target for 2024

- 2.56 The subprogramme’s work contributed to ensuring the quality of multilingual parliamentary documentation, as demonstrated by the 100 per cent satisfaction rate of Member States, which met the planned target.
- 2.57 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.III).

Figure 2.III
Performance measure: percentage of Member States satisfied with quality of documentation (annual)

Result 2: versatility and multilingualism: parliamentary documentation delivered within the mandated time frames

Programme performance in 2022 and target for 2024

- 2.58 The subprogramme’s work contributed to 98 per cent of parliamentary documentation being issued in a timely manner, against the planned target of 100 per cent. The target was not met owing to the need to reprioritize the workload to meet the session dates for four additional conferences held in 2022, as well as a full schedule of meetings of the Economic and Social Council and its subsidiary bodies.
- 2.59 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.IV).

Figure 2.IV
Performance measure: timely processing of parliamentary documentation (annual)

(Percentage)

Result 3: innovation in action: leveraging machine-readable documents

Proposed programme plan for 2024

- 2.60 In 2019, the subprogramme created the eLUNa converter, a tool to produce parliamentary documents in machine-readable format, and has since applied it to General Assembly, Security Council and Economic and Social Council resolutions and their visualizations.

Lessons learned and planned change

- 2.61 The lesson for the subprogramme was that machine-readable technology enables the provision of new services and accelerates the production of compilations of resolutions. Rendering documents in a machine-readable format makes it easier to extract data content in a structured way, which can enable the design of innovative documentation services, including visualizations that further leverage the wealth of information contained in United Nations documents. In applying the lesson, the subprogramme will expand this innovative effort to the production of all multilingual documents issued at the four duty stations using Akoma Ntoso, the official United Nations technical standard for representing content in a structured manner that is understandable by computers. The subprogramme will also progressively expand the categories of documents supported by the eLUNA converter, automatically identifying fundamental data elements and adding metadata using artificial intelligence and natural language-processing technologies. This will enable an ecosystem of semantically enriched documents in the six official languages, containing detailed information about the history of the document, the agenda items, entities, subjects and related Sustainable Development Goals. This approach will lead to the provision of data-driven services that leverage the wealth of information contained in United Nations documents and contribute to enhancing the efficiency and effectiveness of multilingual deliberations and generate efficiencies in the document production chain.
- 2.62 Expected progress towards the objective is presented in the performance measure below (see table 2.11).

Table 2.11

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
Resolutions of the General Assembly available in machine-readable format using the Akoma Ntoso standard for the United Nations and displayed in interactive reports that enabled data visualization in graphs and charts	Resolutions of the Security Council and Economic and Social Council available in machine-readable format and displayed in interactive reports with visualizations Automated compilation and accelerated publication of volumes I and III of the resolutions and decisions adopted by the General Assembly, leveraging machine-readable documents	Decisions of the General Assembly available in machine-readable format and displayed in multilingual reports with visualizations Automated compilation of volume II of the resolutions and decisions of the General Assembly, containing the decisions adopted by the Assembly, and of the resolutions and decisions adopted by the Economic and Social Council, available in machine-readable format	Availability of additional resolutions in enriched machine-readable format with visualizations	Availability of other categories of documents and publications in the United Nations Digital Library or other portals

Deliverables

2.63 Table 2.12 lists all deliverables of the subprogramme.

Table 2.12

New York, subprogramme 3: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	223	309	223	223
Summary records of:				
1. Meetings of Security Council subsidiary bodies	18	16	18	18
2. Meetings of the General Assembly	150	208	150	150
3. Meetings of the Economic and Social Council	35	34	35	35
4. Other meetings	20	51	20	20
Documentation services for meetings (thousands of words)	133 775	132 143^a	133 775	116 000^b
Editing, translation and desktop publishing of:				
5. Documents for the Security Council	22 728	21 941	22 728	19 200
6. Documents for the General Assembly	90 440	90 379	90 440	79 300
7. Documents for the Economic and Social Council	18 557	18 722	18 557	16 400
8. Other documents	2 050	1 101	2 050	1 100
C. Substantive deliverables				
Databases and substantive digital materials: UNTERM, which comprises some 664,000 records.				
E. Enabling deliverables				
Correspondence and documentation services: documentation services for some 36 clients (edited, translated and published non-parliamentary documents with more than 5 million words); correspondence services, including notes verbales and official correspondence of the Secretary-General and departments with all Member States.				

^a Includes editorial corrections generated by parallel processing, which is necessary to ensure timeliness.

^b Excludes editorial corrections generated by parallel processing, which is necessary to ensure timeliness.

Subprogramme 4 Meetings and publishing services

Objective

2.64 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in New York.

Strategy

- 2.65 To contribute to the objective, the subprogramme will continue, with the other duty stations, to:
- Provide meetings and publishing services, including interpretation, verbatim reporting and publishing in the official languages, and meetings servicing at Headquarters, as well as for conferences and meetings held away from Headquarters;
 - Manage and optimize the utilization of its in-house capacity and temporary assistance resources by relying on fit-for-purpose modern technologies, and on refined capacity-planning and

workload-matching methods, while ensuring effective management and coordination with other duty stations;

- (c) Implement good practices related to sustainability and accessibility for meeting and publishing services, including expanding the range of services using specialized expertise and the services of the accessibility centre;
- (d) Strengthen the readiness of a broader array of service delivery modalities, including those related to remote participation in meetings and the provision of remote services in the context of business continuity.

2.66 The above-mentioned work is expected to result in:

- (a) More effective utilization and expanded provision of the Organization's meetings and publishing services;
- (b) Greater access and improved services for meeting participants and end users of publishing services to maximize their engagement in the intergovernmental process, while leaving a smaller environmental footprint;
- (c) Improved quality of remote participation for meetings in the context of business continuity.

Programme performance in 2022

Availability of verbatim reporting despite challenges faced by increasing demand for meetings and documentation services

2.67 The subprogramme experienced challenges in accommodating the rapidly increasing demand for meetings and documentation services compared with the previous two years, as described in paragraph 2.17 above. In particular, in verbatim reporting the finite revision capacity meant that the pressing issuance of verbatim records of the Security Council left little capacity for records of other bodies and thus led to the accumulation of a backlog.

2.68 Measures initiated helped to adjust capacities to meet such challenges in the short term (see para. 2.18 above). In the Verbatim Reporting Service, increased reliance on freelance resources and the continued full utilization of in-house capacity and their usual high productivity were required to keep pace with the heavy demand, especially the demand emanating from the Security Council.

2.69 Progress towards the objective is presented in the performance measure below (see figure 2.V).

Figure 2.V

Performance measure: number of verbatim records of meetings of the Security Council and General Assembly, and number of S/2022 letters in lieu of such records processed in 2022

Planned results for 2024

Result 1: multilingual deliberations supported by interpretation and publishing services with robust business continuity tools

Programme performance in 2022 and target for 2024

- 2.70 The subprogramme’s work contributed to the servicing of 99 per cent of programmed meetings with interpretation against the planned target of 100 per cent. The target was not met owing to a number of meetings that were cancelled by the organizers, which was beyond the control of the subprogramme.
- 2.71 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.VI).

Figure 2.VI

Performance measure: meetings programmed versus meetings held with interpretation (annual)

^a The number of meetings programmed for 2023 and 2024, as shown in the present figure, reflects projections based on information made available by meeting organizers.

Result 2: contingency plans for maintenance of a broad array of sustainable conference-servicing modalities that are technically accessible to all

Programme performance in 2022 and target for 2024

- 2.72 The subprogramme’s work contributed to the continual availability of tools/solutions deployed during the pandemic for contingencies, should a business continuity requirement arise, so that organizers can benefit from accessible meeting and interpretation services that have been integrated with tools and solutions tested during the pandemic, which met the planned target.
- 2.73 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 2.13).

Table 2.13
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
The subprogramme, together with other Secretariat entities, introduced, and organizers started actively using, options for remote participation and remote simultaneous interpretation to ensure business continuity during the pandemic	Organizers benefited from fully deployed remote participation and remote simultaneous interpretation options to ensure business continuity during the prolonged pandemic	Tools/solutions deployed during the pandemic remained available for contingencies so that organizers could benefit from meeting and interpretation services that had been integrated with tools and solutions tested during the pandemic	Organizers can benefit from contingency solutions, with meeting and interpretation services that guarantee sustainable delivery in all working modalities	Organizers can benefit from contingency solutions, with meeting and interpretation services that guarantee sustainable delivery in all working modalities, should a business continuity requirement arise

Result 3: timely processing of verbatim records of the General Assembly through the use of fit-for-purpose technologies

Proposed programme plan for 2024

2.74 In New York, intergovernmental bodies entitled to verbatim records returned to normal activity. The subprogramme has taken measures to deal with the expected increase in workload as explained in paragraph 2.18 above.

Lessons learned and planned change

2.75 The lesson for the subprogramme based on past experience was to find ways to continually enhance and optimize workforce strength and capacity and ensure the utilization of resources to match the fluctuating workload. In applying the lesson, the subprogramme will mainstream emerging language technologies that can automate the transformation of oral speech to written text across all duty stations. The subprogramme will also enhance measures to deal with expected continued increases in workload, including tasking qualified reporters with monitored self-revision with a view to possibly reclassifying them as self-revisers, the replenishment of global language rosters to increase the contractual processing of verbatim records and the hiring of short-term staff. The subprogramme will also support close collaboration between service providers and meeting and documentation planners and clients to enable better capacity planning and workload-matching and to help with the timely provision of verbatim records to Member States.

2.76 Expected progress towards the objective is presented in the performance measure below (see figure 2.VII).

Figure 2.VII

Performance measure: number of unprocessed verbatim records remaining from previous sessions of the General Assembly as of the first day of the new session^a

^a Backlogs include verbatim records of the General Assembly and occasionally of the First Committee. The issuance date of the last verbatim record of the backlog was 18 November 2020 for the seventy-fourth session of the Assembly, 9 November 2021 for the seventy-fifth session and 29 November 2022 for the seventy-sixth session. Projections for 2023 (backlog of the seventy-seventh session) and 2024 (backlog of the seventy-eighth session) are presented with the assumptions that: the length of meetings will not increase significantly; the proposed programme plan will be approved, with the requested revision capacity enhancement; and the number of meetings will continue to increase in accordance with the current upward trend.

Deliverables

2.77 Table 2.14 lists all deliverables of the subprogramme.

Table 2.14

New York, subprogramme 4: deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2 580	2 906	2 580	2 580
1. Verbatim records of the General Assembly	700	648	700	700
2. Verbatim records of the Security Council	1 600	1 872	1 600	1 600
3. Verbatim records of the First Committee	200	198	200	200
4. Verbatim records of the Disarmament Commission	36	36	36	36
5. Verbatim records of the Committee on the Exercise of the Inalienable Rights of the Palestinian People	6	6	6	6
6. Verbatim records of the Military Staff Committee	26	26	26	26
7. Verbatim records of the special sessions of the General Assembly	6	96	6	6
8. Verbatim records of the Trusteeship Council	6	–	6	6
9. Letter(s) from the President of the Security Council addressed to the Secretary-General and the Permanent Representatives of the members of the Security Council	–	24	–	–
Conference and secretariat services for meetings (number of three-hour meetings)	12 700	6 930	12 700	12 700
Meetings with interpretation for:	2 850	2 432	2 850	2 850
10. The Security Council and its sanctions committees and subsidiary working groups	650	619	650	650
11. The General Assembly and its Main Committees and subsidiary bodies	1 400	1 238	1 400	1 400

Section 2 General Assembly and Economic and Social Council affairs and conference management

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
12. The Economic and Social Council and its subsidiary bodies and functional commissions	300	324	300	300
13. Permanent and observer missions to the United Nations	30	30	30	30
14. Other requesters	470	221	470	470
Meetings without interpretation for:	9 850	4 498	9 850	9 850
15. The Security Council and its sanctions committees and subsidiary working groups	100	83	100	100
16. The General Assembly and its Main Committees and subsidiary bodies	1 800	1 941	1 800	1 800
17. The Economic and Social Council and its subsidiary bodies and functional commissions	450	591	450	450
18. Permanent and observer missions to the United Nations	3 100	622	3 100	3 100
19. Other requesters	4 400	1 261	4 400	4 400

E. Enabling deliverables

Publishing services: edited and proofread publications, official records (approximately 2,600 verbatim records per year) and other materials in all official languages for both hard copy and digital distribution; a projected number of 20,000 parliamentary documents printed, bound and distributed; 160 projected publications and other materials in hard copy; materials available in digital format.

Conference management, Geneva

Subprogramme 2

Planning and coordination of conference services

Objective

- 2.78 The objective, to which this subprogramme contributes, is to ensure efficient, effective and multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Geneva.

Strategy

- 2.79 To contribute to the objective, the subprogramme will continue, in coordination with the other main conference-servicing duty stations, and in addition to the activities indicated in paragraph 2.39 (a) to (d) above, to:
- (a) Manage reduced room capacity and other constraints resulting from renovation works under the strategic heritage plan of the United Nations Office at Geneva by optimizing the utilization of the limited available conference facilities and the temporary conference structure on the Office's grounds;
 - (b) Maintain, in coordination with the strategic heritage plan and as part of the Geneva conferencing ecosystem, including the Division of Administration (section 29E), business continuity capacity for meetings that may use multiple participation modalities.
- 2.80 The above-mentioned work is expected to result in:
- (a) Improved conference services and related procedures;
 - (b) Participants experiencing a conference that is comparable in quality to fully in-person meetings if the need for multiple participation modalities were to arise, and the full, effective and efficient delivery of all mandated calendar meetings in 2024;
 - (c) The timely and simultaneous issuance of parliamentary documents in all six official languages.

Programme performance in 2022

Smooth intergovernmental deliberations through the timely availability of oral statements with programme budget implications

- 2.81 The duration of Human Rights Council sessions and the frequency of special sessions has increased in the past years. The number of Council draft resolutions, decisions, written revisions and amendments requiring review and preparation of programme budget implications in accordance with rule 153 of the General Assembly's rules of procedure has more than doubled during the preceding years.
- 2.82 To meet the increased workload and complexity, and in order to provide timely and detailed cost estimates to the Human Rights Council at the time its resolutions are adopted, the subprogramme collaborated with the Office of the United Nations High Commissioner for Human Rights, the Division of Administration, Geneva, and the Department of Management Strategy, Policy and Compliance to develop a mandate review and management system, launched in February 2022. The mandate review and management system provides user-friendly data entry forms with built-in resource requirement calculations and automates the generation of consistently formatted oral statement templates populated with user-provided data. Member States benefited from the more timely provision of oral statements containing programme budget implications, and from the improved consistency in the layout and formatting of related documentation.
- 2.83 Progress towards the objective is presented in the performance measure below (see figure 2.VIII).

Figure 2.VIII

Performance measure: oral statements with programme budget implications provided on time to Human Rights Council States before voting (annual)

(Percentage)

Planned results for 2024

Result 1: reliable business continuity system to ensure the implementation of conference-servicing activities during periods of uncertain capacity

Programme performance in 2022 and target for 2024

- 2.84 The subprogramme's work contributed to the delivery of 89 per cent of programmed meetings against the planned target of 100 per cent. The target was not met due to the cancellation of a large number of meetings by the organizers.
- 2.85 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.IX).

Figure 2.IX

Performance measure: percentage of programmed meetings held

Result 2: enhancing delegates' experience in obtaining conference services – lessons from applied innovations

Programme performance in 2022 and target for 2024

- 2.86 The subprogramme's work contributed to 89 per cent of overall client satisfaction with the provision of conference services, against the planned target of 100 per cent. The target was not met due to the impact of two items relating to interpretation quality. Both matters were clarified and resolved by the subprogramme with the delegations concerned.
- 2.87 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.X).

Figure 2.X

Performance measure: overall client satisfaction with the provision of conference services

(Percentage)

Result 3: timely and reliable reporting of key performance indicators across duty stations made available to Member States

Proposed programme plan for 2024

- 2.88 To ensure reliable reporting and comparability of key performance indicators across duty stations and subprogrammes in a timely manner, the subprogramme will continue to lead the implementation

Part I Overall policymaking, direction and coordination

of the gData platform and coordinate the harmonization of work with the other duty stations, as described in paragraph 2.47 above.

Lessons learned and planned change

- 2.89 The lesson for the subprogramme was the need to improve consistency across duty stations in reporting and ensure accuracy of the indicators. Going forward, the subprogramme will harmonize methodologies, practices and data sources for the recording and calculation of key performance indicators and proactively monitor the data flows, and will use gData reports to inform Member States and other stakeholders on the quantitative parameters of the conference services operations in a timely manner.
- 2.90 Expected progress towards the objective is presented in the performance measure below (see table 2.15).

Table 2.15
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	Availability of some indicators and reports for mandated reporting to Member States	Improved harmonization of methodologies and calculation of mandated reporting of some indicators and reports to Member States	Mandated reporting of all indicators to Member States with consistent adherence to harmonized methodologies globally

Deliverables

- 2.91 Table 2.16 lists all deliverables of the subprogramme.

Table 2.16
Geneva, subprogramme 2: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	12 000	7 979	12 000	12 000
1. Meetings of intergovernmental and expert bodies on human rights, including the Human Rights Council and the treaty bodies	3 750	2 764	3 750	3 750
2. Meetings of intergovernmental and expert bodies on the environment, including the Conference of the Parties to the United Nations Framework Convention on Climate Change	2 000	1 891	2 000	2 000
3. Meetings of intergovernmental and expert bodies on cooperation for development, including the United Nations Conference on Trade and Development and the Economic Commission for Europe	1 950	1 342	1 950	1 950
4. Meetings of intergovernmental and expert bodies on disarmament, including the Conference on Disarmament	700	546	700	700
5. Other	3 600	1 436	3 600	3 600
B. Generation and transfer of knowledge				
Technical materials (number of materials)	1	1	1	1
6. Annual calendar of conferences and meetings in Geneva	1	1	1	1

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

C. Substantive deliverables

Consultation, advice and advocacy: informational session for 70 permanent missions.

D. Communication deliverables

Outreach programmes, special events and information materials: language-day celebrations for the six official languages, the International Day of Sign Languages and International Mother Language Day.

External and media relations: press conferences and public briefings.

Subprogramme 3 Documentation services

Objective

- 2.92 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Geneva.

Strategy

- 2.93 To contribute to the objective, the subprogramme will continue, in coordination with the other main conference-servicing duty stations and in addition to the activities indicated in paragraph 2.52 above, to:
- (a) Participate in the global innovation projects of the Department, including gDoc and gText, leverage information technology tools, including eLUNa, provide inputs to UNTERM and maintain its repository of Geneva-specific reference material for in-house and external language professionals;
 - (b) Reinforce global communication to ensure that terminology creation standards remain aligned during the onboarding of new organizations in UNTERM and in collaboration with New York. The subprogramme will provide training and guidance to users and producers of terminology to harmonize terminology across the portal;
 - (c) Continuously improve recruitment methods for temporary language staff and individual language contractors.
- 2.94 The above-mentioned work is expected to result in:
- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
 - (b) The consistent use of official terminology in the official languages;
 - (c) Improved access to knowledge resources through the provision of machine-readable documents.

Programme performance in 2022

Member States benefit from high-quality and consistent documentation generated through a simplified drafting and automatic formatting process

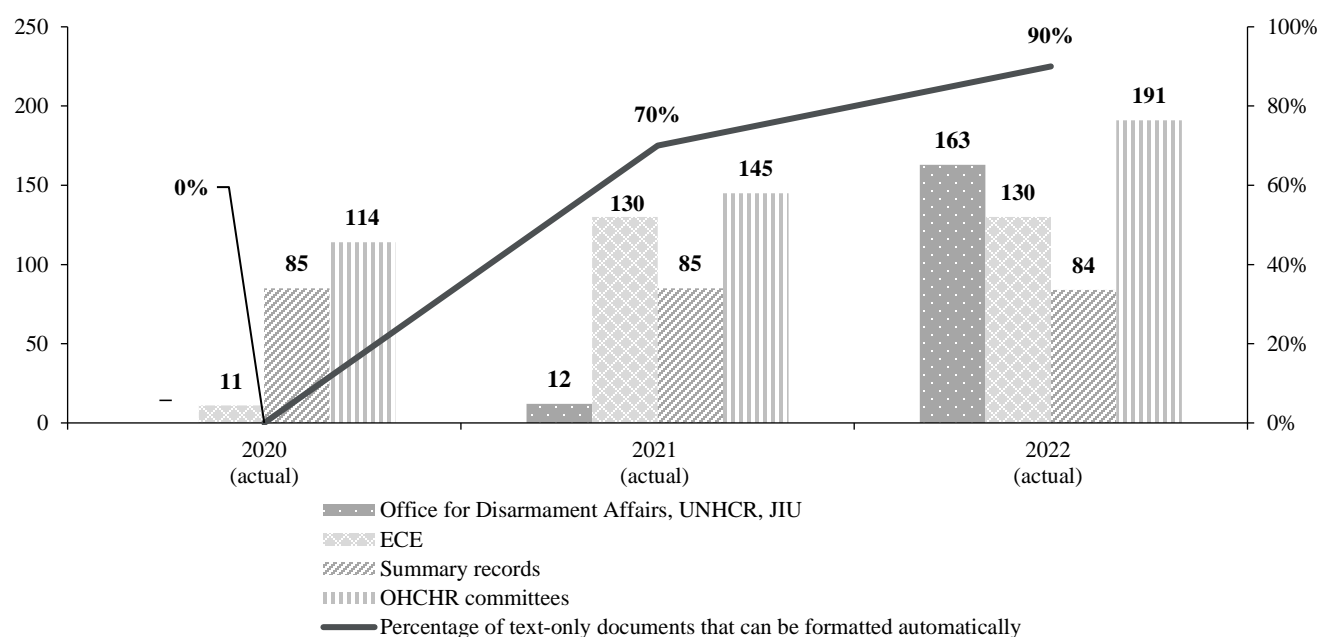

- 2.95 The subprogramme developed an online document-generation system to improve the quality of original submissions and to streamline and optimize document drafting processes. Substantive secretariats access the system directly to download the latest versions of parliamentary document templates and initiate their documents with a few clicks. The system eliminates errors and increases consistency across documents by automatically inserting the correct wording depending on the type

of document and language specifications. It generates templates that are harmonized across the official languages and respect formatting and editorial guidelines. The subprogramme initially created templates for the Office of the United Nations High Commissioner for Human Rights and has since expanded to the Economic Commission for Europe, the Office for Disarmament Affairs, the Joint Inspection Unit, the Office of the United Nations High Commissioner for Refugees and others. As a result of a new feature allowing clients to automatically format documents, more than 90 per cent of text-only parliamentary documents can now be formatted automatically with a single click. In the future the system will be trained to format more complex documents.

2.96 Progress towards the objective is presented in the performance measure below (see figure 2.XI).

Figure 2.XI

Performance measure: number of templates and percentage of text-only documents that can be formatted automatically in the document generation system (annual)

Abbreviations: ECE, Economic Commission for Europe; JIU, Joint Inspection Unit; OHCHR, Office of the United Nations High Commissioner for Human Rights; UNHCR, Office of the United Nations High Commissioner for Refugees.

Planned results for 2024

Result 1: accurate terminology on emerging concepts and subject matters, including gender-inclusive language, in United Nations documentation

Programme performance in 2022 and target for 2024

2.97 The subprogramme's work contributed to 94 per cent of Member States expressing satisfaction with the use of official terminology on emerging concepts in United Nations documents, against the planned target of 100 per cent. Although the planned target was not met, the subprogramme followed up on the circumstances that led to the dissatisfaction, and it was determined that the concern related to a matter involving informal documents that did not originate from the subprogramme.

2.98 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.XII).

Figure 2.XII

Performance measure: rate of Member States' satisfaction with the use of official terminology on emerging concepts in United Nations documents (annual)

(Percentage)

**Result 2: documentation needs of Member States met through succession planning****Programme performance in 2022 and target for 2024**

- 2.99 The subprogramme's work contributed to the 100 per cent timely issuance of documents that were submitted on time and within the word limit, which met the planned target.
- 2.100 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.XIII).

Figure 2.XIII

Performance measure: timely issuance compliance for documents that were submitted on time and within the word limit

(Percentage)

Result 3: innovation in action: leveraging machine-readable documents

Proposed programme plan for 2024

2.101 The subprogramme will automate the production of resolutions for the Human Rights Council in a machine-readable format, based on the Akoma Ntoso standard, in line with the work conducted under subprogramme 3 in New York.

Lessons learned and planned change

2.102 The lesson for the subprogramme was to use machine-readability technology to provide new services, facilitate the extraction of data in a structured way and work towards the accelerated production of compilations of resolutions. Going forward, the subprogramme will map out the commonalities and specificities of and between documents and will adapt the eLUNa converter to the Human Rights Council resolutions.

2.103 Expected progress towards the objective is presented in the performance measure below (see table 2.17).

Table 2.17
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Resolutions of the General Assembly available in machine-readable format using the Akoma Ntoso standard for the United Nations and displayed in interactive reports that enabled data visualization in graphs and charts	Resolutions adopted by the General Assembly at its seventy-fifth session available in machine-readable format in line with the Akoma Ntoso standard for the United Nations	User requirements validated and standardized markup available for Human Rights Council resolutions in machine-readable format in line with the Akoma Ntoso standard	Human Rights Council resolutions automatically generated in machine-readable format on a pilot basis in line with the Akoma Ntoso standard	Availability of resolutions adopted by the Human Rights Council in machine-readable format in line with the Akoma Ntoso standard, with visualizations

Deliverables

2.104 Table 2.18 lists all deliverables by the subprogramme.

Table 2.18
Geneva, subprogramme 3: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	550	576	550	550
Summary records of:				
1. Meetings of intergovernmental and expert bodies on human rights	490	512	490	490
2. Meetings of intergovernmental and expert bodies on legal affairs	35	49	35	35
3. Other meetings	25	15	25	25
Documentation services for meetings (thousands of words)	73 000	77 935	73 000	73 000
4. Editing, translation and desktop publishing of documents for intergovernmental and expert bodies on human rights, including the Human Rights Council and the treaty bodies	42 250	45 662	42 250	42 250

Section 2 General Assembly and Economic and Social Council affairs and conference management

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
5. Translation and desktop publishing of documents for intergovernmental and expert bodies on cooperation for development, including the United Nations Conference on Trade and Development and the Economic Commission for Europe	16 000	15 446	16 000	16 000
6. Editing, translation and desktop publishing of documents for intergovernmental and expert bodies on legal affairs, including the International Law Commission	4 850	4 340	4 850	4 850
7. Translation and desktop publishing of documents for intergovernmental and expert bodies on disarmament, including the Conference on Disarmament	3 500	4 228	3 500	3 500
8. Translation and desktop publishing of documents for intergovernmental and expert bodies on the environment, including the Conference of the Parties to the United Nations Framework Convention on Climate Change and the Conference of the Parties to the United Nations Convention to Combat Desertification	2 400	4 056	2 400	2 400
9. Editing, translation and desktop publishing of documents for other intergovernmental and expert bodies	4 000	4 203	4 000	4 000

C. Substantive deliverables

Databases and substantive digital materials: terminological records for UNTERM – the official terminological collection of the United Nations, which comprises some 664,000 records in the six official languages.

E. Enabling deliverables

Correspondence and documentation services: documentation services; approximately 300 non-parliamentary documents provided to 13 client departments; mandated publications for the International Law Commission available in all six official languages.

**Subprogramme 4
Meetings and publishing services**

Objective

- 2.105 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Geneva.

Strategy

- 2.106 To contribute to the objective, the subprogramme will continue, in coordination with the other main conference-servicing duty stations and in addition to the activities, except for verbatim reporting, indicated in paragraph 2.65 above, to:
- (a) Lead innovation projects, including Indico.UN and fully automated speech-to-text (FAST) technology, and fully participate in the global innovation projects of the Department, including eAPG;
 - (b) Provide digital documentation to delegates in a structured and integrated way.
- 2.107 The above-mentioned work is expected to result in:
- (a) More effective utilization and expanded provision of the Organization’s meetings and publishing services;
 - (b) Greater access for meeting participants and end users of publishing services to United Nations products to maximize their engagement with the intergovernmental process.

Programme performance in 2022

Delivery of high-quality interpretation services despite challenges faced by increasing demand for meeting services

- 2.108 With the number of meetings held in Geneva returning to near pre-pandemic levels in 2022 and job market conditions favouring freelance interpreters, the subprogramme faced a challenge with regard to finding qualified additional capacity to fill current and future needs. The subprogramme took this opportunity to move beyond hiring freelancers and proceeded to strengthen interpreter resources and increase workforce diversity through the recruitment of promising candidates from Africa and Latin America and the Caribbean for short-term temporary staff positions. The new temporary staff are benefiting from intensive on-the-job training and coaching towards success in future competitive examinations for language positions.
- 2.109 Progress towards the objective is presented in the performance measure below (see table 2.19).

Table 2.19

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
–	–	Member States receive strengthened interpretation servicing through greater vernacular diversity and increased awareness of region-specific vocabulary and phonetics The percentage of Member State respondents who gave a good or very good rating for overall satisfaction with quality of interpretation services was more than 90 per cent

Planned results for 2024

Result 1: multilingual deliberations ensured by interpretation services with robust business continuity tools

Programme performance in 2022 and target for 2024

- 2.110 The subprogramme's work contributed to the servicing of 98 per cent of programmed meetings with interpretation, against the planned target of 100 per cent. The target was not met owing to a number of meetings that were cancelled by the organizers, which was beyond the control of the subprogramme.
- 2.111 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.XIV).

Figure 2.XIV

Performance measure: meetings programmed versus meetings held with interpretation (annual)

^a The number of meetings programmed for 2023 and 2024, as shown in the present figure, reflects projections based on information made available by meeting organizers.

Result 2: contingency plans for maintenance of a broad array of sustainable conference-servicing modalities technically accessible to all

Programme performance in 2022 and target for 2024

- 2.112 The subprogramme's work contributed to 10 per cent of calendar meetings with virtual document distribution, which exceeded the planned target of 7 per cent.
- 2.113 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.XV).

Figure 2.XV

Performance measure: percentage of calendar meetings with virtual document distribution

Result 3: automatic transcription in all languages through the use of fit-for-purpose technologies

Proposed programme plan for 2024

- 2.114 Geneva annually services approximately 3,200 meetings with interpretation. The subprogramme has been facilitating multilingual deliberations and helping delegates and other stakeholders in the Geneva conferencing ecosystem save time when reviewing recordings of meetings through the fully

automated speech-to-text (FAST) project, which uses the technological advances in the field of automatic speech recognition to produce searchable transcripts of meeting proceedings. These transcripts are being adopted and incorporated into the workflows to prepare meeting-related documentation, including summary records, press summaries and meeting reports. Since 2019, staff involved with FAST have been collecting training data specific to the United Nations Office at Geneva and collaborating with the World Intellectual Property Organization to retrain that entity's proprietary speech-to-text system to recognize United Nations domain terminology, diverse accents and multilingual speakers.

Lessons learned and planned change

- 2.115 The lesson for the subprogramme was the need to find ways to continually enhance and optimize workforce strength and capacity, and ensure the utilization of resources that would match fluctuating workloads. In applying the lesson, the subprogramme will focus on expanding the new speech-to-text system to integrate all six official languages and make it extensible for future use. The subprogramme will automate and extend the provision of transcripts of meeting proceedings to public meetings at the United Nations Office at Geneva in English, French and Spanish in 2023 and then in all six official languages by 2024. The redesigned digital recording portal will display word-aligned transcriptions with the audio, and the Indico.UN event pages will provide links to meeting recordings and transcripts for ease of reference.
- 2.116 Expected progress towards the objective is presented in the performance measure below (see figure 2.XVI)

Figure 2.XVI

Performance measure: number of hours of meeting recordings transcribed per year

Deliverables

- 2.117 Table 2.20 lists all deliverables for the subprogramme.

Table 2.20
Geneva, subprogramme 4: deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	3 200	3 136	3 200	3 200
Meetings with interpretation for:				
1. Intergovernmental and expert bodies on human rights, including the Human Rights Council and the treaty bodies	1 530	1 596	1 530	1 530
2. Intergovernmental and expert bodies on the environment, including the Conference of the Parties to the United Nations Framework Convention on Climate Change	50	75	50	50
3. Intergovernmental and expert bodies on cooperation for development, including the United Nations Conference on Trade and Development and the Economic Commission for Europe	860	834	860	860
4. Intergovernmental and expert bodies on disarmament	240	288	240	240
5. Other meetings	520	343	520	520
E. Enabling deliverables				
Publishing services: design and layout of publications, multimedia products, web pages, outreach materials and other products, formatted for both hard-copy and digital distribution to over 50 client entities based in Geneva and upon request for entities outside of the Geneva client group as part of workload-sharing.				

Conference management, Vienna

Subprogramme 2

Planning and coordination of conference services

Objective

- 2.118 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Vienna.

Strategy

- 2.119 To contribute to the objective, the subprogramme will, in coordination with the other main conference-servicing duty stations, and in addition to the activities indicated in paragraph 2.39 (a) to (d) above:
- (a) Optimize capacity for meetings and documentation services in a globally coordinated manner;
 - (b) Engage in continuous dialogue and regular consultations with Member States and substantive and technical secretariats to respond early to any changing conference-servicing and documentation needs of all Vienna-based international organizations;
 - (c) Continue to develop innovative processes and best practices to meet the evolving needs of global conference servicing and leverage new technologies including for business continuity.
- 2.120 The above-mentioned work is expected to result in:
- (a) The cost-effective use of conference servicing resources in the context of the mandated meetings of the client bodies;
 - (b) Responsive conference services that provide a broader range of client service modalities;
 - (c) The timely and simultaneous issuance of parliamentary documents in all six official languages.

Programme performance in 2022

Reduced environmental impact of printing through continued use of digital solutions

2.121 Although a growing number of meetings in Vienna were held with in-person participation, the subprogramme, upon request of the Member States, continued to support digital solutions developed for business continuity, including the online distribution of documentation, which benefited meeting participants. As a result, despite the increase in conference room utilization due to in-person participation, the printing of documents for each meeting was reduced, which had an additional environmental benefit.

2.122 Progress towards the objective is presented in the performance measure below (see figure 2.XVII).

Figure 2.XVII

Performance measure: conference room utilization rate and average print impressions per calendar meeting (annual)

Planned results for 2024

Result 1: business continuity in all areas of conference services, including documentation services

Programme performance in 2022 and target for 2024

2.123 The subprogramme's work contributed to the timely issuance of documentation for the consideration of Member States in support of the work of intergovernmental bodies, with 98 per cent of parliamentary documents issued in a timely manner, which met the planned target.

2.124 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.XVIII).

Figure 2.XVIII
Performance measure: percentage of timely issuance of parliamentary documents

Result 2: harmonized documentation and tools for stakeholders, including Member States

Programme performance in 2022 and target for 2024

- 2.125 The subprogramme’s work contributed to achieving a single global entry point for all documentation needs for clients at all offices through the deployment of client request, documentation management and language modules in gDoc, as well as the timely processing and issuance of documentation through the deployment of issuance and distribution modules, which exceeded the planned target of a single global entry point for all documentation needs for clients at all offices.
- 2.126 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 2.21).

Table 2.21
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Publication process and entitlement review streamlined for clients at all offices through the deployment of publication and pre-forecast modules	Documentation planning streamlined for clients at 2 duty stations through the deployment of the documentation planning module, with testing at the 2 remaining offices	Single global entry point for all documentation needs for clients at all offices through the deployment of client request module in gDoc Timely processing and issuance of documentation through the deployment of the documentation management, language, issuance and distribution modules in gDoc	Timely processing and issuance of documentation for clients at all offices through the deployment of issuance and distribution modules	Benefits in cost-effectiveness realized by global stakeholders from increased global harmonized documentation tool and workflow

Result 3: timely and reliable reporting of key performance indicators across duty stations made available to Member States

Proposed programme plan for 2024

2.127 To ensure reliable reporting on and comparability of indicators across duty stations and subprogrammes in a timely manner, the subprogramme has been working with the other duty stations on the implementation of the gData platform, as described in paragraph 2.47 above.

Lessons learned and planned change

2.128 The lesson for the subprogramme was the need to improve consistency across duty stations in reporting and ensure accuracy of the indicators. Going forward, the subprogramme will harmonize methodologies, practices and data sources for the recording and calculation of key performance indicators and proactively monitor the data flows, and will use gData reports to inform Member States and other stakeholders on the quantitative parameters of the conference services operations in a timely manner.

2.129 Expected progress towards the objective is presented in the performance measure below (see table 2.22).

Table 2.22
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	Availability of some indicators and reports for mandated reporting to Member States	Improved harmonization of methodologies and calculation of mandated reporting of some indicators and reports to Member States	Mandated reporting of all indicators to Member States with consistent adherence to harmonized methodologies globally

Deliverables

2.130 Table 2.23 lists all deliverables of the subprogramme.

Table 2.23
Vienna, subprogramme 2: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	5 500	3 587	5 770	5 890
1. Meetings of the Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice, the Conferences of the States Parties to the United Nations Conventions against Corruption and Transnational Organized Crime and the ad hoc committee of the General Assembly to elaborate an international convention on the misuse of information technologies, as well as other subsidiary bodies (United Nations Office on Drugs and Crime)	2 800	1 614	2 880	3 060
2. Meetings of the International Narcotics Control Board	110	251	110	110
3. Meetings of the Committee on the Peaceful Uses of Outer Space and its subcommittees	560	288	560	560
4. Meetings of the United Nations Commission on International Trade Law and its working groups	220	103	220	130

Section 2 General Assembly and Economic and Social Council affairs and conference management

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
5. Meetings of the United Nations Scientific Committee on the Effects of Atomic Radiation	90	113	90	90
6. Meetings of the United Nations Industrial Development Organization	430	182	450	380
7. Meetings of the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, Working Groups A and B	1 060	524	1 060	1 060
8. Other meetings	230	512	400	500
B. Generation and transfer of knowledge				
Technical materials (number of materials)	252	252	252	252
9. Annual calendar of conferences and meetings in Vienna	1	1	1	1
10. Daily “master final” programme of meetings of intergovernmental bodies	251	251	251	251
C. Substantive deliverables				
Consultation, advice and advocacy: informational session for 152 permanent missions in Vienna covering all six official languages.				
D. Communication deliverables				
Outreach programmes, special events and information materials: language day celebrations of all six official languages.				

Subprogramme 3 Documentation services

Objective

- 2.131 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Vienna.

Strategy

- 2.132 To contribute to the objective, the subprogramme will continue, in coordination with the other conference-servicing duty stations and in addition to the activities indicated in paragraph 2.52 above, to:
- (a) Participate in the global innovation projects of the Department, including gDoc and gText, leverage information technology tools, including eLUNa, provide inputs to UNTERM and maintain its repository of Vienna-specific reference material for in-house and external language professionals;
 - (b) Pursue dialogue with substantive secretariats and Member States to respond to their needs, requirements and priorities, and rigorously plan and coordinate documentation workflows and capacity.
- 2.133 The above-mentioned work is expected to result in:
- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
 - (b) The consistent use of official terminology in the official languages;
 - (c) Improved access to knowledge resources through the provision of machine-readable documents.

Programme performance in 2022

Improved user-friendliness of translations of the annual report questionnaire

2.134 The annual report questionnaire is a mandated tool used by the United Nations Office on Drugs and Crime to gather data on drugs from Member States in the six official languages. In its decision 63/15, the Commission on Narcotic Drugs adopted a revised questionnaire to be disseminated using an online data collection tool. It was important for the subprogramme to deliver translations of the questionnaire in a format that would enable the substantive secretariat to accurately input those translations into the tool. Adapting its working methods, the subprogramme prepared translations in bitext form to facilitate their input by the secretariat. It also provided training to language staff on the tool and, at the final stage, reviewed the translations directly in the tool to ensure the integrity and consistency of the multilingual content.

2.135 Progress towards the objective is presented in the performance measure below (see table 2.24).

Table 2.24

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
Decision 63/15 of the Commission on Narcotic Drugs to adopt a revised annual report questionnaire to be circulated online	Accurate input of the translations into the online tool enabled by streamlined translation processes	Improved user-friendliness of the annual report questionnaire in the six official languages enabled by strengthened capacity for the final review of translations in the tool

Planned results for 2024

Result 1: operational resilience through staff training that facilitates work-sharing

Programme performance in 2022 and target for 2024

2.136 The subprogramme's work contributed to the overall processing compliance rate of 98 per cent within the mandated time frame, which exceeded the planned target of 90 per cent.

2.137 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.XIX).

Figure 2.XIX

Performance measure: overall processing compliance in accordance with the mandated time frame

(Percentage)

Result 2: sustainable quality for the benefit of intergovernmental processes

Programme performance in 2022 and target for 2024

- 2.138 The subprogramme’s work contributed to sustainable quality assurance and quality control of self-revised translation enabled by the establishment of a common framework of best practices, which met the planned target.
- 2.139 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 2.25).

Table 2.25
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
Increase in translation workload standards mandated in General Assembly resolution 75/252	Increase in translation workload standards implemented	Sustainable quality assurance and quality control of self-revised translation enabled by the establishment of a quality framework comprising common best practices	Consistent satisfaction of Member States with documentation quality by piloting a common framework of best practices	Consistent satisfaction of Member States with documentation quality by drawing on the lessons learned from piloting and as needed, to update a common framework of best practices

Result 3: innovation in action: leveraging machine-readable documents

Proposed programme plan for 2024

- 2.140 The subprogramme plans to move from the manual compilation of the yearbooks of the United Nations Commission on International Trade Law (UNCITRAL) to an automated process.

Lessons learned and planned change

- 2.141 The lesson for the subprogramme was that machine-readability technology can facilitate the extraction of data in a structured way and accelerate the production of compilations of the yearbooks. Going forward, the subprogramme will map out the commonalities and specificities of and between documents and will adapt the eLUNa converter to some UNCITRAL documents, including model laws and conventions. The subprogramme will start by automating the production of some UNCITRAL documents, including model laws and conventions, using a machine-readability approach, based on the Akoma Ntoso standard, in line with the work conducted under subprogramme 3 in New York.
- 2.142 Expected progress towards the objective is presented in the performance measure below (see table 2.26).

Table 2.26
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Resolutions of the General Assembly available in machine-readable format using the Akoma Ntoso standard for the United Nations and displayed in interactive reports that enabled data visualization in graphs and charts	Resolutions adopted by the General Assembly at its seventy-fifth session available in machine-readable format in line with the Akoma Ntoso standard for the United Nations	User requirements validated through an assessment of the feasibility of converting certain UNCITRAL document types into machine-readable format	Certain UNCITRAL document types automatically generated in machine-readable format on a pilot basis in line with the Akoma Ntoso standard	Availability of UNCITRAL model laws and conventions in machine-readable format in line with the Akoma Ntoso standard, with visualizations

Deliverables

2.143 Table 2.27 lists all deliverables of the subprogramme.

Table 2.27
Vienna, subprogramme 3: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Documentation services for meetings (thousands of words)	24 660	27 109	24 400	26 400
1. Editing, translation and desktop publishing of documents for the Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice and the Conferences of the States Parties to the United Nations Conventions against Corruption and Transnational Organized Crime, as well as other subsidiary bodies (United Nations Office on Drugs and Crime)	10 300	12 240	10 300	11 300
2. Editing, translation and desktop publishing of documents for the International Narcotics Control Board	3 600	3 411	3 600	4 200
3. Editing, translation and desktop publishing of documents for the Committee on the Peaceful Uses of Outer Space and its subcommittees	2 400	2 679	2 400	2 800
4. Editing, translation and desktop publishing of documents for the United Nations Commission on International Trade Law and its working groups	6 000	6 809	6 000	6 030
5. Editing, translation and desktop publishing of documents for the United Nations Scientific Committee on the Effects of Atomic Radiation	60	81	100	70
6. Translation and desktop publishing of documents for the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, Working Groups A and B	1 000	978	1 000	1 000
7. Translation and desktop publishing of documents for the United Nations Industrial Development Organization	1 300	911	1 000	1 000
C. Substantive deliverables				
Databases and substantive digital materials: terminological records for UNTERM – the official terminological collection of the United Nations, which comprises some 664,000 records in the six official languages.				
E. Enabling deliverables				
Correspondence and documentation services: documentation services of more than 5 million words of non-parliamentary documents and publications edited, translated and published (desktop publishing) in all official languages.				

Subprogramme 4 Meetings and publishing services

Objective

- 2.144 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Vienna.

Strategy

- 2.145 To contribute to the objective, the subprogramme will continue, in coordination with the other main conference-servicing duty stations and in addition to the activities, except for verbatim reporting, indicated in paragraph 2.65 above, to:
- (a) Provide interpretation and publishing services in the official languages for United Nations entities and governing bodies operating from Vienna, as well as for other Vienna-based organizations;
 - (b) Develop ways to ensure maximum responsiveness to client needs, including by increasing the pool of freelance interpreters;
 - (c) Implement good practices related to the sustainability and accessibility of publishing services, including by providing an expanded array of e-publishing products.
- 2.146 The above-mentioned work is expected to result in:
- (a) Optimized interpretation services that are responsive to new and emerging conference services needs;
 - (b) Member States receiving visually informative content that is processed and distributed with minimal environmental impact.

Programme performance in 2022

Availability of high quality interpretation services despite challenges faced by increasing demand for meeting services

- 2.147 The subprogramme experienced challenges in accommodating the significant increase in demand for meetings and documentation services compared with the previous two years. Despite a 29 per cent increase in meetings with interpretation, all requests were accommodated. The subprogramme adjusted to heightened demand for interpretation services by contributing to the coordination of capacity among duty stations, which resulted in the joint servicing of meetings at headquarters and non-headquarters locations, as well as drawing on the global language roster for interpretation and at the same time contributing to competitive examinations for language positions and roster assessments for roster replenishment.
- 2.148 Progress towards the objective is presented in the performance measure below (see table 2.28).

Table 2.28
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
–	–	Member States/meeting participants receive interpretation services despite 29 per cent increase in number of meetings

Planned results for 2024

Result 1: multilingual deliberations supported by interpretation services with robust business continuity tools

Programme performance in 2022 and target for 2024

- 2.149 The subprogramme’s work contributed to the facilitation of multilingual deliberations, with 95 per cent of programmed meetings held with interpretation, against the planned target of 100 per cent. The target was not met owing to the cancellation of numerous programmed meetings as a result of public health measures and travel restrictions.
- 2.150 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.XX).

Figure 2.XX
Performance measure: meetings programmed versus meetings held with interpretation (annual)

^a The number of meetings programmed for 2023 and 2024, as shown in the present figure, reflects projections based on information made available by meeting organizers.

Result 2: contingency plans for maintenance of a broad array of sustainable conference-servicing modalities technically accessible to all

Programme performance in 2022 and target for 2024

- 2.151 The subprogramme’s work contributed to the creation of visually user-friendly content for complex data, which met the planned target.

2.152 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 2.29).

Table 2.29
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	Initial meetings held with substantive secretariats of Vienna-based organizations to present modern formats for conveying data to Member States	Modern data presentation and innovative e-book formats were piloted and fine-tuned	Broader spectrum of client-responsive formats is available for presenting technical data to Member States	Greater accessibility of publications and availability of more client-driven content and formats

Result 3: improved discoverability and accessibility of publications through the use of fit-for-purpose technologies

2.153 The subprogramme produces multilingual electronic publications that are made available on respective websites of Secretariat entities.

Lessons learned and planned change

2.154 The lesson for the subprogramme was that further work was required to improve accessibility and discoverability of publications by means of machine-readable metadata in the six official languages in order to make it easier for delegations and the public to find them using typical Internet search engines. Going forward, the subprogramme will standardize the inclusion of multilingual metadata in all publications and collaborate with authors to facilitate the creation of alternative text descriptions of tables and figures. The subprogramme will also work closely with authoring units to develop tailored microsites for the promotion of key serial publications or publications directly related to meetings.

2.155 Expected progress towards the objective is presented in the performance measure below (see table 2.30).

Table 2.30
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	Vienna-based organizations have metadata included in their publications to improve discoverability, along with a social media product to support the online promotion of their publications	Alternative text descriptions for tables and figures for some publications available to support accessibility and updated metadata guidelines to improve discoverability	Improved discoverability of publications in all six official languages

Deliverables

2.156 Table 2.31 lists all deliverables of the subprogramme.

Table 2.31

Vienna, subprogramme 4: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	678	788	815	702
Meetings with interpretation for:				
1. The Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice and the Conferences of the States Parties to the United Nations Conventions against Corruption and Transnational Organized Crime, as well as other subsidiary bodies (United Nations Office on Drugs and Crime)	303	206	340	322
2. The International Narcotics Control Board	60	68	60	60
3. The Committee on the Peaceful Uses of Outer Space and its subcommittees	60	96	60	60
4. The United Nations Commission on International Trade Law and its working groups	70	69	130	70
5. The United Nations Scientific Committee on the Effects of Atomic Radiation	10	13	10	10
6. The Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, Working Groups A and B	60	69	60	60
7. The International Atomic Energy Agency	85	214	100	90
8. The United Nations Industrial Development Organization	30	25	55	30
9. Other	–	28	–	–
E. Enabling deliverables				
Publishing services: preparation and processing through eCorrespondence of correspondence for seven United Nations entities; layout and design of publications, multimedia products, web pages, outreach materials and other products in all six official languages for both hard-copy and digital distribution provided to the Vienna client group, and upon request for entities outside of the Vienna client group as part of workload-sharing.				

Conference management, Nairobi

Subprogramme 2

Planning and coordination of conference services

Objective

2.157 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Nairobi.

Strategy

2.158 To contribute to the objective, the subprogramme will continue, in coordination with the other main conference-servicing duty stations and in addition to the activities indicated in paragraph 2.39 (a) to (d) above, to:

- (a) Provide substantive and organizational support to the main intergovernmental bodies headquartered in Nairobi, and to other non-calendar intergovernmental bodies, such as those for the multilateral environmental agreements falling under the substantive coordination of the

United Nations Environment Programme (UNEP) and the United Nations Human Settlements Programme (UN-Habitat);

- (b) Optimize capacity for meetings and documentation services in a globally coordinated manner;
- (c) Engage in continuous dialogue and regular consultations with Member States and substantive and technical secretariats to respond early to any changing conference-servicing and documentation needs of the Nairobi-based clients;
- (d) Contribute to innovative processes and best practices to meet the evolving needs of global conference servicing and leverage new technologies, including for business continuity;
- (e) Streamline workflows to fulfil the conference service requests of clients through a two-pronged approach: (i) the implementation of One-Stop Shop, tailored to the operations of the Nairobi duty station; and (ii) the extension of this tool to include a functionality for the event requester to explore diverse conference-servicing scenarios and a functionality for the management of consolidated costs for clients.

2.159 The above-mentioned work is expected to result in:

- (a) An increased number of meetings of intergovernmental bodies provided with adequate conference services;
- (b) An enhanced user experience, particularly with regard to the advance planning of events, including better budgeting, resulting in improved deliberations and decision-making processes of the bodies and organs serviced;
- (c) The timely and simultaneous availability of parliamentary documents in all six official languages.

Programme performance in 2022

Hybrid international conferences away from Nairobi successfully conducted

2.160 In 2022, the subprogramme provided increased technical and meeting planning and management support for hybrid conferences hosted away from Nairobi in response to two new intergovernmental processes mandated by the United Nations Environment Assembly of 2022, including an intergovernmental negotiating committee to develop a legally binding instrument on plastic pollution, including in the marine environment, as well as meetings in hybrid format for existing non-calendar bodies, including the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol. The subprogramme provided assistance to convoking secretariats and host Governments in finalizing the host Government agreement requirements related to conducting such conferences in hybrid form. Furthermore, the subprogramme managed the provision of hybrid meetings at locations in coordination with host Government and local service providers.

2.161 Progress towards the objective is presented in the performance measure below (see table 2.32).

Table 2.32

Performance measure: external hybrid events supported

2020 (actual)	2021 (actual)	2022 (actual)
–	Hybrid events held at the United Nations Office at Nairobi were successfully conducted	4 hybrid events held away from Nairobi (2 in Montreal, Canada; 1 in Dakar; and 1 in Punta del Este, Uruguay) were successfully conducted

Planned results for 2024

Result 1: conference management business continuity measures to sustain the intergovernmental process

Programme performance in 2022 and target for 2024

- 2.162 The subprogramme's work enabled the delivery of 95 per cent of programmed meetings, against the planned target of 100 per cent. The target was not met owing to late cancellations by meeting requesters of non-calendar meetings.
- 2.163 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.XXI).

Figure 2.XXI

Performance measure: percentage of programmed meetings held

Result 2: planning process for meetings and events automated and simplified to improve user experience

Programme performance in 2022 and target for 2024

- 2.164 The subprogramme's work contributed to the availability of a pilot gMeets/One-Stop Shop interface for clients and the development and testing of the pre-meeting request planning tool for clients and meetings/events planners, which met the planned target.
- 2.165 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 2.33).

Table 2.33
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	Identification of areas for automation in the process prior to the submission of meeting requests	Availability of a pilot gMeets/One-Stop Shop interface for clients Pre-meeting request planning tool for clients and meetings/events planners developed and tested by users	Improved user experience and feature enhancements for implementation of the automated scenario planning tool available to event and meetings requesters, reducing time requirements and the number of iterations for requests from 6 to 4 Integration of a single gMeets/One-Stop Shop interface to automate meeting requests and related service provision to other United Nations Office at Nairobi service providers, as well as their invoicing	Availability of further refinements and functionality improvements to One-Stop Shop and the automated scenario planning tool based on survey and analysis of user experience

Result 3: timely and reliable reporting of key performance indicators across duty stations made available to Member States

Proposed programme plan for 2024

- 2.166 To ensure reliable reporting and comparability of data across duty stations and subprogrammes in a timely manner, the subprogramme has been working with the other duty stations in the implementation of the gData platform as described in paragraph 2.47 above.

Lessons learned and planned change

- 2.167 The lesson for the subprogramme was the need to improve consistency across duty stations in reporting and ensure accuracy of the indicators. In applying the lesson, the subprogramme will harmonize methodologies, practices and data sources for the recording and calculation of key performance indicators and proactively monitor the data flows, and will use gData reports to inform Member States and other stakeholders on the quantitative parameters of the conference services operations in a timely manner.
- 2.168 Expected progress towards the objective is presented in the performance measure below (see table 2.34).

Table 2.34
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	Availability of some indicators and reports for mandated reporting to Member States	Improved harmonization of methodologies and calculation of mandated reporting of some indicators and reports to Member States	Mandated reporting of all indicators to Member States with consistent adherence to harmonized methodologies globally

Deliverables

2.169 Table 2.35 lists all deliverables of the subprogramme.

Table 2.35
Nairobi, subprogramme 2: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	3 236	3 015	3 275	5 000
1. Meetings of the United Nations Environment Assembly and subsidiary bodies	254	179	75	250
2. Meetings of the UN-Habitat Governing Council, Assembly, Executive Board and subsidiary bodies	66	61	50	150
3. Meetings of the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services	–	70	20	50
4. Meetings of the UNEP ad hoc open-ended expert meeting on marine litter and microplastics	–	26	–	–
5. Meetings of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer/Vienna Convention for the Protection of the Ozone Layer	113	84	50	100
6. Meetings on the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal	30	63	35	40
7. Meetings on the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade	8	16	35	40
8. Meetings on the Stockholm Convention on Persistent Organic Pollutants	10	34	35	40
9. Meetings of the UNEP Global Meeting of Montevideo focal points	10	39	–	–
10. African Ministerial Conference on the Environment	25	–	10	–
11. Conference of the Parties to the Minamata Convention on Mercury	–	49	20	–
12. Conference of the Parties to the Convention on Biological Diversity	20	194	10	50
13. Meetings of the UNEP Global Pact for the Environment	–	3	–	–
14. Meetings of regional and other groupings of Member States	200	476	200	450
15. Meetings of other intergovernmental or expert bodies and on programme delivery facilitation	2 500	1 721	2 735	3 830
C. Substantive deliverables				
Consultation, advice and advocacy: informational services and advice to the Bureau of the UN-Habitat Executive Board, the Committee of Permanent Representatives to UNEP and the United Nations Environment Assembly on options available for effective deliberations of upcoming meetings and conferences; orientation sessions for new members of the Committee of Permanent Representatives to UNEP and of the Committee of Permanent Representatives to UN-Habitat.				

Subprogramme 3

Documentation services

Objective

- 2.170 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Nairobi.

Strategy

- 2.171 To contribute to the objective, the subprogramme will continue, in coordination with the other main conference-servicing duty stations and in addition to the activities indicated in paragraph 2.52 above, to:
- (a) Participate in the global innovation projects of the Department, including gDoc and gText, leverage information technology tools, including eLUNa, provide inputs to UNTERM and maintain its repository of Nairobi-specific reference material for in-house and external language professionals;
 - (b) Pursue dialogue with substantive secretariats and Member States to respond to their needs, requirements and priorities, and rigorously plan and coordinate documentation workflows and capacity;
 - (c) Provide report-writing services for substantive secretariats of various multilateral environmental agreements.
- 2.172 The above-mentioned work is expected to result in:
- (a) The timely availability of high-quality documents, issued simultaneously in the official languages, in compliance with existing mandates;
 - (b) The consistent use of official terminology in the official languages;
 - (c) Improved access to knowledge resources through the provision of machine-readable documents for the United Nations.

Programme performance in 2022

Two new intergovernmental bodies receive high-quality documentation services

- 2.173 In 2022, the subprogramme began to service two new intergovernmental bodies established by the United Nations Environment Assembly at its fifth session. The subprogramme was able to realign its work and thereby provide high-quality multilingual documentation services, ensuring efficient and effective multilingual deliberation and decision-making processes.
- 2.174 Progress towards the objective is presented in the performance measure below (see figure 2.XXII).

Figure 2.XXII

Performance measure: number of additional words processed for two new intergovernmental bodies

(Thousands of words)

**Planned results for 2024****Result 1: a robust virtual workplace to support integrated global management****Programme performance in 2022 and target for 2024**

- 2.175 While the subprogramme's work contributed to a common document management system and harmonized practices to foster collaboration among duty stations, in total 260,597 words were accepted for workload-sharing from all duty stations (a decrease when compared with the 332,211 words accepted in 2021), against the planned target of an increase in the number of documents processed through workload-sharing. The target was not met owing to limited capacity resulting from the additional workload related to servicing two new intergovernmental bodies created by the United Nations Environment Assembly in March 2022.
- 2.176 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 2.36).

Table 2.36

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Documentation processing business continuity plans included remote servicing of meetings away from Nairobi	Formal submission for workload-sharing followed formal agreements between the four duty stations	A common document management system and harmonized practices to foster collaboration among duty stations were created	Fully established workload-sharing arrangements between the four duty stations will make for a more rational use of documentation resources, enhancing the agility of meeting-related services	More responsive and efficient use of meeting-related services for Member States and other clients, enabled by increased effectiveness of workload-sharing and flexible capacity among the four duty stations
Formal submission for workload-sharing followed informal agreements between the four duty stations	With increased workload-sharing among the four duty stations, Member States benefited from the efficient and timely delivery of documentation	A total of 260,597 words for workload-sharing was accepted from three duty stations		

Result 2: new mastheads for templates available to secretariats of meeting bodies on an online platform

Programme performance in 2022 and target for 2024

- 2.177 The subprogramme's work contributed to the preparation of consistent and up-to-date document formats, with 588 mastheads used in processing meeting documentation, against the planned target of 605 mastheads. The planned target was not met because part of the resources dedicated to this exercise had to be used to meet other operational needs related to the deployment of gDoc 2.0 in Nairobi.
- 2.178 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 2.XXIII).

Figure 2.XXIII

Performance measure: number of mastheads available on online platform

Result 3: innovation in action: leveraging machine-readable documents

Proposed programme plan for 2024

- 2.179 The subprogramme will automate the production of resolutions of the United Nations Environment Assembly to a machine-readable format, based on the Akoma Ntoso standard, in line with the work conducted under subprogramme 3 in New York.

Lessons learned and planned change

- 2.180 The lesson for the subprogramme was that machine-readability technology enables the provision of new services and facilitates the extraction of data in a structured way, allowing for the adoption of better-informed decisions. Going forward, the subprogramme will map out the commonalities and specificities of and between documents and will adapt the eLUNa converter to the United Nations Environment Assembly resolutions.
- 2.181 Expected progress towards the objective is presented in the performance measure below (see table 2.37).

Table 2.37
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Resolutions of the General Assembly available in machine-readable format using the Akoma Ntoso standard for the United Nations and displayed in interactive reports that enabled data visualization in graphs and charts	Resolutions adopted by the General Assembly at its seventy-fifth session available in machine-readable format in line with the Akoma Ntoso standard for the United Nations	User requirements validated through a feasibility assessment consisting of converting United Nations Environment Assembly resolutions into a machine-readable format	United Nations Environment Assembly resolutions automatically generated in machine-readable format on a pilot basis in line with the Akoma Ntoso standard	United Nations Environment Assembly resolutions generated in machine readable format in line with the Akoma Ntoso standard, with visualizations

Deliverables

2.182 Table 2.38 lists all deliverables of the subprogramme.

Table 2.38
Nairobi, subprogramme 3: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Documentation services for meetings (thousands of words)	5 720	9 124	9 400	9 000
Editing, translation and desktop publishing of documents for:				
1. The United Nations Environment Assembly and subsidiary bodies	800	692	500	600
2. The UN-Habitat Governing Council, Assembly, Executive Board and subsidiary bodies	900	787	1 500	800
3. The Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services	–	964	700	800
4. The Meetings of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer/Vienna Convention for the Protection of the Ozone Layer	1 000	602	1 200	900
5. The Conference of the Parties to the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal	250	586	500	500
6. The Conference of the Parties to the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade	90	682	500	500
7. The Conference of the Parties to the Stockholm Convention on Persistent Organic Pollutants	100	1 116	500	800
8. The African Ministerial Conference on the Environment	80	57	100	50
9. The Conference of the Parties to the Minamata Convention on Mercury	–	375	1 000	–
10. The intergovernmental negotiating committee on plastic pollution to develop an international legally binding instrument on plastic pollution, including in the marine environment	–	332	600	600
11. The ad hoc open-ended working group on a science-policy panel to contribute further to the sound management of chemicals and waste and to prevent pollution	–	519	800	600
12. Other intergovernmental bodies	2 500	2 412	1 500	2 850

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

C. Substantive deliverables

Databases and substantive digital materials: terminological records for UNTERM – the official terminological collection of the United Nations, which comprises some 664,000 records in the six official languages.

**Subprogramme 4
Meetings and publishing services**

Objective

- 2.183 The objective, to which this subprogramme contributes, is to ensure efficient and effective multilingual deliberation and decision-making processes of intergovernmental and expert bodies and conferences serviced by the United Nations in Nairobi.

Strategy

- 2.184 To contribute to the objective, the subprogramme will continue, in coordination with the other main conference-servicing duty stations and in addition to the activities, except for verbatim reporting, indicated in paragraph 2.65 above, to provide meetings and publishing services, including interpretation and publishing in the official languages, and meetings servicing at the United Nations Office at Nairobi to the main intergovernmental bodies headquartered in Nairobi and to other non-calendar intergovernmental bodies or secretariats requesting interpretation and publishing services.
- 2.185 The above-mentioned work is expected to result in:
- (a) More effective utilization and expanded provision of the Organization’s meetings and publishing services;
 - (b) Greater access to and improved services for meeting participants and end users of publishing services to maximize their engagement in the intergovernmental process, while leaving a smaller environmental footprint;
 - (c) Improved quality of remote participation for meetings in the context of business continuity.

Programme performance in 2022

Continued access to services despite increasing demand for meetings services compared with the previous two years

- 2.186 The subprogramme experienced challenges in accommodating the significant increase in demand for meetings services compared with the previous two years. At the United Nations Office at Nairobi this also affected the interpretation services. The heightened activities, while still within a comparable range to pre-pandemic levels, were held mostly in the months after meeting restrictions were removed. Mitigation measures, including drawing on the global language roster and using short-term contracts for freelance interpreters, were used to meet demand for meetings services.
- 2.187 Upon request by Member States for virtual and hybrid meeting formats, the subprogramme trained its workforce in the use of remote interpretation platforms, adapting its teams so that they would be able to cater for the provision of remote interpretation in most of the meetings it served if required, at both the duty station and abroad.
- 2.188 Progress towards the objective is presented in the performance measure below (see table 2.39).

Table 2.39
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
–	–	Member States received effective interpretation services despite the increased number of meetings Increased participation of Member States and other stakeholders in multilingual meetings, events and conferences

Planned results for 2024

Result 1: multilingual deliberations ensured by interpretation services with robust business continuity tools

Programme performance in 2022 and target for 2024

- 2.189 The subprogramme’s work contributed to the servicing of 100 per cent of programmed meetings with interpretation and therefore met the planned target of 100 per cent.
- 2.190 Progress towards the objective and target for 2024 are presented in the performance measure below (see figure 2.XXIV).

Figure 2.XXIV

Performance measure: meetings programmed versus meetings held with interpretation (annual)

^a The number of meetings programmed for 2023 and 2024, as shown in the present figure, reflects projections based on information made available by meeting organizers.

Result 2: contingency plans for maintenance of a broad array of sustainable conference-servicing modalities that are technically accessible to all

Programme performance in 2022 and target for 2024

- 2.191 The subprogramme's work contributed to training 16 freelance interpreters in the use of remote simultaneous interpretation platforms for contingencies and business continuity purposes, against the planned target of 65 freelancers. The target was not met as the majority of the interpreters available in the global language roster, which Nairobi uses, already had the required training.

Figure 2.XXV

Performance measure: number of freelance interpreters trained in the use of remote simultaneous interpretation platforms for contingencies and business continuity purposes (annual)

Result 3: enhanced accessibility and usability of publications through the use of defined best practices and fit-for-purpose technologies

Proposed programme plan for 2024

- 2.192 At the United Nations Office at Nairobi, the subprogramme regularly produces electronic publications which are provided to the clients and are made available through their websites.

Lessons learned and planned change

- 2.193 The lesson for the subprogramme was the need to find ways to continually enhance and optimize the electronic publications produced by improving their discoverability and usability in all official languages. Going forward, the subprogramme will define guidelines to improve the usability of electronic publications by, for example, requiring the inclusion of linked tables of contents and of multilingual metadata.
- 2.194 Expected progress towards the objective is presented in the performance measure below (see table 2.40).

Table 2.40
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	–	A small subset of publications updated that apply the guidelines to enhance their discoverability and usability	Improved discoverability and usability of publications in all official languages

Deliverables

2.195 Table 2.41 lists all deliverables of the subprogramme.

Table 2.41
Nairobi, subprogramme 4: deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)	269	342	460	350
Meetings with interpretation for:				
1. The United Nations Environment Assembly and subsidiary bodies	24	28	10	27
2. The UN-Habitat Governing Council, Assembly, Executive Board and subsidiary bodies	14	12	30	12
3. The Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services	–	17	20	20

2.197 Additional details on the distribution of the proposed resources for 2024 are reflected in tables 2.45 to 2.47 and figure 2.XXVI.

2.198 As reflected in tables 2.45 (1) and 2.47, the overall resources proposed for 2024 amount to \$346,291,500 before recosting, reflecting a net decrease of \$2,219,400 (or 0.6 per cent) compared with the appropriation for 2023. Resource changes result from three factors, namely: (a) technical adjustments; (b) new and expanded mandates; and (c) other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 2.XXVI

Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

**Explanation of variances by factor, component and subprogramme****Overall resource changes****Technical adjustments**

2.199 As reflected in tables 2.45 (1) and 2.47, resource changes reflect a net decrease of \$7,832,000, as follows:

- (a) **New York, subprogramme 2, Planning and coordination of conference services.** The decrease of \$2,447,600 under other staff costs relates to the removal of non-recurrent provisions in support of new and expanded mandates from the General Assembly for 2023;
- (b) **New York, programme support.** The increase of \$210,000 relates to the higher provision at continuing vacancy rates for one post of Chief of Service, Conference Services (D-1), one post of Information Systems Officer (P-3) and one post of Information Technology Assistant (General Service (Other level) reassigned in 2023 pursuant to Assembly resolution [77/264](#) A–C, which was approved for 2023 at a 50 per cent vacancy rate in line with the established practice;
- (c) **Geneva, subprogramme 2, Planning and coordination of conference services.** The decrease of \$4,573,000 relates to the removal of non-recurrent provisions for 2023 related to the resolutions and decisions adopted by the Human Rights Council at its twenty-sixth, twenty-seventh, forty-third and forty-fifth through fifty-first sessions;
- (d) **Vienna, conference management.** The decrease of \$1,021,400 under grants and contributions relates to the removal of a non-recurrent provision for 2023 relating to Assembly resolution [75/282](#) on countering the use of information and communications technologies for criminal purposes.

New and expanded mandates

2.200 As reflected in tables 2.45 (1) and 2.47, resource changes reflect an increase of \$5,807,600. The distribution across the subprogrammes is as follows:

- (a) **New York, subprogramme 2, Planning and coordination of conference services.** The increase of \$2,088,800 under other staff costs relates to additional requirements in support of mandates from the General Assembly on:
 - (i) Crimes against humanity (\$93,100; resolution [77/249](#));

- (ii) Investigation into the conditions and circumstances resulting in the tragic death of Dag Hammarskjöld and of the members of the party accompanying him (\$106,800; resolution [77/252](#));
 - (iii) Follow-up to the second United Nations Conference on Landlocked Developing Countries (\$290,400; resolution [77/246](#));
 - (iv) Further practical measures for the prevention of an arms race in outer space (\$51,200; resolution [77/250](#));
 - (v) The illicit trade in small arms and light weapons in all its aspects (\$494,800; resolution [76/232](#));
 - (vi) Developments in the field of information and telecommunications in the context of international security (\$145,900, resolution [75/240](#));
 - (vii) Modalities for the Summit of the Future (\$112,100; resolution [76/307](#));
 - (viii) Transparency in armaments (\$187,200; resolution [77/69](#));
 - (ix) Shifting the management paradigm in the United Nations: review of changes to the budgetary cycle (\$87,300; resolution [77/267](#));
 - (x) Follow-up to and implementation of the SIDS Accelerated Modalities of Action (SAMOA) Pathway and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States (\$520,000; resolution [77/245](#));
- (b) **Geneva, subprogramme 2, Planning and coordination of conference services.** The increase of \$3,010,800 relates to additional requirements (\$1,022,800 under other staff costs and \$1,022,800 under contractual services) in support of the human rights treaty body system, in accordance with General Assembly resolution [68/268](#), to service an additional five weeks of meetings per year, additional requirements of \$6,900 under other staff costs for 2024 in support of the Permanent Forum on People of African Descent pursuant to Assembly resolution [75/314](#), and requirements of \$958,300 under other staff costs pursuant to resolutions adopted by the Human Rights Council, as follows:

Resolutions from the forty-ninth to fifty-first regular sessions and thirty-fifth special session (2022) (\$847,900)

- (i) Rights of the child: realizing the rights of the child and family reunification (\$38,700; resolution [49/20](#));
- (ii) Situation of human rights of Rohingya Muslims and other minorities in Myanmar (\$54,200; resolution [50/3](#));
- (iii) Human rights and climate change (\$27,100; resolution [50/9](#));
- (iv) Access to medicines, vaccines and other health products in the context of the right of everyone to the enjoyment of the highest attainable standard of physical and mental health (\$27,100; resolution [50/13](#));
- (v) Elimination of female genital mutilation (\$27,100; resolution [50/16](#));
- (vi) The promotion and protection of human rights in the context of peaceful protests (\$34,000; resolution [50/21](#));
- (vii) Promoting reconciliation, accountability and human rights in Sri Lanka (\$27,100; resolution [51/1](#));
- (viii) The role of good governance in the promotion and protection of human rights (\$27,100; resolution [51/5](#));
- (ix) Conscientious objection to military service (\$27,100; resolution [51/6](#));

- (x) The safety of journalists (\$27,100; resolution [51/9](#));
- (xi) Countering cyberbullying (\$27,100; resolution [51/10](#));
- (xii) Local government and human rights (\$27,100; resolution [51/12](#));
- (xiii) The role of prevention in the promotion and protection of human rights (\$27,100; resolution [51/14](#));
- (xiv) Youth and human rights (\$54,200; resolution [51/17](#));
- (xv) Human rights and Indigenous Peoples (\$27,100; resolution [51/18](#));
- (xvi) Human rights and transitional justice (\$255,900; resolution [51/23](#));
- (xvii) Promoting international cooperation to support national mechanisms for implementation, reporting and follow-up (\$51,700; resolution [51/33](#));
- (xviii) Technical assistance and capacity-building to address the human rights implications of the nuclear legacy in the Marshall Islands (\$27,100; resolution [51/35](#));
- (xix) Deteriorating situation of human rights in the Islamic Republic of Iran, especially with respect to women and children (\$34,000; resolution [S-35/1](#));

Resolutions from previous years (before 2022) (\$110,400)

- (xx) Human rights, democracy and the rule of law (\$59,000; resolution [28/14](#));
 - (xxi) Promoting human rights through sport and the Olympic ideal (\$12,500; resolution [37/18](#));
 - (xxii) The right to development (\$38,900; resolution [42/23](#));
- (c) **Nairobi, subprogramme 2, Planning and coordination of conference services.** The increase of \$708,000 under other staff costs relates to additional requirements in support of the sixth session of the United Nations Environment Assembly in 2024, pursuant to General Assembly resolution [73/260](#) and United Nations Environment Assembly decision 5/4.

Other changes

2.201 As reflected in tables 2.45 (1) and 2.47, resource changes reflect a net decrease of \$195,000. The breakdown of changes is as follows:

- (a) **Policymaking organs.** A decrease of \$195,000 reflects the redeployment to section 3, Political affairs, of resources to support the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples. While resources for the Committee have been included in the programme budget of section 2, the resources are exclusively devoted to the issue of decolonization, with the purpose of monitoring the implementation of the Declaration. The monitoring of the implementation of the Declaration is a substantive activity, for which the mandate has historically been reflected in section 3 of the budget under subprogramme 4, Decolonization. The redeployment between budget sections 2 and 3 would result in the alignment of the resources with the substantive activities being undertaken by the Committee. The amount of \$195,000 comprises \$800 under hospitality; \$111,600 under travel of representatives; \$37,300 under travel of staff; \$22,200 under contractual services; \$22,100 under general operating expenses; and \$1,000 under supplies and materials;
- (b) **New York, subprogramme 2, Planning and coordination of conference services.** A decrease of \$8,739,900 under other staff costs reflects a more accurate distribution of conference service requirements among subprogrammes 2, 3 and 4. To plan and deliver integrated global conference services, the Department for General Assembly and Conference Management complements its authorized core staffing table by employing temporary full-time staff as temporary assistance for meetings from the global language rosters established in 2021. In addition, the Department continues to supplement its staffing table with short-term language professionals and specialists

on a when-actually-employed basis. The latter ensures the most cost-effective use of resources during the high workload seasons, as language staff are compensated only for days when they are required to report to duty. Historically, resources for conference services have been budgeted under subprogramme 2, as the distribution between subprogrammes is not known at the time of budgeting, and the Department redeploys funds in the course of the year on an as-needed basis to subprogrammes 3 and 4. However, the pattern of expenditure under subprogrammes 3 and 4 has become well established, and resource requirements can be reasonably anticipated based on prior-year experience; therefore, overall requirements can be formulated and distributed among subprogrammes 2, 3 and 4 for 2024 proactively. Upon completion of a thorough analysis of the consumption of resources under subprogrammes 3 and 4 on the basis of expenditures reported for 2022, the decrease of \$8,739,900 under subprogramme 2 and the corresponding increase of \$659,600 and \$8,080,300 under subprogrammes 3 and 4, respectively, facilitates a more accurate distribution of the requirements across subprogrammes 2, 3 and 4;

- (c) **New York, subprogramme 3, Documentation services.** A net increase of \$659,600 comprises a decrease of \$167,400 under posts reflecting the proposed abolishment of two posts of Editorial and Desktop Publishing Assistant (General Service (Other level)), as explained in annex III, and an increase of \$827,000 under other staff costs, to distribute, more accurately, conference service requirements across subprogrammes 2, 3 and 4, as explained in paragraph 2.201 (b) above;
- (d) **New York, subprogramme 4, Meetings and publishing services.** An increase of \$8,080,300 under other staff costs reflects a more accurate distribution of conference service requirements across subprogrammes 2, 3 and 4, as explained in paragraph 2.201 (b) above;
- (e) **Geneva, subprogramme 2, Planning and coordination of conference services.** A decrease of \$12,400 under general operating expenses reflects the redeployment of resources from subprogramme 2 to subprogramme 4 to align with operational business needs;
- (f) **Geneva, subprogramme 4, Meetings and publishing services.** An increase of \$12,400 under general operating expenses reflects the redeployment of resources from subprogramme 2 to subprogramme 4 to align with operational business needs;
- (g) **Nairobi, subprogramme 2, Planning and coordination of conference services.** A decrease of \$25,000 under other staff costs and the corresponding transfer of resources to posts in subprogramme 3 reflects the cost-neutral proposal to reclassify one post of Translator (P-3) to Reviser (P-4) in the Spanish Language Unit in subprogramme 3, as explained in paragraph 2.201 (h) below. The redeployment of resources from supplies and materials to general operating expenses in the amount of \$32,100 further aligns resource requirements in relation to the maintenance of data processing and office automation equipment;
- (h) **Nairobi, subprogramme 3, Documentation services.** The increase of \$25,000 under posts reflects the reclassification of one post of Translator (P-3) to Reviser (P-4) in the Spanish Language Unit, as explained in annex III to the present report.

Extrabudgetary resources

- 2.202 As reflected in tables 2.45 (2) and 2.46 (2), extrabudgetary resources amount to \$29,118,100. The resources would complement regular budget resources and would be used mainly to provide documentation processing and meeting services to organizers of extrabudgetary meetings on a cost recovery basis in four locations, while continuing to receive voluntary contributions to finance the German Translation Section located in New York. The authority to oversee the use of extrabudgetary resources rests with the Department for General Assembly and Conference Management, in accordance with the delegation of authority by the Secretary-General and its role as the programme manager.
- 2.203 Post and non-post resources would be used mainly to provide conference services to extrabudgetary activities, including meetings support, publishing and documentation processing, as well as enhance and maintain the suite of global technology solutions developed by the Department. The estimated

resource level for 2024 reflects a decrease of \$1,293,500 compared with the estimates for 2023, due mainly to the planned completion of the digitization project funded from extrabudgetary resources, and a net reduction of 10 posts (Local level) in Nairobi, including the transfer of 6 posts (Local level) in the area of telecommunications technical services from section 2 to section 29D, Administration, Nairobi, and the discontinuation of 4 Publishing Assistant posts (Local level) handling offset printing, exhibitions and estimates.

- 2.204 Extrabudgetary resources include the trust fund for German language translation, established in 1974 to provide resources to issue in German the resolutions and decisions of the General Assembly, as well as the other supplements to its official records, and the resolutions and decisions of the Security Council and the Economic and Social Council. The requirements funded from the trust fund include provisions for 10 posts and related operating expenses.

Policymaking organs

- 2.205 The resources proposed under this component would provide for requirements relating to standing intergovernmental organs, the technical servicing of which is the responsibility of the Department for General Assembly and Conference Management. Table 2.48 provides information on the standing intergovernmental organs, related mandates and proposed financial resource requirements under the regular budget. With regard to the Economic and Social Council, resources for technical secretariat support and conference services for meetings are provided for under conference management, New York.

Table 2.48
Policymaking organs
 (Thousands of United States dollars)

<i>Policymaking organ</i>	<i>Description</i>	<i>Additional information</i>	<i>2023 appropriation</i>	<i>2024 estimate (before recosting)</i>
General Assembly	Discusses any questions or any matters within the scope of the Charter of the United Nations or relating to the powers and functions of any organs provided for in the Charter and makes recommendations as provided in the Charter	Mandate: Articles 10 to 17 of the Charter of the United Nations	189.6	189.6
Trusteeship Council	Assists the General Assembly and the Security Council in carrying out their responsibilities with respect to the international trusteeship system	Mandate: Article 7 of the Charter of the United Nations	–	–
Economic and Social Council	Promotes international cooperation on economic, social and cultural issues and coordinates efforts to achieve internationally agreed goals, including the Sustainable Development Goals	Mandate: Articles 62 to 66 of the Charter of the United Nations	–	–
Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples	Exclusively devoted to the issue of decolonization, it was established with the purpose of monitoring the implementation of the Declaration	Mandate: Declaration on the Granting of Independence to Colonial Countries and Peoples, adopted by the General Assembly in its resolution 1514 (XV)	195.0	–
Total			384.6	189.6

- 2.206 The proposed regular budget resources for 2024 amount to \$189,600 and reflect a decrease of \$195,000 compared with the appropriation for 2023. The proposed changes are explained in paragraph 2.201 (a). Additional details on the distribution of the proposed resources for 2024 are reflected in table 2.49 and figure 2.XXVII.

(Thousands of United States dollars)

Executive direction and management

2.207 The executive direction and management component comprises the Office of the Under-Secretary-General and the Protocol and Liaison Service. The Under-Secretary-General for General Assembly and Conference Management is responsible for all the activities of the Department, as well as its administration, and represents the Secretary-General in meetings related to the functions of the Department and in intergovernmental organs and expert bodies, as required. The Under-Secretary-General is also responsible for guiding integrated global conference management involving Headquarters and the United Nations Offices at Geneva, Vienna and Nairobi, which includes managing the conference-servicing resources at Headquarters and providing policy guidance with regard to the utilization of the conference-servicing resources, the authority for which has been subdelegated to the Directors-General of the United Nations Offices at Geneva, Vienna and Nairobi, with a view to achieving the highest possible level of cohesion, synergy and efficiency. The Under-Secretary-General also chairs the International Annual Meeting on Language Arrangements, Documentation and Publications.

2.208 The Protocol and Liaison Service provides protocol support to the Secretary-General, the Deputy Secretary-General and, upon request, the President of the General Assembly. It also supports the protocol requirements of high-level dignitaries participating in United Nations meetings and conferences, whether at United Nations Headquarters or at conferences away from Headquarters. The Service ensures the timely registration of both mission personnel and conference participants,

Section 2 General Assembly and Economic and Social Council affairs and conference management

liaises with the host country and permanent missions and observer offices and provides protocol guidance on the United Nations system.

2.209 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Department is integrating environmental management practices into its operations. In 2019, the Department maintained International Organization for Standardization (ISO) 14001 certification for its publishing operations in Geneva, Nairobi and Vienna. The Department resumed the ISO certification process at Headquarters in 2022 following a delay caused by the pandemic in 2020.

2.210 Information on the timely submission of documentation and advance booking for air travel is reflected in table 2.50. The Department will continue to implement measures to improve the compliance rate through the advance purchasing of air tickets, the advance planning and nomination of travellers, advance planning for the onboarding of staff with contingencies in place and communicating with staff and managers to raise awareness of the requirement. The cases in which advance booking requirements could not be met were due to circumstances outside the control of the Department.

Extrabudgetary resources

2.214 Extrabudgetary resources for this subprogramme amount to \$306,500. The resources would complement regular budget resources and would be used mainly to provide for temporary assistance related to the planning and coordination of conference services for the non-calendar meetings of extrabudgetary clients.

**Subprogramme 3
 Documentation services**

2.215 The proposed regular budget resources for 2024 amount to \$92,125,600 and reflect an increase of \$659,600 compared with the appropriation for 2023. The proposed changes are explained in paragraph 2.201 (c). Additional details on the distribution of resources for 2024 are reflected in table 2.54 and figure 2.XXXI.

Extrabudgetary resources

2.216 Extrabudgetary resources for this subprogramme amount to \$2,807,000. The resources would complement regular budget resources and would provide for resources for the German Translation Section, as explained in para. 2.204, as well as be used to complement the core staffing table during the high workload period, including assistance related to documentation services for the non-calendar meetings of extrabudgetary clients.

**Subprogramme 4
 Meetings and publishing services**

2.217 The proposed regular budget resources for 2024 amount to \$57,836,200 and reflect an increase of \$8,080,300 compared with the appropriation for 2023. The proposed changes are explained in paragraph 2.201 (d). Additional details on the distribution of resources for 2024 are reflected in table 2.55 and figure 2.XXXII.

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

2.218 Extrabudgetary resources for this subprogramme amount to \$170,000. The resources would complement regular budget resources and would be used mainly to provide interpretation services and publishing, reproduction and distribution services related to the non-calendar meetings of extrabudgetary clients. The estimated resource level for 2024 reflects a decrease of \$1,126,600 compared with the estimate for 2023 owing to the planned completion of the digitization project.

Conference management, Geneva

Subprogramme 2

Planning and coordination of conference services

2.219 The proposed regular budget resources for 2024 amount to \$38,484,200 and reflect a net decrease of \$1,574,600 compared with the appropriation for 2023. The proposed changes are explained in paragraphs 2.199 (c), 2.200 (b) and 2.201 (e). Additional details on the distribution of the proposed resources for 2024 are reflected in table 2.56 and figure 2.XXXIII.

Extrabudgetary resources

2.220 Extrabudgetary resources for this subprogramme amount to \$1,880,400. The resources would complement regular budget resources and would be used mainly to provide temporary assistance for meetings related to meeting coordination services. The subprogramme intends to use extrabudgetary resources to service the non-calendar meetings of extrabudgetary clients, including in relation to the following disarmament conventions: the Anti-Personnel Landmines Convention, the Convention on Certain Conventional Weapons, the Convention on Cluster Munitions and the Biological Weapons Convention.

Subprogramme 3 Documentation services

2.221 The proposed regular budget resources for 2024 amount to \$54,322,700 and reflect no change compared with the appropriation for 2023. Additional details on the distribution of the proposed resources for 2024 are reflected in table 2.57 and figure 2.XXXIV.

Extrabudgetary resources

2.222 Extrabudgetary resources for this subprogramme amount to \$980,000. The resources would complement regular budget resources and would be used mainly to provide temporary assistance for meetings related to documentation services. The subprogramme intends to use extrabudgetary resources to service the non-calendar meetings of extrabudgetary clients, including in relation to the following disarmament conventions: the Anti-Personnel Landmines Convention, the Convention on Certain Conventional Weapons, the Convention on Cluster Munitions and the Biological Weapons Convention.

Subprogramme 4 Meetings and publishing services

2.223 The proposed regular budget resources for 2024 amount to \$29,626,800 and reflect an increase of \$12,400 compared with the appropriation for 2023. The proposed changes are explained in paragraph 2.201 (f). Additional details on the distribution of the proposed resources for 2024 are reflected in table 2.58 and figure 2.XXXV.

Geneva, subprogramme 4: distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

2.224 Extrabudgetary resources for this subprogramme amount to \$3,851,700. The resources would complement regular budget resources and would be used mainly to provide temporary assistance for meetings related to interpretation services and publishing, reproduction and distribution services. The subprogramme intends to use extrabudgetary resources to service the non-calendar meetings of

extrabudgetary clients, including in relation to the following disarmament conventions: the Anti-Personnel Landmines Convention, the Convention on Certain Conventional Weapons, the Convention on Cluster Munitions and the Biological Weapons Convention.

Conference management, Vienna

- 2.225 The General Assembly, in its resolution [49/237](#), requested the Secretary-General to establish a unified conference-servicing facility at the Vienna International Centre under the management of the United Nations. Accordingly, the Conference Management Service in Vienna provides services not only to the United Nations Office at Vienna and the United Nations Office on Drugs and Crime, but also to the International Atomic Energy Agency (IAEA), the United Nations Industrial Development Organization (UNIDO) and the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization. Under the terms of a memorandum of understanding among the organizations based at the Vienna International Centre, IAEA provides printing services for all organizations based at the Centre.
- 2.226 For 2024, the servicing of the above-mentioned non-Secretariat client organizations is estimated to account for approximately 26 per cent of the interpretation workload, 24 per cent of the meeting-servicing workload and 8 per cent of the documentation-servicing workload, including translation, editing and desktop publishing.

United Nations share (net budget)

- 2.227 The requirements of the conference services at Vienna are budgeted on a net basis, whereby the appropriation under the United Nations programme budget is made for the United Nations share of respective activities. The gross budget, for which the United Nations has responsibility under the arrangements for unified conference services, is also presented for consideration and approval by the General Assembly. Thus, the estimates that follow are presented on both a gross basis, which includes reimbursements by non-Secretariat organizations, and a net basis, as summarized in table 2.59.

Table 2.59

Vienna, programme of work: evolution of requirements on a gross and net basis

(Thousands of United States dollars)

	2022	2023	2024 estimate (before recosting)
Conference services, Vienna (gross budget)	28 780.7	31 305.2	30 283.8

Overall resource changes, Vienna (gross budget)

Technical adjustments

2.229 As reflected in table 2.60, resource changes reflect a decrease of \$1,021,400 under subprogrammes 2, 3 and 4, as follows:

- (a) **Vienna, subprogramme 2, Planning and coordination of conference services.** The decrease of \$416,700 relates to the removal in 2024 of non-recurrent provisions for the planning and coordination of conference services related to General Assembly resolution [75/282](#) on countering the use of information and communications technologies for criminal purposes;
- (b) **Vienna, subprogramme 3, Documentation services.** The decrease of \$247,500 relates to the removal in 2024 of non-recurrent provisions for documentation services related to Assembly resolution [75/282](#);
- (c) **Vienna, subprogramme 4, Meetings and publishing services.** The decrease of \$357,200 relates to the removal in 2024 of non-recurrent provisions for interpretation services related to Assembly resolution [75/282](#).

Other changes

2.230 As reflected in table 2.60, proposed cost-neutral changes under subprogrammes 2, 3 and 4 are as follows:

- (a) **Vienna, subprogramme 2, Planning and coordination of conference services.** The increase of \$295,500 relates to the proposed inward redeployment of one post of Documents Management Assistant (General Service (Other level)), one post of Documents Distribution Assistant (General Service (Other level)) and one post of Senior Meetings Services Assistant (General Service (Principal level)) from subprogramme 4, as explained in annex III;
- (b) **Vienna, subprogramme 3, Documentation services.** The net decrease of \$183,600 relates to the proposed outward redeployment of five posts of Editorial and Desktop Publishing Assistant (General Service (Other level)) to subprogramme 4 and the inward redeployment of three posts of Documents Management Assistant (General Service (Other level)) from subprogramme 4, as explained in annex III;
- (c) **Vienna, subprogramme 4, Meetings and publishing services.** The net decrease of \$111,900 relates to the proposed outward redeployment of one post of Documents Management Assistant (General Service (Other level)), one post of Documents Distribution Assistant (General Service

(Other level)) and one post of Senior Meetings Services Assistant (General Service (Principal level)) to subprogramme 2, as well as three posts of Documents Management Assistant (General Service (Other level)) to subprogramme 3, and the inward redeployment of five posts of Editorial and Desktop Publishing Assistant (General Service (Other level)) from subprogramme 3, as explained in annex III.

Subprogramme 2 Planning and coordination of conference services

2.231 The proposed resources on a gross basis for 2024 amount to \$5,739,900 and reflect a net decrease of \$121,200 compared with the approved level for 2023. The proposed change is explained in paragraphs 2.229 (a) and 2.230 (a) above. Additional details on the distribution of resources for 2024 are reflected in table 2.61 and figure 2.XXXVI.

Extrabudgetary resources

2.232 Extrabudgetary resources for this subprogramme amount to \$100,000. The resources would complement regular budget resources and would be used mainly to provide temporary assistance for servicing meetings.

**Subprogramme 3
Documentation services**

2.233 The proposed resources on a gross basis for 2024 amount to \$14,686,900 and reflect a decrease of \$431,100 compared with the approved level for 2023. The proposed change is explained in paragraphs 2.229 (b) and 2.230 (b) above. Additional details on the distribution of resources for 2024 are reflected in table 2.62 and figure 2.XXXVII.

Extrabudgetary resources

2.234 Extrabudgetary resources for the subprogramme amount to \$1,000,000. The resources would complement regular budget resources and would be used mainly to provide temporary assistance and contractual services related to the provision of documentation services.

**Subprogramme 4
Meetings and publishing services**

2.235 The proposed resources on a gross basis for 2024 amount to \$9,857,000 and reflect a decrease of \$469,100 compared with the approved level for 2023. The proposed change is explained in paragraphs 2.229 (c) and 2.230 (c). Additional details on the distribution of resources for 2024 are reflected in table 2.63 and figure 2.XXXVIII.

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

2.236 Extrabudgetary resources for this subprogramme amount to \$400,000. The resources would complement regular budget resources and would be used mainly to provide temporary assistance related to interpretation services.

Conference management, Nairobi

Subprogramme 2

Planning and coordination of conference services

2.237 The proposed regular budget resources for 2024 amount to \$3,341,100 and reflect a net increase of \$683,000 compared with the appropriation for 2023. The proposed change is explained in paragraphs 2.200 (c) and 2.201 (g). Additional details on the distribution of resources for 2024 are reflected in table 2.64 and figure 2.XXXIX.

Table 2.64

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

- 2.238 Extrabudgetary resources for this subprogramme amount to \$2,393,600. The resources would complement regular budget resources and would be used mainly to provide meetings and documents planning and coordination services to clients on a reimbursable basis. The decrease of \$30,000 is attributable mainly to the transfer of six posts (Local level) in technical services from the subprogramme to telecommunications and technical services under section 29D, Administration, Nairobi, to align and centralize the end-to-end responsibilities of technical audiovisual services for conference services at the United Nations Office at Nairobi. In addition, one position (P-4) will be redeployed from subprogramme 2 to subprogramme 3 and reclassified to the P-3 level to support documentation services; one post (Local level) will be redeployed from subprogramme 2 to programme support; and one post (Local level) will be redeployed from subprogramme 4 to subprogramme 2.

**Subprogramme 3
Documentation services**

- 2.239 The proposed regular budget resources for 2024 amount to \$4,354,300 and reflect an increase of \$25,000 compared with the appropriation for 2023. The proposed change is explained in paragraph 2.201 (h). Additional details on the distribution of resources for 2024 are reflected in table 2.65 and figure 2.XL.

 (Number of posts)

Extrabudgetary resources

2.240 Extrabudgetary resources for this subprogramme amount to \$2,962,500. The resources would complement regular budget resources and would be used mainly to provide documentation services on a reimbursable basis.

**Subprogramme 4
 Meetings and publishing services**

2.241 The proposed regular budget resources for 2024 amount to \$4,043,800 and reflect no change compared with the appropriation for 2023. Additional details on the distribution of resources for 2024 are reflected in table 2.66 and figure 2.XLI.

Table 2.66

Figure 2.XLI
Nairobi, subprogramme 4: distribution of proposed resources for 2024 (before recosting)

(Number of posts)

Extrabudgetary resources

- 2.242 Extrabudgetary resources for this subprogramme amount to \$4,788,500. The resources would complement regular budget resources and would be used mainly to provide meetings and publishing services on a reimbursable basis. The expected decrease of \$74,400 is attributable mainly to the reduction of four publishing services posts (Local level) in offset printing and exhibitions, and the transfer of one post (Local level) from subprogramme 4 to subprogramme 2.

Programme support

- 2.243 The programme support component comprises the Executive Office of the Department for General Assembly and Conference Management based in New York, as well as the Global Innovation and Data Analytics Service, which provides enterprise conference management solutions to all conference management operations in the four duty stations and United Nations common system entities. Those entities also benefit from the innovative technologies developed by the Department to enable integrated global conference management. With the post of a Chief of Service (D-1) effective 1 January 2023, the Global Innovation and Data Analytics Service integrated the Global Technical Team based in Vienna, which supports enterprise technology products for the Department and United Nations system-wide clients, and the Business Analysis Section based in New York, which supports New York-based clients. As the Service will focus on rationalizing and streamlining all operational support activities and its technology portfolio, and focus on data management to support decision-making and the delegation of authority framework, by the beginning of 2024 the component will also provide guidance to the Information Technology and Business Analysis Unit and the Evaluation, Analysis and Monitoring Section based in Geneva, which contribute to the development of the enterprise application Indico.UN and the data analytics tool gData in support of conference management, monitoring and oversight within established delegations of authority while also servicing local operations, and the Information Technology Unit in Nairobi, which services local operations.
- 2.244 The Information Technology and Business Analysis Unit in Geneva and the Information Technology Unit in Nairobi are responsible for maintaining, enhancing, supporting and advancing enterprise technology solutions and local information technology support that are critical to the delivery of effective and cost-efficient conference management, consistent with the Department's strategic priorities and operational needs and in support of the mandate implementation.

Section 2 **General Assembly and Economic and Social Council affairs and conference management**

- 2.245 The Global Technical Team based in Vienna comprises core staff, whose capacity and expertise is complemented by technical experts recruited as general temporary assistants and contractors. It is responsible for maintaining enterprise technology products, which cover the primary domains of meetings, documents and translation. The eAPG, gMeets and gDoc systems, developed and maintained by the Team, have become part of the enterprise conference management solutions, and gText facilitates efficient document processing.
- 2.246 The Business Analysis Section located in New York will continue to analyse business needs with a view to simplifying processes. On the basis of such analysis, the Section will continue to design, develop, deploy and maintain innovative information technology solutions for delegates in New York, provide timely client-oriented and critical responses to the needs of Member States and maintain up-to-date information and communications technology platforms, such as the online *Journal of the United Nations* and the e-deleGATE portal in an agile way.
- 2.247 The Executive Office provides central administrative services and policy advice to the Department in the areas of resource planning, human resources management, financial management, contracts, trust fund management and general administration. In the context of the integrated global management of conference services, the Executive Office is responsible for standardizing and harmonizing the administrative, budgetary and cost-recovery methodologies of the conference-servicing components at all four conference-servicing duty stations and for coordinating workforce and succession planning, staff development and performance management.
- 2.248 The proposed regular budget resources for 2024 amount to \$17,971,400 and reflect an increase of \$210,000 compared with the appropriation for 2023. The proposed change is explained in paragraph 2.199 (b). Additional details on the distribution of resources for 2024 are reflected in table 2.67 and figure 2.XLII.

Table 2.67

Programme support: evolution of financial and post resources

(Thousands of United States dollars)

	2022 expenditure	2023 appropriation	Changes					2024 estimate (before recosting)

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

2.249 **New York.** Extrabudgetary resources amount to \$5,847,900. The resources would complement regular budget resources and would be used mainly to provide extrabudgetary information technology requirements and administrative support necessary to service extrabudgetary clients.

2.250 **Nairobi.** Extrabudgetary resources amount to \$1,630,000. The resources would complement regular budget resources and would be used mainly to provide support for meetings, documents and publishing services on a reimbursable basis. The expected increase of \$49,200 compared with the estimate for 2023 is attributable mainly to the redeployment of one post (Local level) from subprogramme 2 to programme support to ensure the effective planning of acquisitions and asset management.

United Nations share (net budget): information technology support, Vienna

2.251 The requirements relating to information technology support for the conference services in Vienna are budgeted on a net basis, whereby the appropriation under the programme budget is made for the United Nations share of those activities. The gross budget, for which the United Nations has responsibility under the arrangements for unified conference services, is also presented for the consideration and approval of the General Assembly. Thus, the estimates for information technology that follow are presented on both a gross basis, which includes reimbursements by non-Secretariat organizations, and a net basis, as summarized in table 2.68.

Table 2.68
Information technology support, Vienna: evolution of requirements by gross and net budget

(Thousands of United States dollars)

	2022	2023	2024 estimate (before recosting)
Conference services, Vienna (gross budget)	1 154.3	1 385.6	1 385.6
Reimbursement by IAEA, UNIDO and the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization	40.2	312.9	312.9
United Nations (net budget)	1 114.1	1 072.7	1 072.7

Section 2 **General Assembly and Economic and Social Council affairs and conference management**

2.252 As shown in table 2.68, the regular budget resource requirements for 2024 are estimated at \$1,072,700 and reflect no change compared with the 2023 appropriation.

Resource requirements (gross budget): information technology support, Vienna

2.253 The proposed resources on a gross basis for 2024 amount to \$1,385,600 and reflect no change compared with the approved level for 2023. Additional details on the distribution of resources for 2024 are reflected in table 2.69 and figure 2.XLIII.

Annex I

Organizational structure and post distribution for 2024

New York: The charts showing the organizational structure of the Department for General Assembly and Conference Management are presented below.

Justification for the proposed changes

The proposed change includes the establishment of the Global Innovation and Data Analytics Service by integrating the Business Analysis Section in New York and the Global Technical Team in Vienna, led by the Chief, Conference Services, at the D-1 level, to lead and oversee the innovative data management technologies that enable integrated global conference planning and management. The Chief would also provide guidance to the Information Technology and Business Analysis Unit in Geneva and the Information Technology Unit in Nairobi.

The Department's pursuit of improvement and innovation in the past few years has resulted in the development of efficient and effective information technology platforms (such as eAPG, gMeets, gDoc and gText) and innovative tools (e-deleGATE, the *Journal of the United Nations* and Indico.UN) used to provide client-oriented services to Member States and organizers of meetings. The increased use of technologies enables further efficiencies in planning, distributing, managing and monitoring language capacities across all four duty stations as well as ensuring business continuity during periods of disruption. As the demand for conference services and the complexity of their delivery continues to increase, the importance of leveraging the newest technologies and adapting working methods has proven ever more critical to implementing the Department's core mandate to provide high-quality, timely, cost-effective, sustainable and accessible conference management services. In addition, as mandated by the General Assembly, the need for the integration of conference management software with enterprise systems in support of the Secretariat-wide information and communications technology strategy requires a change in the management of these resources. To truly achieve integrated global management and coherence among the duty stations as well as integration with enterprise systems, it is proposed that the architecture and governance of the capabilities currently dispersed across many organizational units and duty stations be centralized.

Nairobi: Two charts showing the organizational structure of the Division of Conference Services are presented below.

Justification for the proposed changes

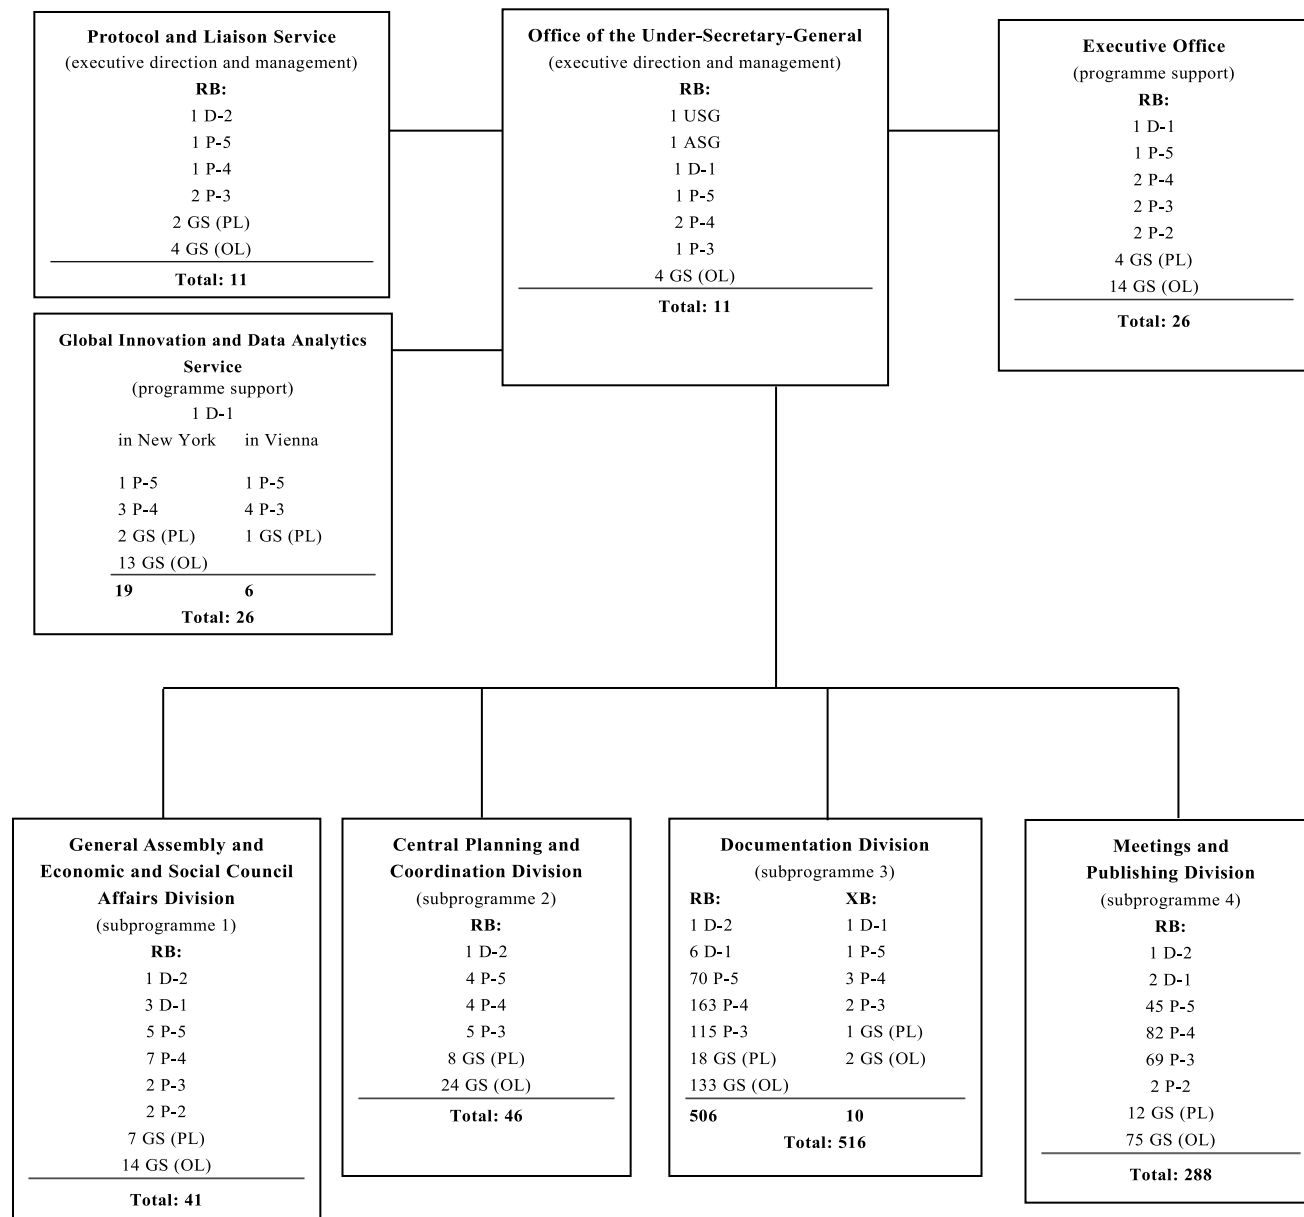

The proposed change entails the transfer of technical services from subprogramme 2 to telecommunications and technical services under section 29D, Administration, Nairobi, to align and centralize the end-to-end responsibilities of technical audiovisual services for conference services at the United Nations Office at Nairobi.

Annex II

Summary of follow-up action taken to implement relevant recommendations of advisory and oversight bodies

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions

[A/77/7](#)

The Advisory Committee notes that the provision of hybrid and virtual meetings requires a mandate from the General Assembly along with approved legal parameters and technical requirements. The Committee considers that the Committee on Conferences could review the necessary requirements for the provision of hybrid and virtual meetings, based on a rigorous assessment by the Secretariat, including best practices, challenges and lessons learned, and in consultation with Member States, for the consideration of the Assembly (para. 71).

The Department for General Assembly and Conference Management will address the recommendation of the Advisory Committee in the annual pattern of conferences report, which will be considered in September 2023 by the Committee on Conferences.

Annex III

Summary of proposed post changes, by component and subprogramme

<i>Component/subprogramme</i>	<i>Posts</i>	<i>Level</i>	<i>Description</i>	<i>Reason for change</i>
New York: subprogramme 3, Documentation services	(2)	GS (OL)	Abolishment of 2 Editorial and Desktop Publishing Assistants	The proposal to abolish two vacant posts of Editorial and Desktop Publishing Assistant is an outcome of the review of the configuration of the Office of the Director of the Documentation Division and the result of proactive workforce planning by the Documentation Division. Specifically, funds released from these two posts would be reallocated for temporary assistance for meetings and facilitate the recruitment of temporary language professionals and specialists on an as-needed basis during the high workload period. The Documentation Division would continue to complement in-house capacity with temporary staff on a full-time and when-actually-employed basis, as well as with contractual translation personnel; therefore, the internal redeployment of funds would ensure that the staffing table across the language services can be complemented on an as-needed basis and equitable distribution of the language capacity can be achieved to ensure simultaneous processing of the documentation in six languages
Nairobi: subprogramme 3, Documentation services	1	P-4	Reclassification of 1 Translator at the P-3 level to Reviser at the P-4 level	It is proposed that an in-house reviser, in the Spanish Language Unit, be established to enable the efficient revision of documents in-house and in line with equal treatment for all languages In 2021 and 2022, the Conference Management Service in Vienna conducted a series of strategic planning exercises aimed at optimizing the workforce in the light of advances in technology and the evolution of conference services and products. In 2024, the Service proposes formalizing the resulting cost-neutral changes for the reasons below:
Vienna: subprogramme 4, Meetings and publishing services	(1)	GS (OL)	Redeployment of Documents Management Assistant	To integrate all meetings support services under the supervision of one Unit Chief, provide additional technical support and align the organizational structure with operational requirements
Vienna: subprogramme 2, Planning and coordination of conference services	1	GS (OL)		
Vienna: subprogramme 4, Meetings and publishing services	(1)	GS (OL)	Redeployment of Documents Distribution Assistant	To integrate all meetings support services under the supervision of one Unit Chief, provide additional technical support and align the organizational structure with operational requirements
Vienna: subprogramme 2, Planning and coordination of conference services	1	GS (OL)		

Section 2 General Assembly and Economic and Social Council affairs and conference management

<i>Component/subprogramme</i>	<i>Posts</i>	<i>Level</i>	<i>Description</i>	<i>Reason for change</i>
Vienna: subprogramme 4, Meetings and publishing services	(1)	GS (PL)	Redeployment of Senior Meetings Services Assistant	To integrate all meetings support services under the supervision of one Unit Chief, enhance meetings management capacity and align the organizational structure with operational requirements
Vienna: subprogramme 2, Planning and coordination of conference services	1	GS (PL)		
Vienna: subprogramme 3, Documentation services	(5)	GS (OL)	Redeployment of 5 Editorial and Desktop Publishing Assistants	To strengthen internal capacity for processing multilingual publications and align the organizational structure with operational requirements
Vienna: subprogramme 4, Meetings and publishing services	5	GS (OL)		
Vienna: subprogramme 4, Meetings and publishing services	(3)	GS (OL)	Redeployment of 3 Documents Management Assistants	To align correspondence and text-processing functions for synergy and greater efficiency and bring the former under the supervision of a language professional
Vienna: subprogramme 3, Documentation services	3	GS (OL)		

Abbreviations: GS (OL), General Service (Other level); GS (PL), General Service (Principal level).

I. Department of Political and Peacebuilding Affairs

Foreword

The world today is at a challenging juncture, with a deteriorating peace and security environment. Major conflicts, political crises and complex transitions, such as those in Afghanistan, Ethiopia and the Horn of Africa, Myanmar, the Sudan, the Syrian Arab Republic, Ukraine, West Africa and the Sahel and the South Caucasus, which have had devastating effects in those countries and worldwide, demand increased attention.

Our work related to good offices, mediation, electoral assistance and peacebuilding remained critical, including in Yemen, where a truce brought much-needed respite from violence, and in Libya, where the ceasefire continued to hold. Responding to the Secretary-General's call to accelerate innovation, the Department of Political and Peacebuilding Affairs integrated new approaches to advance peace processes, de-escalate crises, prevent conflict and sustain peace.

In 2024, the Department foresees increased demand for support to strengthening national capacities for conflict prevention; facilitating dialogue; engaging in preventive diplomacy; advancing inclusive political and peace processes; providing electoral assistance; and contributing to long-term sustaining peace efforts by Member States.

In working across these areas, and to continue playing its central role in preventing, managing and solving conflict, the Department will further consolidate the peace and security pillar, together with the Department of Peace Operations, while working with development, humanitarian and human rights partners. Further, the Department will have a principal role in developing a New Agenda for Peace in consultation with Member States and relevant stakeholders as part of the preparations for the proposed Summit of the Future.

(Signed) Rosemary A. DiCarlo
Under-Secretary-General for Political and Peacebuilding Affairs

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 3.1 The Department of Political and Peacebuilding Affairs is responsible for all Secretariat matters related to the prevention, management and resolution of conflicts at the global level. The Department is the lead entity of the United Nations for good offices, political analysis, mediation, electoral assistance, peacebuilding support and political guidance as they relate to the Organization's efforts towards, inter alia, preventive diplomacy, peacemaking, peacebuilding and sustaining peace. The Department oversees the work of missions under its responsibility, including special envoys and regional offices. It also provides support to peacekeeping operations in the areas of mediation, electoral assistance and peacebuilding, as well as to resident coordinators. It provides substantive support and secretariat services to the Security Council and its subsidiary bodies, as well as to relevant subsidiary organs of the General Assembly, including the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and the Committee on the Exercise of the Inalienable Rights of the Palestinian People. The Department also provides strategic, substantive and technical support to the work of the Peacebuilding Commission, manages the Peacebuilding Fund on behalf of the Secretary-General and draws together the expertise of the United Nations system to facilitate coherent system-wide action in support of peacebuilding and sustaining peace and to build on linkages to the 2030 Agenda for Sustainable Development.
- 3.2 The mandate of the Department derives from the Charter of the United Nations and the priorities established in relevant General Assembly resolutions and decisions, including resolution [46/232](#), in which the Assembly established the Department of Political Affairs, and, more recently, resolution [72/262 C](#), in which the Assembly established the Department of Political and Peacebuilding Affairs. The proliferation of the number and intensity of conflicts over the past few years and their immense human and material cost confirms the importance of conflict prevention and resolution through inclusive political solutions, peacebuilding and sustaining peace.

Strategy and external factors for 2024

- 3.3 The Department has global responsibility for political and peacebuilding issues and manages a spectrum of tools and engagements across the conflict continuum to ensure a coherent and effective approach to conflict prevention and resolution, electoral assistance, peacebuilding and sustaining peace. Given its global mandate for conflict prevention and peacemaking, the Department will play a lead role within the United Nations in formulating and implementing comprehensive regional strategies that address cross-boundary issues, in cooperation with regional and subregional organizations.
- 3.4 In order to achieve these goals, the Department will rely on its expertise at Headquarters and its network of field presences, in particular, special political missions, regional offices and liaison presences with regional and other organizations, and the capacities of the United Nations peace and security pillar, which has been restructured since 2019.
- 3.5 The Department will continue to provide advice and substantive services to the Security Council, its subsidiary organs and the Military Staff Committee; assist and support the Peacebuilding Commission; provide advice and substantive support to the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples, as well as to other relevant intergovernmental bodies; and continue to provide support to the Committee on the Exercise of the Inalienable Rights of the Palestinian People.

- 3.6 With regard to cooperation with other entities at the global, regional, national and local levels, under Chapter VIII of the Charter, the Department, through its special political missions and its liaison offices, will continue to strengthen partnerships with regional and other organizations in the field of peace and security. The Department is also expanding its partnerships with other relevant actors, including civil society, in particular in support of women and young people.
- 3.7 With regard to inter-agency coordination and liaison, the Department will continue to participate in the Executive Committee established by the Secretary-General and chair a number of inter-agency task forces to coordinate and increase the coherence of United Nations system engagement in specific countries or regions, in accordance with entities' mandates, as well as various thematic inter-agency mechanisms. The Peacebuilding Fund, by nature a cross-pillar tool of financial support, will continue to work with and through agencies, funds and programmes in-country and at Headquarters. Under the United Nations-World Bank Partnership Framework for Crisis-Affected Situations, the Department will continue to work to strengthen partnerships with the World Bank and other international financial institutions to make international engagement in crisis-affected situations more coherent, effective and sustainable. The Department will maintain the Humanitarian-Development-Peacebuilding and Partnership Facility to support field teams' joint data, analysis and operational collaboration with the World Bank Group.
- 3.8 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Unity among Member States, in particular the Security Council, including in critical situations in which the United Nations is engaged;
 - (b) Existence of entry points for United Nations engagement to mitigate tensions and prevent conflict;
 - (c) Commitment of the parties to a conflict to engaging in a process towards the peaceful settlement of disputes.
- 3.9 The Department integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The Department's 2019 policy on women and peace and security builds on good practices across the Department and special political missions and is intended to ensure that priorities are integrated into the daily work of the Department and special political missions. These priorities, in line with the mandates entrusted to the Organization in the area of women and peace and security, encompass gender-sensitive analysis, promoting the inclusion of women in all peacemaking, peace-sustaining and peacebuilding efforts, and their participation in electoral and political processes. The policy also addresses such issues as preventing and assessing conflict-related sexual violence and post-conflict planning and financing. In addition, the Department supports the efforts of the Peacebuilding Commission to mainstream a gender perspective in all aspects of its work, including through the implementation of the Commission's gender strategy and by keeping track of progress through the submission of annual reports. The strategy of the Peacebuilding Fund also prioritizes women's engagement.
- 3.10 In line with the United Nations Disability Inclusion Strategy, the Department will implement a joint Department of Political and Peacebuilding Affairs-Department of Peace Operations action plan for disability inclusion with a view to reinforcing an organizational culture that supports the inclusion of persons with disabilities and further advancing disability inclusion in strategic planning and management, knowledge and information management. The Department will also foster engagement with government counterparts and civil society organizations to promote the inclusivity of political processes, including in addressing the needs of people with disabilities.

Impact of the pandemic and lessons learned

- 3.11 The continuation of the coronavirus disease (COVID-19) pandemic into 2022 had an impact on the implementation of mandates, in particular, the curtailment or postponement of travel for all subprogrammes, including for the organization of visits by the Security Council under

subprogramme 3, conferences of the Committee on the Exercise of the Inalienable Rights of the Palestinian People under subprogramme 5 and working and high-level meetings with the League of Arab States under subprogramme 7. Several activities under all subprogrammes were organized in a hybrid format, thus limiting the opportunity for in-person interaction.

- 3.12 The Department continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including by continuing to facilitate the virtual participation of briefers in the meetings of the Security Council and the Peacebuilding Commission at the request of Member States. This includes requests for briefings by civil society representatives who are unable to travel for meetings. The practice adopted during the COVID-19 pandemic provided an opportunity to include a more diverse set of briefers, increasing inclusion and broadening the participation of national actors. However, in-person discussions are often preferred to virtual modalities for mediation, good offices and negotiation in complex situations.

Legislative mandates

- 3.13 The list below provides all mandates entrusted to the programme.

Charter of the United Nations

Articles 33 and 99

General Assembly resolutions

46/232	Revitalization of the United Nations Secretariat	68/15 ; 72/14 ; 75/22	Peaceful settlement of the question of Palestine
57/296	Causes of conflict and the promotion of durable peace and sustainable development in Africa	69/9 ; 73/267 ; 75/11 ; 77/17 ; 70/98 ; 77/133	Cooperation between the United Nations and the League of Arab States Question of Western Sahara
61/230 ; 69/291 ; 75/327	Implementation of the recommendations contained in the report of the Secretary-General on the causes of conflict and the promotion of durable peace and sustainable development in Africa	72/199 ; 72/262 C	Restructuring of the United Nations peace and security pillar Special subjects relating to the programme budget for the biennium 2018–2019 (subsection III)

Security Council resolutions

1645 (2005)	2250 (2015)
1646 (2005)	2419 (2018)
2048 (2012)	2535 (2020)
2171 (2014)	2558 (2020)

Statements by the President of the Security Council

S/PRST/2021/2	S/PRST/2022/1
-------------------------------	-------------------------------

Subprogramme 1 Prevention, management and resolution of conflicts

General Assembly resolutions

47/120 A	An Agenda for Peace: preventive diplomacy and related matters	57/5	Elimination of unilateral extraterritorial coercive economic measures as a means of political and economic compulsion

Deliverables

3.14 Table 3.1 lists all cross-cutting deliverables of the programme.

Table 3.1
Cross-cutting deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	3	3	3	3
Meetings of the:				
1. Fifth Committee	1	1	1	1
2. Committee for Programme and Coordination	1	1	1	1
3. Advisory Committee on Administrative and Budgetary Questions	1	1	1	1

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
---------------------------------	-------------------------	------------------------	-------------------------	-------------------------

C. Substantive deliverables

Good offices: good offices and preventive diplomacy; high-level diplomatic missions and meetings, including jointly with 24 regional and subregional organizations; and support for field operations, including provision of mediation support.

Consultation, advice and advocacy: consultations with representatives of Member States, regional and subregional organizations and civil society organizations; and strategic coordination meetings with relevant partners.

Databases and substantive digital materials: multiple databases and data sets on international peace and security issues available on the Peace and Security Data Hub and on United Nations Peacemaker, including manuals and guides on international peace and security issues.

D. Communication deliverables

Outreach programmes, special events and information materials: exhibits and other communications products about the work of the Department.

External and media relations: statements on behalf of the Secretary-General; notes to correspondents; and press releases, communiqués and other communications products about the work of the Department.

Evaluation activities

3.15 The following evaluations completed in 2022 have guided the proposed programme plan for 2024:

- (a) Office of Internal Oversight Services (OIOS) evaluation of women and peace and security in field-based missions: elections and political transitions ([A/77/83](#));
- (b) Evaluation of Department of Political and Peacebuilding Affairs gender-sensitive analysis;
- (c) Report on lessons learned from phase 1 of the Peacebuilding Fund’s impact evaluation, learning and dissemination initiative (PeaceFIELD).

3.16 The results and lessons of the evaluations referenced above have been taken into account for the proposed programme plan for 2024. For example, in response to the OIOS recommendation for the Department of Political and Peacebuilding Affairs and the Department of Peace Operations to support and coordinate the contextualized women and peace and security efforts of field missions to enhance learning and knowledge exchange, the Departments began to meet quarterly on strategic issues related to the implementation of the agenda. The two Departments have also jointly launched a community of practice and will regularly convene sessions among field missions, covering a range of themes related to women and peace and security, to enable cross-mission learning and the documentation of best practices. In 2022, the Department of Political and Peacebuilding Affairs also completed an evaluation on the extent to which it had mainstreamed a gender perspective into its analytical products from 2019 to 2021. The assessment noted, inter alia, variations in subprogrammes’ reporting methodology and results, following which the Department issued updated guidance to better assist the respective subprogrammes. The report on lessons learned from phase one of the Peacebuilding Fund’s impact evaluation, learning and dissemination initiative provided recommendations to the Fund, including on the scope and scale of projects and the need to invest in building country partnerships for data collection.

3.17 The following evaluations to be conducted by the Department are planned for 2024:

- (a) Evaluation on innovation practices within the Department;
- (b) Peacebuilding Fund portfolio evaluation (Gambia).

Programme of work

Subprogramme 1

Prevention, management and resolution of conflicts

Objective

- 3.18 The objective, to which this subprogramme contributes, is to advance the prevention, management and resolution of conflicts by peaceful means.

Strategy

- 3.19 To contribute to the objective, the subprogramme will:
- (a) Support the pacific settlement of disputes, under Chapter VI of the Charter, through the use of the tools of preventive diplomacy, peacemaking, peacebuilding and sustaining peace;
 - (b) Work in close cooperation with a wide array of actors, in particular regional and subregional organizations, including under Chapter VIII of the Charter;
 - (c) Promote a more effective and cohesive response to help to prevent, mitigate, manage and resolve conflicts by:
 - (i) Responding in a timely manner to conflict situations;
 - (ii) Providing timely and accurate information, analysis and policy recommendations;
 - (iii) Making available and providing substantive and technical support to the good offices of the Secretary-General, including through formal mediation, where appropriate;
 - (iv) Providing substantive, political and technical support to the Secretary-General in the discharge of his functions and in his relationships with Member States;
 - (v) Building the capacity of regional and subregional organizations;
 - (vi) Providing substantive support and guidance to special political missions;
 - (vii) Strengthening the Department's capacity, expertise and partnerships with other United Nations and subregional, regional and international organizations in order to address peace and security challenges more effectively;
 - (viii) Monitoring and evaluating the impact and the cost-effectiveness of key conflict prevention and mitigation initiatives;
 - (ix) Developing coherent strategies for crisis prevention and peacebuilding, linking diplomatic, security, humanitarian and development efforts by the United Nations system and other international and regional actors;
 - (x) Enhancing political and operational links with the wider United Nations system, in particular on peacebuilding issues;
 - (xi) Operationalizing the women and peace and security and the youth and peace and security agendas to promote the full, equal and meaningful participation of women, as well as the full, equal and meaningful participation and constructive engagement of young people, in political and peacebuilding processes.
- 3.20 The above-mentioned work is expected to result in the improved capacity and capability of Member States to identify, prevent and address conflict situations.

Programme performance in 2022

Consultative process to develop a New Agenda for Peace launched

- 3.21 The subprogramme has been providing substantive and secretariat support for a consultative process to develop a New Agenda for Peace, which the Secretary-General committed to submitting to Member States in his report entitled “Our Common Agenda” (A/75/982), submitted in response to the declaration on the commemoration of the seventy-fifth anniversary of the United Nations. The New Agenda for Peace is aimed at promoting more effective collective security responses and management of emerging risks. Following informal consultations organized by the President of the General Assembly in February and March 2022, the United Nations system was invited to develop a New Agenda for Peace, in close consultation with Member States and in collaboration with all relevant partners, as part of the preparations for the Summit of the Future, to be held in September 2024. The subprogramme’s work contributed to designing and coordinating a consultative process with Member States, regional and subregional organizations, civil society organizations and research institutions to develop the New Agenda for Peace.
- 3.22 Progress towards the objective is presented in the performance measure below (see table 3.2).

Table 3.2

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
–	–	Member States, regional and subregional organizations, civil society organizations and research institutions provided inputs for the comprehensive consultative process for the development of the New Agenda for Peace

Planned results for 2024

Result 1: reduced threats to peace and security

Programme performance in 2022 and target for 2024

- 3.23 The subprogramme’s work contributed to increased opportunities for Member States to prevent, manage and resolve conflict, including by using virtual tools and remote modalities, which, among other things, led to the United Nations-brokered truce in Yemen that was in effect between April and October 2022, resulting in a significant reduction in civilian casualties, the reopening of Sana’a airport for commercial flights and an easing of fuel imports through Hudaydah. The subprogramme’s work also contributed to advancing the political process in Libya, including the implementation of the 5+5 Joint Military Commission action plan, which met the planned target.
- 3.24 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.3).

Table 3.3
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
The Libyan Political Dialogue Forum was held	Reopening of the coastal road and adoption of the 5+5 Joint Military Commission action plan in Libya Advances made in transitional justice processes in Colombia	United Nations-brokered nationwide truce in Yemen between April and October 2022 Progress in the Implementation of the 5+5 Joint Military Commission action plan in Libya	Enhanced ability of Member States to prevent, manage and resolve conflicts and mitigate the impact of the COVID-19 pandemic	Progress towards a comprehensive negotiated political settlement in Yemen Enhanced ability of Member States to prevent, manage and resolve conflicts

Result 2: improved responses for countering hate speech and incitement to violence

Programme performance in 2022 and target for 2024

- 3.25 The subprogramme’s work contributed to the building of regional capacities to address hate speech in conflict and post-conflict situations in three regions, as well as the availability of guidance on addressing hate speech in conflict and post-conflict situations, which met the planned target.
- 3.26 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.4).

Table 3.4
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	Inter-agency exchange of knowledge and best practices on countering hate speech through the community of practice in South and South-East Asia Strengthened hate speech monitoring through new technologies for the analysis of open-source information	Strengthened capacity to counter hate speech in conflict and post-conflict situations, including in the Pacific, Horn of Africa and South Asia Availability of guidance to all United Nations entities (for their engagement with Member States) on addressing hate speech in conflict and post-conflict situations	Special political missions incorporate good practices and lessons learned into hate speech-related work	Special political missions incorporate good practices and lessons learned into hate speech-related work International Day for Countering Hate Speech provides opportunities to raise awareness of hate speech dynamics in conflict and post-conflict situations

Result 3: Member States have access to broadened and strengthened political analysis to inform the prevention, management and resolution of armed conflicts

Proposed programme plan for 2024

3.27 In line with General Assembly and Security Council resolutions, including General Assembly resolution 75/201, in which the Assembly emphasized the importance of joint analysis and effective strategic planning in its long-term engagement in conflicts and post-conflict situations, the subprogramme has been broadening its analytical approaches to better support Member States in offering more comprehensive responses, including through better integration of an economic lens into analysis and incorporating a gender perspective and the perspectives of young women and men.

Lessons learned and planned change

3.28 The lesson for the subprogramme, also informed by an OIOS evaluation,¹ was that its analysis would benefit from improved coordination across the system and across pillars to produce more integrated analyses. In applying the lesson, the subprogramme will develop more integrated approaches, including new analytical tools.

3.29 Expected progress towards the objective is presented in the performance measure below (see table 3.5).

Table 3.5
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	Reports to the General Assembly and the Security Council include more comprehensive analysis on topics, including socioeconomic development and gender equality, as relevant	Reports to the General Assembly and the Security Council include more comprehensive analysis on topics, including socioeconomic development, gender equality, youth and climate change, as relevant	Reports to the General Assembly and the Security Council include more comprehensive analysis on topics, including socioeconomic development, gender equality, youth and climate change, as relevant

Deliverables

3.30 Table 3.6 lists all deliverables of the subprogramme.

¹ E/AC.51/2021/3.

Substantive services for meetings (number of three-hour meetings)	105	179	105	105
6. Meetings and/or informal consultations of the General Assembly and its subsidiary organs	16	36	16	16
7. Meetings and/or informal consultations of the Security Council and its subsidiary organs	80	134	80	80
8. Meetings and/or informal consultations of the United Nations Standing Advisory Committee on Security Questions in Central Africa	4	4	4	4
9. High-level side events on issues relating to the prevention and resolution of conflicts during the General Assembly	5	5	5	5
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	195	195	195	195
10. Seminars, training events and academic meetings on advancing preventive diplomacy, peacemaking and peacebuilding	195	195	195	195
C. Substantive deliverables				
Good offices: good offices and preventive diplomacy; high-level diplomatic missions and meetings, including jointly with more than 24 regional organizations; and strategic assessment missions and support for 22 special political missions with a good offices role, including mediation support.				
Consultation, advice and advocacy: consultations with representatives of Member States from all regions, international and regional organizations and civil society organizations; and strategic coordination meetings with relevant partners.				
Databases and substantive digital materials: multiple databases and data sets on international peace and security issues available on the Peace and Security Data Hub and on United Nations Peacemaker.				
D. Communication deliverables				
External and media relations: statements on behalf of the Secretary-General; notes to correspondents; and press releases, communiqués and other communications products about the work of the Department.				

Subprogramme 2 Electoral assistance

Objective

- 3.31 The objective, to which this subprogramme contributes, is to strengthen the existing capacity of requesting Member States to organize and conduct inclusive, transparent and peaceful elections that enjoy public confidence and that contribute to stability and security, especially in transitional and post-conflict situations.

Strategy

- 3.32 To contribute to the objective, the subprogramme will continue to provide timely electoral support to Member States upon their request or pursuant to a mandate from the General Assembly or the Security Council, in close coordination with other relevant United Nations entities under the leadership of the United Nations focal point for electoral assistance matters. Specifically, the subprogramme will:
- (a) Deploy technical experts and various types of electoral missions in support of requesting Member States, including on designing and establishing election management bodies, designing or reforming electoral frameworks and systems, developing voter education and voter registration activities and promoting the participation of women, young people and persons with disabilities in electoral and political processes;
 - (b) Develop and strengthen partnerships and provide capacity development support to regional organizations, including by co-organizing, with regional organizations and in coordination with other relevant United Nations entities, training events for Member States in various regions, including on gender equality and elections, enhancing the credibility, inclusivity and integrity of electoral processes and preventing election-related violence;
 - (c) Develop new internal policies on electoral assistance, or update the existing ones, in close cooperation with other relevant United Nations entities, and review knowledge products initiated by other United Nations entities that intersect with elections;
 - (d) Maintain and manage the United Nations single roster of electoral experts and the United Nations electoral institutional memory.
- 3.33 The above-mentioned work is expected to result in:
- (a) Strengthened election management bodies;
 - (b) More effective electoral frameworks and systems;
 - (c) Enhanced voter education and voter registration activities;
 - (d) Increased participation of women, young people, persons with disabilities and those who are underrepresented and/or marginalized, including people in rural areas lacking infrastructure, in electoral and political processes;
 - (e) Peaceful and inclusive elections and more credible electoral processes;
 - (f) Strengthened electoral capacity of regional organizations;
 - (g) Consistent, coherent and coordinated electoral assistance to Member States.

Programme performance in 2022

Member States conduct elections with support from the United Nations

- 3.34 The subprogramme continued to provide electoral assistance to Member States, upon request or on the basis of a Security Council mandate, to strengthen their capacities in conducting inclusive, peaceful and credible electoral processes. In 2022, the subprogramme provided technical support to 22 Member States that were planning to conduct elections, including presidential and parliamentary elections, as well as referendums. United Nations technical assistance included support to national efforts in areas such as strengthening the institutional capacities of election management bodies, designing or reforming electoral frameworks and systems, facilitating voter education and voter registration activities and promoting the participation of women, young people and persons with disabilities in electoral and political processes.
- 3.35 Progress towards the objective is presented in the performance measure below (see figure 3.I).

Figure 3.I
Performance measure: number of countries organizing elections with technical support from the United Nations

Planned results for 2024

Result 1: increased participation of women in electoral and political processes

Programme performance in 2022 and target for 2024

- 3.36 The subprogramme’s work contributed to reaching an average of 26.0 per cent of women in parliaments in countries receiving United Nations electoral assistance, which exceeded the planned target of 25.5 per cent.
- 3.37 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 3.II).

Figure 3.II
Performance measure: percentage of women in parliaments in countries receiving United Nations electoral assistance

Result 2: Member States receive timely responses to requests for electoral assistance

Programme performance in 2022 and target for 2024

- 3.38 The subprogramme’s work contributed to 88 per cent of Member States receiving an initial response within four weeks of a request for technical electoral assistance, which exceeded the planned target of 85 per cent.
- 3.39 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 3.III).

Figure 3.III

Performance measure: percentage of Member States receiving an initial response within four weeks of a request for technical electoral assistance

Result 3: increased regional training opportunities for Member State electoral officials

Proposed programme plan for 2024

- 3.40 Regional and subregional organizations play a key role in encouraging and supporting inclusive, transparent and peaceful electoral processes in their States members. The subprogramme has continued to work closely with regional and subregional organizations to strengthen their capacities and to support regional training aimed at assisting Member States in their efforts to strengthen their electoral processes. In this regard, an increased number of participants from Member States attended the regional training sessions organized or supported by the subprogramme, in collaboration with regional and subregional organizations, to strengthen partnerships and provide capacity development support to electoral officials and institutions in Member States in the concerned regions.

Lessons learned and planned change

- 3.41 The lesson for the subprogramme was that organizing regional electoral training for Member States is more effective when such training is provided in close coordination and partnership with relevant regional and subregional organizations. In applying the lesson, the subprogramme will further strengthen coordination with regional and subregional organizations, including through more regular coordination initiatives with partner organizations in advance of each regional event. The subprogramme will also enhance coordination with relevant United Nations entities, including by utilizing the existing Inter-Agency Coordination Mechanism for United Nations Electoral Assistance.
- 3.42 Expected progress towards the objective is presented in the performance measure below (see figure 3.IV).

Figure 3.IV

Performance measure: number of participants from Member States attending regional electoral training sessions organized or supported by the United Nations in partnership with regional and subregional organizations

Deliverables

3.43 Table 3.7 lists all deliverables of the subprogramme.

Table 3.7

Subprogramme 2: deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	–	–	1	–
1. Report of the Secretary-General to the General Assembly on strengthening the role of the United Nations in enhancing periodic and genuine elections and the promotion of democratization	–	–	1	–

3. For the deployment of international election observers at the request of Member States and other organizations	1	1	1	1
4. On electoral assistance to Member States	29	30	30	32
Seminars, workshops and training events (number of days)	20	21	22	23
5. Training events and workshops for electoral administrators and staff at the regional and national levels on key electoral matters, including gender equality and elections, elections and violence, and election observation	20	21	22	23
Technical materials (number of materials)	6	7	6	7
6. Technical guidelines and reference materials on electoral processes, the electoral legal framework and the organization and administration of elections	6	7	6	7
Electoral missions (number of missions)	25	30	30	32
7. Technical, advisory and review missions for electoral processes	25	30	30	32

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
--------------------------	-----------------	----------------	-----------------	-----------------

C. Substantive deliverables

Consultation, advice and advocacy: technical advice for electoral processes in approximately 50 Member States, particularly in the areas of electoral systems and frameworks, mainstreaming a gender perspective, voter registration and electoral operations.

Databases and other substantive digital materials: United Nations single electoral roster of experts; and records on the provision of electoral assistance for preserving United Nations electoral institutional memory.

**Subprogramme 3
Security Council affairs**

Objective

- 3.44 The objective, to which this subprogramme contributes, is to ensure the effective discharge by the Security Council of its responsibility for the maintenance of international peace and security.

Strategy

- 3.45 To contribute to the objective, the subprogramme will facilitate the full, complete and timely execution of the work of the Security Council and its subsidiary bodies, including by:
 - (a) Assisting the monthly presidency of the Council in carrying out its official functions, particularly the preparation and conduct of the Council’s monthly programme of work, and providing procedural and substantive advice to the monthly presidency, Council members and other Member States regarding the conduct of meetings and Council activities;
 - (b) Coordinating the timely and accurate issuance of the official documentation of the Council, including its outcomes and other documents, as well as other correspondence from the Secretariat, Member States and entities;
 - (c) Supporting the work of the subsidiary bodies of the Council, including sanctions committees, other committees and working groups, as well as their associated monitoring teams, groups and panels, including by providing procedural and substantive advice to Chairs and other Council members;
 - (d) Supporting missions of the Council and Chairs of its subsidiary bodies to countries and regions in connection with matters on the Council’s agenda;
 - (e) Supporting the design and implementation of the Council’s sanctions regimes, including by conducting assessments of regimes upon the Council’s request;
 - (f) Organizing training sessions for incoming members of the Council, and Chairs and members of sanctions committees, and engaging with the broader United Nations system and Member States to enhance the effective functioning of sanctions committees as well as to promote deeper understanding and implementation of Council sanctions;
 - (g) Disseminating the United Nations Security Council Consolidated List to Member States, the United Nations system, other regional and international organizations and the private sector immediately following the adoption of Council and sanctions committee listing and delisting decisions;
 - (h) Providing to Member States specialized research and analyses regarding the practice and procedures of the Council, through publications such as the *Repertoire of the Practice of the Security Council*, the *Highlights of Security Council Practice* and other information and data resources on specific areas of practice of the Council;

- (i) Responding to specific requests for research and advice from Member States and convening dedicated information sessions, upon request; and contributing to the publicly available joint Department of Political and Peacebuilding Affairs-Department of Peace Operations Peace and Security Data Hub.

3.46 The above-mentioned work is expected to result in:

- (a) The Security Council being able to fulfil its responsibilities under the Charter of the United Nations;
- (b) The Council and its sanctions committees being able to implement targeted sanctions;
- (c) Member States being able to rely on up-to-date and comprehensive information concerning the practice and procedures of the Council, allowing them to be better equipped to participate in the work of the Council and to actively contribute to its effective functioning.

Programme performance in 2022

The subprogramme leverages technology to facilitate the participation of Member States in Security Council processes

3.47 In order to enhance its responsiveness to the needs of the Security Council members, as well as the broader United Nations membership, the subprogramme introduced new digital communication and research tools in 2022. The subprogramme expanded its use of the e-deleGATE portal, previously used solely for storing Security Council documentation and registering speakers for open debates, to include: (a) inscriptions on the list of speakers by Member States for all meetings of the Security Council; and (b) the registration of co-sponsors for draft resolutions. Following this change, Member States were able to receive an instant confirmation of their inscription as speakers or co-sponsors, along with relevant information on the respective meeting.

3.48 Progress towards the objective is presented in the performance measure below (see table 3.8).

Table 3.8
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Member States participated in virtual open debates through written statements due to the COVID-19 pandemic	Member States inscribed on the list of speakers for Security Council open debates via email	Positive feedback was received from Member States on the new process for inscriptions by Member States on the list of speakers for all open debates of the Security Council
Member States registered for co-sponsorship of Security Council resolutions via email	Member States registered for co-sponsorship of Security Council resolutions via email	Over 700 inscriptions for Security Council open debates were received through the e-deleGATE portal
		Over 180 requests by Member States to co-sponsor Security Council resolutions were registered through the e-deleGATE portal

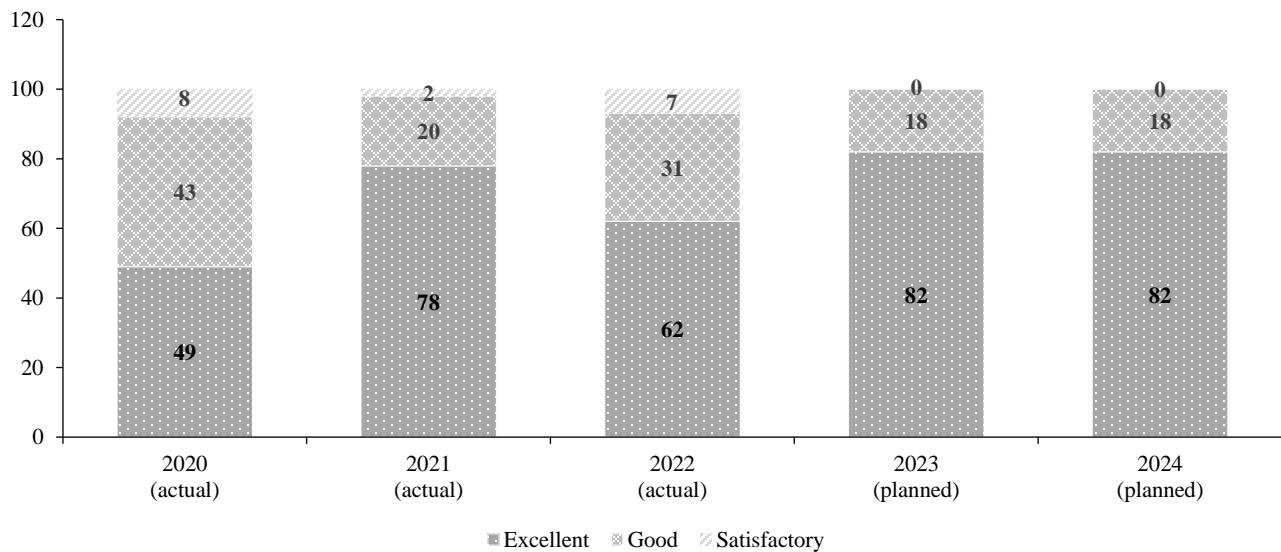

Planned results for 2024

Result 1: access to enhanced annual induction workshop for incoming members of the Security Council

Programme performance in 2022 and target for 2024

- 3.49 The subprogramme’s work contributed to building the capacity of incoming members of the Security Council, with 100 per cent of participants expressing a high degree of satisfaction in the annual induction workshop for incoming Security Council members, which met the planned target.
- 3.50 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 3.V).

Figure 3.V
Performance measure: percentage of participants in the induction workshop for incoming Security Council members expressing satisfactory, good or excellent degrees of satisfaction
 (Percentages)

Result 2: Member States have access to up-to-date and contemporaneous analytical information on the practice and work of the Security Council

Programme performance in 2022 and target for 2024

- 3.51 The subprogramme’s work contributed to 10,660 visits to the Security Council data sets available on the Peace and Security Data Hub, which exceeded the planned target of 600 visits.
- 3.52 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 3.VI).

Figure 3.VI
Performance measure: number of visits to the Security Council data sets available on the Peace and Security Data Hub

Result 3: Security Council members receive timely information on the implementation of sanctions measures

Proposed programme plan for 2024

3.53 The subprogramme is mandated to establish expert panels in a timely manner to assist the Security Council and its sanctions committees. To facilitate this, the subprogramme seeks to propose the candidates for an expert panel to the relevant sanctions committee within two weeks of the renewal of the mandate of the panel, or within six weeks of the establishment of a new panel by the Council. The subprogramme undertakes outreach for the recruitment of specific expert panels and also maintains a list of pre-screened, qualified individuals who have expressed interest in joining an expert panel through the roster of experts.

Lessons learned and planned change

3.54 The lesson for the subprogramme was the need to conduct regular updates to the roster of pre-screened and qualified individuals who could be considered for positions available on expert panels. In applying the lesson, the subprogramme will strengthen outreach efforts to, in particular, attract qualified female candidates with specialized expertise (for example, in the fields of arms, armed groups or natural resources) in order to achieve gender balance, as well as place an increased emphasis on geographical representation among individuals serving on expert panels.

3.55 Expected progress towards the objective is presented in the performance measure below (see figure 3.VII).

Figure 3.VII

Performance measure: expert panel proposals received by sanctions committees within two weeks of the renewal of a mandate or within six weeks of the establishment of a new mandate

(Percentages)

Deliverables

3.56 Table 3.9 below lists all deliverables of the subprogramme.

11. <i>Highlights of Security Council Practice</i>	1	1	1	1
12. Statistics of Security Council deliberations	12	12	12	12

C. Substantive deliverables

Consultation, advice and advocacy: consultation, advice and advocacy to the Security Council in the preparation of the report of the Security Council for the General Assembly; and tailored research for Member States on Security Council practice and procedure, current and historic.

Databases and substantive digital materials: database of Council procedures, practices and working methods, including data on over 200 public meetings convened annually, covering approximately 50 agenda items; roster of experts for Council subsidiary bodies, and the United Nations Security Council Consolidated List of sanctions in all official languages provided to Member States, the private sector and other stakeholders; interactive dashboards on representation of women at the Council, membership of the Council, Chairs and Vice-Chairs of its subsidiary organs and Arria-formula meetings; and data sets related to the work of the Council published on the Peace and Security Data Hub.

D. Communication deliverables

Digital platforms and multimedia content: website of the Security Council and its subsidiary bodies in the six official languages of the United Nations for Member States and the wider public; and social media posts and articles linking the activities of the Council to relevant constitutional and procedural aspects captured in the *Repertoire of the Practice of the Security Council*.

**Subprogramme 4
Decolonization**

Objective

3.57 The objective, to which this subprogramme contributes, is to promote the decolonization process in accordance with the Charter and relevant resolutions of the General Assembly of the 17 Non-Self-Governing Territories so as to bring about the complete eradication of colonialism.

Strategy

3.58 To contribute to the objective, the subprogramme will:

- (a) Provide substantive support to the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and the Fourth Committee, including the preparation of Secretariat working papers and mandated reports of the Secretary-General, and inputs for the annual report of the President of the Economic and Social Council on the implementation of the Declaration by the specialized agencies and the international institutions associated with the United Nations;
- (b) Provide advice, briefing materials and substantive support to the meetings, annual regional seminars and visiting missions of the Special Committee, and meetings of the Fourth Committee and the Economic and Social Council, in close coordination with the Department for General Assembly and Conference Management;
- (c) Maintain contact with the representatives of the Non-Self-Governing Territories and United Nations agencies, funds and programmes and work with the Department of Global Communications, the Department for General Assembly and Conference Management and the Office of Information and Communications Technology in disseminating information on

decolonization, including through the enhancement of the United Nations and decolonization website;

- (d) Provide the Special Committee with comprehensive information on the ongoing impact of COVID-19 in the Non-Self-Governing Territories, as part of its annual working papers prepared pursuant to Article 73 *e* of the Charter and relevant General Assembly resolutions.

3.59 The above-mentioned work is expected to result in:

- (a) Advancement of specific proposals to bring about an end to colonialism;
- (b) Programmes of work developed on a case-by-case basis for the decolonization of the Non-Self-Governing Territories;
- (c) Timely and informed decision-making by the Special Committee when considering the situation in the Non-Self-Governing Territories.

Programme performance in 2022

Information about the role and impact of women in the Territories available on the United Nations and decolonization website

3.60 The 2030 Agenda is designed to achieve gender equality and empower all women and girls, and the Special Committee stresses the important role of women in the process of decolonization. In line with these agendas, the subprogramme’s work contributed to highlighting information on women in the Non-Self-Governing Territories through a new dedicated section on the United Nations and decolonization website (“Women in the Territories: highlights”), to be regularly updated over time.

3.61 Progress towards the objective is presented in the performance measure below (see table 3.10).

Table 3.10
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
–	–	Information about the role and impact of women in Non-Self-Governing Territories available on the United Nations and decolonization website

Planned results for 2024

Result 1: diversified and comprehensive information on the Non-Self-Governing Territories, including on the impact of the COVID-19 pandemic

Programme performance in 2022 and target for 2024

3.62 The subprogramme’s work contributed to the Special Committee having access to timely, diversified and comprehensive information on the situation in the Non-Self-Governing Territories, including updates on the lasting social and economic impact of the COVID-19 pandemic and the assistance provided by the administering Powers to support effective recovery from the pandemic as part of the publicly available working papers, which met the planned target.

3.63 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.11).

Table 3.11
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	The Special Committee had access to timely and comprehensive information on the situation in the Non-Self-Governing Territories, including on the impact of COVID-19 and the assistance provided by the administering Powers	The Special Committee had access to timely, diversified and comprehensive information on the situation in the Non-Self-Governing Territories, including on the lasting social and economic impact of COVID-19 and the assistance provided by the administering Powers to support effective recovery from the pandemic	The Special Committee has access to updated information on the continued economic and social impact of COVID-19, post-pandemic economic recovery and assistance provided by the administering Powers	The Special Committee has access to updated information on the long-term economic and social impact of COVID-19, and on assistance provided by the administering Powers to support recovery and to strengthen resilience.

Result 2: increased reach and awareness on decolonization through new multilingual content
Programme performance in 2022 and target for 2024

- 3.64 The subprogramme’s work contributed to Member States, the Non-Self-Governing Territories, relevant stakeholders and the general public having access to the messages of the Secretary-General to the regional seminars from 2005 to 2022 in all six official languages of the United Nations, which met the planned target.
- 3.65 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.12).

Table 3.12
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	Availability of content on the website in the six official languages of the United Nations	Availability of the messages of the Secretary-General to the regional seminars from 2005 to 2022 on the website in the six official languages of the United Nations	Availability of new content on the website, including infographics and interactive content, in the six official languages of the United Nations	Availability of new content on the website, including infographics and interactive content, in the six official languages of the United Nations

Result 3: the Special Committee has access to information on the status of implementation of the 2030 Agenda in the Non-Self-Governing Territories

Proposed programme plan for 2024

3.66 In line with the recommendations of the Special Committee, as endorsed by the General Assembly, the administering Powers are encouraged to provide information on the status of the implementation of the 2030 Agenda in the Non-Self-Governing Territories. The subprogramme’s work, as part of its annual working papers, supports the compilation of information on economic, social and environmental conditions in the Territories.

Lessons learned and planned change

3.67 The lesson for the subprogramme was the need to include, on a case-by-case basis, information in the working papers on the implementation of the Sustainable Development Goals in the Territories. In applying the lesson, the subprogramme will, in coordination with the administering Powers, collect and include specific information related to the status of the implementation of the Sustainable Development Goals in the working papers, as appropriate and as relevant information becomes available.

3.68 Expected progress towards the objective is presented in the performance measure below (see table 3.13).

Table 3.13
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	The Special Committee had access to information on the economic, social and environmental conditions in the Non-Self-Governing Territories	The Special Committee has access to timely information on the status of implementation of the Sustainable Development Goals in the Non-Self-Governing Territories	The Special Committee has access to updated and timely information on the status of implementation of the Sustainable Development Goals in the Non-Self-Governing Territories

Deliverables

3.69 Table 3.14 below lists all deliverables of the subprogramme.

Table 3.14

Subprogramme 4: deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	22	22	22	22
1. Report of the Secretary-General on information from Non-Self-Governing Territories transmitted under Article 73 <i>e</i> of the Charter of the United Nations to the General Assembly	1	1	1	1

13. Informal consultations of the Special Committee	5	4	5	5
14. Meetings of the Economic and Social Council	2	1	2	2
B. Generation and transfer of knowledge				
Fact-finding, monitoring and investigation missions (number of missions)	1	–	1	1
15. Missions to the Non-Self-Governing Territories pursuant to relevant General Assembly resolutions	1	–	1	1
D. Communication deliverables				
Digital platforms and multimedia content: the United Nations decolonization website in all official languages of the United Nations, for the benefit of the 17 Non-Self-Governing Territories, Member States and the general public.				

**Subprogramme 5
Question of Palestine**

Objective

- 3.70 The objective, to which this subprogramme contributes, is to ensure the effective and efficient implementation of the programme of work of the Committee on the Exercise of the Inalienable Rights of the Palestinian People to promote the realization of the inalienable rights of the Palestinian people.

Strategy

- 3.71 To contribute to the objective, the subprogramme will:
- (a) Organize Committee and Bureau meetings, conduct observances globally of the International Day of Solidarity with the Palestinian People, including a high-level event in New York, and outreach with United Nations entities and Member States on the question of Palestine, and hold other advocacy and awareness-raising activities, events and international conferences;
 - (b) Develop and expand the digital advocacy of the Committee, including its website and social media channels supported by the subprogramme, and the online United Nations Information System on the Question of Palestine and publications;
 - (c) Liaise and cooperate with civil society and parliamentarians on the question of Palestine;
 - (d) Implement the Committee’s capacity-building activities for Palestinian officials, with a focus on strategic communications and diplomatic protocol.
- 3.72 The above-mentioned work is expected to result in:
- (a) Mobilization of the diplomatic community, through the work of the Committee, in support of the realization of the two-State solution, the inalienable rights of the Palestinian people and a just, comprehensive and lasting solution to the question of Palestine;
 - (b) The general public, civil society and the media being informed about the question of Palestine and the work of the Committee;
 - (c) Stronger institutional capacity of the Government of the State of Palestine in areas such as strategic communications and diplomatic protocol.

Programme performance in 2022

The Committee conducts advocacy and awareness-raising visits on the different aspects of the question of Palestine

- 3.73 The subprogramme’s work supported the timely response to increased demands on the Committee by the General Assembly, including through the resumption of delegation visits and the provision of documentation in responding to Assembly resolutions, as well as through the organization of additional events and capacity-building initiatives. The subprogramme increased its advocacy related to the Committee’s efforts in support of the resumption of dialogue on the question of Palestine by conducting seven delegation visits as part of the mobilization campaign of its mandate.
- 3.74 Progress towards the objective is presented in the performance measure below (see figure 3.VIII).

Figure 3.VIII
Performance measure: Committee delegations conduct visits for advocacy and awareness-raising on the question of Palestine
 (Number of countries or regional organizations visited)

Planned results for 2024

Result 1: advancement of the Committee's role and more effective promotion of the rights of the Palestinian people

Programme performance in 2022 and target for 2024

- 3.75 The subprogramme's work contributed to the effective promotion of the realization of the inalienable rights of the Palestinian people, including through eight outreach meetings of the Committee with representatives of Member States and regional organizations in New York and six conferences and events on various thematic issues related to the question of Palestine, as well as in-person capacity-building for 21 Palestinian Authority officials, and 100 per cent of Committee members expressing satisfaction in the client survey related to the subprogramme's support for the implementation of the programme of work, which met the planned target.
- 3.76 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.15).

Table 3.15

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
The Committee has access to a survey to shape the operations of the Committee and strengthen the alignment of the activities of the subprogramme with the vision of the Committee	Increased engagement by the Committee with members of the Security Council and the Middle East Quartet on the question of Palestine 100 per cent of Committee members satisfied with the subprogramme's support	Eight outreach meetings of the Committee with representatives of Member States and regional organizations in New York, and six conferences or events on various thematic issues related to the question of Palestine In-person capacity-building for 21 senior Palestinian Authority officials 100 per cent satisfaction of the Committee in the client survey related to the subprogramme's support for the implementation of the programme of work's outreach to Member States	Expanded Committee outreach to Member States, with 100 per cent of Committee members expressing satisfaction with subprogramme support for the implementation of the programme of work's outreach to Member States	Expanded Committee outreach to Member States, with 100 per cent of Committee members expressing satisfaction with subprogramme support for the implementation of the programme of work's outreach to Member States

Result 2: strengthened engagement between the Committee and civil society

Programme performance in 2022 and target for 2024

- 3.77 The subprogramme’s work contributed to the participation of civil society organizations in six events with 23 speakers, which did not meet the planned targets of seven events with 30 speakers. The targets were not met due to continued COVID-19 restrictions, including travel restrictions which reduced opportunities to conduct in-person consultations and events.
- 3.78 The subprogramme’s work also contributed to 61 per cent of speakers from civil society organizations being female, which exceeded the planned target of 59 per cent.
- 3.79 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 3.IX).

Figure 3.IX
Performance measure: strengthened engagement between the Committee and civil society

Result 3: increased digital advocacy and public engagement by the Committee on the question of Palestine

Proposed programme plan for 2024

- 3.80 One of the mandated activities of the subprogramme is to develop and expand the Committee’s digital advocacy, including through its website and its social media channels supported by the subprogramme, as well as through the online United Nations Information System on the Question of Palestine (UNISPAL), to increase support for the peaceful settlement of the question of Palestine. UNISPAL is a repository of current and historical information on the question of Palestine, with some 800,000 visits per year, while the social media channels have grown in audience reach.

Lessons learned and planned change

- 3.81 The lesson for the subprogramme, informed by considerable publicly available research, was that Internet users, especially younger generations, increasingly consume content in short videos, including infographic videos, rather than traditional long-form textual information, and that such videos are an important aspect of an organization’s content marketing strategy. The subprogramme has adapted to the new social media dynamics by producing short videos, including content related to the International Day of Solidarity with the Palestinian People, and infographic videos on the history of the question of Palestine. In applying the lesson, the subprogramme will increase its use of audiovisual

media products for broader sharing of its advocacy messages on the question of Palestine online. These efforts will generate more public engagement with the Committee and its work.

3.82 Expected progress towards the objective is presented in the performance measure below (see figure 3.X).

Figure 3.X

Performance measure: access to videos published on the question of Palestine

(Number of views and number of videos)

Deliverables

3.83 Table 3.16 below lists all deliverables of the subprogramme.

Table 3.16

12. Studies, information notes and newsletters on the Committee and the work of the subprogramme, and selected aspects of the question of Palestine	2	4	2	4
C. Substantive deliverables				
Databases and substantive digital materials: database of over 2,000 experts and some 1,500 non-governmental organizations working on the question of Palestine.				
D. Communication deliverables				
Outreach programmes, special events and information materials: International Day of Solidarity with the Palestinian People and other special events at the discretion of the Committee reaching all Member States and the public at large; annual Palestinian exhibit or cultural event in connection with the International Day of Solidarity at United Nations Headquarters reaching all Member States and the public at large; briefings for United Nations officials, visitors, non-governmental organizations and others; and information-sharing, outreach efforts and participation in meetings of civil society.				
External and media relations: communiqués, press statements, press conferences and other communication materials for the media and other external entities before, during and after the Committee’s activities.				
Digital platforms and multimedia content: website of the subprogramme/Committee and its social media accounts.				
Library services: United Nations Information System on the Question of Palestine.				

**Subprogramme 6
Peacebuilding Support Office**

Objective

3.84 The objective, to which this subprogramme contributes, is to strengthen the effective role of the Peacebuilding Commission in bringing attention to peacebuilding needs, convening key actors and proposing peacebuilding strategies; and to strengthen country- and region-owned and -led peacebuilding efforts and United Nations system-wide coherence on the ground through the Peacebuilding Fund, and strengthen partnerships with international financial institutions in support of efforts to build and sustain peace.

Strategy

3.85 To contribute to the objective, the subprogramme will:

(a) Organize visits of the Chair of the Peacebuilding Commission, provide technical and substantive advice in the Commission meetings and advance partnerships between the Commission and

international financial institutions and regional and subregional organizations, civil society and the private sector;

- (b) Through the Peacebuilding Fund, support peacebuilding programmes, prioritizing transition contexts, subregional and cross-border contexts and the empowerment of women and young people;
- (c) Spearhead policy development related to peacebuilding and lead relevant coordination and integration mechanisms within the United Nations system and with the World Bank and other international financial institutions.

3.86 The above-mentioned work is expected to result in:

- (a) A deeper commitment to sustaining peace by Member States and regional and international partners, including international financial institutions;
- (b) Synergistic, coordinated and effective national peacebuilding priorities;
- (c) Improved alignment of policy responses for peacebuilding needs, with increased involvement of regional and international partners, including international financial institutions;
- (d) Improved coordination among Member States and regional and international partners to prioritize transition contexts, subregional and cross-border contexts and the empowerment of women and young people.

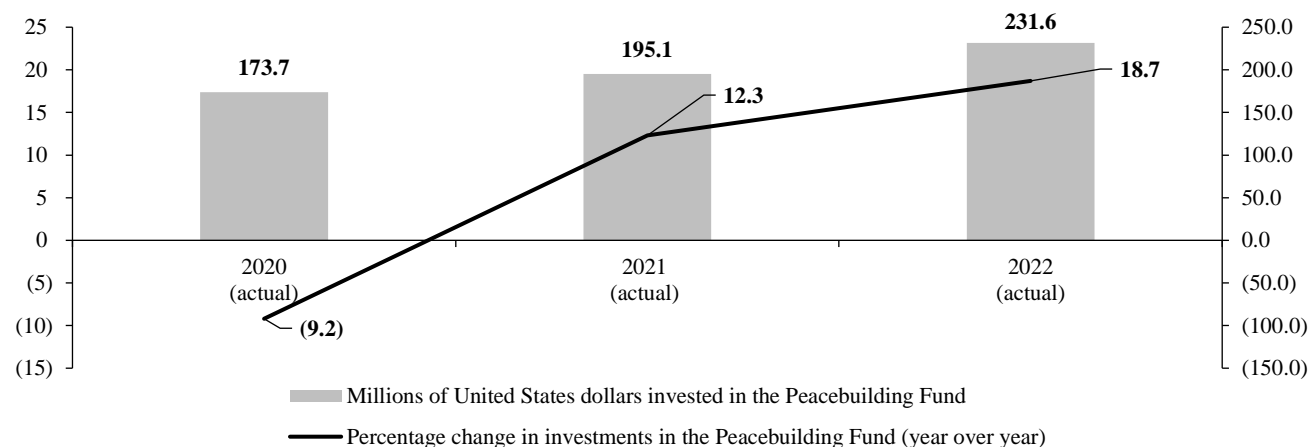

Programme performance in 2022

Increased investments in building and sustaining peace at the regional, national and local levels

3.87 Adequate, predictable and sustained investment in peacebuilding activities through programmatic support by United Nations and national actors is supportive of peacebuilding at the regional, national and local levels. The subprogramme, through the Peacebuilding Fund, continued to expand its reach in support of national peacebuilding priorities, with investments of \$231.5 million in 37 countries in 2022, an increase of 18.7 per cent from 2021, and continued to recover from a reduction in investments in 2020 compared with 2019 due to the COVID-19 pandemic. This was complemented by substantive and technical support for 27 meetings of the Peacebuilding Commission, enabling enhanced peacebuilding support for 14 countries and regions in 2022. With the easing of COVID-19 restrictions in 2022, the majority of meetings were conducted in person or in hybrid mode. In 2022, after a gap of two years, the Commission undertook two field visits, to Liberia and South Sudan. The participation rate of women in peacebuilding in the Commission's meetings continued to increase, from 74 per cent in 2021 to 87.5 per cent in 2022, and that of young peacebuilders stood at 37.5 per cent in 2022. Collaboration with international financial institutions and regional organization such as the African Union continued, including through regular exchanges and joint meetings.

3.88 Progress towards the objective is presented in the performance measure below (see figure 3.XI).

Figure 3.XI
Performance measure: investments in the Peacebuilding Fund

Planned results for 2024

Result 1: more attention on and resourcing for transition between United Nations configurations amid peacebuilding challenges

Programme performance in 2022 and target for 2024

- 3.89 The subprogramme’s work contributed to various mission transition processes, with 33 per cent of Peacebuilding Fund funding dedicated to mission transitions, which exceeded the planned target of 25 per cent.
- 3.90 The subprogramme’s work also contributed to enhanced international engagement for mission transition processes and the addressing of financing gaps, providing more predictability for partner countries and the United Nations while preparing the ground for longer-term financing.
- 3.91 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.17).

Table 3.17
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
18 per cent of Peacebuilding Fund funding dedicated to mission transitions	39 per cent of Peacebuilding Fund funding dedicated to mission transitions	33 per cent of Peacebuilding Fund funding dedicated to mission transitions	Increased funding for mission transitions of United Nations configurations	35 per cent of Peacebuilding Fund funding dedicated to mission transitions of United Nations configurations
		Enhanced international engagement for mission transition processes and the addressing of financing gaps, providing more predictability for partner countries	Enhanced international awareness of mission transition processes, to address financing gaps during mission transitions, providing more	More focused international engagement and predictable funding for mission transitions through the addressing of financing gaps,

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
		and the United Nations while preparing the ground for longer-term financing	predictability for partner countries and the United Nations while preparing the ground for longer-term financing	including for longer-term financing for two mission transition processes

Result 2: increased attention on and resourcing for women and youth in peacebuilding
Programme performance in 2022 and target for 2024

- 3.92 The subprogramme’s work contributed to supporting the engagement of women and youth in peacebuilding through the Gender and Youth Promotion Initiative, with \$51.7 million worth of financing by the Peacebuilding Fund, which did not meet the planned target of \$60 million, due to the overall voluntary contributions to the Fund being below target.
- 3.93 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 3.XII).

Figure 3.XII
Performance measure: support by the Peacebuilding Fund for women and youth in peacebuilding through the Gender and Youth Promotion Initiative
 (Millions of United States dollars)

Result 3: increased participation of women and youth in peacebuilding in meetings of the Peacebuilding Commission

Proposed programme plan for 2024

- 3.94 The subprogramme supports the implementation of the Peacebuilding Commission’s gender strategy and action plan aimed at enhancing the full, equal and meaningful participation of women in peacebuilding, including through participation in Commission meetings. In country and regional meetings, briefers shared their achievements, challenges and recommendations to better address peacebuilding challenges, including women’s experiences in relation to truth and reconciliation processes, peace processes, trust-building, economic empowerment and the impact of climate change. On the basis of its work and engagement with women in peacebuilding and leaders, the Commission has reflected these issues in its advice to the Security Council. The subprogramme also supports the implementation of the Commission’s Strategic Action Plan on Youth and Peacebuilding,

which is aimed at strengthening the meaningful involvement of youth in peacebuilding, including through participation in Commission meetings. The Commission offered a platform for youth representatives to share their experiences and recommendations to place young people at the centre of peacebuilding and sustaining peace. In addition to holding a dedicated thematic meeting on youth and peace and security, the Commission continued its advocacy in support of the critical role of young people and youth organizations.

Lessons learned and planned change

- 3.95 The lesson for the subprogramme was that the Peacebuilding Commission can further leverage the benefits of inviting a more diverse range of briefers, including women and youth in peacebuilding at the grass-roots level. Enabling briefers to participate virtually in hybrid meetings has contributed to increased participation, which was a result of COVID-19-related measures and the necessity of virtual meetings. In applying the lesson, the subprogramme will support and encourage this practice through raising awareness of the opportunity to brief and identifying civil society peacebuilders, including through collaboration within the United Nations system at Headquarters and at the country level.
- 3.96 Expected progress towards the objective is presented in the performance measure below (see figure 3.XIII).

Figure 3.XIII
Performance measure: increased rate of participation of women and youth in peacebuilding in meetings of the Peacebuilding Commission^a

^a The planned targets for 2023 and 2024 reflect the percentage of participation of women and youth in peacebuilding. The number of meetings will be reflected in the programme performance for the respective periods.

Deliverables

3.97 Table 3.18 below lists all deliverables of the subprogramme.

C. Substantive deliverables				
Consultation, advice and advocacy: guidance and advice to country-level and regional recipients of funding from the Peacebuilding Fund on priority-setting and programming; promotion of partnerships in the form of regular dialogue, operational and strategic consultation between the United Nations and the World Bank, the International Monetary Fund and other international financial institutions in seven countries and/or subregions; consultation, advice and advocacy with regional and subregional organizations (including through the annual informal consultation between the Peacebuilding Commission and the Peace and Security Council of the African Union), civil society organizations, think tanks, academia and the private sector on peacebuilding issues; strategic guidance and advice in support of the delivery of the mandate of the Peacebuilding Commission and the formulation and delivery of the priorities and the workplan of the Peacebuilding Commission; support, including advice, for approximately 14 submissions by the Peacebuilding Commission to other intergovernmental bodies and peacebuilding forums; information-sharing, guidance and strategic advice to Member States, the United Nations system and key stakeholders on policy issues related to the implementation of the sustaining peace framework; and policy support and advice to all members of the Peacebuilding Commission and Peacebuilding Fund donors and all recipient Governments on peacebuilding and sustaining peace and on women and young people in peacebuilding.				
D. Communication deliverables				
External and media relations: press statements of the Peacebuilding Commission; and three partner newsletters.				
Digital platforms and multimedia content: the Peacebuilding Commission and Peacebuilding Fund websites and social media platforms; and multimedia content, including short videos highlighting the results and impact on the ground.				

Subprogramme 7

Cooperation between the United Nations and the League of Arab States

Objective

3.98 The objective, to which this subprogramme contributes, is to strengthen cooperation between the United Nations and the League of Arab States (LAS).

Strategy

- 3.99 To contribute to the objective, the subprogramme will:
 - (a) Identify areas of work of joint interest and strengthen relationships with LAS through the pursuit of the common goals and objectives of the League and the United Nations;
 - (b) Contribute to efforts by LAS and its member States to make progress on achieving Sustainable Development Goal 16 and their commitments to building effective, accountable and inclusive institutions at all levels;
 - (c) Promote the Charter of the United Nations, in particular Chapter VIII;
 - (d) Deliver capacity-building exercises and staff exchanges and increase channels of communication.
- 3.100 The above-mentioned work is expected to result in:
 - (a) Enhanced partnership and expanded outreach with LAS in the area of international peace and security, including conflict prevention, peacemaking and peacebuilding;
 - (b) Improved capacity of LAS on issues such as conflict prevention, peacemaking and peacebuilding;
 - (c) Improved coordination with LAS on cooperation activities.

Programme performance in 2022

The League of Arab States fosters public outreach through innovative approaches

- 3.101 Both the United Nations and LAS strive to be responsive to challenges to peace and security and the needs of the people they serve, and this is facilitated, inter alia, through the use of new technology. The subprogramme worked with other relevant subprogrammes and other partners to build the League’s knowledge and capacity in using new technology and innovation to advance peace and security. As part of its support to LAS in developing a draft regional Arab strategy on youth, peace and security, the subprogramme organized an online youth dialogue on peace and security in September 2022.
- 3.102 Progress towards the objective is presented in the performance measure below (see table 3.19).

Table 3.19
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
–	–	The League of Arab States leveraged technology to enhance its public engagement. Nearly 300 young people from 13 countries in the Arab region engaged in an online dialogue, sharing views that contributed to the development of a draft regional Arab strategy on youth, peace and security

Planned results for 2024

Result 1: advancement of the women and peace and security agenda and strengthened institutional relations

Programme performance in 2022 and target for 2024

- 3.103 The subprogramme's work contributed to improved regional capacities for the women and peace and security agenda among LAS staff and member States through the provision of best practices from special political missions regarding ways the agenda could be implemented on the ground and consultations with representatives of the LAS General Secretariat on women and peace and security, which met the planned target.
- 3.104 The subprogramme also provided technical support and training for LAS staff and supported consultations with representatives of LAS member States and Arab female and male youth, which contributed to the development of a draft regional Arab strategy on youth, peace and security.
- 3.105 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.20).

Table 3.20

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	Enhanced coordination on the women and peace and security agenda, including through the identification of areas of support on women's participation in electoral processes, in coordination with the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women)	Improved regional capacities for the women and peace and security agenda among LAS staff and member States Development of a draft regional Arab strategy on youth, peace and security	Enhanced regional capacities for cooperation with the United Nations and other regional organizations for effective and meaningful participation of women and youth in peacemaking, peacebuilding and conflict prevention	LAS General Secretariat enhances support to LAS member States to implement the women and peace and security and youth, peace and security agendas
	Enhanced awareness and knowledge of LAS on the youth and peace and security agenda by organizing regional consultations and conducting training of trainers			

Result 2: improved political coordination by the General Secretariat of the League of Arab States with the League’s member States

Programme performance in 2022 and target for 2024

- 3.106 The subprogramme’s work contributed to the enhancing of mutual understanding and analysis, as well as improved political coordination and strengthened cooperation, through 36 meetings with LAS officials and 12 meetings with representatives of the diplomatic community, United Nations entities and other partners, which exceeded the planned targets of 15 and 6 meetings, respectively.
- 3.107 The subprogramme’s work also contributed to improved overall cooperation through the organization of the biennial general meeting on cooperation between the representatives of the secretariats of the United Nations system and the General Secretariat of the League of Arab States and its specialized organizations, and improved cooperation on good offices and peace efforts in the Arab region through seven meetings of Special Envoys and Special Representatives of the Secretary-General with LAS senior officials. The subprogramme also contributed to strengthened engagement through participation in the annual summit of LAS.
- 3.108 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.21).

Table 3.21

Part II Political affairs

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
	United Nations entities on issues of mutual concern and areas of cooperation related to peace and security through 39 meetings	Representatives of the Secretary-General with LAS senior officials		

Result 3: strengthened United Nations-League of Arab States partnership in advancing conflict prevention and sustaining peace in the Arab region

Proposed programme plan for 2024

3.109 The subprogramme focuses on strengthening partnership through building the capacity of LAS in conflict prevention and sustaining peace in the Arab region. Work is ongoing in a number of relevant areas, including disarmament, demobilization and reintegration, and strategic foresight. New areas of engagement emerge with some frequency, based on changing United Nations and LAS priorities.

Lessons learned and planned change

3.110 The lesson for the subprogramme was that engagement on conflict prevention and peacebuilding initiatives had required extensive coordination with multiple departments within LAS, as well as multiple United Nations partners. In order to work more effectively to ensure the adequate implementation of initiatives, and in applying the lesson, the subprogramme will broaden the partnership network within LAS and beyond.

3.111 Expected progress towards the objective is presented in the performance measure below (see table 3.22).

Table 3.22
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	Agreement by LAS and the United Nations during their biennial general cooperation meeting to collaborate in the areas of conflict prevention and sustaining peace through jointly identifying strategies and programmes	Strengthened partnership between the United Nations and LAS on conflict prevention and sustaining peace through various initiatives benefiting LAS, including in the areas of disarmament, demobilization and reintegration, and strategic foresight	Strengthened partnership between the United Nations and LAS on conflict prevention and sustaining peace through identifying ways to expand initiatives and training opportunities for LAS staff and member States

Deliverables

3.112 Table 3.23 below lists all deliverables of the subprogramme.

Table 3.23

Subprogramme 7: deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
B. Generation and transfer of knowledge				
Field and technical cooperation (number of projects)	4	4	2	2
1. On peace and security, including conflict prevention, mediation and peacebuilding	4	4	2	2
Seminars, workshops and training events (number of days)	5	6	2	2
2. Training event for the General Secretariat of LAS on peace and security	5	6	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: regular and ad hoc consultations with LAS, general meetings on cooperation between the representatives of the secretariats of the United Nations system and the General Secretariat of LAS and its specialized organizations, and sectoral meetings of the United Nations and LAS.				

B. Proposed post and non-post resource requirements for 2024

Overview

3.113 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 3.24 to 3.26.

Table 3.24

^a Includes four temporary posts (1 P-5 and 3 GS (OL)).

3.114 Additional details on the distribution of the proposed resources for 2024 are reflected in tables 3.27 to 3.29 and figure 3.XIV.

3.115 As reflected in tables 3.27 (1) and 3.28 (1), the overall resources proposed for 2024 amount to \$51,212,800 before recosting, reflecting a net increase of \$607,100 compared with the appropriation for 2023. Resource changes result from new and expanded mandates and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor, component and subprogramme

Overall resource changes

New and expanded mandates

- 3.116 As reflected in table 3.27, the proposed increase of \$200,000 under executive direction and management would provide for an independent strategic and civilian staffing review of the United Nations Office to the African Union (UNOAU), which was recommended by the Advisory Committee on Administrative and Budgetary Questions in paragraph II.55 of its first report on the proposed programme budget for 2023 (A/77/7). In view of the different funding sources for UNOAU, including the regular budget (9.1 per cent), the support account (85.2 per cent) and voluntary contributions (5.7 per cent), and the growing partnership with the African Union, the Advisory Committee recommended that the General Assembly request the Secretary-General to conduct an independent strategic and civilian staffing review of the UNOAU and to provide information on the results of those reviews in the next programme budget submission. The recommendation was endorsed by the Assembly in its resolution 77/262. The resources are comprised of \$158,700 under consultants, who would conduct the independent review, \$28,800 for the travel of staff to Addis Ababa to support the consultants during their review and \$12,500 under general operating expenses to cover the rental of conferencing equipment and ground transportation.

Other changes

- 3.117 As reflected in table 3.27, the net effect of the proposed changes is an increase of \$407,100. The breakdown of changes is as follows:
- (a) An increase of \$414,300 under policymaking organs, which reflects the redeployment of resources to support the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples from section 2, General Assembly and Economic and Social Council affairs and conference management, to section 3. Up to 2023, resources for the Committee have been included in the programme budget of section 2, under policymaking organs. As indicated in table 3.30, the resources are “exclusively devoted to the issue of decolonization ... with the purpose of monitoring the implementation of the Declaration”. Substantively supporting the work of the Committee in monitoring the implementation of the Declaration, jointly with the secretariat of the Committee (the Department for General Assembly and Conference Management), which remains responsible for servicing the technical secretariat, has been the mandate reflected in section 3 under subprogramme 4, Decolonization. The redeployment between sections 2 and 3 will result in the alignment of the resources with the activities being undertaken by the Committee. The resources will cover travel of the Committee to the regional seminar in the Caribbean or the Pacific region, and the visiting missions to Non-Self-Governing Territories. The amount of \$414,300 is comprised of \$800 under hospitality, \$254,100 under travel of representatives, \$114,100 under travel of staff, \$22,200 under contractual services, \$22,100 under general operating expenses and \$1,000 under supplies and materials;
 - (b) The above increase is partially offset by a decrease of \$7,200 under posts in subprogramme 1, which reflects the proposed redeployment of two posts (1 P-3 and 1 Local level) from the Liaison Office located in Nairobi to Arusha, United Republic of Tanzania (see annex III).

Extrabudgetary resources

- 3.118 As reflected in tables 3.27 (2) and 3.28 (2), the Department of Political and Peacebuilding Affairs expects to continue to receive cash contributions. In 2024, extrabudgetary resources are estimated at \$38,394,100. The resources would complement regular budget resources and would be used mainly to support substantive activities, including in the areas of preventive diplomacy, conflict resolution, mediation, peacemaking, electoral assistance missions and political analysis in support of the good

offices of the Secretary-General. They would also support the multi-year appeal programme, the overall management of the Peacebuilding Fund and the annual regional seminar on decolonization, as well as visiting missions to the Non-Self-Governing Territories.

- 3.119 The authority to oversee the use of extrabudgetary resources rests with the Department of Political and Peacebuilding Affairs, in accordance with the delegation of authority from the Secretary-General.

Policymaking organs

- 3.120 The resources proposed under this component would provide for requirements relating to the servicing of standing intergovernmental organs and expert bodies, special sessions of the General Assembly and intergovernmental processes. Table 3.30 provides information on the standing intergovernmental organs and related resource requirements under the regular budget.

Table 3.30
Policymaking organs

(Thousands of United States dollars)

<i>Policymaking organ</i>	<i>Description</i>	<i>Additional information</i>	<i>2023 appropriation</i>	<i>2024 estimate (before recosting)</i>
Security Council	The Security Council, one of the principal organs of the United Nations under Article 7 of the Charter of the United Nations, is charged with the primary responsibility for the maintenance of international peace and security. As specified in Article 28 of the Charter, the Council is to be so organized as to be able to function continuously. In addition to regular meetings, the President of the Security Council can call meetings of the Council any time that he or she deems it necessary, as well as at the request of any member of the Council and in the context of Articles 11, 35 and 99 of the Charter. The Council is authorized, under Article 29 of the Charter, to establish such subsidiary organs as it deems necessary for the performance of its functions.	Mandate: Article 7 of the Charter of the United Nations Membership: 15 government officials Number of sessions in 2024: continuous	90.8	90.8
Committee on the Exercise of the Inalienable Rights of the Palestinian People	The Committee meets throughout the year, as required, and submits an annual report to the General Assembly. In discharging its mandate to exert all efforts to promote the realization of the inalienable rights of the Palestinian people (subprogramme 5), the Committee participates in meetings, sends delegations on missions and invites, as necessary, prominent personalities or experts. Its mandate, which has been expanded over the years, was most recently reaffirmed by the Assembly in its resolution 77/23.	Mandate: General Assembly resolution 3376 (XXX) Membership: 26 government delegations and 21 observers Number of sessions in 2024: 7	32.1	32.1

Peacebuilding Commission	The Peacebuilding Commission is a subsidiary organ of the General Assembly and the Security Council and an intergovernmental advisory body that supports peace efforts in countries in armed conflict. It enhances the capacity of the international community to support countries in the endeavour to build and sustain peace. The Commission is composed of 31 Member States, elected from the Assembly, the Security Council and the Economic and Social Council. The top financial contributing countries and the top troop-contributing countries to the United Nations system are also members.	Mandate: General Assembly resolution 60/180 Membership: 31 government delegations and 55 experts Number of sessions in 2024: continuous	–	–
Total			122.9	537.2

3.121 The proposed regular budget resources for 2024 amount to \$537,200 and reflect an increase of \$414,300 compared with the appropriation for 2023. The proposed increase is explained in paragraph 3.117. Additional details on the distribution of proposed resources for 2024 are reflected in table 3.31 and figure 3.XV.

(Thousands of United States dollars)

Executive direction and management

- 3.122 The executive direction and management component comprises the Office of the Under-Secretary-General for Political and Peacebuilding Affairs, Chief of Office, and focal points for regional and thematic divisions, the coordination and oversight of planning and budgets for special political missions, the coordination of briefing materials for the leadership of the Organization, and monitoring and evaluation.
- 3.123 The overall responsibilities of the component include the following functions:
- (a) Provide the overall direction, supervision and management of the Department in the implementation of its mandates and its approved programme of work;
 - (b) Provide the Secretary-General with advice and support on all political matters in coordination with the Under-Secretary-General for Peace Operations, as necessary;
 - (c) Oversee and provide political guidance and instructions to special political missions under the Department’s purview, including special and personal envoys and representatives of the Secretary-General;

- (d) Direct and manage, on behalf of the Secretary-General, diplomatic activities relating to the prevention, control and resolution of conflicts and disputes, including preventive diplomacy, political mediation, peacemaking, peacebuilding and sustaining peace;
 - (e) Act as the United Nations focal point for all matters related to electoral assistance and direct the provision of substantive support and secretariat services to the Security Council (including on special political missions in thematic cluster II, which includes sanctions monitoring teams, groups and panels, and other entities and mechanisms), the General Assembly and relevant subsidiary organs;
 - (f) In close consultation with the Under-Secretary-General for Peace Operations, the Under-Secretary-General for Political and Peacebuilding Affairs provides direction and strategic guidance to the Assistant Secretaries-General with regional responsibilities on matters under the purview of the Department.
- 3.124 The component also includes small teams that handle strategic communications and donor relations. In line with requests from the United Nations system, the component provides direction to ensure close cooperation and coordination with Secretariat entities, agencies, funds and programmes in the area of peace and security.
- 3.125 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution [72/219](#), the Department is integrating environmental management practices into its operations. In 2024, the Department will continue to reduce its greenhouse gas emissions by delivering capacity-building activities for field personnel in their immediate region, relying more systematically on electronic records and communications to reduce printing and photocopy paper and more frequently on videoconferences as a possible replacement for travel. The Department also plans to improve e-waste management to facilitate the environmentally friendly disposal of expendable e-waste.
- 3.126 Information on the timely submission of documentation and advance booking for air travel is reflected in table 3.32. With regard to the advance booking for air travel, the performance for 2022 has been affected by the resumption of commercial air service after COVID-19, with many flights overbooked and frequent cancellations by the airlines. Notwithstanding this, the Department will continue to standardize and streamline the processes for requesting and approving official travel so that air tickets can be purchased through a less time-consuming process, while maintaining the appropriate levels of authorization and certification. Specifically, the certification of travel has been decentralized to the divisions, and ongoing workshops are organized to raise the awareness of travellers on the advanced booking policy and to train travellers and certifying officers on travel-related best practices and policies. The Department has continued efforts to sensitize staff through various forms of communication on the importance of early planning for travels and complying with the advance purchase policy. Managers are required to implement preventive and corrective measures. With respect to executive direction and management, owing to the nature of senior leadership travel, which is linked closely to conflict prevention, good offices and crisis response, the planning for such travel often takes place shortly before departure or requires last-minute cancellations or changes of itinerary or destination.

Part II Political affairs

3.127 The proposed regular budget resources for 2024 amount to \$1,856,200 and reflect an increase of \$200,000 compared with the appropriation for 2023. The proposed increase is explained in paragraph 3.116. Additional details on the distribution of the proposed resources for 2024 are reflected in table 3.33 and figure 3.XVI.

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

3.128 Extrabudgetary resources for this component amount to \$4,477,100. The resources would complement regular budget resources and would be used to strengthen outreach and fund the donor relations capacity that also manages the multi-year appeal mechanism for fundraising. The resources would cover the costs of programmatic aspects and day-to-day extrabudgetary resource management for the Department, including grant management of contributions, donor reporting and programmatic oversight of the Department’s extrabudgetary portfolio.

Programme of work

**Subprogramme 1
Prevention, management and resolution of conflicts**

3.129 The proposed regular budget resources for 2024 amount to \$26,158,600 and reflect a reduction of \$7,200 compared with the appropriation for 2023. The proposed decrease is explained in paragraph 3.117. Additional details on the distribution of the proposed resources for 2024 are reflected in table 3.34 and figure 3.XVII.

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

3.130 Extrabudgetary resources for the subprogramme amount to \$25,212,000. The resources would complement regular budget resources and would be used to support activities in the areas of preventive diplomacy, conflict resolution, mediation and peacemaking, including through the provision of political analysis, deployments and technical advice of the Department’s Standby Team of Senior Mediation Advisers to support crucial negotiations on process design, constitution-making, power-sharing and security arrangements. This also includes the Department’s support for the High-level Advisory Board on Mediation of the Secretary-General. Extrabudgetary resources would also allow the Department to extend the good offices of the Special Representatives and Special Envoys of the Secretary-General to advance political solutions, including in Mozambique, Myanmar, the Sudan, the Syrian Arab Republic, Yemen and other countries, and ensure that regional offices in Central Asia, West Africa and the Sahel, and Central Africa remain essential platforms for preventive diplomacy.

**Subprogramme 2
Electoral assistance**

3.131 The proposed regular budget resources for 2024 amount to \$4,123,600 and reflect no change compared with the appropriation for 2023. Additional details on the distribution of the proposed resources for 2024 are reflected in table 3.35 and figure 3.XVIII.

(Number of posts/thousands of United States dollars)

Extrabudgetary resources

3.132 Extrabudgetary resources for the subprogramme amount to \$1,980,000. The resources would complement regular budget resources and would be used to provide for assessment missions to be undertaken in response to requests for electoral assistance, and urgent electoral missions related to conflict prevention or mission start-up. The resources would also support, among other things, critical electoral activities as new needs arise in the course of an electoral assistance programme, a knowledge management system that includes research on important policy issues and the development of guidelines, post-election assessments and coordination with system-wide post-conflict peacebuilding and/or democratization efforts. The funds would also be used to support the subprogramme’s participation in and/or lead global electoral events, engagement in joint electoral initiatives with regional and intergovernmental organizations and the provision of capacity development support to non-United Nations partner organizations.

**Subprogramme 3
 Security Council affairs**

3.133 The proposed regular budget resources for 2024 amount to \$7,584,000 and reflect no change compared with the appropriation for 2023. Additional details on the distribution of the proposed resources for 2024 are reflected in table 3.36 and figure 3.XIX.

Extrabudgetary resources

3.134 Extrabudgetary resources for the subprogramme amount to \$410,000. The resources would complement regular budget resources and would be used to meet the increasing demand from Member States for support, expert analysis and reporting on the work of the Security Council and the concurrent demand for information and training on the work of the Council and its subsidiary bodies.

**Subprogramme 4
Decolonization**

3.135 The proposed regular budget resources for 2024 amount to \$887,100 and reflect no change compared with the appropriation for 2023. Additional details on the distribution of proposed resources for 2024 are reflected in table 3.37 and figure 3.XX.

Extrabudgetary resources

3.136 Extrabudgetary resources for the subprogramme amount to \$25,000. The resources would complement regular budget resources and would be used to provide substantive support to the annual regional seminar on decolonization and mission visits to the Non-Self-Governing Territories undertaken by the Special Committee. Resources would also be used to maintain the United Nations decolonization website to further enhance the dissemination of information on the topic.

Subprogramme 5 Question of Palestine

3.137 The proposed regular budget resources for 2024 amount to \$2,919,100 and reflect no change compared with the appropriation for 2023. Additional details on the distribution of the proposed resources for 2024 are reflected in table 3.38 and figure 3.XXI.

Extrabudgetary resources

3.139 Extrabudgetary resources for the subprogramme amount to \$3,275,000. The resources would complement regular budget resources and would be used mainly to support the Financing for Peacebuilding Branch staff and its operational costs in the overall management of the Peacebuilding Fund, including setting the direction and guiding the use of Fund resources and monitoring and

reporting on Fund activities, which span more than 34 countries and 186 projects. The Branch ensures that the funds focus on empowering women and young people.

Subprogramme 7 Cooperation between the United Nations and the League of Arab States

3.140 The proposed regular budget resources for 2024 amount to \$314,600 and reflect no change compared with the appropriation for 2023. Additional details on the distribution of the proposed resources for 2024 are reflected in table 3.40 and figure 3.XXIII.

Programme support

3.141 The programme support component comprises the Executive Office of the Department. The Executive Office provides the central administrative and programme support functions necessary for the implementation of the mandated activities of the Department. It assists the Under-Secretary-General in the preparation of the programme plans, the preparation and monitoring of the implementation of the programme budget, the management of trust funds and extrabudgetary resources, relevant support services for the efficient utilization of human resources and the planning, control and coordination of requirements related to general office administration. In addition, it provides administrative and logistical support to a number of special representatives and envoys of the Secretary-General, including some special political missions grouped under thematic clusters I and II. The Executive Office also provides logistical support to the Department, including property management, office space management and user applications.

3.142 The proposed regular budget resources for 2024 amount to \$3,046,600 and reflect no change compared with the appropriation for 2023. Additional details on the distribution of the proposed resources for 2024 are reflected in table 3.41 and figure 3.XXIV.

Extrabudgetary resources

3.143 Extrabudgetary resources for this component amount to \$3,015,000. The resources would complement regular budget resources and would enable the Executive Office to provide administrative support to projects funded by extrabudgetary resources.

II. Special political missions

Resource requirements: \$775,326,200

- 3.144 The proposed resource requirements for the 39 special political missions for 2024 amount to \$775,326,200, which would be supplemented by extrabudgetary resources, estimated at \$53,810,000. These resources would provide for the full, efficient and effective implementation of the mandates for the special political missions. Further details on the proposed resources for 2024 are contained in the relevant reports of the Secretary-General on the special political missions ([A/78/6 \(Sect. 3\)/Add.1–6](#)).

III. Office of the United Nations Special Coordinator for the Middle East Peace Process

Foreword

The Office of the United Nations Special Coordinator for the Middle East Peace Process is mandated to support negotiations to achieve a comprehensive peace based on the vision of two States – Israel and a contiguous, independent, viable and sovereign Palestinian State – living side by side in peace and security within secure and recognized borders. The Office also coordinates the work of the United Nations system in support of the Palestinian Authority and the Palestinian people.

The context remains deeply challenging amidst the persistence of the occupation, high levels of violence, settlement expansion, demolitions, militant activity, intra-Palestinian division and the precarious financial situation of the United Nations Relief and Works Agency for Palestine Refugees in the Near East, all of which push the prospect for a political solution to the conflict further away.

The Office will focus on upholding the viability of the two-State solution, preventing further escalations, halting unilateral actions that undermine peace and bolstering the Palestinian economy, while working to establish the conditions for meaningful negotiations. The Office will also continue to support Palestinian institutions, intra-Palestinian unity and long-overdue Palestinian elections. It will do so through preventive diplomacy, mediation, technical assistance and engagement with international and regional partners, including the Middle East Quartet.

Our goal remains to prevent further deterioration, overcome the political impasse and return the parties to meaningful negotiations for a just, lasting and comprehensive resolution to the Israeli-Palestinian conflict based on the two-State solution and achieving further progress on humanitarian and development priorities, including on the 2030 Agenda.

(Signed) Tor **Wennesland**
United Nations Special Coordinator for the Middle East Peace Process

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 3.145 The Office of the United Nations Special Coordinator for the Middle East Peace Process is responsible for serving as the Organization's focal point for the Middle East peace process, for ensuring the coordinated work of the United Nations system for an adequate response to the needs of the Palestinian people and for mobilizing financial, technical and economic assistance. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including Assembly resolutions [48/213](#) and [49/88](#) and Security Council resolutions [1860 \(2009\)](#) and [2334 \(2016\)](#). The unresolved Israeli-Palestinian conflict remains at the core of the prevalent instability in the Middle East and continues to threaten international peace and security. As violence and tensions continue to simmer in Gaza and the rest of the Occupied Palestinian Territory, the Office continues to engage diplomatically to mitigate and prevent armed conflict, address the humanitarian and development challenges and engage the parties and the international community with a view to making political progress towards a two-State solution.

Programme of work

Objective

- 3.146 The objective, to which the Office contributes, is to achieve a comprehensive, just and lasting resolution to the Israeli-Palestinian conflict based on the two-State solution and to improve the socioeconomic conditions of the Palestinian people.

Strategy and external factors for 2024

- 3.147 To contribute to the objective, the Office will:
- (a) Intensify engagement with regional and international actors, including with members of the Middle East Quartet, to work towards a resolution of the Israeli-Palestinian conflict;
 - (b) Increase engagement with the parties and relevant partners, including to reduce tensions and violence, while strengthening the Palestinian Authority;
 - (c) Encourage both Israel and the Palestinian Authority to work together to update their economic and administrative relationships and enact policy reforms;
 - (d) Intensify preventive diplomacy efforts;
 - (e) Continue to work with the parties to uphold their obligations under United Nations resolutions and international law, including reporting to the Security Council on resolution [2334 \(2016\)](#);
 - (f) Support Egyptian-led efforts to re-establish Palestinian national unity and encourage Palestinian parties to overcome outstanding differences, while promoting implementation of the 13 October 2022 Algiers Declaration;
 - (g) Support the Palestinian Authority in advancing its State-building agenda and strengthening its institutions, including the preparation and conduct of local council, legislative, presidential and Palestinian National Council elections;
 - (h) In collaboration with the United Nations country team, continue to coordinate the delivery of assistance programmes that respond to short-, medium- and long-term development needs in

the West Bank and Gaza, including engaging with relevant international and regional development institutions on coordinated fundraising, priority-setting, improved movement and access for people and goods, and the precarious financial situation of the United Nations Relief and Works Agency for Palestine Refugees in the Near East.

- 3.148 The above-mentioned work is expected to result in:
- (a) Advancement of meaningful negotiations aimed at resolving the Israeli-Palestinian conflict on the basis of the two-State solution and internationally recognized parameters on the final status issues;
 - (b) Prevention of violence across the Occupied Palestinian Territory and of a resumption of armed conflict, especially in Gaza, and the continued implementation of comprehensive conflict prevention activities;
 - (c) Improvement of the economic and institutional stability of the Palestinian Authority and mitigation of the effects of the dire fiscal situation;
 - (d) Reduction of future Palestinian humanitarian needs and acceleration of progress towards sustainable development outcomes, including the recovery from the impact of COVID-19;
 - (e) Advancement of intra-Palestinian reconciliation, towards reuniting Gaza and the occupied West Bank under a single, democratic, national government;
 - (f) Advancement of effective Palestinian governance based on the rule of law, notwithstanding political and fiscal constraints.
- 3.149 With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) The two-State solution remains viable, in line with relevant United Nations resolutions and bilateral agreements;
 - (b) All parties retain the political will to maintain a ceasefire in Gaza and support de-escalation efforts led by the Office;
 - (c) Israeli and Palestinian interlocutors and regional and international stakeholders continue to engage in meaningful dialogue and cooperation with the Office and the United Nations country team in the performance of their functions;
 - (d) There is adequate political support from Member States and financial support from donors;
 - (e) The security situation in the area is favourable, including in Gaza, to allow for the implementation of humanitarian and development programmes;
 - (f) There is positive progress towards Palestinian national unity and reconciliation;
 - (g) The parties begin to take tangible steps to improve the situation on the ground, as outlined in the recommendations of the Quartet report of 1 July 2016 (S/2016/595, annex).
- 3.150 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue its active engagement with key partners at all levels to advance a two-State solution to the Israeli-Palestinian conflict, including preventive diplomacy efforts. As the only envoy based on the ground, the Special Coordinator represents the Secretary-General in the Quartet and other forums, promoting greater information-sharing and coordination among international and regional partners helping to re-establish meaningful negotiations on final status issues, in line with relevant United Nations resolutions, international law and bilateral agreements. The Office will remain an active participant in and contributor to the Ad Hoc Liaison Committee for the Coordination of the International Assistance to Palestinians and will continue to coordinate with other Committee members to ensure the efficacy of the forum in recommending tangible actions to both parties. Lastly, the Office will maintain the multilateral cooperation established with other international partners to support the Palestinian people in the West Bank and Gaza.

- 3.151 With regard to inter-agency coordination and liaison, the Office will continue to lead the coordination of more than 20 United Nations resident and non-resident agencies, funds and programmes in responding to the development and humanitarian needs of the Palestinian people. The Office will promote policies to improve movement and access for people and goods throughout the Occupied Palestinian Territory. The Office's leading role will continue to encompass facilitating inter-agency collaboration to maximize impact through coordination of the United Nations country team, actively promoting and participating in sectoral and thematic working groups, identifying opportunities for joint programming and implementing the United Nations Sustainable Development Cooperation Framework. The Office will coordinate with regional United Nations entities, such as the regional Development Coordination Office, the regional offices of United Nations agencies, funds and programmes and the Economic and Social Commission for Western Asia, to leverage available expertise and identify opportunities for collaboration.
- 3.152 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, the Office engages more systematically with women's and youth groups in its outreach to civil society, in order to mainstream a gender perspective in peacebuilding and development efforts at the grass-roots level and in support of the implementation of Security Council resolution 1325 (2000). The Office will continue to participate in high-level dialogues on women and peace and security with civil society organizations, Member States and United Nations agencies. The Office will also encourage and support the increased membership of women in Palestinian institutions, as well their increased contribution to and participation in those institutions, including through advocacy on women's participation as candidates for planned elections and through support to programmes implemented by the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) and other United Nations agencies.
- 3.153 In line with the United Nations Disability Inclusion Strategy, the Office will promote policies that include and take into consideration the special needs of electors with disabilities in future Palestinian elections, in the framework of its technical assistance to the Palestinian Central Elections Commission.

Impact of the pandemic and lessons learned

- 3.154 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular with regard to reduced travel for in-person consultations, changes to the format of some international meetings and the continuation of virtual meetings.
- 3.155 The Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the careful assessment of the merits of virtual technology for specific planned activities, such as training, including hybrid delivery, where appropriate, to expand reach to audiences, while maintaining the advantages of in-person engagement.

Evaluation activities

- 3.156 The evaluation conducted by the Office on the relevance and effectiveness of its efforts to help maintain and strengthen the cessation of hostilities that ended the May 2021 escalation between Israel and Palestinian armed groups based in the Gaza Strip has guided the proposed programme plan for 2024.
- 3.157 The results and lessons of the evaluation referenced above have been taken into account for the proposed programme plan for 2024, as outlined under result 3. For example, the evaluation confirmed that intensive and sustained engagement with all parties is required to support efforts that help reinforce the cessation of hostilities, prevent escalation and create the environment required to address Palestinian livelihoods and development needs in Gaza.

- 3.158 An evaluation to be conducted by the Office to assess the effectiveness and relevance of its engagement with the relevant parties to improve Palestinian economic activity in Area C, including the associated management controls, is planned for 2024.

Programme performance in 2022

Improved movement and access of people and goods into and out of Gaza

- 3.159 In 2022, the Office intensified diplomatic efforts to ease movement and access restrictions imposed on the Gaza Strip, in particular those in place since 2007. One critical area of the Office’s efforts focused on improving employment and economic opportunities for Palestinians. In March 2022, the Government of Israel announced a goal of 20,000 permits for Palestinians to exit Gaza to access jobs and business markets in Israel. By the end of 2022, more than 18,000 permits had been issued, the highest number since 2007. In addition, the Office helped efforts to revitalize critical economic sectors in Gaza, including fishing, by improving access to key materials, including dual-use materials that had not been available since 2007, for the sector.

Table 3.42
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
–	Improved access by Palestinians to Israeli jobs and business markets (10,142 permits issued)	Improved access by Palestinians to Israeli jobs and business markets (more than 18,000 permits issued) Entry of essential materials into Gaza to support the fishing sector since November 2022

Planned results for 2024

Result 1: revitalization of the broader peace process and strengthening the Palestinian State-building agenda

Programme performance in 2022 and target for 2024

- 3.160 The Office’s work contributed to collective efforts to address the current negative trajectory on the ground, strengthen the Palestinian economy and institutions, and maintain the viability of the two-State solution, which did not meet the planned target of formulating joint proposals from the Quartet and strategies, together with Arab and international partners, in conjunction with the parties, aimed at establishing a meaningful political process that would achieve a negotiated two-State solution. While the continued commitments made for a peaceful resolution during 2022 are acknowledged, the target was not met, in part, owing to limited progress in the implementation of Security Council resolutions.
- 3.161 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.43).

Table 3.43
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Envoys of the Middle East Quartet explore the possibilities of advancing Israeli-Palestinian peace and discussing the most recent developments on the ground	<p>Increased engagement by the Middle East Quartet and release of joint statements</p> <p>Arab and international partners worked to support the cessation of hostilities in Gaza</p> <p>The Ad Hoc Liaison Committee identified concrete steps to address socioeconomic challenges in the Occupied Palestinian Territory</p>	<p>Greater alignment of international actors was achieved in support of collective efforts to address the current negative trajectory on the ground, strengthen the Palestinian economy and Palestinian institutions and maintain the viability of the two-State solution until such time that formal negotiations can recommence</p>	Active engagement by the Quartet and its partners, in conjunction with the parties, aimed at establishing a meaningful political process that will achieve a negotiated two-State solution	Increased engagement of regional and international actors, including through the Quartet members, to work towards returning to a meaningful political process aimed at resolving the Israeli-Palestinian conflict

Result 2: improved social and economic linkages across the Occupied Palestinian Territory

Programme performance in 2022 and target for 2024

- 3.162 The Office’s work contributed to 5,810 trucks carrying goods exiting Gaza, which exceeded the planned target of 2,500 trucks.
- 3.163 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 3.XXV).

Figure 3.XXV
Performance measure: number of trucks carrying goods exiting Gaza

Result 3: improved Palestinian access to and development across the Occupied Palestinian Territory, including in Area C

3.164 The fragmentation of the Occupied Palestinian Territory impairs economic development, has a negative impact on security, exacerbates humanitarian needs and undermines the viability of a future Palestinian state. The Office has consistently highlighted that improved movement and access for Palestinians to enhance development in the occupied West Bank, including Area C, would contribute to preserving the vision of a two-State solution. The Office has, inter alia, made regular calls for an end to the demolition of Palestinian-owned structures, the easing of movement and access restrictions, increased access for Palestinians to land and natural resources in Area C, the legalization of Palestinian-built structures in Area C and the implementation of infrastructure projects that improve services to Palestinians.

Lessons learned and planned change

3.165 The lesson for the Office was the need to further strengthen collective international efforts to urge constructive engagement by the parties to address the development needs in the Occupied Palestinian Territory, in particular the occupied West Bank, including Area C. In applying the lesson, the Office will focus on further dialogue with the parties and enhance its efforts to promote initiatives that would lead to mutual benefits for Palestinians and Israelis.

3.166 Expected progress towards the objective is presented in the performance measure below (see table 3.44).

Table 3.44
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	–	Collective international efforts are made to urge both parties to constructively engage to address the development needs in the Occupied Palestinian Territory, in particular the occupied West Bank, including Area C	Both parties constructively engage to address the development needs in the Occupied Palestinian Territory, in particular the occupied West Bank, including Area C

Legislative mandates

3.167 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

48/213 ; 76/126	Assistance to the Palestinian people	77/26	The Syrian Golan
49/88	Middle East peace process	77/125	The occupied Syrian Golan
77/25	Peaceful settlement of the question of Palestine		

Security Council resolutions

1860 (2009)

2334 (2016)

Deliverables

3.168 Table 3.45 lists all deliverables of the Office.

Table 3.45

Deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>

C. Substantive deliverables				
Good offices: good offices visits to countries in the region to seek support for political initiatives.				
Consultation, advice and advocacy: consultations with and advocacy to Governments and their accredited representatives, relevant parties, non-governmental and civil society organizations, academia and think tanks on the political, socioeconomic and humanitarian situation; consultations with the parties and other relevant actors on actions and measures to de-escalate tensions and mobilize resources; advocacy in the Middle East Quartet in its efforts to advance the negotiations and the two-State solution; advice to Israeli and Palestinian interlocutors on the easing of access constraints and implementation of the Gaza Reconstruction Mechanism and on the implementation of the package of humanitarian and economic interventions for Gaza approved by the Ad Hoc Liaison Committee; and advice to the Palestinian Central Elections Commission.				
D. Communication deliverables				
Outreach programmes, special events and information materials: exchange of information and partnerships with some 80 civil society organizations, academic institutions and non-governmental organizations, and civil society organizations in Israel and the Occupied Palestinian Territory.				
External and media relations: daily press reviews, press conferences in the presence of some 35 international media outlets (television, radio and print); and public statements and press releases for more than 1,500 stakeholders, including diplomatic missions, civil society organizations, think tanks and media personnel.				
Digital platforms and multimedia content: the Office’s website and social media accounts.				

B. Proposed post and non-post resource requirements for 2024

Overview

3.169 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 3.46 to 3.48.

Table 3.46

Overall: evolution of financial resources by object of expenditure

Total	66	–	–	2	2	68

3.170 Additional details on the distribution of the proposed resources for 2024 are reflected in table 3.49 and figure 3.XXVI.

3.171 As reflected in table 3.49, the overall resources proposed for 2024 amount to \$10,362,800 before recosting, reflecting a net increase of \$105,900 (or 1.0 per cent) compared with the appropriation for 2023. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 3.XXVI
Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Other changes

- 3.172 As reflected in table 3.47, resource changes reflect an increase of \$105,900, related to the proposed establishment of two posts, one Close Protection Assistant (Local level) based in Jerusalem and one Political Affairs Assistant (Local level) based in Ramallah, and the proposed reclassification of one Liaison Officer (P-4) to Senior Liaison Officer (P-5) (see annex III).

Other information

- 3.173 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office of the Special Coordinator is integrating environmental management practices into its operations. The Office will utilize photovoltaic solar energy at its headquarters in Gaza to reduce dependency on fuel generators and greenhouse gas emissions, improving efficiency in terms of energy and water usage through the upgrading of wall insulation and the installation of environmentally friendly fixtures and raising environmental awareness among staff members of the United Nation Secretariat Climate Action Plan 2020–2030, the Sustainable Development Goals and the means to achieve them.
- 3.174 Information on advance booking for air travel is reflected in table 3.50. The actual compliance rate reflects the challenges related to official travel being subject to the availability of high-level officials and interlocutors for meetings, which are often confirmed with limited advance notice. Although improvements were made in 2022, the Office will continue its efforts to improve the compliance rate by raising staff awareness of the obligation to comply with the advance ticket purchase rule and asking managers to implement preventive and monitoring corrective measures to this effect, while monitoring the compliance rate.

IV. United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory

Foreword

The Secretary-General appointed three new members of the Board of the United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory, who have taken up their duties in 2023. In 2024, the Board will continue to convene in Vienna on a regular basis and decide on the inclusion of received and reviewed damage claims in the Register.

The Office of the Register of Damage will continue its outreach and claims collection efforts in the Occupied Palestinian Territory. A small presence of the Register will also continue to collect public resource claims and residual claims presented by natural persons, in line with General Assembly resolution [ES-10/17](#).

Finally, the Office will continue to work on the processing of collected claims, which includes their translation, legal review and presentation to the Board for its decision, thus working towards a further reduction of the gap between collected and unprocessed claims.

While the main purpose of the Register of Damage is to record the material damage caused by the construction of the wall, the information and data contained in the Register may also contribute to the Israeli-Palestinian peace process, in particular in the search for solutions to the most contentious problems, such as land and the border.

(Signed) Leonid **Frolov**
Executive Director, Office of the United Nations Register of Damage
Caused by the Construction of the Wall in the Occupied Palestinian Territory

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 3.175 The United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory is responsible for recording, in documentary form, the damage caused to all natural and legal persons concerned as a result of the construction of the wall by Israel in the Occupied Palestinian Territory, including in and around East Jerusalem. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolution [ES-10/17](#). The Assembly, in its resolution [ES-10/17](#), called for the Register of Damage to remain open for registration for the duration of existence of the wall in the Occupied Palestinian Territory, including in and around East Jerusalem.

Programme of work

Objective

- 3.176 The objective, to which the Office of the Register of Damage contributes, is to establish and maintain a Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory, thus contributing to the protection of the legal rights of the Palestinian natural and legal persons affected by the construction of the wall.

Strategy and external factors for 2024

- 3.177 To contribute to the objective, the Office will:
- (a) Process and review the previously collected but not processed claims and present them to the Board of the Register of Damage for its decision;
 - (b) Undertake outreach and claim intake activities in the Occupied Palestinian Territory in relation to public resource claims and residual claims of natural persons, by maintaining a presence in the area of operation;
 - (c) Work on promoting the rule of law at the national and international levels, helping Member States to ensure equal access to justice for all claimants in the Occupied Palestinian Territory and make progress towards achieving Sustainable Development Goal 16.
- 3.178 The above-mentioned work is expected to result in:
- (a) An increased number of efficiently processed claims, leading to a reduction in the gap between collected and unprocessed claims;
 - (b) An increased number of institutional, residual and potential new claimants;
 - (c) An increased number of claims decided upon by the Board and included in the Register.
- 3.179 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) There is political will and cooperation on the part of all parties concerned;
 - (b) Extrabudgetary resources are available for maintaining a needed presence on the ground;
 - (c) The overall security situation on the ground and in the region allows the carrying out the mandate of the Register of Damage.

- 3.180 With regard to inter-agency coordination and liaison, the Office will continue to cooperate closely with the United Nations Office for Project Services, which is the key provider of logistical, human and financial resources services in the implementation of outreach and claims collection activities funded by extrabudgetary resources. In addition, the Office will continue its close cooperation with the Department of Political and Peacebuilding Affairs, the United Nations Truce Supervision Organization and the Office for the Coordination of Humanitarian Affairs.
- 3.181 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, in the course of the outreach campaigns, all female mayors and Chairs of local councils are invited to training events organized by the Office. In addition, consultations will be conducted with local women's committees in all communities in which outreach and claim intake activities are planned. The Office will continue to pay special attention to informing potential female claimants of the possibility of and requirements for submitting claim forms and will provide them with assistance and guidance in the preparation of their claims.
- 3.182 In line with the United Nations Disability Inclusion Strategy, the Office will continue to make special arrangements for the intake of claims from claimants with disabilities. These arrangements include on-site support of claimants, which allows claimants with disabilities to file their claims without having to travel.

Impact of the pandemic and lessons learned

- 3.183 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular in relation to the challenges encountered, as a result of COVID-19-related restrictions, with regard to (a) conducting outreach on the ground and (b) travel for raising extrabudgetary funds for the claims intake and outreach activities.
- 3.184 The Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including complementing the outreach activities by conducting certain aspects from Vienna, substituting in-person meetings with videoconferences and teleconferences.

Programme performance in 2022

Reduced number of unprocessed claims

- 3.185 During the absence of a Board in 2022, the Office continued with the processing of collected damage claims, which will be presented to the new Board for its decision in accordance with General Assembly resolution [ES-10/17](#). The processing of collected damage claims includes the scanning, data entry, translation, legal review and, when necessary, rectification of claims that require further information from the claimant, therefore leading to a decrease in the gap between collected and unprocessed claims.
- 3.186 Progress towards the objective is presented in the performance measure below (see figure 3.XXVII).

Figure 3.XXVII

Performance measure: reduced number of unprocessed claims outstanding for the decision of the Board

Planned results for 2024

Result 1: enhanced process for complex claims considered

Programme performance in 2022 and target for 2024

- 3.187 The work of the Office contributed to the enhanced process for complex employment loss claims, which did not meet the planned target of the Board deciding on 80 per cent of employment claims presented for its decision. The target was not met because the appointment of a new Board was completed only in October 2022, with its first meeting planned for the first quarter of 2023.
- 3.188 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.51).

Table 3.51

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	Identification of further issues on employment loss claims to be decided by the Board, affecting approximately 121 claims	Enhanced process for complex employment loss claims enabled by the identification of further issues to be decided by the Board, affecting approximately 400 claims	The Board will decide on 85 per cent of employment loss claims presented for its decision	Approval of improved guidelines by the Board covering 80 per cent of the employment loss scenarios presented to date

Result 2: optimized damage claims review process for faster servicing of claimants

Programme performance in 2022 and target for 2024

- 3.189 The Office’s work contributed to 3,321 damage claims being processed by the Office, which exceeded the planned target of 3,200 damage claims.
- 3.190 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 3.XXVIII).

Figure 3.XXVIII
Performance measure: number of damage claims processed by the Office of the Register of Damage

Result 3: decision-making by the Board strengthened by a harmonized submission process

Proposed programme plan for 2024

3.191 Owing to the pandemic and the absence of a Board, the office accumulated a large number of claims between 2020 and 2022, which will be presented to the new Board for its decision.

Lessons learned and planned change

3.192 The lesson for the Office was that there are opportunities to further streamline and increase the efficiency of the legal review process prior to the presentation of claims to the Board. In applying the lesson, the Office will revise technical manuals for the legal review of claims in an effort to streamline, harmonize and increase the efficiency and effectiveness of the legal review of claims by the Office. The Office will also seek to further increase the functionalities of the Register database that has been developed in-house and that benefits from the support of the Information Technology Service of the United Nations Office at Vienna.

3.193 Expected progress towards the objective is presented in the performance measure below (see figure 3.XXIX).

Figure 3.XXIX
Performance measure: number of claims decided by the Board of the Register of Damage

Legislative mandates

3.194 The list below provides all mandates entrusted to the programme.

General Assembly resolutions

ES-10/17 Establishment of the United Nations Register of Damage of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory

Deliverables

C. Substantive deliverables				
Databases and substantive digital materials: a database and physical records of 73,235 claim forms and their supporting documentation collected as at 31 December 2022 and more than 37,000 damage claims decided by the Board.				
D. Communication deliverables				
Outreach programmes, special events and information materials: public awareness programme to inform the affected Palestinian natural and legal persons of the possibility of and the requirement for filing damage claims for registration, including the production of posters and leaflets for distribution to affected Palestinians.				

B. Proposed post and non-post resource requirements for 2024

Overview

3.196 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 3.53 to 3.55.

Table 3.53

3.197 Additional details on the distribution of the proposed resources for 2024 are reflected in tables 3.56 to 3.58 and figure 3.XXX.

3.198 As reflected in tables 3.56 (1) and 3.57 (1), the overall resources proposed for 2024 amount to \$3,166,200 before recosting, reflecting a net increase of \$84,200 (or 2.7 per cent) compared with the appropriation for 2023. Resource changes result from technical adjustments. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 3.XXX
Distribution of proposed resources for 2024 (before recosting)
 (Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

Technical adjustments

- 3.199 As reflected in table 3.56 (1), resource changes reflect an increase of \$84,200 under posts that relates to the provision at continuing vacancy rates for one Legal Officer (P-3) established in 2023 pursuant to General Assembly resolution [77/263](#), which was subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts.

Extrabudgetary resources

- 3.200 As reflected in table 3.56 (2), the Office expects to continue to receive cash contributions. In 2024, extrabudgetary resources are estimated at \$200,000. The resources would complement regular budget resources and would enable the Office to maintain a small presence in the Occupied Palestinian Territory to perform claim intake, outreach and rectification activities. Two Claim Intakers would provide assistance to claimants with the completion of claims forms, outreach by informing potential claimants of the possibility of and requirements for filing a claim, and follow-up with existing claimants if and when additional information is required.
- 3.201 The authority to oversee the use of extrabudgetary resources rests with the Office, in accordance with the delegation of authority from the Secretary-General.

Other information

- 3.202 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution [72/219](#), the Office is integrating environmental management practices into its operations. The Office moved a step closer to becoming a paperless environment by adapting electronic signature solutions, where feasible, under the Register of Damage's strict confidentiality

Section 3 Political affairs

requirements. In addition, staff have been made aware of individual responsibilities towards environmental responsibility. In 2024, the Office will strive to tighten environmental management practices.

- 3.203 Information on advance booking for air travel is reflected in table 3.59. The Office ensures a high rate of compliance by planning air travel carefully and setting realistic schedules and timelines. In addition, the Office cooperates constructively with its service provider, the United Nations Office at Vienna, thus ensuring an efficient workflow in relation to official travel.

V. United Nations Office to the African Union

Foreword

Over the course of 2024, the United Nations Office to the African Union will continue to strengthen the strategic partnership with the African Union, as its leading partner in addressing peace and security challenges in Africa. The two organizations will leverage their respective comparative advantages towards achieving the common objectives of enhancing peace and security, promoting human rights and good governance, and implementing the 2030 Agenda for Sustainable Development and Agenda 2063 of the African Union. The strategic partnership between the two organizations continues to grow in depth and scope, premised on the Joint United Nations-African Union Framework for an Enhanced Partnership in Peace and Security and the African Union-United Nations Framework for the Implementation of Agenda 2063 and the 2030 Agenda for Sustainable Development. The Office will continue to serve as a critical interface for advancing the partnership.

The Office will adopt a holistic approach in supporting the African Union in its renewed efforts on conflict prevention and response, and in addressing the root causes of conflict, taking into account, where appropriate, the Action for Peacekeeping Plus initiative. It will also support efforts to secure sustainable, predictable and flexible financing for the African Union peace support operations. The Office will prioritize strengthening cooperation with the African Union in advancing the implementation of the women and peace and security agenda, building on the achievements of recent years.

(Signed) Parfait **Onanga-Anyanga**
Special Representative of the Secretary-General to the African Union
and Head of the United Nations Office to the African Union

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 3.204 The United Nations Office to the African Union was established on 1 July 2010 pursuant to General Assembly resolution [64/288](#). The mandate of the Office is to enhance the partnership between the United Nations and the African Union in the area of peace and security; provide coordinated and consistent United Nations advice to the African Union on long-term capacity-building and short-term operational support matters; and enhance coherence and efficiency in delivering United Nations assistance to the African Union. In its resolutions [2033 \(2012\)](#), [2167 \(2014\)](#), [2320 \(2016\)](#), [2378 \(2017\)](#) and [2457 \(2019\)](#), the Security Council called upon the United Nations to strengthen the cooperation between the United Nations and the African Union, including in the areas of mediation, capacity-building and, in particular, the operationalization of the African Peace and Security Architecture and implementation of the Silencing the Guns initiative.
- 3.205 The Office provides a mechanism for cooperation at the regional level, primarily with the African Union and subregional organizations throughout Africa. It seeks to build a common United Nations-African Union understanding of the causes and drivers of armed conflicts and potential armed conflicts, from which collaborative initiatives to prevent, manage and resolve armed conflicts can be developed.

Programme of work

Objective

- 3.206 The objective, to which the Office contributes, is to strengthen the United Nations-African Union partnership for peace and security in Africa.

Strategy and external factors for 2024

- 3.207 To contribute to the objective, the Office will:
- Support the implementation of the priorities of the African Peace and Security Architecture and the African Governance Architecture, and their operationalization, through conflict prevention, crisis/conflict management, post-conflict reconstruction and peacebuilding, a focus on strategic security issues, and coordination and partnership;
 - Engage with the African Union at senior and operational levels on political and operational priorities through the United Nations-African Union annual conference, the United Nations-African Union Joint Task Force on Peace and Security, and the annual United Nations-African Union consultative meeting on prevention and management of conflicts (desk-to-desk);
 - Support engagements at the national level, including the annual joint consultative meeting of members of the Security Council and the Peace and Security Council, the monthly consultative meetings between the respective President and Chair of the two Councils, informal engagements between the two Councils, meetings of the Political Counsellors of the Security Council and the Peace and Security Council Committees of Experts, and the annual joint meeting of the Peacebuilding Commission and the Peace and Security Council;
 - Regularly engage the policy organs of the African Union, including the Peace and Security Council and the Permanent Representatives Committee, through both formal and informal interaction;

- (e) Conduct good offices missions to address peace and security challenges, including with regard to dispute resolution and elections, upon request by the African Union;
 - (f) Maintain regular interaction between the United Nations and the African Union, regional economic communities and regional mechanisms, as well as with Member States, on thematic and country-specific situations, including in support of the African Union early warning mechanism;
 - (g) Build institutional capacities of the African Union Commission to prevent, manage and respond to armed conflicts and address root causes of conflict in Africa, including by strengthening the capabilities of the African Union with regard to early warning and mediation;
 - (h) Support efforts to advance implementation of Security Council resolution [1325 \(2000\)](#) on women and peace and security through support for training and rostering exercises of female officers in peace support operations, and in addressing the root causes of conflict and peacebuilding in Africa;
 - (i) Support the implementation of the African Union Continental Framework for Youth, Peace, and Security, including its Ten-Year Implementation Plan for 2020–2029.
- 3.208 The above-mentioned work is expected to result in:
- (a) Strengthened strategic coherence and collaboration between the African Union, the United Nations and other partners in addressing Africa’s peace and security challenges, including the root causes of conflicts;
 - (b) Strengthened ability of the African Union, the African Union Commission, the regional economic communities and the regional mechanisms with regard to conflict prevention, management and resolution, including the capacity of the African Union to plan and manage its peace operations.
- 3.209 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) There is continued political will and commitment among the United Nations and the African Union in promoting cooperation with regional and subregional organizations in peace and security;
 - (b) The African Union will continue to develop the human and financial capacity necessary to effectively deliver on mandates to address peace and security challenges in Africa;
 - (c) Extrabudgetary funding is available.
- 3.210 With regard to cooperation with other entities at the global, regional and national levels, the Office will maintain relationships with external partners and stakeholders, taking into consideration priorities expressed in Agenda 2063 and relevant policy documents, the 2030 Agenda and the Joint United Nations-African Union Framework for Enhanced Partnership in Peace and Security. The Office will further maintain regular interaction on thematic and country-specific issues and seek common positions for the United Nations and the African Union, while enhancing coordination and synergies between key partners, such as the European Union, regional economic communities and regional mechanisms.
- 3.211 With regard to inter-agency coordination and liaison, the Office will continue to lead or support coordination mechanisms with United Nations entities to ensure coherence in delivering assistance to the African Union. The Office will also engage with relevant opportunities and issue-based coalitions of the Regional Collaborative Platform for Africa.
- 3.212 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, the Office will assist in harmonizing and streamlining United Nations and African Union efforts to institutionalize gender-responsive policymaking and programming, and support efforts to increase the equal participation, representation and full involvement of women in

preventive diplomacy, mediation and sustaining peace, including through mainstreaming of the women and peace and security agenda into joint activities with the African Union Commission and the Intergovernmental Authority on Development on preventing and addressing armed conflict and peacebuilding. The Office will also support the African Union, regional economic communities, regional mechanisms and member States in mainstreaming the women and peace and security agenda.

Impact of the pandemic and lessons learned

- 3.213 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular, some planned activities, such as training and workshops, which were cancelled or conducted through virtual or hybrid formats in the first half of 2022.
- 3.214 The Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the continued use of virtual or hybrid formats, where appropriate and within existing capacities.

Programme performance in 2022

Reducing the potential for election-related violence against women

- 3.215 In 2022, the Office supported the African Union in deploying members of the African Women Leaders Network, the Network of African Women in Conflict Prevention and Mediation (FemWise-Africa) and the Panel of the Wise for the 2022 elections in Kenya and Senegal. This support enabled the establishment of a women’s “situation room” to monitor and respond to women’s access to and participation in electoral processes and provide mediation services in the event of election-related tensions or violence, and contributed to reducing potential political tensions around the elections in both countries, in particular violence against and intimidation of women. The situation room identified challenges to the participation of women in electoral processes and engaged in advocacy with relevant national authorities to raise awareness and identify steps to resolve such challenges. As part of this initiative, in Senegal, the Office of the Special Envoy of the Chairperson of the African Union Commission on Women, Peace and Security engaged experts to train 120 members of the African Women Leaders Network in specialized areas such as data collection and political analysis.
- 3.216 Progress towards the objective is presented in the performance measure below (see table 3.60).

Table 3.60

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
–	–	Women’s situation rooms established by the African Union to monitor and respond to women’s access to and participation in electoral processes during elections in Kenya and Senegal and to provide mediation services to reduce the potential for election-related tensions or violence

Planned results for 2024

Result 1: strengthened African Governance Architecture

Programme performance in 2022 and target for 2024

- 3.217 The work of the Office contributed to the operationalization of the African Union Master Road Map of Practical Steps for Silencing the Guns in Africa by 2030, and the launch of the African Union Compliance and Accountability Framework project, aimed at ensuring that African Union peace support operations are planned and conducted in accordance with international human rights law, international humanitarian law and applicable standards of conduct and discipline, which met the planned target.
- 3.218 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.61).

Table 3.61
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
Conclusion of an African Union-United Nations draft human rights framework	Strengthened African Union capacity on governance, democratization and human rights, in particular the African Union Mediation Support Unit and the Continental Early Warning System	Operationalization of the African Union Master Road Map of Practical Steps for Silencing the Guns in Africa by 2030 Launch of the African Union Compliance and Accountability Framework project	Enhanced triangular cooperation on African Union governance, democratization, and human rights instruments at the regional and national levels	The African Union implements the African Union Compliance and Accountability Framework project

Result 2: strengthened implementation of the women and peace and security agenda

Programme performance in 2022 and target for 2024

- 3.219 The work of the Office contributed to further integration of the women and peace and security agenda into African Union peace support operations and access by the African Union, other partners and the general public to a third series of the “She Stands for Peace” podcast and a second “She Stands for Peace” publication, which met the planned target.
- 3.220 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.62).

Table 3.62
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Increased awareness of the women and peace and security agenda through publication of the book “She Stands for Peace”	Increased public awareness of the women and peace and security agenda through the “She Stands for Peace” podcast series (22 episodes)	Further integration of the women, peace and security agenda into African Union peace support operations, with mainstreaming of a gender perspective as an integral element and prerequisite for all training, including the African Standby Force	Implementation of Security Council resolution 1325 (2000) in the areas of protection, prevention, and recovery and resolution through mentorship, training, and communications support	Implementation of Security Council resolution 1325 (2000) in the areas of protection, prevention, and recovery and resolution
Enhanced capacity of the African Union to engage and support member States in mainstreaming a gender perspective and promoting digital inclusion and women’s participation in mediation	Improved capacity of the African Union to provide training on violence against women and girls	The African Union, other partners and the general public have access to a third series of the “She Stands for Peace” podcast and a second “She Stands for Peace” publication		

Proposed programme plan for 2024

Result 3: progress towards predictable and sustainable funding for African Union peace support operations

Proposed programme plan for 2024

3.221 With the adoption of its resolutions 2320 (2016) and 2378 (2017), the Security Council recognized that ad hoc and unpredictable financing arrangements for African Union-led peace support operations authorized by the Security Council and consistent with Chapter VIII of the Charter might have an impact on the effectiveness of those peace support operations. In the past, the Office has provided support to the process of accessing funding for African Union peace support operations, including through support to the development of the African Union Compliance and Accountability Framework project, which was launched on 11 November 2022 as part of tripartite cooperation between the African Union, the European Union and the United Nations. During their sixteenth annual joint consultative meeting, held in October 2022, members of the African Union Peace and Security Council and the Security Council discussed the practical steps that could be taken and the conditions necessary to establish a specific funding mechanism for peace support operations.

Lessons learned and planned change

3.222 The lesson for the Office was to leverage the renewed momentum on predictable, sustainable and flexible financing for African Union-led peace support operations and to shift its approach from

advocacy to provision of technical support in specific areas as required in Security Council resolutions [2320 \(2016\)](#) and [2378 \(2017\)](#). In applying the lesson, the Office will provide technical assistance to the African Union, including with regard to the development of the joint planning guidelines that will provide direction on the processes to be followed between the United Nations and the African Union during joint planning, decision-making and reporting. The Office will provide further technical assistance as required to support the African Union in implementing any recommendations of the Security Council.

3.223 Expected progress towards the objective is presented in the performance measure below (see table 3.63).

Table 3.63
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)

3.227 Additional details on the distribution of the proposed resources for 2024 are reflected in tables 3.68 to 3.70 and figure 3.XXXI.

3.228 As reflected in table 3.68 (1) and 3.69 (1), the overall resources proposed for 2024 amount to \$1,007,000 before recosting, reflecting no change compared with the appropriation for 2023. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Figure 3.XXXI
Distribution of proposed resources for 2024 (before recosting)

(Number of posts/thousands of United States dollars)

Other assessed and extrabudgetary resources

- 3.229 As reflected in tables 3.68 (2) and 3.69 (2), other assessed resources are estimated at \$8,947,600. The resources would complement regular budget resources and would be used mainly to support the Office in carrying out its mandate. The decrease of \$128,400 reflects mainly decreased provisions for posts, due to updated salary costs, as reflected in the budget for the support account for peacekeeping operations for the period from 1 July 2023 to 30 June 2024 ([A/77/771](#)).
- 3.230 As reflected in tables 3.68 (3) and 3.69 (3), no extrabudgetary resources are expected in 2024 due to the discontinuation of donor funding.

Other information

- 3.231 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution [72/219](#), the Office is integrating environmental management practices into its operations. The Office will continue to integrate environment-friendly management practices by continuing to deploy printers with energy-efficient technological capacity and levels, thus providing a low energy footprint, and by installing software on printers for monitoring printing levels.
- 3.232 Information on advance booking for air travel is reflected in table 3.71. The majority of official travel by the Office is in support of joint initiatives with the African Union, the regional economic communities and other partners. Notification or approval of such travel is often not received within time frames that would comply with the United Nations stipulations on travel. The Office will continue to endeavour to ensure that notification or approval of travel in support of joint activities with strategic partners is received within timelines that would enable compliance with the stipulated requirements. The Office will also continue to raise awareness of this obligation among its strategic partners.

VI. Office of Counter-Terrorism

Foreword

Terrorism continues to pose a serious threat to international peace and security, the full enjoyment of human rights, and social and economic development. Terrorists continue to endeavour to exploit underlying fragilities in some countries, such as the limited reach of Governments and the lack of capacity to provide security or deliver essential services, as well as armed conflict, and seek to undermine public confidence in governmental institutions. As terrorism continues to evolve, it has become more ideologically diffuse and geographically widespread, affecting all regions of the world, either directly or indirectly. Terrorists have also honed their tactics and strategies and are using new and emerging technologies to spread terrorist content, recruit and radicalize, mobilize resources and commit attacks. The Office of Counter-Terrorism supports the efforts of Member States to address and respond to the global terrorist threat by providing policy leadership on General Assembly counter-terrorism mandates, enhancing coordination and coherence across the United Nations Global Counter-Terrorism Coordination Compact entities, delivering capacity-building assistance and improving the visibility of, and advocacy and resource mobilization for, United Nations counter-terrorism efforts.

More should be done to prevent and combat terrorism in all its forms and manifestations, and to protect, promote and respect the rights and support the needs of victims of terrorism. A collective approach by Member States, the United Nations, including through the United Nations Global Counter-Terrorism Coordination Compact, international, regional and subregional organizations, and civil society, as informed by the report of the Secretary-General entitled “Our Common Agenda” and reinvigorated by strengthened multilateralism, including for the development of the New Agenda for Peace, is a matter of necessity to effectively address the global threat of terrorism.

In 2024, the Office of Counter-Terrorism will continue to implement its strategic plan for the period 2022-2025 in order to operationalize the mandate given to the Office by the General Assembly in its resolution [71/291](#) and in successive reviews of the United Nations Global Counter-Terrorism Strategy, including its eighth review, undertaken in 2023.

(Signed) Vladimir **Voronkov**
Under-Secretary-General, Office of Counter-Terrorism

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

- 3.233 Pursuant to General Assembly resolution [71/291](#), and as reaffirmed by the Assembly in its resolution [75/291](#), on the seventh review of the United Nations Global Counter-Terrorism Strategy, the Office of Counter-Terrorism is responsible for five main functions: providing leadership on the General Assembly counter-terrorism mandates entrusted to the Secretary-General; enhancing coordination and coherence across the United Nations system to ensure the balanced implementation of the four pillars of the United Nations Global Counter-Terrorism Strategy; strengthening delivery of United Nations counter-terrorism capacity-building assistance to Member States; improving the visibility of, and advocacy and resource mobilization for, United Nations counter-terrorism efforts; and ensuring that due priority is given to counter-terrorism across the United Nations system and that work on preventing violent extremism as and when conducive to terrorism is firmly rooted in the Strategy.
- 3.234 The United Nations Global Counter-Terrorism Strategy (General Assembly resolution [60/288](#)) is composed of four pillars, in the form of measures to: address the conditions conducive to the spread of terrorism; prevent and combat terrorism; build States' capacity to prevent and combat terrorism and to strengthen the role of the United Nations system in this regard; and ensure respect for human rights for all and the rule of law as the fundamental basis of the fight against terrorism. The mandate of the Office derives from the priorities established in the Strategy and subsequent review resolutions adopted by the General Assembly, including resolution [75/291](#), and other relevant General Assembly and Security Council resolutions, including Security Council resolution [2617 \(2021\)](#).
- 3.235 The Office acts as secretariat for the United Nations Global Counter-Terrorism Coordination Compact. The Compact promotes action-oriented collaboration within the United Nations system, and serves as a platform for joint programming, coherent monitoring and evaluation, and facilitation of joint resource mobilization and outreach to donors. This enhanced coordination, cooperation and coherence supports the Secretary-General's "all-of-United Nations" approach.

Programme of work

Objective

- 3.236 The objective, to which the Office contributes, is to prevent and counter terrorism in all its forms and manifestations, as well as violent extremism as and when conducive to terrorism, in compliance with international law.

Strategy and external factors for 2024

- 3.237 To contribute to the objective, the Office, guided by its strategic plan for the period 2022–2025, will:
- Provide leadership for the General Assembly counter-terrorism mandates entrusted to the Secretary-General and convene high-level international and regional conferences and outreach events for Member States, international and regional organizations, and civil society to exchange information, expertise and resources, develop partnerships and collectively address a range of counter-terrorism issues;
 - Enhance coordination and coherence across the United Nations Global Counter-Terrorism Coordination Compact entities to support the counter-terrorism efforts of Member States,

including by strengthening the response to technical assistance needs identified by the Counter-Terrorism Committee Executive Directorate and to requests from various Member States;

- (c) Provide technical and capacity-building assistance to requesting Member States, including through its presences away from Headquarters, in an integrated and coordinated manner, and reinforce resource mobilization activities with donors;
- (d) Conduct research, identify and disseminate new and innovative programme management methodologies, best practices and lessons learned, and embed evidence-informed delivery as a foundation for its technical assistance work;
- (e) Strengthen the capacity of Member States to ensure respect for human rights and the rule of law while countering terrorism, in accordance with the fourth pillar of the United Nations Global Counter-Terrorism Strategy;
- (f) Support parliamentarians and strengthen outreach to civil society organizations, including youth and women's organizations, in preventing and countering terrorism and violent extremism conducive to terrorism.

3.238 The above-mentioned work is expected to result in:

- (a) Multilateral cooperation against terrorism, and strengthened partnerships with and among Member States, international and regional organizations, civil society, the private sector and academia for a whole-of-society approach to counter-terrorism and the prevention of violent extremism conducive to terrorism;
- (b) Implementation by Member States of relevant General Assembly and Security Council resolutions related to countering terrorism and preventing violent extremism conducive to terrorism, including by building greater resilience and reinforcing responses to terrorist threats and attacks;
- (c) Enriched international and multisectoral policy discourse in support of greater prioritization and coherence on counter-terrorism and the prevention of violent extremism conducive to terrorism;
- (d) Integration of human rights norms and standards in relevant measures taken in the context of preventing and countering terrorism and violent extremism conducive to terrorism, in requesting Member States.

3.239 With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:

- (a) Member States will continue to request support from the United Nations in preventing and countering terrorism and violent extremism conducive to terrorism;
- (b) Extrabudgetary resources for capacity-building support for Member States will be available;
- (c) Member States, supported by the Office, will grant the necessary official approvals and access to enable implementation and delivery of this support.

3.240 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to cooperate with the Global Counterterrorism Forum and specialized international and regional organizations, such as the African Union, the Association of Southeast Asian Nations, the Caribbean Community, the Collective Security Treaty Organization, the Anti-Terrorism Centre of the Commonwealth of Independent States, the European Union, the League of Arab States, the North Atlantic Treaty Organization, the Organization of American States, the Organization for Security and Cooperation in Europe, the Organization of Islamic Cooperation and the Regional Anti-Terrorist Structure of the Shanghai Cooperation Organization. The Office will continue to implement existing and develop new partnership frameworks to support joint approaches to promote the implementation of the United Nations Global Counter-Terrorism Strategy and regional counter-terrorism strategies.

- 3.241 With regard to inter-agency coordination and liaison, the Office leads the United Nations Global Counter-Terrorism Coordination Compact, which includes 45 United Nations and non-United Nations entities, as member or observer entities. The Compact comprises eight thematic working groups specialized in priority areas relating to preventing and countering terrorism and violent extremism conducive to terrorism, aligned with the four pillars of the United Nations Global Counter-Terrorism Strategy. The Office will continue to strengthen the coordination of counter-terrorism efforts through consultative inter-agency efforts with the United Nations country teams and resident coordinators, in cooperation with respective host countries, and use its coordination role to strengthen existing partnerships and initiate new ones for multi-stakeholder collaboration at the national, regional and global levels. The Office will continue to advocate an approach that prioritizes joint programming with other United Nations partners to maximize the use of resources and deliver more coherent and expert capacity-building activities, including in the field, in close coordination with the resident coordinator system.
- 3.242 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate, including through the implementation of its policy and action plan for gender mainstreaming. The Office will provide technical assistance in line with the women and peace and security agenda and the United Nations Global Counter-Terrorism Strategy and its biennial reviews, and informed by gender-sensitive analysis.
- 3.243 In line with the United Nations Disability Inclusion Strategy, an internal policy will be adopted in 2023 to provide guidance on how to integrate disability inclusion within the Office's programmatic and policy functions, including modalities on how disability considerations will be reflected in programme design and the implementation of evaluations.

Impact of the pandemic and lessons learned

- 3.244 The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular due to shifting national priorities in response to COVID-19, which had an impact on some of the planned results of the Office. The Office was able to adapt to the operational environment imposed by the COVID-19 pandemic. The Office consolidated its working methods to adopt a hybrid modality and invested heavily in developing its digital capabilities, including new e-learning platforms, e-training modules and other digital resources. Through innovative and virtual solutions, the Office maintained close engagement with Member States, international and regional organizations, civil society, academic and research institutions, and the private sector, as well as through its leadership of the United Nations Global Counter-Terrorism Coordination Compact, and the provision of capacity-building support to Member States in partnership with Compact entities, with a focus on results-oriented, integrated and global multi-year delivery.
- 3.245 The Office continues to mainstream lessons learned and best practices related to the adjustment and adaptation of its programme implementation owing to the COVID-19 pandemic. While using virtual and hybrid modalities for the delivery of its capacity-building mandate, the Office recognizes the importance of in-person delivery of its technical and capacity-building assistance and continues to deliver in-person engagement with beneficiary Member States and other stakeholders as needed.

Evaluation activities

- 3.246 The following evaluations conducted by the Office and completed in 2022 have guided the proposed programme plan for 2024:
- (a) Final evaluation of the project on training and capacity-building of law enforcement officials on human rights, the rule of law and the prevention of terrorism;

- (b) Midterm evaluation of the project on strengthening resilience against violent extremism² in Asia (STRIVE Asia).
- 3.247 The results and lessons of the evaluations referenced above have been taken into account for the proposed programme plan for 2024. For example, recommendations from the evaluation of the project on training and capacity-building of law enforcement officials, including on building sustainable partnerships with training institutions in the beneficiary countries, designing projects from a needs-based perspective and integrating a gender perspective throughout the design and implementation process, are being used to guide future programming. In response to recommendations from the evaluation of the STRIVE Asia project, the project management structure has been reconfigured to ensure better coordination among implementing partners, and the implementation process has been strengthened to leverage a regional approach through joint organization of cross-regional events targeting both Central Asia and South Asia.
- 3.248 The following evaluations to be conducted by the Office are planned for 2024:
- (a) Midterm evaluation of the Global Counter-Terrorism Investigations Programme;
 - (b) Final evaluation of the project on supporting the management of violent extremist prisoners and the prevention of radicalization to violence in prisons;
 - (c) Final evaluation of the project on addressing urgent needs in Iraq: screening, rehabilitation and reintegration of adults, management of high-risk prisoners, and humanitarian and protection needs of children returned from the Syrian Arab Republic.

Programme performance in 2022

Member States detect terrorists and serious criminals and their travel movements in compliance with Security Council resolutions 2178 (2014), 2396 (2017) and 2482 (2019)

- 3.249 Since 2019, the Office, through the United Nations Countering Terrorist Travel Programme and in coordination with five other United Nations entities, has been supporting Member States through technical assistance to prevent, detect, investigate and prosecute terrorist offences and other serious crimes, including related travel, in line with relevant Security Council resolutions. As part of these efforts, the Office supports Member States in developing national road maps for countering terrorist travel, establishing national passenger information units for the collection and analysis of data and deploying goTravel, a software solution that supports the end-to-end process of obtaining and conducting targeted analysis of large volumes of air travel passenger data. In 2022, the Office conducted consultations with Member States which led to the development of nine national road maps, for a cumulative total of 28 national road maps developed since 2019. A major milestone achieved in 2022 was the inauguration of passenger information units in three Member States to manage and maintain an advance passenger information and passenger name record system, using the goTravel software. Of those, two Member States have started to collect and analyse live passenger data.
- 3.250 Progress towards the objective is presented in the performance measure below (see figure 3.XXXII).

² The term “violent extremism” refers to violent extremism as and when conducive to terrorism.

Figure 3.XXXII

Performance measure: number of Member States taking measures to detect terrorists and serious criminals and their air travel movements

Planned results for 2024

Result 1: improved security of major sporting events and prevention of violent extremism conducive to terrorism through sport and its values

Programme performance in 2022 and target for 2024

- 3.251 The Office’s work contributed to the engagement of 150 national focal points from 106 Member States to promote the use of sport and its values as a tool for preventing violent extremism conducive to terrorism, which exceeded the planned target of 130 national focal points but did not meet the planned target of 120 Member States.
- 3.252 The Office’s work also contributed to the engagement of 153 national focal points from 110 Member States to promote the development and adoption of advanced policies and practices to enhance the security of major sporting events, which exceeded the planned target of 130 national focal points but did not meet the planned target of 120 Member States. The targets were not met due to shifting priorities in the national agendas of Member States in response to the COVID-19 pandemic.
- 3.253 Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure 3.XXXIII).

Figure 3.XXXIII
Performance measure: number of Member States and national focal points for the two programmatic pillars of the global sport and security programme (cumulative)

^a The global programme was extended until the end of 2023, and will seek an extension through the end of 2025.

Result 2: enhanced protection and assistance for victims of terrorism

Programme performance in 2022 and target for 2024

- 3.254 The Office’s work contributed to the holding of the first United Nations Global Congress of Victims of Terrorism in September 2022, which reviewed existing practices and made recommendations to better protect victims’ rights and needs, and which met the planned target. Recommendations included further strengthening and developing national legislation on victims of terrorism, enhancing collaboration with victims and victims’ associations, and the need for regular review of progress made.
- 3.255 The Office’s work also contributed to Member States having access to the Model Legislative Provisions to Support the Needs and Protect the Rights of Victims of Terrorism, which provide guidance on the implementation of laws and procedures related to victims of terrorism and provide suggestions for the formulation of provisions based on various legal systems and for the development of national comprehensive assistance plans, which did not meet the planned target of increased capacity in two Member States to develop national comprehensive assistance plans for victims anchored in legal frameworks. The target was not met due to delays occasioned by the COVID-19 situation in some Member States that affected their ability to engage in capacity-building.
- 3.256 Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 3.72).

Table 3.72
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Report of the Secretary-General on progress made by the United Nations system in supporting Member States in assisting victims of terrorism (A/74/790) issued, in which all Member States were called upon to establish national frameworks to strengthen support to victims of terrorism	Increased awareness of Member States on the importance of anchoring national plans into legal frameworks to ensure holistic and victim-centric approaches in counter-terrorism efforts	First United Nations Global Congress of Victims of Terrorism to review existing practices and make recommendations to better protect victims' rights and needs Member States have access to the Model Legislative Provisions to Support the Needs and Protect the Rights of Victims of Terrorism	Increased capacity in two additional Member States to develop national comprehensive assistance plans for victims anchored in legal frameworks	International conference on victims of terrorism to review progress made in implementing recommendations from the first United Nations Global Congress of Victims of Terrorism Two Member States develop national comprehensive assistance plans for victims anchored in legal frameworks

Result 3: enhanced coordination and coherence among United Nations Global Counter-Terrorism Coordination Compact entities, regional organizations and other partners to support the counter-terrorism efforts of Member States

Proposed programme plan for 2024

3.257 The Office has institutionalized its capabilities to deliver on its core functions, including by strengthening coordination and coherence in the counter-terrorism efforts of the United Nations system through the United Nations Global Counter-Terrorism Coordination Compact, its Coordination Committee and working groups, and its web-based Global Counter-Terrorism Coordination Platform. By its resolution 75/291, the General Assembly called upon the Office and Compact entities to enhance coordination and coherence through consultative, inter-agency efforts and through engagement with local, national and regional stakeholders.

Lessons learned and planned change

3.258 The lesson for the Office was the need to enhance regional coordination for a common-action approach to coordination and coherence in the work of the United Nations to prevent and counter terrorism and to strengthen support to Member States. In applying the lesson, the Office will implement the seven practical steps for regional coordination approved by the Global Compact Coordination Committee in 2021. These include enhancing engagement through the Global Counter-Terrorism Coordination Platform by providing information on national priorities related to countering terrorism, good practices and challenges, allowing for greater coherence in the delivery of United Nations assistance to Member States; strengthening collaboration with the Global Counterterrorism Forum and its working groups through more frequent and direct interaction; and strengthening engagement of civil society organizations and other actors for a whole-of-society approach to preventing and countering terrorism.

3.259 Expected progress towards the objective is presented in the performance measure below (see table 3.73).

Table 3.73
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Launch of the Global Counter-Terrorism Coordination Platform, a digital gateway for coordination within the United Nations system and with Member States	The seventh meeting of the Coordination Committee of the United Nations Global Counter-Terrorism Coordination Compact approved the seven practical steps for working groups to enhance regional coordination through the Compact	Enhanced engagement between United Nations Global Counter-Terrorism Coordination Compact entities and Member States, with information exchange between over 1,000 focal points from 45 Compact entities, 136 Member States and 13 regional organizations	Strengthened cooperation between the Global Counterterrorism Forum and the United Nations Global Counter-Terrorism Coordination Compact as evidenced by direct interaction between each of the eight Compact working groups and the working groups of the Forum	Strengthened engagement by civil society organizations and other actors, as evidenced by their increased participation in each of the eight United Nations Global Counter-Terrorism Compact working groups

Legislative mandates

3.260 The list below provides all mandates entrusted to the Office.

General Assembly resolutions

60/288; 62/272; 64/297	United Nations Global Counter-Terrorism Strategy	72/165	International Day of Remembrance of and Tribute to the Victims of Terrorism
64/235	Institutionalization of the Counter-Terrorism Implementation Task Force	73/305	Enhancement of international cooperation to assist victims of terrorism
66/10	United Nations Counter-Terrorism Centre	75/291	The United Nations Global Counter-Terrorism Strategy: seventh review
66/282; 68/276; 70/291; 72/284	The United Nations Global Counter-Terrorism Strategy Review	77/243	International Day for the Prevention of Violent Extremism as and when Conducive to Terrorism
70/254	Secretary-General's Plan of Action to Prevent Violent Extremism		
71/291	Strengthening the capability of the United Nations system to assist Member States in implementing the United Nations Global Counter-Terrorism Strategy		

Security Council resolutions

2341 (2017)	2462 (2019)
2368 (2017)	2482 (2019)
2370 (2017)	2617 (2021)
2395 (2017)	
2396 (2017)	

Deliverables

D. Communication deliverables

Outreach programmes, special events and information materials: three regional conferences, as well as special commemorative events, launch events, side events and exhibitions. Monthly newsletters on the work of the Office, bimonthly newsletters and annual report on the United Nations Global Counter-Terrorism Coordination Compact, and other promotional materials.

External and media relations: approximately 50 press releases, media interviews and other engagement with media.

Digital platforms and multimedia content: content for the Office’s website and social media accounts, including approximately 100 web stories and 20 videos.

B. Proposed post and non-post resource requirements for 2024

Overview

3.262 The proposed regular budget resources for 2024, including the breakdown of resource changes, as applicable, are reflected in tables 3.75 to 3.77.

Table 3.75

Overall: evolution of financial resources by object of expenditure

(Thousands of United States dollars)

Object of expenditure	2022 expenditure	2023 appropriation	Changes				2024 estimate (before recosting)

3.263 Additional details on the distribution of the proposed resources for 2024 are reflected in tables 3.78 to 3.80 and figure 3.XXXIV.

3.264 As reflected in tables 3.78 (1) and 3.79 (1), the overall resources proposed for 2024 amount to \$10,112,100 before recosting, reflecting a net increase of \$4,304,300 (or 74.1 per cent) compared with the appropriation for 2023. Resource changes result from new and expanded mandates. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

(Number of posts/thousands of United States dollars)

Explanation of variances by factor

Overall resource changes

New and expanded mandates

- 3.265 In paragraph 85 of its resolution [75/291](#), the Assembly emphasized the need to continue to seek appropriate funding sources for the integrated and balanced implementation of all the pillars of the Strategy across the United Nations system, in an efficient manner, and in that regard welcomed the continuation of voluntary contributions by Member States. The Assembly also recalled its resolution [71/291](#), in which it emphasized the need to ensure that the Office of Counter-Terrorism is provided with adequate capacity and other resources for the implementation of its mandated activities, and in that regard invited the Secretary-General to carefully assess the finances of the Office and to provide budgetary recommendations, if necessary and on the basis of the technical assessment, to the General Assembly in 2022. The Secretary-General informed the Assembly that the Office would undertake a technical assessment in the second half of 2021 and, subject to the outcome of the assessment, would present any budgetary implications for the programme budget in the proposed programme budget for 2023.
- 3.266 The technical assessment included a review of the Office’s mandates, operations and financial situation, including the requirements to consolidate the United Nations counter-terrorism architecture in a more sustainable manner and to position the Office to better help Member States to address existing and emerging threats. The assessment highlighted the increasing requests for the Office’s services and support in the areas of, inter alia: (a) technical assistance and capacity-building programmes for requesting Member States; (b) assistance on counter-terrorist financing measures, including the sharing of best practices to prevent terrorist attacks on vulnerable targets, infrastructure and public places; and (c) the need to enhance coordination and coherence across the United Nations Global Counter-Terrorism Coordination Compact entities. The assessment also identified existing vulnerabilities, including the lack of predictable and regular funding. At the time of the assessment, extrabudgetary resources constituted 97 per cent of the Office’s overall budget, with the remaining 3 per cent from the regular budget. In terms of staffing, of the 176 staff on-board, 8 posts (4.5 per cent) were funded from the regular budget and the remaining 168 posts (95.5 per cent) were funded from extrabudgetary resources. While the voluntary funding stream has had positive effects on

programme delivery, including by facilitating the growth of operational activities to meet the increasing demand for the Office's support, predominant dependency on such a model poses considerable challenges to the sustainability of mandate implementation. The donor base for voluntary contributions to the Office that are unearmarked is very limited, which carries inherent vulnerabilities for the continued delivery of the institutional mandate. The assessment further identified the need to strengthen programme governance, monitoring and evaluation and information management.

- 3.267 The recommendation from the technical assessment included the proposed conversion of 49 core posts that are funded from voluntary contributions to regular budget funding, which would be implemented in a phased manner, beginning in 2023. The General Assembly, pursuant to its resolution [77/262](#), approved the proposed conversion of 25 posts in the context of the programme budget for 2023. The conversion of the remaining 24 posts is proposed in the current proposal and is critical in ensuring the continued implementation of the Office's five main functions,³ notably to: (a) provide leadership on the General Assembly counter-terrorism mandates entrusted to the Office from across the United Nations system; (b) enhance coordination and coherence across the 38 Counter-Terrorism Implementation Task Force entities to ensure the balanced implementation of the four pillars of the United Nations Global Counter-Terrorism Strategy; (c) strengthen the delivery of United Nations counter-terrorism capacity-building assistance to Member States; (d) improve visibility, advocacy and resource mobilization for United Nations counter-terrorism efforts; and (e) ensure that due priority is given to counter-terrorism across the United Nations system and that the important work on preventing violent extremism as and when conducive to terrorism is firmly rooted in the Strategy.
- 3.268 As reflected in table 3.80, resource changes reflect an increase of \$4,304,300, comprised of \$4,045,700 under post resources and \$258,600 under non-post resources as follows:
- (a) **Post.** The proposed increase of \$4,045,700 reflects the proposed conversion of 24 posts that are funded from extrabudgetary resources to regular budget funding (see annex III);
 - (b) **Non-post.** The proposed increase of \$258,600 reflects: (i) \$184,800 to cover official travel requirements of the 24 posts proposed for conversion from extrabudgetary resources; and (ii) non-post resources associated with the 24 posts under contractual services (\$43,200), general operating expenses (\$16,200), supplies and materials (\$4,800) and furniture and equipment (\$9,600).

Extrabudgetary resources

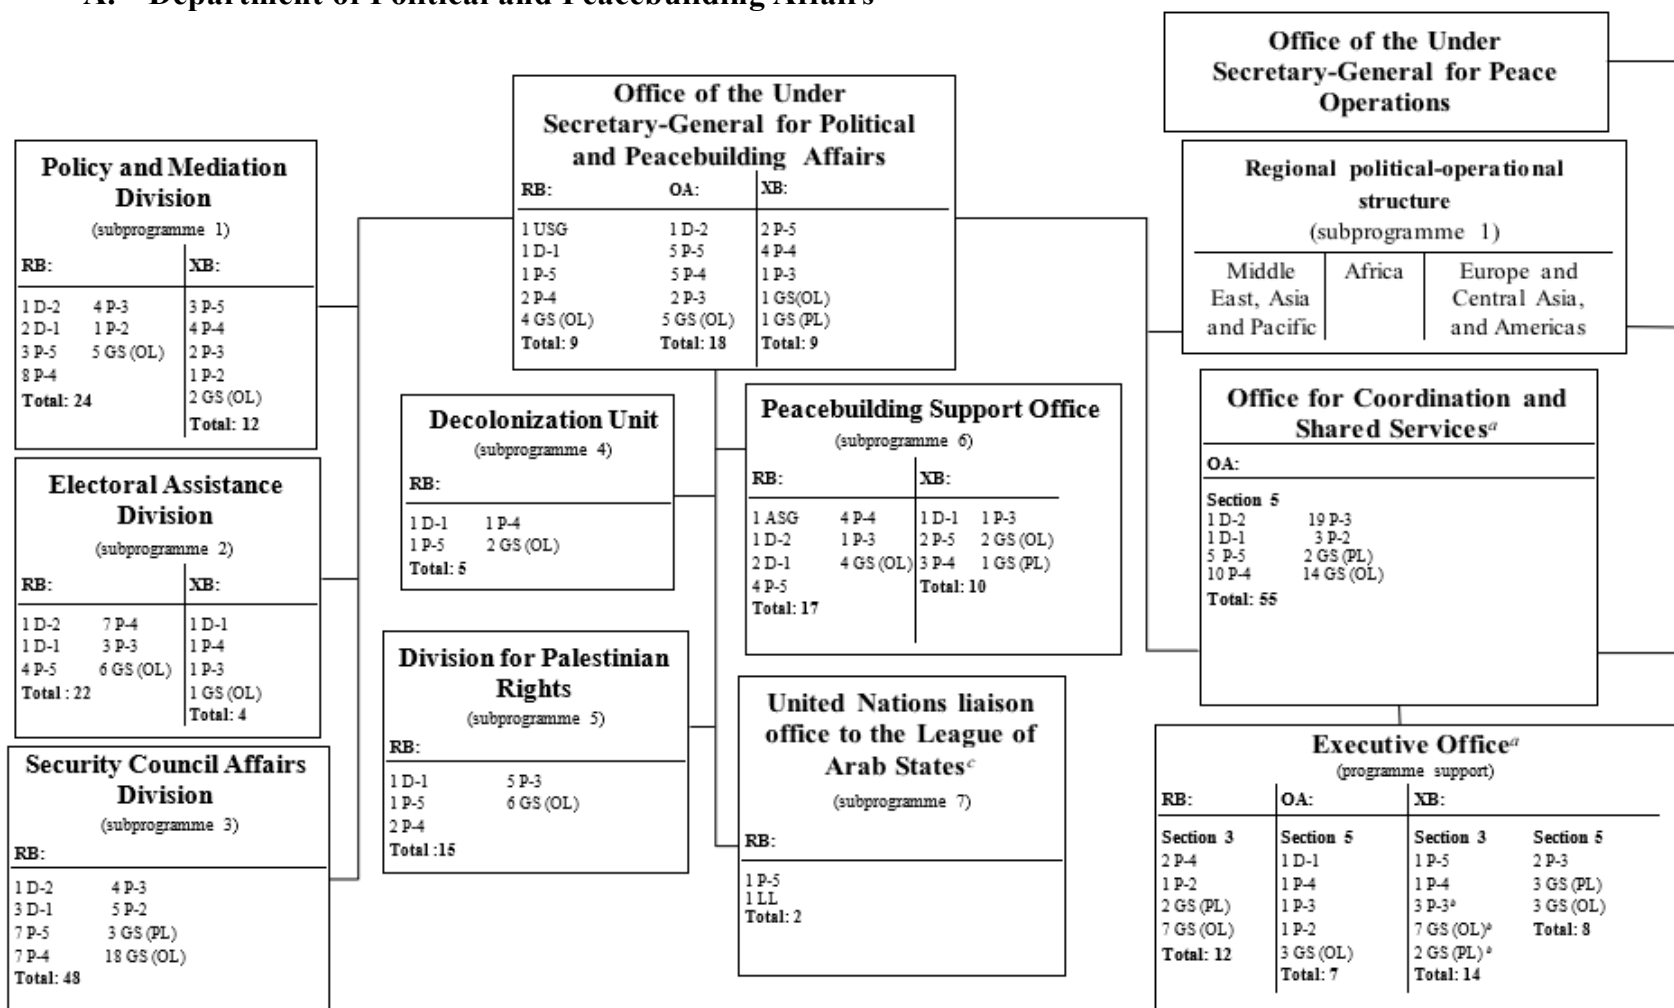

- 3.269 As reflected in tables 3.78 (2) and 3.79 (2), the Office expects to continue to receive cash contributions. In 2024, extrabudgetary resources are estimated at \$19,540,400. The resources would complement regular budget resources and would be used mainly to strengthen its field presence and support to Member States and would also continue to be used to develop innovative ways to deliver capacity-building assistance to Member States. The decrease of \$42,063,300 reflects the discontinuation of donor funding.
- 3.270 The Office also receives in-kind voluntary contributions, including for office space, furniture and equipment, parking and operational services, with an approximate value of \$520,500.
- 3.271 The authority to oversee the use of extrabudgetary resources rests with the Office, in accordance with the delegation of authority from the Secretary-General.

³ The General Assembly, in its resolution [71/291](#), established the Office of Counter-Terrorism in accordance with the five functions set out in the report of the Secretary-General on the capability of the United Nations system to assist Member States in implementing the United Nations Global Counter-Terrorism Strategy ([A/71/858](#)).

Annex I

Organizational structure and post distribution for 2024

A. Department of Political and Peacebuilding Affairs

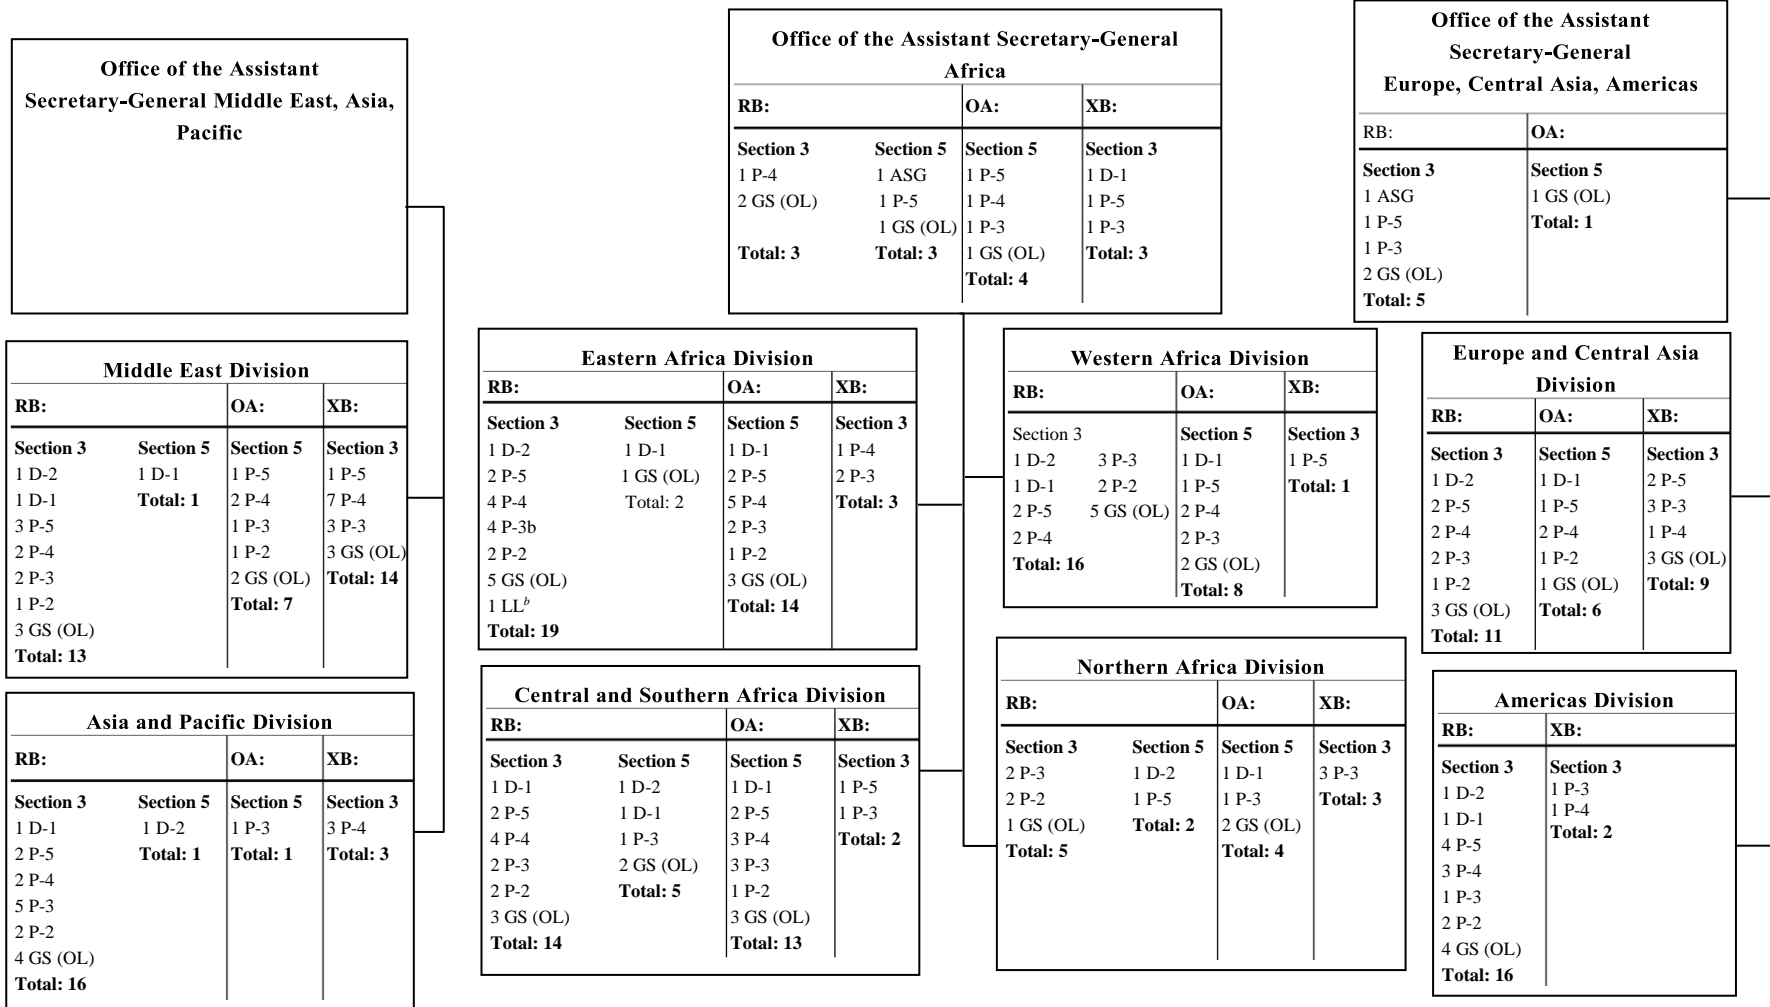

^a Pursuant to General Assembly resolution 72/262 C, in which the Assembly stressed that the actions to restructure the United Nations peace and security pillar should be implemented with full respect for the relevant mandates, decisions and resolutions of the General Assembly and the Security Council, without changing established mandates, functions or funding sources of the peace and security pillar, information on post resources under section 5 is provided for information purposes.

^b 2 P-3, 1 GS (PL) and 2 GS (OL) funded from extrabudgetary resources of the Office of Counter-Terrorism are located in the joint Executive Office of the Department of Political and Peacebuilding Affairs and the Department of Peace Operations to support the Office of Counter-Terrorism.

^c The office is located in Cairo and reports to the Under Secretary-General for Political and Peacebuilding Affairs through the Director of the Middle East Division.

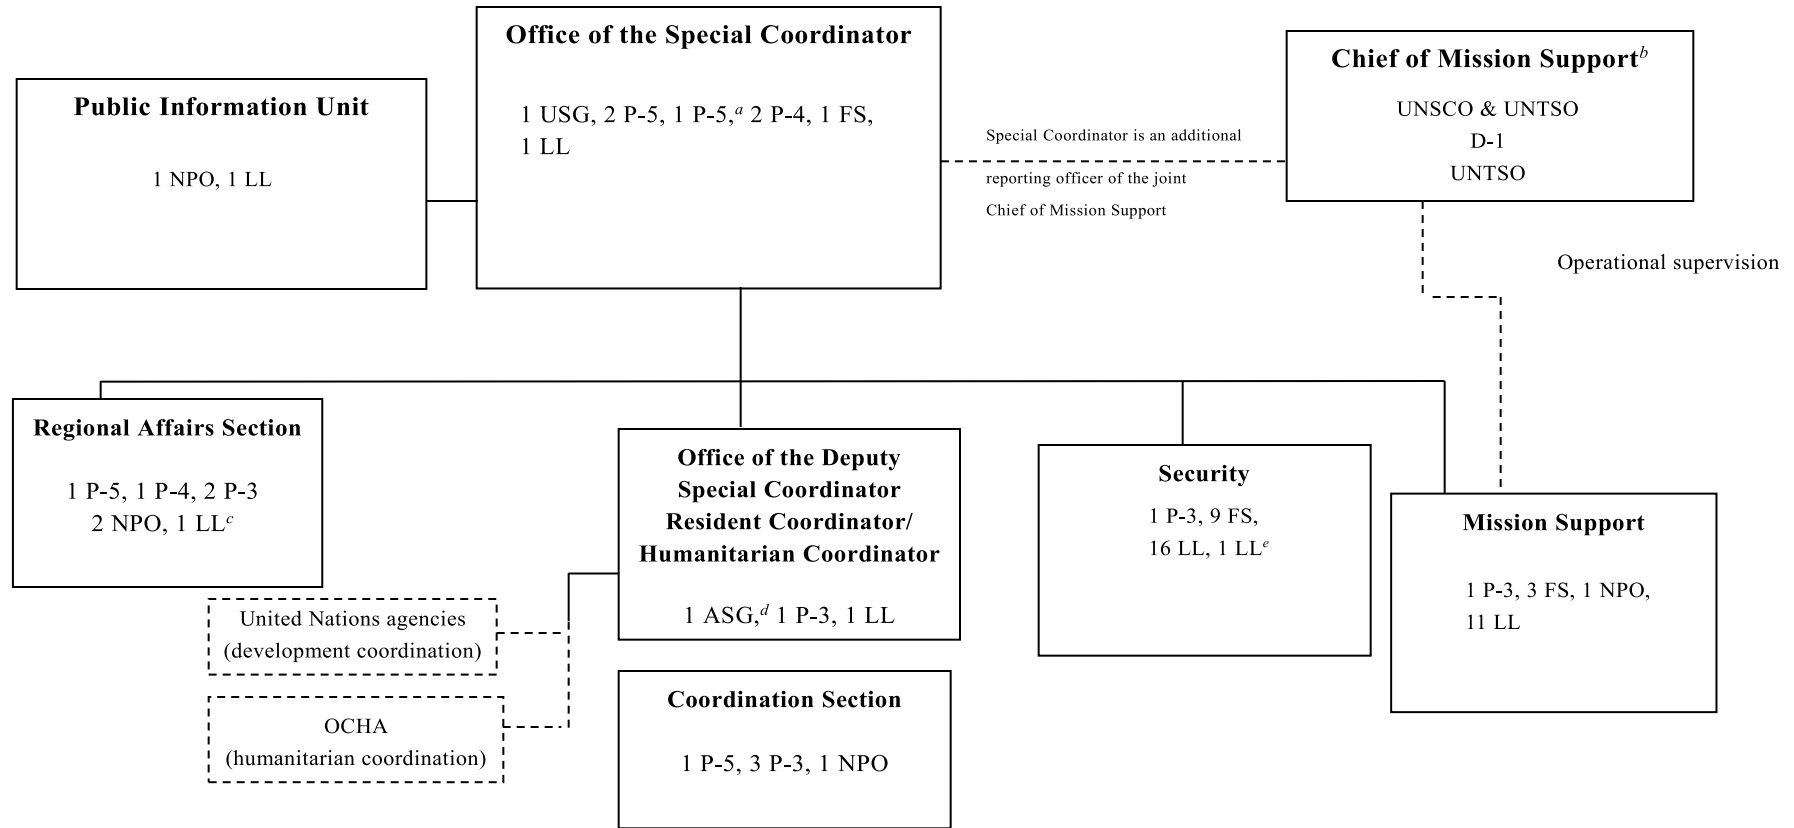

B. Regional political-operational structure^a

^a Pursuant to General Assembly resolution 72/262 C, in which the Assembly stressed that the actions to restructure the United Nations peace and security pillar should be implemented with full respect for the relevant mandates, decisions and resolutions of the Assembly and the Security Council, without changing established mandates, functions or funding sources of the peace and security pillar, information on post resources under section 5 is provided for information purposes.

^b 1 P-3 and 1 Local level based in Nairobi are proposed to be redeployed to Arusha.

C. Office of the United Nations Special Coordinator for the Middle East Peace Process

^a Upward reclassification from Liaison Officer (P-4) to Senior Liaison Officer (P-5).

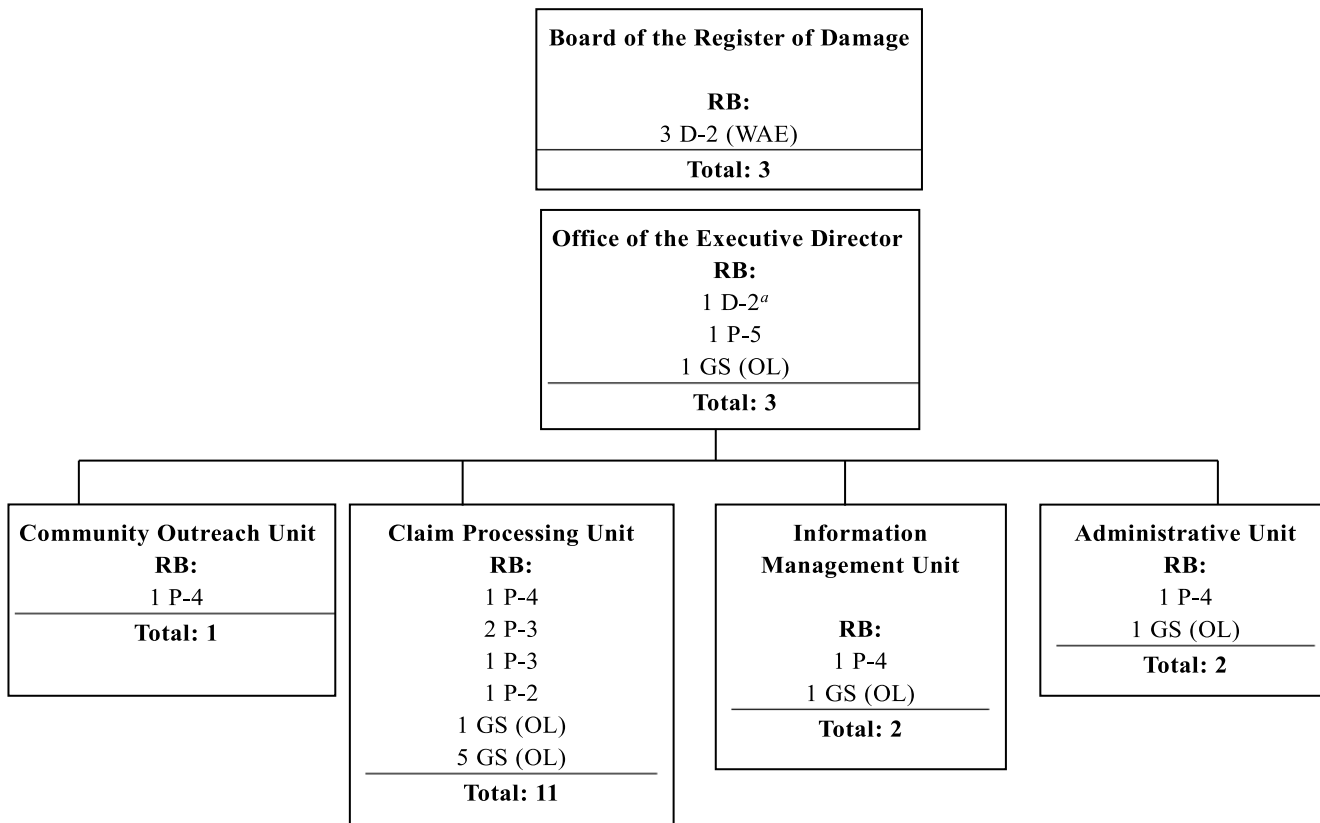

^b The joint United Nations Truce Supervision Organization and Office of the United Nations Special Coordinator for the Middle East Peace Process Chief of Mission Support position is budgeted under the structure of the United Nations Truce Supervision Organization.

^c Establishment of one position of Political Affairs Assistant (Local level).

^d Post costs are shared at 50 per cent between the Office of the Special Coordinator and the Development Coordination Office.

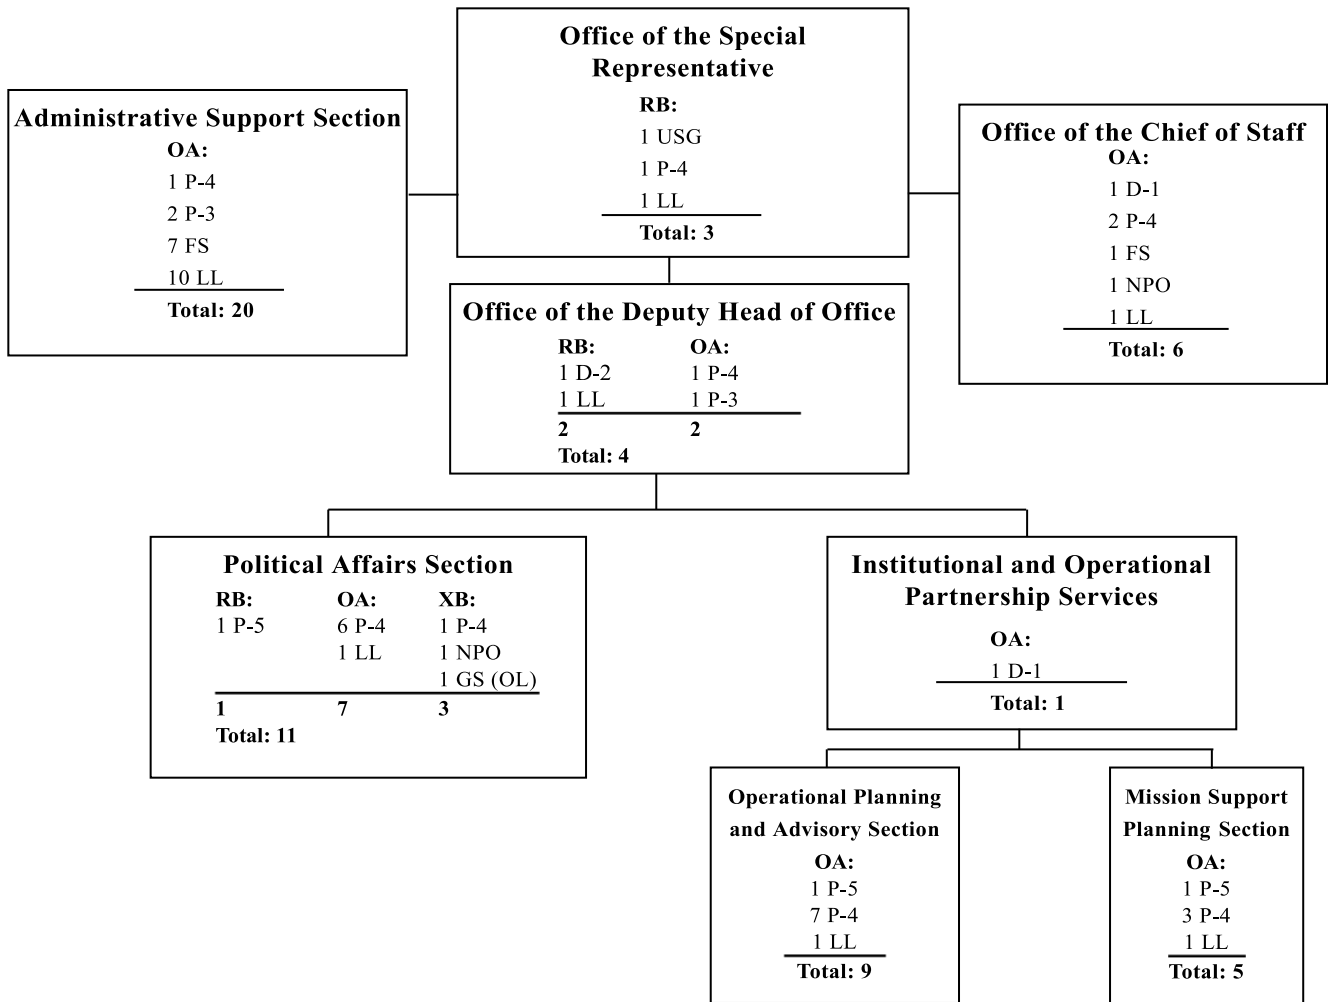

^e Establishment of one position of Close Protection Assistant (Local level).

D. United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory

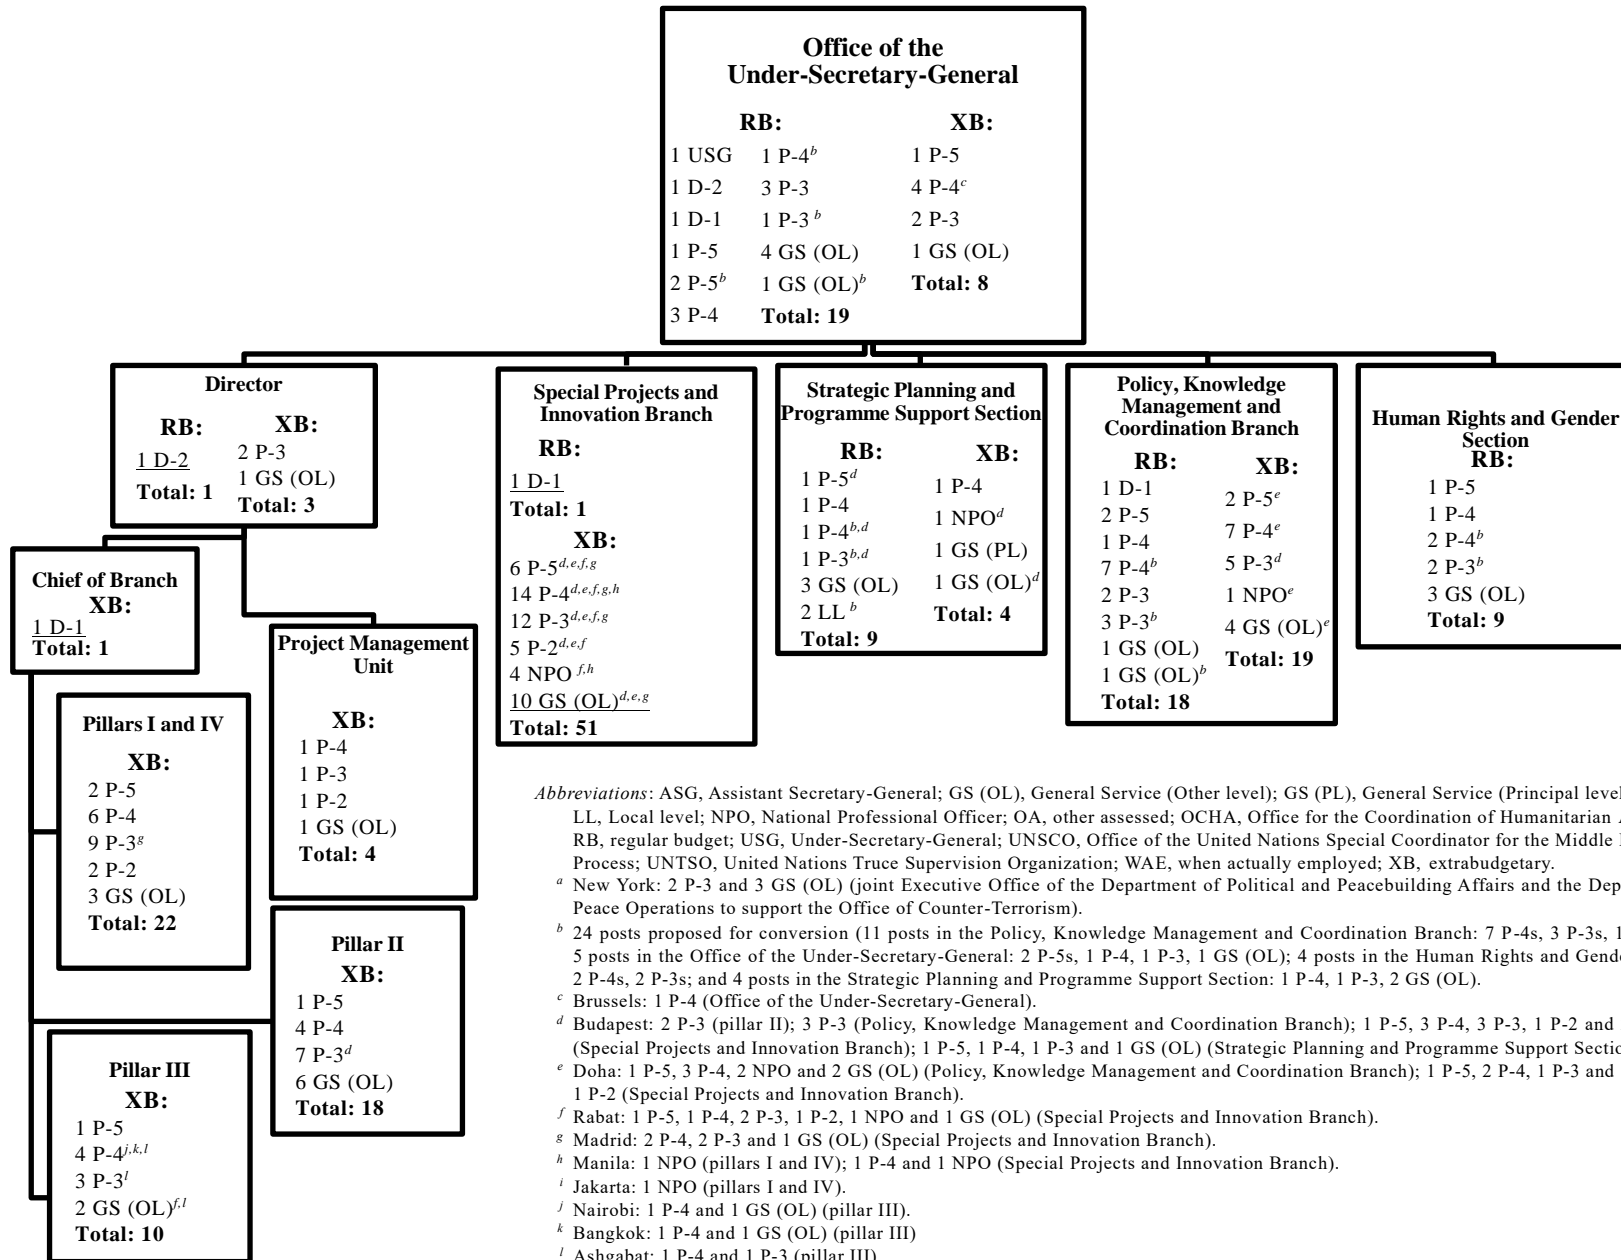

^a The Executive Director of the Office of the Register of Damage acts as ex officio member of the Board.

E. United Nations Office to the African Union

F. Office of Counter-Terrorism^a

Annex II

Summary of follow-up action taken to implement relevant recommendations of the advisory and oversight bodies

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions

[A/77/7](#)

The Advisory Committee trusts that consolidated information on disarmament, demobilization and reintegration activities across all funding sources will be provided in the next programme budget submission (para. II.18).

The Advisory Committee encourages the Department of Political and Peacebuilding Affairs to assess if the capacity to provide mediation expertise on short notice could be developed internally and trusts that consolidated information on the services provided by the United Nations Office for Project Services (UNOPS) to the entities of the Secretariat in all the budget sections will be provided in the next programme budget submission (para. II.21).

In 2022, the Peacebuilding Fund approved an additional \$12.9 million in projects with a focus on disarmament, demobilization and rehabilitation, including in Cameroon, Chad, Colombia and Nigeria.

The Department of Political and Peacebuilding Affairs recently commissioned an independent evaluation and cost-benefit analysis of the Department's arrangements with UNOPS for managing the Standby Team of Senior Mediation Advisers, including their rapid deployment. The evaluation study found that the current arrangement appears cost effective, efficient and fit for purpose, as it enables the rapid mobilization and deployment of mediation expertise in a way that it would be difficult to achieve through regular support functions, contracts or staff appointments of the Secretariat.

In reaching this conclusion, the study considered alternative modalities for providing mediation expertise in response to short-notice mediation support requests. In particular, the study compared current arrangements with UNOPS for managing the Standby Team of Senior Mediation Advisers with two other possible arrangements: (a) Secretariat consultancy contracts; and (b) temporary staff appointments. The evaluation concluded that using either Secretariat modality would substantially increase the time taken for engaging and deploying mediation expertise and thus fundamentally alter the Standby Team mechanism's core purpose and functions to provide required mediation expertise within 72 hours after a request is received. Lack of ability to deploy the expertise quickly may have a negative impact on implementation of the wider strategic goals of the Department, including crisis response and good offices efforts.

Annex III

Summary of proposed post changes, by component and subprogramme

	<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
Department of Political and Peacebuilding Affairs				
Subprogramme 1 Prevention, management and resolution of conflicts	1	P-3	Redeployment (geographical) of 1 Political Affairs Officer (P-3) and 1 Administrative Assistant (LL) the Liaison Office from Nairobi to Arusha, United Republic of Tanzania.	The Department's Liaison Office in Nairobi focuses its activities on supporting the East African Community in addressing the growing peace and security challenges in the region. The redeployment of the Liaison Office to Arusha, where the headquarters of the East African Community is located, would strengthen Department support to the East African Community. A presence in Arusha would have several advantages, given the critical importance of the East African Community in the region and the priority placed by the Secretary-General on strengthening United Nations engagement with regional organizations. The proximity to the East African Community headquarters would provide opportunities for building enhanced trust, more effective monitoring of joint activities and increased understanding of the dynamics among States members of the East African Community, as well as the needs of its secretariat.
Office of the United Nations Special Coordinator for the Middle East Peace Process	1	LL	Establishment of 1 Close Protection Assistant based in Jerusalem	Since 2018, the security situation in the Occupied Palestinian Territory has noticeably deteriorated. In Gaza, following the hostilities of May 2018, sporadic violent escalations continued to take place, including in May 2021 and August 2022. In the West Bank, the number of security-related incidents also multiplied exponentially. Principals of the Office have had to consequently increase mediation efforts and related movements to and within both the West Bank and Gaza, resulting in an increase in the need for close protection services by 232 per cent since 2018, from a total of 229 protection operations to 739 in 2022. The addition of one Close Protection Assistant (Local level) would enhance the operational capability of the Close Protection Unit. The incumbent would support the planning and execution of close protection operations, including route reconnaissance, surveys of missions, coordination with authorities and close protection driving assignments.
	1	LL	Establishment of 1 Political Affairs Assistant based in Ramallah	The political situation in the occupied West Bank, including East Jerusalem, is becoming increasingly complex and volatile. Increased violence and a deteriorating security situation across the West Bank, amid a stalled peace process, settlement activities and demolitions, place additional demands on the political analysis of the Office, as well as its outreach and good offices functions, requiring greater geographical outreach across a wider range of interlocutors. The addition of a national, Arabic-speaking Political Affairs Assistant to the office in Ramallah would enhance the ability of the team, including a Political Affairs Officer (P-3), to monitor, analyse and report on rapidly evolving political and socioeconomic developments on the ground, and assist in outreach and good offices functions, including by the Special Coordinator. A Political Affairs Assistant would also expand the team's ability to engage with a broader range of interlocutors, including youth, on highly sensitive issues and to better organize the visits and meetings of the Office's principals, their teams and senior officials from United Nations Headquarters.

Section 3 Political affairs

<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
(1) 1	P-4 P-5	Reclassification of one Liaison Officer (P-4) to Senior Liaison Officer (P-5)	<p>Given the current heightened tensions across the Occupied Palestinian Territory, efforts to sustain stability on the ground and prevent a return to a full-scale escalation in Gaza require increased political engagement with Palestinian factions, senior officials of the Government of Israel and senior officials in the region to engage in preventive diplomacy. In particular, maintaining the cessation of hostilities reached between Israel and Palestinian armed groups in May 2021 requires further intensified engagement by the Office with armed groups, senior military and security officials and representatives of States in the region. The brief exchange of hostilities in August 2022 illustrated this need. To that end, the Office’s Liaison Officer is expected to lead negotiation efforts with the parties, represent the Special Coordinator in meetings and talks with senior officials and provide strategic advice on the Office’s preventive diplomacy and good offices functions. The complexity and sensitivity of these processes, as well as the need to maintain regular contacts with senior Government officials and representatives of armed groups, require senior-level experience, knowledge of the Arabic language and substantial knowledge and experience in the region. The proposed reclassification would ensure this senior-level engagement on behalf of the Special Coordinator.</p> <p>The proposed conversion of 24 posts funded from voluntary contributions to regular budget funding reflects the recommendations of the technical assessment that was conducted pursuant to General Assembly resolution 75/291.</p>
		Conversion of 5 posts in the Office of the Under-Secretary-General, as follows:	<p>The proposed conversion of 5 posts would provide continued support to the Under-Secretary-General and his Office in the implementation of the core mandate of the Office of Counter-Terrorism pursuant to General Assembly resolution 71/291. The Office of the Under-Secretary-General comprises the Deputy to the Under-Secretary-General, the Counter-Terrorism Committee Executive Directorate Liaison Section, the Field Coordination Section, the Front Office and Communications Section, the Resource Mobilization and Donor Relations Section and the Evaluation and Compliance Unit. The proposed conversion would ensure the continuity of functions in the areas of strategic advice and direct substantive support for the effective execution of the mandates of the Office of Counter-Terrorism; policy guidance and leadership, coordination, capacity-building, advocacy and resource mobilization; quality control and assurance of the Office’s products and services; coordination and coherence of internal and external communications; strengthened liaison with the Counter-Terrorism Committee Executive Directorate; and strengthened accountability, internal controls and evaluations of the Office’s programme plan. The functions of the 5 posts are reflected below.</p>

Office of Counter-Terrorism

<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
1	P-5	Senior Programme Management Officer (Counter-Terrorism Committee Executive Directorate Liaison Officer)	Reports to the Director and Deputy to the Under-Secretary-General. The function facilitates, supports and reinforces effective and efficient cooperation and collaboration between the Office and the Counter-Terrorism Committee Executive Directorate; works to foster and deepen trust and confidence between the Office and the Executive Directorate; and facilitates increased integration of country assessment and thematic recommendations of the Executive Directorate with the technical assistance and capacity-building of the Office. The Officer would provide advisory support to the Under-Secretary-General to address priority needs and opportunities for engagement between the two entities, and is responsible for extensive and ongoing consultations at the working level between colleagues in the Executive Directorate and the Office in support of cooperation and collaboration, identifying gaps and concerns that need to be addressed and opportunities for improvement; and reviews and advises on process improvements to incorporate the perspectives of the Executive Directorate.
1	P-5	Senior Programme Management Officer (Field Coordinator)	Directly supports the Under-Secretary-General on all field matters, including the establishment and coordination of the programmatic and liaison presences of the Office in the field to more effectively and efficiently deliver its mandate and enable the Office to work more closely with its beneficiaries, to acquire a better understanding of national and regional needs, capacities and expectations, and to ensure more sustainability for the Office's capacity-building assistance. The field coordination function provides overall political and strategic guidance to programmatic and liaison presences in the field, in close collaboration with senior management, facilitates coordination across all branches and serves as the Office's main focal point with the Development Coordination Office and the broader Resident Coordinator system, as well as the Department of Political and Peacebuilding Affairs and the Department of Peace Operations.
1	P-4	Administrative Officer	Reports to the Chief of the Office of the Under-Secretary-General on the implementation of policy and programme planning activities and on general administration and management of the Office of Counter-Terrorism, including on all issues related to human resources, support services, budget and finance, with an eye on compliance with financial and staff regulations and rules. The Administrative Officer supports the Office of the Under-Secretary-General in developing and managing systems as they relate to delegated decision-making authority, advises on the adequacy of internal control systems, identifies areas with opportunities for improvement, ensures that lessons learned and best practices are shared systematically to drive continual improvement and foster a culture of accountability and supports the Under-Secretary-General in ensuring optimal staff management and in promoting a mutually respectful work environment.

Section 3 Political affairs

<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
1	P-3	Public Information Officer	Reports to the Head of the Public Information Unit and the Head of the Front Office, under the overall supervision of Chief of the Office of the Under-Secretary-General. The function supports the long-term implementation of the fourth element of the mandate of the Office of Counter-Terrorism with regard to “improving visibility of the activities of the Office and United Nations counter-terrorism efforts”. The Public Information Officer supports the development and monitoring of the implementation of the Office’s communications strategy, including maintenance of social media platforms and websites; the graphic design and production of communications audiovisual tools, publications and newsletters; the management of media relations, thematic campaigns and major events; and the countering of misinformation.
1	GS (OL)	Public Information Assistant	Reports to the Head of the Public Information Unit and the Head of the Front Office, under the overall supervision of Chief of the Office of the Under-Secretary-General. The function supports the Head of the Public Information Unit and the Public Information Officer (P-3) in the long-term implementation of the fourth element of the Office of Counter-Terrorism’s mandate with regard to “improving visibility of the activities of the Office and United Nations counter-terrorism efforts”; provides coordination support for the implementation of the Office’s communications strategy and related reporting, including for the maintenance and performance measurement of social media platforms and websites; undertakes procurement and administrative follow-up for the production of communications audiovisual tools, publications and newsletters; monitors media and thematic campaigns; and organizes major events.
		Conversion of 11 posts in the Policy, Knowledge Management and Coordination Branch	The proposed conversion of 11 posts would ensure continued support to the Policy, Knowledge Management and Coordination Branch in the delivery of its mandate. The Branch is responsible for providing strategic counter-terrorism policy advice and analysis on country and regional engagement and key thematic issues; drafting and coordinating the preparation of reports of the Secretary-General on counter-terrorism, as mandated by the General Assembly and the Security Council; promoting coordination and coherence in the work of the United Nations system to prevent and counter terrorism and violent extremism conducive to terrorism, including through the United Nations Global Counter-Terrorism Compact; developing and strengthening relations with Member States and partnerships with international, regional and subregional organizations; supporting relevant intergovernmental processes as mandated, including the biennial review of the United Nations Global Counter-Terrorism Strategy; and supporting the conceptualization, planning and organization of major policy events of the Office of Counter-Terrorism. The functions of the four posts are detailed below.

Part II Political affairs

<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
7	P-4	Political Affairs Officers	Reviews and analyses key policy and strategic developments and emerging peace and security trends that are related and relevant to preventing and countering terrorism and violent extremism conducive to terrorism, taking into account the cross-pillar relationship between counter-terrorism, sustaining peace, sustainable development and human rights; reviews and monitors developments in specific thematic policy areas and priorities identified by the United Nations Global Counter-Terrorism Strategy and relevant Security Council resolutions, including through intergovernmental processes within the United Nations system and international and regional organizations, as well as strategies, policies, programmes and research pursued by Member States and non-governmental actors (civil society, academia and the private sector); assesses trends and analyses political and related events in assigned area of expertise related to preventing and countering terrorism and violent extremism conducive to terrorism; provides up-to-date information and recommends solutions or possible action by the United Nations to senior officials with respect to assigned issues related to preventing and countering terrorism and violent extremism conducive to terrorism; prepares analytical reports and papers on sensitive and high profile matters related to preventing and countering terrorism and violent extremism conducive to terrorism that are of concern to the General Assembly, Security Council or other bodies; and drafts notes, background papers, talking points and speeches for senior United Nations officials.
3	P-3	Political Affairs Officers	Functions include reviewing and analysing key policy and strategic developments and emerging peace and security trends, in particular those related to preventing and countering terrorism; reviewing and monitoring developments in specific thematic policy areas and priorities identified in the United Nations Global Counter-Terrorism Strategy and relevant Security Council resolutions, including through intergovernmental processes within the United Nations system and international and regional organizations and forums, as well as strategies, policies, programmes and research pursued by Member States and non-governmental actors (civil society, academia and the private sector); assessing trends and analysing political and related events in assigned area of counter-terrorism expertise; providing up-to-date information and recommending solutions or possible action by the United Nations to senior officials with respect to assigned counter-terrorism issues; and preparing analytical reports and papers on sensitive and high-profile matters of concern regarding counter-terrorism to the General Assembly, Security Council or other bodies.
1	GS (OL)	Programme Management Assistant	Serves as assistant to the Chief of the Global Counter-Terrorism Compact Unit and provides logistical support for the meetings of the Coordination Committee of the United Nations Global Counter-Terrorism Coordination Compact and the working groups. Maintains databases of focal point nominations by Member States and entities for the Global Counter-Terrorism Coordination Platform;

Section 3 Political affairs

<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
			assists with responding to or redirecting requests for technical and substantive assistance received from users of the Platform; and assists with information management through the Platform and the review of document upload requests from Platform end users.
		Conversion of four posts in the Strategic Planning and Programme Support Section	The proposed conversion of four posts would ensure continued support to the Strategic Planning and Programme Support Section in the delivery of its mandate. The Section is responsible for strategic longer-term planning of the Office’s activities; prioritization and allocation of resources; coordination with legislative, governing and oversight bodies of the United Nations; development of the regular budget and project budget proposals of the Office; risk assessment and risk mitigation plans; coordinating the Office’s activities with the Department of Safety and Security of the Secretariat and in accordance with the United Nations security management system; providing human resources services to the organizational units of the Office; facilitating administration of delegation of authority through policy advice; and supporting the Office of the Under-Secretary-General in ensuring compliance with United Nations rules and regulations, as well as policies, standard operating procedures, directives and instructions of the Office of Counter-Terrorism. The functions of the four posts are detailed below.
1	P-4	Security Coordination Officer	Serves as the principal security adviser to the Under-Secretary-General responsible for all security aspects of the activities of the Office of Counter-Terrorism. The function advises senior management on all security-related matters related to the Office’s activities, premises and staff and participates in discussions on and the development of policies and procedures for enhancing the security of the Office’s operations; maintains continuing awareness of prevailing local security conditions in all of the Office’s locations, liaising with the Department of Operational Support and the Department of Safety and Security in support of Office of Counter-Terrorism offices, identifying probable threats and advising staff, project personnel and dependants to follow appropriate preventive steps; and contributes to the planning, implementation and evaluation of the effectiveness of security plans and other aspects of security, including crisis management, security in the use of information and communications technologies, business continuity and risk management for the Office’s operations.
1	P-3	Administrative Officer	Reports to the Chief of the Section and is responsible for the effective coordination and administration of human resource activities, including recruitment, performance appraisal and job classification reviews, while ensuring consistency in the application of United Nations rules and procedures; serves as office liaison regarding administrative matters with the Executive Office; and serves as the focal point in the Office for all matters relating to consultancy, contracts, onboarding and administrative tasks.

Part II Political affairs

<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
1	LL	Human Resources Assistant	The function supports the Office’s staffing and recruitment activities for both staff-related and non-staff-related processes, including by supporting the recruitment cycle of candidates; reviewing the classification of posts, and evaluating and screening the applications of candidates and submitting them to the relevant central review bodies; and coordinating all activities related to the competency-based interview process, serving as an ex officio during recruitment activities and providing advice to hiring managers on human resources matters.
1	LL	Programme Management Assistant	The function serves as a core focal point for the coordination and monitoring of project implementation activities; provides assistance in support of the planning and implementation of results-based management initiatives and the entering of data in the integrated planning, management and reporting tool; participates in working groups and testing groups related to the tool; assists in the coordination of results-based management systems and their preparation and implementation; supports oversight of roles and training requirements for the tool, including ensuring that all Office staff have received appropriate roles and training in the new tool. In addition, the Assistant supports the Budget Unit in the preparation and analysis of programme and project budget proposals and programme planning; reviews and coordinates submissions of programme proposals and budget estimates, ensuring that requisite information is included and justified in terms of proposed activities; proposes adjustments as necessary; and prepares reports and ensures that outputs and services are properly categorized.
		Conversion of four posts in the Human Rights and Gender Section	The proposed conversion of four posts would ensure continued support to the Human Rights and Gender Section in the delivery of its mandate and conduct of its functions. The proposed conversion would support the calls by the General Assembly for the Secretary-General to assess the need to further enhance the integration of the rule of law, human rights, and gender equality and the empowerment of women, as cross-cutting elements of the United Nations Global Counter-Terrorism Strategy, in the counter-terrorism efforts of the United Nations system in order to strengthen their effectiveness, including the need for internal advisory or monitoring and evaluation capacity. The Section is responsible for mainstreaming human rights and a gender perspective into all of its work areas. Its functions include the provision of leadership required to support entities of the United Nations Global Counter-Terrorism Coordination Compact and Member States to effectively implement the fourth pillar of the Strategy. The functions of the four posts are detailed below.
1	P-4	Human Rights Officer	Serves as Head of the Human Rights Unit. The function would strengthen the Office’s human rights programme, which focuses on achieving a more balanced implementation of the four pillars of the United Nations Global Counter-Terrorism Strategy and realization of the Office’s human rights mandate as reflected in all of the Strategy’s review resolutions, especially the seventh

			<p>review resolution. The Human Rights Officer is responsible for: (a) ensuring that human rights are mainstreamed in all Office policy and programming; (b) ensuring strategic engagement with Member States and United Nations Global Counter-Terrorism Coordination Compact entities, including through the working groups; and (c) implementing human rights in technical assistance and capacity-building activities related to counter-terrorism and the prevention of violent extremism as requested by States. The Human Rights Officer acts as a focal point for including measures to integrate human rights in all of the Office's programmes and activities and acts as the main liaison between the Office and the Office of the United Nations High Commissioner for Human Rights (OHCHR) and other United Nations entities and regional and national human rights bodies and mechanisms. He or she collects and disseminates up-to-date information on substantive matters in the field of human rights in counter-terrorism and the prevention of violent extremism conducive to terrorism and makes recommendations on actions to the management of the Office.</p>
1	P-4	Human Rights Officer	<p>Provides specific expertise to the Office on human rights due diligence policy. The key functions of the Human Rights Officer are to provide direct support and guidance, and ensure compliance with the United Nations-wide human rights due diligence policy by all of the Office's programmes; support the implementation of the Office's human rights programme, which focuses on achieving a more balanced implementation of the four pillars of the United Nations Global Counter-Terrorism Strategy and realization of the Office's human rights mandate of as reflected in all of the Strategy's review resolutions, especially the seventh review resolution. These include: (a) mainstreaming human rights in all of the Office's policy and programming; (b) ensuring strategic engagement with Member States and Global United Nations Global Counter-Terrorism Compact entities, including through the working groups; and (c) implementing human rights in technical assistance and capacity-building activities related to counter-terrorism and the prevention of violent extremism as requested by States. The Human Rights Officer acts as an additional focal point for including measures to integrate human rights in all of the Office's programmes and activities and acts as the main liaison between the Office and OHCHR and other United Nations entities and regional and national human rights bodies and mechanisms. He or she collects and disseminates up-to-date information on substantive matters in the field of human rights in counter-terrorism and the prevention of violent extremism conducive to terrorism and makes recommendations on actions to the management of the Office.</p>

Part II Political affairs

<i>Posts</i>	<i>Grade</i>	<i>Description</i>	<i>Reason for change</i>
1	P-3	Human Rights Officer	The Human Rights Officer would be responsible for: (a) supporting the efforts of the Human Rights Unit to mainstream human rights in all of the Office's policy and programming; (b) supporting strategic engagement with Member States and United Nations Global Counter-Terrorism Coordination Compact entities, including through the working groups; and (c) supporting the implementation of human rights in technical assistance and capacity-building activities related to counter-terrorism and the prevention of violent extremism as requested by States. The Human Rights Officer acts as a supporting focal point for including measures to integrate human rights in all of the Office's programmes and activities and acts as the main liaison between the Office and OHCHR and other United Nations entities and regional and national human rights bodies and mechanisms. He or she collects and disseminates up-to-date information on substantive matters in the field of human rights in counter-terrorism and the prevention of violent extremism conducive to terrorism and makes recommendations on actions to the management of the Office.
1	P-3	Gender Affairs Officer	The Gender Affairs Officer is located in the Gender Unit within the Human Rights and Gender Section, with responsibilities that include supporting the provision of policy advice to the Under-Secretary-General and the Office on gender equality and the empowerment of women as it relates to the implementation of the mandate of the Office. The function supports the implementation of a gender programme for the Office, including but not limited to gender mainstreaming in all its programmes, ensuring compliance with the requirements and implementation of the Office's women and peace and security agenda. The Gender Affairs Officer further supports coordination efforts with the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women), OHCHR, the Counter-Terrorism Committee Executive Directorate and other relevant United Nations agencies in all aforementioned matters.

Abbreviation: GS (OL), General Service (Other level).

Seventy-eighth session

Item 139 of the preliminary list*

Proposed programme budget for 2024

Proposed programme budget for 2024

Part II Political affairs

Section 3 Political affairs

Special political missions

Estimates in respect of special political missions

Summary

The present report relates to actions taken by the General Assembly and/or the Security Council regarding special political missions, including good offices and preventive diplomacy and post-conflict peacebuilding missions, on the basis of requests from Member States and/or recommendations of the Secretary-General.

The report is the first addendum to the report of the Secretary-General on the proposed programme budget for 2024 under section 3, Political affairs, and contains information on the overall resource requirements of 39 special political missions authorized by the General Assembly and/or the Security Council. Detailed information in respect of each special political mission is contained in five addenda to section 3, Political affairs ([A/78/6 \(Sect. 3\)/Add.2](#), [A/78/6 \(Sect. 3\)/Add.3](#), [A/78/6 \(Sect. 3\)/Add.4](#), [A/78/6 \(Sect. 3\)/Add.5](#) and [A/78/6 \(Sect. 3\)/Add.6](#)).

The overall proposed resource requirements of special political missions amount to \$775,326,200 (net of staff assessment). The requirements include \$2,128,800 to provide for the share of special political missions for the financing of the budget of the Regional Service Centre in Entebbe, Uganda, for the period from 1 July 2023 to 30 June 2024.

XX.	Changes in civilian posts and positions in special political missions proposed for 2024	122

I. Introduction

1. The present report contains the overall proposed resource requirements for 39 special political missions for 2024, in connection with actions taken or expected to be taken by the General Assembly and/or the Security Council on the basis of requests from Member States and/or recommendations of the Secretary-General.
2. The overall resource requirements of special political missions are derived from the resource requirements of the individual missions and are included under section 3, Political affairs, of the proposed programmed budget.
3. Any additional requirements emanating from additional mandates or changes in mandates will be presented to the General Assembly as reports of the Secretary-General on estimates resulting from such mandates or change of mandates.
4. Given the volatility of the security and operating environments of special political missions, should any changes from such environments significantly alter the planning assumptions and costing parameters applied in the current budget, and if such changes cannot be absorbed from existing resources, the consequent changes to either resource or staffing requirements will be brought to the attention of the General Assembly, as appropriate, in accordance with established practices and procedures, and pursuant to the financial regulations and rules of the United Nations.
5. The overall proposed resource requirements of the 39 continuing special political missions for 2024 amount to \$775,326,200. These resources would be supplemented by projected extrabudgetary resources amounting to \$53,810,000, comprising \$21,149,300 from voluntary contributions and \$32,660,700 from cost-recovery resources.

A. Status of the extension or renewal of mandates

6. Of the 39 continuing special political missions, 12 missions have open-ended mandates, 10 missions have mandates extended into 2024 or later and 17 missions have mandates expiring in 2023 that are expected to be renewed or extended into 2024 or later by the General Assembly or the Security Council, as detailed below:
 - (a) Special political missions with open-ended mandates:
 - (i) Office of the Special Adviser to the Secretary-General on Cyprus;
 - (ii) Office of the Special Adviser to the Secretary-General on the Prevention of Genocide;
 - (iii) Personal Envoy of the Secretary-General for Western Sahara;
 - (iv) Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution [1559 \(2004\)](#);
 - (v) United Nations Representative to the Geneva International Discussions;
 - (vi) Office of the Special Envoy of the Secretary-General for Syria;
 - (vii) Office of the Special Envoy of the Secretary-General for the Horn of Africa;
 - (viii) Office of the Special Envoy of the Secretary-General for the Great Lakes Region;
 - (ix) Office of the Special Envoy of the Secretary-General for Yemen;
 - (x) United Nations Regional Centre for Preventive Diplomacy for Central Asia;
 - (xi) United Nations support for the Cameroon-Nigeria Mixed Commission;
 - (xii) Office of the United Nations Special Coordinator for Lebanon;
 - (b) Special political missions with mandates renewed or extended into 2024 or later:
 - (i) Panel of Experts on the Sudan;

- (ii) Panel of Experts on the Democratic People's Republic of Korea;
 - (iii) Analytical Support and Sanctions Monitoring Team pursuant to resolutions [1526 \(2004\)](#) and [2253 \(2015\)](#) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and the Taliban and associated individuals and entities;
 - (iv) Office of the Ombudsperson established pursuant to Security Council resolution [1904 \(2009\)](#);
 - (v) Implementation of Security Council resolution [2231 \(2015\)](#);
 - (vi) Counter-Terrorism Committee Executive Directorate;
 - (vii) United Nations Office for West Africa and the Sahel (UNOWAS);
 - (viii) United Nations Regional Office for Central Africa (UNOCA);
 - (ix) United Nations Assistance Mission in Afghanistan (UNAMA);
 - (x) Support to the Security Council Committee established pursuant to resolution [1540 \(2004\)](#) on the non-proliferation of all weapons of mass destruction;
- (c) Special political missions with mandates expiring in 2023 that are expected to be renewed or extended into 2024 or later:
- (i) Office of the Special Envoy of the Secretary-General on Myanmar;
 - (ii) Group of Experts on the Democratic Republic of the Congo;
 - (iii) Panel of Experts on Libya;
 - (iv) Panel of Experts on the Central African Republic;
 - (v) Panel of Experts on Yemen;
 - (vi) Panel of Experts on South Sudan;
 - (vii) Panel of Experts on Mali;
 - (viii) Panel of Experts on Somalia;
 - (ix) Panel of Experts on Haiti;
 - (x) United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant (UNITAD);
 - (xi) United Nations Assistance Mission in Somalia (UNSOM);
 - (xii) United Nations Support Mission in Libya (UNSMIL);
 - (xiii) United Nations Verification Mission in Colombia;
 - (xiv) United Nations Mission to Support the Hudaydah Agreement (UNMHA);
 - (xv) United Nations Integrated Office in Haiti (BINUH);
 - (xvi) United Nations Integrated Transition Assistance Mission in the Sudan (UNITAMS);
 - (xvii) United Nations Assistance Mission for Iraq (UNAMI).

B. Presentation of the reports on the budgets of special political missions

7. Pursuant to General Assembly resolution [77/267](#), the reports of the Secretary-General on the budget requirements of special political missions for 2024 continue to be presented in thematic clusters, while the requirements of UNAMA and UNAMI are presented individually in separate reports. For 2024, the requirements of the missions are presented in the following reports, each of which constitutes an addendum to section 3, Political affairs, of the proposed programme budget for 2024:
- (a) Thematic cluster I: special and personal envoys, advisers and representatives of the Secretary-General ([A/78/6 \(Sect. 3\)/Add.2](#));

- (b) Thematic cluster II: sanctions monitoring teams, groups and panels, and other entities and mechanisms (A/78/6 (Sect. 3)/Add.3);
 - (c) Thematic cluster III: regional offices, offices in support of political processes and other missions (A/78/6 (Sect. 3)/Add.4);
 - (d) UNAMA (A/78/6 (Sect. 3)/Add.5);
 - (e) UNAMI (A/78/6 (Sect. 3)/Add.6).
8. Pursuant to paragraph 7 of General Assembly resolution [77/267](#), in which the Assembly reaffirmed the established budgetary procedures and practices, the reports on the proposed resource requirements for special political missions comprise two parts: (a) the 2024 programme plan and 2022 performance information, to be submitted for the consideration of the General Assembly; and (b) the post and non-post resource requirements, to be submitted through the Advisory Committee on Administrative and Budgetary Questions for consideration by the Assembly.

C. Performance information

9. Special political missions continued to play a vital role in the maintenance of international peace and security by contributing to the prevention and resolution of violent conflict and to peacebuilding in some of the world's most complex contexts. Special political missions undertake a wide spectrum of critical functions, from engaging in preventive diplomacy and supporting the implementation of peace agreements, to assisting Member States in the promotion of human rights, enhancing the meaningful participation of women and advancing the engagement of youth and other marginalized constituencies in political and peace processes. They also play a key role in strengthening the partnerships between the United Nations and regional and subregional organizations. Across all these areas, special political missions cooperate closely with United Nations development, human rights and humanitarian entities to implement integrated and effective responses.
10. The breadth of work carried out by special political missions has expanded, as Member States continue to turn to the United Nations to address complex and evolving challenges in a deteriorating peace and security landscape by utilizing the mechanism of special political missions. For example, the Special Envoy of the Secretary-General for Yemen brokered a six-month nationwide truce, which contributed to a significant reduction of violence and civilian casualties in 2022. In Libya, the 2020 ceasefire continued to hold, although elections envisaged for 2021 were delayed. In Afghanistan, UNAMA continued to discharge its mandate amid challenging circumstances and provided vital support. Situations elsewhere saw dangerous escalations, including in Haiti and most recently in the Sudan.
11. The various special envoys and advisers appointed by the Secretary-General, presented under thematic cluster I, continue to offer good offices and to facilitate negotiations, including through greater use of technology, with a view to brokering peace agreements. The temporary truce brokered by the Special Envoy for Yemen provided an opportunity to build on previous consultations with a range of Yemeni stakeholders, with the aim of launching an inclusive, multitrack political process to end the conflict. The Special Envoy of the Secretary-General for Syria focused on building trust and confidence, including by facilitating sessions of the Syrian-led and Syrian-owned Constitutional Committee. Increasing gender inclusivity, the Special Envoy continued efforts towards engaging with Syrian women representatives, including through regular meetings of the Syrian Women's Advisory Board and other civil society groups. The Office of the Special Envoy of the Secretary-General for the Great Lakes Region supported the implementation of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region. In the Horn of Africa, the Special Envoy of the Secretary-General collaborated with the Intergovernmental Authority on Development (IGAD), the African Union and other partners in supporting mediation processes and enhancing subregional capacities to address cross-border and cross-cutting issues.
12. The various sanctions monitoring teams, groups and panels, presented under thematic cluster II, continued to provide substantive support to the Security Council in the implementation of its

respective sanctions regimes. In its resolution 2644 (2022), the Council decided to extend the authorizations and measures in respect of attempts to illicitly export petroleum from Libya until 30 October 2023 and to renew the mandate of the Panel of Experts on Libya until 15 November 2023. On 28 April 2022, the Secretary-General submitted a report (S/2022/360) to the Security Council pursuant to resolution 2578 (2021) related to the authorization for inspection on the high seas off the coast of Libya of vessels bound to or from Libya in order to ensure the strict implementation of the arms embargo. By its resolution 2633 (2022), the Council extended the mandate of the Panel of Experts on South Sudan until 1 July 2023. On 3 May 2022, the Secretary-General submitted a report (S/2022/370) to the Council presenting an assessment of progress achieved on the key benchmarks of the South Sudan arms embargo, which were established by the Council in paragraph 2 of its resolution 2577 (2021). Furthermore, by its resolution 2653 (2022), the Council established the Panel of Experts on Haiti in order to address incidents regarding the source and routes of arms trafficking to Haiti and incidents of undermining the political transition. The Council directed the Panel to cooperate with BINUH, the United Nations Office on Drugs and Crime, the Caribbean Community and relevant expert groups established by the Council.

13. Included under thematic cluster III, the United Nations Verification Mission in Colombia continued to support the parties that signed the Final Agreement for Ending the Conflict and Building a Stable and Lasting Peace to implement that agreement. The Mission continued to support the transitional justice system to put innovative measures in place to attain peace, reconciliation and the truth and to protect the lives of former combatants and communities. The Mission also supported strengthening the sustainability of initiatives to reintegrate former combatants and advocated preventing and addressing violence against former combatants and community leaders. The Mission further strengthened its engagement with the Special Jurisdiction for Peace, with victims and with national and local authorities and provided support for the work of the Truth Commission, which published its landmark final report on 28 June 2022. In its resolution 2673 (2023), adopted on 11 January 2023, the Security Council expanded the Mission's mandate to include monitoring of the implementation of sections 1 and 6.2 of the Final Agreement related, respectively, to comprehensive rural reform and ethnic perspectives.
14. In Libya, UNSMIL continued to facilitate an inclusive Libyan-led and Libyan-owned political dialogue process to reach an agreement on a constitutional framework that is in accordance with international standards. UNSMIL facilitated three rounds of consultations of the joint committee composed of members of the House of Representatives and the High State Council to agree on a constitutional framework for elections. The leaders of the House and the Council subsequently held a high-level meeting on the Libyan constitutional track under United Nations auspices in June 2022 in Geneva, at which they reviewed the outstanding provisions of the draft constitution of 2017. UNSMIL continued its advocacy for the full implementation of the ceasefire agreement, which included the identification and categorization of armed groups. UNSMIL has also launched an international coordination mechanism on disarmament, demobilization and reintegration of armed groups and all relevant non-State armed actors. UNSMIL continued the phased, scalable and incremental deployment of the ceasefire monitoring mechanism, made up of international monitors. Technical support provided by UNSMIL led to the development of a draft law on combating violence against women drafted by national experts.
15. In Somalia, UNSOM supported the Federal Government of Somalia in conducting the indirect electoral process, which culminated in the election of Hassan Sheikh Mohamud as the tenth President of Somalia on 15 May 2022. By advocating increased political representation of women, the Mission supported efforts to implement a 30 per cent quota for women in parliament. The Mission also provided good offices assistance to the Federal Government of Somalia and the federal member states towards the implementation of the electoral agreement and supported Somalia in advancing national priorities such as strengthening the rule of law and security institutions. In addition, UNSOM provided technical support to the Federal Government of Somalia to protect and promote human rights.

16. In West Africa and the Sahel, UNOWAS advanced preventive diplomacy and conflict prevention in the region, in close cooperation with the Economic Community of West African States, and supported the implementation of the United Nations integrated strategy for the Sahel. UNOWAS also worked with Member States in the region to promote good governance, the rule of law, human rights and the participation of women and youth in political and peace processes. The Office facilitated consultations and consensus-building among political actors in the lead-up to national elections and remained engaged in countries currently in transition, namely Burkina Faso, Guinea and Mali.
17. In the Sudan, as part of the trilateral mechanism with the African Union and IGAD, UNITAMS achieved progress in facilitating and supporting Sudanese-led dialogue to reach an agreement to resume a civilian-led political transition. Since April 2023, and at the time of the present report, the Sudan has seen the eruption of conflict between the Sudanese Armed Forces and the Rapid Support Forces, which has forced the United Nations to temporarily reconfigure its presence in the Sudan while staying in the country and delivering support to the Sudanese people, focused on securing humanitarian pauses or ceasefires, de-escalation and a return to political negotiations. Humanitarian partners estimate that 24.7 million people are in need of humanitarian assistance in 2023, the largest number in a decade.
18. In Afghanistan, the de facto authorities continued to tighten control over the population through additional restrictive measures. The announcement in December 2022 of decisions suspending women's higher education and employment in national and international non-governmental organizations further curtailed the basic rights of women and girls. In April 2023, the de facto authorities banned Afghan women from working for the United Nations. In this challenging context, UNAMA continued its efforts to implement its mandate, which was extended until March 2024. In its resolution [2679 \(2023\)](#), the Security Council requested the Secretary-General to conduct an independent assessment to provide forward-looking recommendations for an integrated and coherent approach among relevant political, humanitarian and development actors, within and outside the United Nations system. The assessment will seek to address the current challenges faced by Afghanistan, including those related to the humanitarian situation, human rights, especially the rights of women and girls and of religious and ethnic minorities, security and terrorism. UNAMA continued to engage with the de facto authorities to advocate unimpeded humanitarian access, the protection of fundamental rights and freedoms, the formation of an inclusive administration reflecting the diversity of the Afghan people and resolute actions to counter the threat of terrorism. Focus was also placed on advocating for the right of girls to an education and the right of women to work and enjoy equal participation in society. UNAMA maintained contacts with political and civil society stakeholders, including the Civil Society Joint Working Group and women's organizations.

D. Operational environment and key policy issues related to special political missions

1. The implications of the coronavirus disease (COVID-19) pandemic for special political missions

19. The coronavirus disease (COVID-19) pandemic and the emergence of new variants affected the operational environment for some special political missions in 2022 and early 2023, but to a lesser extent than in the preceding years. Operational postures have continued to be adjusted as necessary and in some contexts to allow missions to support outreach and dialogue and to carry out preventive diplomacy and peacemaking efforts, or for the sanctions monitoring teams, groups and panels to conduct field visits and investigations on sanctions violations.
20. Special political missions continued to work with national authorities to support their efforts to respond to the pandemic as possible and necessary. There remains a risk of the socioeconomic impacts of COVID-19 combining with other crises to accentuate the long-term concentration of extreme poverty in conflict-affected countries, which could fuel rising social discontent and political volatility. Such effects have been seen in countries facing conflicts and complex emergencies as well as in those grappling with post-conflict recovery. Special political missions continue to leverage technology and innovation to undertake their work and promote digital inclusion and online engagement.

2. Women and peace and security

21. Special political missions continue to play a critical role in advancing women's full, equal and meaningful participation in peace and political processes and in supporting gender-responsive conflict prevention, peacemaking and peacebuilding efforts. Gender advisers and gender focal points working in special political missions were essential in providing targeted and strategic advice and support to the special representatives and special envoys of the Secretary-General, including on multitrack approaches and targeted measures to advance women's political participation, make peace processes and prevention efforts more inclusive and help to ensure that a gender perspective is incorporated into the political work of the United Nations.
22. As reflected in the report of the Secretary-General on women and peace and security (S/2022/740) and in line with Security Council resolution 2493 (2019), senior leaders continued to champion the full and effective implementation of the women and peace and security agenda, from Colombia to Cyprus, Iraq and elsewhere. Special political missions around the world will continue to identify new entry points and opportunities to advance women's full and effective participation in mediation and peace processes.
23. Special political missions are also working to pave the way for more inclusive and gender-sensitive peacemaking and peacebuilding in all their priorities and activities. Regular consultations conducted by the United Nations Verification Mission in Colombia with women-led and civil society organizations and high-level advocacy have led to near-gender parity being achieved in the delegations to the dialogue process. In Sao Tome and Principe, UNOCA supported advocacy for coalition-building that contributed to the National Assembly approving a law on political parity in July 2022, which requires that at least 40 per cent of ministerial positions and seats in elected bodies be reserved for women. In Haiti, BINUH supported consultations across the country to collect gender-sensitive recommendations for addressing the current security situation and to discuss challenges to women's participation in political life, which contributed to the creation of a committee to monitor dialogue among women for follow-up on the recommendations made. In Iraq, UNAMI continued to engage with Iraqi political leaders to emphasize the importance of women's meaningful participation in the political process, and on 27 October 2022 the Council of Representatives voted to confirm the new Government of Iraq, including the appointment of three women, as well as a new government programme that emphasizes women's empowerment.

3. Youth and peace and security

24. Almost eight years after the adoption of Security Council resolution 2250 (2015), the crucial contributions of young people to peace are yet to be systematically recognized, promoted and embraced. In recognition of the critical role of special political missions in advancing the implementation of Council resolution 2535 (2020), including through their continuous efforts to support the engagement of young women and men in political and peace processes, the Council held an Arria formula meeting in December 2022. Special political missions are accordingly strengthening their engagement with young women and men to ensure their meaningful participation in peace and political processes and to harness their potential as agents of peaceful change.
25. Special political missions continued to support the meaningful engagement of diverse youth groups in political and peace processes. The Office of the United Nations Special Coordinator for Lebanon organized a series of digital consultations with youth in Lebanon, providing them with a space to share views, aspirations and concerns ahead of the parliamentary elections. In Somalia, UNSOM conducted a series of forums in each federal member state to advance the role of young women and men in democratization at the subnational level and support their electoral participation. In the Sudan, UNITAMS held consultations and focus group discussions with youth-led civil society organizations, resistance committees and young women leaders to facilitate the integration of their views and ideas in the intra-Sudanese political process.
26. In Libya, UNSMIL continued to work on establishing a coordination group of young leaders to develop an advocacy manifesto and platform. This is to help to ensure that the concerns and inputs

of Libyan youth regarding the political and reconciliation processes are heard and considered by decision makers. In Colombia, the Verification Mission supported several events with youth to discuss their views on the status of implementation of the Final Agreement for Ending the Conflict and Building a Stable and Lasting Peace and broader peacebuilding efforts.

4. Safety and security

27. Most special political missions operate in complex and often highly volatile and unpredictable security environments. While the COVID-19 pandemic has faded, related effects persist and crises continue to emerge. Special political missions implement their mandates while mitigating risks related to high-intensity military conflicts, insurgency, social unrest and terrorist activities. UNMHA, UNAMA, UNAMI, UNSOM and UNSMIL, and most recently BINUH and UNITAMS, for example, illustrate clearly the security challenges that are faced on a daily basis. In some contexts, even if the country situation is stable overall, specific areas where special political missions are mandated to operate present significant safety and security challenges.
28. Mission personnel face considerable risks of becoming collateral targets, in addition to the security risks to which assets and premises are exposed. BINUH has faced a highly volatile security environment with a prevalence of gang violence, including kidnappings and sexual violence against civilians. The eruption of renewed conflict in the Sudan in April 2023 with the fighting between the Sudanese Armed Forces and the Rapid Support Forces had a dramatic effect on the security situation and the operating environment of UNITAMS. The prolonged conflict and intense fighting in Khartoum resulted in a significant level of displacement and major disruptions of already weakened basic service infrastructure. Humanitarian conditions are expected only to worsen in the coming months, compounded by increased criminality in urban areas.
29. Such very high-risk contexts directly challenge the ability of special political missions to stay and deliver on their mandates and must therefore be assessed and, where identified, factored into the overall staffing and operational requirements of the missions, requiring continuous attention and proactive prevention and mitigation measures. While the United Nations relies primarily on host Governments to guarantee the security of mission personnel, in some contexts they have insufficient capacity to deliver security services. The Department of Political and Peacebuilding Affairs and the leadership of special political missions engage continuously with the Department of Safety and Security to review risk management strategies so as to adapt and minimize any possible impact on mandate delivery for all missions, including panels or groups of experts supporting Security Council committees.
30. In order to operate in such environments, special political missions have had to employ significant security mitigation measures, identified and enhanced through a continuous risk management process. Such measures include the deployment of United Nations armed civilian security personnel, the deployment of guard units provided by Member States and the employment of armed private security companies where such requirements were identified as needed through the security risk management processes.

5. Electoral assistance

31. Special political missions continue to provide electoral assistance to Member States where mandated or requested to do so. In her capacity as the focal point mandated by the General Assembly for electoral assistance matters, the Under-Secretary-General for Political and Peacebuilding Affairs receives requests for targeted medium- and long-term expert assistance aimed at supporting and strengthening the existing capacities of national electoral institutions. United Nations technical assistance and capacity-building activities were provided in an integrated manner and, in many cases, alongside preventive diplomacy and other conflict prevention activities, to foster consensus in establishing electoral legal frameworks, focusing on inclusion and non-discrimination and encouraging broad participation. Special political missions that have electoral mandates continue to ensure that all electoral assistance policies, projects and activities take into consideration the key guiding principles of respect for sovereignty, national ownership and sustainability and promote the political participation of women, youth, people with disabilities and other marginalized groups.

32. For instance, in Haiti, BINUH, in cooperation with the United Nations Development Programme (UNDP) continued to support capacity-development initiatives of the Provisional Electoral Council. In November and December 2022, a series of meetings were organized on the prevention of electoral violence, bringing together civil society, the private sector, religious groups, the media and others in five different cities around the country. The Office also supported the Electoral Council in bringing together election practitioners, journalists and civil society representatives to discuss strategies to tackle disinformation, hate speech and gender-based stereotypes in traditional and social media.
33. In Somalia, the joint UNSOM-UNDP integrated electoral support group provided technical assistance to the electoral committees for the 2022 federal parliamentary elections to assist with the implementation of the electoral agreement and the holding of elections. In parallel, the group provided support to the National Independent Electoral Commission in preparation for the 2026 federal parliamentary elections, to the Transitional Puntland Electoral Commission for the district council elections scheduled for May 2023 in Puntland and to the newly established Galmudug Independent Electoral Commission.
34. UNSMIL has been working diligently to assist the High National Elections Commission in its preparations for national elections. Through institutional capacity-building and legal, operational and technical guidance, UNSMIL, together with UNDP, is supporting the Commission in updating the national voter registry, facilitating discussions on the electoral and constitutional road map, coordinating international electoral assistance and providing support to women and marginalized groups.
35. In Iraq, during the reporting period UNAMI and the Independent High Electoral Commission focused their efforts on a comprehensive review of the elections for the Council of Representatives held in 2021 to identify lessons learned and make recommendations to improve processes and capacities for future elections. Throughout the year, UNAMI supported workshops and focus group discussions for the Commission in 18 governorates, which resulted in actionable recommendations for the further development of the Commission's capacity to plan and organize future electoral events. UNAMI also continued to engage with Iraqi stakeholders on the political participation of women and on gender-based violence in the post-electoral phase. UNAMI also supported the Electoral Judicial Panel to reflect on the management of electoral complaints and appeals and help to enhance dispute resolution mechanisms. On the preparations for legislative elections in the Kurdistan Region of Iraq, UNAMI supported discussion on the electoral framework and the reactivation of the Kurdistan Independent High Elections and Referendum Commission.

E. Evaluation activities

36. The Department of Political and Peacebuilding Affairs continued to support relevant evaluations by oversight bodies, including the Office of Internal Oversight Services (OIOS), as well as to conduct its own evaluations. Through these exercises, the Department strives to improve on the delivery of its mandate through the refinement of relevant processes and approaches. Relevant findings and lessons learned are shared with special political missions, as needed, to guide missions in planning their strategic priorities in the context of annual programme planning and budgeting processes.
37. In 2022, OIOS concluded its evaluation on women and peace and security in field-based missions: elections and political transitions ([A/77/83](#)). In implementing the recommendations contained in the evaluation, the Department of Political and Peacebuilding Affairs launched a joint community of practice to enable cross-mission learning and documentation of good practices among the special political missions and peacekeeping operations. The Department also conducts quarterly meetings with the Department of Peace Operations on strategic matters related to the implementation of the women and peace and security agenda.
38. The Department of Political and Peacebuilding Affairs and special political missions also supported the OIOS biennial assessment on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives ([A/78/70](#)).

39. In addition to evaluations, the Department of Political and Peacebuilding Affairs continued to support relevant audits. In 2022, OIOS conducted audits of electoral assistance activities in the Department of Political and Peacebuilding Affairs and of the implementation of the women and peace and security agenda in the Department of Political and Peacebuilding Affairs and the Department of Peace Operations. OIOS also conducted audits of individual missions.

F. Lessons learned from the transfer of functions of closed missions

40. In 2022, the Department of Political and Peacebuilding Affairs completed all tasks related to transition and liquidation from its recently closed missions.
41. The Department of Political and Peacebuilding Affairs contributed to sharing lessons, common issues and trends in the Secretary-General's first-ever report on transitions in United Nations peace operations (S/2022/522), requested by the Security Council in resolution 2594 (2021). The report concluded that United Nations transitions should not be understood as linear processes focused on the handover of responsibilities by a departing peace operation (inclusive of peacekeeping and special political missions) but should rather be seen as a strategic repositioning of a United Nations presence in support of the host country and local partners.
42. In the report, the Secretary-General thus stressed the importance of national leadership and ownership. He highlighted that transition planning should be closely aligned with national development plans and strategies and should focus on early engagement with national stakeholders, with particular emphasis on strengthening capacity in areas that will be taken on by host government institutions.
43. To determine the critical minimum requirements to inform the exit strategy of a mission, the Secretary-General recommended the use of benchmarks and objective assessments of the political and security conditions in the country and the capacity of national and local institutions to effectively prevent and respond to risks of recurrence of conflict or violence.
44. The Secretary-General also emphasized the importance of United Nations integration, noting that improved strategic and operational coherence between missions and United Nations country teams was correlated with better planned and managed United Nations transitions. During transition phases, additional planning, monitoring and evaluation capacities, including to protect human rights and gender mainstreaming, were useful in ensuring an integrated approach between missions, resident coordinator offices and country teams, each of which had distinct but complementary roles to play.
45. The Secretary-General highlighted in the report some unique challenges that special political missions faced, noting the inability of special political missions to draw on a ready pool of resources to finance mission start-up or expansion. He noted in that regard that UNITAMS had been successful in securing one million dollars from the General Assembly for programmatic activities in its initial budget to support the transition.

G. Reporting requirements related to special political missions emanating from the General Assembly and from the recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

1. **Contribution of extrabudgetary resources to mandate implementation in special political missions**
46. Extrabudgetary resources, in particular voluntary contributions, continue to be used for backstopping, surge requirements for good offices, crisis situations and other activities related to the mandates of special political missions. Such resources have also been critical for support for inter-mission activities and for visits by desk officers and senior officials to missions.

47. Voluntary contributions have been important in enabling special political missions to implement targeted projects in pursuit of the implementation of their mandates. In the Great Lakes region, the Office of the Special Envoy of the Secretary-General utilizes extrabudgetary resources to support the effective implementation of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region through various projects under different thematic areas in the region. The United Nations Regional Centre for Preventive Diplomacy in Central Asia utilized extrabudgetary resources to support the relaunching of a project for regional cooperation on transboundary water management, with a renewed scope of activities, for support for the Central Asian Women Leaders' Caucus to provide influential leadership within and among the countries of the region and to support the annual meeting of deputy ministers of foreign affairs of the Central Asian States, as well as for activities under the Preventive Diplomacy Academy project. United Nations support for the Cameroon-Nigeria Mixed Commission continues to utilize extrabudgetary resources to support land boundary demarcation and to implement socioeconomic projects for the benefit of populations in the vicinity of the demarcation exercise.
48. Voluntary contributions have also been used to provide adequate backstopping capacity at Headquarters and to enable Headquarters personnel to visit special political missions in the field, thereby enabling the development of closer working collaboration. The visits have enabled Headquarters personnel to meet with United Nations and non-United Nations interlocutors and to develop a better understanding and analysis of the context in which missions are operating and how they can be better supported to implement their mandates.
49. In addition, voluntary contributions have been used to fund specific initiatives carried out by the missions. The Office of the Special Envoy for Syria utilizes extrabudgetary resources in its role of facilitating the Constitutional Committee through the provision of substantive, logistical, security and support arrangements, including liaison with interlocutors of the Government of the Syrian Arab Republic and the opposition and with civil society, including women's groups and regional and international stakeholders. The Office of the Special Envoy of the Secretary-General on Myanmar utilizes extrabudgetary resources to support the mission's efforts to further the consolidation of democracy and to advance justice, peace and human rights in Myanmar. Furthermore, the Counter-Terrorism Committee Executive Directorate has used funds to organize several new and follow-up workshops in various regions of the world in accordance with the work programme approved by the Counter-Terrorism Committee, to conduct research on strategic, political, legal, institutional and security issues relating to counter-terrorism and to support international cooperation in counter-terrorism. UNITAD utilized funds to enable the continuation of the Investigative Team's specialized activities, including the digitization and digital extraction of evidentiary material held by the authorities of Iraq, comprehensive investigations into mass graves containing the remains of victims of Da'esh, investigations into gender-based crimes and crimes against children committed by the group, capacity development with the authorities of Iraq in case-building and the use of digital forensics, and leveraging information systems and advanced technology to deliver accountability.
50. In addition, cost-recovery revenue in some missions, such as UNAMA and UNAMI, enables those missions to provide shared common services to other agencies, funds and programmes in the same location and to benefit from economies of scale. This is in line with the General Assembly's direction of consolidating support services at the country level and the requirement for integrated support across the United Nations system for the 2030 Agenda for Sustainable Development. Cost recovery is governed by rule 105.11 of the Financial Regulations and Rules of the United Nations and in addition detailed policy guidance has been issued by the Controller. Any services must be provided following the relevant guidance. The Secretariat is reviewing the arrangements currently in place to ensure adherence.
51. Extrabudgetary resources (including both voluntary contributions and cost-recovery revenue) are estimated at \$53.8 million for 2024, compared with an estimated \$57.7 million in 2023. The projected decrease of \$3.9 million is attributable to the anticipated conclusion or non-extension of some projects or activities, as well as to lower contributions for 2024 based on current projections. Extrabudgetary resources have been important in enabling special political missions to implement

targeted projects in pursuit of their mandates. However, while missions continue to engage actively in fundraising activities, it remains a challenge to secure funding or pledges for 2024 sufficiently in advance to enable projections to be made with greater certainty.

52. Annex IV to the present report provides mission-by-mission amounts of the projected expenditures funded from extrabudgetary resources, while further details of the purposes and utilization of such resources are provided in the proposed budget reports of the respective thematic clusters.

2. Regional Service Centre in Entebbe, Uganda

53. The Regional Service Centre in Entebbe, established in July 2010, currently supports six peacekeeping missions and the United Nations Support Office in Somalia (UNSOS), nine special political missions and the United Nations Office to the African Union. The 17 clients of the Centre receive the full range of non-location-dependent services, such as invoice processing, financial services for year-end closing, payroll processing, education grant processing, human resources transactional services and travel management and processing, as well as functions such as the primary regional solution for supply chain management and information and communications technology (ICT) services. These 17 clients manage annual budgets amounting to a total of approximately \$5.6 billion, making the services of the Centre an essential part of their support operations.
54. In 2024, nine Africa-based special political missions will receive support from the Regional Service Centre: the Office of the Special Envoy of the Secretary-General for the Horn of Africa, the Office of the Special Envoy of the Secretary-General for the Great Lakes Region, the Panel of Experts on Somalia, UNOWAS, UNSOM, the United Nations support for the Cameroon-Nigeria Mixed Commission, UNOCA, UNSMIL and UNITAMS.
55. The proposed budget for the Regional Service Centre for the 2023/24 period ([A/77/732](#)) is presently under consideration by the General Assembly at the second part of its resumed seventy-seventh session, in which resources in the amount of \$43,754,200 are proposed by the Secretary-General for the maintenance of the Centre for the period from 1 July 2023 to 30 June 2024, to be apportioned on a pro rata basis among the budgets of the Centre's active client peacekeeping operations, as well as special political missions financed under Section 3, Political affairs, of the regular budget. Towards this end, an amount of \$2,128,800 has been included in the proposed programme budget for 2024 representing the share of special political missions. This provision will be subject to a final adjustment to be made in accordance with the decision to be taken by the Assembly in the context of the budget of the Regional Service Centre for the 2023/24 period, which is expected by the end of June 2023.

3. Kuwait Joint Support Office

56. In its resolution [65/259](#), the General Assembly noted the intention of the Secretary-General to establish a support office in Kuwait for UNAMA and requested him to explore possibilities for cost-sharing between UNAMA and UNAMI. Following a period of assessment, in October 2012 the Secretary-General informed the Assembly that the Kuwait Office would include a Kuwait Joint Support Office, which would integrate UNAMA and UNAMI functions in the areas of finance and human resources (see [A/67/346/Add.4](#)). The Kuwait Joint Support Office was launched in December 2012 as the back office to provide mission support services on a shared basis to UNAMA and UNAMI.
57. The client base of the Kuwait Joint Support Office has gradually increased over time. It currently supports eight field missions¹ with transactional services related to finance and human resources, while 10 other field missions² receive more limited dedicated support only for education grant and

¹ UNAMA, UNAMI, BINUH, Office of the Special Envoy for Syria, Office of the Special Envoy for Yemen, UNITAD, United Nations Regional Centre for Preventive Diplomacy and UNMHA.

² United Nations Interim Force in Lebanon (UNIFIL), United Nations Disengagement Observer Force, United Nations Logistics Base at Brindisi, Italy, United Nations Interim Administration Mission in Kosovo, United Nations Peacekeeping Force in Cyprus, United Nations Truce Supervision Organization, United Nations Military Observer Group in India and Pakistan, Office of the United Nations Special Coordinator for the Middle East Peace Process, Office of the United Nations Special Coordinator for Lebanon and United Nations Verification Mission in Colombia.

payroll processing requirements. As a back office for the various clients, the Joint Support Office offers a stable operating environment for providing transactional non-location-dependent services in finance and human resources, while leveraging process standardization and centralizing time-sensitive tasks such as payroll and education grant processing for all its client missions.

58. While both the Regional Service Centre in Entebbe and the Kuwait Joint Support Office offer non-location-dependent services in finance, human resources and travel to their clients, there are significant differences in the level of service provision offered by the two service providers. The Regional Service Centre was established to provide efficient, effective and integrated services to United Nations entities in the region. It is responsible for delivering a wide range of services, including for human resources, procurement, financial management and ICT. The Kuwait Joint Support Office does not provide the full range of support services that are typically provided by regional service centres. The Joint Support Office provides only critical transactional support to its clients and only eight of its client missions receive the full range of non-location-dependent services, while services for the other clients are focused on payroll and education grant claims processing and the remaining transactional services are carried out by the missions. The Joint Support Office lacks the required capacity and mandate to support the full range of services that the Regional Service Centre in Entebbe currently offers, and only eight of its client missions have contributed posts to the Kuwait Joint Support Office. In addition, while the Regional Service Centre operates and manages its own budget to support its operations, the Kuwait Joint Support Office functions as a back office without an independent staffing structure or annual budget.
59. By its resolution [77/263](#), the General Assembly endorsed the recommendation of the Advisory Committee on Administrative and Budgetary Questions (see [A/77/7/Add.1](#)) to not approve the proposed redistribution among the special political missions of staffing positions in the Kuwait Joint Support Office. The Advisory Committee also reiterated its view that the Kuwait Joint Support Office was not a shared service centre approved by the Assembly and that any changes to the existing and future service delivery model must be approved by the Assembly. The Secretariat has taken note of these decisions and comments. No proposals are made in the 2024 budget with respect to the staffing arrangement of the Kuwait Joint Support Office.

4. Nationalization of positions

60. Encouraging the use of national capacities has been a core area of focus in human resources management in special political missions. In line with the request of the General Assembly in its resolutions [61/276](#) and [66/264](#) for greater utilization of national staff, special political missions reviewed the functions performed by international staff in the Professional and Field Service categories and by United Nations Volunteers that would provide an opportunity to contribute to national capacity-building and have proposed the conversion of relevant positions to the National Professional Officer and Local level categories commensurate with the requirements of the missions and their respective mandates.
61. In December 2021, the Department of Operational Support issued a guide on planning nationalization of the workforce. The guide provides practical information for conducting nationalization in the context of operational workforce planning at the entity level and is aimed at setting consistent standards and approaches on nationalization across entities.
62. Pursuant to the issuance of the guide on planning nationalization of the workforce, the Department of Operational Support continues to promote and encourage the nationalization of international positions through engagement with client entities. In addition, the Department is in the process of developing a campaign to improve nationalization. Success stories and challenges will be collected and events will be held in the workforce planning and organizational design network to share best practices and lessons learned in order to encourage concentrated efforts to improve nationalization by the respective missions.

63. In recent years, special political missions have made steady progress in the nationalization of positions. A total of 12 positions were nationalized in 2016, 1 in 2017, 2 in 2018, 5 in 2019, 7 in 2020, 4 in 2021, 19 in 2022 and 9 in 2023. For 2024, 5 positions are proposed to be nationalized, comprising:
- (a) Three positions in the Office of the Special Envoy of the Secretary-General for Syria, reflecting the conversion of one Political Affairs Officer from P-3 to National Professional Officer and two positions (one Human Resources Assistant and one Security Officer) from Field Service to Local level;
 - (b) Two positions in UNITAD, reflecting the conversion of two positions of Close Protection Officer (Field Service) to Assistant Security Officer (National Professional Officer).
64. In addition to nationalization efforts, efforts were also made during the planning and budget preparation process to ensure that national positions were included to the greatest extent possible in the staffing proposals of missions. The proposed staffing for special political missions for 2024 reflects an increase of 8 international posts and 17 national posts (including 11 National Professional Officer and 6 Local level).

5. Gender parity and equitable geographical representation

65. The full, equal and meaningful participation of women in peace processes remains an organizational priority, including in peace operations. Towards this end, the Office of Human Resources continues to strengthen efforts to increase the representation of women in peacekeeping and special political missions at all staff levels and especially in key positions. To support outreach, the Office is taking forward a project on purposeful partnerships, which aims to strengthen talent outreach by leveraging the networks, expertise and reach of different stakeholders. Further outreach measures include enhancements to the global talent pool, which is a tool designed to support targeted outreach to underrepresented groups, including women. As of May 2023, the global talent pool had recorded over 170,000 subscribers, 48 per cent of whom were women. With the new enhancements, entities are able to conduct targeted outreach to specific talent segments. The Office is also conducting targeted outreach through the global talent pool to female National Professional Officers in the United Nations system, who constitute a key talent segment. To further support the retention of women, the Office continues to implement measures to create an enabling environment. The Department of Operational Support has taken forward a project to develop a mechanism for collecting data through exit interviews to gain insight into why women voluntarily leave the workforce. Other measures to create an enabling environment include the launch of a capacity-building workshop on the benefits of inclusion and inclusive leadership in managing diverse teams.
66. To accelerate efforts to achieve greater geographical representation, the Secretariat is revising its geographical diversity strategy based on feedback received from various stakeholders. The new calibrated approach places a greater emphasis on partnerships with Member States, entities of the United Nations system and other networks in making targeted efforts to attract qualified candidates from unrepresented and underrepresented Member States. Purposeful partnerships have mutual benefits and can lead to long-term and sustained results. Through such partnerships, Member States can play a critical role in positioning the United Nations as a top employer for their nationals by creating awareness among the local population and providing data to the Secretariat concerning labour market trends and available skills, thereby leveraging national resources and networks to reach qualified candidates. This approach will be critical for increasing the reach and impact of targeted talent outreach initiatives conducted by the Secretariat. In alignment with the approach, in 2022 the Office of Human Resources entered into partnership agreements with the Development Coordination Office to connect with the resident coordinator system and with the Department of Global Communications to engage systematically with the United Nations information centres globally in unrepresented and underrepresented Member States. In addition, the Secretariat conducts proactive and targeted outreach to nationals from unrepresented and underrepresented Member States, women and youth through career events, weekly job opening dissemination to permanent missions and professional associations and social media campaigns around the globe.

67. In paragraph 23 (a) of its resolution [77/278](#), the General Assembly decided to update the system of desirable ranges from 1 January 2024, widening the number of posts subject to the system to all posts funded by the regular budget at the Professional and higher posts categories, including in special political missions and peacekeeping operations, excluding language posts. This provides an opportunity to make concerted efforts towards equitable geographical distribution and geographical representation in special political missions and peacekeeping operations.
68. To support the delivery of the mandates of special political missions in changing operational environments, including technological transformations, and in alignment with the long-term priorities and objectives of the Organization, a set of workforce capabilities needs to be reinforced over the coming years. Among them, data analytics and management, digital transformation, innovation, strategic foresight and behavioural science have been prioritized.³ Proposals for reclassification and reassignment of existing functions in missions to address such needs, especially in data analytics and management, and to leverage opportunities from upcoming retirements to create more junior-level posts to rejuvenate the workforce, are aligned with such efforts. Such proposals are vital elements in advancing a workforce transformation that provides for the skills, knowledge and abilities needed to effectively and efficiently deliver mandates today and in the foreseeable future.
69. Efforts continue so as to ensure that human resources policies are responsive to the needs of entities with a field presence. Specifically, the Office of Human Resources remains actively engaged in the work of the Human Resources Network Standing Committee on Field Duty Stations, which monitors matters related to the conditions of service of staff in the field, including rest and recuperation, hardship classification and non-family designation of duty stations. As part of the Office's participation in discussions of the International Civil Service Commission, ongoing reviews are carried out for key field entitlements, including hardship allowance, non-family service allowance, danger pay and the mobility scheme.
70. Special political missions are committed to advancing progress in these respects. Gender balance is taken into consideration in the recruitment and rostering of staff, experts and other personnel. For example, to further diversify the geographic and gender composition of sanctions monitoring teams, groups and panels, the Department of Political and Peacebuilding Affairs participated in a virtual career fair for women in senior positions hosted by a career web platform specialized in humanitarian and international jobs, which targeted women with at least seven years of professional experience and an interest in pursuing a career in the United Nations. A total of 1,359 women registered in the career fair, of which 891 (from 122 countries across all regional groups) visited the Department's virtual booth containing presentations, factsheets, videos and job openings. Many missions periodically circulate the latest demographic staff statistics on gender parity and regional groups as part of their human resources reporting to mission leadership. These statistics are made available to hiring managers and thus inform the outreach to potential candidates for recruitment. Some missions have in place working groups to track progress, adopting the use of tailored templates for selection memorandums in which the hiring managers are required to provide justification if the recommended recruitment would not improve gender parity and/or geographical representation.
71. Missions also aim to integrate a gender perspective in their operational activities, deliverables and results. In its engagement with the de facto authorities and political stakeholders, UNAMA promotes gender mainstreaming into programmes and structures to strengthen the representation of women. The Mission supports the implementation of Security Council resolutions [1325 \(2000\)](#) and [2493 \(2019\)](#) in particular for gender equality, the empowerment of women and girls and their human rights. Despite the challenges, UNAMA continues its advocacy on the full and meaningful participation of women in political processes at the local, national, regional and international levels.
72. Annexes XVIII and XIX of the present report provide information on the gender distribution of civilian staff and experts and geographical representation among international civilian staff and experts, respectively, as at 30 April 2023.

³ See the "quintet of change" described in the report of the Secretary-General entitled "Our Common Agenda" ([A/75/982](#)), which was welcomed by the General Assembly in resolution [76/6](#).

6. Strengthening United Nations coherence and collaboration between pillars in special political missions

73. Depending on the context of the country and mission, the Deputy Special Representatives of the Secretary-General may have triple functions to perform also as resident coordinators and humanitarian coordinators. The staffing complements of seven special political missions, namely UNSOM, the Office of the United Nations Special Coordinator for Lebanon, UNSMIL, BINUH, UNITAMS, UNAMA and UNAMI, include Deputy Special Representatives of the Secretary-General, or Deputy Special Coordinators, who have the triple functions and serve also as resident coordinators and humanitarian coordinators in complex, multidimensional contexts. These deputies constitute the link between the political work of the special political mission and the United Nations entities implementing development and humanitarian activities in coordination with the mission. As Resident Coordinator, the incumbent is responsible for coordinating operations and activities relating to the United Nations country team and United Nations development activities, for ensuring that the activities of the United Nations country team are aligned with national priorities, as captured in United Nations cooperation frameworks, for providing oversight and transparency on joint activities of the United Nations country team and for mobilizing partnerships and financing in support of country efforts towards the achievement of the Sustainable Development Goals. The office of the resident coordinator supports those functions. As Humanitarian Coordinator, the incumbent is responsible for coordinating humanitarian plans and operations and for maintaining links with Governments and other parties, donors and the broader humanitarian community. The salaries and common staff costs related to the positions of Deputy Special Representative of the Secretary-General, Resident Coordinator and Humanitarian Coordinator are budgeted at 50 per cent of the total cost in the 2024 budgets of the respective special political missions, pursuant to General Assembly resolutions [59/296](#) and [72/279](#), with the other 50 per cent funded through the Development Coordination Office.
74. Special political missions will continue to strengthen coherence and collaboration among pillars in mission settings. This involves greater collaboration between the various pillars, but also between the other United Nations actors in mission settings. Working under the strategic direction of the Special Representative of the Secretary-General, the Deputy Special Representative, Resident Coordinator and Humanitarian Coordinator serves as the principal interface between the mission and the United Nations country team, thus, inter alia, leading the coordination efforts for humanitarian, development and recovery activities and ensuring that concerns raised by the United Nations country team are brought to the attention of the Special Representative. In the context of transitions, the Deputy Special Representative, Resident Coordinator and Humanitarian Coordinator is responsible for ensuring that missions, in the earliest possible stages, engage with the United Nations country team, other United Nations agencies, funds and programmes and other actors in the integrated planning and coordination on the transition.
75. Organizational arrangements and clear reporting lines ensure that staff under each function have a coordinated but different reporting line to the incumbent. A dedicated capacity in the mission structure is required to support the Deputy Special Representative, Resident Coordinator and Humanitarian Coordinator in carrying out the cross-pillar coherence function and to provide sufficient support for that role in coordinating the work of the various reporting units. The Office of the Deputy Special Representative, Resident Coordinator and Humanitarian Coordinator contributes to the mission's planning and integration efforts, led by its chief of staff, thereby ensuring coherence between the different pillars within the mission and between the mission and other stakeholders and partners, which requires staffing at an appropriate level.
76. The staffing of the Office of the Deputy Special Representative includes staff members that provide dedicated support to the deputy special representative function, as opposed to the resident coordinator and humanitarian coordinator functions. In special political missions, other parts of the mission are carrying out mandated work in support of the deputy special representative position and are required to respond to country-specific needs in various areas of the respective mission mandate. Mission budgets continue to fund positions in units that are primarily aimed at supporting the Deputy Special Representative, Resident Coordinator and Humanitarian Coordinator in the role of deputy

head of mission. Core support for the resident coordinator-related functions is provided and funded through the dedicated special purpose trust fund. Similarly, humanitarian country team entities may continue to fund positions in the Office when those positions are focused on humanitarian support, depending on the situation on the ground and the assessed needs for those specific functions.

77. The Secretariat conducted an initial review of existing capacities supporting the Deputy Special Representative in performing management functions, as deputy head of mission, with regard to reporting units and work performed in areas linked to the mandates of the missions. The initial review found that an appropriately sized and dedicated capacity in the Office of the Deputy Special Representative, Resident Coordinator and Humanitarian Coordinator was required to support the incumbent in driving successful integrated analysis and planning, including transition planning, through integrated strategic frameworks and cooperation frameworks, in close coordination between the mission and the United Nations country team and other stakeholders. In that context, and while mindful that the structure of every mission responds to the mandate and requirements of that mission, the Secretariat will continue to review the staffing and support capacity in the Offices of Deputy Special Representatives, Resident Coordinators and Humanitarian Coordinators to ensure that the mandate-related functions performed by the incumbent are effectively supported.

7. Mine action activities

78. In 2024, the Mine Action Service will fulfil its role as service provider for the mine action components in five special political missions (UNAMA, UNITAMS, UNMHA, UNSMIL and UNSOM). The proposed resources for mine action in the 2024 budget submissions for these five missions have been reviewed by a multidisciplinary review committee led by the Mine Action Service and composed of representatives from United Nations Headquarters and the missions. The review has found the proposed resources for mine action appropriate to deliver the mission mandates efficiently, effectively and accountably.
79. As mandated by the General Assembly in resolutions [75/250 B](#), [75/297](#), [75/298](#), [75/299](#), [75/300](#), [75/302](#), [75/304](#), [75/305](#) and [75/306](#), the Secretary-General commissioned an independent review of the use of the services of the United Nations Office for Project Services and the partners selected to implement mine action activities, which was conducted from April to November 2022. The Secretary-General's report on the summary of findings and recommendations of the independent review of the mine action services delivery model ([A/77/747](#)) was submitted to the Assembly for its consideration at the second part of the resumed seventy-seventh session. The review recommended:
- (a) Resourcing the Mine Action Service and the Secretariat adequately to carry out the programme design, monitoring and reporting functions for Mine Action Service field programmes;
 - (b) Enhancing the cost-efficiency, effectiveness and good governance/transparency of the current partnership between the Mine Action Service and the United Nations Office for Project Services;
 - (c) Simultaneously taking a phased, programme-by-programme approach to identify the appropriate delivery model in each setting.
80. Pending feedback from the General Assembly on the Secretary-General's report, the Secretariat will introduce competition at the programme design stage and explore all options for effective, cost-efficient, transparent and accountable mine action delivery in each setting. Any budgetary implications of the redesign will be submitted in the proposed budgets for special political missions for 2025.

8. Backstopping support at Headquarters

81. Special political missions rely on Headquarters for backstopping support for a wide range of functions. In 2023, the Department of Political and Peacebuilding Affairs is leading and providing substantive backstopping to 35 of the 39 special political missions by ensuring regular and effective communication between the missions and United Nations entities in New York and regular liaison with Member States through their permanent missions to the United Nations and preparing a wide

range of substantive material, including briefing material for the Security Council and regular reports of the Secretary-General, among a wide range of functions. In 2024, similar support and guidance will continue to be provided to the same missions by the Department. In 2023, administrative support is being provided by the joint Executive Office of the Department of Political and Peacebuilding Affairs and the Department of Peace Operations to 16 of those missions.

82. Special political missions also benefit from operational support and advisory services in the areas of human resources and supply chain management provided by the Department of Operational Support, budgetary and financial services, asset and property management policy support and assistance with accountability systems provided by the Department of Management Strategy, Policy and Compliance, and information technology support delivered by the Office of Information and Communications Technology. Special political missions also rely on support from Headquarters in thematic and operational areas such as constitution-making, electoral assistance, mediation, best practices, military and police planning/force generation, rule of law and security institutions. In 2024, similar support will continue to be provided to the same missions by Headquarters.
83. Annex III to the present report contains consolidated information on positions at Headquarters for backstopping support funded from special political mission budgets proposed for 2024, including the total number of backstopping positions approved for different departments, along with the functional titles of the positions. In 2023, a total of 49 such positions (1 D-1, 9 P-5, 20 P-4, 8 P-3, 1 P-2 and 10 General Service (Other level)) are being funded from special political missions. No change is proposed to the number and level of backstopping positions in 2024.
84. While the resources included in the budgets of special political missions for backstopping support are fundamental for the Secretariat to provide support to special political missions, the regular budget and extrabudgetary resources of the Department of Political and Peacebuilding Affairs are often also required to provide adequate support. Similarly, the regular budget and extrabudgetary resources of the Office for Disarmament Affairs are used to provide administrative support to the mission in support of the Security Council Committee established pursuant to resolution [1540 \(2004\)](#) on the non-proliferation of all weapons of mass destruction.

9. Ratios for vehicles and information technology equipment

85. Ordinarily, vehicle holdings should directly and proportionally reflect the number of staff, whereas operational requirements should be prioritized on the basis of supporting mileage, frequency of use and usage patterns. This forms the principal guidance from Headquarters to field missions on the management of an efficient vehicle fleet. As part of its efforts to further improve vehicle fleet management, the Secretariat has promulgated a standard ratio for light passenger vehicles for field missions to be applied when assessing ground transportation needs. Whereas field missions are responsible for determining the overall requirement for vehicles, the Secretariat conducts vehicle acquisition on behalf of all its entities to ensure efficiency gains by procuring cost-efficient vehicles available under Headquarters global systems contracts established through competitive bidding exercises. Such deliberate actions allow for the implementation of the intent of the guidance without putting missions at risk with regard to their operational needs.
86. The vehicle and information technology equipment holdings of special political missions have been reviewed and aligned by each mission, where possible, in accordance with the standard ratios promulgated in the Standard Cost and Ratio Manual issued by the Department of Operational Support. The missions continue to monitor excess holdings of vehicles and expect to dispose of vehicles when they meet the criteria in terms of life expectancy or write-off or to recommend inter-mission transfers where feasible and cost-efficient.
87. In the above context, the holdings of vehicles and information technology equipment are proposed on the basis of the anticipated personnel incumbency levels planned for 2024, as opposed to the full authorized level of personnel. Table 1 provides the ratios for vehicles for all special political missions that have vehicle holdings, while table 2 provides the ratios for information technology equipment for all special political missions.

UNAMA	493	443	100	131	31.0
UNAMI	403	354	85	157	84.7
Total	3 131	2 550	673	833	23.8

^a Includes United Nations international staff, National Professional Officers, United Nations Volunteers, military and police personnel (military observers, military police and civilian police officers), Government-provided personnel and contractors.

^b Includes armoured vehicles except those earmarked or required for the exclusive use of close protection and certain security tasks. Excludes guard-forces-carrying and utility vehicles, buses and electric carts.

^c Based on standard equipment as outlined in the Standard Cost and Ratio Manual.

88. The total proposed vehicle holdings for special political missions are 23.8 per cent above the standard allocation based on the Standard Cost and Ratio Manual. Explanations for vehicle holdings that are higher than the standard allocation in specific missions are as follows:
- (a) The vehicle holdings for the United Nations Representative to the Geneva International Discussions are 33.3 per cent, or one vehicle, higher than the standard allocation, and reflect the operational needs both in Tbilisi and Zugdidi, Georgia;
 - (b) The vehicle holdings at UNSOM are 28.1 per cent higher than the standard allocation, which is attributable to the operational requirement for a pool of vehicles to facilitate staff movement, as necessitated by the security requirements of the Mission;
 - (c) The vehicle holdings for United Nations support for the Cameroon-Nigeria Mixed Commission are higher than the standard allocation by 133.3 per cent, which reflects the need for dedicated transportation to support the movement of the joint technical teams and their security personnel along with all their logistics equipment while in the field. The presence of these vehicles allows for flexibility and the ability to move freely within the areas of operations, many of which are isolated and hard to reach and have limited infrastructure and unsafe conditions;
 - (d) The vehicle holdings for UNSMIL are 50.9 per cent higher than the standard allocation, which is attributable to: (i) an operational requirement for a pool of vehicles to support the United Nations Guard Unit; and (ii) reserves to support movements in Tunis and Benghazi, Libya;
 - (e) The vehicle holdings at UNMHA are higher than the standard allocation by 100.0 per cent, which reflects the operational requirement for a pool of 19 vehicles to support convoy movements between Hudaydah and Sana'a and between Aden and southern districts;
 - (f) The vehicle holdings at BINUH are 34.3 per cent higher than the standard allocation, which is attributable to: (i) the operational requirement for a pool of vehicles to support dispatch and airport shuttle services in light of the high mobility of mission personnel; (ii) the need for frequent maintenance and repair caused by poor road conditions and extensive time needed for repairs at outsourced workshops; and (iii) the need for vehicles to conduct driver testing;
 - (g) The vehicle holdings at UNAMA are 31.0 per cent higher than the standard allocation, which is attributable to: (i) the operational requirement for a pool of vehicles for Kabul to provide dispatch transportation for all staff in the Mission; (ii) provision of airport shuttle services; and (iii) vehicles to conduct driver testing;
 - (h) The vehicle holdings at UNAMI are 84.7 per cent higher than the standard allocation, which is attributable to: (i) the operational requirement for a pool of vehicles to support the United Nations Guard Unit; (ii) provision of airport shuttle services; (iii) reserves to support movements in the various regions in Iraq; and (iv) vehicles to conduct driver testing.

Total	5 519	4 684	4 445	5 105	5 629	10.3

^a Includes international and national staff, United Nations Volunteers, United Nations police, United Nations military observers, government-provided personnel, military staff officers, international contractors and duty station-based experts.

^b Includes desktop computers, laptops and netbook computers.

^c Based on standard requirements as outlined in the Standard Cost and Ratio Manual.

89. The total proposed computing device holdings for special political missions are 10.3 per cent higher than the standard allocation. Explanations for computing device holdings that are higher than the standard allocation in specific missions are as follows:
- (a) The computing device holdings at the Office of the Special Envoy of the Secretary-General for Syria are 11.7 per cent higher than the standard allocation and relate to equipment needed for training purposes, maintenance of servers and systems for closed-circuit television monitoring, identity cards and access control;
 - (b) The computing device holdings at the Office of the Special Envoy for the Great Lakes Region are 11.8 per cent, or four devices, higher than the standard allocation and relate to equipment needed for training;
 - (c) The computing device holdings at the Office of the Special Envoy for Yemen are 10.9 per cent higher than the standard allocation, which is attributable to requirements for training purposes and for servers;
 - (d) The computing device holdings at UNITAD are 11.0 per cent higher than the standard allocation, which is attributable to requirements for a security monitoring system, conference and meeting room equipment, the CarLog system and servers;
 - (e) The computing device holdings at UNOWAS are 9.2 per cent higher than the standard allocation, which is attributable to additional holdings required to provide for training purposes and for the CarLog system;
 - (f) The computing device holdings at the Office of the United Nations Special Coordinator for Lebanon are 7.5 per cent higher than the standard allocation, which is attributable to requirements for training, the CarLog system and servers;
 - (g) The computing device holdings at UNSMIL are 3.8 per cent higher than the standard allocation, which is attributable to requirements for the CarLog system, data transmission and connectivity and servers;
 - (h) The computing device holdings at the United Nations Verification Mission in Colombia are 3.7 per cent higher than the standard allocation, which is attributable to requirements for training purposes, servers and data transmission systems;

- (i) The computing device holdings at UNMHA are 8.8 per cent higher than the standard allocation, which is attributable to requirements for training purposes, the CarLog system and servers;
 - (j) The computing device holdings at BINUH are 4.1 per cent higher than the standard allocation, which is attributable to requirements for training purposes and servers;
 - (k) The computing device holdings at UNITAMS are 10.1 per cent higher than the standard allocation, which is attributable to requirements for additional equipment for contractual personnel, the CarLog system, spares for remote duty stations and servers;
 - (l) The computing device holdings at UNAMA are 15.3 per cent higher than the standard allocation, which is attributable to additional holdings required to provide for training purposes, the CarLog system and servers;
 - (m) The computing device holdings at UNAMI are 25.5 per cent higher than the standard allocation, which is attributable to additional holdings required for training purposes, maintenance of servers, information technology for medical support, systems for closed-circuit television monitoring, identity cards and access control and the CarLog system.
90. The holdings are influenced by factors such as the need to provide for consultants and individual contractors, training facilities, Internet booths, information technology maintenance services, CarLog systems, programming of radios and fieldwork. Furthermore, based on the lessons learned during the pandemic, which saw a substantial increase in the use of virtual communications and remote working, it is critical to ensure the reliability of information technology equipment and infrastructure and their accessibility to all personnel, both staff and non-staff, to enable business continuity, mandate delivery and the safety and security of staff members, especially in the harsh environments where many special political missions operate.

10. Air operations

91. In 2023, the total resources approved for air operations amount to \$55.4 million, with planned utilization of approximately 10,152 flight hours (6,306 for fixed-wing aircraft and 3,846 for rotary-wing aircraft). In 2024, an amount of \$58.2 million is proposed for a total of 9,452 flight hours (6,182 for fixed-wing aircraft and 3,270 for rotary-wing aircraft). Resource requirements for air operations in eight missions (UNOWAS, UNSOM, UNSMIL, the United Nations Verification Mission in Colombia, UNMHA, UNITAMS, UNAMA and UNAMI) represent 96.9 per cent of the overall air operation resource requirements in 2024.
92. The proposed resources for air operations in 2024 represent an increase of \$2.8 million, or 5.0 per cent, compared with 2023. The increase is the result of: (a) increased requirements for the cost of rental of aircraft in UNMHA, UNSOM and the United Nations Verification Mission in Colombia, as a result of the application of the latest contractual prices; and (b) increased requirements for petroleum, oil and other lubricants in UNAMI, UNMHA, UNSMIL and UNSOM due to higher fuel costs; offset in part by decreases in flight hours in UNAMA, the United Nations Verification Mission in Colombia, UNSOM, UNAMI, UNOWAS and the Office of Special Envoy for Yemen.
93. Annex IX to the present report provides, by mission, information on appropriations and expenditure for 2022, the approved budget for 2023 and the proposed resources for 2024 for air operations, as well as actual flying hours for 2022, budgeted flying hours for 2023 and planned hours for 2024.

11. Travel

94. The total resources proposed for official travel amount to \$14.4 million, reflecting an increase of 3.0 per cent compared with the approved budget of \$14.0 million for 2023. Annex XV to the present report sets out information on the approved resources for 2023 and proposed resources for 2024 for official travel under each mission, including a summary explanation for the variances.
95. The COVID-19 pandemic and the emergence of new variants have continued to affect the operational environment for special political missions in 2022 and early 2023, albeit to a lesser extent than in

the preceding years. Operational postures have continued to be adjusted as necessary, and some continued travel restrictions have made it difficult at times for missions to support outreach and dialogue and to carry out preventive diplomacy and peacemaking efforts, or for the sanctions monitoring teams, groups and panels to conduct field visits and investigations on sanctions violations. As countries around the globe continue to relax pandemic-induced travel restrictions, there has been a further resumption of the multitude of engagements and interactions with national and local authorities, communities and stakeholders. These engagements are necessary to sustain the political and peacebuilding efforts in many mission contexts, for which face-to-face discussions on politically sensitive and confidential issues remain the most effective way to achieve higher impact and yield better results.

96. For 2024, the travel plans are based on the overarching principle that official travel will be undertaken only where it cannot be substituted by other means of communication, including videoconferencing. For the sanctions monitoring teams, group and panels, the proposed budget for official travel of staff for 2024 takes into account the frequency of travel by the chairs of sanctions committees to countries and regions relevant to their sanctions regime. The proposed budget for all sanctions expert panels not based in New York provides for one trip to the region to assist the Chair and/or the group or panel and two trips to assist the group or panel during the drafting of interim, mid-term and final reports. In addition, the proposed budget for four of the panels that are not based in New York includes one more trip by two Secretariat staff to a country relevant to the sanctions regime to conduct Council-mandated sanctions assessment missions. Proposed travel for all sanctions expert panels not based in New York has therefore been harmonized to provide for one trip to the region and two trips to assist the group or panel during the drafting of reports.
97. The programme plans of the special political missions, which include information on the impact of the pandemic on mandate delivery and lessons learned, as presented in the thematic cluster budget fascicles, provide further information on how special political missions have incorporated good practices and increased the use of technology in their work, while also reflecting upon the challenges experienced where technology meets its limits and in-person travel is needed to meet pent-up demand and fill coverage gaps. Travel to provide good offices and mediation, conduct fact-finding and monitoring activities, verify compliance and conduct outreach, as well as provide training or capacity-building to national and local partners, remains an indispensable tool in carrying out the work of the special political missions in 2024.
98. With respect to the rates of compliance of special political missions with the policy of 16-day advance booking of tickets, the missions are fully aware of the observations and recommendations of the Advisory Committee on Administrative and Budgetary Questions with respect to the need to put measures in place. The Department of Management Strategy, Policy and Compliance continues to monitor compliance with the advance purchase policy as part of its quarterly report on key performance indicators of the delegation of authority accountability framework. Heads of mission have easy access to detailed data and their real-time performance to identify and address issues. The Business Transformation and Accountability Division has started to conduct more in-depth analysis to facilitate targeted monitoring and follow-up actions, based on compliance trends, travel types and the identification of causal factors. In a memorandum dated 16 March 2022 from the Under-Secretary-General for Management Strategy, Policy and Compliance, the heads of all Secretariat entities, including special political missions, were strongly encouraged to put additional focus on this area.
99. Additional tools also became available in 2022. For example, the Department of Operational Support deployed a new travel statistics dashboard as a key travel data analytics tool, which includes visualization of workflow history so that missions can pinpoint delays in the travel process.
100. Full compliance with the policy also depends on external factors. Such factors encompass frequent shifts in mission security and political environments; the necessity to respond to sudden or escalating crises; interruptions arising from distinct logistical arrangements for travel that require special flights or escorts, leading to last-minute bookings for commercial travel; last-minute requests for revisions to meeting schedules and participant lists with multiple stakeholders, such as regional Governments,

intergovernmental partners and civil society organizations, outside the control of missions and often at short notice; and late notifications from the organizers of training and learning activities.

101. Annex XVI provides information on the rates of compliance of special political missions with the policy of 16-day advance booking of tickets for the past five years (2018–2022). While further efforts are still needed, there was a noticeable improvement in 2022. The overall compliance rate for all special political missions increased from 19 per cent in 2018, 18 per cent in 2019, 22 per cent in 2020 and 21 per cent in 2021 to 27 per cent in 2022. For the 38 special political missions,⁴ two thirds of the missions have shown improved compliance rates in 2022 as compared with 2021.

12. Expert panels for the recruitment of generic job openings

102. Recruitment from rosters enables timely recruitment, while giving due consideration to organizational imperatives on gender parity and geographical diversity in the interest of having qualified and diverse candidates available to deploy quickly to achieve field mission mandates. Expert panels established pursuant to [ST/AI/2010/3/Rev.2](#) are an integral part of the roster-based recruitment system. The expert panels assess and recommend candidates who have applied for generic job openings for posts in field missions in order to reduce the administrative burden on individual hiring managers and enhance the quality, consistency and integrity of the recruitment process by centralizing the assessment. Expert panels are similar in constitution to an assessment panel and will continue to convene in 2024 to assess and recommend candidates who have applied for generic job openings for positions in the field. In 2024, the Department of Operational Support will continue to pursue roster-based recruitment and manage generic job openings with a view to establishing new rosters that reflect gender balance, geographic diversity and multilingualism. The requirement in this regard for the 2024 period is estimated in the amount of \$210,200 and apportioned to special political missions to meet the costs of expert panel assessments. Since candidates that are rostered as a result of such global exercises are subsequently available for selection by all missions, the funding for expert panels continues to be apportioned among the missions on a pro rata basis through a cost-sharing model, with each active peacekeeping and special political mission contributing in accordance with its size and the number of applicable authorized international positions⁵ of the respective missions in 2023.

II. Analysis of resource requirements for special political missions

A. Budget formulation: efforts, methodology and presentation

103. The Secretariat has taken note of the comment of the Advisory Committee on Administrative and Budgetary Questions acknowledging that the Secretariat had made improvements to the presentation of the budget proposals of special political missions for 2023 and that it trusted that such efforts would continue in future budget reports ([A/77/7/Add.1](#), para. 74). Further efforts have been made during the formulation of the proposed budget for 2024 to achieve consistency and standardization in budget methodologies and to continue to improve the presentation of budget reports with a view to enhancing clarity and providing more meaningful information.
104. The Field Operations Finance Division in the Office of Programme Planning, Finance and Budget of the Department of Management Strategy, Policy and Compliance provided strategic, policy and practical guidance to all 39 special political missions during the budget formulation process. The proposed programme budget of the special political missions for 2024 reflects conscious efforts for improvement in the areas described below.

⁴ The Panel of Experts on Haiti was established only in late 2022 and hence does not have historical data for comparison.

⁵ The expert panels assess generic job openings for positions at the P-2 to D-1 levels and in the Field Service category. Applicable authorized international positions are therefore positions on the approved staffing tables of each field mission at the P-2 to D-1 levels and in the Field Service category.

1. Consistent application of the latest standard rates

105. With regard to international staff costs in field locations, the budgetary rates for net salary and staff assessment for 2024 were determined for each grade level and for each special political mission according to the following methodology:
- (a) The salary rates were updated using the revised base salary scale for Professional and higher categories effective 1 January 2023 approved by the General Assembly in its resolution [77/256 B](#). The scale reflects a 2.28 per cent adjustment to be implemented by increasing the net base salary and commensurately decreasing post adjustment multiplier points, resulting in no loss/no gain in net take-home pay. The net base salary scale for staff in the Field Service category has also been revised, effective 1 January 2023 (see [ST/IC/2023/5](#));
 - (b) The step levels selected for each grade are based on the actual average step levels for each mission as at 31 December 2022, using actual incumbency data for international staff;
 - (c) The post adjustment multiplier for each duty station as of April 2023 was applied to the net base salary rates.
106. With regard to national staff, the most recent salary scales were used for net salary and staff assessment, with the percentage of common staff costs to net salary, based on actual expenditure for the period from 1 January to 31 December 2022, applied to the average grade and step of national staff.
107. With regard to common staff costs, the actual expenditure from 1 January to 31 December 2022 was used to calculate the percentage of common staff costs to net salaries (including post adjustment but net of staff assessment) to determine the percentage of common staff costs for 2024.
108. For United Nations Headquarters, offices away from Headquarters and the regional commission duty stations (New York, Geneva, Nairobi, Addis Ababa and Beirut), the standard costs for salaries and common staff costs for the programme budget were used, which were adjusted to reflect the post adjustment multiplier as of April 2023 for those locations.
109. With regard to military contingents (United Nations Guard Units), the latest single rate of reimbursement to countries contributing contingent personnel to United Nations field operations in the amount of \$1,448 per person per month effective 1 July 2022, a temporary reimbursement rate of \$4.90 per person per month related to mandatory pre-deployment COVID-19 testing and the recreation leave allowance of \$11.50 per day for up to 15 days of leave taken during each six-month period, as approved by the General Assembly in its resolutions [76/274](#) and [76/276](#), were applied.
110. With regard to military advisers, observers, United Nations police and government-provided personnel, the latest applicable mission subsistence allowance rates for each country and mission area effective from 1 January 2023 and the one-time transitional measure where applicable, as published in the applicable information circulars ([ST/IC/2022/14](#) and [ST/IC/2022/14/Amend.1](#)), were applied.
111. With regard to the cost-of-living allowance for non-home-based experts in the Security Council sanctions committee panels and other support mechanisms, the latest monthly rates of \$6,600 (New York) and \$4,800 (Nairobi) as approved by the Office of Human Resources, which took effect from 1 March 2023, have been applied to the five missions⁶ that have such requirements.
112. With regard to rental of premises in New York, the latest unit rate of \$16,000 per person per year, reflecting a reduction from the standard rate of \$17,000 in previous years, which will take effect as of 1 January 2024, has been applied to those missions accommodated on the Headquarters premises in New York.

⁶ Panel of Experts on the Democratic People's Republic of Korea, Analytical Support and Sanctions Monitoring Team pursuant to resolutions [1526 \(2004\)](#) and [2253 \(2015\)](#) concerning ISIL (Da'esh), Al-Qaida and the Taliban and associated individuals and entities, Office of the Ombudsperson established pursuant to Security Council resolution [1904 \(2009\)](#), Panel of Experts on Somalia and support to the Security Council Committee established pursuant to resolution [1540 \(2004\)](#) on the non-proliferation of all weapons of mass destruction

113. With respect to fuel costs, the average price per litre for the different types of fuel in the six month period from October 2022 to March 2023 have been used as the basis for calculating the provisions for fuel costs under the respective budget classes for 2024.

2. Standardized methodology of budgeted vacancy rates

114. The Field Operations Finance Division provided guidance to all special political missions to improve the accuracy and consistency of the vacancy rate factors applied in the proposed budgets for 2024, to ensure that the proposed vacancy rates are based, as much as possible, on actual rates.
115. The proposed vacancy rates applied in the budget for 2024, for all types of personnel, have taken into account the experience to date. The assumptions considered for the proposed vacancy rates include the 12-month average vacancy rate in 2022 and the actual vacancy rate as at 31 March 2023. The lower of the two was used as the budgeted vacancy rate.
116. For proposed establishment of new posts and positions, or posts and positions proposed for reassignment, a vacancy rate of 50 per cent has been applied in the calculation of costs of such posts and positions. In addition, a vacancy rate of 50 per cent has been used for posts and positions proposed for conversion.
117. In addition, the Department of Management Strategy, Policy and Compliance requested all special political missions to take into full consideration the recommendations of the Advisory Committee on Administrative and Budgetary Questions and requests from the General Assembly that vacant posts and positions should be filled expeditiously. Since the easing of recruitment restrictions in May 2021, special political missions have increased their efforts to fill vacant posts as expeditiously as possible.
118. In addition, the Field Operations Finance Division provided guidance to all special political missions to take the opportunity offered during the preparation of the 2024 budget to critically review long-vacant posts with a view to abolishing vacant posts that can be covered by existing capacities, or to propose reassignment or abolishment with the aim of facilitating the establishment of another function to address a more critical need, or to propose conversion to a national post.
119. Information on all posts vacant for more than two years and posts encumbered through special post allowances for more than one year, as at 31 March 2023, is included in the supplementary information under each thematic cluster, which details the vacancy or special post allowance start dates, level and functional title of the posts, organizational unit and the current status of recruitment, and provides justification for the retention of long-vacant posts.

3. Simplified and standard proposals for post actions

120. The Secretariat has borne in mind the comment of the Advisory Committee on Administrative and Budgetary Questions that proposals for combined reassignments and redeployments should be presented as abolishments and establishments (see [A/77/7/Add.4](#), para. 36). The Secretariat has ensured that in such instances proposals are made to abolish the post no longer required and to establish a new post with full justification. Accordingly, no proposals have been made in the 2024 budget to reassign, reclassify or redeploy posts in a combined fashion, in line with the guidance received from the Advisory Committee in 2022.
121. In addition, the Secretariat has ensured that all general temporary assistance positions are fully justified under the respective missions, providing the reasons for the proposed retention in 2024. In addition, no proposals have been made to convert these positions to regular posts.

4. More meaningful information and clearer presentation

122. To further enhance clarity, improvements made to improve the presentation of the chapeau report include the following:
- (a) Table 7 has been expanded to provide more clarity on posts and positions, differentiating posts, United Nations Volunteer positions and general temporary assistance positions;

- (b) Table 8 on posts and positions has been expanded to include the impact of the proposed changes (abolishment, establishment, conversion, reclassification) on the number and levels of posts and positions of each mission;
 - (c) A new table 9 has been introduced to provide a summary of all general temporary assistance positions, detailing the General Assembly resolutions and the recommendations of the Advisory Committee on Administrative and Budgetary Questions (if applicable) giving rise to the approval of these general temporary positions. Furthermore, table 9 also includes a summary of other categories of personnel such as military advisers, observers, United Nations police personnel, guard unit personnel and government-provided personnel;
 - (d) A new table 10 has been introduced to provide a summary of the number of posts funded from extrabudgetary resources, based on current information and projections, to facilitate a holistic view of the staffing of special political missions from all funding sources;
 - (e) Annex IV has been enhanced to provide a breakdown of extrabudgetary resources into voluntary contributions and cost-recovery revenue (which is now included in the calculation of extrabudgetary resources);
 - (f) Annexes VII and VIII have been added to provide information on cost-recovery revenue and projected expenditures, in line with recommendations by the Advisory Committee in 2022;
 - (g) Annex XVI, on compliance with the 16-day advance booking policy, has been enhanced to indicate missions whose compliance rate in 2022 improved over the prior period. In addition, the overall composite average compliance rate of all special political missions has also been included at the bottom of the table, to provide a holistic view;
 - (h) Annex XIX, on geographical representation of international civilian staff and experts, now provides information for every Member State instead of only regional groups. Further breakdown of such information for each mission will be provided as supplementary information under each cluster in view of space limitations in the main report.
123. As to the fascicles and the supplementary information submitted under the thematic clusters, the following improvements were made:
- (a) A new table 2, on human resources, has been added (in addition to the existing table 1, on financial resources) to provide an overview of all types of personnel in the entire cluster;
 - (b) The paragraphs on extrabudgetary resources have been enriched to include information not only on voluntary contributions but also on cost-recovery resources. In addition, the narrative on extrabudgetary resources now also elaborates on the number and levels of posts funded from extrabudgetary resources;
 - (c) An additional annex IV has been added to provide analysis of prior year budget performance, with an explanation provided on the variances of each mission in their budget performance in 2022;
 - (d) An additional annex V has been included to provide the latest budget implementation in 2023, along with an explanation of expenditure patterns that are either faster or slower than the linear rates.
124. The Secretariat also simultaneously implemented for special political missions the change in budget classes that was implemented in the proposed budget for the 2023/24 period for peacekeeping operations in order to further enhance budget transparency by including a breakdown between the resources requested for National Professional Officers and national General Service staff, as requested by the General Assembly in paragraph 18 of its resolution [76/274](#), and in order to present disaggregated numbers and related financial implications of United Nations Volunteer personnel by international and national categories.
125. Reflecting this finer granularity, the resources for national staff in special political missions are now presented separately under the distinct budget classes of National Professional Officer and Local

level staff. The resources for United Nations Volunteers are further broken down into international United Nations Volunteers and national United Nations Volunteers subclasses. Similarly, the staffing tables and organizational charts of special political missions have been enhanced to provide such additional details.

B. Financial resources

126. The total proposed resource requirements for 2024 relating to the 39 continuing special political missions covered in the present report amount to \$775.3 million net of staff assessment and inclusive of the provision for the share of special political missions in the budget of the Regional Service Centre in Entebbe. Overall, the resource level for 2024 reflects an increase of \$7.0 million (with an overall increase of 35 positions) compared with the appropriation for 2023. Details of the financial resource requirements by cluster, by mission and by category of expenditure are presented in tables 3 to 5.

Table 3
Overview of financial resources by cluster

(Thousands of United States dollars)

	2023 appropriation ^a	2024 requirements	Variance	
			Amount	Percentage
			(3)=(2)-(1)	(4)=(3)/(1)
	(1)	(2)	(3)	(4)
Cluster I	49 604.0	47 873.3	(1 730.7)	(3.5)

^a The category of discontinued missions refers to the Office of the Special Envoy of the Secretary-General for Burundi and the United Nations Integrated Peacebuilding Office in Guinea-Bissau, both of which were closed in 2021. Some payroll adjustments for separated staff and refunds from vendors were posted in 2022.

Variance analysis**Cluster I**

127. The proposed resource requirements for the 10 missions under cluster I for 2024 would amount to \$47.9 million, representing a net decrease of \$1.7 million (3.5 per cent) compared with 2023. The overall decrease reflects principally decreased requirements for: (a) the Office of the Special Envoy of the Secretary-General for Syria, attributable mainly to reduced requirements for rental of premises and security services and lower costs for local level staff due to the application of a higher vacancy rate; (b) the Office of the Special Envoy of the Secretary-General for the Great Lakes Region, attributable mainly to lower civilian personnel costs for international staff and National Professional Officers due to the application of higher vacancy rates, as well as lower requirements for other supplies, services and equipment, facilities and infrastructure, and communications and information technology; and (c) the Office of the Special Envoy of the Secretary-General for Yemen attributable mainly to lower civilian personnel costs as a result of higher vacancy rates applied to all personnel categories, offset in part by increased requirements for operational costs due to higher costs for rental of premises resulting from an increased need for office space in Amman, higher fuel costs for vehicles and generators, and increased costs for minor construction due to enhanced security and electrical projects.

Cluster II

128. The proposed resource requirements for the 16 missions under cluster II for 2024 would amount to \$66.5 million, representing a net increase of \$2.4 million (3.7 per cent) compared with 2023. The overall increase principally reflects increased requirements under: (a) the 14 group and panels of experts, attributable to the application of the most recent actual vacancy rates, updated salary scales, the application of the latest percentage of common staff costs, the establishment of two new positions for support to the Security Council Committee established pursuant to resolution [1540 \(2004\)](#) and updated fees for experts, offset in part by reduced requirements under staff costs for the implementation of Security Council resolution [2231 \(2015\)](#) resulting from the proposed abolishment of two positions; (b) the Counter-Terrorism Committee Executive Directorate, attributable mainly to the updated higher salary rates, the proposed establishment of a new position and increased requirements for official travel for assessment visits, offset in part by reductions due to the application of a higher vacancy rate; and (c) UNITAD, attributable to the application of lower vacancy rates, updated salary rates for national staff and the establishment of three national staff positions.

Cluster III

129. The proposed resource requirements for the 11 special political missions presented under cluster III would amount to \$427.9 million, representing an overall increase of \$4.78 million (1.1 per cent) compared with the appropriation for 2023. The overall increase under cluster III reflects the net result of the following main factors: (a) an increase of \$4.7 million for UNSOM due to the application of lower vacancy rates across different categories of civilian and uniformed personnel and higher requirements for facilities and infrastructure related mainly to the ongoing construction of the field office in Dhusamareb; (b) an increase of \$2.1 million in BINUH due mainly to an increased requirement under civilian staff costs resulting from the delayed impact of 38 new posts approved in 2023, the provision of danger pay, which became effective in October 2022 and was not included in the 2023 budget, the reduction of the rest and recuperation cycle from 8 to 6 weeks resulting in additional payments and the establishment of seven positions proposed for 2024; and (c) an increase of \$1.1 million for the Office of the United Nations Special Coordinator for Lebanon resulting from a higher post adjustment multiplier in Lebanon and the application of the latest national staff salary scales promulgated in October 2022. The increased requirements were partially offset by: (a) a decrease of \$1.3 million under UNMHA due to a reduced requirement for medical services provided by the contracted surgical and aeromedical evacuation teams, lower requirements for United Nations monitors due to the application of a higher vacancy rate and reduced requirements

under other supplies, services and equipment due to a lower provision for redeployment coordination committee and bilateral meetings; (b) a decrease of \$1.2 million under UNITAMS due to the application of a lower percentage of common staff costs for international civilian personnel and the application of a higher vacancy rate for National Professional Officers, while the operational costs have been maintained at the same level as in 2023 in view of the fluid and volatile security and operating environment in the mission area, subject to further developments; and (c) a decrease of \$0.7 million in UNOCA due mainly to decreased requirements for international staff and National Professional Officers as a result of the application of higher vacancy rates and lower requirements for communications and information technology due mainly to a lower volume of acquisition of equipment.

UNAMA

130. The proposed resource requirements for UNAMA for 2024 are in the amount of \$132.5 million, at the maintenance level as compared with the appropriation of 2023. However, there are changes under the different budget classes, with the combined and net effect being cost neutral. These changes include: (a) a decrease of \$1.1 million for civilian personnel costs; (b) an increase of \$1.1 million for operational costs, due mainly to higher requirements for fees for the shipment of cash into Afghanistan and an anticipated increased utilization of internal flights within Afghanistan through the United Nations Humanitarian Air Service, and a higher requirement for public information services related to the political and local peace initiatives outreach, higher requirements for maintenance of communications and information technology equipment and support services and for the replacement of critical information equipment.

UNAMI

131. The proposed resource requirements for UNAMI for 2024 would amount to \$98.5 million, representing a net increase of \$1.6 million (2 per cent) compared with the 2023 appropriation. The overall increase is the result of: (a) higher costs for travel on emplacement, rotation and repatriation based on the latest letter of assist and the higher rate of reimbursement for standard troop costs approved by the General Assembly; (b) increased civilian personnel costs due mainly to the application of a higher average level or step used in the computation of salaries for national staff; and (c) increased operational costs under: (i) air operations and ground transport due to a higher fuel costs; and (ii) communications and information technology due to the planned replacement of equipment. The increased requirements were partially offset by lower requirements under facilities and infrastructure due to the exclusion of a provision for the renovation of the UNAMI building in Kuwait as it was assessed that the major cost relating to this project can be adequately covered by the related resources approved in the budget for 2023.

Share of the cost of the Regional Service Centre in Entebbe

132. The share of special political missions for the cost of the Regional Service Centre in Entebbe reflects a decrease of \$0.01 million, attributable mainly to the decrease of the share of special political missions in the cost of the Centre from 5.1 per cent in the 2022/23 period to 4.9 per cent in the 2023/24 period, offset in part by an increase in the proposed budget for the Centre of \$0.6 million or 1.5 per cent compared with the 2022/23 period, due mainly to increased requirements for communications and information technology (\$0.7 million) resulting from the re-establishment of dedicated Internet connectivity services that were discontinued during the COVID-19 pandemic period because of a substantial reduction in the number of Internet users at the Centre and a provision for cloud services.
133. The variance analysis of each mission is further provided in table 6.

Table 6
Variance analysis, by mission

(Thousands of United States dollars)

Mission	2023 appropriation	2024 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
Cluster I					
1. Office of the Special Adviser to the Secretary-General on Cyprus	3 036.3	3 079.1	42.8	1.4	The increase in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to increased requirements under civilian personnel costs resulting from higher salary costs for international positions, offset in part by the application of a vacancy rate of 3.3 per cent compared with the budgeted vacancy rate of zero per cent for Local level positions in 2022.
2. Office of the Special Adviser to the Secretary-General on the Prevention of Genocide	2 816.4	2 819.3	2.9	0.1	The increase in requirements for 2024 compared with the appropriation for 2023 is attributable mainly to the cost of two national United Nations Volunteer positions proposed for establishment, partially offset by the application of a higher vacancy rate of 15.4 per cent compared with the budgeted vacancy rate of 5 per cent in 2023.
3. Personal Envoy of the Secretary-General for Western Sahara	475.2	567.8	92.6	19.5	The increase in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to the application of a zero per cent vacancy rate compared with the budgeted vacancy rate of 5 per cent in 2023, as well as higher salaries and common staff costs based on recent expenditure patterns.
4. Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)	372.2	420.1	47.9	12.9	The increase in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to the application of a lower vacancy rate of zero per cent compared with the budgeted vacancy rate of 5 per cent in 2023, as well as higher salary and common staff costs based on recent expenditure patterns.
5. United Nations Representative to the Geneva International Discussions	1 950.0	2 059.1	109.1	5.6	The increase in requirements proposed for 2024 compared with the appropriation for 2023 is attributable to higher salary and common staff costs based on recent expenditure patterns and slightly higher costs for rental of premises in Tbilisi.
6. Office of the Special Envoy of the Secretary-General for Syria	15 001.6	14 200.6	(801.0)	(5.3)	The decrease in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to lower requirements for facilities and infrastructure and for security services, offset in part by increased requirements for civilian personnel due to higher salaries and common staff costs for international staff based on recent expenditure patterns.
7. Office of the Special Envoy of the Secretary-General for the Horn of Africa	1 754.5	1 654.6	(99.9)	(5.7)	The decrease in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to the application of a 20.0 per cent vacancy rate for international staff compared with the budgeted vacancy rate of 3.0 per cent in 2023 and lower salary costs for National Professional Officers. The decreased requirements are offset by increased requirements for facilities and infrastructure and other supplies, services and equipment, due mainly to higher requirements for rental of premises and the increased provision for training fees, supplies and services as a result of training being increasingly conducted online.

Mission	2023	2024	Variance		Main contributing factors
	appropriation	requirements	Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
8. Office of the Special Envoy of the Secretary-General for the Great Lakes Region	5 737.9	4 984.1	(753.8)	(13.1)	The decrease in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to the vacancy rates of 18.2 per cent and 91.7 per cent applied to the estimates for international and National Professional Officer positions, respectively, compared with the budgeted vacancy rates of 5 per cent and zero per cent in 2023, as well as decreased requirements for other supplies, services and equipment, facilities and infrastructure, and communications and information technology.
9. Office of the Special Envoy of the Secretary-General for Yemen	17 051.3	16 708.3	(343.0)	(2.0)	The decrease in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to reduced requirements for civilian personnel resulting from the application of vacancy rates of 21.3 per cent, 33.4 per cent and 17.5 per cent for international, National Professional Officer and Local level positions, respectively, compared with the budgeted rate of 15 per cent for international and national staff positions in 2023. The decreased requirements are offset in part by increased requirements for operational costs, due to increases in: (a) rental of premises and related operating costs for the additional office space in Amman as a result of increased staff engagement for an enhanced level of consultations with stakeholders requiring more meetings and conference space; (b) petrol, oil and lubricants for facilities and infrastructure and ground transportation; (c) security services for unarmed security guards; and (d) construction, alteration, renovation and major maintenance for enhanced security and electrical projects.
10. Office of the Special Envoy of the Secretary-General on Myanmar	1 408.6	1 380.3	(28.3)	(2.0)	The decrease in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to decreased requirements for civilian personnel costs due to lower common staff costs and the application of a vacancy rate of 41.7 per cent compared with the budgeted rate of zero per cent in 2023 for Local level positions. The decreased requirements are partly offset by the change in the vacancy rate from 5 per cent in 2023 to zero per cent in 2024 for international staff.
Subtotal, cluster I	49 604.0	47 873.3	(1 730.7)	(3.5)	
Cluster II					
11. Group of Experts on the Democratic Republic of the Congo	1 524.2	1 556.7	32.5	2.1	The increased requirements for 2024 are attributable primarily to higher requirements under civilian personnel costs owing to the application of a vacancy rate of zero per cent compared with the rate of 5 per cent applied in 2023, the application of updated, higher salary rates and higher requirements for experts' fees owing to a change in the composition of the Panel, partially offset by a lower percentage of common staff costs based on recent expenditure patterns.
12. Panel of Experts on the Sudan	1 120.4	1 151.5	31.1	2.8	The increased requirements for 2024 are attributable to higher requirements in staff costs resulting from the application of a vacancy rate of zero per cent compared with the rate of 5 per cent applied in 2023, updated higher salary rates and the application of a higher percentage of common staff costs based on expenditure patterns, partially offset by lower requirements for experts' fees owing to a change in the composition of the Panel.
13. Panel of Experts on the Democratic People's Republic of Korea	3 110.6	3 407.9	297.3	9.6	The increased requirements for 2024 are attributable primarily to higher requirements under staff costs resulting from the application of a vacancy rate of zero per cent compared with the budgeted rate of 5 per cent applied in 2023, updated higher salary rates and higher requirements for experts' fees due to changes in the composition of the Panel and a higher rate of cost-of-living allowance, offset in part by a lower provision for rental of premises for staff members based at United Nations Headquarters in New York due to the application of a revised lower standard rate compared with the rate applied in 2023.

Mission	2023	2024	Variance		Main contributing factors
	appropriation	requirements	Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
14. Panel of Experts on Libya	1 410.4	1 456.2	45.8	3.2	The increased requirements for 2024 are attributable to higher requirements under civilian personnel costs resulting from the application of a vacancy rate of zero per cent compared with the rate of 5 per cent applied in 2023, the application of a higher percentage of common staff costs based on expenditure patterns and updated higher salary rates. The overall increase is offset in part by lower requirements for experts' fees owing to a change in the composition of the Panel.
15. Panel of Experts on the Central African Republic	1 193.2	1 281.6	88.4	7.4	The increased requirements for 2024 are attributable primarily to higher requirements under civilian personnel costs, resulting from the application of a lower vacancy rate of 4.2 per cent compared with the rate of 5.0 per cent applied in 2023, the application of a higher percentage of common staff costs based on recent expenditure patterns and updated higher salary rates, as well as increased requirements for experts' fees resulting from a change in the composition of the Panel and higher requirements for official travel attributable to trips to be undertaken for benchmark assessment missions mandated by the Security Council.
16. Panel of Experts on Yemen	2 210.0	2 307.7	97.7	4.4	The increased requirements for 2024 are attributable primarily to higher requirements under civilian personnel costs, resulting from the application of a higher percentage of common staff costs for international staff positions based on recent expenditure patterns, updated higher salary rates and higher rates of danger pay for national staff, as well as higher requirements for experts' fees resulting from a change in the composition of the Panel and higher requirements for official travel attributable to the cost of mandatory training for close protection officers based on expenditure patterns. The overall increase is offset in part by the application of a higher vacancy rate of 8.4 per cent for international staff compared with the 5 per cent applied in 2023, the lower percentage of common staff costs for national staff, the lower cost for the rental of office space and accommodation in Sana'a and the related lower cost of security services.
17. Panel of Experts on South Sudan	1 257.6	1 246.0	(11.6)	(0.9)	The decreased requirements proposed for 2024 are attributable primarily to lower requirements under civilian personnel costs, resulting from the higher vacancy rate of 30.5 per cent applied in 2024 compared with 5 per cent applied in 2023, partially offset by increased requirements for experts' fees resulting from a change in the composition of the Panel and increased requirements under official travel of staff due to one additional trip for a benchmark assessment mission mandated by the Security Council.
18. Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning ISIL (Da'esh), Al-Qaida and the Taliban and associated individuals and entities	5 854.9	6 516.9	662.0	11.3	The increased requirements for 2024 are attributable to higher requirements under civilian personnel costs resulting from the application of a lower vacancy rate of 1.3 per cent compared with the rate of 10 per cent applied in 2023 and updated higher salary rates, as well as higher requirements for experts' fees owing to changes in the composition of the Panel and a higher rate for the cost-of-living allowance effective 1 March 2023, offset in part by the lower provision for rental of premises for staff members based at United Nations Headquarters in New York due to the application of a revised lower standard rate compared with the rate applied in 2023.
19. Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)	617.3	711.1	93.8	15.2	The increased requirements for 2024 are primarily attributable to: (a) increased requirements under civilian personnel costs resulting from the application of a higher percentage of common staff costs, based on recent expenditure patterns, the assumption of full incumbency compared with a 5 per cent vacancy rate applied in 2023 and updated higher salary rates; (b) higher requirements for the Ombudsperson owing to higher rate of cost-of-living allowance effective 1 March 2023; (c) higher requirements under staff travel to accommodate the need for travel of

Mission	2023 appropriation	2024 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
					interpreters from the United Nations Office at Geneva to conduct confidential and high-quality interpretation for delisting petitioners; and (d) higher requirements for translation and interpretation services. The overall increase in requirements is partly offset by lower requirements for public information and publication services and a lower provision for rental of premises.
20. Implementation of Security Council resolution 2231 (2015)	1 533.5	1 190.4	(343.1)	(22.4)	The decreased requirements proposed for 2024 are attributable mainly to reduced requirements under civilian personnel costs, resulting from the proposed abolishment of two positions, and reduced requirements under operational costs, resulting from lower provisions for the rental of premises, staff travel and information technology services in connection with the proposed abolishment of two positions. The overall reduced requirements are partially offset by the application of a vacancy rate of zero per cent for the continuing positions, compared with 5 per cent applied in 2023, and the application of the updated salary scale.
21. Panel of Experts on Mali	1 148.6	1 160.1	11.5	1.0	The increased requirements for 2024 are attributable mainly to higher requirements under civilian personnel costs, resulting from the application of a higher percentage of common staff costs based on recent expenditure patterns, updated higher salary rates and the application of a vacancy rate of zero per cent compared with 5 per cent applied in 2023, partially offset by reduced requirements under experts' fees resulting from a change in the composition of the Panel.
22. Panel of Experts on Somalia	1 839.4	1 979.2	139.8	7.6	The increased requirements for 2024 are attributable primarily to higher requirements for international staff resulting from the application of a vacancy rate of zero per cent compared with 5 per cent applied in 2023, updated higher salary rates and common staff costs for national and international staff, higher requirements for experts owing to a higher rate of cost-of-living allowance effective 1 March 2023 and an increased requirement for travel of staff for a benchmark assessment mission mandated by the Security Council.
23. Panel of Experts on Haiti	1 405.7	1 548.5	142.8	10.2	The increased requirements for 2024 are attributable primarily to the application of a lower vacancy rate of 25 per cent compared with 50 per cent applied in 2023, updated higher salary rates and the increased requirements for experts' fees based on actual cost, partly offset by the lower requirements for communications and information technology equipment and a lower provision for rental of premises reflecting the application of the updated standard rate.
24. Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction	3 135.5	3 473.6	338.1	10.8	The increased requirements for 2024 are attributable mainly to: (a) higher requirements under civilian personnel costs, resulting from the establishment of two new positions, the application of updated higher salary rates and a higher percentage of common staff costs based on recent expenditure patterns, offset in part by the application of a higher vacancy rate of 6.7 per cent compared with 5 per cent applied in 2023; (b) increased requirements under experts' fees resulting from a change in the Committee's composition, as well as a higher rate of cost-of-living allowance effective 1 March 2023; and (c) additional requirements for rental of premises with respect to the proposed establishment of two positions. The overall increased requirements were partially offset by lower requirements for maintenance of communications and information technology equipment and support services.

Mission	2023		2024		Variance		Main contributing factors
	appropriation	requirements	Amount	Percentage	(3)=(2)-(1)	(4)=(3)/(1)	
	(1)	(2)	(3)	(4)	(5)	(6)	
25. Counter-Terrorism Committee Executive Directorate	11 424.8	11 788.1	363.3	3.2			The increased requirements for 2024 are attributable primarily to higher requirements under civilian personnel costs due to updated higher salary rates and the proposed establishment of a new position, partly offset by reductions due to the application of a higher vacancy rate of 13.4 per cent compared with 5 per cent applied in 2023. For operational costs, the proposed resources reflect increased requirements for official travel to bring the resource back to a sustainable level for the Directorate to fulfil its mandate effectively, including through its assessment visits conducted on behalf of the Counter-Terrorism Committee, and increases for communications and information technology equipment related to the proposed new post, offset by a reduction under facilities and infrastructure due to the application of the latest lower standard rate for rental of premises.
26. UNITAD	25 283.8	25 694.9	411.1	1.6			The increased requirements for 2024 are attributable mainly to: (a) additional requirements under civilian personnel costs owing to the application of lower vacancy rates for all categories of civilian personnel except United Nations Volunteers and government-provided personnel, updated salary rates for national staff and the proposed establishment of three Local level positions; (b) higher requirements under ground transportation with respect to the planned acquisition of five vehicles to replace ones that have exceeded their life expectancy and the higher cost of fuel; (c) higher requirements under communications and information technology due to proposed acquisitions to replace computers and personal communication devices that will reach their useful life by the end of 2023 and higher requirements for software, licences and fees; and (d) increased requirements for individual contractors attributable to a higher number of individual contractors due to increased transportation and heavy workload in the regions, as well as an increase in standard rates for individual contractors. The increased requirements are offset in part by reduced requirements attributable primarily to: (a) lower requirements for mission subsistence allowance for government-provided personnel; (b) lower requirements for consultants and consulting services due to the increased in-house capacity resulting from recent recruitments; (c) absence of provisions for construction of overhead protection for prefabricated offices and the installation of solar panels budgeted in 2023, as well as a lower cost for rental of premises due to revised cost-sharing arrangements; and (d) reduced requirements for medical supplies owing to the existing stock level of drugs and consumables.
Subtotal, cluster II	64 069.9	66 470.4	2 400.5	3.7			
Cluster III							
27. UNOWAS	14 835.2	15 347.8	512.6	3.5			The increase in requirements for 2024 compared with the appropriation for 2023 is attributable to: (a) an increased requirement under international staff resulting mainly from the application of the latest salary scales and the lower vacancy rate of 11.4 per cent compared to 16 per cent approved in 2023, offset in part by the decrease in national staff costs (National Professional Officer and Local level) resulting from the application of the latest salary scales and common staff costs; (b) the additional requirement under consultants and consulting services due to consultancy work to develop an integrated planning and resource mobilization strategy; (c) official travel attributable to public information activities to promote the mandate and activities of UNOWAS and to support the Special Representative of the Secretary-General's good offices and election-related activities in the subregion; (d) communications and information technology for the acquisition of software, licences and fees; and (e) other supplies, services and equipment for individual contractors to

28. UNSOM	96 571.3	101 275.6	4 704.3	4.9	cover the CarLog system. The increase is partially offset by decreased requirements under facilities and infrastructure due to lower costs for utilities, maintenance and security services in the new United Nations House in Dakar based on latest estimates, and decreased requirements under air operations due to lower fuel costs for aircraft and lower aircrew subsistence allowance. The increase in requirements for 2024 compared with the appropriation for 2023 is attributable primarily to: (a) an increase under military contingents due to the application of the latest single rate of reimbursement to countries contributing contingent personnel and other allowances, as approved by the General Assembly in its resolutions 76/274 and 76/276; (b) an increase under civilian personnel costs due to the application of a lower vacancy rate of 13.9 per cent for international positions compared with 15 per cent in 2023, a lower vacancy rate of 11.5 per cent for National Professional Officer positions compared with 15 per cent in 2023 and a lower vacancy rate of 20.0 per cent for Local level positions compared with 22.0 per cent in 2023; and (c) an increase under operational costs due to increased requirements for facilities and infrastructure related mainly to the ongoing construction of the field office in Dhusamareb.
29. United Nations Regional Centre for Preventive Diplomacy for Central Asia	3 292.7	3 233.2	(59.5)	(1.8)	The decrease in requirements for 2024 compared with the appropriation for 2023 is attributable primarily to the application of a lower percentage for common staff costs for international positions of 46.2 per cent compared with 55.5 per cent applied in 2023 and to the application of a higher vacancy rate of 12.5 per cent for international staff positions compared with 5 per cent in 2023. The decrease is partially offset by an increase in operational costs due mainly to higher requirements for individual contractors to improve information management through digitization and software, licences and fees.
30. United Nations support for the Cameroon-Nigeria Mixed Commission	3 781.3	3 821.7	40.4	1.1	The increase in requirements for 2024 compared with the appropriation for 2023 is attributable mainly to higher requirements under: (a) communications and information technology, related to the replacement of obsolete equipment; (b) other supplies, services and equipment, related to contribution costs towards the United Nations House in Dakar at full capacity; and (c) official travel due to provision of support for the final mapping and pillar emplacement activities, combined with joint technical missions to Yaoundé. The increase is partly offset by decreases in: (a) facilities and infrastructure, due to reduced costs for utilities and maintenance services that are factored into the contribution towards the United Nations House; and (b) civilian personnel costs, owing to a decrease in the post adjustment multiplier for Senegal and the application of lower percentages of common staff costs for international and national staff, based on 2022 expenditure patterns.
31. Office of the United Nations Special Coordinator for Lebanon	10 183.1	11 308.9	1 125.8	11.1	The increase in requirements for 2024 compared with the appropriation for 2023 is attributable to the increased requirements under civilian personnel costs, resulting from the increase of the post adjustment multiplier in Lebanon and the application of the latest national staff salary scales promulgated in October 2022. The increase is partially offset by the decrease in operational costs under other supplies, services and equipment due to lower requirements for other freight and related costs and medical services due to adequate stock acquired in the previous period.

Mission	2023 appropriation	2024 requirements	Variance		Main contributing factors
			Amount (3)=(2)-(1)	Percentage (4)=(3)/(1)	
	(1)	(2)	(3)	(4)	
32. UNOCA	9 074.1	8 410.5	(663.6)	(7.3)	The decrease in requirements for 2024 compared with the appropriation for 2023 is attributable mainly to decreased requirements for international staff and National Professional Officers due to: (a) the application of higher vacancy rates of 18.2 per cent and 25.0 per cent, based on vacancy rates in March 2023, compared with the rates applied in the 2023 budget; and (b) lower requirements for communications and information technology due a lower volume of acquisition of equipment, offset by higher requirements for other supplies, services and equipment, related to the contribution to common services for compound management and security in Gabon.
33. UNSMIL	88 046.5	87 903.7	(142.8)	(0.2)	The decrease in requirements for 2024 compared with the appropriation for 2023 is attributable mainly to decreased requirements under operational costs comprising: (a) a decreased requirement under facilities and infrastructure due to the reduction in the provision for major construction projects that are expected to be completed in 2023; (b) a decreased requirement under air operations due to lower fleet costs for the fixed-wing aircraft based on the actual contractual agreement; and (c) a reduced requirement for communications and information equipment following the acquisitions in previous periods. The decrease is partially offset by increased requirements in civilian staff costs due to the updated salary scales and the application of a lower budgeted vacancy rate of 29.6 per cent for international staff compared with 32.9 per cent applied in the 2023 budget.
34. United Nations Verification Mission in Colombia	67 244.3	66 971.7	(272.6)	(0.4)	The decrease in requirements for 2024 compared with the appropriation for 2023 is attributable mainly to: (a) lower requirements for international staff, National Professional Officers, United Nations Volunteers and Military Observers due to the application of higher vacancy rates in 2024 compared with those applied in the approved 2023 budget; and (b) lower requirements for meeting facilitation services. The decrease is partially offset by: (a) the proposed establishment of 14 new posts to implement the expanded mandate; (b) higher costs for Local level staff due to the application of a higher percentage for common staff costs of 30 per cent compared with the rate applied in the 2023 budget; (c) a higher requirement for air operations, reflecting the latest contractual prices for helicopters; (d) a higher requirement for facilities and infrastructure, reflecting the latest contractual prices for rental of premises and security services; and (e) higher requirements for official travel related to the implementation of the expanded mandate.
35. UNMHA	36 071.6	34 766.2	(1 305.4)	(3.6)	The decrease in requirements for 2024 compared with the appropriation for 2023 is attributable mainly to: (a) a reduced requirement for medical services provided by the contracted surgical and aeromedical evacuation teams; (b) lower requirements for United Nations monitors due to the application of a higher vacancy rate of 88.0 per cent compared with the rate of 25.0 per cent applied in 2023; and (c) reduced requirements under other supplies, services and equipment due to a lower provision for redeployment coordination committee and bilateral meetings. The reduced requirements are offset in part by: (a) the proposed establishment of three new positions (1 P-3, 1 National Professional Officer and 1 Field Service); (b) higher requirements for international staff attributable mainly to the updated higher salary scales and an increase in common staff costs based on actual expenditure patterns in 2022; (c) an increased requirement for the rental and operation for one rotary-wing aircraft based on higher fleet costs and cost per flight hour; (d) an increased requirement for quick-impact projects to engage communities on both sides of the conflict; and (e) operational and security services for one additional land-based premises in the city of Hudaydah and one additional sub-office in southern districts of Hudaydah Governorate.

Mission	2023 appropriation	2024 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
36. BINUH	27 902.1	29 975.1	2 073.0	7.4	The increase in requirements for 2024 compared with the appropriation for 2023 is attributable mainly to increased requirements under civilian staff costs, as follows: (a) the provision of danger pay, which was approved in October 2022 and not provided for in the 2023 budget; (b) the reduction of the rest and recuperation cycle from 8 to 6 weeks resulting in additional payments; (c) increased international staff salaries and common staff costs; and (d) the establishment of seven positions, including three international staff and four international United Nations Volunteers. The increase is offset in part by: (a) the application of a higher vacancy rate of 15.4 per cent applied to United Nations police personnel compared with the assumption of full deployment in 2023; (b) a decreased requirement under communications and information technology due to adequate stock acquired in the previous period; and (c) a reduced requirement for outsourced expertise and temporary duty assignment due to the establishment of positions to perform the required functions.
37. UNITAMS	66 128.0	64 897.5	(1 230.5)	(1.9)	The decrease in requirements for 2024 compared with the appropriation for 2023 is attributable to the decreased requirements under civilian personnel costs, resulting from the application of a lower percentage for common staff costs of 66.8 per cent as compared with 77.7 per cent applied in the 2023 budget and the application of a higher vacancy rate of 43.8 per cent for National Professional Officer positions in 2024 compared with 30.0 per cent applied in 2023. The decrease is partially offset by higher requirements under military and police personnel costs due the application of a lower vacancy rate of 10.7 per cent for military observers compared with 40.0 per cent applied in the 2023 budget, coupled with the application of the latest standard mission subsistence allowance rates, which are higher than those applied in the 2023 budget.
Subtotal, cluster III	423 130.2	427 911.9	4 781.7	1.1	
UNAMA and UNAMI					
38. UNAMA	132 479.2	132 479.4	0.2		– The proposed resources for 2024 are at a maintenance level compared with the appropriation for 2023. This reflects the net result of: (a) a decrease of \$1.1 million under civilian personnel costs due to the application of higher vacancy rates for all personnel categories, based on actual vacancy rates; and (b) an increase of \$1.1 million under operational costs due to: (i) an increase under other supplies, services and equipment due to higher requirements for fees for the shipment of cash into Afghanistan and the anticipated increased utilization of internal flights within Afghanistan through the United Nations Humanitarian Air Service; (ii) an increase under air operations due mainly to the higher rental and operational costs in connection with the scheduled replacement of a fixed-wing aircraft, based on global market prices, as well as an increased requirement under fuel due to a higher average unit price; and (iii) an increase under communications and information technology due to a higher requirement for public information services related to the political and local peace initiatives outreach, higher requirements for maintenance of communications and information technology equipment and support services, as well as replacement of critical information equipment. The increase under operational costs is partially offset by a decrease under facilities and infrastructure attributable to lower requirements for rental of premises, security services and construction, alteration and renovation associated with the anticipated costs for the new office location resulting from the closure of the Alpha Compound.

Mission	2023 appropriation	2024 requirements	Variance		Main contributing factors
			Amount	Percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
39. UNAMI	96 910.6	98 462.4	1 551.8	1.6	The increase is attributable to: (a) higher costs for travel on emplacement, rotation and repatriation of the United Nations Guard Unit personnel, based on the latest letter of assist, and the application of the higher rate of reimbursement for standard troop costs approved by the General Assembly; (b) increased civilian personnel costs due mainly to the application of a higher average level/step used in the computation of salaries for national staff; (c) increased requirements under air operations and ground transport due to higher fuel costs; and (d) an increase under communications and information technology due to the planned replacement of obsolete equipment. The increased requirements were partially offset by lower requirements under facilities and infrastructure owing to discontinuation of a provision for the renovation of the UNAMI building in Kuwait as it was assessed that the major cost relating to this project can be adequately covered by the resources approved in the 2023 budget.
Subtotal, UNAMA and UNAMI	229 389.8	230 941.8	1 552.0	0.7	
Provision for the share of special political missions for the Regional Service Centre in Entebbe	2 141.1	2 128.8	(12.3)	(0.6)	The decrease is mainly attributable to the decrease of the share of special political missions in the cost of the Centre, from 5.10 per cent in the 2022/23 period to 4.94 in the 2023/24 period, partly offset by an increase in the proposed budget for the Centre in the amount of \$0.6 million or 1.5 per cent compared with the approved budget of the Centre for the 2022/23 period.

C. Human resources

134. The number of civilian personnel proposed for 2024, including international and national staff, United National Volunteers and general temporary assistance positions, reflects an overall increase of 35 positions, from 4,648 to 4,683. Details of the human resources requirements by cluster, by mission and by category of personnel are presented in tables 7 to 10.

Table 7

Note: Civilian staff in special political missions are reflected as posts. In resolution 77/278, the General Assembly decided to widen the number of posts subject to the system of desirable ranges to include those in the special political missions. For United Nations Volunteers, the term used is positions, not posts, in accordance with standard practice. General temporary assistance positions are those approved by the Assembly explicitly as general temporary assistance (separate from posts) for limited durations, whose continuation in the subsequent budget period would require justification in the budget report for the consideration of the legislative bodies. In contexts where both posts and positions are being referred to as a whole, or when the reference to posts or positions could change intermittently between the two terms, the more generic term “positions” is used for the sake of simplicity in the present report and the budget reports for the thematic clusters (A/78/6 (Sect.3)/Add.2, A/78/6 (Sect.3)/Add.3, A/78/6 (Sect.3)/Add.4, A/78/6 (Sect.3)/Add.5 and A/78/6 (Sect.3)/Add.6).

Note: As no changes are proposed for 2024, table 9 presents both the 2023 approved and the 2024 proposed numbers and levels of positions and other personnel.

^a The P-4 and P-2 positions were approved as general temporary assistance by the General Assembly in resolution 77/263 A, section V, on the recommendations of the Advisory Committee on Administrative and Budgetary Questions (A/77/7/Add.2, paras. 10 and 11).

^b The P-4 position was approved as general temporary assistance by the Assembly in resolution 77/263 A, section V, on the recommendation of the Advisory Committee (A/77/7/Add.3, para. 10).

^c The Local level position was approved as general temporary assistance by the Assembly in resolution 73/279 A, section XIV, para. 28.

^d The D-1 position was approved as general temporary assistance by the Assembly in resolution 76/246 A, section X, on the recommendation of the Advisory Committee (A/76/7/Add.1, para. 29). The P-4 position was approved as general temporary assistance by the Assembly in resolution 77/263 A, section V, on the recommendation of the Advisory Committee (A/77/7/Add.4, para. 13).

^e The P-5 position was approved as general temporary assistance by the Assembly in resolution 76/246 A, section X, on the recommendation of the Advisory Committee (A/76/7/Add.1, para. 29).

^f The P-4 position was approved as general temporary assistance by the Assembly in resolution 76/246 A, section X, on the recommendation of the Advisory Committee (A/76/7/Add.1, para. 29). The P-3 position was approved as general temporary assistance by the Assembly in resolution 74/263, section XVIII, on the recommendation of the Advisory Committee (A/74/7/Add.23, para. 22).

^g The D-1 position was approved as general temporary assistance by the Assembly in resolution 74/263, section XVIII, para. 28. The P-5, P-4 and General Service (Other level) positions were approved as general temporary assistance by the Assembly in resolution 74/263, section XVIII, on the recommendation of the Advisory Committee (A/74/7/Add.24, para. 30).

^h The P-5 position was approved as general temporary assistance by the Assembly in resolution 77/263 A, section V, on the recommendation of the Advisory Committee (A/77/7/Add.4, para. 44). The P-4 position was approved as general temporary assistance by the Assembly in resolution 76/246 A, section X, on the recommendation of the Advisory Committee (A/76/7/Add.1, para. 29).

ⁱ The P-5 position was approved as general temporary assistance by the Assembly in resolution 77/4, on the recommendation of the Advisory Committee (A/76/7/Add.41, para. 21). The P-4 position was approved as general temporary assistance by the Assembly in resolution 77/263 A, section V, on the recommendation of the Advisory Committee (A/77/7/Add.5, para. 18).

Note: Posts indicated in table 10 are those funded or projected to be funded from extrabudgetary resources in the current and forthcoming year, based on the latest information available and projections made at the time of reporting. In keeping with established practice, the table does not include extrabudgetary general temporary assistant positions, positions that are billed to a third party or project posts that are not expected to be funded continuously for more than one year.

Annex I

Summary of follow-up action taken to implement decisions and requests made by the General Assembly, including the requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

Brief description of the recommendation or request

Action taken to implement the recommendation or request

Advisory Committee on Administrative and Budgetary Questions (A/77/7/Add.1), as endorsed by the General Assembly in its resolution 77/263 A

The Advisory Committee reiterates that vacant positions should be filled expeditiously and trusts that updated information on the recruitment status of all vacant positions will be provided to the General Assembly during the consideration of the present report and related reports on special political missions, as well as in the next budget submission (para. 29).

Information on the status of recruitment of long-vacant positions is presented in annex I of the supplementary information for each thematic cluster.

Missions continue to make efforts to fill vacant positions by implementing a broad range of measures to ensure timely recruitment and onboarding, while following a strategic workforce planning process for identifying staffing needs and ensuring staffing with the appropriate set of skills to meet organizational goals and objectives. Missions have also strived to improve gender parity and the geographical representation and ethnic diversity of the countries of operation in their recruitment, which on some occasions has called for additional outreach efforts and re-advertising of vacancies.

For instance, the United Nations Verification Mission in Colombia recruitment team within the Human Resources Unit has been reinforced to cope with the high volume of ongoing recruitment. These efforts are reflected in the reduced vacancy rates for civilian positions.

The United Nations Mission to Support the Hudaydah Agreement conducted a recruitment campaign throughout 2022 with a total of 69 recruitment exercises, significantly lowering its vacancy rates.

The United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant has developed a robust outreach plan aimed specifically at expanding the range of prospective candidates, including a targeted advertising strategy and diversified outreach for its job openings.

The United Nations Assistance Mission in Afghanistan (UNAMA) continues to make every effort to reduce recruitment lead time through rigorous follow-up with hiring managers. In addition, female national United Nations Volunteers and other female national applicants are actively encouraged to apply for vacant positions and are sent details of positions as they become vacant.

Brief description of the recommendation or request

Action taken to implement the recommendation or request

The Advisory Committee emphasizes that the granting of special post allowance is intended as an exceptional and temporary measure and that the related staff rules and policies should be strictly adhered to by the missions (para. 32).

The Advisory Committee reiterates its view that, in applying lessons learned from the coronavirus disease (COVID-19) pandemic, travel for workshops, conferences or meetings should be kept to a minimum and more use should be made of virtual meetings and online training tools (para. 37).

One of the recruitment challenges faced by missions is the volatility of the security and operational environments in which many special political missions operate. For example, the United Nations Integrated Office in Haiti (BINUH) experienced a high turnover of national staff (47 per cent during the past three years), owing mainly to the deteriorating security situation across the country. Some missions faced challenges with delays in the issuance of visas to finalize onboarding of internationally recruited staff. National staff recruitment challenges include the unavailability of applicants with suitable profiles, mainly in regions away from the capitals, where additional outreach activities are needed.

The Secretariat has ensured that the granting of special post allowances to fill vacancies is employed only as an exceptional and temporary measure and that the related staff rules and policies are strictly adhered to by the missions. Information on the status of recruitment of positions encumbered through a special post allowance for one year or more is presented in annex II of the supplementary information for each thematic cluster.

Reflecting the importance of continuous improvement and responding to evolving operational needs, missions continue to mainstream lessons learned and best practices related to the adjustments to and adaptation of programmes as a result of the COVID-19 pandemic, including using digital tools for engagement with stakeholders. New and cost-effective approaches include maintaining virtual engagement with interlocutors through telecommunication, when appropriate, and benefiting from desk research, including by using United Nations-procured databases and subscriptions. Likewise, official travel of staff is undertaken only when it cannot be substituted effectively by other means of communication, including videoconferencing.

While travel for workshops and conferences has been kept to a minimum, the key lessons for the missions also include that in-person consultations with political interlocutors are necessary to contribute to achieving results. Missions note that virtual consultations cannot fully replace physical travel and in-person meetings, particularly for interaction with stakeholders in dynamic political set-ups. For instance, for the groups and panels with investigative mandates, first-hand, on-site observations by experts remain a critical methodological standard as outlined by the Informal Working Group of the Security Council on General Issues of Sanctions in its report of 2006 ([S/2006/997](#), annex).

Noting with concern the persistently low rates of compliance with the 16-day advance booking policy by the special political missions, the Advisory Committee recalls that the General Assembly, in its resolution [74/262](#), expressed concern at the low rate of compliance with the advance purchase policy directive and requested the Secretary-General to make stronger efforts to further enhance the rate of compliance with the advance purchase policy directive across all travel categories, taking into account the patterns and nature of official travel and the reasons for non-compliance by each department, office and field mission (para. 39).

The Advisory Committee trusts that an update on the procurement and operation of a new online vehicle tracking system will be provided in the next budget submissions for peacekeeping operations and special political missions (para. 46).

To improve the rates of compliance of special political missions with the policy of 16-day advance booking of tickets, missions have taken the following actions: (a) broadcasting of messages and continuous sensitization of all personnel on the mandatory requirement to submit travel requests at least 21 calendar days prior to the commencement of travel; (b) requiring the provision of justification with supporting evidence for travel requests that did not meet the mandatory deadline of 21 calendar days prior to travel; (c) following up actively with various stakeholders (such as Governments and United Nations country teams) to receive confirmation of the schedule and participant lists in meetings and conferences in a timely manner; and (d) encouraging approving officers to reduce the processing time of travel requests as much as possible. The overall average compliance rate has shown improvement over the last period, with two thirds of missions having a higher compliance rate in 2022 than in the previous year.

Full compliance with the policy also depends on external factors. Such factors encompass the frequent shifts in mission security and political environments; the necessity to respond to sudden or escalating crises; interruptions arising from distinct logistical arrangements for travel that requires special flights or escorts leading to last-minute bookings for commercial travel; last-minute requests for revisions to meeting schedules and participant lists with multiple stakeholders, such as regional Governments, intergovernmental partners and civil society organizations, outside the control of missions and often at short notice; and late notifications from the organizers of training and learning activities. In addition, during the pandemic, restriction of air travel made the availability of air tickets extremely limited and air routes highly unpredictable, with cancellations and changes being frequent, thereby limiting the ability of missions to achieve higher compliance rates, despite all the aforementioned efforts.

Vehicle tracking systems have been used by the Department of Operational Support for many years to meet security, logistical and fleet management needs. Operating in some of the most difficult and harsh environments, the reliability and accuracy of the tracking systems and their telematics can prove especially important for the success of an assignment.

Brief description of the recommendation or request

Action taken to implement the recommendation or request

Most of the existing vehicles in the United Nations-owned fleet currently have vehicle tracking hardware installed that is known as the CarLog system, which was first introduced more than 20 years ago. The original CarLog system does not provide real-time data, but transfers data to a central server only when in range of a radio frequency modem/receiver, usually located at the mission base. An updated version of CarLog offers data transfer through a global system for mobile communication.

In 2021, a collaborative procurement exercise was initiated between the World Food Programme (WFP) as the lead entity, the Office of the United Nations High Commissioner for Refugees and the Department of Operational Support to develop jointly the requirements for a tender for the provision of vehicle tracking and telematic systems and related services. The procurement exercise is currently in the final stages and is scheduled to be finalized by WFP in the second quarter of 2023. The benefit of this collaborative exercise is to have a standardized vehicle tracking system platform for the United Nations entities with the largest vehicle fleets. This will allow for better contract conditions, and also for the establishment and tracking of a global United Nations vehicle fleet.

Compared with the existing CarLog system, the new vehicle tracking system will allow for communication through both global systems for mobile communications and satellite, facilitating real-time tracking capabilities of vehicles, thereby increasing the overall reliability and oversight to further improve the safety and security of United Nations personnel and equipment. It will provide the Organization with the ability to track vehicles in real time in any area, indicating its position, direction and speed of travel. In addition, the new system will have sophisticated functionality such as remote disabling.

The replacement of the current CarLog system with the new vehicle tracking system will be gradual, starting with new vehicles and vehicles that operate in areas of high security risk.

Information in this respect is presented in paragraphs 85 to 90 of the main part of the present report.

The Advisory Committee notes the inclusion of justification, by mission, for the application of higher-than-standard ratios for information technology equipment for 2023 and trusts that such information will continue to be provided in future budget submissions. The Committee reiterates that, as requested by the General Assembly in its resolution [74/263](#), the Secretary-General should continue to ensure that actual allocations of vehicles and information technology

equipment will be regularly reviewed and aligned with the standard ratios, and that specific justification for higher allocations by missions will be provided in the context of future budget submissions (para. 49).

The Advisory Committee reiterates its expectation that consolidated information on backstopping positions at Headquarters will continue to be provided in future budget submissions. The Committee continues to believe that the existing backstopping positions at Headquarters should be reviewed annually in order to realign the capacities when changes in the mandates of the missions occur with a view to achieving more efficiency in backstopping support (para. 53).

The Advisory Committee trusts that an update on the review of mission support structure guiding principles for special political missions will be provided in the next budget submission (para. 62).

The Advisory Committee trusts that annex VI to the report of the Secretary-General will be expanded to include the information on budgeted amounts and reasons for cost-sharing in future budget submissions (para. 69).

The Advisory Committee trusts that more detailed information on the challenges encountered in cost-sharing arrangements by the special political missions and options to address those challenges will be provided in the context of the next budget submission (para. 70).

The Secretary-General reviews backstopping capacity on an annual basis during the preparation of the budget submissions. Mandate changes and the evolution of complex situations on the ground, such as in Afghanistan, Colombia, Haiti, Libya and Somalia, have rendered situations and demands more challenging, necessitating the continued availability of backstopping positions to support and assist special political missions from Headquarters in New York.

Administrative support may also differ, but consideration is given, whenever possible, to reliance on existing capacities and resources to ensure synergies and maximum efficiency. In this context, it is important to note, however, that administrative backstopping requires dedicated capacity and support. For example, the Panel of Experts on Haiti is administered along with other such panels or groups of experts from New York, even if some support and coordination is necessary from BINUH in Haiti. Other field missions also draw on a variety of other support capacities, such as on the Economic and Social Commission for Asia and the Pacific for the Special Envoy on Myanmar and the United Nations Office at Geneva for the Special Envoy for Syria and the United Nations Representative to the Geneva International Discussions.

The Department of Operational Support has been drafting a note on guiding principles for mission support structures for small missions, which would be particularly relevant for special political missions. The Department is currently consulting the missions to take into consideration feedback from the wider mission support community.

Annex VI to the present report has been expanded to include more information as requested by the Advisory Committee.

While significant progress has been made in cost-sharing arrangements over the past few years, special political missions continue to explore possibilities for cost sharing with other United Nations agencies, funds and programmes in order to benefit from synergies and economies of scale.

Brief description of the recommendation or request

Action taken to implement the recommendation or request

UNAMA continues to search for options for cost reduction in conjunction with the United Nations country team by sharing several common services and premises throughout the country. In addition, as a mission with one of the most robust civilian security presences in the country, other agencies, funds and programmes become incidental beneficiaries of certain security services by virtue of the mission's deployment, without which they could probably not be safely deployed. While significant progress has been made towards an efficient arrangement for proper cost sharing, additional work is needed.

The United Nations Integrated Transition Assistance Mission in the Sudan (UNITAMS) has also encountered challenges in cost-sharing arrangements with United Nations country team entities, mainly in the area of office co-location as the entities have insufficient capacity to allow for co-location with the Mission. In some locations, country team entities had limited space, which would not allow for expansion in the event of deployment of additional staff by either the host entity or UNITAMS. This was the case in Kassala, Zalingei and Port Sudan, where co-location arrangements served the Mission well in the start-up phase, but on deployment of additional personnel UNITAMS would have to explore other options.

Missions are also addressing these challenges with different initiatives, such as by the United Nations Assistance Mission for Iraq, which continues to use oversight mechanisms employed by the Secretariat to ensure that cost-sharing arrangements and overall resources are utilized in accordance with the purpose of such revenue. Some of those oversight mechanisms include an annual review of the rates charged to the United Nations country team entities to ensure that they are in line with expected expenditure. Monthly expenditure reports are also prepared for management to support informed decision-making to address existing challenges in a timely and efficient manner. Similarly, UNAMA uses mechanisms such as the committees on common services and joint medical services of the United Nations Operations Centre in Afghanistan to ensure that cost-recovery resources are utilized in accordance with the purposes of such revenue.

The Advisory Committee acknowledges the latest improvements to the presentation of the budget proposals of special political missions, including the information on strategic workforce planning by missions, and trusts that such efforts will continue in future budget submissions (para. 74).

The Secretariat has continued to make efforts to enhance the clarity of the budget reports of special political missions. Improvements made in the present report include expanded and more detailed tables 7 and 8 on changes in posts and positions; an additional table 9 on general temporary assistance positions and

Brief description of the recommendation or request

Action taken to implement the recommendation or request

other personnel; an additional table 10 on posts funded from extrabudgetary resources; an improved annex IV providing a breakdown of extrabudgetary resources into voluntary contributions and cost-recovery revenue; and additional annexes VII and VIII on cost-recovery revenue and projected expenditures.

Furthermore, information on strategic workforce planning continues to be presented in annex III to the supplementary information for each thematic cluster to capture progress made by the special political missions in improving workforce composition, nationalization, rejuvenation and digital transformation. An additional annex IV has also been added to the supplementary information for each thematic cluster to provide analysis of prior year budget performance and explanation of variances for each mission.

Advisory Committee on Administrative and Budgetary Questions (A/75/7/Add.8), as endorsed by the General Assembly in its resolution 75/253 A

The Advisory Committee recommends that the General Assembly request the Secretary-General to include systematically in the context of future proposed programme budgets, a detailed breakdown, with the status of incumbency, of all positions at the D-1 and higher levels funded through extrabudgetary resources, including those authorized by the Committee and those established by the Secretary-General (para. 15).

There are currently no positions at the D-1 and higher levels funded from the extrabudgetary resources of special political missions (see table 10 of the main report).

Annex II

Lead department and mandates of special political missions

<i>Mission</i>	<i>Lead</i>	<i>Latest mandates</i>	<i>Mandate expiry date</i>
Cluster I: special and personal envoys, advisers and representatives of the Secretary-General			
1. Office of the Special Adviser to the Secretary-General on Cyprus	DPPA	Security Council resolutions 186 (1964), 367 (1975), 1250 (1999), 1475 (2003), 1758 (2007) and 2674 (2023)	Open-ended
2. Office of the Special Adviser to the Secretary-General on the Prevention of Genocide		Security Council resolution 1366 (2001); S/2004/567 and S/2004/568	Open-ended
3. Personal Envoy of the Secretary-General for Western Sahara	DPPA	S/1997/236, S/2005/497, S/2005/498, S/2009/19, S/2009/20, S/2017/462 and S/2017/463; Security Council resolutions 1813 (2008), 2099 (2013) and 2468 (2019)	Open-ended
4. Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)	DPPA	Security Council resolution 1559 (2004); S/PRST/2006/3	Open-ended
5. United Nations Representative to the Geneva International Discussions	DPPA	S/2009/254, S/2010/103, S/2011/279, S/2018/665 and S/2018/666	Open-ended
6. Office of the Special Envoy of the Secretary-General for Syria	DPPA	General Assembly resolution 66/253; Security Council resolutions 2118 (2013), 2254 (2015), 2268 (2016) and 2336 (2016)	Open-ended
7. Office of the Special Envoy of the Secretary-General for the Horn of Africa	DPPA	S/2011/474, S/2011/475, S/2016/258, S/2016/259; S/2018/955 and S/2018/979	Open-ended
8. Office of the Special Envoy of the Secretary-General for the Great Lakes Region	DPPA	Security Council resolutions 2098 (2013), 2147 (2014), 2211 (2015), 2277 (2016), 2348 (2017), 2409 (2018), 2502 (2019) and 2556 (2020)	Open-ended
9. Office of the Special Envoy of the Secretary-General for Yemen	DPPA	S/2016/488 and S/2016/489; Security Council resolutions 2216 (2015), 2266 (2016), 2342 (2017), 2402 (2018), 2451 (2018), 2452 (2019), 2456 (2019) and 2505 (2020)	Open-ended
10. Office of the Special Envoy of the Secretary-General on Myanmar	DPPA	General Assembly resolutions 72/248 and 76/180	

<i>Mission</i>	<i>Lead</i>	<i>Latest mandates</i>	<i>Mandate expiry date</i>
Cluster II: sanctions monitoring teams, groups and panels, and other entities and mechanisms			
11. Group of Experts on the Democratic Republic of the Congo	DPPA	Security Council resolution 2641 (2022)	1 August 2023
12. Panel of Experts on the Sudan	DPPA	Security Council resolution 2676 (2023)	12 March 2024
13. Panel of Experts on the Democratic People's Republic of Korea	DPPA	Security Council resolution 2680 (2023)	30 April 2024
14. Panel of Experts on Libya	DPPA	Security Council resolution 2644 (2022)	15 November 2023
15. Panel of Experts on the Central African Republic	DPPA	Security Council resolution 2648 (2022)	31 August 2023
16. Panel of Experts on Yemen	DPPA	Security Council resolution 2675 (2023)	15 December 2023
17. Panel of Experts on South Sudan	DPPA	Security Council resolution 2633 (2022)	1 July 2023
18. Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and the Taliban and associated individuals and entities	DPPA	Security Council resolutions 2610 (2021) and 2665 (2022)	17 June 2024 and 17 December 2023
19. Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)	DPPA	Security Council resolution 2610 (2021)	17 June 2024
20. Implementation of Security Council resolution 2231 (2015)	DPPA	Security Council resolution 2231 (2015)	18 October 2025
21. Panel of Experts on Mali	DPPA	Security Council resolution 2649 (2022)	30 September 2023
22. Panel of Experts on Somalia	DPPA	Security Council resolutions 2662 (2022)	15 December 2023
23. Panel of Experts on Haiti	DPPA	Security Council resolution 2653 (2022)	21 November 2023
24. Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction	ODA	Security Council resolutions 1673 (2006) , 1810 (2008) , 1977 (2011) , 2055 (2012) , 2325 (2016) and 2663 (2022)	30 November 2032
25. Counter-Terrorism Committee Executive Directorate	CTED	Security Council resolution 2617 (2021)	31 December 2025

<i>Mission</i>	<i>Lead</i>	<i>Latest mandates</i>	<i>Mandate expiry date</i>
26. United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant		Security Council resolution 2651 (2022)	17 September 2023
Cluster III: regional offices, offices in support of political processes and other missions			
27. United Nations Office for West Africa and the Sahel	DPPA	S/2016/88 , S/2016/89 , S/2016/1128 and S/2016/1129 ; Security Council resolution 2349 (2017) ; S/2023/70 and S/2023/71	31 January 2026
28. United Nations Assistance Mission in Somalia	DPPA	Security Council resolutions 2102 (2013) , 2592 (2021) and 2657 (2022)	31 October 2023

Notes:

- (a) The numbers in this table reflect the projected expenditures for the respective period.
- (b) The explanation for the variance between 2024 and 2023 projected extrabudgetary expenditures of each mission is provided in the proposed programme budget reports for the respective thematic clusters ([A/78/6 \(Sect.3\)/Add.2](#), [A/78/6 \(Sect.3\)/Add.3](#), [A/78/6 \(Sect.3\)/Add.4](#), [A/78/6 \(Sect.3\)/Add.5](#) and [A/78/6 \(Sect.3\)/Add.6](#)).
- (c) Given the uncertainties and difficulties in making projections for 2024 expenditures, some missions have used their 2023 projected expenditure as an indicator for 2024 where no better estimation could be made at time of preparing the present report.

Annex V

Support for special political missions provided free of charge by host countries in 2023 and 2024

(Thousands of United States dollars)

<i>Mission</i>	<i>Contributor</i>	<i>Description of contribution</i>	<i>Approximate annual value</i>
Cluster I			
Office of the Special Envoy of the Secretary-General for Yemen	Government of Jordan	Landing rights, airport fees and embarkation/disembarkation fees	3.2
	Government of Djibouti	Landing rights, airport fees and embarkation/disembarkation fees	0.8
	Government of Oman	Landing rights, airport fees and embarkation/disembarkation fees	1.2
	Government of Saudi Arabia	Landing rights, airport fees and embarkation/disembarkation fees	0.9
	Government of Jordan	Vehicle registration fees	0.1
	Government of Yemen	Vehicle registration fees	0.1
Cluster II			
United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant	Government of Iraq	Buildings and infrastructure	211.1
		Landing rights at airports and airport fees	2.8
Cluster III			
United Nations Office for West Africa and the Sahel	Government of Senegal	Premises	122.7
United Nations Assistance Mission in Somalia (UNSOM)	Governments of Kenya and Somalia	All host country provision is managed under the United Nations Support Office in Somalia, which provides support to UNSOM	–
United Nations Regional Centre for Preventive Diplomacy for Central Asia	Government of Turkmenistan	Office premises	379.7
United Nations support for the Cameroon-Nigeria Mixed Commission	Government of Senegal	Premises	122.7
United Nations Regional Office for Central Africa (UNOCA)	Government of Gabon	Premises (UNOCA offices and residence of the Special Representative of the Secretary-General for Central Africa)	239.7
United Nations Verification Mission in Colombia	Government of Colombia	Landing rights at airports, navigation fee, airport fees, embarkation and disembarkation fees, aerodrome fees, parking fees and permits	8.0
United Nations Mission to Support the Hdaydah Agreement	Government of Jordan	Landing rights, airport fees and embarkation/disembarkation fees	63.4
	Government of Djibouti	Landing rights, airport fees and embarkation/disembarkation fees	2.2
	Government of Oman	Landing rights, airport fees and embarkation/disembarkation fees	0.4
	Government of Saudi Arabia	Landing rights, airport fees and embarkation/disembarkation fees	1.8
	Government of Yemen	Waiver of vehicle registration fees	0.3

<i>Mission</i>	<i>Contributor</i>	<i>Description of contribution</i>	<i>Approximate annual value</i>
United Nations Integrated Transition Assistance Mission in the Sudan	Government of Sudan	Landing rights at airports, airport fees, and embarkation/disembarkation fees	186.1
United Nations Integrated Office in Haiti	Government of Haiti	Vehicle registration fees	20.6
UNAMA and UNAMI			
United Nations Assistance Mission in Afghanistan	de facto authorities of Afghanistan	Landing rights at airports	130.0
	de facto authorities of Afghanistan	Airport fees (embarkation/disembarkation)	23.2
	de facto authorities of Afghanistan	Airport fees (import duties)	1 061.0
	de facto authorities of Afghanistan	Regional office in Jalalabad: building	216.0
	de facto authorities of Afghanistan	Regional office in Kunduz: building	30.9
	de facto authorities of Afghanistan	Air terminal (Kabul): land	3.9
	de facto authorities of Afghanistan	Air terminal (Kunduz): building	2.3
	de facto authorities of Afghanistan	Air terminal (Mazar-e Sharif): land	47.2
	de facto authorities of Afghanistan	Regional office in Kunduz: land	163.4
	de facto authorities of Afghanistan	Regional office in Jalalabad: land	48.0
	de facto authorities of Afghanistan	Regional office in Kandahar: land	171.7
	de facto authorities of Afghanistan	Regional office in Mazar-e Sharif: land	1 590.7
United Nations Assistance Mission for Iraq	de facto authorities of Afghanistan	Provincial office in Bamyan: land	120.0
	Government of Iraq	Solid building	5 030.5
	Government of Iraq	Infrastructure	853.5
	Government of Iraq	Airport landing rights and fees (embarkation/disembarkation)	304.7
	Government of Kuwait	Solid building	4 015.9
	Government of Kuwait	Infrastructure and airport landing rights	12.3

Annex VI

Cost-sharing arrangements for special political missions

(Thousands of United States dollars)

<i>Mission</i>	<i>Areas of cost-sharing arrangements</i>	<i>Cost-sharing entities</i>	<i>Reasons for cost sharing</i>	<i>Amount in the mission's 2024 budget for cost sharing</i>
Cluster I				
Office of the Special Envoy of the Secretary-General for Syria	Cost-sharing arrangements with United Nations country team on local security budget and WHO clinics	UNDP, United Nations country team	Security in the country is managed and provided by Department of Safety and Security. WHO provides medical services to the country team	130.8
Office of the Special Envoy of the Secretary-General for the Horn of Africa	Contribution to the United Nations health-care centre for joint medical services, based on the number of staff and in accordance with the memorandum of understanding, and security services	Economic Commission for Africa	Cost efficiency	3.8
Office of the Special Envoy of the Secretary-General for the Great Lakes Region	The mission's budget includes its portion of common services under the locational support services provided by the United Nations Office at Nairobi, in accordance with the service-level agreement	United Nations Office at Nairobi	Cost efficiency	94.0
Office of the Special Envoy of the Secretary-General for Yemen	Cost-sharing arrangement with UNAMI for the rental and operational cost of one fixed-wing aircraft, with a cost share of 20 per cent	UNAMI	Cost efficiency and operational synergies	721.7
	Cost-sharing arrangement with United Nations country team for local security cost-shared budget of Department of Safety and Security for Yemen and Jordan	UNDP, United Nations country team	Cost efficiency and operational synergies	117.5
	Cost-sharing arrangement with United Nations country team for joint medical clinics in Yemen	UNDP, United Nations country team	Cost efficiency and operational synergies	171.0
	Cost-sharing arrangement with United Nations country team for accommodation in Sana'a	UNDP, United Nations country team	Cost efficiency and operational synergies	863.6
	Cost-sharing arrangement with United Nations country team for recreation facility in Aden	WHO, United Nations country team	Cost efficiency and operational synergies	36.0
Office of the Special Envoy of the Secretary-General on Myanmar	ESCAP provides overall administrative services on a cost-recovery basis, with additional support from UNDP for any services on the ground in Myanmar or while on mission to other countries, including security, local transportation, ground coordination and customs clearance	ESCAP, UNDP	Cost efficiency and operational synergies, especially currently as operations are temporarily relocated to Bangkok without local staff	85.6
Cluster II				
Panel of Experts on Yemen	The mission's budget includes only its portion(s) of one or more types of agreed services shared among a number of participating entities, paid to UNDP, the entity providing the shared services. These services include the rental of office space and accommodation and security and medical services	UNDP	Cost efficiency	208.6

<i>Mission</i>	<i>Areas of cost-sharing arrangements</i>	<i>Cost-sharing entities</i>	<i>Reasons for cost sharing</i>	<i>Amount in the mission's 2024 budget for cost sharing</i>
United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant (UNITAD)	Cost-sharing arrangement with UNAMI for shared office premises, cleaning and maintenance services, security services (including the United Nations Guard Unit), UNAMI aircraft services, medical services, fuel and transportation	UNAMI	Economies of scale	1 243.8
Cluster III				
United Nations Office for West Africa and the Sahel (UNOWAS)	Electricity distribution fees; water distribution fees; garbage, waste disposal and fumigation services; gardening services; maintenance and repair for generators; maintenance and repair (security main gate); air operations; other (if needed or in an emergency)	United Nations Support for the Cameroon-Nigeria Mixed Commission	UNOWAS and Cameroon-Nigeria Mixed Commission shared facilities	351.0
	Air operations	MINUSMA	Shared aircraft between UNOWAS, Cameroon-Nigeria Mixed Commission and MINUSMA	103.0
United Nations Assistance Mission in Somalia (UNSOM)	UNSOM logistical and related support is provided by UNSOS, and the related costs are included in the UNSOM budget. The range of services provided by UNSOS includes office and residential accommodation, medical support, fuel, travel on UNSOS aircraft on a seat-available basis, airport security services and grounds passes. UNSOM will cost-share three fixed-wing and two rotary-wing aircraft at a ratio of 30:70 between UNSOM and UNSOS. For ICT resources, UNSOM has its own equipment, and UNSOS provides the back-end and some end-user equipment when required. Common ICT services are shared at a ratio of 30:70 between UNSOM and UNSOS	UNSOS	UNSOM administrative, logistical and related support is provided by UNSOS	26 151.7
United Nations Regional Centre for Preventive Diplomacy for Central Asia	Under a cost-sharing arrangement, the Regional Centre rents office space from UNDP in the four Central Asian capitals: Astana, Bishkek, Dushanbe and Tashkent. The cost-sharing arrangement is based on an existing memorandum of understanding between the Regional Centre and UNDP	UNDP	Common premises	21.0
Office of the United Nations Special Coordinator for Lebanon	The Office has been maintaining a cost-sharing arrangement with DSS since 2011 for the rental of office space, ICT related costs and other facility services such as cleaning, building maintenance and utilities	Department of Safety and Security	The Office provides office accommodation and related services to the Department of Safety and Security and the Security Information and Operations Centre on its premises	92.1
	The Office maintains office space at the ESCWA premises to support the mobility of the Special Coordinator and her political team, for which the Office reimburses ESCWA for the facility services for the area occupied by its staff	ESCWA	For the provision of office space within United Nations house, along with related services on a cost-recovery basis	38.6

<i>Mission</i>	<i>Areas of cost-sharing arrangements</i>	<i>Cost-sharing entities</i>	<i>Reasons for cost sharing</i>	<i>Amount in the mission's 2024 budget for cost sharing</i>
United Nations Regional Office for Central Africa (UNOCA)	Cost-sharing arrangement with the United Nations country team for local security and compound management; local cost-shared security budget (Department of Safety and Security); and cost-sharing arrangement with the country team for joint response to the COVID-19 pandemic in Gabon	United Nations country team, Department of Safety and Security, WHO	UNOCA is located in the compound shared with other United Nations entities. There are common costs for the management of the compound and its security	85.0
United Nations Support Mission in Libya (UNSMIL)	UNSMIL cost-sharing arrangements, subject to capacity and the prevailing security environment, comprise: ground and air transportation, medical services and medical evacuation, other support (use of radio network, telephone service, videoconference and printer and security support (personnel and property)). UNSMIL and other United Nations agencies, funds and programmes share an office in Benghazi. UNSMIL contributes its share of the total costs of the premises in Benghazi to WFP, which signed the lease for the office	WFP, UNDP, UNICEF, WHO, UNFPA, UNHCR, OCHA	Common premises in the Benghazi hub	410.2
United Nations Verification Mission in Colombia	In accordance with the Inter-Agency Security Management Network guidance and the discussion by the Security Management Team for Colombia, the security budget addresses the following authorized activities: (a) identification programme; (b) security operational support; (c) communications structure; (d) security training; (e) crisis coordination centre; (f) guard force; (g) psychosocial support; and (h) vehicle requirements	UNDP, United Nations country team	Cost efficiency and operational synergies	140.0
United Nations Mission to Support the Hudaydah Agreement (UNMHA)	Cost-sharing arrangement with the Office of the Special Envoy of the Secretary-General for Yemen sharing of office premises in Amman and Sana'a, and office and accommodation premises in Aden	Office of the Special Envoy of the Secretary-General for Yemen	Cost efficiency and operational synergies	826.4
	Cost-sharing arrangement with United Nations country team for local security cost-shared budget of the Department of Safety and Security for Yemen, Jordan and Djibouti	UNDP, United Nations country team	Cost efficiency and operational synergies	184.0
	Cost-sharing arrangement with UNDP for joint security services at accommodation in Sana'a	UNDP, United Nations country team	Cost efficiency and operational synergies	370.0
	Cost-sharing arrangement with United Nations country team for joint medical clinics in Yemen	UNDP, United Nations country team	Cost efficiency and operational synergies	198.0
	Cost-sharing arrangement with WFP for sharing of office and accommodation premises in southern districts	WFP, UNDP, Department of Safety and Security, OCHA	Cost efficiency and operational synergies	453.6
	Cost-sharing arrangement with UNDP for sharing of office premises in Djibouti	UNDP	Cost efficiency and operational synergies	14.4
	Cost-sharing arrangement with United Nations country team for recreation facility in Aden	WHO, United Nations country team	Cost efficiency and operational synergies	3.0

<i>Mission</i>	<i>Areas of cost-sharing arrangements</i>	<i>Cost-sharing entities</i>	<i>Reasons for cost sharing</i>	<i>Amount in the mission's 2024 budget for cost sharing</i>
United Nations Integrated Office in Haiti (BINUH)	Cost-sharing arrangement with Department of Safety and Security for local security cost-shared budget	UNDP, United Nations country team	Cost-sharing activities support the DSS risk management measures in Haiti. The local security cost-shared budget is managed by UNDP	120.0
United Nations Integrated Transition Assistance Mission in the Sudan	Co-location in El Geneina, Kauda, Ad Damazine, Nyala and Kadugli	WFP, UNDP, UNISFA	To enhance integration and benefit from existing infrastructure established by the country team	256.0
	United Nations clinic	UNDP, WFP	Based on a decision of the steering committee for the cost-shared United Nations clinic and the arrangement with WFP on the Sudan medical assistance team	160.1
	Local cost-shared security budget and radio communication support	United Nations country team	Based on the outcome of the security risk management process for the Sudan, which was approved and agreed by participating United Nations security management system organizations during the Security Management Team meetings	150.0
UNAMA and UNAMI				
United Nations Assistance Mission in Afghanistan (UNAMA)	1. Co-location in the United Nations Operations Centre in Afghanistan compound in Kabul, which has been cost-shared with agencies, funds and programmes since 2006: • Compound security (private security company and Local level guards) • Rental and maintenance (rental, liquid and solid waste removal, cleaning, gardening and maintenance of common areas)	UNDP, UNICEF, WHO, UN-Women, UNOPS, UNFPA	To achieve economies of scale	2 284.4
	2. Joint Medical Services, Kabul: cost sharing of staff costs and equipment supplies and pharmaceuticals	UNDP, UNICEF, WHO, UN-Women, UNOPS, UNFPA, UNESCO, UN-Habitat, ILO, IOM, UNHCR, UNIDO, FAO, OCHA, UNEP, WFP, ADB	To achieve economies of scale	451.2
	3. United Nations Medical Emergency Response Team, regions: cost sharing of staff costs and equipment supplies and pharmaceuticals	ILO, UNESCO, WHO, UNDP, UNFPA, UNICEF, OCHA, UNHCR, IOM, UNOPS, Department of Safety and Security, UN-Habitat, WFP, FAO	To achieve economies of scale	319.8

<i>Mission</i>	<i>Areas of cost-sharing arrangements</i>	<i>Cost-sharing entities</i>	<i>Reasons for cost sharing</i>	<i>Amount in the mission's 2024 budget for cost sharing</i>
United Nations Assistance Mission for Iraq (UNAMI)	United Nations Guard Unit cost-shared services	FAO, IOM, OCHA, UNDP, UNESCO, UNFPA,	To achieve economies of scale and enable the one United Nations initiative in Iraq to deliver more effectively and efficiently on its mandates	5 099.8
	Local cost-shared security services: escorted movements, staff tracking, security training, security infrastructure, security operational support and guard force	UN-Habitat, UNHCR, UNICEF, Mine Action Service, UNOPS, UN-Women, WFP, WHO, UNITAD		786.6
	Premises guard force (staffing): compound security			677.6
	Accommodation and office space management and rental services (including Mosul compound): cleaning services, garbage collection, utilities, service and maintenance of fuel facilities and dispensing units, building and other maintenance services, petrol, oils and lubricants (generator), sanitation and cleaning materials, ICT services and fire extinguisher maintenance	OCHA, FAO, IOM, Mine Action Service, UNDP, UNESCO, UNFPA, UN-Habitat, UNHCR, UNICEF, UNOPS, UN-Women, WFP, WHO, UNITAD		3 110.9
	Kuwait Joint Support Office non-staff costs: utilities, maintenance services, security services, petrol, oil and lubricants, commercial communications, information technology services and surface transport shuttle services	UNAMA, UNITAD, BINUH, Office of the Special Envoy for Yemen, UNRCCA, UNMHA		205.4
	Other cost shared services: medical services and ground transportation services	OCHA, FAO, IOM, Mine Action Service, UNDP, UNESCO, UNFPA, UN-Habitat, UNHCR, UNICEF, UNOPS, UN-Women, WFP, WHO, UNITAD		304.0

Abbreviations: ADB, Asian Development Bank; ESCAP, Economic and Social Commission for Asia and the Pacific; ESCWA, Economic and Social Commission for Western Asia; FAO, Food and Agriculture Organization of the United Nations; ICT, information and communications technology; ILO, International Labour Organization; IOM, International Organization for Migration; MINUSMA, United Nations Multidimensional Integrated Stabilization Mission in Mali; OCHA, Office for the Coordination of Humanitarian Affairs; UNDP, United Nations Development Programme; UNEP, United Nations Environment Programme; UNESCO, United Nations Educational, Scientific and Cultural Organization; UNFPA, United Nations Population Fund; UN-Habitat, United Nations Human Settlements Programme; UNHCR, Office of the United Nations High Commissioner for Refugees; UNICEF, United Nations Children's Fund; UNIDO, United Nations Industrial Development Organization; UNISFA, United Nations Interim Security Force in Abyei; UNOPS, United Nations Office for Project Services; UNRCCA, United Nations Regional Centre for Preventive Diplomacy in Central Asia; UNSOS, United Nations Support Office in Somalia; UN-Women, United Nations Entity for Gender Equality and the Empowerment of Women; WFP, World Food Programme; WHO, World Health Organization.

Annex VII

Cost-recovery spendable revenue estimates of special political missions

(Thousands of United States dollars)

<i>Mission</i>	<i>Cost centre/office providing service</i>	<i>Entities to receive support</i>	<i>Type/detail of support to be provided</i>	<i>Estimated spendable revenue</i>
United Nations Assistance Mission in Afghanistan (UNAMA)	Safety and security	UNDP, WHO, UNESCO, Mine Action Service, FAO, WFP, OCHA, ILO, UN-Women, UNFPA, Swiss Agency for Cooperation and Development, IOM, UNODC, Office of the Resident Coordinator, UNICEF, UNHCR, ALS Ltd., Iqarus, Dyck Advisory Group	Provision of security training and shared UNOCA security services. Co-location memorandum of understanding in the regions for security services	9 448.6

Total estimated revenue				10 485.7
United Nations Office for West Africa and the Sahel (UNOWAS)	Communications and information technology	Office of the United Nations Special Coordinator for Development in the Sahel	Communication and information technology services	4.4
	Communications and information technology	MINUSMA	Communication and information technology services	2.8
	Medical services	MINUSMA	Medical evacuation	25.3
	Aviation	MINUSMA	Aviation services	103.0
	Engineering Section	MINUSMA	Logistics support services	3.8
	Engineering Section	UNESCO	Logistics support services	35.7
Total estimated revenue				175.0
Total				32 660.7

Abbreviations: ADB, Asian Development Bank; FAO, Food and Agriculture Organization of the United Nations; IAEA, International Atomic Energy Agency; ILO, International Labour Organization; IOM, International Organization for Migration; ITC, International Trade Centre; MINUSMA, United Nations Multidimensional Integrated Stabilization Mission in Mali; OCHA, Office for the Coordination of Humanitarian Affairs; UNCTAD, United Nations Conference on Trade and Development; UNDP, United Nations Development Programme; UNEP, United Nations Environment Programme; UNESCO, United Nations Educational, Scientific and Cultural Organization; UNFPA, United Nations Population Fund; UN-Habitat, United Nations Human Settlements Programme; UNHCR, Office of the United Nations High Commissioner for Refugees; UNICEF, United Nations Children's Fund; UNIDO, United Nations Industrial Development Organization; UNITAD, United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant; UNMHA, United Nations Mission to Support the Hudaydah Agreement; UNOCA, United Nations Regional Office for Central Africa; UNODC, United Nations Office on Drugs and Crime; UNOPS, United Nations Office for Project Services; UNRCCA, United Nations Regional Centre for Preventive Diplomacy in Central Asia; UN-Women, United Nations Entity for Gender Equality and the Empowerment of Women; WFP, World Food Programme; WHO, World Health Organization.

Notes:

- (a) The table presents estimates of spendable revenue from cost-recovery activities for special political missions that have an approved cost plan for fiscal year 2023 at the time of issuance of the present report. Spendable revenue is revenue that will be spent based on the approved cost plan. Projected expenditure under the cost plans of the respective missions is presented in annex VIII.
- (b) Non-spendable revenue is unpredictable in nature. If received, such revenue would be collected and transferred to the assessed fund (i.e. the regular budget general fund in the case of the special political missions) for credit back to the Member States that funded the assessed budget.

Annex VIII**Projected expenditures from cost-recovered revenue of special political missions**

(Thousands of United States dollars)

<i>Object of expenditure</i>	<i>United Nations Assistance Mission in Afghanistan</i>	<i>United Nations Assistance Mission in Iraq</i>	<i>United Nations Office for West Africa and the Sahel</i>
Military and police personnel

Annex XI

Resources for acquisition of satellite imagery for special political missions, 2023 and 2024

(Thousands of United States dollars)

<i>Mission</i>	<i>Approved 2023</i>	<i>Proposed 2024</i>	<i>Justification</i>
Group of Experts on the Democratic Republic of the Congo	1.8	1.8	The provisions under all the panels of experts provide for the acquisition of satellite imagery and related services used to better document the implementation of the Security Council mandate
Panel of Experts on the Sudan	2.6	2.6	
Panel of Experts on the Democratic People's Republic of Korea	230.2	230.2	
Panel of Experts on Libya	6.2	6.2	
Panel of Experts on the Central African Republic	2.6	2.6	
Panel of Experts on Yemen	3.0	3.0	
Panel of Experts on South Sudan	2.6	2.6	
Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and the Taliban and associated individuals and entities	1.5	1.5	
Panel of Experts on Mali	3.0	3.2	
Panel of Experts on Somalia	2.9	2.9	
Panel of Experts on Haiti	3.0	3.0	
United Nations Support Mission in Libya	1.0	36.0	The provision is to support the mission's situational awareness with geospatial information which will be used as early warning to situations within the mission area and to aid mission leadership in monitoring and strategic planning
United Nations Mission to Support the Hdaydah Agreement	90.0	150.0	The Mission requires high-resolution satellite imagery to perform image analysis in support of monitoring areas of responsibility, image analysis reports and hotspot visualization products, allowing, inter alia, extraction of features of interest, spatial and terrain analysis, planning of military and security patrols, production of operational maps and production of value-added products for the Joint Operations Centre
United Nations Integrated Transition Assistance Mission in the Sudan	1.0	1.0	The provision is to support the Mission's situational awareness

Annex XII

Communications and information technology resources for special political missions, 2023 and 2024

(Thousands of United States dollars)

Mission	Number of positions related to communications and information technology		Other communications and information technology-related resources		Remarks

Office of the Special Envoy of the Secretary-General for Yemen	1. Joint medical clinics in Yemen 2. Medical evacuation and mortuary services	1. UNDP 2. Private service provider	1. Cost-shared budget with United Nations country team in Yemen. 2. Established contract	289.5	198.0
Office of the Special Envoy of the Secretary-General on Myanmar	ESCAP provides medical services for the mission. The services include consultancy, supplies of medication, vaccines, and travel medical clearance	ESCAP	ESCAP provides administrative services to the mission, including medical services	1.0	1.0
Panel of Experts on Yemen	1. Joint medical clinic and response to the COVID-19 pandemic 2. Specialist medical consultations and laboratory services 3. Medical evacuation and mortuary services	1. UNDP 2. Local private hospitals 3. Private service provider	1. All United Nations entities in Yemen share the cost of UNDP managed medical clinics in Yemen and joint response for COVID-19 2. For specialist services not available at the UNDP clinics 3. Emergency medical requirement	8.0	8.0
Panel of Experts on Somalia	Joint medical service	United Nations Office at Nairobi	United Nations service providers	3.8	3.8
United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant	All medical services, including aeromedical evacuation and hospitalization	UNAMI	Memorandum of understanding pursuant to Security Council resolutions 2379 (2017) and 2470 (2019)	85.0	61.5

<i>Mission</i>	<i>Type of medical services</i>	<i>Service providers</i>	<i>Selection criteria</i>	<i>Approved 2023</i>	<i>Proposed 2024</i>
United Nations Assistance Mission in Somalia	Clinical, diagnostic, preventive and promotive medical and surgical services, including occupational health and safety, medical and casualty evacuations, hospitalizations and disease outbreak responses	Private service providers and contracted medical facilities	Service providers were chosen following a competitive procurement process, which was advertised locally and internationally	1 056.3	927.4
Office of the United Nations Special Coordinator for Lebanon	The Office receives medical services from UNIFIL on the basis of a memorandum of understanding	UNIFIL	Memorandum of understanding	17.3	–
United Nations Support Mission in Libya	Aeromedical evacuations, Specialist consultation services, specialist x-ray and laboratory	Private service providers and local hospitals	Letter of agreement	543.5	470.8
United Nations Verification Mission in Colombia	<ol style="list-style-type: none"> 1. Medical clinic, specialist medical consultations and laboratory services 2. Hospitalizations and surgery 3. Aeromedical evacuation 4. Ambulance services for medical evacuation 	<ol style="list-style-type: none"> 1. Local hospitals 2. Private service providers 3. National Centre for Personnel Rescue of the Colombian Air Force 4. Private service providers 	Quality and availability of services at the local level and emergency medical requirements	450.3	357.0
United Nations Mission to Support the Hedaydah Agreement	<ol style="list-style-type: none"> 1. Forward medical team 2. Joint medical clinics in Yemen 3. Mortuary services 	<ol style="list-style-type: none"> 1. Private service provider 2. UNDP 3. Private service provider 	<ol style="list-style-type: none"> 1. The Mission is using the services of a contracted medical team and health-care personnel in Hedaydah, provided by private contractors selected using the United Nations solicitation and procurement process, which was open to all international and national eligible vendors. Criteria for the selection of the service provider were developed in coordination with the Division of Health-Care Management and Occupational Safety and Health and the Procurement Division 2. Cost-shared budget with the United Nations country team in Yemen 3. Established contract 	3 751.6	752.0

<i>Mission</i>	<i>Type of medical services</i>	<i>Service providers</i>	<i>Selection criteria</i>	<i>Approved 2023</i>	<i>Proposed 2024</i>
United Nations Integrated Office in Haiti	Aeromedical evacuations; specialist consultation services; specialist x-ray and laboratory; hospitalization in non-mission hospital; mortuary services	Private service providers	Established contracts	192.9	169.6
United Nations Integrated Transition Assistance Mission in the Sudan	Hospitalization in non-mission hospital, specialist consultation services, scanning, laboratory and mortuary services, aeromedical evacuations, dental treatment and cost sharing for the United Nations clinic with the United Nations country team	Private service providers; government hospitals; government mortuary; UNDP and WFP	Service providers and hospitals are contracted on the basis of the quality and availability of services at the local level. Services are also provided through arrangements with the United Nations country team, including the United Nations clinics operated by UNDP and WFP	816.4	816.4
United Nations Assistance Mission in Afghanistan	1. Aeromedical evacuations 2. Specialist consultation services 3. Additional medical capacity	Private service providers	Joint Medical Services in Afghanistan run a level I clinic in Kabul and forward medical posts in field offices. No specialist consultations are provided and, although there is some capacity within the Mission, referrals for specialist consultations and evacuations often take place out of the Mission using its air assets, commercial airlines or air ambulance services provided through a memorandum of understanding with a hospital	643.4	595.3
United Nations Assistance Mission for Iraq	Hospitalization in non-mission hospital, specialist consultation services, scanning, laboratory and mortuary services, aeromedical evacuations and dental treatment	Private service providers, United States Department of State medical facility	The UNAMI clinic is a level I facility. The service providers are delivering level II, III and IV care to all United Nations personnel that need a higher level of treatment according to international standards. Both national and international medical providers are given consideration for medical services to the Mission. The Mission has two types of medical service providers for casualty/medical evacuation requirements, with criteria focused primarily on accessibility, availability and urgency. Currently, there is one national and one international medical service provider, mainly providing medical evacuation and referral centres	170.8	172.5

Abbreviations: ESCAP, Economic and Social Commission for Asia and the Pacific; UNAMI, United Nations Assistance Mission for Iraq; UNDP, United Nations Development Programme; UNIFIL, United Nations Interim Force in Lebanon; WFP, World Food Programme.

Annex XV

Official travel resources for special political missions, 2023 and 2024

(Thousands of United States dollars)

Mission	Approved	Proposed	Variance	Variance	Explanation for variance
	2023	2024	amount	percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
Cluster I: special and personal envoys, advisers and representatives of the Secretary-General					
Office of the Special Adviser to the Secretary-General on Cyprus	100.3	100.3	–	–

Personal Envoy of the Secretary-General for Western Sahara	74.7	74.7	–	–	
Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)	39.1	39.1	–	–	
United Nations Representative to the Geneva International Discussions	209.7	210.0	0.3	0.1	The mission has maintained a similar level of resources for 2024 as compared with the approved budget for 2023
Office of the Special Envoy of the Secretary-General for Syria	969.9	969.9	–	–	
Office of the Special Envoy of the Secretary-General for the Horn of Africa	100.3	102.7	2.4	2.4	The mission has maintained a similar level of resources for 2024 as compared with the approved budget for 2023
Office of the Special Envoy of the Secretary-General for the Great Lakes Region	260.3	295.7	35.4	13.6	The increase in requirements for 2024 is attributable mainly to higher ticket prices
Office of the Special Envoy of the Secretary-General for Yemen	410.8	407.7	(3.1)	(0.8)	The mission has maintained a similar level of resources for 2024 as compared with the approved budget for 2023
Office of the Special Envoy of the Secretary-General on Myanmar	150.7	150.4	(0.3)	(0.2)	The mission has maintained a similar level of resources for 2024 as compared with the approved budget for 2023
Subtotal	2 560.9	2 595.6	34.7	1.4	
Cluster II: sanctions monitoring teams, groups and panels, and other entities and mechanisms					
Group of Experts on the Democratic Republic of the Congo	24.0	24.0	–	–	
Panel of Experts on the Sudan	15.9	15.9	–	–	
Panel of Experts on the Democratic People's Republic of Korea	17.3	17.3	–	–	
Panel of Experts on Libya	16.8	16.8	–	–	
Panel of Experts on the Central African Republic	19.3	33.2	13.9	72.0	The increase in requirements for 2024 is attributable mainly to one additional trip for two staff members to travel to the Central African Republic for a sanctions assessment mission mandated by the Security Council

<i>Mission</i>	<i>Approved 2023</i>	<i>Proposed 2024</i>	<i>Variance amount</i>	<i>Variance percentage</i>	<i>Explanation for variance</i>
	<i>(1)</i>	<i>(2)</i>	<i>(3)=(2)-(1)</i>	<i>(4)=(3)/(1)</i>	
Panel of Experts on Yemen	48.3	65.3	17.0	35.2	The increase in requirements for 2024 is attributable to the mandatory training cost for close protection officers based on the expenditure patterns
Panel of Experts on South Sudan	21.8	40.2	18.4	84.4	The increase in requirements for 2024 is attributable mainly to one additional trip for two staff members to travel to South Sudan for a sanctions assessment mission mandated by the Security Council
Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and the Taliban and associated individuals and entities	89.2	89.2	–	–	
Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)	25.7	34.3	8.6	33.5	The increase in requirements for 2024 is due to additional requirements for the travel of interpreters from the United Nations Office at Geneva to conduct confidential and high-quality interpretation for delisting petitioners
Implementation of Security Council resolution 2231 (2015)	41.0	34.9	(6.1)	(14.9)	The decrease in requirements for 2024 compared with the 2023 approved budget is attributable to the proposed abolishment of two staff positions leading to less requirements for official travel
Panel of Experts on Mali	122.0	122.0	–	–	
Panel of Experts on Somalia	22.6	38.5	15.9	70.4	The increase in requirements for 2024 is attributable mainly to additional travel of staff members with respect to a benchmark assessment mission mandated by the Security Council
Panel of Experts on Haiti	170.9	170.9	–	–	
Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction	131.2	131.2	–	–	
Counter-Terrorism Committee Executive Directorate	710.6	742.4	31.8	4.5	The increase in requirements for 2024 is attributable mainly to additional requirements for assessment visits conducted on behalf of the Counter-Terrorism Committee
United Nations Investigative Team to Promote Accountability for Crimes Committed by Da'esh/Islamic State in Iraq and the Levant	539.7	540.0	0.3	0.1	The mission has maintained a similar level of resources for 2024 as compared with the approved budget for 2023
Subtotal	2 016.3	2 116.1	99.8	4.9	
Cluster III: regional offices, offices in support of political processes and other missions					
United Nations Office for West Africa and the Sahel (UNOWAS)	774.2	789.3	15.1	2.0	The increase is attributable mainly to within mission travel activities for public information activities to promote the UNOWAS mandate in the subregion and for good offices activities
United Nations Assistance Mission in Somalia	1 062.3	1 061.6	(0.7)	(0.1)	The mission has maintained a similar level of resources for 2024 as compared with the approved budget for 2023

Mission	Approved	Proposed	Variance	Variance	Explanation for variance
	2023	2024	amount	percentage	
	(1)	(2)	(3)=(2)-(1)	(4)=(3)/(1)	
United Nations Regional Centre for Preventive Diplomacy for Central Asia	184.0	206.6	22.6	12.3	The increase is attributable to additional requirements for high-level conferences, visits and meetings with political counterparts outside Central Asia, which are expected to be more extensive and frequent in 2024 due to pent-up demands following the pandemic period
United Nations support for the Cameroon-Nigeria Mixed Commission	202.3	236.4	34.1	16.9	The increase is attributable mainly to the increase in the number of meetings of the Commission in Yaoundé and Abuja; missions to support the Lake Chad Basin Commission; and the pillar emplacement project management missions
Office of the United Nations Special Coordinator for Lebanon	153.0	164.5	11.5	7.5	The increase is mainly attributable to the additional training for defensive driving in armoured vehicles
United Nations Regional Office for Central Africa	566.4	568.1	1.7	0.3	The mission has maintained a similar level of resources for 2024 as compared with the approved budget for 2023
United Nations Support Mission in Libya	1 010.4	1 029.6	19.2	1.9	The mission has maintained a similar level of resources for 2024 as compared with the approved budget for 2023
United Nations Verification Mission in Colombia	1 425.6	1 878.0	452.4	31.7	Higher requirements for the implementation of the new mandated tasks of the Verification Mission, to monitor the implementation of sections 1 and 6.2 of the Final Agreement related to comprehensive rural reform and ethnic perspectives
United Nations Mission to Support the Hudaydah Agreement	645.6	629.1	(16.5)	(2.6)	Reduction in requirements for non-training-related travel, partially offset by the increase in training-related travel, including for mandatory courses and certification of security and procurement staff
United Nations Integrated Office in Haiti	421.6	248.3	(173.3)	(41.1)	Reduced requirement for temporary duty assignment resulting from the proposed establishment of positions to cover the structural gap in the mission support component
United Nations Integrated Transition Assistance Mission in the Sudan	876.3	876.3	–	–	
Subtotal	7 321.7	7 687.8	366.1	5.0	
UNAMA and UNAMI					
United Nations Assistance Mission in Afghanistan	1 010.9	994.7	(16.2)	(1.6)	The decrease is attributable mainly to increased utilization of videoconferencing services to the extent possible for within-Mission consultations
United Nations Assistance Mission for Iraq	1 079.0	1 014.6	(64.4)	(6.0)	The decrease is attributable mainly to increased utilization of videoconferencing services to the extent possible for within-Mission consultations and training activities
Subtotal	2 089.9	2 009.3	(80.6)	(3.9)	
Total	13 988.8	14 408.8	420.0	3.0

^a Includes staff in the Professional and higher categories and Field Service and General Service staff.

^b Includes National Professional Officers and Local level staff.

^c Includes international and national United Nations Volunteers.

Note: The following abbreviations are used in the tables: ASG, Assistant Secretary-General; FS, Field Service; GS, General Service; LL, Local level; NPO, National Professional Officers; USG, Under-Secretary-General.

2. The proposed vacancy rates applied in the budget take into account the experience to date. The assumptions considered for the proposed vacancy factors include the 12-month average vacancy rate in 2022 and the actual vacancy rate as at 31 March 2023. The lower of the two was used as the budgeted vacancy rate. This is in line with the policy guidance provided by the Field Operations Finance Division of the Department of Management Strategy, Policy and Compliance to improve the accuracy and consistency of the vacancy factors applied in the proposed budgets for 2024 and to ensure that the proposed vacancy rates are based, as much as possible, on actual rates. A vacancy rate of 50 per cent has been applied in the calculation of costs for the proposed establishment of new posts and positions, or posts and positions proposed for reassignment or conversion.
3. For the sake of brevity, the present document will include a section on extrabudgetary resources only for those missions that have projected extrabudgetary resources in 2023 or 2024.

II. Cross-cutting information

Gender perspective

4. Special political missions are guided by Security Council resolutions [1325 \(2000\)](#), [1820 \(2008\)](#), [1888 \(2009\)](#), [1889 \(2009\)](#), [1960 \(2010\)](#), [2106 \(2013\)](#), [2122 \(2013\)](#), [2242 \(2015\)](#), [2467 \(2019\)](#) and [2493 \(2019\)](#), which together constitute the women and peace and security agenda and mandate the incorporation of a gender perspective into the political work of the United Nations, including in special political missions. The missions are also guided by General Assembly resolution [75/100](#) on the comprehensive review of special political missions, in which the Assembly reaffirmed the important role of women in the prevention and resolution of conflicts and in peacebuilding and recognized the importance of the equal and effective participation and the full involvement of women at all levels, at all stages and in all aspects of the peaceful settlement of disputes, conflict prevention and conflict resolution.
5. Specific examples of how special political missions integrate a gender perspective into their operational activities, deliverables and results are given under the individual missions in the present report.

Disability inclusion

6. In line with the United Nations Disability Inclusion Strategy, special political missions review the Strategy with a view to further advancing disability inclusion through inclusive messaging, awareness-raising and promoting the Strategy through their work, including in political and peace processes. The missions also support mitigating measures to overcome accessibility challenges, in addition to the efforts by relevant United Nations entities to ensure the accessibility of facilities, platforms, security and other infrastructure to facilitate easy access and use by persons with disabilities.

Evaluation activities

7. The Department of Political and Peacebuilding Affairs will support the biennial assessment by the Office of Internal Oversight Services on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives. Mission-specific evaluation activities are described, as applicable, under the specific missions in the present report.

Impact of the pandemic and lessons learned

8. The continuation of the coronavirus disease (COVID-19) pandemic into 2022 had an impact on the implementation of mandates in the special political missions. Specific examples are provided under the individual missions in the present report.
9. Special political missions continue to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. At the same time, it is assumed that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objectives, strategies and mandates and would be reported as part of the programme performance information.

III. Special political missions

1. Office of the Special Adviser to the Secretary-General on Cyprus

(\$3,079,100)

Foreword

The United Nations continues its efforts to bring the sides closer together and find opportunities for cooperation. The Greek Cypriot leader and the Turkish Cypriot leader met twice in 2022, in April for the launch of the “action plan on ways to ensure women’s full, equal and meaningful participation in the settlement process/an eventual settlement process in Cyprus” and at an end-of-year reception that I hosted in December. These events were received positively by the public as a sign that, despite their differences, the two leaders were still willing to meet and talk.

In the absence of active peace talks, the ongoing dialogue in my weekly meetings with the representatives of the two leaders and in the working-level meetings of the good offices mission with the coordinators of the 12 technical committees have provided an important space to discuss issues of mutual importance and solve problems. The technical committees have also continued their work to achieve practical improvements in the daily lives of Cypriots and to build favourable conditions for an eventual settlement. This dialogue produced some positive results, but the dynamics on the ground caused delays in the implementation of some projects.

In 2024, I will continue my engagement with the two Cypriot leaders and their teams, civil society and the international community towards finding a lasting settlement in Cyprus.

(Signed) Colin **Stewart**
Deputy Special Adviser to the Secretary-General on Cyprus

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

10. The mandate of the Office of the Special Adviser to the Secretary-General on Cyprus derives from the priorities established in relevant Security Council resolutions and decisions and an exchange of letters between the Secretary-General and the President of the Security Council (S/2008/456 and S/2008/457). In resolution 1818 (2008), the Council welcomed the intention of the Secretary-General to appoint a Special Adviser at the appropriate time. In a letter dated 10 July 2008 addressed to the President of the Security Council (S/2008/456), the Secretary-General announced his intention to appoint his Special Adviser on Cyprus as from 14 July 2008. Relevant Security Council resolutions from which the mandate derives include resolution 186 (1964) and subsequent Council resolutions, including resolutions 367 (1975), 1250 (1999), 1475 (2003), 1758 (2007), 1818 (2008), 1873 (2009), 1930 (2010), 1986 (2011), 2026 (2011), 2058 (2012), 2114 (2013), 2135 (2014), 2168 (2014), 2197 (2015), 2234 (2015), 2263 (2016), 2300 (2016), 2338 (2017), 2369 (2017), 2398 (2018), 2430 (2018), 2453 (2019), 2483 (2019), 2506 (2020), 2537 (2020), 2561 (2021), 2587 (2021), 2618 (2022), 2646 (2022) and 2674 (2023).
11. In its resolution 2674 (2023), the Security Council noted with regret the lack of progress made towards restarting formal negotiations, and fully supported the Secretary-General's ongoing engagement with the sides and encouraged further rounds of informal talks. The Council urged the sides to engage actively and without further delay with the Secretary-General and his team, including by reaching an agreement regarding the proposal of the Secretary-General to appoint a United Nations envoy.
12. The Secretary-General, in his latest report (S/2023/6), encouraged the two leaders to engage in a constructive dialogue that could contribute to a more conducive environment for a settlement. He also stressed that the demonstration by the sides of political will and flexibility remained of paramount importance, and he noted that a United Nations envoy could lead the engagement with the parties and provide critical support to explore ways to reach common ground towards resuming negotiations for a lasting settlement in Cyprus. The two leaders have continued to demonstrate a willingness to work with the United Nations in the past year, and this openness will be needed in the coming period.
13. In the absence of agreement on a United Nations envoy, the Secretary-General and United Nations senior officials have continued to engage with the parties with a view to finding agreement on a way forward on the Cyprus peace process. While the regional dynamics remained complicated for most of 2022, there have been positive steps towards rapprochement following the devastating earthquakes of 6 February 2023. These steps could help re-energize the parties' commitment to finding common ground on the way forward.

Programme of work

Objective

14. The objective, to which this mission contributes, is to achieve a comprehensive settlement of the Cyprus problem.

Strategy and external factors for 2024

15. To contribute to the objective, the mission will:
 - (a) Use its best endeavours with the two leaders and the guarantor powers to promote a peaceful solution and to assist them, should they jointly agree, in the conduct of full-fledged negotiations;
 - (b) Regularly conduct bilateral meetings and facilitate joint meetings between the leaders, negotiators/representatives and their teams, working groups and experts;
 - (c) Intensify its support for the implementation of confidence-building measures and the work of the technical committees to help both sides make progress towards promoting just, peaceful and inclusive societies.
16. The above-mentioned work is expected to result in:
 - (a) Continuation of dialogue towards an enduring, comprehensive and just settlement of the Cyprus problem. Should significant progress be achieved, the United Nations may be called upon to intensify its support, possibly also by convening the stakeholders to address substantive issues;
 - (b) Implementation of confidence-building measures;
 - (c) Empowerment and facilitation of the work of the technical committees.
17. With regard to cooperation with other entities at the global, regional, national and local levels, the mission, if so requested by the sides, will continue to coordinate the engagement of international financial institutions in support of the process, in particular, the European Central Bank, the International Monetary Fund and the World Bank. In addition, the mission will cooperate and coordinate activities with the European Commission as relevant to its support for the peace process.
18. With regard to inter-agency coordination and liaison, the mission, the United Nations Peacekeeping Force in Cyprus (UNFICYP) and the United Nations country team will continue to operate in a cooperative way to maximize synergies and ensure coherent and effective support for United Nations peace efforts.
19. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
 - (a) Continued and sustained political commitment of the parties to the political process and the implementation of confidence-building measures;
 - (b) Continued and sustained international support for the peace process.
20. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The mission supports activities by both sides, the work of the Technical Committee on Gender Equality and women's civil society platforms in both communities to advance gender-related issues and provides support for greater civic engagement towards a more inclusive peace process. In accordance with best practice, the mission will support the involvement of underrepresented groups, including women, minorities, youth and persons with disabilities, in discussions pertaining to the Cyprus issue and in the peace process.
21. In line with the United Nations Disability Inclusion Strategy, the mission will further seek to promote disability inclusion internally by creating the space for employment opportunities for qualified candidates. At the political level, it will continue to advocate for inclusion of the views of persons with disabilities in all decision-making platforms, including the technical committees, as change agents for peace, security and sustainable development. In order to mainstream disability inclusion into the design, implementation, monitoring and evaluation of their activities, as well as targeted measures where appropriate, UNFICYP and the Office of the Special Adviser to the Secretary-General on Cyprus envision developing a joint action plan for the implementation of the Strategy.

Impact of the pandemic and lessons learned

22. The continuation of the COVID-19 pandemic into 2022 had an impact on mandate implementation. The mission organized fewer large-scale in-person meetings with the leaders and their representatives and other stakeholders. Such meetings, which bring stakeholders from both sides of the island together to ensure the inclusion of representatives of civil society in dialogue processes towards a solution to the Cyprus issue, are an important part of the peace process and have been requested by the Security Council. The mission continued the use of virtual and hybrid meetings and increased the number of smaller-format in-person meetings with the sides and the guarantor powers. In-person meetings continue to be indispensable to ensure the quality of interactions because of the nature, complexity and confidentiality of the discussions around the Cyprus issue.
23. In addition, to support the communities on issues related to COVID-19, within the overall scope of the objectives, the mission engaged in dialogue with representatives of both sides and the Technical Committee on Health to strengthen cooperation on health, vaccines and other COVID-19-related issues.
24. The mission continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the continued implementation of alternative work arrangements and the use of information and communications technology to reduce the need for travel, as online meetings are a time- and cost-effective method of communication. However, some in-person meetings are crucial owing to the nature and confidentiality of good offices work, and some interactions require a high level of interaction and trust-building. Furthermore, events with a higher number of participants can only take place in person and will remain an indispensable component for effective mandate delivery. Online training tools, workshops and training sessions will continue to be utilized as a time- and cost-effective alternative; however, face-to-face seminars and conferences are in some circumstances indispensable owing to the nature of interactions and the complexity of content and learning activities.

Programme performance in 2022

Consistent engagement, conflict prevention and efforts to reach common ground towards resuming peace talks

25. In 2022, the Secretary-General met separately with the two leaders and held meetings with the guarantor powers. The Assistant Secretary-General for Europe, Central Asia and the Americas of the Department of Political and Peacebuilding Affairs and the Department of Peace Operations visited Cyprus three times and also visited the guarantor powers. Both leaders met on 13 April and on 7 December in Cyprus, with both engagements providing important positive political signals. The mission continued its engagement with the sides, including by facilitating weekly meetings, supporting the work of the technical committees and interacting with a broad network of interlocutors.
26. Progress towards the objective is presented in the performance measure below (see table 3).

Table 3
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
Continued engagement with the two leaders and their teams and provision of the required support for senior-level engagement, including consultations by a senior United Nations official aimed at achieving a consensus starting point for negotiations	Continued engagement with the two leaders and their teams and provision of the required support for senior-level engagement, including an informal five-plus-one meeting convened by the Secretary-General in Geneva and an informal lunch for the Greek Cypriot and Turkish Cypriot leaders hosted by the Secretary-General in New York	Engagement with the two leaders and their teams and support for senior-level engagement, including separate meetings between the Greek Cypriot and Turkish Cypriot leaders with the Secretary-General, three visits of the Assistant Secretary-General for Europe, Central Asia and the Americas to Cyprus and one to each of the guarantor powers, and two meetings of the leaders in Cyprus

Planned result for 2024

Continued dialogue to assist in the search for common ground

Programme performance in 2022 and target for 2024

27. In 2022, the mission's work contributed to the holding of 90 bilateral and joint meetings with the leaders and their teams and 350 meetings of the technical committees and working groups, which partially met the planned targets of 140 meetings and 410 meetings, respectively. This was primarily due to the absence of active negotiations, but also in part to COVID-19-related measures.
28. In 2024, the mission will engage with the sides and the guarantor powers to support efforts to build common ground towards negotiations. Should significant progress be achieved, the United Nations may be called upon to intensify its efforts, including by convening meetings of the stakeholders and through enhanced coordination of technical work. Efforts will include shuttle diplomacy and bilateral meetings, and the facilitation of joint meetings and meetings of the two sides' teams. The mission will continue its support for the implementation of confidence-building measures, the work of the 12 technical committees and greater civic engagement, including with women, minorities, youth and persons with disabilities, to support a more inclusive peace process.

Lessons learned and planned change

29. The lesson for the mission was that the peace process requires continued political commitment and sustained international support, as well as continued engagement with the sides and the guarantor powers. The work of the technical committees to build trust and reduce tensions is critical when there are no active negotiations. Engagement with civil society representatives, including women's and youth groups, is key to ensuring the inclusivity of the peace process, as requested by the Security Council. While the enhanced use of information technology for virtual meetings provided a time-effective alternative to in-person meetings, in-person meetings remain indispensable owing to the nature, complexity and confidentiality of the Cyprus issue.
30. In applying the lesson, the mission will continue to enhance dialogue with the sides and the guarantor powers; will continue the weekly coordination meetings with the sides to further empower the work of the technical committees; and will organize events to enhance the participation of civil society actors.
31. Expected progress towards the objective is presented in the performance measure below (see figure I).

Figure I
Performance measure: number of bilateral and joint meetings with the leaders and their negotiating teams and number of meetings of working groups and technical committees

Deliverables

32. Table 4 lists all deliverables of the mission.

Table 4
Deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	1	2	2
1. Reports of the Secretary-General to the Security Council	3	1	2	2
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
2. Meetings of the Security Council	2	2	2	2
C. Substantive deliverables				
Good offices: provision of good offices through engagement and bilateral and joint meetings with the Greek Cypriot leader and the Turkish Cypriot leader and other stakeholders in both communities as well as the three guarantor powers towards a settlement of the Cyprus issue. Conduct and facilitation of bilateral and joint meetings with the leaders and their teams and facilitation of the technical committees and working groups.				
Consultation, advice and advocacy: provision of advice on procedural, legal, technical and substantive issues towards a settlement of the Cyprus issue; coordination, management and facilitation of advisory meetings on issues related to the peace process; and advocacy on gender equality and encouragement of participation by women, youth and persons with disabilities in the peace process, and public support for the peace process.				
D. Communication deliverables				
External and media relations: interviews and press releases to inform the public about the peace process.				

B. Proposed post and non-post resource requirements for 2024

Resource requirements (regular budget)

Table 5

Financial resources

(Thousands of United States dollars)

	Appropriation	Expenditure	Appropriation	Requirements	2024 vs. 2023 Increase/(decrease)	
	(1)	(2)	(3)	(4)		(5)=(4)-(3)
Military and police personnel costs	–	–	–	–	–	–
Civilian personnel costs	2 529.3	2 254.6	2 608.1	2 650.9	42.8	42.8
Operational costs	425.7	268.9	428.2	428.2	–	–
Total (net of staff assessment)	2 955.0	2 523.5	3 036.3	3 079.1	42.8	42.8

Table 6

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2023	1 ^a	–	–	1	3	5	1	–	4	1 ^b	16	–	5	5	–	–	
Proposed 2024	1 ^a	–	–	1	3	5	1	–	4	1 ^b	16	–	5	5	–	–	–	21
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a The Under-Secretary-General is on a when-actually-employed contract.

^b Other level, unless otherwise stated.

33. The proposed resource requirements for 2024 for the Office of the Special Adviser to the Secretary-General on Cyprus amount to \$3,079,100 (net of staff assessment) and would provide for salaries and common staff costs (\$2,650,900) for the continuation of 21 positions (1 Under-Secretary-General, 1 D-1, 3 P-5, 5 P-4, 1 P-3, 4 Field Service, 1 General Service (Other level) and 5 Local level), as well as operational costs (\$428,200), comprising costs for consultants and consulting services (\$28,600), official travel (\$100,300), facilities and infrastructure (\$96,000), ground transportation (\$45,300), communications and information technology (\$75,200), medical (\$300) and other supplies, services and equipment (\$82,500).
34. In 2024, no change is proposed to the number and levels of the positions.
35. A vacancy rate of 12.5 per cent has been applied to the estimates for international positions based on the vacancy rate in March 2023. A vacancy rate of 3.3 per cent has been applied to Local level positions, taking into account the actual average vacancy rate in 2022.
36. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to increased requirements under civilian personnel costs, resulting from higher salary costs for international positions, offset in part by the application of a vacancy rate of 3.3 per cent compared to the budgeted vacancy rate of zero per cent for Local level positions in 2022.

Extrabudgetary resources

37. In 2023, extrabudgetary resources in the amount of \$35,400 are estimated for the support of a project that aims to ensure women's participation and the integration of gender perspectives, as well as the participation of civil society, including women's organizations and youth, in a future peace process in Cyprus. The project will conclude in 2023.
38. In 2024, no extrabudgetary resources are currently projected.

2. Office of the Special Adviser to the Secretary-General on the Prevention of Genocide

(\$2,819,300)

Foreword

Although the Convention on the Prevention and Punishment of the Crime of Genocide was adopted almost 75 years ago in 1948, the prevention of genocide remains a challenge. The legacy of unchecked advocacy of hatred, division and intolerance continues to challenge our collective resolve and capacity to prevent genocide and related crimes.

In 2022, we celebrated the first International Day for Countering Hate Speech, renewing our commitment against a risk factor that preceded the Holocaust, subsequent genocides and related crimes. Technology is important to the work that we do, in terms of monitoring and early warning. Through early warning and action, societies can address risk factors and prevent their progression. My Office is therefore placing a renewed focus on strengthening its analysis capacity to include online monitoring and increased reliance on technology to keep pace with new manifestations of threats. We will continue to prioritize action against Holocaust and genocide denial and advocacy for the universal ratification of the Convention on the Prevention and Punishment of the Crime of Genocide. Other priorities of the Office include strengthening the provision of technical assistance and capacity-building for Member States, regional organizations and civil society actors, including in the implementation of the United Nations Strategy and Plan of Action on Hate Speech.

(Signed) Alice Wairimu **Nderitu**
Special Adviser to the Secretary-General on the Prevention of Genocide

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

39. The Office of the Special Adviser to the Secretary-General on the Prevention of Genocide is mandated to collect information, in particular from within the United Nations system, on massive and serious violations of human rights and international humanitarian law of ethnic and racial origin that, if not prevented or halted, may lead to genocide; to act as a mechanism of early warning to the Secretary-General and, through him, to the Security Council, by bringing to their attention situations that could potentially result in genocide; to make recommendations to the Council, through the Secretary-General, on action to prevent or halt genocide; and to liaise with the United Nations system on activities for the prevention of genocide and on work to enhance the capacity of the United Nations to analyse and manage information regarding genocide or related crimes.
40. The mandate derives from the invitation of the Security Council to the Secretary-General in its resolution [1366 \(2001\)](#) to refer to the Council information and analysis from within the United Nations system on cases of serious violations of international law, including international humanitarian law and human rights law. The Special Adviser on the Prevention of Genocide was appointed through an exchange of letters between the Secretary-General and the President of the Security Council ([S/2004/567](#) and [S/2004/568](#)). The mandate was reaffirmed in Council resolution [1674 \(2006\)](#), a further exchange of letters between the Secretary-General and the Council ([S/2007/721](#) and [S/2007/722](#)), and resolutions of the General Assembly (resolutions [60/1](#) and [63/308](#)), the Commission on Human Rights (resolution 2005/62) and the Human Rights Council (resolutions [7/25](#), [22/22](#), [28/34](#), [33/19](#), [37/26](#), [43/29](#) and [49/9](#)). In its resolution [49/9](#), the Human Rights Council, inter alia, invited the Special Adviser on the Prevention of Genocide to continue to execute the activities under her mandate, including in the follow-up to the resolution, by providing States with guidance, assistance and follow-up, upon their request.
41. With regard to the responsibility to protect, the General Assembly, in paragraphs 138 and 139 of its resolution [60/1](#) on the 2005 World Summit Outcome, addressed the responsibility of Member States and the international community to protect populations. This was reaffirmed by the Security Council in its resolutions [1674 \(2006\)](#) and [1706 \(2006\)](#). Through an exchange of letters ([S/2007/721](#) and [S/2007/722](#)), the Special Adviser to the Secretary-General on the Responsibility to Protect was appointed and charged with the conceptual, institutional and operational development of the principle. The Assembly, in resolution [75/277](#), included an item on the responsibility to protect on its agenda and requested the Secretary-General to report annually on that item.
42. The prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, together with the realization of the Sustainable Development Goals (especially Goals 10 and 16, on reduced inequalities and on peace, justice and strong institutions, respectively), remains a key part of the broader prevention strategy of the Secretary-General, as well as of his call to action for human rights on 24 February 2020.

Programme of work

Objective

43. The objective, to which this mission contributes, is to advance national, regional and international efforts to protect populations from genocide, war crimes, ethnic cleansing and crimes against humanity and their incitement.

Strategy and external factors for 2024

44. To contribute to the objective, the Office will:
- (a) Raise awareness of the causes and dynamics of genocide through predictive and action-oriented analysis, enhanced by the collection and sharing of information from field missions and regional offices in accordance with the early warning mandate of the Office;
 - (b) Alert relevant actors with respect to the risk of genocide, through the implementation of the United Nations Strategy and Plan of Action on Hate Speech, capacity-building and advocacy. This includes implementing other key policy products, including the Plan of Action for Religious Leaders and Actors to Prevent Incitement to Violence that could lead to genocide, war crimes, ethnic cleansing and crimes against humanity; the policy paper entitled “Combating Holocaust and genocide denial: protecting survivors, preserving memory, and promoting prevention”; the plan of action for women in the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity; and the “Game Plan” on the role of sports leagues in addressing and countering hate speech;
 - (c) Advocate and mobilize for appropriate action through engagement within the United Nations and with external partners;
 - (d) Strengthen community-level efforts for prevention, including by assisting locally led initiatives aimed at bringing communities together;
 - (e) Harness technology to enhance prevention and counter its negative impacts, as outlined in Human Rights Council resolution 49/9;
 - (f) Increase female participation in decision-making roles and support implementation of the plan of action for Women in the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity;
 - (g) Prioritize action against Holocaust and genocide denial and the glorification of war crimes and criminals;
 - (h) Support the universal ratification of the Convention on the Prevention and Punishment of the Crime of Genocide, and support efforts towards its implementation at the national level through legislation and implementation mechanisms.
45. The above-mentioned work is expected to create conditions conducive to increased action by United Nations intergovernmental bodies, Member States and regional and subregional organizations to prevent and mitigate the risk of genocide, war crimes, ethnic cleansing and crimes against humanity, including their incitement.
46. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Continued commitment of Member States, the Security Council and other intergovernmental bodies to engage with the Office to advance the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity and enhance efforts aimed at conceptualizing the principle of the responsibility to protect;
 - (b) Active engagement of Member States and regional and other organizations to develop preventive capacity and take appropriate action for the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, including their incitement.
47. With regard to cooperation with other entities, the Office will continue to work and partner with regional organizations, including the African Union, the International Conference on the Great Lakes Region, the Economic Community of West African States, the Association of Southeast Asian Nations (ASEAN), the Organization of American States and the European Union, as well as with civil society, including religious leaders, traditional leaders, academia and traditional media.

48. With regard to inter-agency coordination and liaison, the Office of the Special Adviser works with the Department of Peace Operations, the Office for the Coordination of Humanitarian Affairs, the Office of the United Nations High Commissioner for Human Rights (OHCHR), the Office of Legal Affairs, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict, the Office of the Special Representative of the Secretary-General on Violence against Children and the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, as well as with relevant mechanisms of the Human Rights Council. In addition, the Office works closely with and supports United Nations country teams on the implementation of the United Nations Strategy and Plan of Action on Hate Speech. The Office also works in close collaboration with the United Nations Children's Fund, the United Nations Development Programme (UNDP) and the United Nations Educational, Scientific and Cultural Organization in relation to the collection of information for early warning purposes, policy development and activities aimed at the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity.
49. The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. This includes reflecting the gender dynamics in its monitoring and analysis and striving for the equal participation of women in its capacity-building events and workshops. In 2023, the Office launched a specific plan of action for women in the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity.
50. In line with the United Nations Disability Inclusion Strategy, the Office has developed an internal guidance note on integrating disability inclusion in its programmes and activities, and initiated the process of drafting guidance notes on persons with disabilities and the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity and on addressing hate speech to support mental health. Additionally, the Office continues to review and examine the United Nations Strategy and Plan of Action on Hate Speech with a view to further advancing disability inclusion, including in its programmatic and policy activities. It is developing a guidance note on disability inclusion and hate speech, which is expected to be finalized in 2023.

Impact of the pandemic and lessons learned

51. The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates. Travel restrictions in some countries hindered high-level and working-level missions as well as the organization of capacity-building and technical assistance workshops and trainings. For example, some technical-level missions were postponed to late 2022. In some instances, workshops and trainings were organized remotely in a virtual format when travel was not possible. For example, in January 2022, the Office organized a virtual training session on countering and addressing hate speech for the National Cohesion and Integration Commission in Kenya, which was originally planned as an in-person workshop.
52. The Office continues to mainstream lessons learned and best practices related to adjusting its programmes and activities, including reliance on virtual options for meetings and engagements. For example, the Office provided support remotely to United Nations country teams to develop context-specific action plans on hate speech. The Office also organized several briefings and trainings on the mandate of the Office to Member States, civil society and other actors virtually. The increased use of virtual engagement has also enabled the Office to have consistent engagements with resident coordinators and their offices as well as United Nations country teams and peacekeeping mission staff. For example, the Office has been able to organize or provide virtual briefings on its mandate and work, including on the United Nations Strategy and Plan of Action on Hate Speech, and to organize regular bilateral exchanges as needed. The extent of this engagement has increased markedly as a result of the lessons learned from the pandemic and the increase in accessibility and use of virtual means. This has improved the Office's access to timely information on developing situations as well as its ability to provide direct technical assistance and support on prevention. The Office will continue to apply these lessons in 2024, taking into consideration the nature of its mandate, which requires field deployment for fact-finding missions to engage directly with

communities and/or provide technical assistance and capacity-building to Member States, regional organizations and civil society. Such activities will continue to require the regular travel of the Special Adviser and Office personnel.

Programme performance in 2022

Plan of action for women in the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity

53. In 2022, the Office initiated a consultation process to develop a plan of action for women in the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity. The resultant plan of action entails actions that women can take to prevent these crimes within the communities in which they operate, as well as actions that other stakeholders, including Governments, civil society and international organizations, can implement to support the role of women in this regard. The recommendations in the plan of action focused on three main areas: (a) strengthening of protection structures for women in contexts where genocide, war crimes, ethnic cleansing and crimes against humanity may be occurring; (b) strengthening of and support for the role of women, with technical know-how and capacity-building, in preventing genocide, war crimes, ethnic cleansing and crimes against humanity and their incitement; and (c) provision of knowledge-sharing opportunities.
54. In line with the recommendations of the plan of action, a global network of women in the prevention of genocide, war crimes, crimes against humanity and ethnic cleansing was established, to be supported by the Office in implementing the plan of action through regional and national implementation workshops.
55. Progress towards the objective is presented in the performance measure below (see table 7).

Table 7

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
Responses and policy options on the prevention of genocide, war crimes, crimes against humanity and ethnic cleansing are largely non-inclusive of women's perspectives, voices and concerns	Responses and policy options on the prevention of genocide, war crimes, crimes against humanity and ethnic cleansing are largely non-inclusive of women's perspectives, voices and concerns	Global consultations with women leaders are held and a plan of action for women in the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, as well as a global network of women in the prevention of genocide, war crimes, crimes against humanity and ethnic cleansing, are established

Planned result for 2024

Collecting and processing information, providing early warning, raising awareness, building capacities and making recommendations to Member States and regional and subregional organizations on the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, as well as their incitement

Programme performance in 2022 and target for 2024

56. The Office's work contributed to the advancement of national, regional and international capacities and efforts to protect populations from genocide and related crimes and met the planned target of 19

follow-up actions taken by Member States and regional and subregional organizations to prevent or mitigate the risk of genocide and related crimes. In 2022, the Special Adviser undertook eight official visits, issued 15 public statements on situations of concern and sent 20 internal notes to the Secretary-General. The Office organized 25 workshops and training sessions and seven technical assistance initiatives. The Office supported the development of context-specific action plans for United Nations country teams in four countries on countering and addressing hate speech and executed several policy initiatives highlighting the voices of new and underutilized actors in prevention. For example, in 2022, the Office initiated a consultation process to develop a plan of action to counter hate speech through engagement with sport (the Game Plan). The Game Plan provides recommendations on actions to identify and combat hate speech using the power and reach of sport to speak out against hate speech and promote positive messages, inclusion and non-discrimination. At its launch, the Secretary-General called for the widest possible dissemination and implementation of the Game Plan. As part of the consultation process for the development of the Game Plan and to coordinate its implementation, a sports working group on countering hate has been established. The working group is led by the Office and the Eradicate Hate Global Summit and comprises representatives of various sports leagues around the world.

57. In 2024, the Office will continue to collect and process information from United Nations sources to provide early warning and advice on the prevention of genocide and related crimes. The Office will conduct country visits and undertake assessments to collect relevant information on political, human rights, humanitarian, social and economic developments in countries worldwide with the aim of identifying early warning signs of genocide, war crimes, ethnic cleansing and crimes against humanity. It will provide tailored training and technical assistance to Member States, regional and subregional organizations and civil society on the prevention of genocide and related crimes. The Office will continue its support to the implementation of the United Nations Strategy and Plan of Action on Hate Speech, working closely with and providing support to United Nations country teams in developing context-specific action plans. The Office will also prioritize enhanced data collection and use of new technologies in its monitoring and analysis work, including online trends of hate speech.

Lessons learned and planned change

58. A lesson for the mission was the importance of partnerships with United Nations field entities, country teams and peace operations, which are instrumental to strengthening the Office's assessment and response capacity in multiple locations. In applying the lesson, the Office will intensify its efforts to build the capacity of the United Nations country teams and peace operations on elements relevant to the prevention of genocide and related crimes. The Office will also prioritize working through regional organizations and coalitions of civil society actors to reach more Member States and civil society actors, including at the community level, where prevention action will remain paramount.
59. Expected progress towards the objective and the target for 2024 are presented in the performance measure below (see figure II).

Figure II

Performance measure: number of follow-up actions taken by Member States, regional and subregional organizations and civil society actors to prevent genocide, war crimes, ethnic cleansing and crimes against humanity, as well as their incitement, as a result of early warning and recommendations provided by the Office of the Special Adviser on the Prevention of Genocide

Deliverables

60. Table 8 lists all deliverables of the Office.

Table 8

Deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	1	2	2
1. Report of Secretary-General on the responsibility to protect	1	1	1	1
2. Report of Secretary-General on the prevention of genocide to the Human Rights Council	1	–	1	1
Substantive services for meetings (number of three-hour meetings)	4	4	5	5
3. Meetings of the General Assembly on the responsibility to protect	3	4	3	3
4. Meetings of the Human Rights Council on the prevention of genocide	1	–	2	2
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	7	12	8	8
5. Projects on national mechanisms, including legislation, for the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity	7	12	8	8
Seminars, workshops and training events (number of days)	35	25	45	45
6. Workshops on the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity, including their incitement, and on the establishment and review of national and regional early warning mechanisms	35	25	45	45

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
Publications (number of publications)	1	1	2	2
7. Publication on the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity	1	1	2	2
Technical materials (number of materials)	2	2	4	4
8. Guidance notes on countering and addressing hate speech	1	1	2	2
9. Guidance notes on genocide denial and the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity	1	1	2	2
Fact-finding, monitoring and investigation missions (number of missions)	–	10	10	10
10. High-level and country-specific assessment missions	–	10	10	10

C. Substantive deliverables

Consultation, advice and advocacy: advice on the risk of genocide, war crimes, ethnic cleansing and crimes against humanity and on preventive measures; advocacy and consultations on the prevention of genocide, war crimes, ethnic cleansing and crimes against humanity; briefings on country situations and thematic areas relevant to prevention.

D. Communication deliverables

Outreach programmes, special events and information materials: commemoration of the International Day of Commemoration and Dignity of the Victims of the Crime of Genocide and of the Prevention of This Crime; anniversary of the adoption of the Convention on the Prevention and Punishment of the Crime of Genocide; commemoration of the International Day for Countering Hate Speech.

External and media relations: public statements by the Special Adviser on situations of concern, on commemorative events and upon the conclusion of high-level missions; media briefings; editorial opinions (op-eds).

B. Proposed post and non-post resource requirements for 2024

Resource requirements (regular budget)

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	2	2	2

^a The Assistant Secretary-General is on a \$1-per-year contract.

^b Includes one P-4 position and one P-2 position approved as general temporary assistance in the 2023 budget.

^c Other level, unless otherwise stated.

61. The proposed resources for 2024 for the Office of the Special Adviser to the Secretary-General on the Prevention of Genocide amount to \$2,819,300 (net of staff assessment) and would provide for salaries and common staff costs (\$2,260,800) for the continuation of 13 positions (1 Under-Secretary-General, 1 Assistant Secretary-General, 2 P-5, 4 P-4, 2 P-3, 1 P-2 and 2 General Service (Other level)) and 2 national United Nations Volunteer positions proposed for establishment, as well as operational costs (\$558,500), comprising costs for consultants and consulting services (\$35,600), official travel (\$245,100), facilities and infrastructure (\$210,600), ground transportation (\$3,600), communications and information technology (\$36,800) and other supplies, services and equipment (\$26,800).
62. For 2024, the following positions are proposed for establishment:
- The establishment of one Political Affairs Officer (national United Nations Volunteer) position in Addis Ababa will enable the Office to further build and enhance its engagement with the African Union as well as broaden and scale up its capacity-building and awareness-raising on the prevention of genocide, war crimes, crimes against humanity and ethnic cleansing with partners in the Africa region, with and in support of Member States, subregional organizations and other stakeholders, including the International Conference on the Great Lakes Region, the Intergovernmental Authority on Development (IGAD) in East Africa, and the Economic Community of West African States;
 - The establishment of one Political Affairs Officer (national United Nations Volunteer) position in Bangkok will enable the Office to broaden and scale up its capacity-building and awareness-raising on the prevention of genocide, war crimes, crimes against humanity and ethnic cleansing with partners in the Asia-Pacific region, in particular on the role of education in prevention, with and in support of Member States, subregional organizations and other stakeholders. The position will also enable the Office to build and enhance its cooperation with ASEAN.
63. It is also proposed that two general temporary assistance positions approved in 2023 be continued in 2024, as follows:
- A Political Affairs Officer (P-4) to enable the Office to continue its support to the implementation of the United Nations Strategy and Plan of Action on Hate Speech, which was launched by the Secretary-General in 2019, in a context where the global rise and spread of hate speech continue to pose a challenge worldwide. The continuation of this position would allow the Office to continue providing sustained assistance in response to requests from Member States, regional organizations and United Nations field presences for technical assistance and capacity-building in the development and implementation of context-specific action plans to address and counter hate speech;
 - An Associate Political Affairs Officer (P-2) to strengthen the analysis capacity of the Office and support campaigns of the Office on Holocaust denial, countering hate speech and

ratification of the Convention on the Prevention and Punishment of the Crime of Genocide. The position will continue to focus on data analytics and use new technologies to research and gather information, including online trends of hate speech, as a key indicator of risk and potential trigger of genocide, war crimes, ethnic cleansing and crimes against humanity, which will enable the Office to respond to these new challenges and trends in the prevention of these crimes.

64. A vacancy rate of 15.4 per cent has been applied to the estimates for continuing positions based on the vacancy rate in March 2023. A vacancy rate of 50 per cent has been applied for the two national United Nations Volunteer positions proposed for establishment.
65. The increase in requirements for 2024 compared with the appropriation for 2023 is mainly attributable to the cost of two national United Nations Volunteer positions proposed for establishment, offset in part by the application of a higher vacancy rate of 15.4 per cent compared with the budgeted vacancy rate of 5 per cent in 2023.

Extrabudgetary resources

66. In 2023, extrabudgetary resources amounting to approximately \$525,300 are to be utilized mainly for the staff costs of three positions (2 P-3 and 1 General Service (Other level)), the Office's capacity-building and technical assistance programme and the preparation of the 2023 report of the Secretary-General on the responsibility to protect.
67. For 2024, extrabudgetary resources in the estimated amount of \$274,800 would provide for two positions (1 P-3 and 1 General Service (Other level)) as well as the Office's capacity-building and technical assistance programme.
68. The decrease in the estimated extrabudgetary resources to be utilized in 2024 compared with 2023 is due mainly to the completion of projects supporting capacity-building and technical assistance work of the Office as well as decreased unarmarked contributions.

3. Personal Envoy of the Secretary-General for Western Sahara

(*\$567,800*)

Foreword

Since taking up my assignment in November 2021, I have taken a proactive approach to advance the political process on Western Sahara in line with Security Council resolutions [2602 \(2021\)](#) and [2654 \(2022\)](#).

In January 2022, I completed an initial tour of the region, which offered me a valuable opportunity to hear positions, as well as views on how to make progress towards a constructive resumption of the political process. In the third quarter of 2022, I completed a second set of visits to all concerned actors in the region, with a view to deepening the consideration of the respective positions. Throughout the year, I continued to undertake further consultations with members of the Security Council, members of the Group of Friends on Western Sahara and other interested actors.

My engagements have taken place against the backdrop of new challenges and setbacks on the ground. The lack of an effective ceasefire in Western Sahara, the dire humanitarian situation in the refugee camps in Tindouf and regional tensions remain deeply concerning and underscore the urgent need for a long overdue peaceful solution to this conflict. I will continue to assist the parties to achieve a just, lasting and mutually acceptable solution that will provide for the self-determination of the people of Western Sahara, in line with relevant Security Council resolutions. In this regard, it will be essential for me to continue to rely on strong and united support from the international community and the appropriate resources to carry out my mandate.

(Signed) Staffan **de Mistura**
Personal Envoy of the Secretary-General for Western Sahara

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

69. The Personal Envoy of the Secretary-General for Western Sahara is responsible for assisting the parties, Morocco and the Frente Popular para la Liberación de Saguía el-Hamra y de Río de Oro (Frente POLISARIO), in finding a just, lasting and mutually acceptable political solution, which will provide for the self-determination of the people of Western Sahara in the context of arrangements consistent with the principles and purposes of the Charter of the United Nations.
70. The mandate derives from the communications between the Secretary-General and the President of the Security Council dated 17 March 1997 (S/1997/236), 1 October 2021 (S/2021/851) and 5 October 2021 (S/2021/852), as well as from the priorities established in relevant Security Council resolutions, including resolutions 1813 (2008), 2099 (2013), 2468 (2019), 2494 (2019), 2548 (2020) and 2602 (2021). In its resolution 2654 (2022), the Council expressed its full support for Staffan de Mistura, the Personal Envoy of the Secretary-General for Western Sahara, and his efforts to advance the political process, and welcomed the visits undertaken by the Personal Envoy in that regard to the region. The Council called upon the parties to resume negotiations under the auspices of the Secretary-General without preconditions and in good faith, as well as to demonstrate political will and work in an atmosphere propitious for dialogue, and stressed the importance of all concerned expanding on their positions in order to advance a solution. The Council reaffirmed its commitment to assist the parties to achieve a just, lasting and mutually acceptable political solution, based on compromise, which would provide for the self-determination of the people of Western Sahara in the context of arrangements consistent with the principles and purposes of the Charter of the United Nations, and noted the role and responsibilities of the parties in that respect.

Programme of work

Objective

71. The objective, to which this mission contributes, is to advance the parties' efforts to achieve a just, lasting and mutually acceptable political solution, which will provide for the self-determination of the people of Western Sahara.

Strategy and external factors for 2024

72. To contribute to the objective, the mission will:
 - (a) Encourage the parties to continue the discussion on the question of Western Sahara in order to identify elements of convergence, through bilateral consultations, including with the neighbouring countries of Algeria and Mauritania, conduct visits to the region to meet with key interlocutors and engage in shuttle diplomacy and other activities deemed useful in that regard;
 - (b) Consult with members of the Security Council and the Group of Friends on Western Sahara, both in their capitals and in New York, as well as with regional organizations, towards a solution;
 - (c) Work towards organizing two international meetings on Western Sahara.

73. The above-mentioned work is expected to result in:
 - (a) Building additional trust and strengthening involvement by the parties in the political process;
 - (b) Maintaining support by the international community for the political process.
74. With regard to cooperation with other entities, the mission will regularly meet with representatives of regional organizations and other relevant stakeholders to exchange views on the United Nations-led political process.
75. With regard to inter-agency coordination and liaison, the mission will continue to receive support for visits and information on developments in Western Sahara from the United Nations Mission for the Referendum in Western Sahara, as well as coordinating and liaising with the Office of the United Nations High Commissioner for Refugees (UNHCR) with respect to visits to the refugee camps and on confidence-building measures and maintaining close contact with OHCHR in Geneva on issues related to the human rights situation in its area of responsibility.
76. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
 - (a) All concerned show willingness to meet for direct negotiations;
 - (b) The security situation remains conducive to the mission's objective for the region.
77. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The mission will continue to actively work for the participation of women in meetings held in the context of their inclusion in the political process.

Impact of the pandemic and lessons learned

78. The continuation of the COVID-19 pandemic into 2022 had a moderate impact on the implementation of mandates, somewhat limiting travel of the Personal Envoy under the provision of good offices for high-level dialogue involving the stakeholders concerned.
79. The mission continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including through the use of digital tools for stakeholder engagements and by allowing flexible working arrangements in the office of the Personal Envoy.

Programme performance in 2022

Resumed engagement with all concerned

80. In 2022, the Personal Envoy continued his efforts to engage all concerned stakeholders. From 13 to 20 January 2022, the Personal Envoy completed an initial tour of the region, visiting successively Rabat, Tindouf/Rabouni, Nouakchott and Algiers. In the third quarter of 2022, the Personal Envoy completed a second set of visits to all concerned actors in the region with a view to deepening the consideration of the respective positions. Throughout the year, the Personal Envoy continued to undertake further consultations on the issue of Western Sahara, including by visiting capitals of all members of the Group of Friends on Western Sahara, briefing the Security Council and further engaging Security Council members and other interested actors.
81. Progress towards the objective is presented in the performance measure below (see figure III).

Figure III

Performance measure: number of rounds of engagement with all concerned

Planned result for 2024

Advancing the process on Western Sahara

Programme performance in 2022 and target for 2024

82. In 2022, the mission's work, including through the resumed engagement of the Personal Envoy with all concerned stakeholders, contributed to meeting the planned target of continued engagement between the parties and neighbours towards advancing the political process.
83. In 2024, the mission will continue to build on past work to advance the political process through consultations with all concerned, visits to the region to meet key interlocutors, including representatives of civil society and women's organizations, and other measures deemed useful in this regard. It will also continue to hold consultations with Member States in their capitals and in New York, as appropriate. In addition, the mission will continue to liaise with relevant United Nations entities in Geneva and other locations to discuss various aspects related to the conflict. The mission will also meet regularly with representatives of relevant regional organizations to exchange views on the United Nations-led political process.

Lessons learned and planned change

84. The lesson for the mission was to maintain the momentum in the political process. In applying the lesson, the mission will continue to engage regularly with all concerned to resume the discussion on the question of Western Sahara in order to identify elements of convergence, with a view to achieving a mutually acceptable political solution to the question of Western Sahara.
85. Expected progress towards the objective and the target for 2024 are presented in the performance measure below (see table 11).

Table 11

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
No face-to-face meetings	Resumed engagement between the parties and neighbours	Continued engagement between the parties and the neighbours	Two international meetings	Two international meetings

Deliverables

Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

^a The Under-Secretary-General is on a when-actually-employed contract.

87. The proposed resource requirements for 2024 for the Personal Envoy of the Secretary-General for Western Sahara amount to \$567,800 (net of staff assessment) and would provide for salaries and common staff costs (\$379,600) for the continuation of the two positions (1 Under-Secretary-General, on a when-actually-employed contract, and 1 P-3), as well as operational costs (\$188,200), comprising costs for consultants and consulting services (\$20,400), official travel (\$74,700), facilities and infrastructure (\$52,000), ground transportation (\$1,000), communications and information technology (\$11,000) and other supplies, services and equipment (\$29,100).
88. In 2024, no change is proposed to the number and levels of the positions. A vacancy rate of zero per cent has been applied to the positions based on the actual vacancy rate in March 2023.
89. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to the application of a zero per cent vacancy rate compared with the budgeted vacancy rate of 5 per cent in 2023, as well as higher salaries and common staff costs based on recent expenditure patterns.

4. Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution 1559 (2004)

(\$420,100)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

90. On 14 December 2004, the Secretary-General appointed his Special Envoy for the implementation of Security Council resolution 1559 (2004) to enable him to report to the Council every six months on the implementation of Council resolution 1559 (2004), as requested by the Council in its presidential statement of 19 October 2004 (S/PRST/2004/36). In carrying out this mandate, the mission consults with political interlocutors in Lebanon, the Council and other Member States to prepare the semi-annual reports of the Secretary-General. The mandate derives from the priorities established in relevant Council resolutions and decisions, including resolution 1559 (2004), and the statement by the President of the Security Council dated 19 October 2004 (S/PRST/2004/36). In addition, the mission has worked towards strengthening the response by relevant Member States in the implementation of the remaining provisions of Council resolution 1680 (2006).
91. On 17 May 2006, in response to the third semi-annual report of the Secretary-General on the implementation of resolution 1559 (2004) (S/2006/248), the Security Council adopted resolution 1680 (2006), in which it reiterated its call for the full implementation of the provisions of resolution 1559 (2004). Through that resolution, the Council also strongly encouraged the Government of the Syrian Arab Republic to respond positively to the request made by the Government of Lebanon, in line with the agreements of the Lebanese national dialogue, to delineate their common border, especially in those areas where the border was uncertain or disputed.
92. On 11 August 2006, the Security Council adopted resolution 1701 (2006), in which it emphasized the importance of the extension of the control of the Government of Lebanon over all Lebanese territory in accordance with the provisions of resolutions 1559 (2004) and 1680 (2006), and of the relevant provisions of the Taif Accords. The Council requested the Secretary-General to develop, in liaison with relevant international actors and the parties concerned, proposals to implement the relevant provisions of the Taif Accords and resolutions 1559 (2004) and 1680 (2006), including with respect to disarmament and the delineation of the international borders of Lebanon. It also requested the Secretary-General to report to the Council on a regular basis on the implementation of resolution 1701 (2006).
93. In resolution 2236 (2015) and all subsequent resolutions on Lebanon, including, most recently, resolution 2650 (2022), the Security Council continued to urge all parties to make tangible progress towards all outstanding issues in the implementation of resolutions 1701 (2006), 1680 (2006) and 1559 (2004), and other relevant Council resolutions. On 25 May 2022, the Council issued a press statement to reaffirm the Council's strong support for the stability, security, territorial integrity, sovereignty and political independence of Lebanon, consistent with Council resolutions 1701 (2006), 1680 (2006), 1559 (2004) and 2591 (2021), as well as other relevant Security Council resolutions and statements of the President of the Security Council on the situation in Lebanon. In 2016, the Under-Secretary-General for Political Affairs was tasked by the Secretary-General with assuming the responsibility of reporting on the implementation of resolution 1559 (2004), an arrangement that has been maintained to date.
94. In October 2019, large-scale peaceful protests began countrywide. Some groups called for, among other things, the implementation of Security Council resolution 1559 (2004). The COVID-19

pandemic, the 4 August 2020 explosion in the Port of Beirut and the government vacuum that followed compounded the effects of the socioeconomic crisis in the country. In May 2022, Lebanon held its parliamentary elections. On 23 June 2022, the caretaker Prime Minister, Najib Mikati, was designated to form a new Government. On 31 October 2022, the term of the President, Michel Aoun, ended. To date, a new Government has not been formed and a new President has not been elected.

Programme of work

Objective

95. The objective, to which this mission contributes, is to ensure full implementation of Security Council resolution [1559 \(2004\)](#) and all subsequent related resolutions of the Council.

Strategy and external factors for 2024

96. To contribute to the objective, the mission will:
 - (a) Explore ways to foster consensus on a Lebanese-led and Lebanese-owned national dialogue, which is expected to result in progress on addressing the maintenance of weapons outside State authority. Past results in this area include the holding of a national dialogue by Lebanese political decision makers;
 - (b) Produce two semi-annual reports of the Secretary-General to the Security Council on developments of relevance to the implementation of Security Council resolution [1559 \(2004\)](#). The reports will address a number of key issues, such as the sovereignty, territorial integrity, unity and political independence of Lebanon; the extension of control of the Government of Lebanon over all Lebanese territory; and the disbanding and disarmament of Lebanese and non-Lebanese militias. Reporting on these categories, the Secretary-General will inform the Council on political and security developments during the reporting period, violations of Lebanese sovereignty and the maintenance of weapons by Lebanese and non-Lebanese militias.
97. The above-mentioned work is expected to result in informed Security Council deliberations on possible opportunities for Lebanon to make progress on the outstanding provisions of Council resolution [1559 \(2004\)](#).
98. With regard to inter-agency coordination and liaison, the Office of the Special Envoy coordinates and works closely with the Office of the United Nations Special Coordinator for Lebanon, in particular in the process of developing the reports of the Secretary-General ahead of and during the visits to Lebanon by the staff of the Office of the Special Envoy.
99. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
 - (a) Presidential election and government formation continue to be challenging and the current economic and financial crisis remains a source of instability and social unrest;
 - (b) The tense and volatile regional environment affects Lebanon's internal stability and security;
 - (c) There is limited political will on the part of the parties concerned to address the disbanding and disarmament of Lebanese and non-Lebanese militias;
 - (d) The political goodwill of Member States has limited influence on the parties concerned;
 - (e) Tensions between Lebanon and other States in the region are somewhat eased.

Impact of the pandemic and lessons learned

100. The continuation of the COVID-19 pandemic into 2022 had limited impact on the implementation of mandates. In-person consultations in Lebanon prior to the production of the semi-annual reports of the Secretary-General on the implementation of Security Council resolution 1559 (2004) took place as planned.
101. The Office continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. However, the key lesson for the Office is that in-person consultations are necessary to contribute to achieving results.

Programme performance in 2022

Enhanced understanding of Security Council members on developments of relevance to the implementation of resolution 1559 (2004)

102. The Office undertook two trips to Lebanon in March and September 2022, which informed the drafting of the April and October 2022 reports of the Secretary-General on the implementation of resolution 1559 (2004).
103. The above-mentioned work contributed to the understanding of Security Council members on developments of relevance to the implementation of the outstanding provisions of Security Council resolution 1559 (2004).

Planned result for 2024

Informed Security Council deliberations through analytical reports of the Secretary-General Programme performance in 2022 and target for 2024

104. The Office's work contributed to informing Security Council deliberations on developments of relevance to the implementation of the outstanding provisions of Council resolution 1559 (2004). It met the planned target of Council discussions on the two semi-annual reports to reflect the outcome of consultations on the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority.
105. In 2024, the Office will continue to report to the Security Council semi-annually on progress in the implementation of the resolution, in particular the disbanding and disarmament of Lebanese and non-Lebanese militias.

Lessons learned and planned change

106. The lesson for the Office is that in-person consultations are necessary to contribute to the achievement of results. In applying the lesson, the Office will further leverage engagement with United Nations entities both at United Nations Headquarters and among the United Nations country team in Lebanon, in addition to maintaining its network of interlocutors in the country.
107. Expected progress towards the objective and the target for 2024 are presented in the performance measure below (see table 15).

Table 15
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Discussions on the two semi-annual reports, which did not reflect the outcome of consultations on the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority	Discussions on the two semi-annual reports to reflect the outcome of consultations on the positions of Lebanese actors, which were only partially articulated, vis-à-vis the maintenance of weapons outside State authority	Discussions on the two semi-annual reports, which reflect the outcome of systemic consultations surveying the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority	Discussions on the two semi-annual reports, which reflect the outcome of systemic consultations on the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority	Discussions on the two semi-annual reports, which reflect the outcome of consultations on the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority

Deliverables

108. Table 16 lists all deliverables of the mission.

Table 16
Deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Reports of the Secretary-General to the Security Council	2	2	2	2
Substantive services for meetings (number of consultations)	2	2	2	2
2. Meetings of the Security Council on resolution 1559 (2004)	2	2	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: consultations to gain an understanding of the political, socioeconomic and humanitarian situation in Lebanon, as well as its regional environment, as it may influence the implementation of resolution 1559 (2004) ; consultations on the positions of Lebanese actors vis-à-vis the maintenance of weapons outside State authority.				

B. Proposed post and non-post resource requirements for 2024

Resource requirements (regular budget)

Table 17

Financial resources

(Thousands of United States dollars)

Category of expenditure	2022		2023		2024	Variance
	Appropriation	Expenditure	Appropriation	Requirements		2024 vs. 2023 Increase/(decrease)
	(1)	(2)	(3)	(4)	(5)=(4)-(3)	
Military and police personnel costs	–	–	–	–	–	–
Civilian personnel costs	249.1	342.7	287.1	337.4	337.4	50.3
Operational costs	89.5	50.7	85.1	82.7	82.7	(2.4)
Total (net of staff assessment)	338.6	393.4	372.2	420.1	420.1	47.9

Table 18

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2023	1 ^a	–	–	–	–	1	–	–	–	1 ^b	3	–	–	–	–	–	
Proposed 2024	1 ^a	–	–	–	–	1	–	–	–	1 ^b	3	–	–	–	–	–	–	3
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a The Under-Secretary-General is on a \$1-per-year contract.

^b Other level, unless otherwise stated.

109. The proposed resource requirements for 2024 for the Office of the Special Envoy of the Secretary-General for the implementation of Security Council resolution [1559 \(2004\)](#) amount to \$420,100 (net of staff assessment) and would provide for salaries and common staff costs (\$337,400) for the continuation of three positions (1 Under-Secretary-General, 1 P-4 and 1 General Service (Other level)), as well as operational costs (\$82,700), comprising costs for official travel (\$39,100), facilities and infrastructure (\$32,500), ground transportation (\$2,000), communications and information technology (\$7,300) and other supplies, services and equipment (\$1,800).
110. In 2024, no change is proposed to the number and level of positions. A vacancy rate of zero per cent has been applied to the positions based on the actual average vacancy rate in 2022.
111. The increase in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to the application of a lower vacancy rate of zero per cent compared with the budgeted vacancy rate of 5 per cent in 2023, as well as higher salary and common staff costs based on recent expenditure patterns.

5. Office of the United Nations Representative to the Geneva International Discussions

(\$2,059,100)

Foreword

In 2022, the tense geopolitical situation affected the Geneva International Discussions. Instead of the four rounds planned, only one round took place in October. After the postponements in March and June, consultations resumed with the participants in person and online in May and June 2022.

Ahead of the fifty-sixth round, in September 2022, the United Nations Representative to the Geneva International Discussions, with the European Union and Organization for Security and Cooperation in Europe (OSCE) Co-Chairs, conducted visits to Tbilisi and Moscow, as well as to Sukhumi and Tskhinvali, and held consultations with the participants. In Tbilisi, they held a meeting with the representative of the delegation of the United States of America to the Geneva International Discussions.

Subsequently, the fifty-sixth round of the Geneva International Discussions was held on 5 October 2022 in Geneva, with all participants taking part. With a view to protecting and maintaining the Discussions, the Co-Chairs postponed the fifty-seventh round to April 2023.

The Co-Chairs' constant engagement with all participants contributed to the relatively calm, stable and secure humanitarian situation on the ground.

I continued negotiations with the participants of the Gali Incident Prevention and Response Mechanism to resume the suspended meetings and reiterated the Mechanism's importance to maintaining security and stability on the ground.

In furthering the implementation of the Co-Chairs' joint strategy and action plan on women and peace and security, I met with women's non-governmental organizations, civil society representatives and activists and continued to advocate for gender equality and the promotion of the role of women in peace and security. In cooperation with the Co-Chairs, I will continue consultations with all the participants and relevant authorities to bring a lasting solution to the conflict.

(Signed) Ayse Cihan **Sultanoğlu**

United Nations Representative to the Geneva International Discussions

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

112. The Office of the United Nations Representative to the Geneva International Discussions is mandated to support the Geneva International Discussions and the Incident Prevention and Response Mechanism under United Nations auspices in Gali, Georgia, by facilitating the participation of the United Nations in the international discussions in Geneva and the Gali Incident Prevention and Response Mechanism, and by liaising and coordinating with the relevant actors. The mission is also responsible for preparing, convening and facilitating, in consultation with the other Co-Chairs, the European Union and OSCE, the sessions of the Geneva International Discussions as well as the periodic meetings of the Gali Incident Prevention and Response Mechanism.
113. The United Nations has continued to support the Geneva International Discussions on security and stability and the return of internally displaced persons and refugees, which commenced on 15 October 2008 in Geneva in accordance with the six-point agreement of 12 August 2008 and the implementing measures of 8 September 2008, mediated by the French Presidency of the European Union, following the hostilities of August 2008 (see [S/2009/254](#)). In its resolution [1866 \(2009\)](#), the Security Council welcomed the beginning of the discussions and requested the Secretary-General, through his Special Representative, to continue to fully support the process. The Secretary-General addressed a letter on this matter to the Minister for Foreign Affairs of Georgia on 29 September 2009 and the Minister for Foreign Affairs of Georgia replied to the Secretary-General on 28 October 2009.
114. Against the background of the “Proposals for joint incident prevention and response mechanisms”, agreed to in Geneva on 18 February 2009, the Secretary-General, on 28 September 2009, addressed a letter to the President of the Security Council in which he updated the members of the Council on the progress in the Geneva International Discussions and the convening of the joint Incident Prevention and Response Mechanism under United Nations auspices in Gali (*ibid.*, paras. 5 and 6). The Secretary-General also stated that, following consultations with the relevant stakeholders, the United Nations would continue to support the Geneva International Discussions and the Mechanism through a limited number of personnel with the task of facilitating the United Nations participation in the international discussions in Geneva and in the Mechanism, and liaising and coordinating with the relevant actors.
115. In a letter dated 28 December 2009 addressed to the President of the Security Council, the Secretary-General noted that, given the important role of the Geneva International Discussions and the Mechanism in stabilizing the situation and building confidence, and in the light of the broad support, including from the main stakeholders, for a continued and effective United Nations engagement beyond 31 December 2009, the United Nations would continue to provide support for the Geneva International Discussions and the work of the Mechanism. In a letter dated 25 February 2010 addressed to the President of the Security Council ([S/2010/103](#)), the Secretary-General conveyed, following consultations, his intention to appoint a United Nations Representative responsible for United Nations support for the Geneva International Discussions and the Mechanism. In a letter dated 2 May 2011 ([S/2011/279](#)), the President of the Security Council informed the Secretary-General that the members of the Security Council had taken note of his intention and of the information contained in his letter of 25 February 2010. In a letter dated 2 July 2018 addressed to the President of the Security Council ([S/2018/665](#)), the Secretary-General conveyed, following consultations, his intention to appoint Ayşe Cihan Sultanoğlu as the United Nations Representative. In a letter dated 5 July 2018 ([S/2018/666](#)), the President of the Security Council informed the Secretary-General that the members of the Council had taken note of the intention expressed in his letter of 2 July 2018.

Programme of work

Objective

116. The objective, to which this mission contributes, is to advance the main agenda items of the Geneva International Discussions, including the non-use of force/international security arrangements and addressing the issue of internally displaced persons and refugees, in the context of the Discussions and the Gali Incident Prevention and Response Mechanism.

Strategy and external factors for 2024

117. To contribute to the objective, the mission, in close partnership with the offices of the other Co-Chairs, will continue to step up efforts to maintain the Geneva International Discussions and to revitalize them, and to resume the regular meetings as result-oriented platforms for dialogue and conflict prevention, which is expected to result in contributing to the ultimate goal of transitioning the Discussions from a conflict management to a conflict transformation and resolution process. Emphasis will be placed on addressing and making progress on central issues, including the non-use of force/international security arrangements and internally displaced persons and refugees.
118. The above-mentioned work is expected to result in:
- (a) Contributing to the ultimate goal of transitioning the Discussions from a conflict management to a conflict transformation and resolution process.
 - (b) Addressing and making progress on central issues, including the non-use of force/international security arrangements and internally displaced persons and refugees.
119. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) All stakeholders will continue to support the International Discussions in Geneva and the Gali Incident Prevention and Response Mechanism and the continued engagement of the United Nations;
 - (b) All relevant stakeholders and participants in the Geneva International Discussions will continue to support efforts to help to revitalize the Discussions and enhance their effectiveness;
 - (c) The three organizations that serve as Co-Chairs will continue to collaborate closely to fulfil the mandate of the Discussions.
120. With regard to cooperation with other entities, the mission will continue its proactive approach to ensure close and regular coordination and information-sharing with the European Union and OSCE Co-Chairs and their teams. The Mission will also continue to maintain close contact with the European Union Monitoring Mission in Georgia and OSCE, which jointly chair the Ergneti Incident Prevention and Response Mechanism. In addition, the mission will continue to pursue contacts with international non-governmental organizations and think tanks in the fields of conflict resolution, mediation and women and peace and security.
121. With regard to inter-agency coordination and liaison, the mission will continue to cooperate closely with the United Nations agencies, funds and programmes, such as the Resident Coordinator Office in Georgia, UNHCR, UNDP, the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women), OHCHR, the World Health Organization and other actors so as to coordinate and strengthen the role and contribution of the United Nations within the framework of the Geneva International Discussions and the Gali Incident Prevention and Response Mechanism.
122. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, including engaging in advocacy for gender equality and promoting the participation of women in the peace process, as well as their direct involvement in development programmes. In close cooperation with the other Co-Chairs and their focal points on women and peace and security,

the mission continues to promote the role of women in conflict resolution and peacebuilding and works closely with the respective headquarters of the other Co-Chairs for that purpose and in the framework of the Co-Chairs' joint strategy and action plan adopted in 2019. In 2024, the Co-Chairs will continue their engagement initiated in 2019 to take advantage of the synergies between the women and peace and security and the youth and peace and security agendas.

Impact of the pandemic and lessons learned

123. In 2022, the spread of the COVID-19 pandemic significantly subsided in Georgia. As a result, crossing points on the Georgian-Abkhaz line of control/administrative boundary line have remained open, with humanitarian deliveries resuming as before the pandemic. In the Georgian-South Ossetian line of control/administrative boundary line, as of August 2022, two crossing points remained partially open for 10 days from the 20th to the 30th of each month. The mission will continue to engage with relevant Member States in advocacy of substantive humanitarian and economic assistance for the vulnerable population, including in Abkhazia, Georgia, and the Tskhinvali region/South Ossetia, Georgia.
124. In addition, the mission continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including flexible working arrangement approaches, changes in the footprint of the premises, the use of online meetings and the reduction of travel to the extent possible to reduce its carbon footprint.

Programme performance in 2022

Continuation of efforts to achieve concrete results on key issues on the agenda of the Geneva International Discussions

125. While the challenging geopolitical context in 2022 limited space for holding the planned rounds of the Geneva International Discussions, one of the rounds took place on 5 October 2022, co-chaired by the representatives of the United Nations, the European Union and OSCE, which all participants attended. In 2022, the Co-Chairs organized three visits to Tbilisi, Sukhumi and Tskhinvali, and one visit to Moscow for pre-round consultations. In May 2022, they paid a visit to Washington, D.C., and New York and held discussions with United States officials. In New York, they met with United Nations officials and other relevant stakeholders. The Co-Chairs made their annual presentation to the OSCE Permanent Council in Vienna in November 2022. The field trips of the mission's political and humanitarian affairs officers resumed to Tbilisi, Gali and Sukhumi in a more systematic manner to engage in person with relevant authorities, civil society actors and representatives of United Nations agencies and international non-governmental organizations, as well as with other interlocutors to deepen their understanding of the political, security and humanitarian situations and how to address them in the rounds of the Geneva International Discussions.
126. For the fifth year in a row, no regular or ad hoc Gali Incident Prevention and Response Mechanism meetings took place in 2022. However, the mission has continued to be in close contact with the Georgian and Abkhaz participants, as well as Russian and European Union Monitoring Mission participants. Through these contacts, the mission has managed to achieve results in security- and humanitarian-related issues. Freedom of movement along the authorized crossing points continued throughout the year, and the security situation on the ground remained calm and stable.
127. Progress towards the objective is presented in the performance measure below (see table 19).

Table 19
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
Owing to the COVID-19 pandemic, only one round of the Geneva International Discussions took place. Participants resumed engagement on the key agenda items in both Working Group I and II. No information session was organized	Four in-person rounds of the Geneva International Discussions took place Two information sessions on “Comprehensive/human dimension of security”, one technical meeting of medical experts on COVID-19 and a sub-working group on “Freedom of movement and other related aspects” were organized	Owing to the tense geopolitical situation, only one round of the Geneva International Discussions took place

Planned result for 2024

Revitalizing the Geneva International Discussions to achieve practical results

Programme performance in 2022 and target for 2024

128. The mission’s work contributed to the firm commitment of all participants of the Geneva International Discussions to continue engagement to prevent a resumption of hostilities. The mission did not meet the target of progress by the stakeholders on the substantive issues of the Geneva International Discussions agenda, owing to the challenging geopolitical context, differences among the participants and the suspension of the Gali Incident Prevention and Response Mechanism to promote peace and stability on the ground.
129. The mission, in cooperation with the other Co-Chairs, will make every effort to hold the regular rounds of the Geneva International Discussions in 2024 and will strive to make progress on substantive agenda items.
130. In relation to the Gali Incident Prevention and Response Mechanism, it has not been possible to resume it since its suspension in June 2018. After the mission’s active and continuous negotiations, the participants agreed to resume the meetings on the basis of existing principles and practices but with one precondition. Consultations to solve this issue are ongoing.
131. If the Gali Incident Prevention and Response Mechanism meetings fail to be resumed in 2023, the mission will continue to make every effort to work with the participants to ensure the resumption of the meetings of the Mechanism. In addition, in close cooperation with the European Union and OSCE, the mission will facilitate engagement as appropriate between the relevant participants with a view to solving topical issues, and will continue to advocate for freedom of movement and for the crossing points to remain open.

Lessons learned and planned change

132. The lesson for the mission was the need to adapt alternative (virtual) modes of engagement with the participants of the Geneva International Discussions and the participants of the Gali Incident Prevention and Response Mechanism. In applying the lesson, the mission will continue to use virtual and alternate methods as appropriate in its engagement with the participants of the Discussions, especially with the participants of the Gali Incident Prevention and Response Mechanism and other interlocutors, including relevant officials.
133. Expected progress towards the objective and the target for 2024 are presented in the performance measure below (see table 20).

Table 20
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
One round of the Geneva International Discussions took place. No progress was made on substantive agenda items	Four rounds of the Geneva International Discussions took place. No progress was made on substantive agenda items	One round of the Geneva International Discussions took place. No meetings of the Gali Incident Prevention and Response Mechanism took place during the period	No meetings of the Gali Incident Prevention and Response Mechanism took place during the period	No meetings of the Gali Incident Prevention and Response Mechanism took place during the period		

Deliverables

134. Table 21 lists all deliverables of the mission.

Table 21
Deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	16	1	10	10
1. Rounds of the Geneva International Discussions	4	1	4	4
2. Meetings of the Gali Incident Prevention and Response Mechanism	12	–	6	6
B. Generation and transfer of knowledge				
Technical materials (number of materials)	2	–	2	2
3. Thematic non-papers prepared by the Co-Chairs on non-use of force, freedom of movement, internally displaced persons and other issues related to the Geneva International Discussions agenda	2	–	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: consultations on thematic issues on the Geneva International Discussions agenda related to peace and security and humanitarian issues; advice through information sessions on specific thematic issues on the agenda for participants in the Geneva International Discussions; advocacy through information sessions on areas of interest to the participants related to the Geneva International Discussions agenda.				
D. Communication deliverables				
External and media relations: four Geneva International Discussions rounds, and six Gali Incident Prevention and Response Mechanism meetings are planned. Accordingly, four press communiqués of the Co-Chairs after the rounds and six press releases after each meeting of the Gali Incident Prevention and Response Mechanism meetings are planned to be issued.				

B. Proposed post and non-post resource requirements for 2024

Resource requirements (regular budget)

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

135. The proposed resource requirements for 2024 for the Office of the United Nations Representative to the Geneva International Discussions amount to \$2,059,100 (net of staff assessment) and would provide for salaries and common staff costs (\$1,589,700) for the continuation of six positions based in Geneva (1 Assistant Secretary-General, 1 P-5, 2 P-4, 1 P-3 and 1 General Service (Other level)) and one position based in Zugdidi, Georgia (P-3), as well as for operational costs (\$469,400), comprising costs for consultants and consulting services (\$10,100), official travel (\$210,000), facilities and infrastructure (\$134,700), ground transportation (\$21,800), communications and information technology (\$47,800) and other supplies, services and equipment (\$45,000).
136. In 2024, no change is proposed to the number and levels of the positions. A vacancy rate of zero per cent has been applied on the basis of the actual average vacancy rate in 2022.
137. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable to higher salary and common staff costs on the basis of recent expenditure patterns and slightly higher costs for the rental of premises in Tbilisi.

6. Office of the Special Envoy of the Secretary-General for Syria

(*\$14,200,600*)

Foreword

As the conflict in the Syrian Arab Republic enters its thirteenth year, Syrians continue to suffer in profound ways, with growing humanitarian needs, the continued effects of the destruction in the country and the collapse of the Syrian economy. The devastating earthquake that struck the northern part of the country on 6 February 2023 claimed thousands of lives and caused further destruction, exacerbating an already dire humanitarian and economic situation.

No one actor or group of actors in the Syrian Arab Republic can determine the outcome of this conflict. What is needed is a comprehensive political solution. I therefore continue to focus on identifying concrete, reciprocal steps that could help build trust and facilitate a genuine process to implement Security Council resolution [2254 \(2015\)](#). To this end, I continue to engage with national, regional and international stakeholders. I also continue to consult with the Syrian Women's Advisory Board and Syrian civil society representatives.

Any credible attempt to build trust must include serious steps in relation to the plight of the detained, the disappeared and the missing. I will continue to underline the importance of a nationwide ceasefire and finding a cooperative approach towards countering listed terrorist groups, in line with international law. I will also continue efforts to unblock obstacles to convening the Constitutional Committee in Geneva.

Progress is achievable with concerted effort. I appeal to all relevant Syrian and international actors to coordinate with the United Nations and set us on a path towards a comprehensive political solution, in line with resolution [2254 \(2015\)](#), that meets the legitimate aspirations of all Syrians and restores the country's sovereignty, independence, unity and territorial integrity.

(Signed) Geir O. Pedersen
Special Envoy of the Secretary-General for Syria

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

138. On 16 February 2012, the General Assembly, in its resolution [66/253 A](#), requested the Secretary-General and all relevant United Nations bodies to support the efforts of the League of Arab States aimed at promoting a peaceful solution to the conflict in the Syrian Arab Republic, including through the appointment of a special envoy.
139. The Office of the Special Envoy of the Secretary-General for Syria is responsible for facilitating an inclusive, comprehensive and credible Syrian-owned and -led political solution to the conflict in the Syrian Arab Republic that will meet the legitimate aspirations of the Syrian people for dignity, freedom and justice based on the principles of equality and non-discrimination. The mandate derives from the priorities established by the Security Council in resolutions [2118 \(2013\)](#), [2254 \(2015\)](#), [2268 \(2016\)](#) and [2336 \(2016\)](#), as well as by the General Assembly in resolution [66/253 A](#).
140. The conflict in the Syrian Arab Republic, now in its thirteenth year, has caused enormous humanitarian suffering, a record number of refugees and internally displaced persons and vast destruction in the country. Amid the continued presence of foreign armies in the Syrian Arab Republic and Security Council-listed terrorist groups, the conflict continues to pose significant risks to regional and international security. Accordingly, it is critical to continue to work towards an inclusive, credible and comprehensive political solution to the conflict that sees the full implementation of Security Council resolution [2254 \(2015\)](#).

Programme of work

Objective

141. The objective, to which this mission contributes, is to advance the full implementation of all the relevant General Assembly and Security Council resolutions, including Assembly resolution [66/253 A](#) and Council resolutions [2118 \(2013\)](#), [2254 \(2015\)](#), [2268 \(2016\)](#) and [2336 \(2016\)](#), towards an inclusive, credible, comprehensive Syrian-owned and -led political solution to the conflict in the Syrian Arab Republic that meets the legitimate aspirations of the Syrian people for dignity, freedom and justice, based on the principles of equality and non-discrimination and with the full and meaningful participation of women.

Strategy and external factors for 2024

142. To contribute to the objective, the mission will:
 - (a) Continue to engage with the Government of the Syrian Arab Republic and the opposition, as well as with regional and international stakeholders, including in the context of the aftermath of the earthquake, on various aspects of the political process, including on identifying and implementing initial step-for-step confidence-building measures in line with Security Council resolution [2254 \(2015\)](#); continue to focus on the file of the detained, the disappeared and the missing, and further deepen the engagement with victims' and family associations and civil society organizations; and work to create the conditions for a safe, calm and neutral environment conducive to advancing an inclusive, comprehensive and credible political settlement of the Syrian conflict in line with Security Council resolution [2254 \(2015\)](#);

- (b) Focus on improving international cooperation to help international stakeholders deepen their own dialogue in new formats towards the common purpose of a sustainable political settlement of the Syrian conflict that can enjoy international legitimacy and encompasses all elements of Security Council resolution [2254 \(2015\)](#);
 - (c) Continue efforts to resume meetings of the small body of the Syrian-led, Syrian-owned, United Nations-facilitated Constitutional Committee in Geneva and work with the Co-Chairs on finding ways to improve the substance and working methods of the Committee to catalyse a wider positive dynamic to move the political process forward, including working to create the conditions for inclusive, free and fair elections administered under United Nations supervision;
 - (d) Promote inclusive Syrian-Syrian dialogue and the exchange of knowledge, expertise and ideas through the Syrian Women's Advisory Board and the Syrian Civil Society Support Room; and continue to engage with the members of the Task Force on Humanitarian Access of the International Syria Support Group on key humanitarian priorities and with the members of the Group's Task Force on the Ceasefire on security-related developments and trends on the ground.
143. The above-mentioned work is expected to result in:
- (a) Sustained, regular and substantive negotiations and discussions among relevant stakeholders on all issues outlined in Security Council resolution [2254 \(2015\)](#);
 - (b) Enhanced trust and confidence among the Syrian parties as well as regional and international stakeholders;
 - (c) Strengthened international consensus to advance the political process across all elements of Security Council resolution [2254 \(2015\)](#), notably the establishment of a credible, inclusive and non-sectarian governance, the setting of a schedule and process for drafting a new constitution, as well as free and fair elections, pursuant to the new constitution, to be administered under United Nations supervision and to the highest international standards of transparency and accountability, with all Syrians, including members of the diaspora, eligible to participate.
144. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) All national, regional and international stakeholders will cooperate with the Special Envoy;
 - (b) International consensus with regard to the Syrian Arab Republic will continue to be difficult to achieve and sustain;
 - (c) The security situation will remain volatile in 2024, posing a threat to regional and international peace and security;
 - (d) The conflict will continue to severely affect civilians, especially women and children, risking more civilian casualties and further destruction of civilian infrastructure as well as human rights violations. Lack of accountability for grave human rights violations will hamper genuine reconciliation among the parties.
145. With regard to cooperation with other entities, in line with its mandate, the mission will continue to partner with the international community and international non-governmental organizations to facilitate and support the work of the Civil Society Support Room and the Syrian Women's Advisory Board. The Office will also continue to liaise with specialized international organizations (for example, the International Committee of the Red Cross) in the context of its work on the file of the detained, the disappeared and the missing.
146. With regard to inter-agency coordination and liaison, cooperation will continue with the resident coordinators and the agencies, funds and programmes of the United Nations operating in the Syrian Arab Republic and the region, including through the Office's presence in Damascus. In addition, agencies working in the Syrian Arab Republic are represented within the Inter-Agency Task Force

on the country, which ensures the coordination and coherence of United Nations political, humanitarian, human rights and other efforts in the country.

147. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, and will continue to consult regularly with the Syrian Women's Advisory Board and diverse women representatives from civil society to hear their perspectives on a sustainable and inclusive political solution.

Impact of the pandemic and lessons learned

148. The continuation of the COVID-19 pandemic into 2022 had no negative impact on the implementation of the mandate. As restrictions were eased, the mission resumed in-person meetings in Geneva of the Task Force on Humanitarian Access of the International Syria Support Group and of the thematic working groups of the Syrian Civil Society Support Room. The Office also resumed in-person regional outreach to Syrian civil society in Beirut, Amman and Gaziantep, Türkiye. The members of the Syrian Women's Advisory Board resumed in-person meetings in Geneva and several other locations, and the small body of the Constitutional Committee physically gathered twice in Geneva.
149. The mission continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including allowing staff members, within the framework of the flexible working arrangements policy and subject to exigencies of service, to work in a hybrid team set-up and telecommute two working days per week from the official duty station. The regular use of online platforms for internal meetings and engagements with external interlocutors has become part of the Office's new modus operandi.

Programme performance in 2022

Advancement of the implementation of the road map as outlined in resolution 2254 (2015) for the political process in the Syrian Arab Republic

150. The Special Envoy carried out the Secretary-General's good offices to advance towards the full implementation of resolution 2254 (2015), prioritizing engagement with the Government of the Syrian Arab Republic and the Syrian opposition on various aspects of the political process. He also consulted broadly with regional and international stakeholders to help create the conditions for an inclusive, credible and comprehensive political solution, in line with resolution 2254 (2015).
151. The mission convened seven plenary meetings of the Task Force on Humanitarian Access of the International Syria Support Group in Geneva as well as four ad hoc Task Force meetings to address pressing humanitarian issues. In addition, one plenary meeting of the Group's Task Force on the Ceasefire as well as three ad hoc Task Force meetings were convened to discuss security-related developments and trends on the ground. Furthermore, the Office continued to prioritize work on the file of the detained, the disappeared and the missing, and regularly engaged with the Syrian Women Advisory's Board, as well as with members of the Syrian Civil Society Support Room, to ensure inclusivity and gender mainstreaming in the political process.
152. Progress towards the objective is presented in the performance measure below (see table 24).

Table 24
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
Constitutional Committee sessions in Geneva, in tandem with international engagements on other elements of the political process, in accordance with Security Council resolution 2254 (2015) , to improve conditions on the ground, build trust and confidence, and open a path to credible negotiations	Constitutional Committee started discussions, based on its terms of reference, to find agreement on basic constitutional principles, while international engagements on other elements of the political process, in accordance with Security Council resolution 2254 (2015) , were deepened	Constitutional Committee discussed draft constitutional texts. The Office shared ideas with the Committee's Co-Chairs on ways to expedite the work and produce results and continued progress. Opportunities to advance a step-for-step confidence-building process in line with Security Council resolution 2254 (2015) were explored with national, regional and international stakeholders

Planned result for 2024

Establishing and advancing a credible, inclusive and comprehensive political process to advance on all elements of Security Council resolution [2254 \(2015\)](#)

Programme performance in 2022 and target for 2024

153. The mission's work contributed to the Constitutional Committee holding substantive discussions on draft constitutional texts on several titles of constitutional principles and submitting some revisions to reflect the content of the discussions. The Special Envoy expended significant effort towards facilitating the work of the small body of the Syrian Constitutional Committee in Geneva. In the first half of 2022, the mission convened the seventh and eighth sessions, allowing for substantive discussions on draft constitutional texts and constitutional principles. A ninth session, scheduled for July 2022, was postponed for reasons unrelated to the Syrian file. Throughout the second half of 2022, the Special Envoy continued to work to unblock obstacles to convening a ninth session and to address the substantive challenges that have faced the Committee. The mission's consultations with national, regional and international stakeholders resulted in a deepened dialogue on initial step-for-step confidence-building measures and the identification of some precise, concrete, reciprocal, verifiable, potential steps that could have a positive impact on the lives of Syrians and contribute to the creation of a safe, calm and neutral environment conducive to advancing an inclusive, comprehensive and credible political settlement of the Syrian conflict in line with resolution [2254 \(2015\)](#).

Lessons learned and planned change

154. The lesson for the mission was the need to continue to expand its engagement beyond the traditional interlocutors, including international stakeholders, firstly to broaden national ownership over the political process, and secondly to expand the scope of issues that are addressed in the political process. In applying the lesson, the mission will further broaden its scope and work with a wider range of stakeholders to ensure a comprehensive and holistic approach towards the implementation of Security Council resolution [2254 \(2015\)](#).
155. Expected progress towards the objective and the target for 2024 are presented in the performance measure below (see table 25).

Table 25
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Continuation of the work of the Constitutional Committee in tandem with progress on the broader political process in accordance with Security Council resolution 2254 (2015)	Constitutional Committee made progress in its discussions, based on its terms of reference, in tandem with progress on the broader political process in accordance with Council resolution 2254 (2015)	Constitutional Committee discussed draft constitutional texts. The Office shared ideas with the Committee's Co-Chairs on ways to expedite the work for continued progress. Opportunities to advance a step-for-step confidence-building process in line with Security Council resolution 2254 (2015) were explored with national, regional and international stakeholders	Constitutional Committee continues producing tangible results in tandem with sustained negotiations and consultations to advance the full implementation of Security Council resolution 2254 (2015)	Constitutional Committee continues producing tangible results in tandem with further progress on the broader political process in accordance with Security Council resolution 2254 (2015)

Deliverables

156. Table 26 lists all deliverables of the mission.

Table 26
Deliverables for the period 2022–2024, by category and subcategory

Seminars, workshops and training events (number of days)	8	31	8	8
6. Workshops for all Syrian stakeholders on topics relating to the peace talks, such as governance, constitution, elections, security governance/counter-terrorism and confidence-building measures	8	31	8	8

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
--------------------------	-----------------	----------------	-----------------	-----------------

C. Substantive deliverables

Good offices: provision of good offices to facilitate an inclusive Syrian-led and -owned political solution to the Syrian conflict, in line with Security Council resolution 2254 (2015), which will meet the legitimate aspirations of the Syrian people to dignity, freedom and justice based on the principles of equality and non-discrimination.

Consultation, advice and advocacy: consultation, advice and advocacy in support of the political process with Member States and regional and international organizations; consultations and advice as a member of the Working Group on the release of detainees/abductees, the handover of bodies and the identification of missing persons; consultations in support of the political process with representatives of civil society organizations; consultations in support of the political process with women's representatives and women's organizations.

D. Communication deliverables

External and media relations: press statements, interviews, video messages and briefings stressing the importance of political dialogue, the end of violence, human rights violations, humanitarian access and the role of women in the peace process.

B. Proposed post and non-post resource requirements for 2024

Resource requirements (regular budget)

Proposed 2024	1	1	1	3	8	13	10	-	8	8 ^a	53	1	33	34	-	-	-	87
Change	-	-	-	-	-	(1)	(1)	-	(2)	-	(4)	1	2	3	-	-	-	(1)

^a Other level, unless otherwise stated.

157. The proposed resource requirements for 2024 for the Office of the Special Envoy of the Secretary-General for Syria amount to \$14,200,600 (net of staff assessment) and would provide for salaries and common staff costs (\$8,382,200) for 87 positions (1 Under-Secretary-General, 1 Assistant Secretary-General, 1 D-2, 3 D-1, 8 P-5, 13 P-4, 10 P-3, 8 Field Service, 8 General Service (Other level), 1 National Professional Officer and 33 Local level), including the proposed staffing changes below, as well as operational costs (\$5,818,400), comprising costs for consultants and consulting

services (\$128,200), official travel (\$969,900), facilities and infrastructure (\$2,473,700), ground transportation (\$365,000), air transportation (\$356,000), communications and information technology (\$396,400), medical (\$7,800) and other supplies, services and equipment (\$1,121,400).

158. For 2024, the following changes are proposed for staffing:
- (a) Abolishment of a Senior Political Affairs Officer (P-5) in the Damascus Office and establishment of a Senior Human Rights Officer (P-5) in the Political Affairs Office in Geneva. The repurposing of this long-vacant position by abolishing it and establishing a Senior Human Rights Officer to focus on the release of arbitrarily detained persons, particularly women and children, will contribute to the mission's work as a member of the Working Group on the release of detainees/abductees, the handover of bodies and the identification of missing persons. This highly sensitive and critical work requires a dedicated senior person to lead efforts from Geneva to enable, inter alia, effective and confidential coordination with OHCHR and the International Committee of the Red Cross in Geneva. This proposal will strengthen the work of the Office of the Special Envoy and enable it to carry out a key function of the mandate;
 - (b) Abolishment of a Military Adviser (P-4) in Geneva considering both the vacancy length of the position and the changed nature of the conflict in the Syrian Arab Republic;
 - (c) Conversion of a Political Affairs Officer (P-3) to an Associate Political Affairs Officer (National Professional Officer) in the Damascus Office to strengthen liaison and outreach with all national stakeholders in the Syrian Arab Republic and develop a deeper understanding of conflict dynamics, which will be better served by a National Professional Officer;
 - (d) Conversion of a Human Resources Assistant (Field Service) and a Security Officer (Field Service) to Local level positions, following a review of workloads and in an effort to strengthen national staff capacity in administration and security.
159. A vacancy rate of 35.1 per cent has been applied to estimates for continuing international positions based on the vacancy rate in March 2023. A vacancy rate of 50 per cent has been applied to the P-5 position proposed for establishment and three positions proposed for conversion. A vacancy rate of 3.2 per cent has been applied to the other Local level positions on the basis of the actual average vacancy rate in 2022.
160. The decrease in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to lower requirements for facilities and infrastructure and for security services, which are offset in part by increased requirements for civilian personnel, due to higher salaries and common staff costs for international staff based on recent expenditure patterns.

Extrabudgetary resources

161. In 2023, extrabudgetary resources of \$272,500 are projected to fund a Senior Human Rights Officer (P-5) and an Associate Political Affairs Officer (National Professional Officer) and support the Office of the Special Envoy in its role of facilitating the Constitutional Committee through the provision of substantive, logistical, security and support arrangements, including liaison with interlocutors of the Government of the Syrian Arab Republic and the opposition, civil society, including women's groups, and regional and international stakeholders, as well as other activities.
162. For 2024, extrabudgetary resources of \$279,000 are projected to continue supporting the Office of the Special Envoy in its role of facilitating the Constitutional Committee. At the time of reporting, there is no clarity on whether there will be positions funded from such resources in 2024.

7. Office of the Special Envoy of the Secretary-General for the Horn of Africa

(\$1,654,600)

Foreword

The establishment of the Office of the Special Envoy of the Secretary-General for the Horn of Africa in 2018 was primarily driven by dynamic changes in the region. The Office is mandated to support the Horn of Africa region in sustaining gains in peace and security, encompassing all the member States of the Intergovernmental Authority on Development (IGAD), including Eritrea. While new trends and challenges have emerged since 2018, and others have resurfaced, the Office has worked with partners to identify entry points for engagement and is addressing these challenges.

Over the course of 2024, my Office will seek to respond to the new challenges in the region while continuing to coordinate and enhance the coherence of the collective work of the United Nations in the region, and focus on the prevention of crises affecting human security through joined-up action in support of Member States' national and regional strategies in the pursuit of lasting peace and sustainable development. In this regard, I will provide political leadership and coordinate implementation of the comprehensive regional prevention strategy for the Horn of Africa, with a focus on prevention and supporting regional peace, security and long-term stability; building resilience and promoting socioeconomic development; promoting inclusive and responsive governance; and supporting sustainable natural resources management and climate resilience. In addition, I will work closely with the African Union and IGAD to support their efforts in achieving a more peaceful, integrated and prosperous Horn of Africa.

I look forward to representing the Secretary-General in this effort.

(Signed) Hanna **Tetteh**
Special Envoy of the Secretary-General for the Horn of Africa

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

163. The overall objective of the mission is to work closely with and support member States of IGAD, in line with the Joint Framework for Cooperation between the United Nations and IGAD signed in Djibouti on 17 November 2015, and other regional organizations in promoting peace and security across the Horn of Africa. This primarily involves enhancing subregional capacities for conflict prevention and mediation and addressing cross-cutting issues. On this basis, the mission supports the good offices of the Secretary-General. In addition, the mission has been tasked with enhancing linkages in the work of the United Nations and other partners in the Horn of Africa region, with a view to promoting a joined-up regional approach, including through facilitating coordination and information exchange within the United Nations system.
164. The mandate of the mission derives from an exchange of letters between the Secretary-General and the President of the Security Council ([S/2018/955](#) and [S/2018/979](#)), when the remit of the mandate of the Special Envoy of the Secretary-General for the Sudan and South Sudan was expanded to cover the entire Horn of Africa region, following previous exchanges of letters (including [S/2016/258](#) and [S/2016/259](#)). In line with the letters of 2018, the mission also continues to carry out the functions previously performed by the Special Envoy for the Sudan and South Sudan relating to the maintenance of good and peaceful neighbourly relations between the Sudan and South Sudan, established pursuant to the exchange of letters between the Secretary-General and the President of the Security Council in 2011 ([S/2011/474](#) and [S/2011/475](#)). The mandate includes cooperation with the African Union High-level Implementation Panel in efforts to implement Security Council resolution [2046 \(2012\)](#), in which the Council called upon the Sudan and South Sudan to reach an agreement on critical issues, including: (a) the full and urgent advancement of all outstanding issues from the Comprehensive Peace Agreement; and (b) the easing of tensions and the facilitation of the resumption of negotiations on post-secession relations and the normalization of their relations.
165. The Horn of Africa region has long been a focus of United Nations engagement and investment. The region faces major challenges, including long-standing civil conflicts and unrest, poverty and vulnerability to climate change. The region also possesses significant opportunities, however, including rapid economic growth in several countries, a young and dynamic population and new momentum for regional cooperation. Realizing the region's enormous potential requires a collective approach, tackling shared challenges in a coordinated manner. The task of the mission is to support the region at this critical juncture and ensure that it benefits from the full range of the expertise and capacities of the United Nations.

Programme of work

Objective

166. The objective, to which this mission contributes, is to establish and maintain good and peaceful neighbourly relations between the countries of the Horn of Africa region, encompassing Djibouti, Eritrea, Ethiopia, Kenya, Somalia, South Sudan, the Sudan and Uganda, with a view to consolidating and sustaining gains in peace and security and enhancing regional conflict prevention.

Strategy and external factors for 2024

167. To contribute to the objective, the Office will:
- (a) Promote regional peace and security, resilience and socioeconomic development, inclusive and responsive governance and sustainable natural resources development and climate resilience. This will be done by providing political leadership for the United Nations engagement in these areas and ensure joined-up action and system-wide ownership of outcomes through the comprehensive regional prevention strategy for the Horn of Africa;
 - (b) Support IGAD in strengthening the link between early warning and early response, increasing its capacity to respond to and resolve conflicts, including through mediation and improving information-sharing and knowledge management by learning from good practices in the region and beyond. This will be done by deploying the Secretary-General's good offices and leveraging the collective influence of IGAD member States to support dialogue and joint initiatives among the countries;
 - (c) Work closely with and support the African Union, the African Union High-level Implementation Panel and other relevant regional organizations in addressing recent and emerging security threats. This will be done through information-sharing, the convening of regular meetings with relevant partners and other special envoys in the Horn of Africa region and the development of appropriate messages and approaches for supporting regional peace and security. This will also include working with the African Union, IGAD and other partners in supporting the Ethiopian peace process, in particular, the implementation of the Cessation of Hostilities Agreement.
168. The above-mentioned work is expected to result in:
- (a) Strengthened subregional capacities, improved relations and enhanced mutual trust and confidence between countries of the region to address the root causes of conflicts. More specifically, these actions are expected to result in strengthened synergies between partners in the region and the alignment of interventions and responses with the respective strategic frameworks of the United Nations, IGAD and the African Union;
 - (b) Operationalizing the Secretary-General's vision of prevention through further reviewing and implementing the action plan of the comprehensive regional prevention strategy;
 - (c) Strengthened partnership with IGAD and the African Union.
169. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Opportunities exist to address long-standing sources of tension, particularly through shuttle diplomacy;
 - (b) IGAD and the African Union continue to be fully engaged in the maintenance of peace and security in the region, paying particular attention to Ethiopia, Somalia, the Sudan and South Sudan;
 - (c) States in the region continue to engage constructively with the Special Envoy and continue to work with the United Nations in the area of capacity-building, in particular in the area of mediation and conflict prevention and resolution;
 - (d) South Sudanese parties, with support from the region, progressively show commitment to the implementation of the Revitalized Agreement on the Resolution of the Conflict in the Republic of South Sudan and are prepared to consolidate gains;
 - (e) The relationship between the Sudan and South Sudan remains constructive, enabling direct negotiations between the two countries on outstanding bilateral issues, including the situation of Abyei and its final status.

170. With regard to cooperation with other entities at the global, regional, national and local levels, in order to capitalize on the opportunities for closer cooperation on peace and security in the Horn of Africa, the mission will continue to work closely with IGAD and its member States, as well as other organizations such as the African Union and the European Union. Support will be provided to address the regional dimensions of crises and conflicts in the Horn of Africa, focusing on their cross-border and regional implications. The mission will also cooperate with the African Union High-level Implementation Panel to support the bilateral negotiations between the Sudan and South Sudan to resolve outstanding issues, including finding a settlement to the issue of the final status of Abyei. In addition, the mission will continue to work closely with the African Union, IGAD, the troika and other Member States supporting political cooperation and regional integration. The mission will continue to work with other United Nations entities to provide technical and advisory support to the IGAD secretariat.
171. With regard to inter-agency coordination and liaison, the mission will engage with special representatives of the Secretary-General, resident coordinators and peace and development advisers in the countries of the region, and with United Nations agencies, funds and programmes that are active in the areas identified as collective priorities by the United Nations system.
172. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, and good offices and planned missions will include gender-sensitive and focused activities. With regard to seminars and workshops, gender-related aspects are included in the agenda of those events. Much of the Horn of Africa region's potential hinges on the meaningful involvement of women and youth in its efforts to promote stability and prosperity. With this in mind, the Special Envoy will continue to work with relevant stakeholders to promote inclusive messaging to enhance the participation of women in all political and peace processes. The Special Envoy will actively engage in regional and global meetings to lobby for the acceleration of the implementation of the women and peace and security agenda.

Impact of the pandemic and lessons learned

173. The continuation of the COVID-19 pandemic into 2022 affected the mission's representation and participation at meetings and events, for which the mission used alternative approaches, including organizing hybrid events and delegating other staff members to represent the Office, such as the IGAD-United Nations high-level interministerial conference on climate change, peace and security held on the margins of the twenty-seventh session of the Conference of the Parties to the United Nations Framework Convention on Climate Change. The continuation of the COVID-19 pandemic did not significantly impact mandate implementation.
174. The mission continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including using alternative working methods and organizing virtual meetings, such as two regional multi-stakeholder workshops on addressing hate speech and disinformation in the Horn of Africa.

Programme performance in 2022

Enhanced collective action in implementing the prevention agenda in the Horn of Africa and deepened partnership in the region through collaboration with the Intergovernmental Authority on Development

175. To enhance regional prevention, the mission coordinated and led the implementation of the comprehensive regional prevention strategy with concrete joint activities undertaken across the four pillars of the strategy, including the publication of three joint regional analysis reports, and organized two regional workshops on addressing hate speech.
176. The Special Envoy carried out the Secretary-General's good offices mandate and specifically engaged on the conflict in northern Ethiopia, supporting the African Union High Representative for

the Horn of Africa Region, and participated as an observer in the peace talks between the Government of Ethiopia and the Tigray People's Liberation Front, which resulted in the signing of the Cessation of Hostilities Agreement on 2 November 2022.

177. Within the IGAD-United Nations cooperation framework, the mission provided support to IGAD and regularly engaged the IGAD Executive Secretary and other IGAD officials working together to address recent challenges in the region, including climate, peace and security.
178. Progress towards the objective is presented in the performance measure below (see table 29).

Table 29

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
The capacity of IGAD to provide early warning and policy advice on conflict response measures to its member States was strengthened through the implementation of the joint framework through joint initiatives and regular engagement	IGAD capacity to address cross-border and cross-cutting issues was strengthened, creating the conditions for joint action taken by IGAD member States on the prevention of conflict and on regional initiatives to reduce vulnerability and address the root causes of crises	IGAD-United Nations partnership strengthened and IGAD capacity to address issues related to climate, peace and security and women and peace and security enhanced through the development of the regional action plan for women and peace and security and a regional climate security coordination mechanism

Planned result for 2024**Enhanced collective action in implementing the prevention agenda in the Horn of Africa****Programme performance in 2022 and target for 2024**

179. In 2022, the mission's work contributed to the maintenance of good and peaceful neighbourly relations between the countries in the Horn of Africa region and enhanced regional conflict prevention, as well as deepened collaboration in addressing peace and security issues between IGAD, the African Union and the United Nations, which met the planned target of implementing the action plan through partnerships and collaboration with other United Nations entities, as well as IGAD and the African Union.
180. In 2024, the mission will continue to carry out the Secretary-General's good offices, including supporting ongoing peace processes and political transitions within the Horn of Africa region by working with the African Union, IGAD and the Governments of the States Members of the United Nations within the IGAD region, as well as other regional actors, and coordinating with other Special Representatives of the Secretary-General in charge of political and peacekeeping missions within the region. This is expected to result in improved regional approaches to the prevention of crises and conflict by enhancing support to and strengthening the capacity of IGAD to address emerging security threats with a view to achieving improved information-sharing, developing joint messaging and implementing joint approaches towards addressing the peace and security challenges of the region. This is also expected to deepen collaboration with IGAD, the African Union and other relevant regional and subregional organizations in supporting the implementation of existing peace agreements as well as in mediation, facilitation and other relevant areas where cooperation and collaboration would be advantageous to ensure complementarity in reducing tensions, conflict prevention and peacebuilding efforts. Furthermore, the mission will continue to coordinate implementation of the United Nations comprehensive regional prevention strategy, encompassing peace and security issues, socioeconomic development, governance challenges and climate risks and resilience.

Lessons learned and planned change

181. The lesson for the mission was the need to review and adjust the action plans to include new and emerging threats as well as to enhance implementation. In applying the lesson, the mission will continue to engage IGAD, the African Union and United Nations agencies, funds and programmes to ensure the priorities are still relevant in the current context and that the comprehensive regional prevention strategy reflects an all-of-United Nations approach.
182. Expected progress towards the objective and the target for 2024 are presented in the performance measure below (see table 30).

Table 30
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Implementation of the action plan through collective actions and messaging on conflict prevention	Regional capacity to address and prevent conflict and crisis in the region enhanced	Implementation of the action plan through partnerships and collaboration with other United Nations entities, as well as IGAD and the African Union	Revision and implementation of the prevention strategy through partnerships and collaboration with other United Nations entities, as well as IGAD and the African Union	Implementation of the prevention strategy through partnerships and strengthened collaboration with other United Nations entities, as well as IGAD and the African Union, within the revised framework

Deliverables

183. Table 31 lists all deliverables of the mission.

Table 31
Deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	2	2	2	2
Meetings of the Security Council	2	2	2	2
C. Substantive deliverables				
Good offices: provision of good offices through engagement, including shuttle and quiet diplomacy, on issues related to peace consolidation and conflict prevention, including the implementation of bilateral agreements and the completion of negotiations on outstanding bilateral issues. This includes engagements with the authorities in the Sudan and South Sudan on their bilateral relations, as well as other leaders, officials and stakeholders in the region regarding regional peace and security issues.				
Consultation, advice and advocacy: consultations and advice on consolidating recent gains in peace and security in the Horn of Africa region; advice on enhancing subregional capacities to address cross-border and cross-cutting issues. Consultations will be undertaken with IGAD member States and the IGAD secretariat, civil society organizations and partners working in the IGAD region. Engagement with the African Union, including the African Union High-level Implementation Panel, will also continue.				
D. Communication deliverables				
External and media relations: social media outreach and briefings to raise awareness of key developments and promote support for addressing challenges to peace and security in the region. Social media outreach and briefings will target United Nations entities working in the region, United Nations Headquarters, partners and IGAD member States.				

B. Proposed post and non-post resource requirements for 2024

Resource requirements (regular budget)

	Appropriation	Expenditure	Appropriation	Requirements	2024 vs. 2023 Increase/(decrease)
	(1)	(2)	(3)	(4)	(5)=(4)-(3)
Military and police personnel costs	–	–	–	–	–
Civilian personnel costs	1 581.8	1 425.5	1 583.7	1 450.9	(132.8)
Operational costs	181.8	160.6	170.8	203.7	32.9
Total (net of staff assessment)	1 763.6	1 586.1	1 754.5	1 654.6	(99.9)

Table 33

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2023	1	–	–	1	–	2	1	–	–	–	5	2	2	4	–	–	
Proposed 2024	1	–	–	1	–	2	1	–	–	–	5	2	2	4	–	–	–	9
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

184. The proposed resource requirements for 2024 for the Office of the Special Envoy of the Secretary-General for the Horn of Africa amount to \$1,654,600 (net of staff assessment) and would provide for salaries and common staff costs (\$1,450,900) for nine positions (1 Under-Secretary-General, 1 D-1, 2 P-4, 1 P-3, 2 National Professional Officer and 2 Local level), as well as operational costs (\$203,700), comprising costs for official travel (\$102,700), facilities and infrastructure (\$32,000), ground transportation (\$9,700), communications and information technology (\$40,100), medical (\$3,800) and other supplies, services and equipment (\$15,400).
185. It is proposed that a Political Affairs Officer (P-4) be redeployed from Addis Ababa to Khartoum, where the position was initially established in 2011 and where it was based until 2018 when the mandate of the Office of the Special Envoy of the Secretary-General for the Sudan and South Sudan was expanded to cover the entire Horn of Africa pursuant to the exchange of letters between the Secretary-General and the President of the Security Council (S/2018/955 and S/2018/979). There is currently only one Political Affairs Officer (National Professional Officer) in Khartoum. Owing to the volatile situation in the Sudan and the developments in Abyei, the redeployment of the Political Affairs Officer (P-4) to Khartoum to support the Political Affairs Officer (National Professional Officer) already deployed there would contribute to the implementation of the mandate. The two positions will closely monitor developments in the Sudan, and engage and work closely with the IGAD Special Envoy to South Sudan as well as key partners and other United Nations entities based in Khartoum and Abyei.
186. A vacancy rate of 20.0 per cent has been applied to the five international positions on the basis of the actual vacancy rate in March 2023. For National Professional Officer and Local level positions, a vacancy rate of zero per cent has been applied on the basis of the actual average vacancy rate in 2022.

187. The decrease in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to the application of a 20.0 per cent vacancy rate for international staff compared with the budgeted vacancy rate of 3.0 per cent in 2023 and lower salary costs for National Professional Officers. The decreased requirements are offset in part by increased requirements for facilities and infrastructure and other supplies, services, and equipment, owing mainly to higher requirements for the rental of premises and the increased provision for training fees, supplies and services as a result of more online training.

Extrabudgetary resources

188. In 2023, extrabudgetary resources amounting to approximately \$830,200 are being utilized to provide for five positions (1 P-5, 1 P-4, 1 P-3, 1 P-2 and 1 Local level), a consultancy and temporary administrative support services.
189. In 2024, extrabudgetary resources in the estimated amount of \$830,200 will continue to provide for the continuation of five positions (1 P-5, 1 P-4, 1 P-3, 1 P-2 and 1 Local level), a consultancy and temporary administrative support services.

8. Office of the Special Envoy of the Secretary-General for the Great Lakes Region

(\$4,984,100)

Foreword

2023 marked the tenth anniversary of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region. While progress has been achieved in various areas, the region currently faces a crisis triggered by the resurgence of the Mouvement du 23 mars (M23), coupled with the persistent activities of local and foreign armed groups. In 2022, a significant increase in tensions and mistrust between some countries was observed, despite increased regional peace efforts supported by my Office. The continued illicit exploitation of and trade in natural resources, human rights violations and humanitarian crises also remain serious challenges. As requested by the African Union Peace and Security Council on 17 February 2023, options for the Framework's revitalization should be explored while ensuring that all actors in and beyond the region remain firm in their efforts to help address the current crisis.

The United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region (S/2020/1168) and its action plan identify United Nations action in the region over the next few years, in support of the Peace, Security and Cooperation Framework.

In 2024, I will therefore increase efforts to support regional political processes, promote dialogue and help address sources of mistrust through shuttle diplomacy and other engagements. I will also continue to spearhead the collective engagements of the United Nations towards the implementation of the Strategy. Strengthening partnerships at all levels will remain central to these efforts. In this regard, I count on Member States' continued support.

(Signed) Huang Xia
Special Envoy of the Secretary-General for the Great Lakes Region

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

190. Established in 2013, the Office of the Special Envoy of the Secretary-General for the Great Lakes Region is responsible for supporting the implementation of the Peace, Security and Cooperation Framework for the Democratic Republic of the Congo and the Region, which was signed on 24 February 2013 by Angola, Burundi, the Central African Republic, the Congo, the Democratic Republic of the Congo, Rwanda, South Africa, South Sudan, Uganda, the United Republic of Tanzania and Zambia, as well as representatives of the United Nations, the African Union, the International Conference on the Great Lakes Region and the Southern African Development Community, acting as guarantor institutions. On 31 January 2014, Kenya and the Sudan also signed the Framework. The Framework outlines national, regional and international commitments required to end the recurring cycles of violence in eastern Democratic Republic of the Congo and address the root causes of conflict in the region.
191. The mandate of the mission derives from Security Council resolution [2098 \(2013\)](#) and subsequent Council resolutions and documents, including resolutions [2147 \(2014\)](#), [2211 \(2015\)](#), [2277 \(2016\)](#), [2348 \(2017\)](#), [2389 \(2017\)](#), on the implementation of the Peace, Security and Cooperation Framework, [2502 \(2019\)](#), [2556 \(2020\)](#), [2612 \(2021\)](#) and [2666 \(2022\)](#). In a press statement of 28 April 2022, the Council called for sustained support to the implementation of the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region ([S/2020/1168](#)) and its action plan. In the Statement by the President of the Security Council of 3 June 2022 ([S/PRST/2022/4](#)), the Council welcomed regional efforts to implement the two-track approach aimed at finding lasting peace in the Democratic Republic of the Congo, noting the support provided by the Office of the Special Envoy to that effect. In a press statement issued by the Security Council on 3 February 2023, Council members emphasized the commitments undertaken by the region under the Peace, Security and Cooperation Framework, reiterated their support to the regional efforts under way with regard to the East African Community-led and African Union-mandated Nairobi and Luanda processes, and encouraged the Special Envoy to pursue engagements with regional leaders in support of those peace initiatives.
192. The Strategy, developed by the mission following extensive consultations and published on 4 December 2020, is designed to provide the political and operational framework for United Nations action to support the implementation of the commitments under the Peace, Security and Cooperation Framework. It is structured around three pillars: peace, security and justice; sustainable development and shared prosperity; and resilience to long-standing and emerging challenges. The action plan to implement the Strategy, covering policy and programmatic priority activities for the period from 2021 to 2023, was adopted by the senior policy group for the Strategy in July 2021. A new action plan, covering the period from 2024 onwards, is expected to be finalized before the end of 2023.
193. In 2024, the mission will continue supporting the implementation of the Strategy and its action plan, including through the sustained engagement of the Governments of the signatory countries and key partners. In view of the deteriorating security situation, notably in eastern Democratic Republic of the Congo, and heightened tensions between some countries in the region, the Office, through the Special Envoy's good offices, will further enhance its efforts towards easing tensions and encouraging political dialogue between countries. The Office will also provide political and technical support to ongoing regional political processes, including by mobilizing concerted support from the international community. The Office will also continue to support the regional priorities identified by the countries of the Great Lakes region in efforts to implement the Peace, Security and Cooperation Framework, including on security, economic and judicial cooperation and the rule of law. In the area of security, the Office will further step up its support for regional efforts aimed at

putting an end to the persistent threat posed by armed groups in the eastern Democratic Republic of the Congo. In so doing, it will support the activities of the operational cell of the Contact and Coordination Group on non-military measures. Finally, the Office will continue its efforts to support the women and peace and security agenda, as well as promote the economic empowerment and inclusion and the political participation of youth in matters of regional relevance.

Programme of work

Objective and external factors for 2024

194. The objective, to which this mission contributes, is to advance the effective implementation of the Peace, Security and Cooperation Framework by supporting and facilitating political, security and economic engagements among and between the signatory countries, while ensuring coherent and coordinated support from regional and international organizations and other partners, in line with the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region and its action plan.
195. To contribute to the objective, the mission will:
 - (a) Deploy the Secretary-General's good offices, including discreet and shuttle diplomacy, support regional dialogue and peace efforts, collaborate closely with the guarantor institutions of the Peace, Security and Cooperation Framework and other subregional organizations involved in the ongoing diplomatic and military efforts, and reinforce coordination with international partners, including the International Contact Group for the Great Lakes Region and international financial institutions;
 - (b) Support the implementation of a regional non-military approach against armed groups; facilitate confidence-building consultations between the chiefs of military and civilian intelligence and security services from concerned countries; help strengthen existing security cooperation mechanisms, taking into account the decisions taken under the Nairobi and Luanda peace processes and related follow-up efforts by countries in the region, as applicable; and promote the repatriation and reintegration of former combatants, in line with international standards;
 - (c) Promote cross-border investments and responsible trade projects, including by furthering the implementation of the recommendations and decisions of the high-level workshop on natural resources held in 2021 in Khartoum;
 - (d) Promote the rule of law and regional judicial cooperation, as well as the protection of human rights, including by supporting targeted initiatives towards supporting Member States in implementing the 2019 Nairobi Declaration on Justice and Good Governance and the 2022 Kinshasa Declaration on Enhancing Judicial Cooperation in the Great Lakes Region;
 - (e) Advocate for and support the effective participation of women and youth in political and peace processes.
196. The above-mentioned work is expected to result in:
 - (a) Progress in resolving the current crisis, including concrete steps taken by concerned stakeholders to address issues of contention, as outlined in the decisions of the Luanda and Nairobi peace processes;
 - (b) Improved relations between countries of the region;
 - (c) Increased resort to regional mechanisms to address impunity and the upholding of the rule of law in the fight against serious crimes with a transborder dimension;
 - (d) Increased mobilization and harmonization of support from the Peace, Security and Cooperation Framework guarantor institutions, international partners and other stakeholders;

- (e) Enhanced cooperation among concerned countries to neutralize armed groups and increase support for regional disarmament, demobilization, repatriation, resettlement and reintegration initiatives through the activities of the Contact and Coordination Group on non-military measures and its operational cell;
 - (f) Joint initiatives on comprehensive regional non-military measures against armed groups, including the role of civil society organizations, women and youth in the peacebuilding processes;
 - (g) Increased bilateral and multilateral economic cooperation and support for concrete initiatives to curb the illicit exploitation of and trade in natural resources;
 - (h) Strengthened regional judicial cooperation through the Great Lakes Judicial Cooperation Network as the main mechanism for cross-border cases;
 - (i) A decrease of human rights violations in the region and an increase in the number of perpetrators held accountable.
197. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) The signatory countries of the Peace, Security and Cooperation Framework will have the political will to implement national and regional commitments, including commitments made in ongoing regional processes, to address the root causes of instability in the eastern Democratic Republic of the Congo and tensions among neighbouring countries, as well as to strengthen regional cooperation;
 - (b) Continued security challenges in the eastern Democratic Republic of the Congo will remain linked to the activities of local and foreign armed groups;
 - (c) The situation in the region will be conducive to political dialogue among countries and effective collaboration with relevant regional organizations;
 - (d) There will be continued support for and focus on the Great Lakes region by Member States and international partners, including coordinated action and support for signatory countries.
198. With regard to cooperation with other entities, the mission cooperates with and supports signatory countries of the Peace, Security and Cooperation Framework and regional organizations on priority political, security and socioeconomic initiatives aimed at ensuring the implementation of national and regional commitments under the Framework and promoting peace in the region. In an effort to further align approaches and strengthen partnerships as outlined in the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region, the Special Envoy also encourages joint and/or harmonized initiatives by the guarantor institutions of the Framework. He also participates in the International Contact Group and engages in regular exchanges with other special envoys for the Great Lakes region. In support of the Framework's economic focus, the Special Envoy also cooperates with financial institutions, including the World Bank Group, the African Development Bank and other relevant partners.
199. With regard to inter-agency coordination and liaison, the mission works closely with the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo (MONUSCO), including in the context of the joint strategy of MONUSCO and the Government of the Democratic Republic of the Congo on a progressive and phased drawdown of MONUSCO, in support of efforts by the Government of the Democratic Republic of the Congo to achieve its national commitments under the Peace, Security and Cooperation Framework. The senior policy group, which is chaired by the Special Envoy, along with its implementation support mechanism, both established to facilitate the implementation of the United Nations Strategy for the Great Lakes Region, will continue to ensure alignment among United Nations missions and offices in the region, including, among others, the United Nations Regional Office for Central Africa, MONUSCO and the United Nations Office to the African Union, in addition to regional coordinators and representatives of the

Office for the Coordination of Humanitarian Affairs, OHCHR, UNHCR, the Economic Commission for Africa and other United Nations agencies, funds and programmes.

200. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate. In addition to high-level advocacy meetings and missions by women leaders throughout the region, the Office of the Special Envoy supports the Advisory Board for Women, Peace and Security in the Great Lakes Region in its efforts to advocate for women's participation and representation in peacebuilding, political and electoral processes, to strengthen the monitoring and evaluation capacities of the mechanisms on sexual and gender-based violence of the International Conference on the Great Lakes Region and to support cross-border communities in the prevention and resolution of conflict and election-related violence.

Impact of the pandemic and lessons learned

201. The continuation of the COVID-19 pandemic into 2022 had limited impact on the implementation of the mandate, owing to the easing of travel restrictions in the Great Lakes region and the use of digital platforms where possible.
202. The mission continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, with regard to travel and training and flexible working arrangements.

Programme performance in 2022

Adoption of Kinshasa Declaration on Enhancing Regional Judicial Cooperation in efforts to advance the fight against impunity

203. In June 2022, ministers of justice of member States of the International Conference on the Great Lakes Region adopted the Kinshasa Declaration on Enhancing Regional Judicial Cooperation, and standardized guidelines for requesting mutual legal assistance in criminal matters. The guidelines will contribute to harmonizing judicial cooperation procedures in the region, thereby reducing obstacles to the cross-border exchange of intelligence and/or evidence and, in turn, enhance the effectiveness of criminal investigations and prosecutions.
204. The ministerial meeting was facilitated by the mission, together with International Conference and with the support of other United Nations entities, including the Department of Peace Operations and OHCHR, in efforts to advance cross-border collaboration among judicial authorities on conflict-related crimes, including those related to armed groups and the illicit exploitation of and trade in natural resources. The ministerial meeting was preceded by technical-level engagements within the Great Lakes Judicial Cooperation Network on 13 and 14 June 2022.
205. Progress towards the objective is presented in the performance measure below (see table 34).

Table 34

Establishment of the review committee for the implementation of the Nairobi and Kinshasa Declarations

Planned result for 2024

Strengthened relations among countries of the Great Lakes region

Programme performance in 2022 and target for 2024

206. The tenth Summit of the Regional Oversight Mechanism was successfully held on 24 February 2022. Despite the current crisis in the eastern Democratic Republic of the Congo, cooperation on political, security and economic issues between countries of the region has continued and further accelerated. The rapprochement between Burundi and Rwanda is ongoing. The resumption of dialogue between Rwanda and Uganda started in January 2022 and continued throughout the year. The operational cell of the Contact and Coordination Group on non-military measures was operationalized and launched reconnaissance and contact missions in the eastern Democratic Republic of the Congo. The Office also continued to cooperate with the International Conference on the Great Lakes Region in support of the transparent management of natural resources in the region, including through joint advocacy missions to promote agreement on, and implementation of, recommendations developed during a stakeholder consultation held in 2020. As outlined below, sustained consultations led by the Office, together with the International Conference and other partners, resulted in the adoption of the Kinshasa Declaration on Enhancing Judicial Cooperation in the Great Lakes Region and the holding of joint engagements and a workshop aimed at strengthening the capacities of women and youth to contribute to ongoing peace efforts. Furthermore, as part of efforts to advance the implementation of the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region, the Office convened two meetings bringing together United Nations entities in the region, which contributed to enhanced information-sharing and joint analysis on ongoing political processes and the threat of terrorism and violent extremism in the region.
207. In 2024, the Special Envoy will further increase his political engagements, including discreet and shuttle diplomacy, in favour of good neighbourly relations and the resolution of contentious bilateral and multilateral issues, including continued instability in the eastern Democratic Republic of the Congo. His high-level political engagements will be bolstered by enhanced joint analysis among United Nations presences and with regional stakeholders, as well as tailored interventions on technical aspects, such as the provision of technical support for existing regional security, economic cooperation and rule of law mechanisms, among others. Support for regional efforts to address the persistent threat posed by armed groups in the eastern Democratic Republic of the Congo and the region will also remain a priority and will be further stepped up in the context of support to the Nairobi and Luanda processes and the Contact and Coordination Group on non-military measures.

Lessons learned and planned change

208. A principal lesson for the Office remains the need to encourage all the signatory countries of the region to fully implement their commitments under the Peace, Security and Cooperation Framework and under the International Conference's Pact on Security, Stability and Development in the Great

Lakes Region, signed in 2006 with a view to ensuring lasting peace and stability. In applying the lesson, the Office will continue to strengthen its interactions with stakeholders from the region at all levels, including civil society, women and youth, to further bolster the Special Envoy's engagement at the political level. The adopted multilayered approach, combining security with human rights and inclusion concerns, among others, will be further reinforced. The Office will further step up its engagements in support of consultations on ways to revitalize the Peace, Security and Cooperation Framework, as called for by the African Union Peace and Security Council on 17 February 2023.

209. Expected progress towards the objective and the target for 2024 are presented in the performance measure below (see table 35).

Table 35
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Holding of the fourth quadripartite summit on 21 February 2020 between Rwanda and Uganda, with the facilitation of Angola and the Democratic Republic of the Congo	Enhanced consultations, coordination and joint action among the guarantor institutions in support of the Peace, Security and Cooperation Framework	Holding of the tenth Summit of the Regional Oversight Mechanism and the Ministerial Conference on Enhancing Judicial Cooperation	Decisions of the tenth Summit of the Regional Oversight Mechanism are followed up on or implemented effectively and enable the region to advance its regional peace, security and cooperation agenda	Holding of the twelfth Summit of the Regional Oversight Mechanism and implementation of the recommendations on the revitalization of the Peace, Security and Cooperation Framework
Meeting of the guarantors of the Peace, Security and Cooperation Framework on 2 April 2020	Continuation of incremental dialogue between Burundi and Rwanda, including information exchange at the technical level, such as on security along the common border and the return of refugees	Enhanced consultations, coordination and joint action among the guarantor institutions in support of the Peace, Security and Cooperation Framework	Holding of the eleventh Summit of the Regional Oversight Mechanism and commemoration of the tenth anniversary of the Peace, Security and Cooperation Framework	Further support to the Nairobi and Luanda processes, leading to a normalization of relations between the Democratic Republic of the Congo and Rwanda
Meeting of the Ministers for Foreign Affairs of Burundi and Rwanda on 19 October 2020	Continued commitment and consultations between Rwanda and Uganda towards the normalization of their bilateral relations	Continuation of incremental dialogue between Burundi and Rwanda, including information exchange at the technical level, such as on security along the common border and the return of refugees	Initiatives under the second and third phases of the action plan of the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region are implemented	Rapprochement between Rwanda and Uganda and between Burundi and Rwanda is sustained
	Initiatives taken by regional and subregional organizations and signatory countries of the Peace, Security and Cooperation Framework to support peaceful,	Continued commitment and consultations between Rwanda and Uganda towards the normalization of their bilateral relations	Progress in the implementation of the Contact and Coordination Group action plan and	Initiatives under the second and third phases of the action plan of the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region are implemented
				Progress in the implementation of

Deliverables

210. Table 36 lists all deliverables of the mission.

Table 36
Deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	2	2
1. Reports of the Secretary-General to the Security Council	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	5	3	5	5
2. Meetings of the Security Council, the Security Council Committee established pursuant to resolution 1533 (2004) concerning the Democratic Republic of the Congo and the Peacebuilding Commission	5	3	5	5
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	3	3	3	3
3. Projects on economic cooperation, land and conflict	2	2	2	2
4. Projects to promote cross-border trade and investment	1	1	1	1
Seminars, workshops and training events (number of days)	2	7	9	8
5. Workshop on exchange of lessons learned from elections and political processes	–	–	1	1
6. Workshop on economic cooperation, natural resources and conflict	–	2	3	2
7. Workshops on resolving existing challenges in the implementation of the Peace, Security and Cooperation Framework	2	3	2	2
8. Workshop on youth employment and engagement on peace and security	–	1	1	1
9. Advisory Board for Women, Peace and Security in the Great Lakes Region annual meetings to support national/regional-level initiatives to empower women and achieve 30 per cent women's representation	–	1	2	2
Fact-finding, monitoring and investigation missions (number of missions)	–	–	6	8
10. Missions of the operational cell of the Contact and Coordination Group on non-military measures	–	–	6	8
C. Substantive deliverables				
Good offices: provision of good offices through engagement, including shuttle and discreet diplomacy, as well as through the facilitation of direct exchanges with regional leaders and senior representatives of signatory countries and co-guarantors of the Peace, Security and Cooperation Framework to advance the implementation of the Framework and address challenges to peace and security, including impunity for gross human rights violations; support to regional peace efforts, notably the Nairobi and Luanda processes; provision of good offices to the follow-up mechanism on the repatriation of disarmed combatants in line with international standards; good offices to enhance coordination and cooperation against the armed groups in the eastern Democratic Republic of the Congo; good offices to sustain international support for the implementation of the United Nations Strategy for Peace Consolidation, Conflict Prevention and Conflict Resolution in the Great Lakes Region and its action plan.				
Consultation, advice and advocacy: consultations to gain a shared regional and international assessment of the situation in the region; consultation and advice to gain a shared vision of regional human rights and humanitarian trends in the Great Lakes region; consultation and advice on delinking armed groups from natural resources revenues; advocacy to facilitate political conversation and agreement on regional integration with natural resources as a driver of shared prosperity; advocacy to advance gender equality in the region; advocacy to promote a concerted approach on the way forward in the region.				

B. Proposed post and non-post resource requirements for 2024

Resource requirements (regular budget)

Table 37

Financial resources

(Thousands of United States dollars)

Category of expenditure	2022		2023		2024	Variance
	Appropriation	Expenditure	Appropriation	Requirements	2024 vs. 2023 Increase/(decrease)

Military and police personnel costs	–	–	–	–	–	–
Civilian personnel costs	4 265.7	3 605.9	4 838.3	4 133.0		(705.3)
Operational costs	868.2	800.2	899.6	851.1		(48.5)
Total (net of staff assessment)	5 133.9	4 406.1	5 737.9	4 984.1		(753.8)

Table 38

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2023	1	–	1	1	5	7	5	–	1	1 ^a	22	1	7	8	–	–	
Proposed 2024	1	–	1	1	5	7	5	–	1	1 ^a	22	1	7	8	–	–	–	30
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

211. The proposed resource requirements for 2024 for the Office of the Special Envoy of the Secretary-General for the Great Lakes Region amount to \$4,984,100 (net of staff assessment) and would provide for salaries and common staff costs (\$4,133,000) for the continuation of 30 positions (1 Under-Secretary-General, 1 D-2, 1 D-1, 5 P-5, 7 P-4, 5 P-3, 1 Field Service, 1 General Service (Other level), 1 National Professional Officer and 7 Local level), as well as operational costs (\$851,100), comprising costs for consultants and consulting services (\$26,400), official travel (\$295,700), facilities and infrastructure (\$40,600), ground transportation (\$41,800), air operations (\$68,600), communications and information technology (\$141,400), medical (\$14,000) and other supplies, services and equipment (\$222,600).
212. A vacancy rate of 18.2 per cent has been applied to estimates for the international positions on the basis of the actual vacancy rate in March 2023. Vacancy rates of 91.7 per cent and zero per cent have been applied to the estimates for National Professional Officer and Local level positions, respectively, on the basis of the actual average vacancy rates in 2022.
213. The decrease in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to the vacancy rates of 18.2 per cent and 91.7 per cent applied to the estimates for international and National Professional Officer positions, respectively, compared to the respective budgeted vacancy rates of 5 per cent and zero per cent in 2023, as well as decreased requirements for other supplies, services and equipment, facilities and infrastructure, and communications and information technology.

Extrabudgetary resources

214. In 2023, extrabudgetary resources in the amount of \$2,808,000 are estimated to support the implementation of the Peace, Security and Cooperation Framework through various projects under different thematic areas.
215. In 2024, extrabudgetary resources in the amount of \$1,500,000 are estimated to support the implementation of the Peace, Security and Cooperation Framework through various projects under different thematic areas.
216. The decrease in the estimated extrabudgetary resources to be utilized in 2024 as compared with 2023 is due to lower projected contributions.

9. Office of the Special Envoy of the Secretary-General for Yemen

(\$16,708,300)

Foreword

The year 2022 saw a major opportunity towards ending the conflict in Yemen. In early April, my continued engagement with the Government of Yemen, the Saudi-led coalition and the Houthis resulted in an agreement on a truce between the Government of Yemen and the Houthis, which resulted in a marked reduction in violence on the front lines, the first commercial flights to and from Sana'a airport since 2016 and a consistent flow of fuel through the Hudaydah port. Despite the non-renewal of the truce in early October, the relative calm on the front line remains and other key elements of the truce have continued. The period of calm since April 2022 is the longest since the beginning of the conflict.

I continue to mediate between the parties to ensure that the gains of the truce are sustained and to bring them to an agreement on the way forward, building on the achievements of the truce and deepening cooperation between the parties.

These efforts must be geared towards achieving a nationwide ceasefire and the reactivation of a Yemeni-led political process under United Nations auspices.

Lasting peace requires the contribution of a diverse range of Yemenis, including women, youth and civil society, beyond the parties to the conflict. The parties have an opportunity to end the conflict, of which they must take advantage. There is still a danger of a return to a major outbreak of violence as long as there is no political settlement to the conflict. I will exert all efforts, with the backing of the regional and international community, to bring the parties to the negotiating table to find a solution.

(Signed) Hans **Grundberg**
Special Envoy of the Secretary-General for Yemen

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

217. The Office of the Special Envoy of the Secretary-General for Yemen is responsible for carrying out the good offices of the Secretary-General to enable the resumption of a peaceful, inclusive, orderly and Yemeni-led political transition process that meets the legitimate demands and aspirations of the Yemeni people, including women and youth, for peaceful change and meaningful political, economic and social reform, as set out in the Initiative of the Gulf Cooperation Council and its implementation mechanism and the outcomes of the comprehensive National Dialogue Conference. The mandate derives from Security Council resolution 2014 (2011) and from subsequent Council resolutions, including resolutions 2051 (2012), 2140 (2014), 2201 (2015), 2216 (2015), 2266 (2015), 2342 (2017), 2402 (2018), 2451 (2018), 2452 (2019), 2456 (2019), 2481 (2019) and 2505 (2020), as well as exchanges of letters between the Secretary-General and the President of the Security Council (S/2012/469 and S/2012/470, S/2016/488 and S/2016/489 and S/2018/126 and S/2018/127).
218. To ensure the full and effective implementation of Security Council resolutions 2014 (2011) and 2051 (2012), together with the political transition agreed in November 2011 under the Initiative of the Gulf Cooperation Council and its implementation mechanism for the political transition process in Yemen, the Secretary-General established the Office of the Special Adviser to the Secretary-General on Yemen, in accordance with an exchange of letters with the President of the Security Council in June 2012, which was then subsumed into the Office of the Special Envoy (S/2012/469 and S/2012/470; see also S/2015/283 and S/2015/284 and S/2018/126 and S/2018/127).
219. In line with Security Council resolution 2216 (2015), as well as other Council resolutions on Yemen, including resolutions 2014 (2011), 2051 (2012), 2140 (2014), 2201 (2015), 2451 (2018) and 2452 (2019), and the letter from the Secretary-General addressed to the President of the Security Council (S/2016/488), the Special Envoy of the Secretary-General for Yemen will continue to mediate between the parties with a view to ending the conflict. The Office will provide facilitation and technical advice on the negotiation and design of interim security arrangements, the restoration of State institutions and preparations for the resumption of political dialogue, including on finalizing and adopting a draft constitution and an electoral road map and on national reconciliation and transitional justice.
220. The mission also participates in the mediation of the political, security and economic arrangements to end the current conflict between the Government of Yemen and the Houthi movement and in supporting the resumption of the political transition, which began in 2011 and was interrupted by the current conflict. Against this backdrop, the two-month nationwide, renewable truce agreed by the parties in Yemen from April to October 2022 and the relative de-escalation and reduction of violence since present positive developments and important first steps towards resuming an inclusive political process to reach a negotiated settlement to the conflict. In the delivery of these efforts, the Office shares its support component with the United Nations Mission to Support the Hudaydah Agreement (UNMHA), which also reports to Headquarters through the Special Envoy.

Programme of work

Objective

221. The objective, to which this mission contributes, is to achieve a negotiated political settlement between the parties to end the conflict in Yemen and enable the resumption of a peaceful, inclusive, orderly and Yemeni-led political transition that will lead Yemenis towards a path of sustainable peace.

Strategy and external factors for 2024

222. To contribute to the objective, the mission will:
- (a) Utilize negotiations, consultations and shuttle diplomacy to achieve an agreement between the parties to end the conflict in Yemen and resume the political transition;
 - (b) Support the Yemen peace process by providing political, technical and logistical support, including in supporting the parties to identify long-term measures and immediate priorities related to political, security and economic issues to resume the political process, implement the Stockholm Agreement and de-escalate the conflict at the local, national and regional levels;
 - (c) Work on a consultative process, which will include, among others, women, civil society and youth, including assessing the sentiments, views and recommendations of Yemenis through direct outreach and engagement or indirect and virtual methods and integrating gender-responsiveness and youth engagement in its multitrack diplomacy and negotiations on the peace agreement and the post-transition process;
 - (d) Foster international engagement in resolving the conflict in Yemen, notably through awareness-building and frequent dialogue and information exchange;
 - (e) Continue to adapt its posture and positioning to respond to the changing and evolving political context and operational environment in order to strengthen mandate implementation, with a focus on the Office's balanced representation and capacity in the territories controlled by each side.
223. The above-mentioned work is expected to result in:
- (a) A peace agreement with the parties to determine interim security and political arrangements for a sustainable, peaceful and inclusive transitional period;
 - (b) The development of an inclusive participatory mechanism for diverse political and social Yemeni stakeholders, including women and youth, to inform the track 1 United Nations-facilitated political process;
 - (c) Increased confidence of the parties and engagement in the United Nations-facilitated political process towards a resumption of political talks;
 - (d) Increased confidence of the parties towards a resumption of political talks, including through focusing on political, security and economic elements;
 - (e) Refined security governance options at both the national and local level;
 - (f) Effective and transparent implementation of negotiated transitional security arrangements;
 - (g) Development of an inclusive transitional agenda that will be informed by women's and gender perspectives and will include implementation mechanisms and bodies;
 - (h) Continued implementation of the Stockholm Agreement, including the uninterrupted flow of commercial imports, including fuel, into the Hudaydah ports, and further prisoner exchanges;
 - (i) Women's and gender perspectives informing all substantive areas, agreements, arrangements and implementation mechanisms, when relevant.
224. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) The parties to the conflict will engage in the peace process in the form of successive rounds of peace consultations under the auspices of the Special Envoy, with the aim of reaching a comprehensive negotiated political settlement;
 - (b) The Office will have greater access to key Yemeni stakeholders, albeit with some restrictions imposed by the parties and the security situation on the ground;

- (c) The Office will strengthen its presence inside Yemen, including with women and youth, and will expand its outreach to Yemeni constituencies inside and outside the country through digital tools and specific outreach missions and visits.
225. With regard to cooperation with other entities, the mission engages closely with international and regional organizations, including the League of Arab States, the Gulf Cooperation Council, the European Union and other international partners. Furthermore, the Office pursues joint efforts with international financial institutions to facilitate joint response strategies for post-agreement planning, including recovery and peacebuilding activities.
226. With regard to inter-agency coordination and liaison, the mission cooperates with the Resident Coordinator/Humanitarian Coordinator and the United Nations country team in Yemen. In addition, United Nations agencies, funds and programmes working in Yemen are represented in the Inter-Agency Task Force on Yemen at United Nations Headquarters, which ensures the coordination and coherence of United Nations political, humanitarian, human rights and other efforts in Yemen. In line with Security Council resolution [2452 \(2019\)](#), the Office closely coordinates with UNMHA, which reports to the Secretary-General through the Special Envoy and the Under-Secretary-General for Political and Peacebuilding Affairs, and shares an integrated support structure with UNMHA.
227. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The Office will continue to engage and support gender initiatives, such as consultations and gender-related training at the national and local levels, that promote women's political participation and representation, their full citizenship rights and the incorporation of women's human rights, security needs and concerns in the planning and preparation for the transition and early recovery, conflict resolution and peacebuilding processes.

Impact of the pandemic and lessons learned

228. The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of the mandate, in particular the postponement of meetings and consultations, which at times resulted in a shift to virtual meetings, such as in three instances, owing to risk mitigation related to the pandemic.
229. The mission continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including through the use of hybrid meetings, a combination of videoconference and in-person meetings, and flexible working arrangements. Business continuity planning takes into consideration the need for a rapid shift to ensuring the use of virtual technology consultations and that outreach efforts to Yemeni and international interlocutors are not disrupted owing to the COVID-19 pandemic.

Programme performance in 2022

Introduction of the truce and reduction of violence

230. The truce, negotiated by the mission, lasted from 2 April to 2 October 2022, and represented the longest period of calm in the eight-year conflict. The truce contributed to a significant reduction of violence and civilian casualties. It started providing relief to Yemenis as a result of regular commercial flights between Amman and Sana'a and an increase in fuel imports through the Hudaydah port. It also helped build trust between the parties and showed that mutually acceptable solutions could be found through dialogue. Despite the formal expiration of the truce, there has been no return to large-scale violence and the current low levels of violence are similar to those that were witnessed during the truce. The relative calm allowed for the continuation of arrangements operated under the truce, despite its formal expiration. The truce provided the space for continued discussions on the way forward for its renewal, work towards a nationwide ceasefire and the resumption of the political process. The mission continues to work with all sides to translate understandings from this dialogue into an inclusive, multi-track process, under the auspices of the United Nations, in order to achieve a sustainable and inclusive peace agreement.

231. Progress towards the objective is presented in the performance measure below (see figure IV).

Figure IV

Performance measure: number of one-way flights^a to and from Sana'a and Amman

^a As part of the truce's commitment to reopening the Sana'a international airport, the number of flights between Sana'a and Amman grew significantly in 2022, helping to support the mobility and travel of Yemenis.

Planned results for 2024

Result 1: expanding political engagement and consultations to better include diverse Yemeni perspectives and enhance impetus towards a Yemeni-owned and sustainable peace

Programme performance in 2022 and target for 2024

232. The mission's work contributed to expanding efforts to broaden inclusion in the peace process, including through greater and more diversified outreach to civil society and consultations with Yemeni women and youth and different political actors through offices in Aden, Amman and Sana'a, which met the planned target.
233. In March 2022, the Office launched a series of structured bilateral engagements with over 100 representatives of Yemeni political parties, security actors, economic development experts, representatives of civil society and women's groups. The aim was to consult a wide range of Yemenis on their views on the immediate and longer-term priorities for the three tracks, as well as their aspirations and broader vision for ending the conflict. Consultations with various Yemeni stakeholders continued throughout the year, the outcomes of which have continuously informed the engagements of the Special Envoy with and proposals to the parties to the conflict. Women's participation in the consultations was over 30 per cent.
234. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 39).

Table 39
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
The 2020 objective of adopting joint outcome documents from consultations and negotiations was not achieved	Despite progress in consultations, the 2021 objective of implementing joint outcome documents, including specific mechanisms that involve diverse Yemeni perspectives, was not yet achieved	The mission's political engagement and consultations were expanded to better include diverse Yemeni perspectives and enhance impetus towards a Yemeni-owned and sustainable peace	Continued expansion of the mission's political engagements across the spectrum of pertinent actors, including through consultations to better include diverse Yemeni perspectives and enhance impetus towards a Yemeni-owned and sustainable peace	Inclusion of diverse Yemeni and international community perspectives to identify ways to move towards a Yemeni-led sustainable peace process

Result 2: mobilize the international community in support of implementing a Yemeni-led, inclusive peace process

Proposed programme plan for 2024

235. The Special Envoy will continue to focus on strengthening engagement with the international community through his regular briefings to the Security Council and visits to Member States and regional organizations. The emphasis of the Special Envoy on updating the international community on his continued efforts on the ground (through the mission's offices in Yemen) and in interactions with Yemeni interlocutors in the region is aimed at encouraging exchanges with Member States on ways to support a Yemeni-led political process that focuses on inclusivity, with a wide range of Yemeni partners.

Lessons learned and planned change

236. The lesson for the mission was that it needs to leverage its presence more effectively in Yemen to engage with Yemeni representatives to build a more inclusive peace process. In applying the lesson, the mission will actively seek to create additional opportunities to engage directly with diverse Yemeni stakeholders. This will include increased outreach on the track 1 process and engagement with Yemeni journalists and media professionals in an effort to strengthen transparency and to address misinformation and disinformation around the process. Further outreach will require an increased number of personnel redeployed to or frequently visiting Yemen to better engage with Yemeni interlocutors.
237. Expected progress towards the objective is presented in the performance measure below (see table 40).

Table 40
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	–	Mobilize the international community to identify ways to engage with Yemenis and move towards a sustainable peace process	Increased focus of the international community in seeking the views of diverse groups of Yemenis across various geographical locations in Yemen and within the diaspora

Deliverables

238. Table 41 lists all deliverables of the mission.

Table 41
Deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	12	12	12	12
Meetings of the Security Council	12	12	12	12
C. Substantive deliverables				
Good offices: provision of good offices to end the conflict.				
Consultation, advice and advocacy: consultations and advice on political and security proposals aimed at mediating an agreement to end the conflict and enable the completion of the political transition.				

B. Proposed post and non-post resource requirements for 2024

^a Other level, unless otherwise stated.

239. The proposed resource requirements for 2024 for the Office of the Special Envoy of the Secretary-General for Yemen amount to \$16,708,300 (net of staff assessment) and would provide for salaries and common staff costs (\$11,025,700) for 101 continuing positions (1 Under-Secretary-General, 1 D-2, 1 D-1, 6 P-5, 15 P-4, 10 P-3, 24 Field Service, 1 General Service (Other level), 14 National Professional Officer and 28 Local level), as well as operational costs (\$5,682,600), comprising costs for official travel (\$407,700), facilities and infrastructure (\$3,014,900), ground transportation (\$280,900), air operations (\$817,700), communications and information technology (\$709,000), medical (\$204,300) and other supplies, services and equipment (\$248,100).
240. Vacancy rates of 21.3 per cent, 33.4 per cent and 17.5 per cent have been applied to the estimates for international, National Professional Officer and Local level positions, respectively, taking into account the actual average vacancy rates in 2022.
241. The decrease in requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to reduced requirements for civilian personnel, resulting from the application of vacancy rates of 21.3 per cent, 33.4 per cent and 17.5 per cent for international, National Professional Officer, and Local level positions, respectively, compared with the budgeted rate of 15 per cent for international and national staff positions in 2023. The decreased requirements are offset in part by increased requirements for operational costs owing to increases in: (a) rental of premises and related operating costs for the additional office space in Amman as a result of the increased staff engagement for an enhanced level of consultations with stakeholders, requiring more meetings and conference space; (b) petrol, oil and lubricants for facilities and infrastructure and ground transportation; (c) security services for unarmed security guards; and (d) construction, alteration, renovation and major maintenance for enhanced security and electrical projects.

Extrabudgetary resources

242. In 2023, the Office projects that extrabudgetary resources in the total amount of \$540,100 will be utilized, including \$312,100 to support gender through training and meetings with Yemeni and international interlocutors and \$228,000 on political affairs expertise for the Special Envoy's multitrack support to the political process through the provision of a Political Affairs Officer (P-3) position.
243. No extrabudgetary resources are projected for 2024 owing to the conclusion of and project activities in 2023 that involve advising the Special Envoy on gender and political affairs.

10. Office of the Special Envoy of the Secretary-General on Myanmar

(\$1,380,300)

Foreword

Since the military takeover of February 2021, the multidimensional crisis in Myanmar has inflicted enormous damage on the country and people, causing immense human suffering with severe humanitarian, human rights and socioeconomic consequences and serious regional ramifications. In keeping with the Secretary-General's calls to support the democratic aspirations of the people of Myanmar for an inclusive, peaceful and just society, in my role as Special Envoy I focused on engaging key stakeholders to support a Myanmar-led process to find a political solution to the conflict and the suffering of the people.

In the context of a proliferating conflict, I will continue to focus on building cooperation with national, regional and international stakeholders to facilitate a Myanmar-led process, including for the Rohingya. I will pursue concrete initiatives in support of peace in Myanmar in four key areas: an inclusive humanitarian forum; women and peace and security in Myanmar; education for Rohingya refugees in Bangladesh and the region; and a regional refugee protection framework. I will continue to work in partnership with the Special Envoy of the ASEAN Chair to ensure full complementarity of our roles.

Pursuant to my mandate from the General Assembly, I will continue to address the root causes of the disenfranchisement of the Rohingya and ethnic minorities and to strive towards their safe, dignified, voluntary and sustainable return. In advancing these objectives, I will promote a coherent and coordinated system-wide approach in regular liaison with the Security Council and the General Assembly.

(Signed) Noeleen **Heyzer**
Special Envoy of the Secretary-General on Myanmar

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

244. The Office of the Special Envoy of the Secretary-General on Myanmar is responsible for the provision of the Secretary-General's good offices through discussions involving all relevant stakeholders and assistance to Myanmar. The mandate was defined by the General Assembly in its resolution 72/248 and renewed in its resolutions 73/264, 74/246, 75/238, 76/180 and 77/227. In its first resolution on Myanmar, resolution 2669 (2022), adopted on 21 December 2022, the Security Council reinforced the urgent need to end the human suffering, provided further guidance on the scope of work of the Special Envoy, and called for, inter alia, close coordination between the Special Envoy of the Secretary-General and the Special Envoy of the ASEAN Chair on Myanmar. The Special Envoy of the Secretary-General will continue to listen carefully and engage with all stakeholders and communities on the ground to support durable peace and national reconciliation and build regional and international coherence based on an accurate assessment of the situation.
245. The mission will continue to provide the good offices of the Secretary-General in a conflict environment that has expanded since the military takeover on 1 February 2021, which has compounded pre-existing challenges facing vulnerable communities such as the Rohingya. The mission will focus on supporting a Myanmar-led process reflective of the will of the people to find a political solution to the conflict, advocating for the rights and voices of the Rohingya as integral to an inclusive and stable future for Myanmar and addressing those systemic inequalities affecting all marginalized people. Accountability for those responsible for mass atrocities and human rights violations and abuses, the promotion of human rights more broadly and the meaningful participation of women in all decision-making processes will remain key cross-cutting priorities. This will require the Special Envoy to work in close and trusted partnership with all stakeholders, local communities and civil society, and regional partners, notably the Government of Bangladesh, ASEAN and neighbouring countries, while keeping the broader membership of the United Nations informed of the Special Envoy's activities and their impact.

Programme of work

Objective

246. The objective, to which the mission contributes, is to support a Myanmar-led democratic and peaceful nation-building process and to support the creation of the conditions necessary for the safe, dignified and sustainable return and reintegration of Rohingya in Myanmar.

Strategy and external factors for 2024

247. To contribute to the objective and address the deterioration of the situation in Myanmar, the mission will:
- (a) Implement a multitrack approach, including strengthening cooperation between the United Nations and ASEAN to address humanitarian and other critical needs on the ground without discrimination. In close partnership with the ASEAN Special Envoy, the Special Envoy of the Secretary-General will seek to facilitate the delivery of assistance to affected communities through all existing channels and address the multiple priority needs of the people across the country, including civilian protection, food security, socioeconomic resilience and humanitarian and COVID-19 assistance. The Special Envoy will complement regional efforts

to support effective implementation of the five-point consensus of the ASEAN Leaders' Meeting in alignment with the will of the people of Myanmar, and coordinate system-wide support that will help strengthen application of the norms and values of the United Nations to this process. The Special Envoy will also continue to initiate concrete initiatives, including a regional refugee protection framework, a women and peace and security platform on Myanmar; initiatives on education for Rohingya refugees in Bangladesh and the region, and an inclusive humanitarian forum;

- (b) Advocate for a Myanmar-led process towards a peaceful, democratic and inclusive future. In support of this, the Special Envoy will mobilize a coherent international approach based on regional unity. She will facilitate initiatives to support a return to civilian rule and to advance the implementation of democratic and human rights norms towards a path of democratic consolidation and reform. The Special Envoy will continue to initiate inclusive and participatory approaches with minorities, youth and women, whose voices and empowerment are critical to fostering social cohesion and developing a viable way out of the current political crisis and in line with the will of the people;
 - (c) Continue efforts to create a conducive environment for the voluntary, safe, dignified and sustainable return to Rakhine State of the forcibly displaced Rohingya in the region, including in Bangladesh. To that end, the Special Envoy will continue to promote a political solution in consultation with the Rohingya and other key stakeholders, so as to improve the conditions of Rohingyas on the ground, in line with the recommendations of the Advisory Commission on Rakhine State. The Special Envoy will also continue her ongoing dialogue with leaders of regional countries and the international community to promote burden-sharing, including scaling up humanitarian assistance, educational opportunities and durable solutions for refugees.
248. The above-mentioned work is expected to result in:
- (a) Improved conditions for the safe, voluntary, dignified and sustainable return of forcibly displaced populations;
 - (b) Creating conducive conditions for a de-escalation of violence and an increase in trust among communities;
 - (c) Greater international and regional political support towards improved humanitarian assistance for populations in need, whose conditions have dramatically worsened countrywide since the military takeover;
 - (d) Contributing to the establishment of a Myanmar-led process with key stakeholders to advance discussions on restoring democratic and human rights norms as part of a negotiated political solution.
249. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) The grave impact on civilians and communities across Myanmar from the continued intensification of violence and repression since the military takeover, serious human rights violations and the need for civilian protection will remain a significant challenge in securing a coherent policy, notably for narrowing the trust deficit towards national reconciliation;
 - (b) The plight of Rohingya refugees will continue to require concrete actions for their safe, dignified, voluntary and sustainable return and reintegration in Myanmar. The rights and security of the Rohingya people need to be guaranteed and embedded in Myanmar-led solutions towards a peaceful, democratic and inclusive future;
 - (c) Illicit activities and related financial flows, closely linked to the conflict in Myanmar and the downfall of the formal economy, will continue to hamper conflict resolution and impede the strengthening of rule of law, institution-building, socioeconomic and development efforts.

250. With regard to cooperation with other entities, the mission works in partnership with ASEAN, especially the ASEAN Special Envoy, other key regional organizations, such as the Organization of Islamic Cooperation (OIC) and the European Union, neighbouring countries and international donors to mobilize constructive support to facilitate the delivery of humanitarian assistance through all available channels, support dialogue among all concerned parties and facilitate refugee returns.
251. With regard to inter-agency coordination and liaison, the mission will continue to coordinate closely with the United Nations system through established inter-agency channels, in close consultation with the Resident Coordinators in Myanmar and Bangladesh. The Special Envoy of the Secretary-General continues to carry out the good offices mandate in close cooperation with the United Nations country team and specialized offices at Headquarters, as well as various human rights mechanisms on Myanmar mandated by the Human Rights Council.
252. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, and will co-facilitate with key relevant regional leaders a women and peace and security platform on Myanmar to amplify the voices of the most marginalized women and advance their protection agenda.

Impact of the pandemic and lessons learned

253. The continuation of the COVID-19 pandemic into 2022 had a limited impact on mandate implementation, with the gradual resumption of more regular in-person meetings. Throughout the year, the mission continued to mitigate the potential impact on operational activities through online engagement with stakeholders, where relevant, including with domestic and international actors. When conditions allowed, the Special Envoy conducted in-person discussions while following adequate prevention protocols, including masking and social distancing, during her visits to the region, which allowed for more effective discussions.
254. The mission continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including on limiting travel where needed and by adopting flexible working arrangements.

Programme performance in 2022

Safe, dignified and voluntary repatriation

255. The Special Envoy maintained close contact with all stakeholders, including local communities in Rakhine, throughout 2022, while progress in Myanmar was curtailed by escalating violence throughout the country and the resumption of violence in Rakhine for several months. The Special Envoy regularly engaged with civil society, community leaders, women's groups, human rights activists and other key stakeholders in Myanmar, including in Rakhine. The Special Envoy visited Bangladeshi refugee camps in August 2022 to renew international attention on the Rohingya crisis and keep the hopes of refugees alive.
256. The Special Envoy continued her close consultation with Rohingya groups and engagement with key Member States to support the conditions conducive to the safe, dignified, voluntary and sustainable return of the Rohingya population to Myanmar in a rapidly changing political context. She mobilized constructive support from international and regional partners, ASEAN and OIC towards addressing the root causes of conflict in Rakhine State to enable returns, including through her participation in a side event convened by Bangladesh on the Rohingya crisis during the high-level week of the seventy-seventh session of the General Assembly. However, the ongoing conflict, the broad humanitarian crisis and the significant economic downturn following the military takeover undermined reconciliation and repatriation efforts. In this context, the Special Envoy continued her close engagement with key ethnic armed organizations and other stakeholders with a view to promoting an inclusive Myanmar-led process.

257. Progress towards the objective is presented in the performance measure below (see table 44).

Table 44

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Return of refugees in a more enabling environment was not realized; efforts continued nevertheless	Preparation for repatriation was disrupted by the military takeover and the interventions had to be reformulated taking into consideration the changing political dynamics	Repatriation was further delayed by the escalating violence throughout Myanmar, including in Rakhine State

Planned result for 2024**Progress towards improved humanitarian conditions and a Myanmar-led inclusive, democratic and peaceful nation-building process****Programme performance in 2022 and target for 2024**

258. In 2022, the mission's work contributed to creating conditions for the safe, voluntary, sustainable and dignified return of Rohingya refugees, including through regular consultation with Rohingya groups and key regional stakeholders, but the planned target of facilitating local initiatives in support of social cohesion was not met, as efforts towards achieving it were disrupted following the military takeover and the deterioration of security conditions in Myanmar, including in Rakhine State.
259. The mission will continue to focus on improving the conditions of Rohingya remaining in Rakhine State by engaging key stakeholders to build confidence and improve the reintegration prospects of the returning refugees. These efforts will be supported by enhanced coordination among agencies providing support to Rohingya, as well as improved support towards displaced Rohingya and Bangladeshi host communities in line with the Special Envoy's efforts to promote the regional and international response and burden-sharing.
260. In 2024, the mission, in close cooperation with ASEAN, will concentrate its efforts on improving the security and humanitarian situation in Myanmar in line with the ASEAN five-point consensus, reducing violence against civilians and enabling a Myanmar-led process to identify a political solution to the current crisis and build an inclusive, democratic and peaceful country.

Lessons learned and planned change

261. A lesson learned for the mission was the ongoing importance of close cooperation and engagement with key regional organizations, namely ASEAN and OIC. To this end, the mission will continue strengthening cooperation with ASEAN and the ASEAN Special Envoy to garner regional support for concrete initiatives that support Myanmar-led solutions towards a peaceful, democratic and inclusive future for the country. Furthermore, the mission will foster close cooperation with other regional actors, including joint platforms, to advance key policy areas on expanding humanitarian access and the women and peace and security agenda. This will also include closer cooperation with OIC to advance an education initiative for the Rohingya.
262. Expected progress towards the objective and the target for 2024 are presented in the performance measure below (see table 45).

Table 45
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
The Special Envoy advocated for tangible commitments from the Government of Myanmar on the implementation of the recommendations of the Advisory Commission on Rakhine State	The military takeover and ensuing broader conflict and humanitarian crisis forced the Special Envoy to reformulate her strategy on Rohingya repatriation	The Special Envoy elevated international engagement on the Rohingya through a visit to Bangladesh and by reinforcing cooperation with OIC	The Special Envoy engages with key actors towards a cessation of violence and improved humanitarian conditions, including in Rakhine State, to support the return of refugees	The Special Envoy moves forward with concrete initiatives on the inclusive humanitarian forum, women and peace and security, education for Rohingya refugees and host communities and regional refugee protection mechanisms

Deliverables

263. Table 46 lists all deliverables of the mission.

Table 46
Deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Reports of the Secretary-General for the General Assembly	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	4	5	4	4
2. Meetings of the Security Council	2	3	2	2
3. Meetings of the General Assembly	2	2	2	2
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	–	–	6	6
4. Workshops supported by the mission on social cohesion and anti-discrimination; women’s political empowerment; strengthening of the rule of law and accountability for serious human rights violations; fundamental freedoms; and implementation of the recommendations of the Advisory Commission on Rakhine State	–	–	6	6
C. Substantive deliverables				
Good offices: 200 good offices engagements with Myanmar stakeholders, civil society, ethnic armed organizations and countries in the region in support of: a return to democratic reforms, peace and stability at the national, subnational and local levels, and humanitarian access to help support the more than 17 million people in need of assistance in Myanmar; and the voluntary, safe, dignified and sustainable repatriation of the Rohingya and durable solutions and reintegration of forcibly displaced persons.				
Consultation, advice and advocacy: 200 consultations with Myanmar stakeholders, civil society, key regional organizations, including ASEAN and OIC, and the international community, including all ASEAN member States, on electoral and constitutional issues; accountability for serious human rights violations and cooperation with international accountability mechanisms; good governance and the strengthening of the rule of law; human rights issues, including fundamental freedoms, civilian protection, child rights, the elimination of discrimination and violence against minorities; the promotion of gender equality; and the involvement of women and youth in peace initiatives.				

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>

Operational costs	291.3	229.1	292.0	290.9		(1.1)
Total (net of staff assessment)	1 153.5	1 223.8	1 408.6	1 380.3		(28.3)

Table 48

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2023	1	–	–	1	1	1	–	–	–	–	4	–	1	1	–	–	
Proposed 2024	1	–	–	1	1	1	–	–	–	–	4	–	1	1	–	–	–	5
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

264. The proposed resource requirements for 2024 for the Office of the Special Envoy of the Secretary-General on Myanmar amount to \$1,380,300 (net of staff assessment) and would provide for salaries and common staff costs (\$1,089,400) for the continuation of five positions (1 Under-Secretary-General, 1 D-1, 1 P-5, 1 P-4 and 1 Local level), as well as operational costs (\$290,900), comprising costs for official travel (\$150,400), facilities and infrastructure (\$21,200), ground transportation (\$7,000), communications and information technology (\$24,600), medical (\$1,000) and other supplies, services and equipment (\$86,700).
265. For 2024, no change is proposed to the number and levels of the positions. Vacancy rates of zero and 41.7 per cent have been applied to the estimates for international positions and one Local level position, respectively, on the basis of the actual average vacancy rates in 2022.
266. The decrease in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to decreased requirements for civilian personnel costs owing to lower common staff costs and the application of a vacancy rate of 41.7 per cent compared with the budgeted rate of zero per cent in 2023 for the Local level position. The decreased requirements are offset in part by the change in the vacancy rates from 5 per cent in 2023 to zero per cent in 2024 for international staff.
267. After a security assessment conducted by the Department of Safety and Security of the Secretariat in early 2022, all international staff were temporarily relocated from Nay Pyi Taw to Bangkok and are currently sharing space with the regional office of the Department of Political and Peacebuilding Affairs hosted in the Economic and Social Commission for Asia and the Pacific (ESCAP) compound. The situation on the ground remains fluid, and it is unclear when staff will be able to return to Myanmar. The only national staff position remains vacant; therefore, all administrative support will be provided by ESCAP or from mission staff funded by extrabudgetary resources.

Extrabudgetary resources

268. In 2023, the mission projects that extrabudgetary resources estimated in the amount of \$1,699,100 will be used to support activities and relevant initiatives aimed at promoting the implementation of General Assembly resolution [76/180](#) and would provide for two P-5 positions. These activities and initiatives include: (a) support towards the return of Rohingya refugees and internally displaced persons; (b) intercommunal dialogues; (c) anti-discrimination and countering hate speech; and (d) national reconciliation.
269. In 2024, extrabudgetary resources in the estimated amount of \$483,800 are projected to support the mission's efforts to further the consolidation of democracy and to advance justice, peace and human rights in Myanmar. At the time of reporting, there is no clarity on whether there will positions funded from such resources in 2024.
270. Extrabudgetary resources in 2024 are projected to decrease from estimates in 2023, pending final donor agreements that would be solidified in the fourth quarter of 2023 in line with the mission's single-year donor agreements practice.

Annex I

Summary of follow-up action taken to implement decisions and requests of the General Assembly, including the requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions

[A/77/7/Add.2](#)

The Advisory Committee notes that the proposed position would provide some analytical support, including on the use of social media in hate speech, and trusts that the Secretariat will undertake a review of the appropriate funding mechanism for such a position with system-wide functions. The Committee therefore recommends at this stage the provision of resources for a general temporary assistance P-2 position for one year. The Committee trusts that the Office will coordinate with the Development Coordination Office and the Department of Global Communications on its work on hate speech (para. 10).

The Advisory Committee is not fully convinced by the justifications provided, including from an efficiency perspective, bearing in mind that multiple options for the mission headquarters exist, including Djibouti, which hosts the IGAD secretariat; Addis Ababa, Ethiopia, where the African Union Peace and Security Council and the Peace and Security Division of IGAD are based; as well as Khartoum, Sudan, and Juba, South Sudan, the original signatories of the Comprehensive Peace Agreement. The Committee therefore recommends a continuation of the current location and a further refinement of the proposal regarding the location of the Office of the Special Envoy of the Secretary-General for the Horn of Africa, for the consideration of the General Assembly in the next budget submission (para. 19).

The Office of the Special Adviser to the Secretary-General on the Prevention of Genocide partners with the Development Coordination Office and the Department of Global Communications, which are also members of the inter-agency Working Group on Hate Speech. However, the technical expertise and focal point responsibility for the implementation of the United Nations Strategy and Plan of Action on Hate Speech lies with the Office of the Special Adviser. The implementation of the 13 commitments of the Strategy necessitates a multisectoral approach linking addressing hate speech to broader United Nations prevention efforts, for which the analysis and coordination provided by a dedicated focal point located in the Office remains essential. The Office is the only United Nations entity that undertakes analysis of genocide, war crimes, crimes against humanity and ethnic cleansing and advises United Nations organs, including the Security Council, the General Assembly and the Secretariat, and mechanisms such as the Human Rights Council and related bodies on the potential risks of genocide, war crimes, ethnic cleansing and crimes against humanity and measures to address them.

The Office of the Special Envoy of the Secretary-General for the Horn of Africa is not proposing a redeployment of the three international positions (1 Under-Secretary-General, 1 D-1 and 1 P-3) from Addis Ababa to Nairobi. The Office is proposing the redeployment of a Political Affairs Officer (P-4) from Addis Ababa back to Khartoum, where the position was initially established in 2011 and where it was based until 2018 when the mandate of the Office of the Special Envoy for the Sudan and South Sudan was expanded to cover the entire Horn of Africa.

*Brief description of the recommendation**Action taken to implement the recommendation*

The Advisory Committee trusts that updated information, including lessons learned and best practices, on the coordination of activities between the special political missions and the resident coordinator offices will be provided in the context of the next programme budget submission (para. 33).

Special political missions continue to coordinate activities and cooperate with the resident coordinators' offices. One example of good practice in this context has been the strategic review of the Peace Support Facility conducted by the Office of the Special Envoy for Yemen, which represents a major partnership between the mission, the Resident Coordinator's Office and the United Nations Development Programme. The finalization of the strategic review is under way, and it is expected that decisions on the implementation of the recommendations will start by the second quarter of 2023.

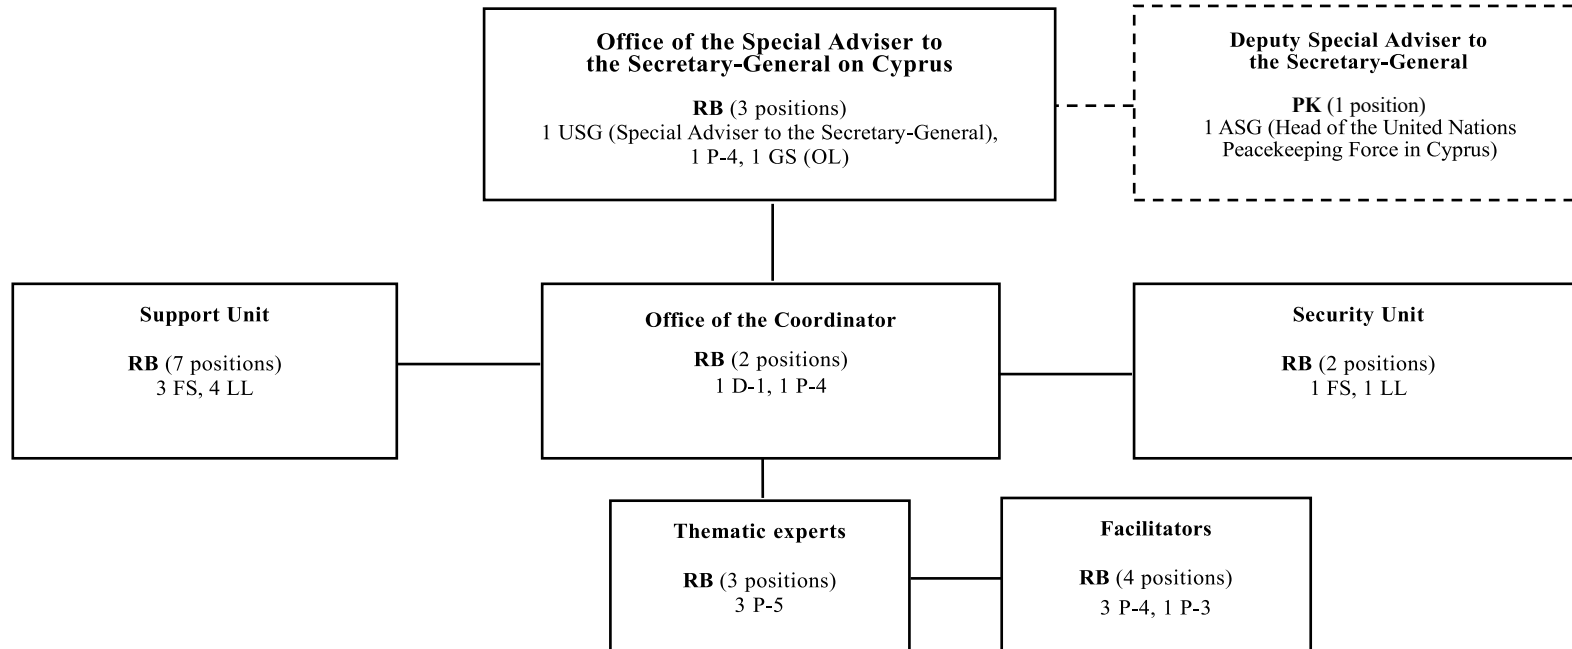

The Advisory Committee trusts that the cost-sharing arrangements in place maximize the efficient and transparent use of resources. The Committee trusts that disaggregated cost recovery and resources related to the cost-sharing arrangements will be included in future budget submissions (para. 34).

The cost recovery and cost-sharing arrangements of all special political missions are centrally presented in annexes VI and VII to the report on estimates in respect of special political mission ([A/78/6 \(Sect. 3\)/Add.1](#)) to facilitate a consolidated review.

Annexes	
I. Summary of follow-up action taken to implement the decisions and requests made by the General Assembly, including the requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly	103
II. Organizational structure and post distribution for 2024	104

I. Resource overview

1. The proposed resources for 2024 for the 16 special political missions grouped under thematic cluster II amount to \$66,470,400 (net of staff assessment). Tables 1 and 2 provide a comparison between the financial and human resources proposed for 2024 and such resources for 2023 as approved by the General Assembly in its resolution 77/263 A.

Table 1
Financial resources

^a Includes staff in the Professional and higher categories and Field Service and General Service staff.

^b Includes National Professional Officers and Local level staff.

^c Includes international and national United Nations Volunteers.

- The proposed vacancy rates applied in the budget take into account the experience to date. The assumptions considered for the proposed vacancy factors include the 12-month average vacancy rate in 2022 and the actual vacancy rate as at 31 March 2023. The lower of the two was used as the budgeted vacancy rate. This is in line with the policy guidance provided by the Field Operations Finance Division of the Department of Management Strategy, Policy and Compliance to improve the accuracy and consistency of the vacancy factors applied in the proposed budgets for 2024 and to ensure that the proposed vacancy rates are based, as much as possible, on actual rates. A vacancy rate of 50 per cent has been applied in the calculation of costs for the proposed establishment of new posts and positions, or posts and positions proposed for reassignment or conversion.
- For the sake of brevity, the present document will include a section on extrabudgetary resources only for those missions that have projected extrabudgetary resources in 2023 or 2024.

II. Cross-cutting information

Gender perspective

- Special political missions are guided by Security Council resolutions 1325 (2000), 1820 (2008), 1888 (2009), 1889 (2009), 1960 (2010), 2106 (2013), 2122 (2013), 2242 (2015), 2467 (2019) and 2493 (2019), which together constitute the women and peace and security agenda and mandate the incorporation of a gender perspective into the political work of the United Nations, including in special political missions. The missions are also guided by General Assembly resolution 75/100 on the comprehensive review of special political missions, in which the Assembly reaffirmed the important role of women in the prevention and resolution of conflicts and in peacebuilding and recognized the importance of the equal and effective participation and the full involvement of women at all levels, at all stages and in all aspects of the peaceful settlement of disputes, conflict prevention and conflict resolution.
- The sanctions monitoring teams, groups and panels, and the mission for the implementation of Security Council resolution 2231 (2015) integrate a gender perspective into their operational activities, deliverables and results, as appropriate, and as guided by the relevant Security Council

resolutions. Gender balance is taken into consideration in the recruitment and rostering of experts and the Ombudsperson, as well in the recruitment of related staff. The terms of reference for experts in sanctions monitoring teams, groups and panels indicate that experts should incorporate gender perspectives into their substantive areas of responsibility. These missions are also guided by the gender strategy of the Department of Political and Peacebuilding Affairs, including in the provision of available gender training to staff and sanctions-specific gender training to all experts. The inter-panel workshop organized in December 2022 by the Department to foster cooperation and the exchange of best practices across panels included a high-level panel on the women and peace and security agenda, and participants discussed the importance of gender mainstreaming in monitoring groups, teams and panels. In addition, to further diversify the geographical and gender composition of sanctions monitoring teams, groups and panels, the Department participated in a virtual career fair for women in senior positions, hosted by a career web platform specialized in humanitarian and international jobs. The workshop was aimed at women with at least seven years of professional experience and an interest in pursuing a career in the United Nations. A total of 1,359 women registered for the career fair, of which 891 (from 122 countries across all regional groups) visited the Department's virtual booth containing presentations, fact sheets, videos and information on job openings.

Disability inclusion

6. In line with the United Nations Disability Inclusion Strategy, special political missions review the Strategy with a view to further advancing disability inclusion through inclusive messaging, awareness-raising and promoting the Strategy through their work, including in political and peace processes. The missions also support mitigating measures to overcome accessibility challenges, in addition to the efforts by relevant United Nations entities to ensure the accessibility of facilities, platforms, security and other infrastructure to facilitate easy access and use by persons with disabilities.

Evaluation activities

7. The Department of Political and Peacebuilding Affairs will support the biennial assessment by the Office of Internal Oversight Services on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives. Mission-specific evaluation activities are described, as applicable, under the specific missions in the present report.

Impact of the pandemic and lessons learned

8. The continuation of the coronavirus disease (COVID-19) pandemic into 2022 had an impact on the implementation of mandates, in particular, in instances when sanctions monitoring teams, groups and panels faced challenges related to the travel of experts to some countries to gather information on the implementation of the sanctions regimes. Operational conditions progressively improved in 2022, which allowed for mandate implementation through formerly established approaches. It is assumed that similar operational conditions with regard to the pandemic will continue in 2024.
9. Reflecting the importance of continuous improvement and responding to the evolving needs and requests of Member States, the proposed programme plans for special political missions in 2024 continue to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic. New and cost-effective approaches include maintaining virtual engagement with interlocutors by means of telecommunication, when appropriate, and by benefiting from desk research, including by using databases and subscriptions procured by the United Nations. The missions ensured the continued confidentiality of their work by utilizing secure communication platforms offered by the Office of Information and Communications Technology and by employing alternative methods, including hand delivery, when appropriate.

III. Special political missions

1. Group of Experts on the Democratic Republic of the Congo

(\$1,556,700)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

10. The Group of Experts on the Democratic Republic of the Congo is responsible for monitoring the implementation of the arms embargo, asset freeze, travel ban and transport and customs measures, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolutions [1533 \(2004\)](#), [1596 \(2005\)](#), [1649 \(2005\)](#), [1698 \(2006\)](#), [1807 \(2008\)](#), [1857 \(2008\)](#), [1896 \(2009\)](#), [1952 \(2010\)](#), [2021 \(2011\)](#), [2078 \(2012\)](#), [2424 \(2018\)](#), [2478 \(2019\)](#), [2528 \(2020\)](#), [2582 \(2021\)](#), [2641 \(2022\)](#) and [2667 \(2022\)](#). The sanctions regime is aimed at preventing individuals and entities from undermining the peace, stability or security of the Democratic Republic of the Congo.

Programme of work

Objective

11. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Democratic Republic of the Congo, which includes an arms embargo on all non-governmental entities and individuals operating in the territory of the Democratic Republic of the Congo, an asset freeze and a travel ban.

Strategy and external factors for 2024

12. To contribute to the objective, the Group of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [1533 \(2004\)](#) concerning the Democratic Republic of the Congo.
13. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
14. With regard to cooperation with other entities at the global, regional, national and local levels, the Group of Experts cooperates with, among others, Member States and the International Conference on the Great Lakes Region to request information relevant to its investigations into the implementation and/or violations of the sanctions regime concerning the Democratic Republic of the Congo.
15. With regard to inter-agency coordination and liaison, the Group of Experts cooperates with, among others, the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo (MONUSCO), the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Group cooperates with MONUSCO, the Department of Safety and Security of the Secretariat and the United Nations Development Programme (UNDP).

16. With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Group of Experts;
 - (b) The security situation allows the Group to conduct missions, as needed.

Programme performance in 2022

Enhanced understanding by the Security Council and the Committee of the illegal exploitation of natural resources in the Democratic Republic of the Congo

17. The illegal exploitation and trafficking of natural resources out of the Democratic Republic of the Congo and the activities of armed groups in the country remain a serious concern for the Security Council. The Group of Experts reported on armed groups in the Democratic Republic of the Congo benefiting from the illicit exploitation of natural resources and on violations by several armed groups of human rights and international humanitarian law, including sexual violence in conflict. The Group recommended to the Government of the Democratic Republic of the Congo that it investigate and prosecute, inter alia, individuals involved in the illegal trade in and smuggling of gold, and to take all measures necessary to protect the civilian population in areas where armed groups were present.
18. The above-mentioned work contributed to the Security Council and the Committee receiving updated information from the Group of Experts on the illicit exploitation of natural resources and violations of human rights and international humanitarian law. Progress towards the objective is presented in the performance measure below (see table 3).

Table 3
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Committee added individuals and/or entities to the sanctions list	Security Council and Committee received updated information on the illicit exploitation of natural resources, recruitment by armed groups and sexual violence	Security Council and Committee continued to receive updated information on the illicit exploitation of or trafficking in natural resources and considered adjusting the designations of individuals and/or entities

Planned result for 2024

Enhanced understanding by the Security Council and the Committee of the illegal exploitation of natural resources and the activities of armed groups in the Democratic Republic of the Congo

Programme performance in 2022 and target for 2024

19. The mission's work contributed to the full implementation of this sanctions regime, which met the planned target of the Committee receiving updated information on individuals involved in the illicit exploitation or trafficking of natural resources as linked to destabilizing activities in the Democratic Republic of the Congo.

Lessons learned and planned change

20. The lesson for the Group of Experts was the need to further adapt its information-gathering and working methods based on the experience gained during COVID-19 travel restrictions. In applying the lesson, the Group will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations.
21. This work is expected to further contribute to increased reporting and recommendations by the Group of Experts on the illicit exploitation of natural resources and the activities of armed groups, and follow-up by the Security Council and the Committee on those recommendations, which may result in the Committee adjusting the designations of individuals and entities. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 4).

Table 4
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
Security Council and Committee received more first-hand sanctions-related information on the illicit exploitation of natural resources	Security Council and Committee continued to receive updated sanctions-related information on the illicit exploitation of natural resources	Security Council and Committee considered information on individuals who had supported armed groups or criminal networks involved in destabilizing activities in the Democratic Republic of the Congo through the illicit exploitation or trafficking of natural resources	Committee considers adjusting list entries of individuals and/or entities in connection with illicit exploitation or trafficking of natural resources	Committee considers adjusting the designations of individuals and/or entities in connection with human rights violations committed by armed groups and the illicit exploitation or trafficking of natural resources

Deliverables

22. Table 5 lists all deliverables of the mission.

Table 5
Deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	7	6	7	7
1. Reports to the Security Council and updates, monthly reports, country visit reports, investigative reports and/or reports on outreach activities to the sanctions committee	7	6	7	7
Substantive services for meetings (number of three-hour meetings)	9	10	9	9
2. Meetings of sanctions committee	7	8	7	7

Approved 2023	-	-	-	-	-	-	2	-	-	-	2	-	-	-	-	-	-	2
Proposed 2024	-	-	-	-	-	-	2	-	-	-	2	-	-	-	-	-	-	2
Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

23. The proposed resource requirements for the Group of Experts on the Democratic Republic of the Congo for 2024 amount to \$1,556,700 (net of staff assessment) and would provide for the salaries and common staff costs (\$415,200) for the continuation of two positions (P-3) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,141,500) comprising expert fees (\$742,900) and travel (\$264,600) of the six members of the Group, official travel of staff (\$24,000) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$110,000).
24. For 2024, no change is proposed to the number and level of positions for the Group of Experts. A vacancy rate of zero per cent has been applied to the estimates of staff costs, based on the actual vacancy rate in March 2023.
25. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable primarily to higher requirements under civilian personnel costs owing to the application of a vacancy rate of zero per cent, compared with the rate of 5 per cent applied in 2023, and the latest salary scale, and higher requirements for expert fees owing to a change in the composition of the Panel, offset in part by a lower percentage of common staff costs based on recent expenditure patterns.

2. Panel of Experts on the Sudan

(\$1,151,500)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

26. The Panel of Experts on the Sudan is responsible for monitoring the implementation of the arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate is defined in Security Council resolution [1591 \(2005\)](#). The sanctions regime is one of the tools used by the Council to address the conflict in Darfur and is aimed at preventing and containing threats to the stability of Darfur and the region and a peaceful settlement of the conflict in Darfur. The Secretary-General submitted on 31 July 2021 his report requested by the Council in its resolution [2562 \(2021\)](#) providing a review of the situation in Darfur and recommending benchmarks to assess the measures on Darfur ([S/2021/696](#)). The report contained information relating to the situation in Darfur and provided recommendations for benchmarks that could serve in guiding the Council in reviewing the measures on Darfur. In its resolution [2676 \(2023\)](#) of 8 March 2023, the Council extended the mandate of the Panel until 12 March 2024.

Programme of work

Objective

27. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Sudan, which includes an arms embargo, an asset freeze and a travel ban, as well as to report on the possible threats to the peace and stability of Darfur.

Strategy and external factors for 2024

28. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [1591 \(2005\)](#) concerning the Sudan.
29. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the Sudan sanctions regime.
30. With regard to cooperation with other entities at the global, regional, national and local levels, the Panel of Experts cooperates with, among others, Member States and the African Union.
31. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the United Nations Integrated Transition Assistance Mission in the Sudan (UNITAMS), the Office for the Coordination of Humanitarian Affairs, the United Nations Children's Fund and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security, UNITAMS, UNDP and the World Food Programme (WFP).

32. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel to conduct missions, as needed.

Programme performance in 2022

The Security Council and the Committee receive updated information on Darfuri armed groups in Darfur and Libya, their financing and their integration in accordance with the Juba Peace Agreement

33. The Panel of Experts continued to monitor the activities of Darfuri armed movements in Libya, where mercenary activities had become less lucrative than in previous years. The Panel determined that those armed movements resorted to opportunistic business and criminal activities as their main sources of revenue. The Panel also reported on its engagement with government interlocutors and signatories to the Juba Peace Agreement and provided detailed information on new sources of funding in Darfur for signatory armed groups.
34. The Panel of Experts delivered on its objective, although the comprehensiveness of its reporting was affected by the fact that one expert position remained vacant in 2022. Progress towards the objective is presented in the performance measure below (see table 8).

Table 8
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Security Council and Committee received reporting from the Panel of Experts on the activities, structures and motivations of Darfuri rebel groups operating in Libya	Security Council and Committee received updated information regarding the peace process and Darfuri armed groups, their financing and their role in destabilizing the country and the region. With this information, the Committee issued guidance to Member States on the implementation of the sanctions regime and convened a meeting with the Sudan and regional States on the implementation of the sanctions measures	Security Council and Committee received updated information on Darfuri armed groups in Darfur and Libya, their financing and their integration in accordance with the Juba Peace Agreement

Planned result for 2024

Updated information on Darfuri armed groups in Darfur and Libya and their integration in security forces in accordance with the Juba Peace Agreement and on the impact of the wider conflict in the Sudan on Darfur

Programme performance in 2022 and target for 2024

35. The mission's work contributed to enhancing the Committee's and the Security Council's understanding of possible threats to the peace and stability of Darfur, and the impact of the wider conflict in the Sudan on Darfur.

Lessons learned and planned change

36. The lesson for the Panel of Experts was the need to further adapt its information-gathering and investigative working methods based on the experience gained during COVID-19 travel restrictions. In applying the lesson, the Panel will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations.
37. This work is expected to contribute to the Committee's increased awareness of the operations of Darfuri armed groups. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 9).

Table 9
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Security Council and Committee received reporting from the Panel of Experts on increasing alliances between Darfuri armed groups and Libyan armed actors	Security Council and Committee received reporting from the Panel of Experts on activities of Darfuri armed groups in Libya and the Sudan	Security Council and Committee received reporting from the Panel of Experts on activities of Darfuri armed groups in Libya and the Sudan	Security Council and Committee receive updated information on the Darfuri armed groups in Darfur and Libya and their integration	Security Council and Committee receive updated information on the Darfuri armed groups in Darfur and Libya and their integration following the signing of the Juba Peace Agreement, and information on the impact of the wider conflict in the Sudan on Darfur

Deliverables

38. Table 10 lists all deliverables of the mission.

Table 10
Deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	6	6	6	6
1. Reports to the Security Council and updates, monthly reports, country visit reports, investigative reports and/or reports on outreach activities to the sanctions committee	6	6	6	6
Substantive services for meetings (number of three-hour meetings)	6	3	7	7
2. Meetings of sanctions committee	3	3	6	6
3. Chair's briefings to Member States	3	–	1	1
Conference and secretariat services for meetings (number of three-hour meetings)	6	3	7	8
4. Meetings of sanctions committee	3	3	6	6
5. Special meetings on thematic and regional topics and capacity challenges of Member State	3	–	1	2

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	5	2	5	7
6. Induction seminar for new members of the Panel of Experts and other training sessions	5	2	5	7
Publications (number of publications)	1	–	–	1
7. Implementation assistance notice and guidance document	1	–	–	1
Fact-finding, monitoring and investigation missions (number of missions)	–	14	12	12
8. Missions to gather information relating to compliance with the sanctions regime	–	14	12	12
C. Substantive deliverables				
Consultation, advice and advocacy: recommendations concerning new individuals and entities to be listed; consultations with Member States on the implementation of the sanctions regime; consultations and advice to broaden engagement with international, regional, subregional and other organizations; and advice on the implementation of relevant resolutions.				
Databases and substantive digital materials: archives of documents collected by the Panel of Experts.				
D. Communication deliverables				
Outreach programmes, special events and information materials: outreach programmes to report on the work of the Panel of Experts; fact sheets on the work and mandate of the special political mission; and notes verbales on the activities of the sanctions committee/Panel of Experts.				
External and media relations: press releases on the activities of the sanctions committee/Panel of Experts.				
Digital platforms and multimedia content: dissemination of information on the activities and mandate of the sanctions committee/Panel of Experts through its website.				

B. Proposed post and non-post resource requirements for 2024

Resource requirements (regular budget)

Table 11

Financial resources

(Thousands of United States dollars)

Category of expenditure	2022		2023		2024	Variance
	Appropriation	Expenditure	Appropriation	Requirements	2024 vs. 2023 Increase/(decrease)	
	(1)	(2)	(3)	(4)		(5)=(4)-(3)
Military and police personnel costs	–	–	–	–		–
Civilian personnel costs	149.7	168.5	147.8	203.2		55.4
Operational costs	923.4	788.4	972.6	948.3		(24.3)
Total (net of staff assessment)	1 073.1	956.9	1 120.4	1 151.5		31.1

Table 12
Human resources

	<i>International staff</i>										<i>National staff</i>			<i>United Nations Volunteers</i>			<i>Total</i>	
	<i>USG</i>	<i>ASG</i>	<i>D-2</i>	<i>D-1</i>	<i>P-5</i>	<i>P-4</i>	<i>P-3</i>	<i>P-2</i>	<i>FS</i>	<i>GS</i>	<i>Subtotal</i>	<i>NPO</i>	<i>LL</i>	<i>Subtotal</i>	<i>International</i>	<i>National</i>		<i>Subtotal</i>
Approved 2023	-	-	-	-	-	-	1	-	-	-	1	-	-	-	-	-	-	1
Proposed 2024	-	-	-	-	-	-	1	-	-	-	1	-	-	-	-	-	-	1
Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

39. The proposed resource requirements for the Panel of Experts for 2024 amount to \$1,151,500 (net of staff assessment) and would provide for the salaries and common staff costs (\$203,200) for the continuation of one position (P-3) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$948,300) comprising expert fees (\$645,700) and travel (\$235,000) of the five members of the Panel, official travel of staff (\$15,900) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$51,700).
40. For 2024, no change is proposed to the number and level of positions for the Panel of Experts. A vacancy rate of zero per cent has been applied to the estimates of staff costs, based on the actual vacancy rate in March 2023.
41. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable to higher requirements under civilian personnel costs resulting from the application of a vacancy rate of zero per cent, compared with the rate of 5 per cent applied in 2023, the latest salary scale and a higher percentage of common staff costs based on recent expenditure patterns, offset in part by lower requirements for expert fees owing to a change in the composition of the Panel.

3. Panel of Experts on the Democratic People's Republic of Korea

(\$3,407,900)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

42. The Panel of Experts on the Democratic People's Republic of Korea is responsible for monitoring the implementation of the sanctions regime with regard to the Democratic People's Republic of Korea, including an arms embargo and an embargo related to nuclear, ballistic missile and other weapons of mass destruction programmes, sectoral bans on coal, minerals and fuel, a ban on the export of luxury goods, a travel ban and/or asset freeze on designated individuals and entities, a ban on the provision of financial services, a ban on specialized teaching and training in disciplines that could contribute to prohibited activities and programmes, and cargo inspection and maritime procedures, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in Security Council resolutions [1718 \(2006\)](#), [1874 \(2009\)](#), [2087 \(2013\)](#), [2094 \(2013\)](#), [2270 \(2016\)](#), [2321 \(2016\)](#), [2356 \(2017\)](#), [2371 \(2017\)](#), [2375 \(2017\)](#) and [2397 \(2017\)](#). The sanctions regime is aimed at ensuring that the Democratic People's Republic of Korea abandons all nuclear weapons and its existing nuclear programme and acts strictly in accordance with the obligations applicable to parties under the Treaty on the Non-Proliferation of Nuclear Weapons and the terms and conditions of the Agreement of 30 January 1992 between the Government of the Democratic People's Republic of Korea and the International Atomic Energy Agency for the Application of Safeguards in Connection with the Treaty on the Non-Proliferation of Nuclear Weapons.

Programme of work

Objective

43. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Democratic People's Republic of Korea, which includes an arms embargo, an embargo related to nuclear, ballistic missile and other weapons of mass destruction programmes, an asset freeze, a travel ban, maritime and financial measures, a ban on petroleum products and crude oil, a coal ban and sanctions measures in other sectoral areas.

Strategy and external factors for 2024

44. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [1718 \(2006\)](#).
45. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
46. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States, the European Union, the Association of Southeast Asian Nations, the Financial Action Task Force, the Comprehensive Nuclear-Test-Ban Treaty Organization, the International Atomic Energy Agency (IAEA) and the Organization for the Prohibition of Chemical Weapons.

47. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Panel cooperates with the Department of Safety and Security, the Office of Information and Communications Technology and UNDP.
48. With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States will comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel to conduct missions, as needed.

Programme performance in 2022

Member States receive updated information on emerging sanctions evasion methods to support improvements to sanctions implementation

49. One of the main objectives of the Security Council's sanctions regime has been to prohibit the country's development and testing of its ballistic missile programme and to address sanctions evasion. Throughout 2022, the Democratic People's Republic of Korea conducted a record number of ballistic missile launches (including of intercontinental ballistic missiles). Using information provided by Member States, as well as its own analysis of satellite imagery made available through the United Nations-procured databases, the Panel of Experts provided comprehensive findings regarding the ballistic missile programmes of the Democratic People's Republic of Korea and sanctions evasion in its 2022 final and midterm reports ([S/2022/132](#) and [S/2022/668](#), respectively).
50. The above-mentioned work contributed to the Committee's enhanced understanding of the trajectory of the ballistic missile programme of the Democratic People's Republic of Korea in a timely manner. This enabled appropriate action, including alerting Member States of potential sanctions evasion. Progress towards the objective is presented in the performance measure below (see table 13).

Table 13
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Panel of Experts reported to the Committee and the Security Council on the ballistic missile development by the Democratic People's Republic of Korea	Security Council and Committee received updated Panel of Experts analysis regarding the ballistic missile technology of the Democratic People's Republic of Korea through an ad hoc incident report, as well as through the Panel's regular midterm and final reports	Security Council and Committee received updated Panel of Experts analysis regarding the ballistic missile technology of the Democratic People's Republic of Korea and sanctions evasion through the Panel's regular midterm and final reports

Planned result for 2024

Updated information and reporting on evasion techniques and assistance to improve sanctions implementation

Programme performance in 2022 and target for 2024

51. The mission's work contributed to ensuring the full implementation of this sanctions regime, which met the planned target of improved implementation at the national and regional levels, more

comprehensive national implementation reports and increased ability of the Security Council to address sanctions evasion techniques used by the Democratic People's Republic of Korea.

Lessons learned and planned change

52. The lesson for the Panel of Experts was the need to further adapt its information-gathering and investigative working methods based on the experience gained during COVID-19 travel restrictions. In applying the lesson, the Panel will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations.
53. This work is expected to contribute to the Security Council and the Committee being better informed and thus better able to address sanctions evasion. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 14).

Table 14
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
Continued systematic regional outreach and Member State visits for targeted assessment and assistance	Improved implementation at the national and regional levels, more comprehensive national implementation reports, and increased ability of the Security Council and the Committee to address sanctions evasion	Improved implementation at the national and regional levels and increased ability of the Security Council and the Committee to address sanctions evasion	Security Council and Committee are better informed and better able to address sanctions evasion and provide guidance to Member States	Security Council and Committee are better informed and better able to address sanctions evasion and provide guidance to Member States

Deliverables

54. Table 15 lists all deliverables of the mission.

Table 15
Deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>

Civilian personnel costs	782.8	755.4	775.0	960.1		185.1
Operational costs	2 311.7	2 188.5	2 335.6	2 447.8		112.2
Total (net of staff assessment)	3 094.5	2 943.9	3 110.6	3 407.9		297.3

Table 17
Human resources

	<i>International staff</i>											<i>National staff</i>			<i>United Nations Volunteers</i>			<i>Total</i>
	<i>USG</i>	<i>ASG</i>	<i>D-2</i>	<i>D-1</i>	<i>P-5</i>	<i>P-4</i>	<i>P-3</i>	<i>P-2</i>	<i>FS</i>	<i>GS</i>	<i>Subtotal</i>	<i>NPO</i>	<i>LL</i>	<i>Subtotal</i>	<i>International</i>	<i>National</i>	<i>Subtotal</i>	
Approved 2023	-	-	-	-	-	1	2	-	-	3 ^a	6	-	-	-	-	-	-	6
Proposed 2024	-	-	-	-	-	1	2	-	-	3 ^a	6	-	-	-	-	-	-	6
Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

^a Comprising one Principal level and two Other level.

55. The proposed resource requirements for the Panel of Experts for 2024 amount to \$3,407,900 (net of staff assessment) and would provide for salaries and common staff costs (\$960,100) for the continuation of six positions (1 P-4, 2 P-3 and 3 General Service) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$2,447,800) comprising expert fees (\$1,701,700) and travel (\$144,200) of the eight members of the Panel, official travel of staff (\$17,300) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$584,600).
56. For 2024, no change is proposed to the number and level of positions for the Panel of Experts. A vacancy rate of zero per cent has been applied to the estimates of staff costs, based on the actual vacancy rate in March 2023.
57. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable primarily to higher requirements under civilian personnel costs resulting from the application of a vacancy rate of zero per cent, compared with the rate of 5 per cent applied in 2023, and the latest salary scale and higher requirements for expert fees owing to a change in the composition of the Panel and a higher cost-of-living allowance,¹ offset in part by lower provision for the rental of premises for staff members based at Headquarters in New York owing to the application of a revised lower standard rate compared with the rate applied in 2023.

¹ The cost-of-living allowance is an ad hoc monthly lump-sum amount representing the Organization's total contribution towards charges associated with rented accommodation, meals and incidental expenses associated with an expert's assignment to an area or a country that is beyond commuting distance from the expert's normal place of residence. The previously prevailing cost-of-living allowance monthly rates of \$5,500 (New York) and of \$3,700 (Nairobi) were established in March 2014. Following a review of the movement of the housing index and the in-area without-housing index of the post adjustment index from 1 January 2014 to 31 December 2022, the Secretariat approved increased rates of \$6,600 (New York) and \$4,800 (Nairobi) effective 1 March 2023. The approved 2023 budget was prepared based on the previously prevailing rates.

4. Panel of Experts on Libya

(\$1,456,200)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

58. The Panel of Experts on Libya is responsible for monitoring the implementation of the arms embargo, asset freeze, travel ban and measures in relation to attempts to illicitly export petroleum, and for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolutions [1973 \(2011\)](#), [2009 \(2011\)](#), [2017 \(2011\)](#), [2040 \(2012\)](#), [2095 \(2013\)](#), [2144 \(2014\)](#), [2146 \(2014\)](#), [2213 \(2015\)](#), [2292 \(2016\)](#), [2362 \(2017\)](#), [2441 \(2018\)](#), [2509 \(2020\)](#), [2571 \(2021\)](#) and [2644 \(2022\)](#). The sanctions regime is aimed at preventing and containing threats to the peace, security and stability of Libya, including obstructing or undermining the successful completion of the political transition. In its resolution [2635 \(2022\)](#) of 3 June 2022, the Council requested the Secretary-General to report on the implementation of the arms embargo on the high seas off the coast of Libya within 6 months and 11 months after the adoption of the resolution. The first report of the Secretary-General was submitted on 6 December 2022 ([S/2022/910](#)) and was followed by the second report, submitted on 2 May 2023 ([S/2023/308](#)).

Programme of work

Objective

59. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Libya, which includes an arms embargo, an asset freeze, a travel ban and measures in relation to attempts to illicitly export petroleum.

Strategy and external factors for 2024

60. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and to the Security Council Committee established pursuant to resolution [1970 \(2011\)](#) concerning Libya.
61. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
62. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States and the European Union, in particular its military operation in the Mediterranean.
63. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with the United Nations Support Mission in Libya (UNSMIL), the International Maritime Organization, the World Bank and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security, UNSMIL and UNDP.

64. With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel to conduct missions in the field.

Programme performance in 2022

Enhanced capacity of the Security Council and the Committee to address violations of the arms embargo

65. The Panel of Experts, in its final report ([S/2022/427](#)), noted that the arms embargo continued to be ineffective. Although the number of violations identified was much lower than in 2019 and 2020, the Panel assessed that arms stockpiles remained sufficient to sustain any future conflict. To assist in identifying future violations of the arms embargo, the Panel updated the baseline of arms types illicitly transferred to Libya. The final report provided a summary of the arms and military materiel transferred to Libya from 2011 to April 2022 and contained two recommendations aimed at improving the effectiveness of the arms embargo. Progress towards the objective is presented in the performance measure below (see table 18).

Table 18
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
On the basis of information provided by the Panel of Experts, the Security Council and the Committee called upon Member States to respect the arms embargo and list individuals and entities involved in arms embargo violations	Security Council and Committee continued receiving information on instances of non-compliance with the arms embargo, and the Panel of Experts provided further information on individuals and entities acting in violation of the arms embargo	Security Council and Committee continued receiving information on instances of non-compliance with the arms embargo and considered follow-up actions to address violations of the arms embargo

Planned result for 2024

Enhanced capacity of the Security Council and the Committee to address violations of the arms embargo

Programme performance in 2022 and target for 2024

66. The mission's work contributed to the implementation of this sanctions regime, meeting the planned target of provision of information on individuals and entities acting in violation of the arms embargo. This enabled the Security Council and the Committee to consider follow-up actions in response to such violations, including the possible listing of additional individuals and entities.

Lessons learned and planned change

67. The lesson for the Panel of Experts was the need to further adapt its information-gathering and working methods based on the experience gained during COVID-19 travel restrictions. In applying the lesson, the Panel will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 19).

Table 19
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Security Council and Committee received mandated reports and presentations, and additional ad hoc updates on instances of non-compliance with the arms embargo from the Panel of Experts	Security Council and Committee continued to receive information on instances of non-compliance with the arms embargo from the Panel of Experts	Security Council and Committee received information on instances of non-compliance with the arms embargo from the Panel of Experts and considered follow-up actions	Based on the information provided by the Panel of Experts, the Security Council and the Committee take follow-up action on reported arms embargo violations, including considering listings	Based on the information provided by the Panel of Experts, the Security Council and the Committee take follow-up action on reported arms embargo violations, including considering listings

Deliverables

68. Table 20 lists all deliverables of the mission.

Table 20
Deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	7	20	7	7
1. Reports to the Security Council and updates, monthly reports, country visit reports, investigative reports and/or reports on outreach activities to the sanctions committee	7	20	7	7
Substantive services for meetings (number of three-hour meetings)	3	2	3	3
2. Meetings of the sanctions committee	3	2	3	3
Conference and secretariat services for meetings (number of three-hour meetings)	3	2	3	3
3. Meetings of the sanctions committee	3	2	3	3
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	5	6	5	7
4. Induction seminar for new members of the Panel of Experts and other training sessions	5	6	5	7
Publications (number of publications)	1	–	1	1
5. Implementation assistance notice and guidance document	1	–	1	1
Fact-finding, monitoring and investigation missions (number of missions)	–	15	15	15
6. Missions to gather information relating to compliance with the sanctions regime	–	15	15	15
C. Substantive deliverables				
Consultation, advice and advocacy: recommendations concerning new individuals and entities to be listed; consultations with Member States on the implementation of the sanctions regime; consultations and advice to broaden engagement with international, regional, subregional and other organizations; and advice on the implementation of relevant resolutions.				
Databases and substantive digital materials: archives of documents collected by the Panel of Experts.				

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
--------------------------	-----------------	----------------	-----------------	-----------------

D. Communication deliverables

Outreach programmes, special events and information materials: outreach programmes to report on the work of the Panel of Experts; fact sheets on the work and mandate of the special political mission; and notes verbales on the activities of the sanctions committee/Panel of Experts.

External and media relations: press releases on the activities of the sanctions committee/Panel of Experts.

Digital platforms and multimedia content: dissemination of information on the activities and mandate of the sanctions committee/Panel of Experts through its website.

B. Proposed post and non-post resource requirements for 2024**Resource requirements (regular budget)**

Table 21

Financial resources

(Thousands of United States dollars)

Category of expenditure	2022		2023		2024	Variance
	Appropriation	Expenditure	Appropriation	Requirements	Requirements	2024 vs. 2023 Increase/(decrease)
	(1)	(2)	(3)	(4)		(5)=(4)-(3)
Military and police personnel costs	–	–	–	–	–	–

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

69. The proposed resource requirements for the Panel of Experts for 2024 amount to \$1,456,200 (net of staff assessment) and would provide for salaries and common staff costs (\$302,700) for the continuation of two positions (1 P-3 and 1 General Service) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,153,500) comprising expert fees (\$725,900) and travel (\$333,800) of the six members of the Panel, official travel of staff (\$16,800) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$77,000).

70. For 2024, no change is proposed to the number and level of positions for the Panel of Experts. A vacancy rate of zero per cent has been applied to the estimates of staff costs, based on the actual vacancy rate in March 2023.
71. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable to higher requirements under civilian personnel costs resulting from the application of a vacancy rate of zero per cent, compared with the rate of 5 per cent applied in 2023, a higher percentage of common staff costs based on expenditure patterns, and the latest salary scale. The overall increase is offset in part by lower requirements for expert fees owing to a change in the composition of the Panel.

5. Panel of Experts on the Central African Republic

(\$1,281,600)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

72. The Panel of Experts on the Central African Republic is responsible for monitoring the implementation of the arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolutions [2127 \(2013\)](#), [2134 \(2014\)](#), [2149 \(2014\)](#), [2196 \(2015\)](#), [2262 \(2016\)](#), [2339 \(2017\)](#), [2399 \(2018\)](#), [2454 \(2019\)](#), [2488 \(2019\)](#), [2507 \(2020\)](#), [2536 \(2020\)](#), [2588 \(2021\)](#) and [2648 \(2022\)](#). The sanctions regime is aimed at preventing individuals and entities from undermining the peace, stability or security of the Central African Republic. On 14 June 2022, following a request by the Security Council in its resolution [2588 \(2021\)](#), the Secretary-General provided an update ([S/2022/489](#)) on progress achieved by the authorities of the Central African Republic on key benchmarks established in the statement by the President of the Council dated 9 April 2019 ([S/PRST/2019/3](#)). On 29 July 2022, by its resolution [2648 \(2022\)](#), the Council requested the Secretary-General to conduct, no later than 15 May 2023, a further assessment of the progress achieved by the authorities of the Central African Republic on the key benchmarks mentioned above.

Programme of work

Objective

73. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Central African Republic, which includes an arms embargo, an asset freeze and a travel ban.

Strategy and external factors for 2024

74. To contribute to the objective, the Panel of Experts will continue to provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2127 \(2013\)](#) concerning the Central African Republic.
75. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
76. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States, the African Union, the European Union Common Security and Defence Policy Advisory Mission in the Central African Republic, the Economic Community of Central African States, the International Conference on the Great Lakes Region and the Central African Economic and Monetary Community.
77. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic (MINUSCA), the United Nations Institute for Disarmament Research, the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, the Office of the

Special Representative of the Secretary-General on Sexual Violence in Conflict and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security, MINUSCA and UNDP.

78. With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel to conduct missions, as needed.

Programme performance in 2022

Better understanding by the Security Council and the Committee of the illicit exploitation and trafficking of natural resources

79. In accordance with its mandate, the Panel of Experts continued to provide first-hand reports on the illicit exploitation of natural resources that continued to fuel the conflict in the country and on violations of the arms embargo. The Panel also provided statements of case to the Committee of individuals involved in acts of sexual violence and incitement to violence linked with the conflict. The Panel made recommendations to enhance efforts to counter cross-border trafficking.
80. The Panel of Experts delivered on its objective, although delays in the appointment of experts narrowed the comprehensiveness of the Panel's reporting. Progress towards the objective is presented in the performance measure below (see table 23).

Table 23
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Security Council and Committee received first-hand and detailed information on cases of illegal exploitation of natural resources in the Central African Republic by armed groups	Security Council and Committee received evidence on violations of the sanctions measures and considered designating individuals and entities for natural resources trafficking	Security Council and Committee had relevant information on the illicit exploitation and trafficking of natural resources and arms embargo violations, and acted on the Panel's recommendations

Planned result for 2024

Better understanding by the Security Council and the Committee of the illicit exploitation of and trafficking in natural resources and sexual violence in conflict

Programme performance in 2022 and target for 2024

81. The mission's work contributed to the full implementation of the sanctions regime concerning the Central African Republic, which met the planned target of Member States having a better understanding of the illicit exploitation of and trafficking in natural resources and sexual violence in conflict in the Central African Republic.

Lessons learned and planned change

82. The lesson for the Panel of Experts was the need to further adapt its information-gathering and working methods based on the experience gained during COVID-19 travel restrictions. In applying the lesson, the Panel will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations.

83. This work and the assessment of the progress achieved by the authorities of the Central African Republic on the key benchmarks are expected to contribute to the Security Council and the Committee having relevant information on the illicit exploitation of and trafficking in natural resources from the Central African Republic, as well as sexual violence in conflict, and providing guidance to Member States on how to address these issues. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 24).

Table 24
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Security Council and Committee received detailed information on the illicit exploitation of natural resources in the Central African Republic by armed groups	Security Council and Committee received more detailed information on the illicit exploitation of natural resources in the Central African Republic by armed groups	Security Council and Committee received comprehensive information on the illicit exploitation of and trafficking in natural resources, with recommendations for action	Security Council and Committee have relevant information on the illicit exploitation of and trafficking in natural resources and act on the Panel's recommendations	Security Council and Committee receive further updated relevant information on the illicit exploitation of and trafficking in natural resources and sexual violence in conflict and consider designating individuals and entities

Deliverables

84. Table 25 lists all deliverables of the mission.

Table 25
Deliverables for the period 2022–2024, by category and subcategory

Category and subcategory	2022 planned	2022 actual	2023 planned	2024 planned
A. Facilitation of the intergovernmental process and expert bodies

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

85. The proposed resource requirements for the Panel of Experts for 2024 amount to \$1,281,600 (net of staff assessment) and would provide for salaries and common staff costs (\$290,000) for the continuation of two positions (1 P-3 and 1 General Service) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$991,600) comprising expert fees (\$612,300) and travel (\$248,500) of the five members of the Panel, official travel of staff (\$33,200) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$97,600).
86. For 2024, no change is proposed to the number and level of positions for the Panel of Experts. A vacancy rate of 4.2 per cent has been applied to the estimates of staff costs, based on the actual average vacancy rate in 2022.
87. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable primarily to: (a) higher requirements under civilian personnel costs resulting from the application of (i) a lower vacancy rate of 4.2 per cent, compared with the rate of 5.0 per cent applied in 2023, (ii) a higher percentage of common staff costs based on recent expenditure patterns and (iii) the latest salary scale; (b) increased requirements for expert fees resulting from a change in the composition of the Panel; and (c) higher requirements for official travel attributable to trips to be undertaken for the benchmark assessment mission mandated by the Security Council.

6. Panel of Experts on Yemen

(\$2,307,700)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

88. The Panel of Experts on Yemen is responsible for monitoring the implementation of the asset freeze, travel ban and targeted arms embargo on designated individuals and entities, as well as for providing information relevant to the potential designation of such individuals and entities. The mandate is defined in Security Council resolution [2140 \(2014\)](#), as modified by resolution [2216 \(2015\)](#) and updated in resolution [2624 \(2022\)](#). The sanctions regime is aimed at preventing and containing threats to the peace, security or stability of Yemen, such as obstructing or undermining the successful completion of the political transition.

Programme of work

Objective

89. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Yemen, which includes a targeted arms embargo, an asset freeze and a travel ban.

Strategy and external factors for 2024

90. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2140 \(2014\)](#).
91. The above-mentioned work is expected to result in the enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
92. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States, the Combined Maritime Forces and the International Criminal Police Organization (INTERPOL).
93. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the World Bank, the International Monetary Fund (IMF), WFP, the International Organization for Migration, the United Nations Verification and Inspection Mechanism for Yemen and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Office of the Special Envoy of the Secretary-General for Yemen, the Department of Safety and Security and UNDP.
94. With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel to conduct missions, as needed.

Programme performance in 2022

Further refined and enhanced awareness of the use of commercial components for military purposes

95. In 2022, the Panel of Experts continued to report on the smuggling of commercial components into Yemen and their use for military applications. Cross-border drone attacks by the Houthis on civilian infrastructure in January 2022 using commercially available components led to the Security Council designating the Houthis as an entity subject to the arms embargo measures.
96. The Panel of Experts continued to raise awareness among customs and export control authorities of the use of commercially available civilian components in certain military applications. This resulted in enhanced vigilance with regard to the export of those components. The activities of the Panel met the planned target of continuing to provide to the Security Council and the Committee information on violations of the arms embargo and violations of human rights and international humanitarian law. Progress towards the objective is presented in the performance measure below (see table 28).

Table 28

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
Security Council tasked the Panel of Experts with continuing to report on commercially available components used in certain military applications in Yemen	Security Council and Committee received detailed information from the Panel of Experts on the commercially available components used to assemble weapons systems and on violations of human rights and international humanitarian law	Security Council and Committee awareness of the use of commercially available civilian components in certain military applications in Yemen resulted in enhanced vigilance with regard to the export of such items

Planned result for 2024

Further enhanced awareness of the trafficking of arms and commercial components for use in certain military applications

Programme performance in 2022 and target for 2024

97. The mission's work contributed to the full implementation of the sanctions regime concerning Yemen, which met the planned target of the Security Council and the Committee receiving detailed information on the trafficking of arms and of commercially available components used in certain military applications.

Lessons learned and planned change

98. The lesson for the Panel of Experts was the need to further adapt its information-gathering and working methods based on the experience gained during COVID-19 travel restrictions. In applying the lesson, the Panel will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations.
99. This work is expected to contribute to the Security Council and the Committee having comprehensive information on the trafficking of arms and commercially available components used in certain military applications and to the Council providing guidance on how to counter the transfer of those components. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 29).

Table 29
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
Security Council and Committee received information from the Panel of Experts on the trafficking of arms and of commercially available components used in certain military applications in Yemen	Security Council and Committee received detailed information on the trafficking of arms and of commercially available components used in certain military applications in Yemen	Security Council and Committee awareness of the use of commercially available civilian components in certain military applications in Yemen resulted in enhanced vigilance with regard to the export of such items	Security Council and Committee receive comprehensive information from the Panel of Experts on the trafficking of arms and related materiel	Security Council and Committee receive comprehensive information from the Panel of Experts on the trafficking of arms and related materiel

Deliverables

100. Table 30 lists all deliverables of the mission.

Table 30
Deliverables for the period 2022–2024, by category and subcategory

--------------------------	-----------------	----------------	-----------------	-----------------

C. Substantive deliverables

Consultation, advice and advocacy: recommendations concerning new individuals and entities to be listed; consultations with Member States on the implementation of the sanctions regime; consultations and advice to broaden engagement with international, regional, subregional and other organizations; and advice on the implementation of relevant resolutions.

Databases and substantive digital materials: archives of documents collected by the Panel of Experts.

D. Communication deliverables

Outreach programmes, special events and information materials: outreach programmes to report on the work of the Panel of Experts; fact sheets on the work and mandate of the special political mission; and notes verbales on the activities of the sanctions committee/Panel of Experts.

External and media relations: press releases on the activities of the sanctions committee/Panel of Experts.

Digital platforms and multimedia content: dissemination of information on the activities and mandate of the sanctions committee/Panel of Experts through its website.

B. Proposed post and non-post resource requirements for 2024

Resource requirements (regular budget)

Table 31

Financial resources

(Thousands of United States dollars)

Category of expenditure	2022		2023		2024		Variance 2024 vs. 2023 Increase/(decrease)
	Appropriation	Expenditure	Appropriation	Requirements			
	(1)	(2)	(3)	(4)	(5)=(4)-(3)		
Military and police personnel costs	–	–	–	–	–		–
Civilian personnel costs	1 066.2	997.8	956.9	1 011.8	54.9		54.9
Operational costs	1 236.0	928.4	1 253.1	1 295.9	42.8		42.8
Total (net of staff assessment)	2 302.2	1 926.2	2 210.0	2 307.7	97.7		97.7

Table 32

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
	Approved 2023	–	–	–	–	–	–	1	–	5	–	6	–	2	2	–	–	
Proposed 2024	–	–	–	–	–	–	1	–	5	–	6	–	2	2	–	–	–	8
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

101. The proposed resource requirements for the Panel of Experts for 2024 amount to \$2,307,700 (net of staff assessment) and would provide for the salaries and common staff costs (\$1,011,800) for the continuation of eight positions (1 P-3, 5 Field Service and 2 Local level) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,295,900) comprising expert fees (\$685,500) and travel (\$232,400) of the five members of the Panel, official travel of staff (\$65,300) and other operational and logistical support requirements,

including the rental of premises, rental of vehicles, communications and information technology services, medical services, and other supplies, services and equipment (\$312,700).

102. For 2024, no change is proposed to the total number of positions for the Panel of Experts. Vacancy rates of 8.4 per cent for international staff and zero per cent for national staff have been applied to the estimates of staff costs, both based on the actual average vacancy rates in 2022.
103. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable primarily to: (a) higher requirements under civilian personnel costs resulting from the application of (i) a higher percentage of common staff costs for international staff positions based on recent expenditure patterns and (ii) updated higher salary rates and higher rates of danger pay for national staff; (b) higher requirements for expert fees resulting from a change in the composition of the Panel of Experts; and (c) higher requirements for official travel, attributable to the mandatory training cost for Close Protection Officers based on expenditure patterns. The overall increase is offset in part by the application of a higher vacancy rate of 8.4 per cent for international staff compared with the rate of 5 per cent applied in 2023, a lower percentage of common staff costs for national staff, lower costs for the rental of office space and accommodation in Sana'a and related lower costs for security services, as some United Nations agencies took additional space, reducing the mission's share of total costs.

7. Panel of Experts on South Sudan

(\$1,246,000)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

104. The Panel of Experts on South Sudan is responsible for monitoring the implementation of the arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolutions [2206 \(2015\)](#), [2428 \(2018\)](#), [2521 \(2020\)](#), [2577 \(2021\)](#) and [2633 \(2022\)](#). The sanctions regime is aimed at, but not limited to, targeting spoilers of the Revitalized Agreement on the Resolution of the Conflict in the Republic of South Sudan, which was signed on 12 September 2018. On 3 May 2022, following a request by the Security Council in its resolution [2577 \(2021\)](#), the Secretary-General provided the Security Council with an assessment of the progress achieved on the key benchmarks established in that resolution ([S/2022/370](#)). Pursuant to resolution [2633 \(2022\)](#), the Secretary-General provided the Security Council with a further assessment of the progress achieved on the key benchmarks established in resolution [2577 \(2021\)](#) ([S/2023/300](#)).

Programme of work

Objective

105. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning South Sudan, which includes an arms embargo, an asset freeze and a travel ban.

Strategy and external factors for 2024

106. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2206 \(2015\)](#) concerning South Sudan.
107. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
108. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States, the African Union and the Intergovernmental Authority on Development (IGAD).
109. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with the United Nations Mission in South Sudan (UNMISS), the Office of the United Nations High Commissioner for Human Rights (OHCHR), the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Panel cooperates with UNMISS, the Department of Safety and Security and UNDP.

110. With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel to conduct missions, as needed.

Programme performance in 2022

The Security Council and the Committee receive updated information on progress achieved in the implementation of the Revitalized Agreement and on actions that threaten the peace, security and/or stability of South Sudan

111. Lack of progress in the implementation of the Revitalized Agreement, and actions that threaten the peace, security and/or stability of South Sudan, remain a serious concern for the Security Council. In this regard, the Panel of Experts engaged with Member States and with relevant stakeholders to provide updated information and enhanced analysis to the Council and the Committee. The Panel submitted 11 reports and updates to the Committee that included information on progress achieved in the implementation of the Revitalized Agreement and on actions that threaten the peace, security and/or stability of South Sudan, including information on the progress of implementation of the benchmarks for the adjustment of the arms embargo.
112. Progress towards the objective is presented in the performance measure below (see table 33).

Table 33
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Security Council considered reviewing the arms embargo subject to the implementation of the Revitalized Agreement	Security Council received updated information on the progress achieved in implementing the Revitalized Agreement and established benchmarks to review the arms embargo	Security Council and Committee received updated information on the progress of implementation of the Revitalized Agreement and the benchmarks for the adjustment of the arms embargo

Planned result for 2024

Update on the implementation of the Revitalized Agreement and on the progress of implementation of the arms embargo key benchmarks

Programme performance in 2022 and target for 2024

113. The mission's work contributed to the full implementation of the sanctions regime concerning South Sudan, which met the planned target of the Security Council receiving updated information on the implementation of the Revitalized Agreement, as well as updated information on the implementation of the benchmarks for the adjustment of the arms embargo. In its resolution [2633 \(2022\)](#), the Council reiterated its readiness to review arms embargo measures in the light of progress achieved on the key benchmarks.

Lessons learned and planned change

114. The lesson for the Panel of Experts was the need to further adapt its information-gathering and working methods based on the experience gained during COVID-19 travel restrictions. In applying

the lesson, the Panel will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations.

115. This work is expected to contribute to the Security Council being better informed about the implementation of the Revitalized Agreement and being able to review the arms embargo measures based on the progress made by the authorities of South Sudan in implementing the established key benchmarks. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 34).

Table 34
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
Security Council and Committee considered reviewing the arms embargo subject to the implementation of the Revitalized Agreement	Security Council and Committee received updated information on the progress achieved in implementing the Revitalized Agreement and established benchmarks to review the arms embargo	Security Council and Committee received information on the progress achieved on the established key benchmarks and considered the review of the arms embargo	Security Council and Committee review the arms embargo based on updated information regarding progress achieved on the established key benchmarks	Security Council and Committee further review the arms embargo based on updated information regarding progress achieved on the established key benchmarks

Deliverables

116. Table 35 lists all deliverables of the mission.

Table 35
Deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	18	11	18	15
1. Reports to the Security Council and updates, monthly reports, country visit reports, investigative reports and/or reports on outreach activities to the sanctions committee	18	11	18	15
Substantive services for meetings (number of three-hour meetings)	7	6	7	7
2. Meetings of sanctions committee	5	5	5	5
3. Chair's briefings to Member States	2	1	2	2
Conference and secretariat services for meetings (number of three-hour meetings)	7	6	7	7

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

117. The proposed resource requirements for the Panel of Experts for 2024 amount to \$1,246,000 (net of staff assessment) and would provide for salaries and common staff costs (\$279,600) for the continuation of three positions (1 P-3 and 2 General Service) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$966,400) comprising expert fees (\$572,000) and travel (\$267,400) of the five members of the Panel, official travel of staff (\$40,200) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$86,800).
118. For 2024, no change is proposed to the number and level of positions for the Panel of Experts. A vacancy rate of 30.5 per cent has been applied to the estimates of staff costs, based on the actual average vacancy rate in 2022.
119. The decrease in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable primarily to lower requirements under civilian personnel costs resulting from the higher vacancy rate of 30.5 per cent applied in 2024 compared with the rate of 5 per cent applied in 2023, offset in part by increased requirements for expert fees due to higher average monthly fees resulting from a change in the composition of the Panel of Experts, as well as increased requirements under official travel of staff owing to one additional trip for a benchmark assessment mission mandated by Security Council.

8. Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and the Taliban and associated individuals and entities

(\$6,516,900)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

120. The Analytical Support and Sanctions Monitoring Team, which supports the work of both the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (ISIL) (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities, and the Security Council Committee established pursuant to resolution 1988 (2011), is responsible for assisting in and reporting on the implementation of the asset freezes, travel bans and targeted arms embargoes on designated individuals and entities. The mandate is derived from the priorities established in the relevant Security Council resolutions, including resolutions 1267 (1999) 1526 (2004), 1988 (2011), 1989 (2011), 2253 (2015), 2255 (2015), 2368 (2017), 2501 (2019), 2557 (2020), 2610 (2021), 2611 (2021), 2615 (2021) and 2665 (2022). The sanctions regimes are aimed at strengthening the Council's response to threats to international peace and security caused by terrorist acts and at contributing to the peace, stability and security of Afghanistan.

Programme of work

Objective

121. The objective, to which this mission contributes, is to ensure the full implementation of sanctions regimes concerning Da'esh, Al-Qaida and the Taliban, which include targeted arms embargoes, asset freezes and travel bans.

Strategy and external factors for 2024

122. To contribute to the objective, the Monitoring Team will provide updated information to the Security Council, the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning ISIL (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities and the Security Council Committee established pursuant to resolution 1988 (2011).
123. The above-mentioned work is expected to result in an enhanced capacity of the Council and the Committees to take follow-up action on alleged violations of the sanctions regimes.
124. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Monitoring Team cooperates with, among others, Member States, the International Air Transport Association, the International Civil Aviation Organization (ICAO), the World Customs Organization, the Financial Action Task Force and INTERPOL.
125. With regard to inter-agency coordination and liaison, the Monitoring Team cooperates with, among others, the Counter-Terrorism Committee Executive Directorate, the Office of Counter-Terrorism, the Group of Experts assisting the Security Council Committee established pursuant to resolution

1540 (2004), the Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009), the United Nations Office on Drugs and Crime (UNODC), the United Nations Assistance Mission in Afghanistan, the United Nations Assistance Mission for Iraq (UNAMI) and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Monitoring Team cooperates with the Department of Safety and Security, the Office of Information and Communications Technology, United Nations field missions and UNDP, as appropriate.

126. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Monitoring Team;
 - (b) The security situation allows the Monitoring Team to conduct missions, as needed.

Programme performance in 2022

Strengthening analysis capacities to follow an evolving threat

127. To assist in addressing the global terrorism threat posed by Da'esh and Al-Qaida and the threat posed by the Taliban to peace and stability in Afghanistan, and to fully implement sanctions measures, the Monitoring Team engaged with Member States and other stakeholders to provide enhanced analysis to the Committees and the Security Council. The Monitoring Team used databases and subscriptions procured by the United Nations to strengthen its analysis of evolving terrorist threats. The Monitoring Team submitted nine reports in 2022 providing analysis on the evolving global terrorism threat posed by Da'esh and Al-Qaida and on the threat posed by the Taliban to peace and stability in Afghanistan. In December 2021, the Security Council extended the mandate of the Monitoring Team in connection with the threat posed by Da'esh, Al-Qaida and associated individuals and entities until June 2024.
128. Following the Taliban takeover in Afghanistan, the Monitoring Team increased its engagement with neighbouring States and other relevant Member States to ensure enhanced analysis.
129. Progress towards the objective is presented in the performance measure below (see table 38).

Table 38

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Security Council and Committees had comprehensive information and data from the Monitoring Team on the evolution of the terrorist threat in various regions and on the evolution of Islamic State in Iraq and the Levant (Da'esh) and Al-Qaida	Committees had comprehensive information on the terrorist threat and adjusted the sanctions regime; and Committees considered exemptions, amendments to listings and new designations	Security Council and Committees had comprehensive information on the terrorist threat and the Taliban, and Committees considered exemptions, amendments to listings and new designations

Planned result for 2024

Enhanced analysis to follow an evolving threat

Programme performance in 2022 and target for 2024

130. Through its engagement with Member States and with other stakeholders, the Monitoring Team met the planned target of Committees having comprehensive information on the terrorist threat and the Taliban and Committees considering exemptions, amendments to listings and new designations. In 2022, one entity was added to the ISIL (Da'esh) and Al-Qaida sanctions list, and eight individuals and three entities were delisted. The Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning ISIL (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities approved amendments to the existing entries of seven individuals and one entity on its sanctions list. In 2022, the Committees also considered exemptions from existing sanctions measures. Following the Taliban takeover, the Monitoring Team reported in April 2022 on the threat posed by the Taliban to peace and stability in Afghanistan and continued to monitor the situation throughout 2022.

Lessons learned and planned change

131. The lesson for the Monitoring Team was the need to further adapt its information-gathering and working methods based on the experience gained during COVID-19 travel restrictions. In applying the lesson, the Monitoring Team will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations.
132. This work is expected to further contribute to the enhanced analysis of the evolving global threat posed by ISIL (Da'esh) and Al-Qaida and of the threat posed by the Taliban to peace and stability in Afghanistan, and to the update of relevant sanctions lists. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 39).

Table 39

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
Security Council and Committees had comprehensive information from the Monitoring Team on the global terrorist threat and on the evolution of Islamic State in Iraq and the Levant (Da'esh) and Al-Qaida	Security Council and Committees had comprehensive information on the terrorist threat and adjusted the sanctions regime; and Committees considered exemptions, amendments to listings and new designations	Security Council and Committees had comprehensive information on the terrorist threat and the Taliban; and Committees considered exemptions, amendments to listings and new designations	Security Council and Committees have comprehensive information on the terrorist threat and the Taliban; the Committees consider exemptions and amendments to listings; and the Council and the Committees consider new designations	Security Council and Committees have comprehensive information on the terrorist threat and the Taliban; the Committees consider exemptions and amendments to listings; and the Council and the Committees consider new designations

Deliverables

133. Table 40 lists all deliverables of the mission.

Proposed 2024	–	–	–	–	1	4	6	–	–	8 ^a	19	–	–	–	–	–	–	19
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level, unless otherwise stated.

134. The proposed resource requirements for the Monitoring Team for 2024 amount to \$6,516,900 (net of staff assessment) and would provide for salaries and common staff costs (\$3,193,800) for the continuation of 19 positions (1 P-5, 4 P-4, 6 P-3 and 8 General Service) to provide substantive and administrative support to the sanctions regimes, and operational costs (\$3,323,100) comprising expert fees (\$2,062,300) and travel (\$401,700) of the 10 members of the Monitoring Team, official travel of staff (\$89,200), and other operational and logistical support requirements, including the rental of premises, communications and information technology services, and other supplies, services and equipment (\$769,900).
135. For 2024, no change is proposed to the number and level of positions for the Monitoring Team. A vacancy rate of 1.3 per cent has been applied to the estimates of staff costs, based on the actual average vacancy rate in 2022.
136. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable to higher requirements under civilian personnel costs resulting from the application of a lower vacancy rate of 1.3 per cent compared with the rate of 10 per cent applied in 2023, and the latest salary scale and higher requirements for expert fees owing to a change in the composition of the Panel of Experts and the higher cost-of-living allowance effective 1 March 2023, offset in part by lower provision for the rental of premises for staff members based at United Nations Headquarters in New York owing to the application of a revised lower standard rate compared with the rate applied in 2023.

9. Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)

(\$711,100)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

137. The Office of the Ombudsperson to the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning ISIL (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities is responsible for reviewing delisting requests from individuals or entities inscribed on the related sanctions list. The mandate is defined in Council resolution 1904 (2009), as modified by subsequent resolutions (1989 (2011), 2083 (2012), 2161 (2014), 2368 (2017) and 2610 (2021)).

Programme of work

Objective

138. The objective, to which this mission contributes, is to provide an independent review of delisting requests of individuals, entities and undertakings on the ISIL (Da'esh) and Al-Qaida sanctions list. In doing so, the Office ensures that listed individuals, entities and undertakings have access to fair and clear procedures for the administration of requests for removal (delisting) from the sanctions list.

Strategy and external factors for 2024

139. To contribute to the objective, the Office of the Ombudsperson will fairly and expeditiously consider and process all requests for delisting and travel to interview each petitioner in person in the petitioner's country of residence whenever possible.
140. The above-mentioned work is expected to result in informed decision-making by the Committee on the Ombudsperson's analysis and recommendation on the delisting request contained in a comprehensive report on each case.
141. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Office of the Ombudsperson cooperates with, among others, Member States, the European Union, academic institutions, think tanks and international law associations.
142. With regard to inter-agency coordination and liaison, the Office of the Ombudsperson cooperates with, among others, UNDP, OHCHR, the Special Rapporteur on the promotion and protection of human rights and fundamental freedoms while countering terrorism and the Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning ISIL (Da'esh), Al-Qaida and the Taliban and associated individuals and entities. In the context of safety and security, information technology security and logistics, the Office cooperates with the Department of Safety and Security, the Office of Information and Communications Technology and UNDP.

143. With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Office of the Ombudsperson;
 - (b) The security situation allows the Office to conduct missions, as needed.

Programme performance in 2022

Fair and expeditious review of delisting requests

144. The Ombudsperson advanced the consideration of all petitions before the Office, which included the presentation of five cases to the Committee, the submission of four comprehensive reports and eight interviews with petitioners. The Ombudsperson also undertook extensive inquiries and independent research for the purpose of gathering information on each petition, including among Member States and United Nations offices. Furthermore, the mission conducted extensive outreach activities to raise awareness about the Office, including interactions with Member States, regional organizations, academic institutions, think tanks and international law associations. The above-mentioned work contributed to the Committee receiving comprehensive reports from the Ombudsperson in a timely manner.
145. The number of reports received and the timelines for consideration are outside of the Ombudsperson's control: it is the petitioner's initiative to submit a delisting request, and the timeline for consideration of each petition is precisely defined in annex II to Security Council resolution [2610 \(2021\)](#). Five new petitions were accepted by the Office of the Ombudsperson in 2022, bringing the total number of petitions accepted by the Office since its inception to 105. This reflects a widespread awareness among petitioners of the existence and effectiveness of the Ombudsperson procedure.
146. In 2022, the Ombudsperson interviewed all petitioners in person, a return to pre-pandemic practice. Progress towards the objective is presented in the performance measure below (see figure I).

Figure I

Performance measure: number of in-person interviews with petitioners conducted by the Ombudsperson

Planned result for 2024

Ensuring fair and expeditious review of delisting requests

Programme performance in 2022 and target for 2024

147. As stated above, the number of petitions received and the timelines for consideration are outside of the Ombudsperson's control. The Office of the Ombudsperson completed all mandated work in a timely manner with respect to all petitions received, including the submission of the four comprehensive reports that fell due in 2022. Although five comprehensive reports had been estimated to fall due as part of the performance measure, only four petitioners submitted petitions that necessitated the submission of a comprehensive report in 2022.

Lessons learned and planned change

148. The lesson for the Office of the Ombudsperson was the need to further adapt its information-gathering and investigative working methods based on the experience gained during COVID-19 travel restrictions. In applying the lesson, the Ombudsperson will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations.
149. This work is expected to contribute to an independent review of delisting requests of individuals, entities and undertakings on the ISIL (Da'esh) and Al-Qaida sanctions list, as demonstrated by the comprehensive reports of the Ombudsperson on the delisting requests informing decision-making by the Committee. Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure II).

Figure II

Performance measure: number of comprehensive reports submitted to the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities by the Ombudsperson

Deliverables

150. Table 43 lists all deliverables of the mission.

Table 43
Deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>

Change	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

^a Other level, unless otherwise stated.

151. The proposed resource requirements for the Office of the Ombudsperson for 2024 amount to \$711,100 (net of staff assessment) and would provide for salaries and common staff costs (\$337,400) for the continuation of two positions (1 P-4 and 1 General Service) to provide substantive and administrative support to the Office, and operational costs (\$373,700) comprising fees (\$229,600) and travel (\$28,400) of the Ombudsperson, official travel of staff (\$34,300) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$81,400).
152. For 2024, no change is proposed to the number and level of positions for the Office. A vacancy rate of zero per cent has been applied to the estimates of staff costs, based on the actual vacancy rate in March 2023.
153. The increase in requirements proposed for 2024 compared with the appropriation for 2023 is attributable primarily to: (a) increased requirements under civilian personnel costs resulting from the application of a higher percentage of common staff costs, based on recent expenditure patterns, assumption of full incumbency compared with the vacancy rate of 5 per cent applied in 2023, and the latest salary scale; (b) higher requirements for the Ombudsperson owing to the higher cost-of-living allowance effective 1 March 2023; (c) higher requirements under staff travel to accommodate the need for the travel of interpreters from the United Nations Office at Geneva to conduct confidential and high-quality interpretation of delisting petitioners; and (d) higher requirements for translation and interpretation services. The overall increase in requirements is offset in part by lower requirements for public information and publication services, as well as lower provision for the rental of premises.

10. Implementation of Security Council resolution 2231 (2015)

(\$1,190,400)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

154. The mission is responsible for supporting the work of the Security Council and its Facilitator in relation to the implementation of resolution 2231 (2015) and as set forth in the note by the President of the Security Council of 16 January 2016 (S/2016/44). In its resolution 2231 (2015), the Council endorsed the Joint Comprehensive Plan of Action, urged its full implementation and called upon all Member States and regional and international organizations to support its implementation.
155. In addition, the restrictions established in annex B to resolution 2231 (2015) are aimed at improving transparency and creating an atmosphere conducive to the full implementation of the Joint Comprehensive Plan of Action. In October 2020, the first two of the specific restrictions contained in annex B expired (arms-related transfers to/from the Islamic Republic of Iran and travel ban), while the other restrictive measures are set to expire no later than October 2023 (ballistic missile-related transfers and activities, and asset freeze) and October 2025 (nuclear-related transfers and activities (procurement channel)). In October 2025, provided that the provisions of the previous Security Council resolutions on the Iranian nuclear issue have not been reinstated in the interim, all the provisions of resolution 2231 (2015) shall be terminated and the Council will have concluded its consideration of the Iranian nuclear issue.

Programme of work

Objective

156. The objective, to which this mission contributes, is to ensure the full implementation by all Member States and regional and international organizations of resolution 2231 (2015), including the restrictive measures established in annex B to the resolution.

Strategy and external factors for 2024

157. To contribute to the objective, the mission will continue to support the work of the Security Council and its appointed Facilitator and to report regularly, as mandated, to the Council on the implementation of the resolution.
158. The above-mentioned work is expected to result in improved transparency, an atmosphere conducive to the full implementation of the Joint Comprehensive Plan of Action and an increase in cooperation on alleged actions inconsistent with annex B restrictions.
159. With regard to cooperation with other entities at the global, regional, national and local levels, the mission liaises and cooperates with, among others, Member States and the Procurement Working Group of the Joint Commission established in the Joint Comprehensive Plan of Action for the processing of nuclear and nuclear-related dual-use proposals through the procurement channel. The mission also cooperates with Member States on various issues related to the implementation of resolution 2231 (2015), including alleged actions inconsistent with its annex B restrictions. In addition, the mission liaises and cooperates with IAEA.

160. With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) The swift and successful conclusion of diplomatic efforts by participants in the Joint Comprehensive Plan of Action to ensure that all participants remain committed to its full and effective implementation;
 - (b) The Joint Comprehensive Plan of Action, its implementation and that of resolution [2231 \(2015\)](#) continue to enjoy the full support of the broader international community.

Programme performance in 2022

Maintaining the continuous implementation of resolution [2231 \(2015\)](#)

161. The mission continued to provide information related to resolution [2231 \(2015\)](#), including the restrictive measures established in its annex B, through the reports of the Secretary-General and briefings to the Security Council. As in the previous year, there were some opportunities for the mission to participate in virtual outreach events to raise awareness among relevant stakeholders of the restrictive measures contained in annex B to the resolution. On monitoring and reporting on the implementation of resolution [2231 \(2015\)](#), the mission increased the number of in-person consultations with Member States and continued to utilize some of the practices established during the pandemic, such as virtual consultations.
162. The above-mentioned work contributed to the Security Council, Member States and international organizations being informed about the status of implementation of resolution [2231 \(2015\)](#), as well as to the preparation of reports of the Secretary-General and briefings to the Security Council.
163. Progress towards the objective is presented in the performance measure below (see table 46).

Table 46

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Continuous implementation of resolution 2231 (2015) , through reporting to the Security Council and support for the work of the Facilitator	Continuous implementation of resolution 2231 (2015) , including through reporting to the Security Council and the use of the procurement channel	Continuous implementation of resolution 2231 (2015) , including through reporting to the Security Council and the use of the procurement channel

Planned result for 2024

Maintaining the continuous implementation of resolution [2231 \(2015\)](#)

Programme performance in 2022 and target for 2024

164. The mission's work contributed to the implementation of resolution [2231 \(2015\)](#), which met the planned target of regular reporting by the Secretary-General and support for the work of the Facilitator, and continuous use of the procurement channel. The mission's work raised awareness about resolution [2231 \(2015\)](#), including the restrictive measures established in its annex B. The mission was able to participate in several in-person consultations and visits to Member States. In continuing to apply the lessons learned during the pandemic, the mission also held several virtual consultations with Member States.

Lessons learned and planned change

165. The lesson for the mission was the need to further adapt its information-gathering and investigative working methods based on the experience gained during COVID-19 travel restrictions. The Mission will continue its use of relevant communications technologies to consult with Member States and to conduct research, including by using databases and subscriptions procured by the United Nations.
166. This work is expected to contribute to the continuous implementation of resolution [2231 \(2015\)](#) through regular reporting by the Secretary-General and support for the work of the Facilitator. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 47).

Table 47

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>

Human resources

	International staff											National staff			United Nations Volunteers			Total
	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National	Subtotal	
Approved 2023	–	–	–	–	1	2	2	–	–	2 ^a	7	–	–	–	–	–	–	7
Proposed 2024	–	–	–	–	1	2	1	–	–	1 ^a	5	–	–	–	–	–	–	5
Change	–	–	–	–	–	–	(1)	–	–	(1)	(2)	–	–	–	–	–	–	(2)

^a Other level, unless otherwise stated.

168. The proposed resource requirements for the implementation of Security Council resolution [2231 \(2015\)](#) for 2024 amount to \$1,190,400 (net of staff assessment) and would provide for salaries and common staff costs (\$1,047,400) for the continuation of five positions (1 P-5, 2 P-4, 1 P-3 and 1 General Service), and operational costs (\$143,000) comprising official travel of staff (\$34,900) and other operational and logistical support requirements, such as the rental of premises, communications and information technology services, and other supplies, services and equipment (\$108,100).

169. In line with Security Council resolution [2231 \(2015\)](#), the restrictions on ballistic missile-related transfers and activities, and the asset freeze, are due to expire on 18 October 2023. The mission has undertaken a review of its staffing structure and resource requirements, and, in this regard, it is

proposed to abolish two positions, one Political Affairs Officer (P-3) and one Staff Assistant (General Service), in 2024. Both positions are expected to be vacant at the end of December 2023.

170. A vacancy rate of zero per cent has been applied to the estimates of staff costs, based on the actual vacancy rate in March 2023 and with the proposed abolishment of the two positions taken into account.
171. The decrease in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to reduced requirements under civilian personnel costs resulting from the proposed abolishment of two positions, and reduced requirements under operational costs resulting from lower provision for the rental of premises, staff travel and information technology services in connection with the proposed abolishment of two positions. The overall reduced requirements are offset in part by the application of a vacancy rate of zero per cent for the continuing positions, compared with the rate of 5 per cent applied in 2023, as well as the application of an updated salary scale.

11. Panel of Experts on Mali

(\$1,160,100)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

172. The Panel of Experts on Mali is responsible for monitoring the implementation of the asset freeze and the travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in Security Council resolution [2374 \(2017\)](#). The sanctions regime is aimed at preventing and containing threats to the peace, security or stability of Mali and the region.

Programme of work

Objective

173. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Mali, which includes an asset freeze and a travel ban.

Strategy and external factors for 2024

174. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2374 \(2017\)](#) concerning Mali.
175. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
176. With regard to cooperation with other entities at the global, regional, national and local levels, the Panel of Experts cooperates with, among others, Member States and regional and subregional organizations, including the Economic Community of West African States (ECOWAS), the West African Economic and Monetary Union (WAEMU), the African Union and the European Union.
177. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the United Nations Multidimensional Integrated Stabilization Mission in Mali (MINUSMA) and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security, MINUSMA and UNDP.
178. With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel to conduct missions, as needed.

Programme performance in 2022

Strengthening efforts for the implementation of the Agreement on Peace and Reconciliation in Mali

179. In 2022, the Panel of Experts reported that the implementation of the Agreement on Peace and Reconciliation in Mali was at a stalemate and that the implementation of the asset freeze and travel ban was mostly inadequate and ineffective. In this regard, the Panel engaged with regional States, ECOWAS and WAEMU and provided the Security Council and the Committee with information on individuals who supported armed groups or criminal networks involved in destabilizing activities in Mali through the commission of crimes, including drug trafficking and illegal mining. Progress towards the objective is presented in the performance measure below (see table 51).

Table 51
Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Security Council and Committee were provided information by the Panel of Experts, enabling them to adjust the sanctions regime and/or increase the number of designations of individuals and/or entities on the Committee's sanctions list, in support of the implementation of the Agreement	Security Council and Committee were enabled to consider adjustments to sanctions designations, including on the potential links between armed and terrorist groups	Security Council and Committee were provided with information on individuals who supported armed groups or criminal networks involved in destabilizing activities in Mali through the commission of crimes, including drug trafficking and illegal mining

Planned result for 2024

Strengthening efforts for the implementation of the Agreement on Peace and Reconciliation in Mali

Programme performance in 2022 and target for 2024

180. The mission's work contributed to the implementation of the sanctions regime, which met the planned target of providing the Security Council and the Committee with information for the potential designation of individuals and/or entities, including information on existing linkages with criminal networks.

Lessons learned and planned change

181. The lesson for the Panel of Experts was the need to further adapt its information-gathering and investigative working methods based on the experience gained during COVID-19 travel restrictions. In applying the lesson, the Panel will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations.
182. This work is expected to contribute to the full implementation of the sanctions regime. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 52).

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

184. The proposed resource requirements for the Panel of Experts for 2024 amount to \$1,160,100 (net of staff assessment) and would provide for salaries and common staff costs (\$203,200) for the continuation of one position (P-3) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$956,900) comprising expert fees (\$478,500) and travel (\$187,000) of the four experts, official travel of staff (\$19,900), travel of Close Protection Officers (\$102,100) from various United Nations entities to support the experts while travelling in

Mali, and other operational and logistical support requirements, including the rental of premises, security support, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$169,400).

185. For 2024, no change is proposed to the number and level of positions for the Panel of Experts. A vacancy rate of zero per cent has been applied to the estimates of staff costs, based on the actual vacancy rate in March 2023.
186. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to higher requirements under civilian personnel costs resulting from the application of a higher percentage of common staff costs based on recent expenditure patterns, the latest salary scale and a vacancy rate of zero per cent, compared with the rate of 5 per cent applied in 2023, offset in part by reduced requirements under expert fees resulting from a change in the composition of the Panel.

12. Panel of Experts on Somalia

(\$1,979,200)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

187. The Panel of Experts on Somalia is responsible for monitoring the implementation of the asset freeze, the travel ban and the targeted and territorial arms embargoes, the charcoal ban and the improvised explosive device components ban, as well as for providing information relevant to the designation of individuals and entities. Its mandate is referenced in Security Council resolutions [2444 \(2018\)](#), [2498 \(2019\)](#), [2551 \(2020\)](#), [2607 \(2021\)](#) and [2662 \(2022\)](#). The sanctions regime is aimed at supporting the efforts of the Somali authorities to deliver stability and security in Somalia; to prevent any flows of weapons and ammunition to Somalia in violation of the arms embargo; and to disrupt the activities of Al-Shabaab, including its finances.
188. In its resolution [2607 \(2021\)](#), the Security Council requested the Secretary-General to provide a technical assessment of the weapons and ammunition management capability of Somalia and recommendations to improve it further and to articulate options for clear, well-identified and realistic benchmarks that could serve in guiding the Council in its review of the arms embargo measures in the light of progress achieved to date and compliance with the resolution, and in particular its consideration of the possible modification, suspension or lifting of those measures. In its resolution [2662 \(2022\)](#), the Security Council requested the Secretary-General to provide an update by 15 September 2023 on progress against each indicator set out in the benchmarks contained in the technical assessment report ([S/2022/698](#)).

Programme of work

Objective

189. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Al-Shabaab, which includes an asset freeze, a travel ban, targeted and territorial arms embargoes, a charcoal ban and an improvised explosive device components ban.

Strategy and external factors for 2024

190. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee pursuant to resolution [751 \(1992\)](#) concerning Al-Shabaab.
191. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
192. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States, INTERPOL, IGAD, the African Union, the European Union and the European Organization for the Safety of Air Navigation. The Panel of Experts has also cooperated with the African Union Military Observer Mission in Somalia in the past and is cooperating with the African Union Transition Mission in Somalia at present.

193. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the World Bank, IMF, ICAO, the United Nations Assistance Mission in Somalia (UNSOM), the United Nations Support Office in Somalia (UNSOS), the United Nations Office at Nairobi, UNODC and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security and security teams of the United Nations Office at Nairobi, UNSOM, UNSOS and UNDP.
194. With regard to external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel to conduct missions, as needed.

Programme performance in 2022

Enhanced capacity of the Security Council, the Committee and Member States to counter Al-Shabaab financing

195. In 2022, the Panel of Experts continued to investigate the finances of Al-Shabaab, including its financing sources such as illicit taxation. In its final report to the Security Council (see [S/2022/754](#)), the Panel detailed Al-Shabaab exploitation of the financial system of Somalia. The Federal Government of Somalia closed more than 200 bank accounts used by Al-Shabbab and stepped up the fight against the group's illicit taxation activities based on the Panel's reporting.
196. Progress towards the objective is presented in the performance measure below (see table 56).

Table 56

Performance measure

2020 (actual)	2021 (actual)	2022 (actual)
Security Council and Committee received a comprehensive overview of Al-Shabaab's revenue sources from the Panel of Experts	Security Council and Committee refined the sanctions regime, with a particular focus on degrading Al-Shabaab, including by targeting its illicit finances	Security Council and Committee received information from the Panel of Experts on the finances of Al-Shabaab, as well as recommendations on how to disrupt them

Planned result for 2024

Enhanced capacity of the Security Council, the Committee and Member States to counter Al-Shabaab financing

Programme performance in 2022 and target for 2024

197. The mission's work contributed to the implementation of the sanctions regime concerning Al-Shabaab, which met the planned target of the Security Council and the Committee receiving the information needed to adjust the sanctions regime, with the aim of reducing the group's revenues.

Lessons learned and planned change

198. The lesson for the Panel of Experts was the need to further adapt its information-gathering and working methods based on the experience gained during COVID-19 travel restrictions. In applying

the lesson, the Panel will continue to use relevant communications technologies to conduct research, including by using databases and subscriptions procured by the United Nations.

199. This work and the assessment of progress against the benchmarks are expected to contribute to ensuring the full implementation of the sanctions regime concerning Al-Shabaab. Progress towards the objective and the target for 2024 are presented in the performance measure below (see table 57).

Table 57

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>	<i>2023 (planned)</i>	<i>2024 (planned)</i>
Security Council and Committee received a comprehensive overview of Al-Shabaab's revenue sources from the Panel of Experts	Security Council and Committee received a detailed analysis of Al-Shabaab's revenue sources and specific recommendations on how to reduce the revenues of Al-Shabaab, as part of a "disruption plan" developed with the Federal Government of Somalia and UNODC; and the Council received the information needed to adjust the sanctions regime	Security Council and Committee received a detailed analysis of Al-Shabaab's revenue sources, as well as specific recommendations on how to reduce the group's finances	The Panel focuses on Al-Shabaab's use of the banking system of Somalia and the Security Council or the Committee designates individuals involved in the financing of the group	Security Council and Committee continue to receive from the Panel information on exploitation by Al-Shabaab of the banking system of Somalia and the Council and the Committee continue to consider designating individuals involved in the financing of the group

Deliverables

200. Table 58 lists all deliverables of the mission.

Table 58

Deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>

^a Other level, unless otherwise stated.

201. The proposed resource requirements for the Panel of Experts for 2024 amount to \$1,979,200 (net of staff assessment) and would provide for salaries and common staff costs (\$453,500) for the continuation of six positions (1 P-3, 1 General service and 4 Local level) to provide substantive, administrative, security and logistical support in relation to the sanctions regime; and operational costs (\$1,525,700) comprising expert fees (\$1,061,500) and travel (\$208,900) of the six members of the Panel, official travel of staff (\$38,500) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, medical services, and other supplies, services and equipment (\$216,800).
202. For 2024, no change is proposed to the number and level of positions for the Panel of Experts. A vacancy rate of zero per cent has been applied to the estimates of both international staff and national staff costs, based on the actual vacancy rate in March 2023.
203. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable primarily to: (a) higher requirements for international staff resulting from the application of (i) a vacancy rate of zero per cent, compared with the rate of 5 per cent applied in 2023, (ii) updated higher salary rates and (iii) common staff costs for national and international staff; (b) higher requirements for expert fees owing to a higher cost-of-living allowance effective 1 March 2023; and (c) increased requirements for travel of staff with respect to the benchmark assessment mission mandated by the Security Council.

13. Panel of Experts on Haiti

(\$1,548,500)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

204. The mandate of the Panel of Experts on Haiti derives from Security Council resolution [2653 \(2022\)](#) of 21 October 2022, in which the Council decided to establish a Committee of the Security Council concerning Haiti and requested the Secretary-General to create, for an initial period of 13 months, a group of four experts (the Panel).
205. In accordance with paragraph 21 of resolution [2653 \(2022\)](#), the Panel of Experts is mandated to monitor the implementation of the travel ban, asset freeze and targeted arms embargo, in particular incidents regarding the source and routes of arms and other trafficking to Haiti and incidents of undermining peace, security and stability in Haiti, as well as for providing information relevant to the potential designation of individuals and entities to the Security Council. By that same resolution, the Council requested the Secretary-General to conduct, no later than 15 September 2023, an assessment of progress achieved on the key benchmarks established in the resolution.

Programme of work

Objective

206. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Haiti, which includes a travel ban, an asset freeze and a targeted arms embargo.

Strategy and external factors for 2024

207. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution [2653 \(2022\)](#) concerning Haiti.
208. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.
209. With regard to cooperation with other entities at the global, regional, national and local levels, in line with paragraph 22 of resolution [2653 \(2022\)](#), the Panel of Experts will cooperate with, among others, Member States, in particular neighbouring countries, and regional and subregional organizations, such as the Caribbean Community.
210. With regard to inter-agency coordination and liaison, the Panel of Experts will cooperate with, among others, the United Nations Integrated Office in Haiti (BINUH), UNODC and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel will cooperate with the Department of Safety and Security, BINUH and UNDP.
211. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
 - (a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;
 - (b) The security situation allows the Panel to conduct missions, as needed.

Programme performance in 2022

Establishing the Panel of Experts

212. To ensure the full implementation of the sanctions regime concerning Haiti, which includes a travel ban, an asset freeze and a targeted arms embargo, a group of four experts was established to assist the Committee in carrying out its mandate and to gather, examine and analyse relevant information, and will provide an interim and a final report to the Council in 2023 pursuant to resolution [2653 \(2022\)](#) and assist the Committee in updating information on listed individuals and entities.
213. Progress towards the objective is presented in the performance measure below (see table 61).

Table 61

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
–	–	Establishment of a group of four experts (Panel of Experts), which will assist the Committee in carrying out its mandate; gather, examine and analyse relevant information; provide an interim and a final report to the Council; and assist the Committee in refining and updating information on listed individuals and entities

Planned result for 2024

Full implementation of the sanctions regime concerning Haiti

Programme performance in 2022 and target for 2024

214. On 21 October 2022, the Security Council adopted resolution [2653 \(2022\)](#), in which the Council requested the Secretary-General to create a group of four experts (Panel of Experts) to assist the Committee in carrying out its mandate; gather, examine and analyse relevant information; provide an interim and a final report to the Council; and assist the Committee in refining and updating information on the list of individuals and entities subject to measures imposed pursuant to the resolution. Thus, activities in 2022 focused mainly on the establishment of the Committee and its operational readiness.
215. The mission's work in 2024, including the assessment of the progress achieved on the key benchmarks, will contribute to the full implementation of the sanctions regime by providing the Committee with information on individuals and/or entities meeting the designation criteria defined in paragraphs 15 and 16 of Security Council resolution [2653 \(2022\)](#). The target for 2024 is presented in the performance measure below (see table 62).

Table 62
Performance measure

2020 (actual)	2021 (actual)	2022 (actual)	2023 (planned)	2024 (planned)
–	–	Establishment of a group of four experts (Panel of Experts), which will assist the Committee in carrying out its mandate; gather, examine and analyse relevant information; provide an interim and a final report to the Council; and assist the Committee in refining and updating information on listed individuals and entities	Security Council and Committee receive the mandated reports and information on individuals and/or entities meeting the designation criteria	Security Council and Committee continue to receive information on individuals and/or entities threatening the peace, security or stability of Haiti and consider designating additional individuals and entities

Deliverables

216. Table 63 lists all deliverables of the mission.

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

^a Other level unless otherwise stated.

217. The proposed resource requirements for the Panel of Experts for 2024 amount to \$1,548,500 (net of staff assessment) and would provide for the salaries and common staff costs (\$428,800) for the continuation of three positions, comprising one Senior Political Affairs Officer (P-5), one Political

Affairs Officer (P-3) and one Meetings Services Assistant (General Service (Other level)) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs (\$1,119,700) comprising expert fees (\$502,200) and travel (\$192,200) of the four members of the Panel, official travel of staff (\$28,300), travel of Close Protection Officers (\$142,600) from various United Nations entities to support the experts while travelling in Haiti, and other operational and logistical support requirements, including the rental of premises, security support, rental of vehicles, communications and information technology services, and other supplies, services and equipment (\$254,400).

218. For 2024, no change is proposed to the number and level of positions for the Panel of Experts. A vacancy rate of 25 per cent has been applied to the estimates of staff costs.
219. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable primarily to the application of a lower vacancy rate of 25 per cent, compared with the rate of 50 per cent applied in 2023, and the latest salary scale and increased requirements for expert fees based on actual cost, offset in part by lower requirements for communications and information technology equipment and lower provision for the rental of premises, reflecting the application of an updated standard rate.

14. Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction

(\$3,473,600)

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

220. The special political mission in support of the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction is responsible for the provision of substantive, administrative and logistical support to assist the Committee in achieving the aims of the resolution. The mandate derives from Security Council resolution 1540 (2004) and from subsequent Council resolutions, including resolutions 1673 (2006), 1810 (2008), 1977 (2011), 2055 (2012), 2325 (2016), 2572 (2021), 2622 (2022) and 2663 (2022).
221. By its resolution 2663 (2022), the Security Council extended the Committee's mandate until 30 November 2032. The Council reiterated its decisions in resolution 1540 (2004) and re-emphasized the importance of all Member States fully implementing that resolution. In accordance with the renewed mandate, the Council reaffirmed that the proliferation of nuclear, chemical and biological weapons, as well as their means of delivery, constitutes a threat to international peace and security and further reaffirmed that all Member States should refrain from providing any form of support to non-State actors that attempt to develop, acquire, manufacture, possess, transport, transfer or use nuclear, chemical or biological weapons and their means of delivery.
222. In line with its renewed mandate, the mission considers implementation by Member States to be the cornerstone of the architecture relating to resolution 1540 (2004). As its top priority, the mission assists interested Member States in their national implementation efforts through country-specific visits and dialogues, national round tables, workshops and peer reviews, with the objective of building capacity, facilitating technical assistance and identifying and disseminating effective practices for the implementation of resolution 1540 (2004). The mission further supports the activities of the Committee through the organization of regional and subregional workshops on the implementation of the resolution and through country-specific missions and activities, cooperation between international and regional bodies, and the facilitation of outreach and effective partnerships with civil society and the private sector.

Programme of work

Objective

223. The objective, to which this mission contributes, is to prevent non-State actors from developing, acquiring, manufacturing, possessing, transporting, transferring or using nuclear, chemical or biological weapons and their means of delivery.

Strategy and external factors for 2024

224. To contribute to the objective, the mission will:
- (a) Facilitate assistance to Member States, upon their request, which includes, inter alia, support for national reviews of the status of implementation of resolution 1540 (2004), support for the development of national implementation action plans, capacity-building of government officials and national outreach activities to sensitize key stakeholders relevant to the implementation of resolution 1540 (2004);
 - (b) Promote regional cooperation on the implementation of resolution 1540 (2004) by conducting regional and subregional activities including, inter alia, regional training for points of contact for resolution 1540 (2004), peer review exercises relating to the resolution, and regional outreach workshops for Governments and civil society, which will be delivered in cooperation with relevant regional and subregional organizations as the mission continues to support the Committee's efforts to strengthen its relations with these organizations, as directed in resolution 1977 (2011);
 - (c) Follow up on the result of the 2022 comprehensive review of the status of implementation of resolution 1540 (2004). The review, mandated by the Security Council in its resolution 1977 (2011), assessed the implementation of the obligations under resolution 1540 (2004) and provided recommendations for the Council to consider in the renewed mandate of the Committee contained in resolution 2663 (2022). The mission will conduct outreach activities to raise awareness of the outcome of the review, develop projects supporting the implementation of the recommendations of the review and mobilize resources to effectively support the renewed mandate of the Committee. These activities will require further programmatic management assistance in line with an adequately resourced support structure.
225. The above-mentioned work is expected to result in:
- (a) Enhanced national capacity to implement the obligations under resolution 1540 (2004);
 - (b) An increased number of reports and national implementation action plans submitted to the Committee;
 - (c) Increased awareness and visibility of resolution 1540 (2004) and the risks posed by non-State actors acquiring access to weapons of mass destruction and their means of delivery;
 - (d) Increased cooperation between regional peers in implementing resolution 1540 (2004);
 - (e) The successful implementation of the recommendations as contained in the Committee's report on its 2022 comprehensive review of the status of implementation of resolution 1540 (2004).
226. With regard to cooperation with other entities at the global, regional, national and local levels, the mission cooperates with various Governments, international, regional and subregional organizations and civil society organizations on organizing outreach activities, including to industry and academia, to raise awareness of the requirements of resolution 1540 (2004) and to facilitate assistance to Member States upon their request to build capacity and to draft legislation to enhance the implementation of the resolution.
227. With regard to inter-agency coordination and liaison, the mission works closely with other relevant United Nations entities, such as UNODC, the Office of Counter-Terrorism, the United Nations Interregional Crime and Justice Research Institute and IAEA, to exchange information on activities relevant to resolution 1540 (2004), to plan and organize joint outreach and capacity-building events and to facilitate assistance to Member States upon their request. The mission also cooperates with the Security Council Committee established pursuant to resolution 1373 (2001) concerning counter-terrorism and its Executive Directorate, as well as the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning ISIL (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities and the Analytical Support and Sanctions Monitoring Team supporting that Committee.

228. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) The proliferation of weapons of mass destruction and their means of delivery to non-State actors remains a threat to international peace and security;
 - (b) The political environment in the Security Council continues to enable the Committee to reach consensus on the implementation of planned activities;
 - (c) Member States continue to cooperate with the Committee;
 - (d) Member States will have the need for assistance to comply with their obligations under resolution [1540 \(2004\)](#).
229. The mission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, and is guided by the gender policy of the Office for Disarmament Affairs. It recognizes that different segments of the population are affected differently by weapons, including weapons of mass destruction. Disarmament, arms control and non-proliferation efforts are strengthened when they are analysed through a gender lens. Diversity, inclusion and the equal, full and effective participation of and leadership by women and men in disarmament are crucial components for international peace and security and the effective operation of the disarmament machinery.
230. In line with the United Nations Disability Inclusion Strategy and guided by the disability inclusion action plan of the Office for Disarmament Affairs, the mission, in support of the Committee, promotes diversity and inclusion and ensures inclusive programming throughout its work, including, inter alia, the inclusion of disability perspectives. The mission promotes an inclusive work environment that enables all stakeholders to participate fully and effectively in disarmament forums and processes. The mission takes an intersectional approach to disability inclusion that considers other related and reinforcing factors, such as gender and age.

Impact of the pandemic and lessons learned

231. The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates. In particular, the Committee was unable to conduct the comprehensive review by 25 February 2022, subsequently delaying its completion until November 2022.
232. The mission continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the use of virtual platforms for preparatory and follow-up meetings that help ensure adequate support and follow-up to all efforts by Member States necessary to maintain political will and long-term sustained implementation, which will continue in 2024. For instance, the mission facilitated a virtual workshop in Botswana on a national action plan to implement resolution [1540 \(2004\)](#) and conducted various national dialogues with government officials and stakeholders virtually.

Programme performance in 2022

Successful completion of the comprehensive review of the status of implementation of Security Council resolution [1540 \(2004\)](#)

233. The mission, under the guidance of the Committee, successfully completed the comprehensive review of the status of implementation of Security Council resolution [1540 \(2004\)](#) mandated by resolution [1977 \(2011\)](#). The review was based on information received by the Committee through its approved matrices and other relevant information, and on inputs from Member States and relevant international, regional and subregional organizations. The mission, through the Committee, held open consultations on the comprehensive review from 31 May to 2 June 2022 in which representatives of Member States, international and regional organizations and civil society

informed the Committee of their views on the implementation of resolution 1540 (2004) and made practical recommendations for its improvement.

234. The mission, through the work of Committee, successfully completed a report on the 2022 comprehensive review. The mission also conducted outreach activities to raise awareness of the comprehensive review among Member States and relevant international, regional and subregional organizations, encouraging them to participate in the discussions and submit inputs to the Committee.
235. Progress towards the objective is presented in the performance measure below (see table 66).

Table 66

Performance measure

<i>2020 (actual)</i>	<i>2021 (actual)</i>	<i>2022 (actual)</i>
Conclusion of the comprehensive review of the status of the implementation of resolution 1540 (2004) postponed to 2021	Comprehensive review of the status of the implementation of resolution 1540 (2004) ongoing	Comprehensive review of the status of the implementation of resolution 1540 (2004) concluded

Planned result for 2024**Enhanced regional cooperation on implementing resolution 1540 (2004)****Programme performance in 2022 and target for 2024**

236. The mission's work contributed to the successful conclusion of the comprehensive review and the conduct of 10 regional workshops that promoted a regional approach towards the full implementation of resolution 1540 (2004). This exceeded the planned target of two workshops, originally planned for 2022, which was attributable to the resumption of travel, in-person events and external entities carrying out the backlog of activities postponed during the pandemic.

Lessons learned and planned change

237. The lesson for the mission was the importance of ensuring adequate and tailored support and follow-up to all efforts by Member States, in order to maintain political will and interest related to the long-term endeavour of implementation. In applying the lesson, the mission will focus on strengthened cooperation with its partners and organize joint activities that allow for comprehensive and quality deliverables for Member States and the Committee. The mission will also continue to strengthen its provision of support by working through regional coordinators to oversee regional cooperation in implementing resolution 1540 (2004). Expected progress towards the objective is presented in the performance measure below (see figure III).

Figure III

Performance measure: number of regional workshops supporting the implementation of resolution 1540 (2004)

Deliverables

238. Table 67 below lists all deliverables of the mission.

Table 67

Deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
A. Facilitation of the intergovernmental process and expert bodies

	USG	ASG	D-2	D-1	P-5	P-4	P-3	P-2	FS	GS	Subtotal	NPO	LL	Subtotal	International	National		Subtotal
Approved 2023	–	–	–	–	1	–	2	–	–	2 ^a	5	–	–	–	–	–	–	5
Proposed 2024	–	–	–	–	1	–	2	–	–	4 ^a	7	–	–	–	–	–	–	7
Change	–	–	–	–	–	–	–	–	–	2	2	–	–	–	–	–	–	2

^a Approved staffing for 2023 includes two positions at the Other level, while proposed staffing for 2024 includes three positions at the Other level and one at the Principal level.

239. The proposed resource requirements for the mission for 2024 amount to \$3,473,600 (net of staff assessment) and would provide for salaries and common staff costs (\$924,200) for the continuation of five positions (1 P-5, 2 P-3 and 2 General Service) and the establishment of two positions (General Service) to provide substantive and administrative support to the Committee, and operational costs (\$2,549,400) comprising expert fees (\$1,867,300) and travel (\$158,600) of the nine experts of the Committee, official travel of the members of the Committee and staff (\$131,200), facilities and infrastructure (\$259,400) and communications and information technology (\$132,900).

240. In paragraph 28 of its resolution [2663 \(2022\)](#), the Security Council underscored the importance of the Committee's support structure being adequately resourced, particularly in view of the workload related to monitoring and supporting full implementation of resolution [1540 \(2004\)](#), including involvement in outreach events, the functioning of the assistance mechanism, and correspondence and other communications, and requested the Secretary-General to make the necessary arrangements to that effect. Through its work to date, the mission has identified additional capacity needs owing to the scale of programmatic activities and the volume of correspondence of the Committee, so as to be more responsive to the specific needs of Member States and to further strengthen the capacity of the Committee to process communications. It is proposed to establish two support staff positions:

- (a) A position of Programme Assistant (General Service (Other level)) to provide programmatic support and administrative services to the Committee, its Chair and experts related to aspects of programme administration, including assistance in implementation, coordination, budget preparation and periodic reporting for programme activities;

- (b) A position of Senior Meetings Services Assistant (General Service (Principal level)) to provide secretariat services to the Committee, its Chair and its four working group coordinators, including the circulation of all correspondence and communications of the Committee and its four working groups and the making of all necessary arrangements for the meetings of the Committee and the working groups. While the Office for Disarmament Affairs provides support for the substantive activities of the Committee, the Security Council Affairs Division of the Department of Political and Peacebuilding Affairs provides secretariat services to the Committee and its group of experts. In line with this support structure, it is proposed that this position be located in the Security Council Affairs Division.
241. A vacancy rate of 6.7 per cent has been applied to the estimates of staff costs, based on the actual average vacancy rate in 2022, and a vacancy rate of 50 per cent has been applied to the cost of the proposed new positions.
242. The increase in the requirements proposed for 2024 compared with the appropriation for 2023 is attributable mainly to: (a) higher requirements under civilian personnel costs resulting from the establishment of two new positions and the application of the latest salary scale and a higher percentage of common staff costs based on recent expenditure patterns, offset in part by the application of a higher vacancy rate of 6.7 per cent compared with the rate of 5 per cent applied in 2023; (b) increased requirements under expert fees resulting from a change in the Panel's composition, as well as a higher cost-of-living allowance effective 1 March 2023; and (c) additional requirements for the rental of premises with respect to the proposed establishment of two positions. The overall increased requirements are offset in part by lower requirements for the maintenance of communications and information technology equipment and support services, as the development of an online database, as well as web collaboration space with the Office for Disarmament Affairs, for which provisions were provided in the approved budget for 2023, will have been completed, with only maintenance required from 2024 onward.

Extrabudgetary resources

243. In 2023, extrabudgetary resources in the amount of \$1,100,000 will be used to organize or support a number of activities in support of resolution [1540 \(2004\)](#), including country visits, facilitation of the participation of Member States in events related to the resolution, and other country-specific activities. The resources will also cover the continuous work of two Regional Coordinators (P-4) stationed in Africa and Asia, along with a Political Affairs Officer (P-3) responsible for project implementation globally. The Regional Coordinators and the Political Affairs Officer are responsible for communicating and organizing regional events in support of the resolution [1540 \(2004\)](#) mandate.
244. In 2024, extrabudgetary resources in the amount of \$1,100,000 are projected to be used to organize or support a number of activities relating to resolution [1540 \(2004\)](#), including country visits, facilitation of the participation of Member States in events related to the resolution, and other country-specific activities. The resources will also cover the continuous work of the two Regional Coordinators (P-4) stationed in Africa and Asia, along with the Political Affairs Officer (P-3) responsible for project implementation globally.

15. Counter-Terrorism Committee Executive Directorate

(\$11,788,100)

Foreword

In 2024, the Counter-Terrorism Committee Executive Directorate will continue to support the Counter-Terrorism Committee in its efforts to fulfil its mandate to monitor, promote and facilitate the implementation by Member States of relevant Security Council resolutions on terrorism. The Security Council granted the Executive Directorate a renewed mandate until December 2025 through its unanimous adoption of resolution [2617 \(2021\)](#) in December 2021.

The Executive Directorate will continue to assess progress achieved and remaining shortfalls in the counter-terrorism measures of Member States. The Executive Directorate remains committed to facilitating the delivery of technical assistance and to promoting international standards, codes and good practices.

The number of counter-terrorism resolutions adopted by the Security Council has grown significantly in the past few years in response to the terrorist threat. In its resolution [2617 \(2021\)](#), the Council encouraged the Executive Directorate to support Member States in developing their strategies for reducing risks to critical infrastructure and soft targets from terrorist attacks, and to raise awareness of the threats posed by the use of unmanned aerial systems and the illicit trade of and traffic in cultural property for terrorist purposes. The Executive Directorate will continue to keep abreast of new and emerging threats and trends and challenges related to international peace and security caused by terrorist acts.

As the threat of terrorism continues to evolve, the work of the Executive Directorate will remain essential. The Executive Directorate will continue to promote a “One United Nations” approach to move towards the common goal of eradicating the scourge of international terrorism.

(Signed) Natalia **Gherman**
Executive Director, Counter-Terrorism Committee Executive Directorate

A. Proposed programme plan for 2024 and programme performance in 2022

Overall orientation

Mandates and background

245. The Counter-Terrorism Committee Executive Directorate is mandated to support the Counter-Terrorism Committee in its work to monitor, promote and facilitate the implementation by Member States of the relevant Security Council resolutions on terrorism. The mandate derives from Council resolution 1373 (2001) and its successor resolutions, including 1377 (2001), 1535 (2004), 1566 (2004), 1624 (2005), 1787 (2007), 1805 (2008), 1963 (2010), 2017 (2011), 2129 (2013), 2133 (2014), 2160 (2014), 2161 (2014), 2170 (2014), 2178 (2014), 2185 (2014), 2195 (2014), 2220 (2015), 2242 (2015), 2253 (2015), 2309 (2016), 2322 (2016), 2331 (2016), 2341 (2017), 2354 (2017), 2368 (2017), 2370 (2017), 2388 (2017), 2395 (2017), 2396 (2017), 2462 (2019), 2482 (2019) and 2617 (2021). In addition, the United Nations Global Counter-Terrorism Strategy sets forth several tasks for the Executive Directorate with respect to facilitating the delivery of technical assistance and promoting good counter-terrorism practices. By its resolution 2617 (2021) on threats to international peace and security caused by terrorist acts, the Council extended the mandate of the Executive Directorate until 31 December 2025.

Programme of work

Objective

246. The objective, to which this mission contributes, is to enhance and consolidate Member States' counter-terrorism policies, institutions and operations by ensuring the full implementation of Security Council resolution 1373 (2001) and other relevant Council resolutions by Member States and to inform the efforts of the United Nations to provide related capacity-building and technical assistance.

Strategy and external factors for 2024

247. To contribute to the objective, the Executive Directorate will:
- (a) Assist Member States in identifying and addressing implementation and capacity gaps in accordance with the requirements of resolution 1373 (2001) and subsequent Security Council resolutions on terrorism, both through assessment visits and through assessment tools such as the electronic detailed implementation survey (e-DIS) and the overview of implementation assessment, and make technical recommendations to Member States on ways to strengthen their implementation of the relevant resolutions. The Executive Directorate will engage closely with the Office of Counter-Terrorism and other partners to facilitate the delivery of technical assistance aimed at implementing the recommendations of the Counter-Terrorism Committee;
 - (b) Continue to strengthen its assessment process relating to countering the financing of terrorism, including through targeted and focused follow-up visits as complements to its comprehensive assessments, as well as to annual assessments of gaps and areas requiring more action to implement key provisions of the relevant Council resolutions related to countering the financing of terrorism for the purpose of designing targeted technical assistance and capacity-building efforts by relevant partners;
 - (c) Strengthen and build partnerships with the member entities of the United Nations Global Counter-Terrorism Coordination Compact, international and regional organizations, academia, civil society and the private sector. The Executive Directorate will also continue to prioritize

- partnerships with other relevant United Nations entities, using its comparative advantage as the expert assessment body for the Council and the Committee. The Executive Directorate's technical expertise will contribute to the overall capacity-building efforts of the United Nations system;
- (d) Contribute to identifying and assessing emerging issues, trends and developments relating to relevant resolutions. In this respect, it will prepare and publish analytical materials, reference tools and guidelines and promote the relevant international standards, codes and best practices.
248. The above-mentioned work is expected to result in the strengthening of Member States' capacities to:
- (a) Combat terrorism and achieve the full implementation of resolution 1373 (2001) and other relevant resolutions;
- (b) Build resilience to terrorism and violent extremism which is conducive to terrorism among all sectors of society;
- (c) Operationalize their obligations pursuant to resolution 1373 (2001) and other relevant resolutions by facilitating acceptance and understanding of the international best practices, techniques and tools available to combat terrorism.
249. With respect to cooperation with other entities, the Executive Directorate will continue to develop or strengthen partnerships aimed at assisting States to, inter alia, counter the financing of terrorism, counter online terrorist content, protect critical infrastructure and "soft" targets against terrorist attacks and deploy biometric capabilities. The Executive Directorate will also continue to leverage its Global Counter-Terrorism Research Network in order to bring together policymakers and researchers from around the world and will continue to engage and enhance its partnerships with international, regional and subregional organizations, civil society organizations, think tanks and academic organizations in order to assist the Committee in identifying national, regional and thematic challenges, developments and trends.
250. With respect to inter-agency coordination and liaison, the Executive Directorate will continue to work closely with other United Nations entities, including within the framework of the United Nations Global Counter-Terrorism Coordination Compact, to facilitate, through its expertise and recommendations, the effective delivery of technical assistance and capacity-building to Member States. The Executive Directorate will continue to collaborate with the Office of Counter-Terrorism and UNODC on relevant issues. The Executive Directorate will continue to work closely with other Security Council subsidiary bodies and their expert groups to enhance information-sharing; plan and organize joint special meetings and coordinate visits to Member States; and cooperate in other ways to assess implementation by Member States of the relevant Council resolutions. The Executive Directorate will also continue to maintain strong cooperation with OHCHR and the Special Rapporteur on the promotion and protection of human rights and fundamental freedoms while countering terrorism.
251. With regard to the external factors, the overall plan for 2024 is based on the following planning assumptions:
- (a) The consent of Member States to receive assessment visits;
- (b) The ability to organize and conduct visits in accordance with United Nations safety and security measures.
252. The Executive Directorate integrates a gender perspective in its operational activities, deliverables and results, and works with the United Nations Global Counter-Terrorism Coordination Compact Working Group on Adopting a Gender-Sensitive Approach to Preventing and Countering Terrorism.

Impact of the pandemic and lessons learned

253. The continuation of the COVID-19 pandemic into 2022 had an impact on the implementation of mandates, in particular, the ability to carry out on-site assessment visits to Member States. The Committee adopted a temporary hybrid visit model in 2020 consisting of two components: an initial virtual component and a subsequent physical component to be conducted when circumstances permit. The Executive Directorate resumed on-site assessment visits in April 2022, although not all Member States to which visits had been approved by the Committee consented to the visit dates given for, among other reasons, the lingering challenges of the pandemic. This had an impact on the achievement of the planned target under result 1 below.
254. The mission continues to mainstream lessons learned and best practices related to the adjustments to and adaptation of the programme owing to the COVID-19 pandemic, including the use of virtual consultations prior to an on-site assessment visit or mission focused on the facilitation of technical assistance. The virtual component of the hybrid assessment enabled the Executive Directorate to carry out its monitoring mandate on behalf of the Committee. The physical component, however, permitted the mission to accurately evaluate the full terrorist threat scenario and to identify progress, strengths and gaps related to the effective implementation of the relevant Security Council resolutions and effective practices for Member States to address new and emerging trends and challenges.

Programme performance in 2022

255. In 2022, the Executive Directorate, acting on behalf of the Committee, conducted nine assessment visits to Member States. The Committee adopted three country assessment visit reports, which were subsequently uploaded to the United Nations Global Counter-Terrorism Coordination Compact portal. The Executive Directorate also completed 22 overviews of implementation assessment and electronic detailed implementation surveys, based on its in-depth research.
256. Overviews of implementation assessment and electronic detailed implementation surveys were shared with the respective permanent missions to the United Nations and with entities of the United Nations Global Counter-Terrorism Coordination Compact unless a Member State requested that specific information or the entire overview of implementation assessment remain confidential. Global Compact entities relied on the findings contained in the visit reports and other assessments of the Counter-Terrorism Committee to develop targeted technical assistance for Member States. The Executive Directorate started to test internally the electronic detailed implementation survey data to produce quantitative analysis and data visualizations. The Executive Directorate generated initial regional and global comparisons and priority areas of progress that, inter alia, increased understanding of trends and areas of technical assistance, which enhanced the capacity of Member States to implement their obligations relating to counter-terrorism.
257. Progress towards the objective is presented in the performance measure below (see figure IV).

Figure IV

Performance measure: country assessment reports and detailed implementation surveys and overviews of implementation assessment

Planned results for 2024

Result 1: assisting Member States in identifying and addressing implementation and capacity gaps related to resolution 1373 (2001) and subsequent Security Council resolutions on counter-terrorism

Programme performance in 2022 and target for 2024

258. The Executive Directorate's work contributed to the identification of capacity gaps in the implementation of resolution 1373 (2001) and subsequent Security Council resolutions by the nine Member States that hosted the on-site assessment visits. This did not meet the planned target of 15 assessment visits in 2022 for a variety of reasons, including the lack of consent from Member States to host the delegation due to ongoing challenges arising from COVID-19, and domestic political considerations and exigencies such as election preparations. The Executive Directorate will continue to engage in dialogue with Member States to which visits have been approved by the Committee to secure consent to the visit. Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure V).

Figure V

Performance measure: number of Member States receiving assessment visits

Result 2: better alignment of United Nations technical assistance and capacity-building with implementation and capacity gaps identified by the Counter-Terrorism Committee Executive Directorate, supporting balanced implementation of the United Nations Global Counter-Terrorism Strategy

259. The Executive Directorate strengthened technical assistance by providing implementing partners with specific recommendations for designing capacity-building activities. Its work contributed to the balanced implementation of the United Nations Global Counter-Terrorism Strategy, which met the planned target of 25 capacity-building workshops, meetings and events to which the Executive Directorate contributed expertise.
260. The Executive Directorate assisted in identifying, based on its assessments, States to receive capacity-building technical assistance, and contributed to strengthening the capacities of States to manage terrorist offenders. It also contributed to technical assistance delivery by leading missions focused on countering terrorist threats against vulnerable targets and combating the trafficking of small arms and light weapons to terrorists, as well as consultations which enhanced the capacities of States to counter terrorist travel.
261. Progress towards the objective and the target for 2024 are presented in the performance measure below (see figure VI).

Figure VI

Performance measure: number of capacity-building workshops, meetings and events to which the Counter-Terrorism Committee Executive Directorate contributed expertise

Result 3: identification of trends and provision of advice on practical ways for Member States to implement resolution 1373 (2001) and subsequent Security Council resolutions

262. The Executive Directorate advised the Counter-Terrorism Committee on ways for States to implement resolution 1373 (2001) and subsequent resolutions, and met the planned target of nine technical materials providing guidance to Member States on the implementation of relevant Security Council resolutions.
263. The Executive Directorate strengthened its engagement with technical assistance providers to advise States, incorporating consultations to enhance support and avoid duplication.
264. The Executive Directorate will continue to promote 2022 publications, such as the technical guidelines on preventing terrorists from acquiring weapons, through workshops and capacity-building activities and by using the guidelines as a tool to strengthen the capabilities of States.
265. In accordance with relevant Security Council resolutions and the Delhi Declaration of the Counter-Terrorism Committee on countering the use of new and emerging technologies for terrorist purposes of 2022, the Executive Directorate will develop guiding principles on the implementation of resolution 1373 (2001).

Lessons learned and planned change

266. The lesson for the Executive Directorate was the need to utilize more regionally diverse data sources to better assess global counter-terrorism and terrorism-related issues. The Executive Directorate has incorporated more regions, country visits and partner organizations but will further expand its geographical reach. The Executive Directorate is also deepening cooperation with academia, civil society and the private sector, to enhance its analytical focus on counter-terrorism challenges, including relevant human rights issues.
267. The Executive Directorate will strengthen its engagement with regional entities and bilateral providers of technical assistance to ensure consistency in identifying and addressing gaps.
268. It aims to develop 10 publications and guides to help strengthen State compliance with relevant Security Council resolutions.
269. Expected progress towards the objective is presented in the performance measure below (see figure VII).

Figure VII

Performance measure: number of technical materials providing guidance to Member States on the implementation of relevant Security Council resolutions**Deliverables**

270. Table 70 below lists all deliverables of the Executive Directorate.

Table 70

Deliverables for the period 2022–2024, by category and subcategory

<i>Category and subcategory</i>	<i>2022 planned</i>	<i>2022 actual</i>	<i>2023 planned</i>	<i>2024 planned</i>
